Dr G S Melkote The Board of Directors of the Company consists of the following —

Finance Minister
Shri Pannalal Bansilal

Mr Sydney Tailor (Alternate Director Mr J D Aitken)

Shri Chunnilal B Mehta

Khan Bahadur Nawab Ahmed Nawaz Jung

Shri S N Bilgram

Shri C Damodara Reddy

Shri Ch Venkata Rama Rao What is the contract between the Managing Agents and the Company?

Dr G S Melkote There are no Managing Agents Only there are Managers and Consulting Engineers. The contract is that the Managers prospect gold out of the mine for which they are paid a consolidated fee of £9,000 per annum John Taylor & Sons are the Managers and Consulting Engineers. Out of their remuneration they are expected to pay the salary of the Superintendent of Mines, which amounts to £2,500 per annum John Taylor & Sons receive remuneration in no other form the Company and they do not charge separately for any other services

Shares Market Value

Dr G S Melkote I require notice.
Dr G S Melkote: This company was started in 1987 and the work of prospecting was started then. But the mines became useful for production actually in 1949. The question of foreigners managing it is no doubt an important aspect which has been under examination for the past one year. So far as I know in India, it is only the Kolar Gold Fields which is being worked as well as managed by John Taylors the Mysore Govt have struck another mine and want to start work there for which also the same firm may be appointed—I heard so though I should not here speak on behalf of the Mysore Government. Messrs John Taylors are the best in the line as far as I can understand. I have been examining the question of managing these Mines ourselves but I myself doubt how far this would bear fruit.

Dr G S Melkote: I require notice.

Dr G S Melkote: It is being sold at the Bombay market and the Company is being run out of the amount thus realised.

Shri M Buchaiah: What are the functions of the Chairman?

Dr G S Melkote: The function of the Chairman is to see that the Company works.

Dr G S Melkote: It is very little. As I said the Company started working in 1949 and none of the Gold Mines will show a profit in such a short period. It may have profits some years later. As it is, we are not being put to use.
Starred Questions and Answers

2nd April 1988

Mr. K. Pappu Reddy (Ibrahimpatnam) Just now the hon. Minister said that the profit was very little. Can he inform the House how much loss has been incurred?

Dr. G. S. Melkote Prospecting started in 1987 while actually the working of the Mines started in 1949.

Dr. G. S. Melkote There is nothing like loss. This year I think we got a small amount of royalty about Rs 15,000 or Rs 20,000. I am not sure about the figure but it is somewhere between that.

Dr. G. S. Melkote I require notice.

Dr. G. S. Melkote The information of the hon. Member is wrong. No such thing has taken place as far as I am aware.

Dr. G. S. Melkote The prospecting of the mines was started in 1987. All that was done before 1949. Whatever facilities have been given originally are being continued, but nothing new is being given.

Dr. G. S. Melkote I have examined it and I do not think there is anything in it. In spite of it, I am prepared to re-examine.

1974 2nd April 1959 I A Bill No VII of 1958 the Hydralastich of Off ndry Bill 1953

Dr. W. A.T. had obtained from the Secretary of State for India, a report on the status of the project for the construction of the Hydralastich of Offndry Bill 1953.

The report states that the project has been approved by the Ministry of Works and Housing and that the necessary funds have been allocated. The construction work is expected to commence shortly and completion is scheduled for the end of the financial year.

The project involves the construction of a new hydropower station which will provide additional power to the local area. The station will be built on the Offndry Bill 1953 and will utilize the water resources of the area.

The report also highlights the importance of the project for the local economy, as it will create employment opportunities and stimulate economic growth.

In conclusion, the report recommends approval of the project and requests that the necessary actions be taken to ensure its successful implementation.
Shri M S RajaRajam (Warangal) Mi Speaker, Sir

From the face of the Bill, it is very clear that it has been placed before this House from the humanitarian point of view. It is not the humanitarian point alone that will lead to the successful implementation of the Bill, but it is the growth of the general moral standards of the society that will result in the success of the Bill. If our moral standards are very low and the Bill aims at a very high moral level, I feel that the whole basis with which the Bill is brought here fails flat. If this is to be avoided it is as much the duty of the public and more so the Members of this House and the heads of the political parties to always create a democratic atmosphere wherein such bills will have a successful effect over the public and the need does not arise to take advantage of this bill. It is quite essential that we see that certain political parties which do not believe in the ballot box and take to certain other resources,

(Insinuation)

Shri M S RajaRajam It is a generalised remark and there is no need for anyone to get wounded by that unless and until they themselves feel that they do not have faith in the ballot box. So Sir, when a particular section of the society or party does not have faith in the ballot box, these bills are ultimately going to be a partial failure and that speaks for the reason to retain the words peace and good behaviour as they stand here. If the words offence is used instead of 'peace and good behaviour', it may not serve the purpose, I feel that the word 'offence' has got a particular meaning in the Penal Code Sections and the net result is that a man may not do an offence within the meaning of the term, but may not contribute to good behaviour either of himself or peace of the society. To see that at least he does not do an offence it is important in view of the Bill that he maintains peace and good behaviour, which is essential to create a
If we ever thought that offence was an important matter or it is for the sake of offence, not being committed that we have got the bill here then we would have readily accepted the amendment, but we wanted something more. We know from that when a man ultimately takes to peace and good behaviour he will directly contribute to the thought of not committing offence but a contrary behaviour is certainly going to vitiate the whole purpose of the Bill and the democratic atmosphere and that is why these words have been brought here. If a proper Judicial view or Judicial decision is to come up it is quite essential that the words peace and good behaviour alone should be there. Without any secrecy when we visualise the Bill, let me make it clear that some people are found in certain sections of the society who do not contribute to the peace and good behaviour and but if the same time commits acts that do not fall within the meaning of the words offence and thus vitiate the whole atmosphere. Ultimately creation of a democratic atmosphere for which this Bill is intended fails. Hence Sir the words as they are must be there and it is quite essential that we should accept it.
I A Bill No VII of 1959 the 2nd April 1959
Hyderabad Probation of Offenders Bill 1953

The Bill provides for the establishment of probation officers for the purpose of supervising probationers. The probation officer is required to report to the court on the conduct of the probationer and to advise the court on the appropriateness of the probation order. The bill also contains provisions for the appointment of probation officers and their powers and duties. It is intended to ensure that the probationers are supervised and their conduct monitored to ensure that they comply with the conditions of their probation.
