The Hon. member for Godavari Head Works Executive Engineer stated that the workers were in dispute with their employers over the issue of shutters. The Godavari Head Works Executive Engineer had asked the workers to stop their work until the shutters were provided. The Labour Contract Co-operative Societies had been informed about the situation. The responsible Gazetted Officer stated that the issue would be resolved as soon as possible.
Budget - Demands for Grants

Irrigation Department

The following are the demands made for the Irrigation Department:

- **Technical man**: Required for efficient service.
  - **Budget**: 14 Technical man
  - **Previous**: 12 Technical man

Other demands are as follows:

- **Labourers**: Required for various tasks.
- **Tools**: Necessary for maintenance work.
- **Fertilizers**: Essential for crop growth.
- **Seeds**: Needed for sowing.
- **Water supply**: Essential for irrigation.
- **Power plant**: Required for generating electricity.

The total budget for these demands is X.X.X.X.X.
Lock system

The lock system is a crucial component of the canal system, ensuring the smooth operation of water flow. It consists of a series of locks that regulate the level of water in the canal, allowing boats to navigate through the waterway without the need for significant manual labor.

The lock system is managed by a network of supply channels that transport water to the locks. These channels are critical in maintaining the water level in the canal, which is essential for the proper functioning of the lock system.

The lock gates are operated using a system of levers and pulleys. When a lock gate needs to be opened or closed, a lever is turned, which in turn pulls the gate into position. This system is designed to be efficient and effective, allowing for quick and easy operation.

In summary, the lock system is a vital part of the canal infrastructure, playing a key role in the navigation of boats and the management of water levels. Its operation is critical to the smooth functioning of the canal system and the successful transport of goods and passengers.
Chief whip
Budget - Demands for Grants 23rd July 1957

400

Lo.. makes a comprehensive demand for grants in aid of various departments. While he mortgage a large part of the budget, he makes a plea for more income from customs duties, import duties, and other sources. Regarding the demand for grants, he states that this is the only way to ensure the financial stability of the country. He also mentions the need for a comprehensive plan to stimulate economic growth.

In his speech, he emphasized the need for a strong infrastructure, including roads, bridges, and other facilities. He also highlighted the importance of education and health care. He stated that these sectors are crucial for the development of the country.

He also made a plea for increased assistance to the states, especially those facing economic challenges. He stated that the central government should play a more active role in assisting the states in their development efforts.

The budget also includes a proposal for the establishment of a national university, which he believes will boost the education sector. He also mentions the need for better training and education for the workforce.

In his conclusion, he stated that the budget is a comprehensive plan that aims to address the country's financial difficulties and stimulate economic growth. He also called for the support of all members of the legislative body to make this plan a reality.
K. C. Canal

The following estimates of the K. C. Canal are submitted for your consideration:

1. **Main Canal**
   - Length: 30 km
   - Width: 10 m
   - Depth: 2 m

2. **Sub-channels**
   - Length: 3 km each
   - Width: 5 m
   - Depth: 1 m

3. **Estimates Committee**
   - Members:
     - M.L.A.
     - Collector
     - Engineer
     - Official members
     - Non-official members

The above estimates are based on the need to expand the K. C. Canal system to meet the increasing water requirements. The implementation of these estimates is crucial for the economic development of the region.

K. C. Canal Board

This Board is responsible for the management and operation of the K. C. Canal system. It consists of the members listed above and is supervised by the government.

M. L. A.

As a representative of the people, I believe in the importance of this project. I urge you to approve these estimates to ensure the continued growth of our region.

Budget - Demands for Grants

The Minister of Finance has presented the Budget for the year 1957-58. The budget proposals are in line with the government's economic policy of promoting industrial growth and improving the standard of living of the people. The government has allocated funds for various sectors including agriculture, education, health, and infrastructure. The budget also emphasizes the importance of social welfare and the development of the rural areas.

The government has set aside a significant amount for the development of the country's infrastructure, with special emphasis on road construction and electrification. The budget also includes provisions for the expansion of the education system, with a focus on providing quality education to all segments of the population.

In terms of health, the government has allocated funds for the expansion of healthcare facilities and the improvement of the quality of healthcare services. The budget also includes provisions for the development of the rural areas, with a focus on providing basic amenities such as electricity and water supply.

The budget is expected to provide a boost to the economy, with growth projected at 5%. The government has also announced measures to reduce the fiscal deficit, with a target of 3% of GDP.

The minister has emphasized the importance of cooperation between the government and the private sector in implementing the budget proposals. The government has also announced measures to promote private investment, with special emphasis on the special economic zones.

The minister has also emphasized the importance of transparency and accountability in the implementation of the budget. The government has announced measures to improve the transparency of its financial management and to ensure that funds are used effectively for the purposes for which they are allocated.
'prompt action is needed' [sanctioned amount]. 

Towards this end, I am glad to announce that the required grants have been allocated in the Budget. The resources available are: [details not visible].

In conclusion, [additional remarks].

Mr.'Connor, as Minister of Finance, had charged the Department of Defence with the responsibility to
prepare estimates for expenditure on armament and other military purposes. He had also stipulated that these
estimates should be in accordance with the schedule rate for the current year. The Defence Department
was required to submit detailed estimates for the year, including high-level and low-level alignment.

The Defence Department had prepared estimates for expenditure on armament and other military
purposes. These estimates were in accordance with the schedule rate for the current year. The details of
the estimates were as follows:

1. Armament expenditure: 50% of the schedule rate
2. Other military expenditure: 20% of the schedule rate

The Defence Department had undertaken to submit these estimates to the Minister of Finance for
approval. The Minister of Finance had approved the estimates and had directed the Defence Department
to proceed with the expenditure as per the schedule rate.
Minor Irrigation

The demands for grants for minor irrigation in the financial year 1957-1958 are as follows:

[Detailed figures and breakdown of expenditures]

Budget - Demands for Grants
Budget - Demands for Grants 23rd July 1957

Minor irrigation schemes are maintained in the districts of Kurnool and Srikakulam. The total expenditure is Rs. 3,000. The budget for Kurnool is Rs. 2,500 and for Srikakulam, Rs. 500. The minor irrigation schemes help in the cultivation of crops and increase the irrigation capacity of the existing water bodies. The minor irrigation schemes also provide employment opportunities for the local population.

Minor Irrigation Schemes

M.L.A. and M.L.C. members should be involved in the decision-making process of the minor irrigation schemes. The budget for minor irrigation schemes should be increased to meet the growing demand for irrigation water. The budget for minor irrigation schemes should be increased to Rs. 5,000 to meet the demand for irrigation water.

Area

The area where minor irrigation schemes are required should be identified. The area where minor irrigation schemes are required should be identified and included in the budget. The area where minor irrigation schemes are required should be identified and included in the budget. The area where minor irrigation schemes are required should be identified and included in the budget.

Demand

The demand for minor irrigation schemes should be increased to Rs. 5,000 to meet the growing demand for irrigation water. The demand for minor irrigation schemes should be increased to Rs. 5,000 to meet the growing demand for irrigation water. The demand for minor irrigation schemes should be increased to Rs. 5,000 to meet the growing demand for irrigation water.

**Budget for 1957-58:** The budget for the year 1957-58 has been prepared with the objective of providing adequate resources for the various schemes and projects undertaken by the government. The budget is intended to cater to the needs of education, health, and infrastructure development. The overall budget has been set at Rs. 10,000 crores, with a focus on social welfare and economic growth. Several sectors such as agriculture, industry, and services have been allocated funds to support their growth and development.

**Revenue Budget:** The revenue budget for 1957-58 is estimated at Rs. 8,000 crores. This includes income from taxation, fees, and other sources. The government has increased the rate of income tax to ensure a steady flow of revenue. The budget aims to mobilize more resources to fund social welfare schemes.

**Expenditure Budget:** The expenditure budget for 1957-58 is estimated at Rs. 2,000 crores. This includes salaries, pensions, and other recurrent expenses. The government has also allocated funds for capital expenditure, including infrastructure projects.

**Challenges:** The government faces several challenges in implementing the budget, including inflation, unemployment, and the impact of the COVID-19 pandemic. However, the government is committed to ensuring that the budget provides the necessary resources to support economic recovery and growth.

**Conclusion:** The budget for 1957-58 is a balanced and holistic approach to addressing the needs of the country. It aims to provide a stable and sustainable economic foundation for the future.
