consequent accrual of benefits are getting delayed. It is to be noted that the annual budget estimates for the year 2003-04 is subject to amendment by 05% in each year for the next five years. The implementation of these budget estimates would be based on the assumption that the government would be able to meet its revenue and expenditure targets. However, due to the current economic situation, it is likely that the government will not be able to meet its targets. The government has already announced that it will be able to meet its revenue targets, but it is not clear whether it will be able to meet its expenditure targets. Although the government has not announced any changes to its expenditure targets, it is likely that it will have to make some adjustments in order to meet its revenue targets. It is hoped that the government will be able to meet its expenditure targets in the future. However, it is important to note that the government will need to make some tough decisions in order to ensure that it can meet its budget estimates.
"Dear Chief Minister, My Report for the year ended 31st March, 2007 has been laid on the table of the State Assembly recently and/or is likely to be taken up for discussion by the Public Accounts Committee and the Committee on Public Undertakings of the State Legislature. The following are some of my audit findings."

“A Review of such projects on River Godavari undertaken by Godavari Water Utilization Authority reveals several deficiencies. The Agreements were in favour of contractors and did not contain suitable provisions to protect the Government interests. Contrary to the Agreements, advanced payments were made to the contractors. Liquidated damages, slow progress of work were not because of contractors. Responsibility could not be fixed on the Consultants for deviations in the quantities, designs, drawings during the execution. The projects privatized for completion before March, 2007 were not completed.”
SRI PONNALA LAKSHMAIAH: The subject is too wide and too large. The questions are raised from A to Z.

MR SPEAKER: Is it relevant to the main question?

SRI PONNALA LAKSHMAIAH: Sir the subject is so wide and large that any answer in a minute may not give a correct message also.

I will try my best for answering the questions.
MR SPEAKER: We will finish reply now Minister garu. Please finish reply now.

Please complete the reply.
MR SPEAKER: Yes, anything very specific Srihari Garu? After this, I will close. That's enough now.

MR SPEAKER: We have to close it at some point Janardhan Reddy garu.
MR SPEAKER: Minister garu, now I have to close it. This will be your final reply. After this, subject will be closed.
The decision was taken. For what the decision was taken? If the decision is not taken, it will take time to take a decision again. A decision taken is better than a decision not taken. Whereas, you never taken any decision and you have only publicized. Whereas, this Government, with conscious efforts and concerned approach, took the decision that this projects must be completed earliest possible which may give benefits to generations and generations to come. You have denied for many generations such kind of opportunity.

(kindly bear with me for one minute.)

If you can bear with me for one minute.

Kindly bear with me. This is a very elaborate question. Kindly bear with me. The Minister has replied.

The question here is, he has given his Government’s position. After this, I am closing. After this, I am closing this matter. Now, anyone of you. After this, I am closing. Any one of you.
MR. SPEAKER : You have repeatedly stated. That's enough. Minister garu, do you want to add anything.
MR. SPEAKER : That's the final reply from the Government. The matter is closed. If you want to register your protest..... If you are not satisfied, I am not blaming you for that. You can express your protest on that.

There is no further reply from the Government. The main crux has been dealt with. My request to you is, it is not the question of deviation.

You kindly bear with me. The matter has to be closed. It cannot go on like this.

"The number of works that have to be completed within the agreement period are nil "
A review of the projects on the river Godavari by the Godavari Water Utilization Authority reveals several deficiencies. By 1984, the agreements were in favour of the contractors and did not contain suitable provisions to protect the Government interest. Contrary to the agreement advance payments were made to the contractors. Liquidated damages on slow progress of works were not recovered from the Contractors.

Responsibility could not be fixed on the consultants for deviation in quantity, designing and drawing during execution. The projects prioritized for completion before March, 2001 were not implemented.
MR. SPEAKER : Minister garu, would you concede to their demand?

( answers )

Mr. Speaker: The demand made by them is not acceptable. If you concede to their demand, it will be a matter of principle. The question is, in principle, whether you are willing to concede to their demand?

( answers )

Mr. Speaker: The demand made by them is not acceptable. If you concede to their demand, it will be a matter of principle. The question is, in principle, whether you are willing to concede to their demand?
SRI YANUMALA RAMAKRISHNUDU : I am the Chairman of the Public Accounts Committee. I am concerned with it.

Irrespective of political parties wanted the Yelampally project files should be placed before the P.A.C.
You are also custodian of the Committees. That is nothing but a mini Assembly. The mini Assembly wanted the files should be placed before the Committee. 

MR.SPEAKER: Let me set the record straight.

On your point raised definitely the Public Accounts Committee has sought certain reports from the Irrigation department. The Irrigation Department has said that the original files are with the Lok-ayuktha. That is what you have said. Subsequently, a letter has been sent from the A.P. Legislative Assembly, asking for certified copies. Those certified copies will be sent to the Committee. Recently, the matter was brought to my notice. Wherein a letter has been addressed to the Chief Secretary, asking if not the originals, the certified copies to be submitted to the Committee. They will be submitted shortly to the Committee.

Modernization of Slaughter Houses

In the wake of the changing dietary habits, modernization of slaughterhouses has become imperative. The traditional methods of slaughtering animals are outdated and pose several health risks. Therefore, there is a need to adopt modern and hygienic methods of slaughtering to ensure food safety.

Steps for Modernization:
1. **Construction of New Facilities:** The construction of new and well-equipped facilities is necessary to ensure proper hygiene and safety standards. This includes the provision of adequate space for slaughtering, chilling, and processing.
2. **Training of Staff:** The staff should be trained in the latest techniques and protocols to handle the animals efficiently and safely.
3. **Implementation of Hazard Analysis and Critical Control Points (HACCP):** This system helps in identifying potential hazards and implementing controls to prevent food safety issues.
4. **Adherence to Quality Standards:** The slaughterhouse should adhere to the highest quality standards prescribed by the relevant authorities.

Conclusion:
Modernization of slaughterhouses is crucial for ensuring food safety and health. It not only protects the consumers but also improves the overall efficiency and productivity of the industry.

"That the Andhra Pradesh Vaidya Vidhana Parishad (Amendment) Bill, 2008 be taken into consideration."

CHAIRMAN: Motion moved. Now, objects and reasons.

The meeting room was filled with a sense of anticipation as the esteemed members gathered in the Andhra Pradesh Vaidya Vidhana Parishad to deliberate on the Andhra Pradesh Vaidya Vidhana Parishad (Amendment) Bill, 2008. The chairman, Mr. [Name], opened the proceedings by announcing the motion that had been moved. The essence of the motion was to take up the bill for consideration.

Mr. [Name], the member from [Party], started the discussion by highlighting the need for the amendment. He pointed out that the current provisions of the bill did not adequately address certain crucial aspects that were critical to the well-being of the medical practitioners. He further stressed the importance of the amendments in ensuring that the rights of the practitioners were protected.

Mr. [Name], representing the health sector, echoed the sentiments raised by Mr. [Name]. He emphasized that the amendments were necessary to align the regulations with the advancements in medical science. He also emphasized the need for a more comprehensive approach to healthcare delivery.

The discussion then shifted to the objections and reasons for the amendment. Mr. [Name], the representative of the private medical practitioners, raised concerns about the potential impact of the amendments on their practices. He argued that the amendments could lead to increased regulatory burdens, thereby affecting the quality of healthcare.

Mr. [Name], the member from the opposition, countered Mr. [Name]'s arguments, highlighting the benefits that the amendments could bring. He argued that the amendments were designed to streamline the regulations and ensure a level playing field for all practitioners.

The debate continued with each member bringing forward their perspectives, ensuring a comprehensive understanding of the implications of the amendments. The chairman then adjourned the meeting, requesting all members to carefully consider the arguments presented and to be prepared to vote on the amendments in the next session.

The meeting concluded with a promise to convene again, armed with the rich discussions and thoughtful considerations that had taken place that day. The members left the meeting room with a renewed commitment to the principles of public interest and transparent governance.
