SRI TIRUMALA SRINIVASULU (KURNOOL): Sir, it is not desirable to design a special degree course for taking up Civil Services. There are compulsory subjects. What has been proposed here is not feasible. It cannot be undertaken because the candidates appearing for I.A.S. & I.P.S. Examinations can select the choice of their optional subjects out of 40-50 subjects' viz., electrical engineering and biological sciences etc. In addition, there will be General Essay, General English and General Knowledge. This particular examination is not like I.I.T., or B. Tech. The students can select their own subjects, which is common for every one.

MR. CHAIRMAN: We are not going for discussion. You are senior I.P.S. Officer and retired as Director General of Police, Karnataka.

SRI TIRUMALA SRINIVASULU: Sir, I am only trying to make it clear that it is not feasible to design special degree course for the students who are willing to appear for I.A.S. & I.P.S. Examinations.
SRI D. SRIDHAR BABU: Public Service Commission examinations are mostly based on a common examination, wherein multi discipline, multi talented focused approach is followed, so that the candidate can answer all the questions related to different disciplines. The questions are based on the common examination, so that the candidate can answer all the questions related to different disciplines. The questions are based on the common examination, so that the candidate can answer all the questions related to different disciplines. The questions are based on the common examination, so that the candidate can answer all the questions related to different disciplines. The questions are based on the common examination, so that the candidate can answer all the questions related to different disciplines.
With this they may opt to take up Public Service Commission Examination.

This concept or the request made by the Hon’ble Members is not at all feasible.

He can develop his personality to compete in the examinations.

It is not a specialized institution. I.A.S. and I.P.S. Officers are meant for the General Administration. It is categorically mentioned. So best of the brains -

special development administrative services etc. are meant for the General Administration. It is not a specialized institution.

He can develop his personality to compete in the examinations.

welfare institutions etc. are meant for the General Administration. It is not a specialized institution.

The committee has also emphasized the importance of public participation in water resource management. It has recommended the establishment of community-based organizations to involve local communities in the decision-making process and ensure that water resource management is sustainable in the long run.

The committee has recommended that the government allocate more funds to the Ministry of Water Resources to support research and development in the field of water resource management. It has also recommended that the government work closely with the private sector to develop innovative solutions for water resource management.

Overall, the committee has emphasized the need for a holistic approach to water resource management that considers both short-term and long-term implications. It has recommended that the government take urgent action to address the challenges faced in the field of water resource management and ensure that the country has a sustainable and reliable water supply in the future.

Όταν οι περιπτώσεις σχετικά με τις προβλέψεις είναι σημαντικές για την οικονομία, η ομολόγηση μεταβλητής είναι αναγκαία. Κάθε παράγοντας μεταβλητής θα πρέπει να είναι ομολογημένη στην οικονομία, για να ισχύει. Αν και αυτό θα μπορούσε να είναι πρακτικό, η υλοποίηση του είναι σε κινήσεις.

The Government cannot go back at every stage. A decision has been taken by the Government.

The Board has reported this matter to the Government. He is a prominent Judge and Learned Judge with all fame and name. The Commission has invited suggestions from the public. Even the M.L.C.s., and M.L.As. can also give their suggestions to the Commission. The Commission is prepared to take those suggestions into consideration.

If there is any prima facie case then we will definitely consider the wild allegations coming in the Press and we will definitely take those allegations into consideration and action will be taken.

Because of shortage of time, I am not going into the details of individual cases. Otherwise, I would have come out with all the details here.

They are all incorporated in the form of Government Order. That is the intention of our Chief Minister.
Various developmental activities and social activities have been taken up by the Tirumala Tirupati Devasthanams. A detailed note was circulated to all the Members of the House. I request all the Members to go through the note so that they will not get any doubt about any aspect.

I think that I have given reply for that.
SRI DADI VEERABHADRA RAO: I don’t want your reply. Let the Hon’ble Minister give his reply.

I don’t want your reply. Let the Hon’ble Minister give his reply.
We are not going back on that issue.

We are not going back on that issue. A Public Interest Litigation was filed in the High Court and the Hon'ble High Court gave a direction to submit the details of all the properties such as gold, silver or any other property. Here the point for consideration is that inventory is going on and we are going to submit the list to the High Court along with the cost of the jewellery. It is not desirable on my part or anybody’s part to go into further details at this stage.

SRI GADE VENKAT REDDY: A Public Interest Litigation was filed in the High Court and the Hon'ble High Court gave a direction to submit the details of all the properties such as gold, silver or any other property. Here the point for consideration is that inventory is going on and we are going to submit the list to the High Court along with the cost of the jewellery. It is not desirable on my part or anybody’s part to go into further details at this stage.

(INTERRUPTIONS)
The Hon'ble High Court has given permission to submit the list by 31\textsuperscript{st} October. This is the decision given by the High Court and we cannot make amendment to it.

MR. CHAIRMAN: When the matter is sub judice this House cannot discuss it. There are established parliamentary practices that the House cannot debate the subjects, which are under enquiry by the court. Here the High Court has taken notice of the matter.

1.10

MR. CHAIRMAN: The matter is under enquiry.

SRI GADE VENKAT REDDY: I have to give reply in the other House and I may be permitted to complete my reply.

SRI GADE VENKAT REDDY: The inventory register is already there. We are preparing the list and the T.T.D., will submit the list to the High Court. Until that I cannot reveal here.

This matter is already examined by the Government and there is no question of collecting sales tax from T.T.D. we are prepared to take action against anybody.
if any specific instance is brought to my notice or to the notice of T.T.D. Board then we are prepared to take action. Previously we have taken action against those who have misused these tickets.

Do you mean to say that T.T.D. Board will keep quiet on that aspect? We have already taken action against those who have misused these tickets.

T.T.D. Board will not allow any further constructions on the hill area.
It is a heinous crime and we are going to take action against him. That is a different matter. The Government is committed to provide all facilities including the house loans, marriage loans etc., to the Archakas. All these issues will be covered under the welfare fund for Archakas.
SRI GADE VENKAT REDDY: The Government has got all the powers but confining to certain sections only. The Tirumala Tirupati Devasthanams Board can take its own decisions and the Government has got power to review those decisions also. Whenever something goes wrong, the Government will not keep quiet.

SRI CHERUPALLI SITARAMULU: Sir,

MR. CHAIRMAN: I have given enough time for discussion. That is enough now.

Today, I will take up the Government Bills after the lunch break. Now, the House is adjourned for half-an-hour.
MR. CHAIRMAN: Now, we will take up Bills.

it has been accordingly decided to have a Water Resource Regulatory Commission to make recommendations to the Water management Committee. So, it is a recommendatory Committee that has powers, functions and duties of the Commission.

The words used in the Act, the words stated in the statement of the objects they do not go together. It is not proper. To determine the water requirement and to determine the requirement of the irrigation water and to determine the adequate operation and maintenance cost and providing guidelines procedures modalities and monitoring they give absolute powers to the Committee.

It is absolving its responsibilities. The words used in the Act, the words stated in the statement of the objects they do not go together. It is not proper. The person who pollutes, has no right to pollute and if he pays, this gives a legal sanction for such a pollution.
