Sir, if it is not addressed now, it is going to be an ever lasting problem. So much of gas is available in our State and Oil Companies are ready to lay the pipelines to households in the cities like Vizag, Vijayawada and Hyderabad. If the Government does not have the information with it, through you, I would request them to get the information, without any further delay and expedite on laying the pipelines for the supply of gas.

Seizure value prior to that 2006 in 10,793 L.P.G. Cylinders were seized and an amount of Rs.58.84 lakhs was collected.
This is question hour and you have to stick to the question and answers. I am advising all the Members that before coming to the House, you go through the list of questions so that you will have an idea.

Reliance is not a public sector company. It is only a private company.
The Hon'ble Minister is available now.

MR. CHAIRMAN: I have already informed the Minister that the question is postponed and the same will be taken up at the end of the question hour.
The Government is not shirking away from its responsibility. Even the allegations made by some newspapers have been entrusted to the Committee for enquiry.

But, the Government with all sincerity has taken it up very seriously. The Government is not shirking away from its responsibility. Even the allegations made by some newspapers have been entrusted to the Committee for enquiry. Basically, it is a recommendatory body.

For example
the suggestions made by the Vigilance Commissioner - if so, as per Department? For example, if the Department is convinced that the punishment is too harsh - there is a procedure for all this. The efficiency of the A.C.B., is also questioned. There is a procedure for all this. Most of the Reports, Annual Vigilance Commission Reports are honest, and even though it is not an official report but still as a moral responsibility because this has been given by a senior officer, who has been the Vigilence Commissioner for three years, the Government with all sincerity took it up seriously and taking action on this. Honest is a continuous process. The Government is a continuous process. The Government is a continuous process. Most of the Reports, Annual Vigilance Commission Reports are honest, and even though it is not an official report but still as a moral responsibility because this has been given by a senior officer, who has been the Vigilence Commissioner for three years, the Government with all sincerity took it up seriously and taking action on this.
The question is credibility of the ACB. I am only deputizing the Chief Minister. On behalf of the Chief Minister, I am replying to this question.

Let us be practical. Let us identify the issues. Are there any deviations in the suggestions made by the Vigilance Commissioner? If there are, have they been done as per the rules? What is the final result?

In these three years, the Vigilance Commissioner has not given the report. We are not at all deviating. Are there any deviations in the suggestions made by the Vigilance Commissioner? If there are, have they been done as per the rules? What is the final result? It is expected to be placed on the Table of the House. That has not been done since 1997. 1997 - 2003 if I remember right?. It is subject to correction. The Vigilance Commissioner has sent the report to the Government. The Government did not react.

Here is the question pertaining to Samal Report. Mr. Samal has not given a report. He has written his experiences during his period of three years as Vigilance Commissioner. The Government has taken it seriously as a document. The Vigilance Commissioner has not given the report. We are not at all deviating.
MR. CHAIRMAN: Enough is enough. I mean, every day you are doing without telling me.

SRI TIRUMALA SRINIVASULU: Sir, there is a very fundamental question to be put. A retired officer however big he is, after retirement should not divulge any of the Government documents. He should not say anything about what he had done at least for about two years according to the Conduct Rules. So, this Government has gone on record by accepting the version of a man who has retired who is not ethically concerned and who should have got all these things rectified. Keeping his incompetence behind, still the Government has held its Head high and appointed a Committee. I really do not know how best it can be explained. I was in the Police Force for 36 years. I am privy for so many incidents, but I never went against the Fundamental Rules.

So, here is a person who had no guts to say what he said now, during his tenure. He comes out and gives it in the Press. Sometimes your Party will also come to rule. You should not encourage a Government servant after retirement to indulge in types of monkey tricks. Please bear this in mind because it is a too serious point.
Another thing is, if this trend is allowed what will happen to the Army if Kargil war is discussed and if a man who is defeated is discussed? If a Judge is allowed to divulge after retirement, what will happen to the Judiciary? It amounts to opening up of a pandora’s box. Very scientifically, legally and ethically, he should not have been accepted. It was at best a paper in the dust-bin. So, that being the case, with all these things, having known the public perception, being bandied in the Press, the Government has taken note of it and has given reply at length. So, a thing which should not have been discussed, a thing which should not have come to light, a thing which should have been thrown away has come to be taken for action. I should compliment the Government, but at the same time I express my serious concern. Please bear it in mind, if not in 2009, at least you may come into power in 2011. So, by that time you should also realise. So, don’t ask these type of questions.

MR. CHAIRMAN: What is your protest?

MR. CHAIRMAN: It is not a court, Let’s realise the practical thing.

It is a failure of your Party.
MR. CHAIRMAN: Let him say. You can't direct. He is going to reply about your points. That is why I have given and you have taken half an hour time on behalf of all your group as Leader of Opposition. You please put your question.

But they were not placed on the table of the House. Though it is not an official document, still the Government has taken up the responsibility to investigate that only for creating the confidence of the people.

MR. CHAIRMAN : I am going to next question. From both sides every body should help me.

V.C is appointed Vigilance Commissioner. It is only an Advisory Body and it is only a suggestion giving body. It is obligatory on the part of the Government. That has not been done from 1997 to 2003. It is not an official document. Is there any demand for judicial enquiry?

As Chairman, I am directing you to give notice under Rule 311 or Rule 70 for discussion. But you are going back on that. You want to waste the time of the House? You were Lecturer earlier. It is very bad on your part. Please take your seat. Now, I will go to next question.
MR. CHAIRMAN: (Addressing Sri D. Veerabhadra Rao) Please advise your Member. Being a Lecturer, should he behave like this? We have conducted one-day training class about the Rules and Procedures of the House for the Hon'ble Members. I think that one-day training class is not enough. You have to keep up the trust of the public and the mandate given by the voters. Please gain the confidence of the public.

Sarva Sri B. Kamalakar Rao, K.R. Amos - Will the Minister for School Education be pleased to state:

a) Whether there is any comprehensive policy for educational facilities to Pravasa Andhras residing in other States?
b) Whether there is any proposal to constitute a House Committee to study the needs and recommend the provisions to the Government for educational facilities to the people residing outside the State?
c) Whether the Government is aware that Orissa and other States have constituted such Committees in the matter; and
d) if so, the action taken in this regard?

MINISTER FOR SCHOOL EDUCATION (SRI C. DAMODAR RAJA NARSIMHA):

a) No, sir. However, the Government is seriously contemplating to evolve a policy for protecting the educational interests of Telugu speaking people living in other States.
b) No, sir. However, in the interest of Telugu speaking people living in other States and with a commitment to formulate a policy, Government would constitute a Committee to study the issues relating to educational facilities of Telugu speaking people living in other States.
c) No, sir.
d) Does not arise.

SRI B. KAMALAKAR RAO: Sir, there are two issues involved in respect of educational facilities to Pravasa Andhras residing in other States viz., financial support and the technical support for education, particularly the Telangana people who are going
to Mumbai for their livelihood are the poorest of the poor and they are facing lot of problems. Similarly, the Telugu speaking people living in New Delhi, especially the people belonging to middle class are also facing the similar problems because they are treated as non-locals there. Further, when they come here they are treated as non-locals in our state. There is an immediate need to bring out a policy. Luckily, our Hon'ble Chief Minister is here today and when he went to New Delhi for electioneering, the people have represented their grievances in my presence. I request the Government to come forward with a comprehensive policy for supporting and improving the educational facilities for the Pravasa Andhras living in different states, especially the financial as well as the technical support.

SRI C. DAMODAR RAJANARSIMHA: Sir, I completely agree with the opinion of the Hon'ble Member.

permanently constituted to lookafter the interest of the Telugu Speaking people, mostly their educational needs etc.,
Now, the ball is in the court of Hon’ble Chairman, A.P. Legislative Council and the Hon’ble Speaker, A.P. Legislative Assembly. As and when you feel fit, please constitute the Joint House Committee so that it can function.

Hon'ble Speaker

I appeal to the Chief Minister. He has accepted in principle. Be liberal.
