Supply of electric current for Agricultural and Industrial purposes.

* 417 Q.—SRI D. SEETHARAMIAH: Will the Hon. the Deputy Chief Minister be pleased to state whether he has received any petition to extend the supply of current from Madanapalle Thermal Station to (1) China Tippasamudram, (2) Vayalpad and Chintaparthi for agricultural and industrial purposes?

THE HON. SRi N. SANJEEVA REDDI:—The answer is in the affirmative.

SrI T. N. VENKATASUBBA REDDI:—May I bring to the notice of the Government that the charges that have been charged for supply of electrical energy at Madanapalle are so high that agriculturists find it uneconomical to use this power, and so, will Government consider the revision of these charges?

THE HON. SRi N. SANJEEVA REDDI:—I agree that the charges have been a little heavy. When we are able to produce greater power and extend it to villages and for agricultural purposes, perhaps we will be able to make it cheaper. Certainly we will attempt to make it cheap.
25th March 1954]

Sri T. N. VENKATASUBBA REDDI:—May I humbly bring to the notice of Government that the worked-out practical cost of supply of energy to the agriculturist is so uneconomical that the agriculturist will not take supply, that this will result in a vicious circle, inasmuch as the Government will not lower the cost of supply of energy unless the agriculturist takes supply and that the agriculturist will not take supply unless Government lower the cost of supply of energy; and so, will Government look into this matter?

THE Hon. Sri N. SANJEEVA REDDI: I agree that thermal power is a little costlier than hydel power. Thermal power, diesel power, coal or oil power—all these are always costlier. We cannot help it. In the absence of hydel power, our agriculturists should be prepared to take thermal power. It may be difficult to reduce the rate considerably; and we shall see to what extent we can give relief so as to encourage agriculturists to take to greater power.

Check exercised on the collection of tax on Sivaijama cultivation.

* 274 Q.—Sri K. KRISHNA RAO: Will the Hon. the Minister for Land Revenue be pleased to state:
   (a) the check exercised by the Revenue authorities to see that cases of Sivaijama cultivation including cases where heavy penalties are levied on and collected from poor landless by the village officers, are noted in the village accounts and the amounts credited to Revenue accounts;
(b) whether the Government's attention is drawn to cases where such collections and cultivation are not brought to books and accounts;

(c) the check exercised by the Revenue authorities to see that all cases of encroachments and eating into porambokes by big landholders referred to by the then Revenue Minister (Vide p. 137 dated 15—3—1948 of the Madras Legislative Assembly debate) are recorded in the revenue accounts, normal rates of tax are collected on such encroachments; and

(d) the steps taken to evict them from such encroachments?

The Hon. Sri K. Koti Reddi:—

(a) All cases of unauthorised occupation are booked by the karnam and they are checked by the Revenue Inspector, Taluk Officer and in some cases by the Revenue Divisional Officer also, during the course of their ajmoish or overajmoish as the case may be. It has been specifically laid down that the inspections of superior officers should not be confined only to the cases reported by the karnam, but should be mainly directed to find out whether the karnam had omitted to bring to account items that he ought to have reported. The village accounts relating to the collection and remittance of the assessment and penalties charged in each case are checked by these Officers during their tours and a detailed scrutiny of the same is conducted at the time of the annual jamabandi also.

(b) Such lapses on the part of the village officers etc, will be suitably dealt with by the Jamabandi Officer or under his instructions by the other Revenue authorities concerned. In regard to cases, which involve misappropriation of the amounts collected by the village officers, etc., the matter will also be taken to the notice of the Government.
[25th March 1954]

(c) The answer is same as for clause (a) above.

(d) All cases of objectionable encroachments are invariably inspected by the Tahsildar or the Deputy Tahsildar concerned and steps are taken wherever necessary to evict the encroachers under the provisions of the Land Encroachment Act.

The influence of various factors is significant in solving the unemployment problem. Various factors such as the economic situation, education level, and skills of the unemployed play a crucial role. The government needs to provide training and education to the unemployed to make them employable. Employment should be provided to the unemployed through government schemes and private initiatives. The distinction between unemployment and underemployment is important.

'The problem of Harijans is very grave. The ameliorative measures undertaken by the Government till now have not gone to the root of the problem.'

'I would suggest if this department is to be continued, it should be changed into Sin Atonement Department atonement for all the sins committed by the other communities in this country in the name of religion and in the name of God. Anyhow, I feel that all the sympathy shown and all the help rendered by the Government or by the various departments, all this will not go far to help this community to rise up. For a sense of duty must rise in their own heart; then only will the spirit of help come in them.'

Although the Removal of Civil Disabilities Act has been in force for more than a decade I regret and I have to confess that the provisions of this Act have not been observed in some parts of the State and especially in rural areas.

It is only economic uplift that can eradicate untouchability and nothing else.

Mr. Speaker, I rise to support the Demand moved by the Hon. Minister for Planning and Public Health. In doing so, I would like to say a few words for favour of consideration. It is gratifying to note that a sum of Rs. 56,21,000 has been allotted for Harijan Uplift. Though we are grateful to the Government for this allotment yet I wish to invite the Hon. Minister’s attention to the fact that we are not quite satisfied with this allotment. The Hon. Minister might be aware that there is great awakening among the members of the depressed classes. But water scarcity is to be seen in many Harijan cheris and we know that water is an essential thing for human beings. Therefore, let the Government spend the amount for sinking drinking water wells in every Harijan village. If we want to abolish untouchability effectively, we must spend more money in rural areas on such items as would bring the Harijan community to the level of other communities.

One important question is that of providing living accommodation by the provision of house-sites. We
do not ask the Government for housing schemes in all towns. What we demand of the Government is the provision of house-sites in rural areas where the Harijan cheries are congested. If the Government are anxious to do something for Harijans and if they feel that they must be properly cared for, then something real must be done for them.

Regarding appointments, well-educated Harijans should be given appointments. Their lot cannot be improved by merely giving scholarships or opening more educational institutions. The Government should give them some special treatment in the matter of appointments which alone will improve their position.

"Regarding hostels, I wish to say a few words. In 1937 we had no Harijan hostels in the State. Today there are more than 300 Harijan hostels. But, where is supervision? Where is the staff for that? If the Government really want to help the Harijans, they must start one hostel in each taluk headquarters wherever there is a high school. Especially in the villages we find no change of heart on the part of Caste-Hindus though they behave as if they are sympathetic towards Harijans when the officers are present on the spot. The Caste Hindus should forget that they are superior to Harijans and that those days are gone. They must change their mind. I dare say, if the Government take proper steps to root out illiteracy and poverty in the State, the so-called untouchability will also disappear at once. Sir, it is a pity that our country is in such a terrible condition that we have to discuss regarding the Harijan uplift demand on the floor of the House. With these few words, Sir, I support the demand."

"[The demand is about the elimination of disabilities—specifically, the Temple Entry Act and the Civil Disabilities Act—under which certain Hindus are barred from entering temples. The writer calls for these acts to be repealed, arguing that they contradict the principles of secularism and equality."

"Civil Disabilities Act is contrary to the principle of secularism and equality. It should be repealed."

"Temple Entry Act is also discriminatory and should be abolished."

Sri K. VARADACHARI:—“Mr. Speaker, my friend Mr. Nagi Reddi says that I am not a Harijan. I am a Harijan. It is a common name applicable to all communities. Gandhiji invented this for the purpose of specifying the real Harijan among the Hindu communities.

“Sir, from all that I have been hearing in this House, a lot of encomiums have been showered on the Government for allotting large sum of money in the budget for their uplift. I do not grudge the economic help that is being rendered to the Harijans at large in so many ways of amelioration and development. But I am surprised that member after member is, while appreciating the help rendered to them, thinking in terms of paying lip-service to removing untouchability, because the Harijans are asking for segregation of all sorts; they are asking separate wells in their hamlets, separate hostels, separate schools and separate treatment in so many other ways which will have the cumulative effect of not removing untouchability for ages together. We have been suffering from this defect in our Hindu Community from a very long time, for thousands of years. I want to bring to
25th March 1954]  [Sri K. VARADACHARI]

the notice of the Government that this idea of separate treatment in every matter is the bane of their future welfare. Untouchability cannot be removed by merely passing legislation and enabling them to enter temples, while they keep themselves aloof in cheris and malavadas. They are simply prolonging their agony of untouchability for ages together. The only thing the Government should do, if they want to do real help to these Harijans, is to abolish the cheris once for all in our country. Our State must hereafter become famous for taking bold steps in these matters. I am sure Sri Prakasam Pantulu Garu who holds advanced views on these matters, must be able to boldly bring about this reform. Till then there will be no regeneration at all for the Harijans. I have been agitating for this year in and year out and in every budget session during the last 10 years that I have been in the Legislature. Nobody can object to such a reform. By this reform, the Harijans will be more contented and comfortable.”

Sri G. Bapanayya—“ఎందుకు నీరు, ఎండి రాళ్ళు.”

Sri K. VARADACHARI:—“Yes I am telling the hon. Member that I supported admitting Harijan member into my house for dining with me first, by cheating my mother telling that he was a pucca Brahmin. That was how I began admitting them into my house. I induced the members in my house first to admit Non-Brahmins and then Harijans. My mother ultimately consented. Afterwards she allowed my friend Mr. Nagappa to come and stay with me and dine with me. Therefore, there is no difficulty so far as I am concerned. People who have got a real change of heart must put it into practice. There is no use paying lip-service to removal of untouchability and then spending crores of rupees over this and that. The policy of affording mere economic help is not going to solve the problem. I therefore urge upon the Government to remove untouchability once for all by abolishing the institutions of cheris.”

Sri T. Nagi Reddi:—“Harijan uplift పూర్తు చేస్తాం, నిశాచరిత్వం ఆరోగ్యం విద్యా పరిశ్రమలు‌ యితే ఆధునిక సామాజిక విషయాల పై కార్యాలు చేపట్టాం. నీరు నీరు, ఎండి రాళ్ళు చేయాలి. మీర్కే మార్గం కదులుగా ఉండాలి. నిపుణులు మార్గం కదులుగా ఉండాలి.”

"The demand for Harijan uplift is not new. It has been a continuous effort by the Harijan community, but the sad reality is that the uplift of Harijans has not been achieved. The Harijan Welfare Department has been working tirelessly to bring about this change.

"The Harijan Welfare Department is working to provide scholarships to Harijans. In the last year, scholarships totaling Rs. 1,52,552 and Rs. 1,36,647 were awarded. This year, the department plans to increase these figures significantly. Scholarships totaling Rs. 2,28,486 have already been awarded, and plans are underway to increase this number."

[Sri P. PUNDARIKAKSHACHARYULU]

Mr. Speaker, Sir, I am afraid I have got to tire the House by repeating some things that I have already told the House on the previous occasion. For, I feel it is necessary to do so. and so, I dare to recount them again. Most of us would have observed that from year to year our Budget figures of expenditure are increasing. and so, every year we have to find new sources of revenue to meet that increased expenditure. In the course of the last 20 years, I think, our budget has grown from a figure of six to seven crores to nearly forty-five crores today. So, I feel, it is time now that we examine, if we do get proportionate increase in the services given to the people. I must say that we do get an increase in service to a certain extent but it is not in proportion to the increase in expenditure that we are incurring. Here I must ask, 'what is it due to?' I can only say that most of this money that we have been raising from year to year, has been going through certain wasteful channels. I do not know, why it happens so; and I think we never seem to ask why this should continue. I realize that every Government is intent on doing the greatest good to its people; but somehow we have got into the rut of wasteful expenditure, and we do not know when we will be able to get out of this bog. We have been raising new taxes, and today, the new taxes that the country has, has made India the most heavily taxed country in the world, in proportion to the per capita income of the nation. I must submit that this taxation cannot go on increasing from year to year without causing some sort of hardship to the people. I have to repeat here, what I have said before, that there have been many occasions when the Government themselves have felt that a certain amount of economy is wanted. In fact there have been several reports on it, and the feeling is persistent in us that we should economize. Somehow or other, we do not
Government to find out the necessary and essential staff, we will have the services doing their work diligently and enthusiastically. They themselves will come forward and show us where we can economise in staff; they will get inspiration to see that every pie that is spent is not wasted; they will see that every bit of money is saved to the State. So, Sir, unless we have a honest, loyal and efficient service, I am afraid the several development schemes that we contemplate cannot be carried out successfully and with economy. Therefore I would request Government to examine this question immediately, go deeply into it and see that security of service is assured, and deliver the services from the ills they are suffering from. I have no fear in saying that in the services there is a large amount of corruption, laziness and lack of desire to do work. All these evils are coming from the feeling that they may be turned out at any moment and that good work and honesty and enthusiasm will bring them no rewards at all. So it is necessary to devise a system by which they may be assured that efficient, honest and enthusiastic work will take them to higher places. After all, it is human nature to look for rewards and promotions. When they are assured, naturally one can expect good, sincere, honest and efficient work from the Services.

In this connection I would like to say a few words about the confidential reports. It is a well known fact that confidential reports are submitted periodically about the services. I want the adverse remarks, whenever they are written, should be communicated to the concerned members. I am afraid this is not being done for a very long time. Also, Sir, in the recruitment of personnel to the Services, even though we have the Service Commission, I have to state with regret, the candidates selected by it, are not always appointed. Personally I have come across cases (I may say even it is more the rule than exception) where people have been appointed directly and then it is being intimated to the Service Commission for ratification. This has happened both at district level and at headquarters level. There is already a list of candidates prepared by the Service Commission for appointment. Why not appoint people even for
