152-Q: Sri S. VEMAYYA:— Will the Hon. the Minister for Electricity and Social Welfare be pleased to state:

(a) the amount of money spent on various departments for the development of 'Araku Valley' from its inception till 1954; and

(b) the progress made so far?

The Hon. Sri G. LATCHANNA:

(a) The total amount spent on the scheme till 1954 is Rs. 31,02,350/-. 

(b) The progress made so far by the various Departments is given below:

Revenue Department:— This Department attends to the repairs of temporary sheds in the valley from year to year. It co-ordinates the work of all Departments working there and maintains the Jildavagu Irrigation Channel.

Public Health:— Anti-malarial operations are being carried out successfully controlling malaria, with D. D. T., spraying within an area of 120 sq. miles in 191 villages in Araku Valley agency in the transmission season from September to May every year.

Medical:— A hospital with in-patient accommodation has been opened and it is attracting a good number of hill tribes people for treatment. The medical officer visits the villages rendering medical aid.

Agriculture:— There is one Agriculture Farm and several crops viz., vegetables, potatoes, fruits, paddy, millets, samai, barley etc., are being raised every year. Agricultural Department has been educating the hill men in improved methods of cultivation supplying them with improved strains of seed and fertilizers. Seedling of the successful varieties are also supplied to the hillmen.
22nd July 1955]

Administration farms are run for practical guidance to the hillmen. This department maintains an orchard containing fruit trees. The receipts on account of the sale of agricultural produce grown in the experimental farm are as follows:

<table>

</tr>
<tr>
<td>1953 - 1954</td>
<td>Rs. 16,233/-</td>
</tr>
</tbody>
</table>

Tractors are being given to the hillmen at concessional rates.

SERICULTURE:— There is an experimental sericulture farm for rearing silk-worm and for producing silk. This department teaches the hillmen to grow mulberry and to take silk manufacture as a cottage industry. The climatic conditions of the valley are well suited for this industry and the growth of mulberry gardens.

PUBLIC WORKS DEPARTMENT:— Jildavagu Channel Scheme at a cost of Rs. 56,520/- to irrigate an area of 129 acres has been completed. Flood damages to the bridges across the Pathalagedda were repaired. 4. G. tyye sheds and a pucca travellers’ bungalow were constructed.

RURAL WELFARE:— This Department is training the hillmen to maintain the beehive colonies.

EDUCATION:— An Elementary School and a Boarding House are also run by Government for the benefit of the hill tribes.

Sri PILLALAMARRI VENKATESWARLU:— Point of order Sir, 30% lengthy answers to our table may be short. It is unnecessary to discuss the problem at length.

Mr. SPEAKER:— It would have been better. We may follow it later.

Fishermen Co-operative Societies in the State :

213.

* 35. – Q: Sri S. VEMAYYA :— Will the Hon. the Minister for Co-operation and Commercial Taxes be pleased to state :

(a) the number of Fishermen Co-operative Societies in the state for 1953-54, and

(b) the nature of assistance given to them.

The Hon. Sri D. SANJIVAYYA :—

(a) There were 188 fishermen co-operative societies on 30-6-1954.

(b) The following concessions are granted to them :

1. Leases of fishing rights in all tanks and water-courses on an average rental of the preceding 5 years, without public auction in preference to Panchayat Board of the locality and private individuals.

2. Leases of forest coupes (specified areas in a block of forest) on a rental equal to the average of preceding five years without auction, as in the case of other backward classes and scheduled castes.

3. Scriptory grants to pay for part-time clerical work or for maintaining clerical establishment on a limited scale to write up accounts :  

4. Exemption from contributing from their net profits to the audit fund under Rule XII [a] of the Rules framed under the Madras Co-operative Societies Act VI of 1932.
5. Exemption from payment of yarn licence fees to deal in yarn under the Madras Yarn Dealers' Control Order, 1948.

6. Free services of Junior Inspectors of Co-operative Societies for organising and supervising fishermen Co-operative Societies.

Besides the above concessions, proposals for supplying fishing hooks and mechanised boats, at subsidised rates and for supplying vans for transporting the catches of fish to marketing places at concessional rates to the Fishermen Co-operative Societies are under contemplation.

Bridge between Gudur and Manubole on the G. N. T. Road: 214.

*468. Q: Sri P. GOPALAKRISHNA REDDI (Put by Sri P. Ranga Reddi):— Will the Hon. the Deputy Chief Minister be pleased to state:

[a] whether the Government are aware that the bridge between Gudur and Manubole on G. N. T. Road was breached about four years back; and

[b] if so, when the bridge construction will be completed?

The Hon. Sri N. SANJEEVA REDDI:—

[a] The answer is in the affirmative.

[b] As the bridge is on the National Highways namely, the Madras-Calcutta Road, the work requires the sanction of the Government of India. An estimate for Rs. 14,43,000 for diverting the National Highway near Gudur and constructing a single bridge across the Upputeru in this section instead of reconstructing the collapsed bridge and the other weak bridges on the existing alignment has been forwarded to the Government of India. The work will be begun as soon as the Government of India accord their technical approval and financial sanction to the estimate.

Sri P. RANGA REDDI:— The bridge across the Upputeru near Gudur on the National Highways is located.
The Hon. Sri. N. SANJEEVA REDDI:— The question on diversion of bridge in the area mentioned while constructing the road in the National Highways Road has been referred to the Chief Engineer for his opinion. The Chief Engineer of National Highways Road in his letter dated 30th June 1954 furnished an opinion and reminded me that a strong, broad bridge, which can be made strong and durable, is to be constructed. Reminders were sent and I expect that the information will be furnished soon. The Chief Engineer has informed me that the Government of India has approved the proposal, and I am informed that it will be our responsibility. Therefore we will have to await the approval of the Government of India.

Sri V. VISWESWARA RAO:— The question on the road in the area mentioned while constructing the road in the National Highways Road has been referred to the Chief Engineer for his opinion. The Chief Engineer has informed me that the Government of India has approved the proposal, and I am informed that it will be our responsibility. Sri S. VEMAYYA:— The policy adopted during the year 1953-54 was to give 143% loan to the public and 148% loan to the factories. May I have an explanation as to why this policy was adopted?

The Hon. Sri G. LATCHANNA:— If we compare the factory owners and industrialists, we find that the factory owners are entitled to 50% loan and 50% subsidy. The industrialists, on the other hand, are entitled to 25% loan and 25% subsidy. Employees are entitled to 37 1/4% and 25%, and proprietors to 43 1/4% and 15%. I would like to have the Hon. Member's opinion as to why this policy was adopted.

Sri K. V. S. PADMANABHA RAJU:— I would like to have the Hon. Member's opinion as to why this policy was adopted?

The Hon. Sri G. LATCHANNA:— The policy was adopted for the following reasons: First, it is calculated that the factory owners will benefit more from this policy. Second, the industrialists have already been given a 143% loan and 148% loan. Employees will benefit more from this policy. Therefore, we have decided to adopt this policy.

Sri K. SUBBA RAO:— Motor Transport Workers are entitled to 37 1/4% and 25%, while proprietors are entitled to 43 1/4% and 15%. I would like to have the Hon. Member's opinion as to why this policy was adopted?

II. ADJOURNMENT MOTION re: Proposed Strike by the Andhra Provincial Electricity Employees' Union.

Mr. SPEAKER:— The hon. Member Sri B. G. M. A. Narasiga Rao has given notice of an adjournment motion which reads:

"That this House should adjourn to discuss a matter of great public importance and urgency arising out of the strike decision of the Andhra Provincial Electricity Employees' Union for the failure of the Government to implement the conditions of the agreement entered into between the Chief Engineer for Electricity and the Union, with regard to the payment of increments and other facilities."

As the Electricity Demand is coming up for discussion, this motion anticipates discussion on that demand. So, I rule it out of order.

ADJURNMENT MOTION RE: PROPOSED STRIKE BY THE ANDHRA PROVINCIAL ELECTRICITY EMPLOYEES’ UNION.

22nd July 1955]

Mr. SPEAKER:— It is only after I give permission that question will arise. I may say for the information of the House that I am not bound to bring every adjournment motion to the House and read it. I can refuse consent in my chamber if I find no case. If the object of the motion is only for publicity, I certainly rule it out of order in my chamber itself and I do not read it at all here in the House.

Sri PILLALAMARRI VENKATESWARLU:— No, Sir. When you admit that.

Mr. SPEAKER:— I have not admitted it.

Sri PILLALAMARRI VENKATESWARLU:— I am not speaking about this, Sir,

Mr. SPEAKER:— Hypothetical questions need not be answered.

Sri PILLALAMARRI VENKATESWARLU:— I am asking for information, Sir. I am not speaking on this. I only want information so that it may guide members when they give adjournment motions.

Mr. SPEAKER:— It is only when I call the member to read the motion. In cases where I admit it he will rise. In other cases I will read it myself, or I will not read it at all and I rule it out in my chamber.

Sri B. APPALASWAMY:—

The welfare of the Scheduled Tribes, Castes and Other Backward Classes is a matter of much importance. The time has come when we must give this matter serious consideration. The question is, how can we improve the lot of these classes? This is a question that needs careful thought. We must have a clear understanding of the problem. We need to identify the needs of these classes and provide appropriate measures to address them.

I suggest that we allocate funds for the construction of 10 hostels, 10 scholarships, and 5% scholarships. These measures will help in improving the educational opportunities available to these classes.

Assembly Hall should be dedicated to the social welfare of these classes. It should be a place where we can discuss and plan strategies to improve their status.

Let us work together to bring about a positive change in the lives of these classes.

Sri S. RANGANATHA MUDALIAR:—Mr. Speaker, Sir, my object in moving my cut motion is twofold, one, to make the Government focus its attention on the condition of Harijans in my district in general and in my constituency in particular, and secondly, that we hope that the Government will prick its ears and listen to me; because I am a non-Harijan, and I have come forward to point out certain defects in the administration.
of the Harijan Welfare Department. The Harijans in my district have been too much dependent from time immemorial upon the good grace of the Hindu community, and the result is what they are. The Harijans have been so backward in every respect in my district that it behoves Government to devote particular attention to their improvement. There is no use for the Government to depend upon the reports of departmental officers. The Hon. Minister concerned must make personal visits to these areas; he should not make programmed visits; the visits must be of the nature of surprise visits, and he should not be accompanied by any departmental or district officers; and the choice of the villages must be at random. It is only then that he will be able to know what the real condition of the Harijans is in my district. I am given to understand by responsible persons, who are in the know of inside of things that the only Harijan Hostel at Madanapalle is not what it ought to be, and the work of the Harijan Department so far as my district is concerned is a big hoax. This ought to be true when we study the question of the Harijans with reference to the administration of the Harijan Welfare Department for the year 1952-53. The condition of the Harijans is a shame upon us, the Hindu community, and it is a shame upon the Government, to have left them in the condition in which they are. They have no houses; and if they have houses, they are hovels only; and if they have hovels, they have no roofs; and if they have houses they have no doors; That is their condition. They are under-fed, they are under-clothed, they are houseless in very shabby conditions. Their huts are built in swampy slushy ground enclosed as if were by barbed wire fencing by the land of what the Communists are so often pleased to call Bhooswamis. What has the Government done for these people living in such conditions? That is my question. In Chittoor District, according to the report of the working of the Harijan Welfare Department, the Department consists of a Tahsildar, one Upper Division Clerk, one Lower Division Clerk; two Special Inspectors and one Special Overseer and three Peons. So far as the department is concerned, it is perfect from its organisational
point of view. But the test of the pudding is in the eating of it. So, what has that department done so far for the amelioration of the Harijans. The ameliorative work is enumerated as provision of house sites, maintenance of schools, grant of scholarships, stipends etc. to Harijan boys, provision of wells for supply of drinking water, provision of sanitary amenities, pathways, street lighting, burial grounds, grant or assignment of land for cultivation or lease.

In regard to every one of these subjects the achievement of the department, so far as my district is concerned, is zero. I request the Hon. Minister to peruse statement 3 of the enclosure to the administration report for the year 1952-53. I do not know what has happened afterwards. It is found nil. The Government should institute an enquiry at once whether any applications for house-sites have been made from 1953. What has become of those applications? What action has been taken thereon? What disposals have been given to them? They might have been disposed of; perhaps nil disposals might have been given. What is the achievement that the department has made in respect of these cheris? The cheris are swamped, isolated and surrounded by inaccessible shrubs and there is no scope for expansion. In these circumstances the Government must come forward with a bold policy of land acquisition. The policy of appointing officers of the Revenue Department as Tahsildars or Deputy Tahsildars in the Harijan Welfare Department is pernicious. Most of these men would have come from the ranks of Bhuswamis and when they are appointed to these posts of Tahsildars or Deputy Tahsildars, they are welcomed in the villages and all honour is given to them. In these circumstances, these Tahsildars or Deputy Tahsildars find it very difficult to enforce the land acquisition proceedings against the interests of the Bhuswamis or landholders. Assignment of house-sites to Harijans particularly in Thémballi has become a scandal and I request the Government to go into that question. Actually, in the matter of assignment of house-sites nothing has been done. The Deputy Tahsildar goes to a Naidu for some land and he protests. Then
some other land is taken and again that Naidu comes and
protests and thereafter another plot is taken up. At this rate,
this becomes infinite. Therefore, I ask: why should not the
Government take up a bold policy in regard to land acquisition?

With regard to drinking water supply, the excuse of the
department of late has been that it has been handed over to the
Public Health Department. Why should it be handed over to
the Public Health Department. The Public Health Depart-
ment has nothing to do with this subject. Even for assignment
of house-sites, an officer of the Public Health Department must
come for inspection for selecting a site and the same old
story is repeated.

With regard to education also, much has not been done
so far as my district is concerned. I would suggest to the
Government that a separate school for Harijans may be set up.
Sufficient attention is not paid to these Harijan boys in the
general schools and that is the reason why they go to Mission
schools where not only personal attention is given to them, but
they are also treated equally along with the other boys of other
communities. These Harijan boys are thus able to shed their
inferiority. In fact the Harijan students coming from the
mission schools are walking in the streets like gentlemen with
their chin up. But, such is not the case with the Harijan boys
who are reading in the general schools. Therefore a separate
school for Harijans is absolutely necessary if the Government are
really sincere in helping the Harijans. Also, I would commend
to the consideration of the Government that the education of
these Harijan children may be entrusted to Christian Mission
schools or Ramakrishna Math Organizations wherever they are
available. One objection is that if the Harijan boys go to
Christian Mission Shools, they will become Christians. Let them
become Christians? What is it that they are gaining by
remaining in the Hindu fold, except the sorry, sordid story that
we have been listening in the speech of Sri Bojja Appalaswami?
By becoming Christians, they won't cease to be Indian citizens.
The same objection was raised when people like myself were
admitted in the Christian College. Our parents used to be
told that we were likely to become Christians. None of us who have studied in the Christian College have become Christians. Therefore the fear that the Harijan boys will become Christians is baseless.

Then, Sir, provision of wells for Harijans is another scandal. I request the Minister to go to villages without intimating previously of his arrival. Let him go to any village and see if the Harijans have got drinking water supply. They have to depend upon the neighbour who may refuse at any time. Often they have to walk long distances. An excuse that has recently been started by Government officers is that provision of wells will be taken up in the Five-Year Plan or that the Harijans must contribute money or labour if they want drinking water wells.

Then there is the question of burial grounds. It is another sorry affair in my district and it has reached the level of a scandal in my area, particularly in Veeramangalam firka. The poor Harijan is not allowed to burn the dead body at a convenient place because Hindu owners make all hubbub and also they have the ears of the Government. The poor Harijans send petition after petition to the Collector who says that he is helpless. Sir, it is a matter which requires the immediate attention of the Harijan Minister.

Again, in most of the villages the cheris are inaccessible. About these pathways the less said the better. The Harijan cheris are surrounded by hills or swampy land or cultivation fields of some landholders. The pathways are covered with shrubs and the owners may at any time say ‘no’ to these Harijans. What are they to do? Is it not the duty of the Government to lay convenient roads for these people? Same is the case in regard to lighting. Of course, even we in towns suffer sometimes for lighting. Harijans require lighting also if they are to get enlightenment. At present lighting is less than zero; when every thing is zero, this is minus-zero. My humble suggestion to the Government is that, instead of Revenue Department officers being taken to the Harijan Welfare Department, they may appoint graduates fresh from the colleges,
preferably Harijan graduates as officers after giving some training in welfare work. This will, to some extent help the Government solve the unemployment problem.

Also, the Director of Social Welfare must in no circumstances be a Hindu. He must be a Harijan or a Christian. And that Director of Social Welfare must be made to work under a Harijan Welfare Committee, a statutory committee appointed at State level; the President may be the concerned Minister and the members may be recruited from among the Harijan members of Parliament or of this Assembly, or members representing Christian Mission Schools or Ramakrishna Math Organizations and one or two non-officials who are non-Harijans and who are doing voluntary, silent and unostentatious social work for the uplift of the Harijans. Thank you, Sir.

DEMAND XXII — WELFARE OF SCHEDULED TRIBES, CASTES AND OTHER BACKWARD CLASSES.

22nd July 1955] (Sri N. K. Lingam)

Department explained that the welfare of Scheduled Tribes, Castes and Other Backward Classes should be improved. The Department considered the acquisition of land to be a significant step towards this goal. The acquisition process involved the transfer of land to the Welfare Department.

Statement read by Sri N. K. Lingam that the Education Department, Health Department, and Revenue Department had handed over the necessary documents to ensure smooth implementation of the welfare program. The Welfare Department was instructed to ensure the welfare of the Scheduled Tribes, Castes, and Other Backward Classes.

End of statement.

DEMAND XXII — WELFARE OF SCHEDULED TRIBES, CASTES AND OTHER BACKWARD CLASSES

22nd July, 1955] (Sri T. Jiyar Das)

The present demand is to ensure the welfare of Scheduled Tribes, Castes and Other Backward Classes. The problems faced by these communities are multifaceted and require urgent attention. The demands propose measures to address discrimination, education, employment opportunities, and general developmental initiatives. The demand is backed by extensive documentation and research, highlighting the need for immediate action.

The welfare of these communities is not just a matter of justice but a fundamental aspect of the nation's social fabric. The proposed measures aim to create a more inclusive environment where every individual has equal opportunities to succeed. The demand seeks to break down barriers, promote equality, and ensure that every member of society, regardless of their background, has a fair chance to contribut

The District Forest Officer, Upper Godavari Division, informed me on 18th July that contractors for the forest area were being paid in advance. I ordered that they be paid in instalments. However, Sri G. Suryanarayana, District Forest Officer, had reservations about this. He informed me that the contractors were paid in instalments in the Upper Godavari Division, but the Divisional Forest Officer insisted on paying them in one sum. He also informed me that the contractors had advanced Rs. 100,000 to the Government. The Divisional Forest Officer also suggested that I should issue a letter to the contractors stating that they would be paid in instalments.

EDUCATION, HEALTH AND LOCAL ADMINISTRATION DEPARTMENT

(Local Administration)

G. O. No. 315, 14th March 1955

Read the following papers:

From the Chief Engineer (Highways), dated 18th August 1954, Letter No. 16580/B1/54-1.

Order—No. 315, Local Administration, Dated 14th March 1955.

In G. O. No. 2462, L.A., dated 13th December 1952, one Supervisor of the Highways Department was allotted for each district to attend to the preparation of plans and estimates for panchayat works. These Supervisors are placed under the administrative control of the District Panchayat Officers of the district concerned, but for technical purposes they are under the control of the Highways Department. It has been brought to notice that this dual control has not been working satisfactorily. The Supervisors drafted from the Highways Department have been anxious to rejoin their parent Department and were averse to transfers from one district to another. There have also been considerable delays in securing the services of Supervisors to fill up leave vacancies. The result has been that the Panchayats anxious to execute works and for which they had funds ready had to wait indefinitely for plans and estimates, leading to much local public dissatisfaction.

2. With a view to secure the speedy execution of Panchayat works, it has now been proposed that a separate Engineering Service should be constituted for Panchayats to be exclusively under the administrative control of the Inspector of Municipal Councils and Local Boards. The Government have
examined the proposals in consultation with the Chief Engineer (Highways) and direct that a separate Engineering Service called "The Andhra Panchayat Engineering Subordinate Service" should be constituted. This sanction will remain in force for a period of two years with effect from 1st April 1955 or the date of constitution of the service whichever be later. The service will consist of 13 Supervisors and 23 Overseers. The Supervisors and Overseers will be recruited in consultation with the Andhra Public Service Commission, immediate appointments being made on a temporary basis by the Inspector pending regular appointments. The Divisional Engineer and the Assistant Engineers will be appointed by transfer from the Highways Departments.

3. The Government sanction the employment for a period of two years from the date of appointments, of the following staff to attend to the Panchayat Works:

(1) One Divisional Engineer.
(2) Three Assistant Engineers.
(3) Thirteen Supervisors.
(4) Twenty-three Overseers.
(5) Five Clerks.
(6) Twenty-one peons.

4. The expenditure on account of the staff mentioned in paragraph 3 above will be met from a Central Fund, which will be specially constituted for the purpose and contributions will be recovered from the Panchayats at a percentage rate of the income of the Panchayats that may be fixed by Government from time to time and credited to that Fund. Pending constitution of the above Fund, the Government will consider the question of sanctioning an interest free advance of Rs. 2 lakhs to be repayable in 4 annual instalments of Rs. 50,000 each, to meet the expenditure on the salaries of the Panchayat Engineering service and other expenditure incidental to the starting of the department. The amount of advance will, however, be sanctioned only after constitution of the Central Fund and appointment of an Administrator to the Fund. The Inspector of Municipal Councils and Local Boards is requested to submit necessary proposals in this regard together with the draft rules for the constitution and administration of the Fund.

5. The Inspector of Municipal Councils and Local Boards is also requested to submit draft ad hoc rules to govern the posts
of Supervisors and Overseers of the new Panchayat Engineering Subordinate Service for consideration of Government.
