SHORT NOTICE STARRED QUESTION.

Management of Bobbili and Seethanagaram Sugar Factories

S N. Q No. 1224.F.—Sri A. YERUKU NAIDU.—Will the Hon. the Chief Minister be pleased to state.

(a) whether any complaint was received from Sri V. Krishnamurthy Naidu, Secretary, Sugarcane growers, Bobbili regarding malpractices and violation of Government orders by the management of Bobbili and Seethanagaram Sugar Factories; and

(b) if so, the action proposed to be taken in this matter?

The Hon. Dr. B. GOPALA REDDI:—

(a) Yes, Sir.

(b) The complaint has been received very recently and the matter is under investigation.

Sri P. GUNNAYYA.—whether the Order (on the floor of the House) regarding shortage of raw materials at Bobbili Sugar Factory would be reviewed and whether the Management would be directed to supply the raw materials?

The Hon. Dr. B. GOPALA REDDI:—The Hon. the Chief Minister has been informed and the matter is under consideration.
SRI. P. GUNNAYYA:—I have received the following reports:

21st March 1956]

The Hon. Dr. B. GOPALA REDDI: Complaints made by the workers of the factory areas about the black fungus complaints are not true. The Enquiry Committee of the factory management has already investigated the complaints and found them to be false. The factory areas are generally clean and the workers are not engaged in any activities which may lead to the growth of black fungus. The management of the factory has taken steps to prevent the growth of black fungus in the factory areas.

Sri M. SATYANARAYANA RAJU: Price control order for sugarcane prices in the factory areas is not necessary. The standard recovery of sugarcane is based on the seasonal variation and the acreage of sugarcane grown. The standard recovery of sugarcane in the factory areas is based on the seasonal variation and the acreage of sugarcane grown. The standard recovery of sugarcane in the factory areas is based on the seasonal variation and the acreage of sugarcane grown.
Sri M. SATYANARAYANA RAJU: Overall recovery should be uniform. Minimum recovery should be minimum. Average recovery should be the average of prices. Sisa formula is:

Maximum recovery - Minimum recovery = Average recovery - (Seasonal crush + Growth loss) x Sisa formula

Sri RAJA SAGI SURYANARAYANA RAJU: Registration of societies is necessary. Andhra Sugarcane Growers' Association represents 23 registered societies. Season - Crush + Growth loss = Sisa formula.

Sri P. Sundarayya: Season 3 crush can be restricted by registering the seasonal crush and growth loss.
QUESTIONS AND ANSWERS

21st March 1956

THE Hon. Dr. B. GOPALA REDDI:—Sir, may I ask whether the sugar factory is working on the open market or selling the sugar directly to the consumers? Also, may I ask if the sugar factory has an open market for sugar before selling it to the consumers?

Sai P. SUNDARAYYA:—Sir, the sugar factory is working on the open market and selling sugar to the consumers. I would like to know if there is any control over the sugar factory, and how is the recovery of the sugar factory?

The Hon. Dr. B. GOPALA REDDI:—The sugar factory is working on the open market and selling sugar to the consumers. The sugar factory is not under any control. The recovery of the sugar factory is based on the market demand.

II ADJOURNMENT MOTION Re:
Non-inclusion of predominantly Telugu-speaking border areas in the Andhra State in the State Reorganisation Bill, 1956.

Mr. SPEAKER:—Sri Vavilala Gopalakrishnayya has given notice of an adjournment motion which is as follows.

"This is similar to the one given by Sri Sreeramulu yesterday. This is not a subject which relates to this Government. It is a matter for the Centre. You can discuss it when the States Reorganisation Bill comes up for discussion in the Assembly. So I rule it out of order.

The Hon. Dr. B. GOPALA REDDI:—We have already brought to the notice of the House that during Budget discussion when Demands are being considered adjournment motions should be avoided.

Mr. SPEAKER:—It is already ruled out of order. I have already brought to the notice of the House that during Budget discussion when Demands are being considered adjournment motions should be avoided.

Sri P. SUNDARAYYA:—"The printing machine is not running. The demand in this connection is for a printing machine. But I have already brought the matter to your notice."

[Sri N. Sanjeeva Reddi]

Respected Sir,

The citizens of this region have been facing the following problems:

1. Village roads
2. National Highways
3. State Highways
4. Major District Board roads
5. Other roads

The distances between these roads are such that unless special measures are taken, the villagers will have to face inconvenience. Every village has a minimum need of a good road, whether it is a main road or a subsidiary one. The villagers have been requesting for funds to construct these roads. It has been suggested that Village roads should be constructed with items of the same category as other roads. Plans and estimates have been prepared for the construction of Village roads. District roads and other State Highways have already been constructed. Buildings work and Capital work should also be completed. These proposals have been presented in the Budget for the year 1956-57.

SRI R. B. RAMAKRISHNA RAJU:—Yes, Sir, I have heard him. I wish you will hear me also.

THE HON. SRI N. SANJEEVA REDDI.—Evidently, Sir; he feels he will not be in Kurnool when that Demand comes up and so he wants to finish it to-day. (Laughter).

MR. SPEAKER:—Is that your point. (Laughter). Unfortunately these roads come under two categories, roads under local bodies and roads under Government. Ultimately it is the responsibility of the Government to develop all roads in the State. The Hon. Deputy Chief Minister wanted to draw a distinction between roads for which Government takes the responsibility and roads for which the responsibility lies with local bodies.

THE HON. SRI N. SANJEEVA REDDI.—That is why I said, if we are going to discuss both together I have no objection. But let us not waste another day by repeating the same thing. Let us put Civil Works—Grants-in-aid also here to-day. The Minister concerned is here, we will face it together and finish it. I have no objection.

SRI P. SUNDARAYYA:—Grants-in-aid to roads under local bodies and also to roads demand shall be taken up to-day. Mr. Ramakrishna Raju may now move his cut motion.

Mr. SPEAKER:—Now the main Demand and the cut motions are before the House for discussion.

Shri R. B. RAMAKRISHNA RAJU:—The development schemes of village roads in various areas in the state have been planned. An assessment has been made of village roads and existing schemes for village roads have been approved. The local bodies are eligible for grants from State Revenues ordinarily equal to half the expenditure incurred on approved schemes of construction or improvement of village communications. The District Board shall defray half the grant and the State Government shall defray the other half.

Development schemes for village roads have been planned. The local bodies will bear half the expenditure incurred on village roads. The District Board shall bear half the cost. The state will bear the other half. The local bodies are eligible for grants from State Revenues ordinarily equal to half the expenditure incurred on approved schemes of construction or improvement of village communications.
Sri R. B. Ramakrishna Raju

[21st March 1956]

Village roads are considered a priority. If a village road is not built, the villagers have to face several problems. The village roads are essential for the proper development of a village. The government has been allocating funds for village roads. However, the funds allocated are not sufficient to meet the needs of the villagers. Therefore, it is necessary to allocate more funds for the construction of village roads.

The Hon. Sri N. Sanjeeva Reddi:

Development schemes, 1956-57, are essential for the proper development of a village. The government has been allocating funds for development schemes. However, the funds allocated are not sufficient to meet the needs of the villagers. Therefore, it is necessary to allocate more funds for the development schemes.

The government should allocate supplementary grants for the development of village roads. The government should also allocate funds for the construction of village roads.

Second Five Year Plan

21st March 1956
[Sri P. Sreeramulu]

Second Five Year Plan

Second Five Year Plan continues for the year 1956-57. The objective of the Second Five Year Plan is to upgrade the Government Highways in the state. The Supplementary Budget for the year 1956-57 provides funds for the construction of roads and dams, as well as the inauguration of several projects. The plan aims to improve the state's infrastructure and facilitate better transportation.

82,000 for 2, 3 and 8 categories, etc., for the delta area. It is essential to
cancel the procedure of securing tenders and contract. I would ask
the Hon'ble Members to consider these demands.

Sri K. Appa Rao:

I refer to the demands for the delta area. The works of irrigating
the delta are of great importance. I would also like to draw
the attention of the House to the demands for works in the
delta area. The works in the delta area are of great importance.
I hope the demands for the delta area will be considered.

Sri S. NARAYANAPPA:—I am happy to note that the expenditure on National Highways and State Highways and Major District Roads has been reduced in the 1956-57 Budget estimate. The reasons for this are:

1. National Highways and State Highways:
   - Reduced from Rs. 300 lakhs to Rs. 250 lakhs. The decrease is attributed to the completion of Phase 1 of the BSR Road from Tirupati to Tenali.
   - The Government has decided to take up the construction of the remaining portion of the BSR Road from Tenali to Srikalahasti.

2. Major District Roads:
   - Reduced from Rs. 30 lakhs to Rs. 20 lakhs. The reduction is due to the completion of the fodder station work.

In summary, the Government has taken steps to rationalize expenditure on roads, focusing on completing ongoing projects and planning future investments wisely.

Highways Department is jugglary affair, and it is necessary to mention

Village roads Development roads National
highways District board roads Village roads

major works. There are village roads, development roads, national
highways, and district board roads. Each road has its own needs and
requirements. The Highways Department has to carry out major works
in these areas. The village roads require maintenance and
improvement.

The development roads need modernization and
upgradation. National highways require

 major works. The Highways Department

 has to work on all these areas, and

the needs are different for each area.

Consolidation responsibility is assigned to the Chief Engineer of the Provincial highways. In case of road widening, the Chief Engineer of the Public Works Department should be informed. Tenders call for the last year were 22%, 20% less than the tenders for the same Sub Division for 20% of tenders. Contractors must ensure cooperation in these areas and representations may be exchanged. The Office must ensure cooperation by ensuring that contractors do not collude.

Sir,

I am forwarding herewith a project report for the formation of a new road for the year 1956-57. The project involves the construction of a new road, which is a significant development for the region. The road is expected to improve connectivity and facilitate better transportation for the locals.

The project details include:
- **Formation of a New Road:** The project involves the construction of a new road to connect two major towns. The road is expected to reduce travel time and enhance economic activities in the area.
- **Maintenance:** The maintenance of the road is crucial to ensure its longevity and functionality. A central government grant has been allocated for this purpose.
- **Gravel:** Metal gravel and construction materials will be used for the construction of the road. The road will be designed to accommodate light to medium traffic.

Consultant Engineer, Divisional Engineer, Superintending Engineer

Yours faithfully,

"I am pleased to inform you that the adoption of the 10 years rule of promoting L.C.E.S. and reverting B.E.s to the proportion maintained in the past is now in force. L.C.E.S. can promote to B.E.s, and B.E.s can revert to the proportion maintained in the past. Vacancies will be filled by quick promotions. Vacancies in proportion will be filled by L.C.E.S. for continuous promotions of qualifying engineers. I think we will be able to satisfy them.

Rules regarding promotions in the Subordinate Services have been adopted. The Chief Engineer shall have the authority to consider promotions. Technically qualified men, L.C.E.s, and B.E.s will be promoted accordingly. Senior engineers will be promoted continuously. Vacancies will be maintained and promotions will be made in proportion.

Work charged establishments will be charged to the national highways. The maintenance of national highways is now in the hands of the Chief Engineer. The permanent establishment will be maintained. Vacancies will be filled by quick promotions.

I am pleased to inform you that '26 out of 28 engineers will be transferred to national highways. The 'New Delhi' will be transferred to national highways in the future.

As per the resolution of the Chief Engineer, the establishment of the national highways will be maintained. The resolution of the Chief Engineer will be implemented.

Yours sincerely,

Vide answer to the Legislative Assembly Question No. 644 (Starred) by Sri P. Rajagopal Naidu, M. L. A. at page 263 Supra.

"The Elementary Education Committee appointed by Government last year has recommended inter alia that in future teachers employed in Primary Schools should be taken only from among candidates who pass the T. S. L. C of the Secondary Grade. In connection with this recommendation the Government have considered the question of continuance or otherwise of the grant of stipends on the present scale for the Higher Grade Trainees and they have decided as follows.—

1. The number of stipends given for Higher Grade Training shall be reduced to 50 per cent of the admissions in each non-basic school or section therein from the school year 1955-56.

2. The candidates who have been admitted in 1954 in the Higher Grade Training Non-Basic Schools and are now taking the second year course, shall continue to receive their stipends during the current year.

3. The grant of stipends in non-basic Higher Grade Training Institutions shall be completely withdrawn from 1956 onwards except for those who may be granted stipends in 1955 and may be promoted to the second year course in 1956.

4. In awarding the stipends, not less than 1/3 and not more than 1/2 of the stipends in the Higher Grade may be given to candidates belonging to Scheduled Castes and Backward Classes.

5. The Director of Public Instruction is requested to communicate a copy of the orders of Government to all the non-basic Higher Grade Training Institutions in the State and warn them in particular about the complete withdrawal of stipends from 1956 onwards ".
