In the present day, the educational system is dominated by college education. Despite the college education being in the budget, many students are not admitted. When the college education is given in a fee-based system, many students are not able to afford it. The fee is so high that it is difficult for the students to afford it. Many students are not able to afford college education due to disadvantage. Hence, the college education budget is insufficient.

Sri K. Varadachari: After hearing, I feel that the educational system is not adequate. There is a need for improvement in the examinations conducted. The examinations should be conducted without fee, examinations should be conducted without fee, examinations should be conducted without fee, examinations should be conducted without fee, examinations should be conducted without fee, examinations should be conducted without fee, examinations should be conducted without fee.

A suggestion: The college education budget should be increased. The fee should be reduced. The students should be given scholarships. The educational system should be improved.

It was also suggested that the Andhra University has at present reached a certain balance between its teaching and research work on the one hand, and the number of colleges on the other.

We are, however, not very clear why it has been suggested that Nellore, which right from the inception of the Andhra University, was affiliated to that University, should now be included in the area of affiliation of the new University.

posts, the principle of reservation applies. According to this plan, out of every 20 vacancies, 3 are reserved for scheduled castes, Scheduled tribes, 5 for backward classes and the remaining are thrown open to all classes and castes for being filled by competition, that is, on the basis of merit.

4. Recruitment to All-India Services is made by the Union Government in consultation with or on the recommendation of the Union Public Service Commission.

5. It will be thus observed that the Andhra Government initiated no new policy and generally speaking we are only following the well-established principles and conventions in vogue in Composite State except that wherever possible preference is shown to people of Andhra origin and domicile.
