(Rehabilitation Department)
Supplementary Demands for Grants. 27th September, 1954.

We hereby name to the attention of the House that in addition to the demands listed in the Budget, there are certain demands for grants which we consider necessary for the effective functioning of various departments and institutions. These demands are as follows:

1. **Rehabilitation**: Funds are required for the rehabilitation of certain areas and projects which have been affected by natural calamities or other unexpected events. The amounts required are as follows:
   - West Pakistan: Rs. 10,000
   - Students: Rs. 5,000

2. **Explanatory Note**: Further details on the above demands are provided in the attached explanatory note.

3. **Consolidated Fund**: An allocation of Rs. 50,000 is proposed from the consolidated fund for general administration and maintenance purposes.

4. **Delegation**: The delegation of authority to certain department heads is proposed for the efficient management of their respective departments.

5. **Loan**: A loan of Rs. 10,000 is required to assist in the construction of a new building for the Ministry of Education.

6. **Amount**: The amount of Rs. 50,000 is required for the completion of a long-term project related to the development of rural education.

7. **Compensation**: Compensation is due to certain employees for their efforts and contributions to the development of the country.

8. **Suggestion**: The suggestions made by the staff are considered important for the improvement of the service delivery.

We request the House to approve these demands for grants, keeping in mind the overall development and welfare of the country.

The supplementary demands for grants cannot be considered, because the financial position of the country is such that the demand cannot be met.
Supplementary Demands for Grants.

27 September, 1954.

As the yeats in the colden house hold, the smoke is seen in the window. The old man sits in the chair, reading his newspaper. The children play outside, chasing the bird. The sky is blue, with a few white clouds. The sun shines brightly, casting a warm glow on the ground. The air is fresh and crisp.

The old man looks up from his newspaper, a smile on his face. He stands up, takes a deep breath, and walks out the door. The children run over to him, eager to hear his stories. He tells them about his adventures when he was young, about the places he visited and the things he saw.

The children listen intently, their eyes wide with wonder. The old man tells them about the beauty of the world, about the importance of taking care of it. He imparts wisdom and knowledge, his words filling them with hope and inspiration.

As the day goes on, the children continue to learn from the old man. He teaches them about nature, about science, about history. They learn to observe their surroundings, to appreciate the beauty of the world.

As the sun sets on the horizon, the children gather around the old man, their faces lit up with a sense of wonder and discovery. They say goodbye, promising to return tomorrow to hear more of his stories and lessons.

The old man watches them go, a smile on his face. He knows that he has made a difference in their lives, that he has imparted knowledge and wisdom. He looks out over the world, knowing that the future is in the hands of these young minds, ready to learn and grow.

In this case, the anglo-Gaelic commission have — after a careful examination of the evidence — arrived at the following conclusions:

1. The commission have found that the village police are not adequately staffed.
2. The village police are not adequately equipped.
3. The village police are not adequately trained.
4. The village police are not adequately supervised.

These conclusions are based on the evidence presented to the commission.

Moral:

The village police should be adequately staffed, equipped, trained, and supervised.

 Supplementary Demands for Grants

27th September, 1954.

In view of the increased demands for grants, it is necessary to take appropriate measures to ensure that the financial resources are allocated efficiently.

Co-operation

- Increased efforts to facilitate the process of cooperation between the government and various organizations.

- Strengthening the existing mechanisms to coordinate and expedite the approval of projects.

- Allocation of specific funds for co-operative ventures, particularly in rural areas.

- Encouragement of private sector participation in co-operative initiatives.

Overloading

- Review of current policies to address the issue of overloading in resource allocation.

- Implementation of measures to ensure that projects are not burdened with unnecessary requirements.

- Establishment of a committee to oversee the implementation of overloading policies.

Allow

- Increase in the allowance for certain projects to meet their requirements.

- Specific criteria to be followed for the allocation of additional funds.

Percentage

- Proportionate increase in grants based on the performance and needs of projects.

- A systematic approach to calculate the percentage increase in grants.

Strictly follow

- All guidelines and regulations related to grant allocations must be strictly followed.

- Regular monitoring of projects to ensure compliance with the established guidelines.

- Penalties for non-compliance with the regulations.

In conclusion, it is imperative to ensure that the demands for grants are met in an efficient and effective manner, considering the current financial situation.

Supply of Oil Engines to the Agriculturists

Shri K. Venkiah (Madhira): I beg to move:

"That the grant under Demand No. 26 be reduced by Rs. 100".

The Minister for Supply, Agriculture, Development & Planning (Dr. Channa Reddy): There is some misunderstanding on the part of the hon. Member. If I am permitted, I would clarify. It is in this context that the statement on page 24 (last one or two lines) and page 25 (first one or two sentences) was made. It is a mere statement of facts that were happening till now. Till 1952-53, the Hyderabad Government were making large provisions in the Budget for granting short-
term taccavi advances to cultivators for improved seeds, manures, sinking and repair of agricultural wells, oil engines, etc. It is nothing more but a mere statement of facts which were happening till now. This particular demand does not relate to oil engines; it relates only to fertilisers and well-sinking.

**Mr. Speaker:** But the amount is not required for that.

**Shri L. K. Shroff (Raichur):** That point can be discussed later on.

**Dr. Channa Reddy:** On a further clarification, Sir. The last sentence in page 25 is abundantly clear: "The sanction of the Assembly, is, therefore, necessary to a supplementary grant of Rs. 1.17 crores for making short-term taccavi advances to the Agriculturists in the shape of artificial fertilisers, by utilising the loans sanctioned by the Government of India."

The succeeding para in the next page only refers to taccavi advances for sinking of agricultural wells.

**Mr. Speaker:** I cannot allow this cut motion.

**Supply of fertilisers.**

**Shri G. Gopal Rao:** I beg to move:

"That the grant under Demand No. 26 be reduced by Rs. 100."

**Mr. Speaker:** Motion moved.

**Policy of Government in granting Taccavi Loans and their recovery from Agriculturists.**

**Shri Annajirao Gavane:** I beg to move:

"That the grant under Demand No. 26 be reduced by Re. 1."

**Shri G. Gopal Rao:** I beg to move:

"That the grant under Demand No. 26 be reduced by Rs. 100."

**Mr. Speaker:** Motion moved.
Supplementary Demands for Grants. 27th September 1954.

Shri. Mr. Gavane:—When the supplementary demand is before the House, I am entitled to discuss the policy of the Government in regard to the distribution of taccavi loans and again, in regard to the recovery of such loans. The cut motion does not in any way affect....

Mr. Speaker: Motion moved.

Faulty way of distributing Zinc Sheets to the Rural Areas

Shri Bhujang Rao (Jintur): I beg to move.

"That the grant under Demand No. 26 be reduced by Re. 1 ".

Shri. Mr. Gavane:—why zinc sheets are not distributed properly and what is the way of distribution?

Mr. Speaker: It is from the Rural Welfare Trust Fund. The whole sum is there.

Shri V. K. Koratkar: It is a loan taken from the Government of India for the fertilisers and for well-sinking purposes.

Mr. Speaker: Only for two purposes. Then this cut-motion can not be allowed.
Shri Annajirao Gavane: I humbly request......

Shri V. K. Koratkar: Speaker, Sir, I have no objection for allowing this cut motion to be moved.

Mr. Speaker: Motion moved.
Supplementary Demands for Grants. 27th September, 1954.

गया है कि पेंशन बॉफिस में जो तीन चार क्लासिस रखे गये हैं उभरे रहा जाना ठीक नहीं था। यहू लुभाया गया कि जागीरता का जो डफ्टर था दुसरे ही क्लासिस थी ठीक था। वहीं से क्लासि

के कर काम किया जाना चाहिये था लेकिन वह ही किया गया यह अवरोध था। बहुराश जिन हौगीने आलंप किया, फ्रूटों में विस्तार को तो माना कि कम्प्युटर ( Commutation ) के तीर पर जो रकम दी जा रही है वह बहुत ज्यादा है और उसके देने के विषय ज्यादा सेवादारी की जरूरत थी। जब वह जो ज्यादा क्लासिस रखे गये थे वह डिपार्टमेंट से विषय जाने चाहिये थे या फ्रूट सामान्यता के तीर पर मुकर्रर कर के काम चलाया जाना चाहिये था और कोई तदस्वी अवश्यवाद फिरे जाने चाहिये थे यही बहुत का तर्क है। वे सामान्यता है यक वह कोसी बड़े अंतराज की बात नहीं है, और विस्तार के विषय अंतराज करने की जरूरत भी नहीं है।

हूसरी मांग जिके बारे में बहुत शहोध में बहुत की गयी वह 1 लाख 93 हजार 79 सये

की है। जिसके बारे में पहले ही मैंने सवाल के लिए में अर्ज कर दिया है कि वह जो रकम है

वह अंक मजबूती लेस्फों के तीर पर है। बात यह है कि ड्रेंट ( Grant ) की जो रकम

होती है वह पकड़े जाने से बच कर कर पूरी है और बाद में जब वह रकम आती है तब बूसका

हिस्सा कर पता है और बाद में बुझ हिसाब में अडजेस ( Adjust ) करना

पड़ता है। मजबूत बौन ( Loan ) की जो रकम होती है वह मंजूर होकर रकम आने

पर ही बाद में जोन दिया जाता है। यह जो 22 लाख की रकम हैं बच कर कर पूरी हैं कोडेजेंची

फ्रेंड ( Contingency fund ) के बुझे किये वहाँ पर मंजूरी मांगी जा रही है।

जिसके बाद और अक चीज के बारे में कहा गया कि हम जो कंबल का खराब बाबा बैनकरवाले

हूँ बाहु जान जिस तरह से बाहु जानवाला है बुसके बजा होना चाहिये। मैं भी विस्तार की मानता

है कि जिसे बदला चाहिये लेकिन अर्ज हुसरे जो हुलार है बुसके जिहाज में जान जिसे बुस तरह

से नहीं बाया जा सकता है, लेकिन क्षणिक है बनन बनने की की जानेगी।

बीयारिया ( Weavers ) के बारे में यह कहा गया कि विस्तार असेली में जिसके

पकड़े बौचवाले के बारे में बिक निफतकारी प्रस्ताव आया था लेकिन बतवक बुसके बारे में हुकूमत

कोट्स बर्जहुत नहीं थी। मैं बाहरी बस्तन्ते से विषय आदर करना चाहिया हूँ कि हानिम में जब यह

प्रस्ताव आया था तब ही हुकूमत ने जिसके बारे में जब बा जिहाज बिल्कुल बाधित कर दी थी। अनुकूल

जो मांगें उन बुसम में यह मांग थी कि बीयारिया की म्युनिसिपल टेस्ट माफ कर दिया जाया। बुसी बस्तन हुकू

मद ने बाया था कि विस्तार जिसे किसी अंक प्रतीक हो मांगको फॉर्मेली ( Facility ) नहीं

ही बा सकती है और अंक रेकमेंट (Recommendation) नहीं भी की गयी थी कि हुर

बायर को 100 हार्म दिये जाय। जिसके बारे में भी कहा गया था कि यह अंक नामुमकिन चीज है

और बूसके मिले मंजूर नहीं कर सकती।

सी. बी. जी. देशपांडे—अभ्यस्त यहाँ हैं, वे पृथ्वी चाहिया हैं कि नामतनिमाण यही

कम्यून सीलयक ही बूसेम भी ही लेकिन जब अंक रेजेप्लान हानिम के सामने आता है और जब बूसेमं चांड रेजेप्लान

फिर जाने हैं और वह युवंतिमली ( Unanimously ) पास भी हो जाता है तब अंकी

बूसेम में यह कहाना की हुकूमत अब अंग्रेज में नहीं देख सकती है, कहाँ तक मूबें हैं? फिर चिक्का

Shri V. D. Deshpande: Mr. Speaker, Sir. I want some information regarding these Boards. Out of the 13 Wage Boards, how many have sent their reports?

[Mr. Deputy Speaker in the Chair]

Dr. G. S. Melkote: Wage Boards were set up for the following industries:

Group I. Electricity; General Engineering, Printing Presses, Drainage and Water Works.

Group II. Cement and Cement Products, Glass and Clay Works.
Group III. Paper, Sugar, Distilleries, Cigarettes and Rayon Silk.

Group IV. Textile, including textile products.

Out of these Wage Boards, Groups I and II have submitted their reports, i.e. Electricity, General Engineering, Printing Presses, Drainage and Water Works Board; and Cement and Cement Products, Glass and Clay Works Board have submitted reports by the end of June, 1954.

Wage Board No. III, i.e. Paper, Sugar, Distilleries, Cigarettes and Rayon Silk, has submitted report for Paper, Sugar and Distilleries upto the end of July, 1954. Reports regarding Cigarettes and Rayon Silk are still awaited.

Wage Board No. IV, i.e. Wage Board for Textiles has to submit its report by the end of November, 1954.

Shri V. D. Deshpande: I want to know what are the arrears of accounts of Electricity Department in Secunderabad for which Rs. 50,000 are being asked?

Dr. G. S. Melkote: There is no item there. I think it is with regard to the excess of expenditure, and this amount is in order to bring the accounts upto date. Does the hon-Leader of the opposition want to have........

Shri V. D. Deshpande: In the Explanatory Note that has been supplied to us, it is said that the expenditure is required for clearance of arrears of accounts of Secunderabad Electricity Department, and all that. I want to have a clarification in this regard.

Shri G. S. Melkote: Large amount of arrears have accumulated and they have not been brought upto date. We want excess staff and for that purpose I have asked for Rs. 50,000.
Supplementary Demands for Grants.

27th September, 1954.

In the course of a recent discussion on the subject of supplementary demands for grants, it was pointed out that the need for additional funds was not only recognized but also widely accepted. It was agreed that the Government should take all necessary steps to ensure the timely release of the required funds.

To this end, the following measures were proposed:

1. An increase in the budget allocations for the current fiscal year.
2. The amendment of existing regulations to facilitate faster disbursement of funds.
3. The establishment of a special task force to oversee the implementation of the supplementary demands.
4. The appointment of a high-level committee to monitor the progress of the demands.

It was felt that these measures, if implemented effectively, would go a long way in addressing the current financial exigencies.

Yours sincerely,

Supplementary Demands for Grants. 27th September, 1954.

My cut motion relates to the working of Wage Boards.

In this connection, I wish to point out to the hon. Minister that the Wage Boards ought to have been able to present their reports within the prescribed time. We were asked to pay for 8 months more and now the Demand is before the House.

Firstly, I think the majority of the Wage Boards have submitted their reports. As far as I know, it is their complaint that they had not had enough time and therefore they had arbitrarily to give certain suggestions to the Government. In this respect, I wish to point out to the Government that it was absolutely necessary for the Government to lay down certain national minimum wage. The Trade Unions of Hyderabad had pointed out to the Government that unless certain basic minimum wage was given, it would not be possible for the Wage Boards to come to any conclusion. As far as I know, the Wage Boards which have submitted their reports, recommended different minimum wages and their recommendations vary from Board to Board. It would have been a good thing for the Government to have laid down Rs. 30 as the minimum wage and on that basis the Wage Boards should have worked.

Secondly, I find that these Boards have given certain recommendations to the Government arbitrarily. I learn that certain Wage Boards have suggested an increase of Rs. 2 due to demonetisation and probably another amount of Rs. 2 towards Dearness Allowance, that is, altogether Rs. 4. Certain Boards suggested an increment in the wages much more than the above. There is no uniformity in the recommendations.

P-II—9
Moreover, the reports of those Wage Boards which have submitted their reports, have not been made available to hon. Members as yet. Therefore, it is not possible for us to comment on their work in detail as such. But I wish to point out to the hon. Minister that the basic defect has been in not providing them with the basis of a national minimum wage as such.

These Wage Boards were asked to recommend certain increment in the wages and dearness allowance due to demonetisation. It would have been better that those Wage Boards had been also asked to take into consideration the consolidation of the dearness allowance with the basic wage. Government is aware that at the Central level this matter had already been dealt with and the Central Government has consolidated 50 per cent of the dearness allowance with the basic pay of the Government employees in the Central concerns and those employees are now getting the benefit of such consolidation. I do not know whether these Boards have considered this aspect. Anyway, we are anxious to get the reports of the Boards as soon as possible and it would be better if the Government makes, such of the reports as have been submitted, available to the hon. Members. Regarding the other reports, the sooner they submit the better, so that we can judge how far their recommendations have been beneficial.

There is a demand regarding the pensions and leave facilities that have been given to the Drainage workers. In this regard, I learn that the cases of 60 workers are still pending and that 250 workers have been made permanent. A demand regarding their pension and leave facilities is before us. Regarding 60 workers, I learn that the matter is still pending and that the Government has not offered them any pensionable permanency as such. It is learnt that they are only being offered certain gratuity, while their demand is that they should be placed on the same basis as the other 250 workers who have been made permanent on a pensionable basis.

Regarding these workers, I wish to point out to the Government that while fixing up their dearness allowance the Government has not followed the decision which was given in the case of Municipal Workers by the Appellate Tribunal. In their case, I learn that the Appellate Tribunal held the view that the rent to be paid to the worker should be apart.
from what is paid as dearness allowance. In that particular case, I learn that Rs. 26/- is the dearness allowance and Rs. 5/- is supposed to be the rent. In the case of drainage workers, it is cleverly argued on behalf of the Government that the dearness allowance which is being paid to them includes also the rent. In fact, the Appellate Tribunal has held that the dearness allowance does not include rent and rent, to the extent of Rs. 5/-, should be given separately as such. This also is one of the demands of the drainage workers and I think that, when the Government has come before the House again with a supplementary demand for an amount which will defray the charges towards their pension and leave allowances, this matter of the remaining drainage workers also should be looked into by the Government and justice should be done to them.

These were the matters which I particularly wanted to place before the hon. Minister for Labour and I hope these matters will engage his attention at the earliest.

Dr. G. S. Melkote: Speaker, Sir. Hon. Members of the Opposition have mentioned certain incidents which, we felt should not have taken place with regard to land purchase.

While mentioning these incidents, hon. Members drew the attention of the Government to the fact that the Minister-in-charge of the Labour Portfolio has been constantly changing and as such there could not be a continuity of purpose in the Government. It is just possible that the change in the Ministers may, in some matters, be for better, while, in some others, it may be for worse. But the policy of the Government with regard to major issues does not so much change so long as that particular ministry remains in power.

With regard to the purchase of land, itself, different people hold different views: I myself would like to point out that as Finance Minister this matter had come up before me and I wanted the Government to negotiate for a fair price. That, the Government certainly did. But, ultimately the question has to depend upon the decision of the Collector who has got to pay the compensation for the land that has been acquired by the Government; and he, in consultation with various bodies who acquired lands, enquired into the ruling prices of lands owned by various people in the neighbourhood, and fixed a fair price.
The particular land to which the hon. Member refers is situated in a place called industrial area. The hon. Member should have known by now that site in that area is usually costly. That is not the only consideration that weighed with the Government in fixing the price or accepting the price that was fixed by the Collector. Workers numbering about 4 thousands moved to that place from a distance of nearly 7 or 8 miles. The amount of cycle wear and tear and the amount of inconvenience involved to the workers, coupled with the amount of trainage that one has got to pay—if one takes all these factors into consideration the total amount of money, even if it is in excess—I feel it is not very much, can be got back in the course of a couple of months in the shape of savings. When the land owner himself sticks on to his guns, one has got to go to the neighbouring lands to acquire. It was found that the prices did not vary very much. The question is: Whether it would be advisable to go away to a distance from the factory and acquire land there at a slightly cheaper price or to acquire land at a particular place which is most convenient for about 4 thousand workers. This is the problem that has got to be settled. The collector kept in view all these factors when he made his recommendations to the Government, which the Government, after due consideration, had accepted, that is how the price was fixed. On a full appraisal of all the facts I hope that hon. Members will tell that it is a fairly good price.

With regard to labour co-operatives also and the construction of buildings for labourers, I must say that the Government of India placed before us various schemes at various times. In 1951, the scheme was that the Government of India would meet 50 per cent of the expenditure as subsidy and 50 per cent as loan. Before this scheme could be implemented, Government of India, in 1952, came up with another scheme, agreeing to subsidise the whole amount, towards which the Government of Hyderabad need not pay anything. The 1952 scheme was certainly more welcome to all the State Governments and the Government of Hyderabad started implementing that scheme and forming labour co-operatives. Many representations to the effect that co-operatives have not been working well have been made. Next, the question of capital came in. How to find ways and means to get the necessary capital for these co-operatives; and how to see that the capital that has been given to them is not wasted? On account of these and other factors, there was slight delay. I agree that there has been slight delay, but during the past 6 to 8 months we have
Supplementary Demands for Grants. 27th September, 1954.

almost completed about 3 thousand houses out of 4 thousand houses, and we hope to complete the remaining before this December. In November next, the Minister for Housing in the Central Government is due to visit Hyderabad to inaugurate these houses. There has again been further delay because when we constructed the houses the Government of India felt that most of these houses would be constructed in the cities and naturally they envisaged that the Hyderabad Municipality had also the drainage and other water works schemes under them. That was not so; here in Hyderabad the position was different; in other cities, the Municipalities control the whole affair. While estimates were drawn up for the houses, this factor was not taken into account. Consequently, another 3 lakhs of rupees was to be added and that is why we have come with a supplementary Demand before the House. No doubt, these difficulties were there; but the tempo of work has been at the maximum kept and we hope to complete the whole thing before the end of this year.

With regard to the amount spent on the visit of the Governor-General in 1919 I have nothing more to add except to say that it was about a thousand rupees or so. Of course, the audit difficulties come in as to the head under which this amount should be included. Not that the amount has not been found or has not been spent—both these had taken place already. It is a question of just finding out under which head this amount has to be placed. The sanction of this House has to be obtained for this and we have accordingly come before the House for that purpose. That is why this amount has been included in the Supplementary Demand. Whatever you call it red-tapism or anything, there is a system to be adhered to, and unless it is decided we cannot include it in one item or the other.

With regard to the Electricity Department, the Special Officer was appointed, as I had mentioned some time ago, somewhere in 1950, when there was a Civil Government.

The arrears of work in the Electricity Department has accumulated and the accounts had to be brought up to date. This was advertised; a number of people came up for interview and the then Finance Minister selected an experienced officer and appointed him. It may be that he is a man who had already been pensioned of. He has almost completed the work. The balance of work is very little and he is expected to complete the work before the end of June next year. At
this juncture to think of changing hands would not be quite correct, for the simple reason that the work will have to be taken up by a new person and the work will not progress to the same extent. The PWD is aware of the sentiments expressed in this House, but I feel helpless and cannot think of making changes at present. It is not in the interest of the Government and the people. Hence I plead that this work should be allowed to be carried on and this amount should be included and sanctioned by the House.

With regard to supply of electricity, I have already made it known some time back, that as per the recommendations of the Government of India, a Central Electricity Board has been set up. We are trying to form provincial Electricity Boards also. For this purpose there ought to be a plan. Even with regard to this, I have made it known that some time in the beginning of next year, new turbines would work and the Nizamsagar and other hydro-electric projects will start functioning. That will be on an experimental stage and by about the beginning of next year, we hope to supply Hyderabad City also. Anticipating further supplies of electricity, we felt that we ought to relax the rules that are already existing with regard to giving connections and licences, and it will take some months to adjust. We had about 8 thousand applications and in the past few months, we have disposed more than 50 per cent. But actual supply of power would take some time because the licence has to be obtained first, the wiring has to be finished by the contractors and these has to be inspected by an officer and then the supply have to be given. All these necessarily takes some months and there has already been a considerable relaxation in the rules for the supply of electricity. Before the end of this year as soon as we are in a position to supply more power we intend forming the Provincial Electricity Boards, in which non-official members will also be included, who can look into the whole affair and see to what extent matters could be rectified.

With regard to Wage Boards, the Leader of the Opposition has already said what I myself wanted to say. The recommendations, he feels, have been arbitrary because a time-limit was imposed. If we had extended the time limit possibly the Members would have said that we wanted to use dilatory tactics. The Government wanted to have the recommendations in their hands early. As the Government requires considerable time to go through the recommendations in detail and pass orders, we wanted the Board to finish its work
quickly. The various Boards have already sent us their recommendations.

These recommendations may not be quite up to the mark, in that they had not sufficient opportunity and time to examine everything in detail. Many difficulties were faced by the Government and the Boards. I must say for the information of the House that a questionnaire was issued to which replies from the employees and employers was sought. These replies were not received by the Government for some months. After the receipt of which we formed the Boards. The meetings were sparsely attended and had to be dragged on. When the recommendations had to be drawn up, the same difficulty was felt. A number of these boards requested for an extension of time. One Board wanted extension from May to June. Two Boards have asked for extension up to November. I do not know what the Textile Board could do even within this time, but in spite of all these things. I am sure the Wage Boards have been doing yeomen service in that they are hurrying up the work and are trying to give their recommendations at an early date. As soon as these recommendations come, and as the Leader of the Opposition said, they have to be considered in all detail by the Government, which has to examine the problem in all its aspects. They have to judge the recommendations and its repercussions on various industries as well as on the people. In the light of these recommendations, which are going to be placed before us in a couple of months, Government would examine them at a very early date and pass their orders. The Leader of the Opposition has mentioned that this should be done early. I can assure him that the Government would go through these recommendations at a very early date and come to a decision on them.

With regard to the pension facilities of the drainage workers I have to say that there are other items pertaining to the labour problem, all of which are being examined. I have already asked the Labour Department to look into the legislations of the other provinces and also the labour legislation of other countries and try to make our own laws as progressive as possible. I am myself bringing up a comprehensive legislation in the next Session. Meanwhile leave and pension facilities have already been granted to the workers and the case of about 60 workers is being considered and everything that is possible would be done.

Working of Cheap Grain Shops:

Shri Syed Akhtar Hussain: I beg to move:

"That the grant under Demand No. 22—be reduced by Rs. 100”.

Dr. Channa Reddy: Mr. Speaker, Sir. I have an objection for allowing this to be moved. The relevant Demand has already been granted under the hon. Finance Minister's items and this does not come within my demands, i.e. demands that I have already moved.

Mr. Deputy Speaker: Which one is it?

Dr. Channa Reddy: It is about Cheap Grain Shops. I would invite the attention of the hon. Speaker to page No. 20 and item No. (vi) of the explanatory Note in which it is stated:

"Rs. 60,000 Grant-in-aid from Excess Profits Tax Fund to the Hyderabad Food Relief Association for running Cheap Grain Shops. The Grant-in-aid, etc.”

This demand has already been sanctioned by the House when the hon. Finance Minister moved his Demands.

Shri V. D. Deshpande: In this regard I wish to suggest that because of non-availability of certain information to the hon. Members and certain Demands having been given the same numbers such as Demand No. 22 and 25, though they pertain to different departments, the hon. Members found it very inconvenient. The Demands ought to have been put where they were proper or suitable, or the hon. Minister ought to have informed the hon. Members. The trouble has arisen by the Demand, which is common to two departments, having been placed in different departments. Now, the only way out of this is that the hon. Members may speak on their cut motions and the hon. Minister may reply to them. This does not in any way, put us to any difficulty as such, I think.

Dr. Channa Reddy: If any hon. Member has any points to be clarified, I would definitely reply to those points, but to move the Cut Motions will not be regular.

Mr. Deputy Speaker: So, we will take up the next cut motion.

**Scheme for the survey of indigenous implements.**

This is a co-ordinated scheme, and the areas, where the locust attack is expected are divided into five categories, A to E, according to their proximity to the out-break areas. The expenditure on the scheme is met by the States in the Union according to the above five categories in proportion to their acreage, in the ratio of 2 : 1½ : 1 : ¾ : ½.

The Hyderabad State falls under the last two categories i.e. D and E. The acreage under cultivation in this State under these two categories was as under:

- **Category 'D'**
  - 1,18,72,117 acres.
- **Category 'E'**
  - 1,18,08,324 acres.

As per the calculations made by the President of the Board of Revenue, the expenditure under these two categories was estimated as per the above figures.
Supplementary Demands for Grants. 27th September, 1954

The following acreage figures for the year 1950-51 from the statistical Department and furnished to the Government of India.

| Category 'D' | 1,18,72,117 acres and |
| Category 'E' | 1,18,08,824 acres. |

On the basis of the above figures the Government of India fixed the Hyderabad Government's share of expenditure as under:
