MR. CHAIRMAN : Don't give speeches. Be specific.

There are so many directions from the High Court of Andhra Pradesh. There are so many issues.

(INTERRUPTIONS FURTHER CONTINUED)
MR. CHAIRMAN: I can understand. But the habit of force you have to understand. Hon'ble Members, try to understand. It is easy for him to speak in English. Understand the spirit.

SRI G.VINOD: The Insurance Medical Services Department is providing medical care to 6,85,794 persons and their family members are totalling 40,67,000 workers in 27,000 factories through the network of ESI hospitals with the bed strength of 1149 and 134 ESI dispensaries including one Ayurved Hospital, one Homeo Hospital, 53 panel clinics and one Diagnostic Centre at Jeedimetla. The Insurance Medical Services Department is providing out patient services to ESI beneficiaries and inpatient services through ESI hospitals. The beneficiaries are given free drugs and medicines in the department. The medicines are purchased from the firms approved by ESI. To a query raised with regard to rate contract, Sir, the rate contract is finalized by ESI Corporation of Delhi. They have certain systems and procedures which are being adopted by the State and the Central Governments. They had to go through the contract systems. For some reasons, there might have been shortfall of medicines. I assure the House and the gentlemen over here that all the medicines are available in the quickest time frame. Nowhere in the country these kind of facilities the ESI hospitals are having. I am assuring the Hon'ble Member that the medicines wherever they are using, the hospitals are taking care to see that their personal money by the department is arranged and given. For some reasons, there might have been a shortfall of medicines. But, for any emergency case, they have already taken up this issue and this subject is being debated at great length. Very recently, a meeting was held in Delhi. The ESI Hospital authorities have made their own arrangements for this 100 bedded hospital taking into account as to how people are suffering. 120 bedded hospital is expected to be cleared in a span of three months. As whatever Padmajaji has told, I am giving you the subject matter.

(INTERRUPTIONS)

SRI G.VINOD: I am not going as a Call Centre Operator is speaking. I am going like whatever language is convenient to me. I will try to do my best in Telugu also.
we are ready to answer to any question by any Member. We welcome to share these points. We are not going back or we will not hesitate to answer any kind of question. Whoever gentlemen wants, we are willing to answer it. I am doing both in Telugu and English. It depends on the way, the gentleman wants. I am ready to share. I am ready to share the information with the Members.

sincerely,

Syed Altaf Hyder Razvi: Regarding the Bill for Reservation of Muslims, our party has been demanding reservation for Muslims on the basis of their backwardness for over four decades. Sir, this issue had first come up in the year 1968 when Sri Kasu Brahmananda Reddy was the Chief Minister. Reservations to backward sections of Muslims was sought on the basis of Ananta Raman Commission Report.
submitted in the year 1970 and then the Government included some sections of muslims like ladaf, pinjari and noor bash in BC 'B' category. We also represented before the II B.C. Commission known as Muralidhar Rao Commission for the inclusion of muslims in backward classes. The Commission submitted its Report in the year 1982 and the recommendation is only for the inclusion of Qureshis from muslim community in the list of Backward Classes. Sir, Islam is one. Muslims cannot be divided on the basis of caste. There is no caste system in Islam.

We are for the reservation of muslims and we are not opposing the Bill. Do not misunderstand me. There are certain things which need to be corrected here. That is the reason as to why our party has given amendments to the Bill. Now, as far as I feel, the majority among the muslim minority community is still deprived of the reservations. Are there no poor people or there no socially, economically and educationally backward muslims among sayyads among arabs, shiyas, bohras and maimans? Let the Government come out and say that there is no backwardness in these communities and that these are straightaway excluded from the list. When there are Reports of two Commissions, I just want to remind the promise made by the Congress Party about its manifesto in the last elections.

Sir, the quantum of reservation is reduced from 5% to 4%. But at the same time, the muslim community is divided on the caste basis which is not right.

MR.CHAIRMAN: I am telling you, please listen to me. Reservation is on the basis of class. There is no reservation in the Constitution of India on the basis of caste. It is on the basis of class only.

SRI SYED ALTAF HYDER RAZVI: Sir, the quantum of reservation has been reduced saying that more than 50% reservation cannot be provided. In Tamil Nadu, there is 69% reservation. In Karnataka and Kerala, it is all exceeding 50%. I would like to know from the Government the reasons as to why the quantum of reservation has been reduced from 5% to 4%.

The Ananta Raman and Muralidhar Rao Commission had specifically cleared that there is no caste among muslims and the muslim brotherhood is a shining example of social equality. Now, Krishna Subramanyam Report have divided muslim community by artificially carving out caste, its occupation and groups among muslims.

Sir, I request all the political parties to support us to the amendments that have been given to this Bill.

I thank you for giving me this opportunity.

Population rectification would be the generation of social and educational backwardness as a result of which the government has to work on the development of the area. The government has to work for the development of the area and the reservation to the education and jobs should be done to the people of the area. The reservation of the education and jobs should be done to the people of the area and the rectification should be done to the people of the area. The rectification should be done to the people of the area and the reservation to the education and jobs should be done to the people of the area. The reservation to the education and jobs should be done to the people of the area.

The government has to work for the development of the area and the reservation to the education and jobs should be done to the people of the area.

reservations in perpetuity. The commitment to reservations has been a matter of debate and controversy. In recent years, political meetings have been held to discuss the reservations system. It is argued that reservations have helped to ensure representation for underprivileged groups, but critics argue that they have been discriminatory and have perpetuated inequality.

In 2005, the issue of reservations was highlighted in a debate in the Indian Parliament. The discussion wasัก, 15(4), 16(4) ग्राहिक विशेषता (विज्ञान)}

Central O.B.C. List
Social backwardness is a term used to describe the social and economic disadvantages faced by certain groups in society. These groups are often denied equal opportunities due to their cultural, religious, or linguistic backgrounds. In India, the term is particularly relevant in the context of reservations, which are government policies aimed at providing special opportunities and resources to historically disadvantaged groups. These policies include reservation quotas in education and employment to ensure that members of these groups have a fair chance at success.

In Tamil Nadu, the implementation of reservations has been a contentious issue. The state has one of the highestreservation rates in the country, with certain categories of socially and educationally backward classes (SEBC) eligible for reservation in educational institutions and government jobs. This has led to debates on the effectiveness and fairness of such policies, as well as the question of whether they promote social equality or perpetuate discrimination.

The concept of reservations was introduced in India to address the historical disadvantages faced by certain communities. However, the extent and nature of these reservations remain a subject of debate, with some arguing that they have helped level the playing field, while others criticize them for creating a sense of entitlement and undermining merit-based systems.

In summary, the topic of reservations in Tamil Nadu and other parts of India highlights the ongoing challenges in achieving social justice and equality. The policies continue to evolve, with debates and discussions focusing on their impact, effectiveness, and the need for continued reforms in the pursuit of a more inclusive and equitable society.
