The text seems to be a mix of text and possibly some symbols or code. Without proper context or language identification tools, it's challenging to provide a meaningful translation or interpretation. It appears to be a document with non-English text, possibly in a script that isn't immediately recognizable. If the document is in a specific language (e.g., Telugu, a language spoken in India), a more accurate translation might be possible, but this requires specialized knowledge in that language.

For assistance with this document, it would be helpful to have a clearer view of the text or additional context about the document's purpose or content.

We are ready for the debate on the lands allotted by the Government to the Companies and the lands taken from the assignees.

Let us be very clear.
it has almost taken one hour 45 Minutes.

can the Government react to it?

When there is some multiple activity, definitely, the Government is entitled to respond to the walk out. 

He has gone even beyond that. When there is scope, I will try to improve it. After all, the House is dynamic, it cannot be static. It has to evolve.
I have been requesting, kindly send me letters. Certain areas need to be improved. I will call Rules Committee and also amend the Rules whatever best possible way is there, because, nobody in this House is permanent, except the House. Individuals do not matter. Keeping all these aspects in view, we are trying to move forward and I need the support of every one in this regard.

10.30

MR.SPEAKER: Individuals do not matter. Keeping all these aspects in view, we are trying to move forward and I need the support of everyone in this regard. As far as the leader of the opposition is concerned...........
It is termed as a walk-out. You are entitled for that. Nobody can stop it. You are well within your rights. If you want to walk out, that is your right. You can kindly do it. The ruling is very specific. Like I said, there were multiple situations, which were created. Since there were multiple activities on one question, the Government is entitled for an explanation and the Hon'ble Minister dealing with the question has been very specific. While they walked out, they made certain remarks.

I totally agree with that direction and the direction will continue to stay in force.

Now it is 10.35 a.m. Rest of the questions are postponed. Short notice questions are postponed.

Tea-break for ten minutes.

(The House adjourned for Tea-break for ten minutes, at 10.35 a.m.)
(After Tea-break, the House reassembled at 11.04 a.m. with the Hon'ble Speaker in the Chair.)

MR.SPEAKER: All the Papers are deemed to have been laid on the Table.

1. “A copy in each of the Notification issued in G.O.Ms.No.51 and 52, General Administration (HRC) Department, dated 30-01-2008, as required under Section 41(3) of Protection of Human Rights Act, 1993.

SRI SYED AHMED PASHA QUADRI (Charminar): Speaker Sir, through you, I would like to bring to the kind notice of the Hon’ble Minister for Minorities Welfare and the Government that Milad-un-Nabi (Birthday of the Holy Prophet Muhammad (peace be upon him) is being celebrated this year on 21st March 2008. This is a major Muslim festival which is celebrated throughout the world on 12th Rabiul Awwal wherein public congregations and functions are conducted. I request that Government may make special arrangements throughout the State of A.P. for this festival. The biggest problem in the Old City of Hyderabad is occurrence of continuous interruptions in the power supply. At times, power is shut down for more than 2 hours causing inconvenience to the public. Special lighting arrangement and decoration is done by the Muslims during this festival. I request the Electricity Department to ensure that uninterrupted power is supplied during the festival. During this festival, food is provided for the poor people without any discrimination. Hence, drinking water may be arranged to be supplied through tankers. Street lights are also not functioning at many places. Temporary High Mast and Halogen Lamps may be arranged. GHMC, Water Works and Electricity Departments may make special arrangements so that no inconvenience is caused to the Muslims in celebrating this festival. During this festival, public congregations of totally religious nature, are continued till late in the night. Minister for Minorities Welfare in co-ordination with all concerned Departments may extend all possible assistance for the smooth conduct of this festival with traditional fervour.
SRI MOHD.ALI SHABBIR: Hon'ble Member has requested for making special arrangements on the occasion of Milad-un-Nabi. We will definitely give instructions to all the concerned departments. Wherever there are public congregations, drinking water, cleanliness, transport and supply of uninterrupted current will be arranged.

SRI AKBARUDDIN OWIASI : Hon’ble Panel Speaker Sir, this Bill says to prevent violence against the Medicare Service Persons and to prevent damage to property in Medicare Service Institutions. Sir, violence needs to be condemned by one and all. Nobody should resort to violence. There is no reaction for no reason. If there is action then only there is a reaction. We are here protecting the Doctors and at the same time Sir, we are not concerned or bothered about those poor patients who go to the hospitals in particular, the Government Hospitals! For a poor man, the only mode of treatment is the Government hospital. If the Government is really sincere in protecting the Doctors first and foremost, the hospitals should be well equipped with 100% infrastructure facilities, with all the teaching staff and all the equipment operational.

We are not talking about making hospitals equipped enough with proper manpower to tackle any such situation, which arises. But, instead of that, we want to bring such a Bill and protect the Doctors forgetting the protection of the patients who come there. I might be wrong but that is what I feel. One reason for this sad state of affairs is that the entire medical system is built around the Doctors. This is really crazy. Health care is a service industry and should be designed around the patients. The best way of doing this would be empowering the patients with information so that they know how to get the best medical care in partnership with their Doctors. Unfortunately, patient education seems to be no ones baby as a result of which it is a relatively neglected area. This is a shame because the potential cost benefit ratio is huge. By investing small amount of money it is possible to improve the health care of millions of patients who come there and take treatment but, nobody is thinking about the poor man. And about a public representative going to a hospital…… Sir, you are also a public representative. You go to a hospital if a common man calls you. The common man calls upon you with a hope and anticipation that so on so leader or public representative would come for his rescue and ask the Doctors to give proper treatment to a patient who is dying. There are many such instances.

Through you Sir, I would like to know from the Hon’ble Minister, can she give the figures of the total births and deaths in a day in all the Government hospitals. Why are people lying there? If my electorates call me, I go there and what happens? I am not supposed to ask doctor anything. If I ask, they will lodge a complaint against me. What about the poor man coming to the Hospital? Who is going to take care of the poor man who comes to the hospital? It is not that we are against the medical fraternity. My party is not against the medical fraternity.

As you all know under the Darusalam Educational Trust, our trust runs two big major hospitals. One is Super Speciality hospital and the other one is general hospital. We also run 5 health centres and 3 hospitals with 25 beds. We also run hospital at Hindupur in Nizamabad. We run Hospital at Kadapa and also at Kadiri. We also run hospital at Hyderabad, Hakimpet and Talabgatta. This particular Bill is arbitrary, unwarranted, one-sided and a bad piece of legislation. It has omnibus provision in definition. The Medical Service Institution has been defined to include a private medical institution also. The definition of Medicare Service Person includes medical and nursing students and paramedical workers. Similarly, the definition of violence includes intimidation, obstruction or hindrance to any Medical Service Person. The penalty is heavy and disproportionate as the Bill provides for imprisonment for a period of 3 years with fine up to Rs.50,000/- Moreover, the Bill has a provision which makes the offence cognizable and non bailable. Therefore, this Bill cannot be passed by this House in its present form. Most important, this Bill does not incorporate any Provision for redressal of grievances of patients and other attendants against Doctors, nurses, paramedical
staff, medical and nursing students, for negligence and not attending to patients in time and not providing proper treatment to patients. The Chief Minister had promised to constitute a grievance redressal mechanism for patients and attendants but the Bill solely lacks any provision against the Doctors for their negligence.

When the Ordinance was brought, the Hon'ble Chief Minister has promised to constitute a grievance redressal mechanism for patients and attendants but the Bill does not say a single word about this. The Government is yet to spell out the composition and powers of redressal authority.

Sir, Private medical establishments are left out. Why are the private institutions left out? What about the private run medical hospitals and medical colleges? I therefore, request all the political parties to strongly oppose this Bill which is one sided black legislation as it gives doctors and other medical persons licence to kill. I demanded on behalf of the AIMIM that this Bill should be referred to a Select Committee or to the Assembly so that enough safeguards are provided to the patients against the criminal negligence of doctors and other medical persons.

ప్రశ్న: ప్రతిరోచన ప్రకటించండి. Please tell your protest.
CHAIRMAN: I am not going. Owaisi Saab, do you want to register your protest?

SRI M.A.GAFOOR: You can seek any clarification.

SRI AKBARUDDIN OWAISI: Hon’ble Panel Speaker Sir, first we want to have a clarification. After a clarification then we will lodge our protest. You are not giving us a chance for a clarification also. We should get a reply for our clarification, that’s what I am telling. Let us all have a clarification first. What is the urgency in it? The Government has the majority, they can pass the bill. Sir, the first clarification which I wanted to ask the Hon’ble Minister was that we had mentioned about the grievances. Why was this not included in this bill? When the Government took out the ordinance the Hon’ble Chief Minister came on record and said that the Grievances Redressal Authorities are proposed in all Government Hospitals to look into the complaints of medical negligence and grievances of the public. Why have they not included it in that? It is a fact that only a poor person goes to the Government Hospital. A rich and influential person goes to the corporate hospital. They can shell out the money. The poorest of the poor person only goes to the Government Hospital. And where are the doctors working for 36 hours? If they would have seriously worked for 36 hours and seriously dedicated to their noble profession, the Corporate hospitals would not have come into emergence. I would also like to ask another clarification. One lady by name Zakira Begum was died in the hospital. Hon’ble Minister Saheba had come there at the Maternity Hospital and said that she will inquire. Why did that patient die? Because the baby in the stomach of the patient died three days before, and they never cleaned and took out the dead baby from the stomach of that patient. Madam had promised that she will inquire upon within one month, and give a report. What happened about that? So many patients are dying and nobody is bothered. I would like to tell one thing to the Government. All these Doctors, all these educated people, they come in very less percentage to poll and to vote. One who comes to vote is a poor person, and a poor man only comes out to vote for all political parties. We are not concerned and bothered about the poor man and we are more bothered about these Doctors. On one doctor, a Government spends Rs.5 lakhs. Hon’ble Minister K.Rosaiah Saab also came on record and said that they have spent 3.5 lakhs of rupees. In spite of spending so much of money on one Doctor, what are the duties they are doing? Today you are in power Sir. Tomorrow if you come in opposition, if you have to go to your Constituency Hospital and you go and talk to the Doctor, and they go and lodge a complaint against you. What is this bill Sir? I request that please send this to the Select Committee. If not include and make it properly balanced for the Doctors and at the same time, for the common man, the poor man who goes to the Government Hospital with a hope and anticipation. Hon’ble Madam and the Hon’ble Member was saying that in Government Hospitals, patients come only when they are at the verge of dying. No madam, they do not come when they are on the verge of dying. When their finances totally die, they do not have money, then they go to the Government Hospital. They do not have money. They are poor patients. They are the poor people. They are common people who vote for the political parties and who vote for all of us. We should think about those people. In the Osmania General Hospital, the C.T. Scan. At times it works and at times it does not. In the Generator, there is no diesel, it works or not. No proper facilities, no kits are there, no samples are there, no blood is there in the Blood bank, no proper Doctors are there. If we want to protect the Doctors let us give the full infrastructure, full manpower, full facilities, then only it will be better. If somebody is working properly,
MR. CHAIRMAN: Owaisi Saab, do you want to register your protest?

SRI AKBARUDDIN OWAISI: why do we need to protest?

SRI AKBARUDDIN OWAISI: So, my clarification is that I have already asked for a clarification. What about the grievances of the common man?
