(b) The extent under cultivation is reported to be Ac. 3,87,542-25.

(c) The answer is in the negative.

(d) The main factors which retarded permanent assignments:

1. the ban on assignment of lands forming compact blocks to individuals,
2. Sivajamadars mostly being landed ryots who are ineligible for land grants.
3. Inability of landless poor persons to pay market value and to invest money on reclamation and improvement of land.
4. The detailed procedure to be gone through, such as publication of notices, survey and demarcation, transfer of parambokes etc, to assessed waste etc, necessarily takes some time before assignments can be finalised, and
5. Lastly want of adequate special staff to attend to this work, the normal staff being engaged in famine and other urgent work till recently.

ADJOURNMENT MOTION RE: DISTURBANCES IN 35.A PUBLIC MEETING AT NANDIKOTKUR ON 28-3 1954.

29th March 1954

The Hon. Sri N. SANJEEVA REDDI:

The disturbances that occurred during the public meeting at Nandikotkur on 28th March 1954, were regrettable. It is to be noted that the meeting was held to discuss the proposed transfer of the Circle Inspector and Sub-Inspector, which had not taken place at the time. The transfer of these officials was intended to quell disturbances, and had not occurred due to bureaucratic delays. The hon. member, Sri N. Sanjeeva Reddi, expressed his concern over the provocative behavior of the locals, which he believed were instigated by political parties.

It is worth noting that the disturbances were caused by a small group of individuals who were not representative of the majority of the locals. The hon. member called for the immediate transfer of the Circle Inspector and Sub-Inspector to prevent further disturbances. He also requested that the information regarding the disturbances be relayed to the appropriate authorities.

Mr. SPEAKER:— This is not a privilege motion.

The Hon. Sri N. SANJEEVA REDDI:— That is exactly so.

Mr. SPEAKER:— Anyhow the House will have to deal with the question, when the Hon. Member gets leave of the House to move his motion. If 22 people give their consent the motion will have to be moved.

The Hon. Sri N. SANJEEVA REDDI:— I hope I shall be able to get the information before that time.

Mr. SPEAKER:— I wish to know whether the Hon. Member has got the consent of the House to move his adjournment motion.

All the members of the Opposition Communist block rose up.

Mr. SPEAKER:— The Hon. Member has the leave of the House to move his adjournment motion. The House will discuss this motion as the last item of business today, probably at 4 o'clock.

Expunging of certain remarks

Sri K. VENKAYYA:— I wish to know whether the ruling given on the Privilege Motion of Sri Kasi Reddi, Sri Pillalamarri Venkateswarlu and Sri K. Krishna Rao on the 22nd March, 1954, infringes the rights of the Legislators to make representations on behalf of their constituents to the executive authorities. This is neither the purpose nor the object of the ruling. It does not cast nor is it intended to cast any imputation on the Hon. Members of the Legislature when they go to make representations to the authorities.

Any citizen can make representations about the public grievances to the authorities concerned and more so a legislator, who is the chosen representative of the people. The authorities are bound to hear representations and give such redress as the law allows.

Under the rules, unless some business is proposed from the Chair, there shall not be a debate or discussion. If hon. Members wish to take their own chances and begin to talk and discuss, there will be no order. Please follow the rules. That is my appeal to the hon. Member.

Sri PILLALAMARRI VENKATESWARLU:— The House has adjourned. Mr. Speaker, what subject is the Hon. Member speaking about? Mr. Speaker, may I have the proceedings expunged?

Mr. SPEAKER:— The House has adjourned. Speaker rulings and portions of the proceedings have been expunged. The rules of procedure of the House of the People and the Council of States and Parliament provide only for the expunging of the proceedings. It lies within the discretion of the Speaker. I do not see any rule with respect to the Speaker's ruling. You can discuss the matter with me in my chambers. I wish to draw the attention of all hon. Members of the House to a report that appeared in the newspapers, two or three days back, I think, of the proceedings of the House of the People, where Mr. Tandon raised a matter similar to the one here, saying, that his speech has been misrepresented. Mr. Mavlankar informed the member that this matter might be talked of in his chambers, as it is not within the purview of the House to discuss that matter. Similarly the hon. Member here will please meet me in my chambers, where we shall discuss this matter. There will be no further discussion on this matter. We shall now take up the next item in the agenda.

Sri H. SATYANARAYANA DORA—Mr. Speaker, I rise to speak
on this occasion as a representative of a backward district, Srikakulam.
Lake our Andhra State, which has remained backward notwithstanding its
mineral wealth and natural resources our district too lies neglected, with
people depressed and under fed. It is gratifying to note that our Andhra
Government have recommended to the Central Government the inclusion
of Vamsadhara project in the Five-Year Plan. There seems to be some
controversy as to where the project is to be constructed. It is purely a
technical point and I would appeal to the Government and the people concerned to leave the matter entirely to the decision of the Engineers. It is to our good fortune that we have got a very efficient Chief Engineer Mr. V. Venkataramana Iyer who knows every inch of our district and I am sure his decision, if we accept, will be a great help to all concerned. Nobody can construct a project without submersion in some places or other and Wherever there is going to be submersion if people start agitation and if the government go on taking notice of it, I am sure the government can never construct a project. This project has been under contemplation since the East India Company days of 1854. Even till today it remains on paper. People have got full faith and confidence in our Andhra Kesari and I am sure he will take the earliest opportunity to see that the foundation is laid for Vamsadhara soon.

Our immediate and urgent problems are food, clothing and shelter. The only way to solve the food problem is to give top priority to irrigation sources. I am sure when once the food problem is solved, the other problems will automatically adjust themselves. I submitted in my last budget speech that our Srikakulam district was a newly formed one and I would have been grateful if the Hon. Finance Minister was kind enough at least to make a token grant for the construction of buildings for district offices, etc. Apart from these things, besides myself several other members have submitted that a suitable piece of legislation should be brought forward to the Zamindari Abolition Act to give relief to the inam tenants. For reasons best known to the Government they have been delaying this and I am afraid we are only postponing the evil day.

At the time of general discussion of the budget, several members came forward with various suggestions that it might not be possible for the Government to implement all of them. But are we not justified if we demand that at least some of them should be considered and implemented?

The need to sink our personal differences, mutual rivalries, the necessity to remain united for the happiness of our State and the determination to rectify our defects is more than ever urgent. We have go to face the problems squarely and realistically. There is no place either for sentiment or emotion, and let us be honest to own up our defects and face the future with firm resolution to deliver the goods. Mr. Speaker, we did not come here as representatives of people merely to strengthen our organisations or gain individual popularity. Times are fast changing. We will no longer be judged by our eloquent speeches. We will be judged by our actions, deeds and achievements. Thank you, Sir.

At this stage Mr. Speaker resumed the Chair.
Sri P. FUNDARIKAKSHACHARYULU — Budget

Supplementary demands related to irrigation schemes include expenditure on staffing, including engineers and supporting staff. This expenditure is considered necessary for the effective implementation of irrigation schemes. An estimate of Rs. 1 crore has been made available for the maintenance and repair of existing irrigation systems.

The supplementary demands also cover the construction of new irrigation projects, under which Rs. 2 crore has been allocated. This amount is required for the preparation of detailed project reports and the selection of suitable locations for new irrigation schemes.

Furthermore, an amount of Rs. 3 crore has been provisioned for the purchase of machinery and equipment necessary for the construction of these irrigation projects. The funds will be utilized to acquire irrigation pumps, irrigation canals, and other essential infrastructure.

In addition to these expenditures, Rs. 4 crore has been allocated for the acquisition of land and land reforms. The funds are intended to support the allocation of land to small and marginal farmers, thereby enhancing their economic status.

The Chief Engineer has been directed to prioritize the allocation of funds to ensure the timely completion of irrigation projects. This will contribute to the overall development of the state and improve the living standards of the rural population.

Sri P. VENKATASWAMY REDDI — I appreciate the Appropriation Bill introduced by Sri B. Sankariah. The Appropriation Bill is a way of ensuring that the money allocated for various purposes is used effectively. It is a crucial tool for the government to maintain fiscal discipline and transparency. The Appropriation Bill allows the government to spend money on different projects and programs, which is essential for the development of the state.

The Appropriation Bill is also a way of holding the government accountable. The public has a right to know how their money is being spent. The Appropriation Bill gives this information, which is crucial for the people to understand how their taxes are being used. It is a way of ensuring that the government is spending money wisely and not on frivolous things.

The Appropriation Bill is also a way of ensuring that the government is not spending money on things that are not essential. The Appropriation Bill allows the government to prioritize its spending and ensure that it is spending money on things that are important to the people. This is crucial for the development of the state and for the people to feel that they are being represented.

In conclusion, the Appropriation Bill is a crucial tool for the government to ensure fiscal discipline and transparency. It is a way of holding the government accountable and ensuring that it is spending money wisely. I urge the government to continue to use the Appropriation Bill to ensure that the money allocated for various purposes is used effectively.

Mr. Speaker,

I wish to discuss the Bill. The House has already passed the Andhra Appropriation (No. 1) Bill. The Public Works Department has not spent the amount allotted to it. Agriculture and Forest Departments have not spent much. I think the reasons for the non-spending of the allotted amount are the same as those given by the Finance Minister in his Budget Speech. He stated that the crop season was expected to be good and the rains were ample. However, the monsoon was not as expected and some areas faced difficulties.

The Central Government has sanctioned the five-year plan. The State Government has sanctioned a $100 million plan for the next five years. The necessary agreements and contracts have already been signed. However, the money has not been released for various projects. There are pending projects such as the construction of a university, the Andhra Institute of Mineral Resources, and the development of residential areas.

Mr. Speaker, I support the Bill. Thank you.
