SRI AKBARUDDIN OWAISI: Hon'ble Deputy Speaker Sir, it is a very sad day for the democracy and also a black day in the history of Andhra Pradesh Legislative Assembly I would say. I do not want to speak because I was insisting upon you for convening an all party Floor Leaders meeting in your chambers so that we could bring to your kind notice as to what our feelings are, but our demand was not accepted by your kind self and now I was given an opportunity to speak so I had spoken.

First of all, I would like to use this opportunity and call upon the people of my State and render my apologies to them because I am also part of this House.
and I am extremely sorry for what had happened in this House. Sir, there is a Parliamentary practice that whenever we have any disturbance in the House or any political party Member/Members reaches/reach the podium, either the House is adjourned or a repeated request is made to the Member/Members who is/are agitating, to go back to his/their seats and in spite of that, if that is not heard or listened, then the House is adjourned and all political party Floor Leaders meeting would be convened by the Chair. I really fail to understand as to why the House was not adjourned and why all political parties Floor Leaders meeting was not convened. There have been so many incidents and we have been seeing so much of agitations by many political parties. I have been the part of Andhra Pradesh Legislative Assembly in 1999 also and, at that time when Telugu Desam Party was ruling the State, we had a Power agitation and the Power tariff was enhanced and at that time we used to have a very lengthy debates, protests and agitations but never we had seen such a scene as to what we had seen today. Again it is also Parliamentary practice that when any Member is being suspended it is not a Rule or Regulation but, it is a Parliamentary practice that before moving a Resolution for suspension of any Member or Members, the opinion of all the political parties is taken. I do not understand why the opinion of all the political parties was not taken. Probably we could have not only given a fruitful suggestion but we could have made an appeal from our side also to the agitating Members to go back to their seats. We were also not given that opportunity. When a Member is suspended, it is always better I would say that the suspended Member should leave this House without being escorted by the Marshals. At least I believe this. But that has not happened and the agitation continued. The protest continued. The Marshals were there in the House. Sir, from 1999 I have regularly been elected to this House and I have seen after the suspension, the House has been adjourned twice or thrice. It happened Sir. We could have adjourned the House but the House continued. I do not want to blame anybody Sir, because I am also part of it. What has happened is very bad. It is very sad and I should say that for the first time I am falling short of words to put across the feeling which I had in my heart. I really do not understand as to why so much of agitation was made when Members were suspended. The Leader of the Opposition who has been in this House since 1978, might have been suspended for so many times. I really do not understand why he and his Legislators did not leave this House. Not only that, I have never seen him in so much of temper. He was so angry that others had to stand by their leader. Then the doors were closed. All the doors were closed except for that one door and glasses were broken, the microphones were broken, the mikes were broken and the last benches were broken. Who is responsible for this? Everybody knows. But, It is a very sad Sir. When I say that the action and the behavior of the Opposition Leader and his party members was appalling at the same time I should just say that the Government should not have acted in so much of haste.

Sir, from three days we are seeing there is so much of protest. I am sorry to say that the quality of debate is drastically falling down. You always give us 5 minutes, 10 minutes, 20 minutes of time instead at some times give us one hour’s time and I am sure that no one will be able to speak for such a long time. I once again say that the quality of debate is drastically falling down. The preparations are low. When the quality of debate is falling, the quality of behavior is also falling. When the quality of behavior is falling at the same time let me come on record and say that the tolerance levels are also falling. We all
should have more and more of tolerance. Our self-egos are really sitting on our heads. We are here to serve the people and do something good to the people. People have sent us here with lot of hopes and expectations. People have dreams for us and for the State. We all are responsible citizens of this Country and also let us all not forget that we are all law makers. Sir, law makers means the one who makes law. But, here I am sorry to say that the Legislators are more a road makers and basic amenity makers and lesser law makers. The saddest part is, we are not debating on any subject or any topic. We are making laws. We are supposed to pass Bills. Law makers are entrusted with the responsibility of making laws but see what we have made up of our own selves. I know that today all the National Channels are going to have the Andhra Pradesh Legislative Assembly from morning till late in the evening. We have seen in the TV Channels that in Orissa Assembly one Legislator was sitting on the table of the Speaker. And now we will see Andhra Pradesh Legislative Assembly. We never thought that one fine day Andhra Pradesh Legislative Assembly would proceed very faster towards Uttar Pradesh and Bihar Assembly. I hope that the Leader of the House and all the senior Legislators sitting here take a serious note of what has happened in the House and the Leader of the Opposition also realize as to what happened today.

Sir, we are here to raise an issue. We cannot dictate terms to the Government. It is the authority of the Government to accept our demand or not. We can put across our demand but we cannot force the Government. The people have given mandate to the Government for five years. So let us wait for another five years. If in this forum our issues are not addressed and our demands are not accepted, finally we have the court of the people. The people are decision makers. They will decide whether the five years regime was right or wrong, good or bad and decide whether to give them another chance or not? But here we ourselves want to take an opportunity. I have been repeatedly requesting and once again I put across our demand and request that please Sir, stop this live telecast.

(ROUND OF APPLAUSE BY THE TREASURY BENCHES)

When I came in this House for the first time in 1999 we never had this live telecast. Just because we never had live telecast, probably, I might be wrong subject to correction, we used to have lot of debates. We used to have three hours debate and what tolerance levels we had? But right from the day this camera had come, this Assembly had become a stage and many Legislators have become stage actors. They are acting and thinking that the people are seeing them. But people are not fools they know what is what. I once again want to bring across my demand to please stop this live telecast. I am sorry Sir I am taking lot of time.

We have right to agitate but what is this Sir?
I do not know what you call in Telugu. Sugarcane sticks were there. I really fail to understand this. Sir, your Chair is very powerful. When you have given clear instructions that no placards are allowed inside the House how can a sugarcane stick come inside the House? What if somebody transport a bomb inside this House who will be held responsible for it?

We have seen one gentleman, one law maker dressed up in a kisaan dress. I do not want to comment on that. But I do not think that was the dress which they are supposed to wear and enter this House. I request the Chair to kindly make a note of this.

One more thing Sir, when once a Member is suspended, it is the responsibility of the Member to leave the House. If they do not leave the House, Marshals would be called and it is the responsibility and the duty of the Marshals to lift the Member and take him out. Why were the Marshals not acting upon? Why have they waited for one hour? Why were they silent spectators? Kindly note the names of all those Marshals. When they were asked to come inside and pick them up and take them out why were they not doing their duties? When they were not doing their duties they need to be suspended I would say. These Marshals have also brought disgrace to the House. I am sorry to say Sir. Probably the Marshals, the bureaucrats, the Police everybody is thinking that the State has a very week Government. You have to make a note of this. The Leader of the House should make a note of this as to why they have not acted upon and who was the head of them and why they were standing over here and watching tamasha. We have to give a strong message not just to one but to everybody that there is a Government, a very strong Government which would act upon. It is the demand of the moment I would say. It is not as if anybody can rule as and how they want. It is a concern for us, for the citizens of the State. Sir, I hope that the points which have been raised by me would be made note of. I once again express my feelings that I feel very saddened, very upset and I think it is a black day and I was hurt by what has happened and I feel like not sitting here but going out of the House. So I just want to go out of this House. I do not know why I am doing this but I have to do this. Thank you very much Sir.

There shall be Rural courts
MS. CHRISTENE LAZARES: Thank you Speaker Sir for giving me this opportunity. I have been with women for the last 30 years and we have found that women have worked largely for economic, for education and for social upliftment and the only reason and the only issue that lured them was economic empowerment, not only in the city levels but mostly in the rural areas. It is sad that the M.F.Is have cashed in on this situation when the rural women were trying to do something to come out of their own situation and find a place in the sun.

Sir, many of our people have spoken true and each one of them has their fears also of the Bill. But, I do appreciate the good intention of our Government in this Bill. Intentions are good but definitely there is stress on the rate of interest. Sir, here even in the objectives it is stated that the RBI has left rate of interest to the Government. I think there is something that our Government will need to do to clear the situation.

Sir, Collection, as Mr. Kishan Reddy garu stated, is very difficult for women. They will definitely have some or the other expenditure or it will be taken away by their drunken husbands. Sir, this Bill of controls, which is placed before us is good but their needs to be some more controls to be ratified and here I would appreciate if the women who is taking a loan will make her own repayment facility instead of going through another authority, as is the fear of Mr. Jaya Prakash Narayan. The Bill of controls is accepted and acceptable to the people like me and I do thank the Government for coming to the rescue of so many women who had to give up their lives, only because of coercion and this is a very sad thing for us.

I hope that, with this Bill there will be no such coercion in future. No women is driven to commit suicide and perhaps we would find ways and means, different ways and means to see that women have economical growth instead of just simply having to rely on a monthly basis through MFIs and other institutions.
