*Sri G. NAGABHUSHANAM:—Mr. Speaker, all the points raised by my hon. Friend Mr. P. Venkateswarlu has come to this, namely, speed, efficiency and that the moneys spent for Government servants and for Governor should be reduced and used for public good. In answer to the questions, I want to read a statement made by the Hon. Sri V. V. Giri recently to show to what extent the Andhra Ministers have taken steps to contribute for the common good by foregoing some of their comforts and convenience.

"The infant State of Andhra has made a good beginning in setting up good traditions and its Ministers have set up an ideal example by staying in unostentatious buildings which is a study in simplicity."

Referring to the zeal and enthusiasm with which the Secretariat staff is working, Mr. Giri remarked.

"I must congratulate the staff of the Secretariat." (Laughter) These are the observations made by the Hon. Sri V. V. Giri and hon. Members may laugh, but I may tell them that they have no parliamentary experience and they have come to the Assembly for the first time. Therefore I ignore their laughter, because, as I said, they lack parliamentary practice, procedure, courtesy and all that.

Sri PILLLALAMARRI VENKATESWARLU:—Mr. Speaker, on a point of order.
GENERAL DISCUSSION OF THE BUDGET FOR THE YEAR 1954-55

9th March 1954] [Sri Pillalamarri Venkateswarlu

Sri G. NAGABHUSHANAM:— I must congratulate Mr. Venkateswarlu because he is at liberty to speak as he likes. No parliamentary procedure affects my friend.

Sri K. RAJAGOPALA RAO:— As a unparliamentary affair, I have no mind to declare a ruling according to my mind. As a ruling according to my mind, I have nothing to say in English.

Sri G. NAGABHUSHANAM:— I know Telugu very well and I can speak better chaste Telugu. But as I am accustomed to speak in English, I am speaking in English.

Sir, the problem of weavers is before the country for the last two years. Excepting the suggestion made by Sri C. Rajagopalachariar that the problem of weavers can only be solved by reserving for the weavers the manufacture of dhotis and coloured saris, there is no other practical suggestion in India today. Democracy likes criticism and democracy stands on criticism. We are democrats and we welcome criticism, but mere criticism without constructive suggestions is of no use. Criticism must be constructive and practical to enable the Government to take practical steps in that direction. Criticism for criticism's sake is absolutely futile. Of course, Government have done much for the handloom weavers and I don't deny it. They have sanctioned Rs. 20.0 lakhs as loan to help the weaver. But so far, I see that money has not reached the weavers. I am coming from Rayadrug constituency, a very big weaving centre with a population of about 10,000 weavers. In Rayadrug taluk there are larger number of weavers than in any other taluk. There is also a big powerloom factory with 100 power looms where silk saris, upper cloths, etc. are manufactured.
Further, in Rayadurg taluk the weavers are supplied yarn from Anantapur which is nearly 62 miles by bus and 107 miles by rail. Hitherto they were getting yarn from Bellary. Therefore the Government should consider in what way the weavers living in Rayadurg should be benefited. I have already submitted a memorandum to the Government to permit the weavers of Rayadurg to purchase yarn from Bellary or to make such other arrangements as are necessary to purchase yarn from other areas at a cheap rate.

Then, the people manning the co-operative department and the co-operative societies, in my humble opinion, are trained in British Raj, for a Police State. In my humble opinion, they are not fit to carry on the duties imposed on them in the present set-up of a Welfare State. Welfare State requires enthusiasm, zeal and push to do good to the people. The public servants who are employed at present in co-operative societies, in my humble opinion, are not showing these qualities essential to realize the objective, viz. conferring happiness on our weavers. They have not done much in solving the problem of unemployment of weavers. Therefore I would request the Government to take immediate steps to see that the relief scheme that is announced by the Government is put into force at once. I would also request that a show-room may be opened at Rayadurg where the weavers have been manufacturing, silk cloth with embroidery, lace and several other artistic works, besides cotton cloth. So it is fit and proper that a show-room exhibiting the above products is opened there. As unemployment amongst weavers is growing, I request the Government to implement the relief scheme immediately.

I congratulate the Government on having set apart Rs. 50 crores for the development of electricity. The Hon. Finance Minister Sri T. Viswanatham, in his
9th March 1954 [Sri G. Nagabhushanam]

budget speech, said that priority should be given for the extension of electricity to rural areas. I congratulate the Ministry. Rural areas should be supplied with electricity because it helps directly the Grow More Food Campaign. In Mysore State, electricity is extended to the villages not for decorating the village with lights, but for producing more food, i.e., for well-irrigation. Our State also can follow that example because our supply of electric energy is small and we have to borrow every time from Mysore State. In 1951 Rayadrug town was supplied with electricity and we could not make proper use of it due to handicaps and could extend only to one village. Therefore, I would request the Government to see that electricity is extended to all the villages, at least within 10 miles round Rayadrug town, so that people may use electricity for growing more food.

Regarding the Bhairavanithippa project, I have to say a few words. The foundation stone was laid as far back as 1951 by the then Revenue Minister, Sri Sitarama Reddi. Even in this budget only Rs. 5.0 lakhs is shown as the amount allotted. It is mere paper allotment. But I take the assurance of the Hon. Sri T. Viswanatham that the matter would be taken up immediately and I hope that all the differences between the Mysore Government and this State will be settled and the project will be taken up shortly. I hope also that the Hon. Sri T. Viswanatham will pursue these negotiations with Mysore State and see that the project becomes a fait accompli.

After the formation of the Andhra State, Rayadrug has come within the jurisdiction of Anantapur district. The people of Rayadrug taluk are feeling it very difficult to go to Ananthapur because there are no direct roads, particularly from the villages. Some roads that were laid last year as famine work have to be
improved considerably. I would request the Government to take up road works so that the villagers can go to the district headquarters at least by bus. If these small roads are metalled, instead of being neglected they would become our national asset and would also facilitate the villagers to go to the district headquarters. Thank you Sir.

It is necessary to compare this new scheme with the existing memorandum scheme. It will be appropriate to compare the existing schemes with the proposed scheme. The existing schemes are found to be adequate for the purpose. The proposed scheme is expected to be more effective in meeting the needs of the tribes.

It is suggested that the proposed scheme be implemented as soon as possible. The scheme should be extended to other tribes also. The scheme should be made more effective by providing additional funds. The scheme should be reviewed periodically to ensure its effectiveness.

Sri S. VEMIAH:— Prohibition has been in vogue, but its enforcement has not been satisfactory. If the Prohibition Act is not properly enforced, how can we expect its success? We have heard that the officials are not taking adequate action in this regard. The proposals for Prohibition should be implemented without any delay.

Sri S. VEMIAH:— I suggest that the Budget proposals should be implemented in a more effective manner.

The issue of devoting 10 lakhs for King George Hospital and 5 lakhs each for the labour schools and waste lands has been raised.

From the discussions, it is clear that the present budget is focused on improving various sectors. The 10 lakhs for the hospital will help in maintaining its facilities, and the 5 lakhs for the labour schools and waste lands will support education and environmental protection, respectively.

Sales tax, which is a significant revenue source, has been increased. King George Hospital and the labour schools have also been allocated funds to improve their services. The District Health Officers have been directed to ensure that the funds are used effectively.

The waste lands issue is crucial, and 50 lakhs have been allocated to develop and maintain them. This will benefit the local economy and provide additional income.

In summary, the budget for 1954-55 is well-balanced, with allocations for various sectors to support development and improvements.

"Temple Entry Bill is a matter of great importance. The Bill is designed to regulate the entry of women into temples and to provide for the protection of the sanctity of temples. The temple entry Bills are the outcome of a long process of deliberation and discussion.

Women have always been considered as sacred and revered in our traditions. They are revered in temples and participate in religious ceremonies. The temple entry Bills seek to ensure that the sanctity of temples is preserved and that women can participate in religious activities without any hindrance.

The Bills also provide for the protection of women from any form of exploitation or harm while they are within the temple premises. They ensure that women are treated with respect and dignity and that their rights are protected.

The temple entry Bills are a step forward in recognizing the importance of women in religious activities and in acknowledging their role in spiritual life. They are a testament to the progress that has been made in recent years towards gender equality and women's rights.

In conclusion, the temple entry Bills are a significant development in the history of our country. They reflect the values of our society and are an expression of our commitment to respect and protect the rights of women. I strongly support these Bills and urge all members of this House to give them a positive response.
