MR. SPEAKER : Oath of Affirmation by Dr. P. Shankar Rao.

(Dr. P. Shankar Rao took Oath of Affirmation in the name of God.)

MR. SPEAKER : Now, Question No. 34. Minister for School Education.
Any how, G.O. Ms.
No. 610 is coming in our way. Observing Local and Non-Local Quota is a very pertinent issue.

12.00
SRI AKBARUDDIN OWAISI(Chandrayanagutta): Speaker Sir, this is the first Budget presented by the new Government. Before going on to the Budget, I would like to say that the Hon'ble Minister for Finance is a senior man and a learned man well-known for his vast knowledge in matters relating to finance being an expert in that field. But still I would say that he is a very brave and courageous man and it was a brave and courageous effort to present this Budget because the previous Government has left the State in a real debt trap.

Sir, at the very outset I would like to point out that it was a pleasant surprise for me to hear the Leader of the Opposition saying that there are insufficient allocations in the Budget for the minorities. One poet has rightly said

سے بچے ہیں کہ چوہن شن کے ہے لئے کیا
دن شن پڑھن جانے لئے کیا

But at the same time I would also like to say that I was not at all surprised to see the Budget allocations for the minorities made by the Finance Minister because we all know by seeing the Congress regime for the last fifty years about their sayings and doings. It is not a surprise where we do not have real Budget allocation by the Congress Government. But at the same time I would like to give a piece of advice to the Leader of the Opposition that at least now he should follow the advice given to him by the former Prime Minister, Sri V.P.Singh.

Sir, I am now going on to the Budget. The budget as expected enhanced the allocations for agriculture, irrigation and the Finance Minister had also said that there was going to be no levy of new taxes. Sir, the Finance Minister, during the end of this year, had inherited an insignificant deposit of Rs.49.91 crores including a carry over of Rs.19.52 crores from the last year. My question is, how the State's outstanding public debt has arisen to the present extent? During the year 1996 it was Rs.15,164.25 crores and now it has reached a staggering level of Rs.66,392.47 crores. This does not include Rs.20,133.44 crores loan which has been taken by the Central Government. It includes loans taken from the open market to the tune of Rs.19,771.60 and Rs.7,530.16 crores from autonomous bodies and also Rs.18,957.27 crores taken in the form of special security loan. Sir, the debt servicing charges alone contribute to the extent of 21.87% of Government Expenses.

Sir, one more thing. The budget added Rs.8804 crores debt burden from 2003-2004, taking the total to Rs.66,392.47 crores. This means that the interest payment and servicing of the debt will take away Rs.7470 crores during the year as against Rs.6919 crores of last year. Sir, if we look into this whole thing, one can say that it is no doubt that development strategy and economic priorities are alright, but what is important is how are these things are going to be implemented or fulfilled?
This time, the new Finance Minister has to do this job keeping amidst major financial constraints that he had inherited from the previous government. Sir, the Finance Minister is blaming the previous Telugu Desam Party Government for taking so many unproductive and unviable schemes and policies, thus pushing the State into a debt trap. Sir, the present Government can not escape its responsibility by harping on the shortcomings of the previous regime. Sir, already three months have been passed, with the result, the budgeting has to be done for the left over nine moths of the financial year. The new Government has to perform within this short time and see that it should restore the fiscal health of the State and fulfill the poll promises given by it to the people of our State. It has to implement people friendly policies.

Sir, the Hon’ble Finance Minister had not clarified one thing. Sir, through you, I would like to ask the Finance Minister as to what are those unproductive and unviable schemes that were persuaded by the previous Government which were failed to help rural masses? Is it Neeru-Meeru, Janmaboomi or Clean and Green? The Finance Minister has to spell out those things.

Sir, the Finance Minister had stated that there is going to be no new taxes and on the other hand, he speaks about augmentation of additional revenue. In this connection, he had mentioned that he is waiting for the Final Report of Mr. E.A. Sharma. Sir, before getting into that Final Report, I would like to know from the Finance Minister as to what the Interim Report of Mr. E.A. Sharma says? Through you, I would like to ask the Government to kindly speak about the findings of that report. Sir, it says that in future we are going to have a new levy of taxes. That means additional burdens are going to fall on the people of Andhra Pradesh.

Sir, so far as reforms are concerned, the new Government has mentioned that it would implement the reforms with human face. But it is unfortunate that the Finance Minister deliberately avoids human face while implementing the reforms. Sir, the new Government has focussed on agriculture, irrigation, infrastructure implementation, health, housing, education and poverty alleviation. Sir, if we see at irrigation allocation, it has been nearly doubled from Rs.2,178.92 crores last year to Rs.4,245.72 crores during the present year. Even then it is not adequate to complete the present ongoing pending projects. If the present Congress Government wants to fulfill its poll promise of completing all the pending projects within 5 years, it requires an additional sum of Rs.40,000 crores. My doubt is, how the Finance Minister can generate these Rs.40,000 crores. If these Rs.40,000 crores distributed on each year, the present Government is supposed to spend Rs.8,000 crores every year. As per the promise made by them, they have to complete 26 major and medium irrigation projects in the next 5 years. 8 of these projects are to be completed within the next 2 years, out of which 3 from Telangana region. Sir, but these are not enough for the upliftment of Telangana region. We are told that Srisailam Left Bank Canal, Sriramsagar Stage-2 Flood Flow Canal and Projects on River Krishna
and Godavari will be completed within 5 years. Sir, this is nothing but a wishful thinking, may be after the formation of Telegana State.

d. 12.20

Sir, next I will come to farming sector. We would also agree that our farmers truly need a healing touch. Apart from providing free power and waiving of power arrears, the Government has announced a special package like bringing a bill in this august house for a moratorium on agricultural debts and establishing help lines etc. Sir, it is unfortunate that farmers suicides are still continuing and if we have to go by the records more than 340 farmers have committed suicide after the new Government has taken charge. Moreover, the bill which was introduced is also not going to be very helpful as it suffers from defects on six counts, namely, 1) it does not cover loans from commercial and co-operative banks, 2) it does not cover other loans taken by farmers, 3) it has a limited period of six months, 4) it does not provide penal provision for money lenders who refuse to abide by the law, 5) it does not cover share croppers and tenant farmers and 6) it also does not apply to the cases pending in the court. Sir, during the previous Government's regime an NTPC power project has been sanctioned. I request the present Government to kindly take necessary steps and revive the said project, so as to cope with the existing power demand.

Sir, I would like to draw the attention of the present Government through you, to the false cases, which have been booked on the people of old city, and they are hanging like domicile sword on their heads. In addition to that, many cases were also booked on the people who have participated in power tariff hike agitation. The previous Government has harassed day-in and day-out such of those people. This harassment practice should be put an end to. Thousands of cases were booked on innocent agitators and those cases should also be withdrawn, because people are still being harassed in connection with those cases.

Sir, regarding rural development and poverty alleviation, our party welcomes the abolition of Janmabhoomi. There is need to implement the Food for Work Programme and Sampoorna Gramina Rojgar Yojana, without allowing the malpractices, which took place during the previous Government's regime.

Sir, regarding the development of old city, the Finance Minister and the Chief Minister have given assurances and promises when the delegation led by our party president met them. Sir, we are not asking for the development of old city in one or two aspects but we are asking for the development of old city in all aspects of life i.e., in the field of education, in the field of recreation and in the field of creating job opportunities by establishing more small scale industries in old city. But it is unfortunate,
that even though promises were given, nothing has been mentioned with regard to development of old city in the budget or a special package has been announced for the development of old city.

Sir, there is one Kuli Kutubshah Development Board in old city which looks after the development of old city. The previous Government has given Rs.10 crores and whenever a request has been made, the previous Government used to give more funds. Rs.10 crores were allotted in the budget, again Rs.10 crores were released and again when another request was made Rs.5 more crores were released by the previous Government. Instead of making similar allocation of Rs.10 crores, the present Government has reduced the allocation to Rs.5 crores. One can very well imagine as to how the development of old would take place with these meagre funds? There is every need to allocate more funds in this direction.

Sir, if we look at the city of Hyderabad, for the past few years the Hyderabad city have flyovers and city looks as if nothing is old here and everything is new. Sir, we have so many sports events hosted in the city of Hyderabad, such as National Games and Afro-Asian Games. But it is unfortunate that old city has not given a chance to host any of these games. Not to speak of National and Afro Asian Games, in Old City we are unable to hold even a Kabaddi event. Sir, this is the state of affairs in old city. Sir, in the name of development, crores of rupees have been spent, such as construction of Gatchibowli Stadium, but unfortunately, nothing was done for the development of old city. I, therefore, request the present government through you to come before this House with a special package for the development of old city, not only in the field of sports but also in every other field, in the field of recreation, in the field of sanitation and in the field of creating job opportunities.

Sir, with regard to Municipal Corporation of Hyderabad, an amount of Rs.50 crores has been reduced in the allocation made towards plan and non-plan grants on properties and buildings. This Rs.50 crores were allocated against Rs.60 crores and with regard to Professional Tax Rs.35 crores were allocated as against Rs.60 crores, which directly affect the Municipal Corporation of Hyderabad’s functioning. How does the Corporation function if the Government imposes such a huge cut. How can it develop old city which is lacking so many facilities? In this instance, I would like to remind the Hon'ble Finance Minister through you that our party and Congress party together are ruling Municipal Corporation of Hyderabad and if more funds are made available, we can do more for the development of Hyderabad city. Through you, I therefore request the Government to kindly look into the matter and at least allot the amount equivalent to previous allocation so that development plans will not get affected. Sir, under the Netherlands Assistance Programme, HUDA has been originally allotted Rs.40 crores and it was now enhanced to Rs.75 crores. Through you Sir, I would like to request the present Government to spend a large part of this amount for the development of old city.
Sir, I am surprised that the finance Minister had not even made a mention about Phase-II of Krishna Water Scheme. As we are aware that Hyderabad city, at present, is facing a severe drinking water problem. The Telugu Desam Party Government have initiated this scheme in response to repeated agitations and Krishna Water came to the city of Hyderabad. But only 45 MGD water came to the city where as the original requirement was found to be 90 MGD. But it is unfortunate that no funds have been earmarked for Phase-II of Krishna water scheme. Sir, we do not have infrastructure, we do not have other needed facilities for getting this water to the city of Hyderabad. Therefore, through you, I would like to request the Finance Minister to allocate sufficient funds to bring 90 MGD Krishna water to Hyderabad city, to solve the severe drinking water problem. Sir, there is acute water shortage in areas like Santoshnagar, Darul Safaha, Pattarghatti, Riasathnagar, Kazipura, Fathimanagar etc.

Sir, I would like to know as to when the Musi Project will be started? In every budget, we will see allocations for this project, but still it is not yet started. Sir, the city of Hyderabad is facing severe Mosquito menace and in fact, Hyderabad has become the city of mosquitoes. Let it be Banjara Hills or Jubilee Hills, old city or slum areas, no place in Hyderabad city is free from mosquitoes. We do not know as to when this Musi Project is going to be started and when it is going to be completed.

Sir, with regard to housing, the Government is considering of constructing six lakh houses and my request is in that at least one lakh houses should be given to the people belonging to minority community. Sir, I say this because on Page-105 of Economic Survey for the year 2001-2002, prepared by the Planning Department, Government have issued orders stating that houses to the extent of 20% in urban areas and 7% in rural areas may be allotted to people belonging to minority community. Such of the orders were given to district collectors. But it is unfortunate that the entire paragraph has been omitted. I would like to know from the Government as to why that paragraph has been conveniently omitted. I think the reasons are best known to the Government itself. But in the Economic Survey the Government has categorically admitted that a lot should be done to minorities, because a majority of them are living below poverty line, hence, economic support will be given to them as against population proportion.

Sir, with regard to the orders issued for 10% representation for minorities vide economic support scheme, the figures are found to be not satisfactory. Sir, on page 210 of the Economic Survey for the year 2003-2004, it was stated that a total of 45,90,039 houses were constructed in urban and rural areas. The share with regard to Urban housing was found to be 42,32,236 and the rural housing represents 3,57,803. If we go by the said order which says that minorities should be given a share of 2,56,256.52 in urban housing and 71,560 in rural housing, which together accounts for 3,67,817.12. But I am told that minorities could not get even 1% of the houses. Recently the Finance Minister is kind enough to state that the Government is going to construct six lakh houses for the weaker sections.
We request the Government to sincerely implement the prescribed percentage while allotting houses to minorities and also take necessary steps to rectify the earlier deficiencies.

Sir, regarding Urdu language, it is with deep anguish I would like to say that even though Urdu has been given its rightful status as the Second Official Language of the State in 12 districts, one can hardly find Urdu knowing people in the administration. Suppose, if any representation is given in Urdu, nobody is there either to read it or to understand it.

12.30

If a petition in Urdu is given, it has to go to the translation department for the sake of getting translation. Until the translated version comes, no action will be initiated. I request the government to take action for the appointment of Urdu Translators in all the departments so that Urdu applications could be understood and taken up seriously. Even in Old City, where there is Urdu speaking population, most of the police stations are lacking Urdu speaking staff, leave alone who can read and write Urdu. Coming to schools, there are so many vacant posts of Urdu teachers. I request that the vacant posts of Urdu teachers should be filled up and if the vacancies are filled up, I think Urdu language can improve a lot. There should be an official language commission for Urdu on the lines of official language commission for Telugu. If it is difficult to create a separate commission, please include this responsibility to the present official language commission with Urdu knowing officials to ensure implementation of Urdu as second official language. At present in fifteen districts of Andhra Pradesh Urdu is recognized as the second official language. However, there are no facilities or infrastructure in the districts and no funds are allotted to monitor the implementation of Urdu as second official language.

Regarding the budget allocation for the minorities, scheduled castes, scheduled tribes, backward classes it is raised to Rs.1198 crores, which is higher than the previous year and including the non plan allocation the total for scheduled castes, scheduled tribes, backward classes and minorities comes to Rs.1712 crores. For minorities an amount of Rs.39 crores have been given under plan and non plan. According to the Finance Minister, the minorities' population in Andhra Pradesh is eighty-four lakhs. In fact, the previous government had allocated more funds for the minorities. In the previous government, the budget allocation for the minorities was Rs.39 crores initially and later it was enhanced by Rs.21 crores totaling to Rs.60 crores. After taking over the administration by the congress party – I would like to ask the government, is this ....
The chairmen of various corporations have resigned on moral grounds. I would like to ask the Telugudesam party as to why they are not asking Salim to give resignation to the post of Chairman, Wakf Board.

Hundred rupees have been collected from each haji towards miscellaneous charges. Why are they collecting hundred rupees towards miscellaneous charges? The Central Haj Act says that there is no need for collecting hundred rupees as miscellaneous charges. Last year, the A.P. Haj Committee collected hundred rupees from five thousand applicants and they kept that amount in a fixed deposit. They are now enjoying with that amount. Again, this year also they are collecting hundred rupees from the applicants. The Haj Committee has to be reconstituted and elected members should be made as members of the Haj Committee, where they can look into this issue.
In the budget, an allocation of Rs.1658.85 crores has been given to alternative medicines like Unani, Homeopathy and Ayurveda. I request that separate and specific allocation has to be made for each of this system. In my Chandrayangutta constituency there is a Nizamia Tibbi College, which is besides Charminar. A Government Order was issued in this regard for shifting of Ayurveda College from this premises to Khairtabad. But still that government order has not yet been implemented. Through you, I request the government to look into the matter and unani hospital should get the entire building for unani teaching purpose.

Coming to law and order, there is an increase of Rs.225 crores in the budget. What are the reasons for such an increase? When the government is going for talks with the peoples war, a seize fire has to be ordered. The seize fire has been ordered. I request the government to lift the ban on people’s war. I would like to remind the government that these talks could only be successful when the government comes out with a package for the development of backward areas. This government is treating this as a socio economic problem, which is very right. The government should come out with such a package, which should talk about land reforms, distribution of excess land to the poor, creating employment in rural areas, providing basic amenities in the scheduled tribe hamlets. Then only the talks with the people’s war can be successful. Further, the Hon’ble Chief Minister should make a statement in this august House stating that they are holding talks with the people’s war.

As far as the law and order is concerned, the real life drama of cine star Mr.Balakrishna is an eye opener because the rule of law, sections of Indian Penal Code, Criminal Procedure Code are not applicable to rich or to the people of upper castes. The incident of Balakrishna has made the law as laughing stock in the eyes of public. Balakrishna is popularly known as Balaiah.
I am sure he would have been killed in an encounter and the intelligence department would have claimed it as a major victory stating that they have bursted an ISI racket. I would request the Hon'ble Minister for Home to bring amendments to Indian Penal Code, Criminal Procedure Code so that license to hold a revolver can be given to those who are in depression and those who are suffering mental agony. A provision should be provided that if a person with a broken leg shot at some one then he should not be arrested because he requires physiotherapy at the hospital. The whole incident is a shame on the police department.

My point is that Anis Mohinuddin was very much in India when the bomb blast at Sai Baba Temple had happened. Before leaving the country he was called, he was interrogated and he was asked whether he is Ayub Ansari or not and they have investigated the case. Coming to the conclusion that he is not Ayub Ansari, the police gave him clearance certificate in the year 2000. He then left to United Kingdom. After two years when he came back to attend his brother's funeral, he stayed here for forty days and went back to United Kingdom. Again when he came back after some time, the police said they are arresting him in bomb blast at Sai Baba Temple's case. I have raised this issue in zero hour. There was an assurance given by the Hon'ble Chief Minister that no POTA case will be booked against this man. I am very grateful to the Minister for Home because he called me for a meeting and gave me an assurance that POTA case will not be put, police will not insist the court for police custody so that he will be remanded for judicial custody and government will not oppose the bail and bail can be obtained easily. The officials sitting in that meeting did not give proper answers to the queries raised by me and they could not justify the illegal detention of this innocent Muslim boy. Inspite of that the Minister for Home gave an assurance stating that the police will not object to the bail in the court. But contrary to that his remand was extended for fifteen more days and POTA was put on him.
M.I.M., would not support anti social elements, we love this country and this is our country.

You are very learned man and a financial expert. Before concluding my speech, I would like to say that you are very bold and courageous man. No other person could have presented such a budget because the Telugudesam regime has really gave you a real, real mess of finances and real debt trap. We are with you but we want you also be with us. We expect justice from
you. We hope that you would give us a special package for the Old City and for the development of minorities. I thank you for giving me this opportunity.

Note: Special Securities are the additional finances provided to support the agricultural sector. The table above shows the annual distribution of these funds from 2003 to 2005. The funds are divided into four categories: Open Market Loans, Loans from the Central Government, Loans from Autonomous Bodies et., and Total. The total amount of funds varies each year, with a slight increase over the years.

MR. SPEAKER: Please conclude.

MR. SPEAKER: (at a later time)

MR. SPEAKER: 45
We have to lay emphasis for eradication of AIDS. This is a frightful disease. There are countries where 60-70 per cent of people died on account of AIDS. I have visited some countries where the entire youth vanished. That should not happen in our State. The Chief Minister should take serious interest.

(Aftermath)
Dr. N. Janardhan Reddy: I am very happy. I am thankful to him.

Mr. Speaker: Let him complete.

This is very bad.

We have more concern. However, many people believe in magical practices that they think can protect them from harm. For example, they might use rituals, herbs, or amulets to keep evil spirits away. In some cases, these beliefs can lead to serious health problems, as people may ignore proven medical treatments in favor of these practices.

It is common for people to believe that their actions can affect their health. This can lead to unhealthy behaviors, such as smoking or poor diet, which can increase the risk of illness.

Another concern is that people may not take medical advice seriously. This can lead to missed diagnoses or ineffective treatment. In some cases, people may refuse to take prescriptions or follow a doctor's advice.

It is also important to consider the role of technology in healthcare. While technology can be very helpful, it can also create new challenges. For example, some people may be so focused on technology that they neglect to seek help for mental health issues.

In conclusion, there are many challenges facing global health. It is important for individuals, governments, and organizations to work together to address these challenges and improve health outcomes for all.

3.05

Some experts believe that the number of cases of certain diseases has doubled in recent years. However, there is no consensus on the cause of this increase. Some suggest that it is due to changes in lifestyle, such as increased stress and sedentary behavior. Others believe that it is due to the spread of new diseases, such as those caused by climate change.

In addition, there is concern about the availability of medical resources. In some parts of the world, there are not enough doctors or hospitals to meet the needs of the population. This can lead to long wait times and shortages of essential medications.

There is also a concern about the cost of healthcare. In many countries, healthcare is very expensive, and many people cannot afford to see a doctor or access other necessary services. This can lead to delays in diagnosis and treatment.

Finally, there is concern about the quality of healthcare. In some places, there is a lack of access to proper training and equipment. This can lead to complications and deaths.

In conclusion, there are many challenges facing global health. It is important for governments and organizations to work together to address these challenges and improve health outcomes for all.

Mr. Speaker, Sir, the outstanding debt shown in the last year’s Budget in Brief is only the public debt i.e. outstanding loans from the Government of India. The internal debts shown in the Budget Estimates - 2004-05 includes the outstanding debt of PF and Small Savings Loans in the public account. The total budgeted expenditure as shown in the Budget Brief in Budget for the year 2003 is different from the total expenditure in the Annual Financial Statement in the Budget page 26. The total expenditure Rs. 51142.49 crores shown in the Budget Brief page 3 as same as the total expenditure of Rs. 51142.49 crores as shown in Volume 49. The budget referred to by the Member is total receipts including the public debt of Rs. 63.37 crores.

5.30

(omitted)

Sir, I now move the resolution

The Budget for year 2004 B.E. was approved

3. In budget 2004, there is discrepancy...
This is our commitment.

SRI AKBERUDDIN OWAISI: Speaker Sir, in my Budget Speech, I have requested the Hon'ble Finance Minister about a few things. With regard to the allocation of funds to the Minorities Finance Corporation, last year an amount of Rs.59.7 crores was allotted by the Telugu Desam Government. Now it has been reduced to Rs.39 crores. The Hon'ble Finance Minister in his reply has said that as and when needed, he will increase the allocation. Sir, I have the Congress Manifesto with me. It says "Establishment of one ITI, Polytechnic, and Residential School for Minorities, as far as possible, in each District of Andhra Pradesh.

Special measures will be taken to provide employment to youth among minorities through A.P.Minorities Finance Corporation by additional allocations in Budget; and it will not only release margin money but also take steps to release loans by the banks to the beneficiaries.

To provide equal opportunities to Minority women, the Congress Party assures to constitute a separate Minority Women Welfare Corporation for their upliftment and improvement of educational, economical and social conditions; and create employment opportunities.

Allotment of houses for minorities should be according to their population in respective areas.
The Congress will activate the Minority Institutions to encourage Minorities to take up entrepreneurship and provide them necessary help for improving the levels of education. These institutions will provide vocational training to the Minorities."

The Hon'ble Finance Minister has said that as and when needed, he will increase the allocation to the minorities. I want to know as to whether was this a need then and not now or is this the need now or is this the Five Year Plan or will this be implemented in the next Budget or in this same Budget? Sir, we had requested for a special package for the development of old city. Is the Government serious enough to come up with some Development package for the old city? Also we have requested for direct loaning. With regard to housing, we request that depending upon the population of minorities, housing scheme be implemented.

Sir, coming to allocation pertaining to MCH, an amount of Rs.50 crores has been reduced from the last Budget. We would like to know as to whether the Finance Minister will enhance the said amount or will he make the same Budget allocation. Sir, we have also requested for a separate Head of Account for Muslim minorities girls in the field of education. We would like to know as to whether the Government is serious enough in considering the same.

Sir, the previous TDP Government has constituted the Pay Revision Commission six months back for the employees working in the State Government. It may take another one year for the submission of the Report. We would like to know as to whether the Government will announce some interim relief to the Government employees.

With regard to the revival of Regional Boards, I wanted to make you a small request. Sir, in the last Assembly, I was listening to your speech. You were speaking as a Member of the Congress Party about the backwardness of Andhra Pradesh. You as a senior Member of the Congress Party had demanded for the revival of Regional Boards for all the three regions. Sir your demand was a rightful demand. But the then Telugu Desam Government did not agree to it. Sir, now you are the Speaker of the House. You do not belong to any party. Therefore, you can give a direction to the Treasury Benches for the revival of the Regional Boards.

Coming to the Six Point Formula, we would like to know the stand of the Government on this. We would like to know as to whether the Government is going to implement G.O.Ms.No.610. We need a clarification from the Government side.

Sir, the gentleman's agreement clearly says that if the Chief Minister is from the region other than the Telangana region, then the Deputy Chief Minister should be from the Telangana region. Is the Congress Government going to have the Deputy Chief Minister from Telangana? I am sorry. But the Telangana Rashtra Samithi has also forgotten this and they did not seek the appointment of the Deputy Chief Minister from Telangana. Sir, in my Budget Speech, I have also requested for immediate relief for the Telangana people by announcing a special package of Rs.2000 crores. We would like to know as to whether the Government is going to announce in this regard.

5.50
MR.SPEAKER: As far as your request is concerned, I have to say that the Speaker does not give any direction on policy matters which the Government decides.

SRI K.ROSAIAH: I would like to answer my young friend, Sri Akbaruddin Owaisi. Apart from the Budget allocations we will give additional support to Minorities Welfare Corporation. It is a promise. There is no question of going back.

Secondly, about the package of Rs.2000 crores for development of Telangana, in the Budget speech you have seen my exercise. You have seen deficit. At this point of time I don't think you will expect a promise from me.

Thirdly, about Regional Development Boards. We will consider it. Definitely it is a point worth considering. We will consider it.

Sir, some honourable member raised the issue about Pay Revision Commission. We are requesting P.R.C. to give report as early as possible and we will try to obtain the final report to take expeditious action.

SRI AKBARUDDIN OWAISI: What about M.C.H. and QQUDA?

Բացի երկրի դաշտի երկրաչափական տեսքի 274308 մ² է։ Այստեղ 266 մ² է։

Ձեր հետազոտությունները ցույց տանում են, որ հանդիսավոր դաշտային համակարգերն են։ Նույնիսկ իրենց կանխանցման համար, դրանք չեն ապահովում անհրաժեշտ տեղամասերը։ Այստեղ բացառություն են ունենում միայն կանխանցման համար։ Սակայն երկրի դաշտի կանխանցման հնարավորությունը ձգտում է կանխադառնալ։

Հեռախոս կանաչը առանց տեղի անցկացումների կարողանալու է։ Օրինակ՝ տեղի անցկացումը կարողանալուց հետո։

Հեռախոս կանաչը պատասխանին կարողանալու է։ Օրինակ՝ պատասխանին կարողանալուց հետո։
