So, it becomes necessary to implement it. There should be a specific rule asking the students who opt for MBBS education to go to the rural areas and work there at least for 5 years. If they do not do that, the coast incurred on their education should be recovered from them.

Sri B. Kamalaker Rao: The Government of India had proposed to State Government in 2003 for having water ways. Mr.K.V. Rao, my friend was Secretary of the Department, he wrote to Government of Andhra Pradesh for making proposals so that the Government of India would sanction. Sir that letter has been recently attended by this Government. There are two important water ways which are very very feasible and possible; one is from Badrachalam to Rajahmundry and the other is from Vazeerabad to Vijayawada. Sir, there are apprehensions i.e., the water projects come up in these areas, the Government of Andhra Pradesh may object that is the doubt that people are having in the fields. Sir, in fact I have requested Mr. Ponnala Laxmaiah, who happened to be my friend that this is related to you also. I requested him to be here to interrelate this answer. That's what I wanted to get to the notice of the Chairman now. Sir, the important factor is that, water transport is the cheapest to the country and we are getting the funds from the Centre to the State and centre is the beneficiary. What ever funds we have to get from the centre, the Government of Andhra Pradesh has to be more careful in getting. Sir, when we are talking about the progress in other fields, why we are lying behind it? Despite the parting from Central Government, our Government is not acting to get the benefits from the Central Government. Sir, I request the minister and the Government through you, to immediately receive it and now the report is coming at the end of this year. There is a provision in the current budget of the Central Government for giving the funds to the State Government. But we are not completing the feasible studies and we are not able to claim this money.
On the 14th of February 2008, we have given proposals to the Chief Minister. Many people are demanding that navigation facilities be developed. We have given to Government already, but they have not taken any investigation so far. Many people are telling the Government that they are very keen. Therefore, we have decided that we will begin the investigation immediately.

Ours is a battle not for wealth or for the power. It is a battle for freedom and it is a battle for the reclamation of human personality."

In three thousand years of our history, people all over the world have come and invaded us and conquered our lands and conquered our minds. Form Alexander onwards, Greeks, Portuguese, British, French and Dutch, all of them came and looted us, took over what was ours. Yet we have not done that to anyone. We have not grabbed their lands, their culture and their history. We never tried to impose our way of life on them. Why? Because, we respect the freedom of others.
