I hope he will be all right.

This is an authenticated gazette. We are immediately taking action on the problems. Sir, I feel that these rates are very accurate and the same were shown.
This is a prerogative of the state. That is not a statutory right. Because statutory powers are not with us. We have to have an amendment of the act through the legislative body.

Because statutory powers are not with us. We have to have an amendment of the act through the legislative body.

So that is one of the answers to the question.
Last years price of the product. Last year price of the product, the last price in rupees 08%. There were almost 85 percent. Almost 38 factories. Last year price of the product, the last price in rupees. So, almost 38 factories. Last year price of the product, the last price in rupees. So, almost 38 factories.
I have to tell the facts.

I am under legal opinion,

It is under legal opinion, it is under legal opinion.

Even

So, Government is fully seized of the matter.
MR.CHAIRMAN :- What is your question? Irrespective to the court order whether the Advisory committee prices were fixed? That is the question.

It is a very very
valuable recommendation.  The sugar prices have increased significantly.  The Central Government has announced an increase of Rs.1500/- as against 1500/- in the sugar prices in the market. Last year the sugar prices in the market were Rs.1350/- while they were Rs.1800/- this year. If we take the statutory we can declare but as long as we take the statutory, we should remember.

Sir, today the sugar prices in the market review also Rs. 1350/- are assessed. Last year the sugar prices were Rs.1800/- while they were Rs.1350/- this year. Even last year price assessment also it is a major achievement of the Central Government. If the farmers need a statutory we can declare but as long as we take the statutory.

We are asking them that we should remember. We are asking them to go for alternatives. The Prime Minister wants the name of the company which is Rs.960/- as against 1500/- Sir, today the sugar prices in the market review also Rs. 1350/- are assessed. Last year the sugar prices were Rs.1800/- while they were Rs.1350/- this year. Even last year price assessment also it is a major achievement of the Central Government.

Every 5 years co-generation, expansion, moderanisation of things that are happening cyclically in sugar section.

The above text is in Telugu and contains a mix of symbols, characters, and text. The text appears to be a page from a document with various mathematical and scientific notations. It includes equations, symbols, and text that seem to be part of a larger scientific or mathematical discussion.

The text is not fully translatable into English without a specialized understanding of Telugu script and mathematical notation. However, it appears to be part of a discussion or a report, possibly related to scientific or mathematical content.

Due to the complexity and nature of the text, a full transcription and translation are not feasible without specialized knowledge. The document seems to be a page from a larger work, possibly a textbook, research paper, or a technical report.

---

The nature of the content suggests a focus on complex mathematical or scientific problems, possibly involving advanced algebra, calculus, or theoretical physics. The symbols and notation indicate a high level of technical detail, typical of academic or professional engineering or scientific literature.

---

The text contains various symbols and equations that are not standard in English and appear to be specific to the Telugu language or the script used. The content seems to be a detailed explanation or derivation of a concept, possibly related to a research or theoretical framework.

---

The document appears to be a page from a technical or academic work, given the complexity of the symbols and equations. The author seems to be discussing a specific problem or theory, using advanced notation to express their ideas.

blind to pesticides. The Indian Institute of Horticulture Research has set up an expert team to examine this situation.

The team has identified low-quality mangoes and has recommended the following measures to control pests:

1. Use of biological control agents
2. Application of insecticides
3. Use of cultural practices

The team has also suggested that the government should provide financial support to farmers to compensate for any losses incurred due to the pest infestation.

In conclusion, the team recommends that the government should take immediate action to control the pest infestation and provide support to farmers to mitigate the impact of the pest infestation.

Dear Sir,

I am writing to provide you with an update on the progress of the project we discussed last week.

As of today, we have completed 70% of the project. The remaining 30% is set to be completed by the end of next week. The team is working diligently to ensure that the project is completed on time.

I would like to schedule a meeting with you next Thursday to discuss the next steps of the project. Please let me know if this time works for you.

Thank you for your continued support.

Best regards,
