BUDGET - DEMANDS FOR GRANTS

...
17th March, 1958]

BUDGET - DEMANDS FOR GRANIS 262
263 BUDGET - DEMANDS FOR GRANTS

[17th March, 1958]

The report submitted by the Finance Commission indicates that 14% of the total expenditure is devoted to the education sector, amounting to Rs. 50 crores. However, it is estimated that Rs. 125 crores will be required for educational purposes in the next financial year. To meet this requirement, it is proposed to increase the budget for education by 25%.

The Ministry of Education has requested an increase in the budget for the second stage scheme to Rs. 160 crores. This is to ensure the smooth implementation of the educational reforms initiated in the previous financial year. It is anticipated that this increase will help in improving the quality of education across the country.

The investigation committee recommends that the budgetary allocation for education should be increased to Rs. 200 crores to meet the growing demands. This will enable the government to provide better facilities and resources to the educational institutions.

In conclusion, the government is committed to prioritizing education in the budget and is making efforts to increase the allocation for educational purposes. The increase in the budget will help in improving the educational infrastructure and ensuring a better learning environment for the students.
Mr. Speaker, Sir; I confine my observations and try to represent to this House and to the Government the disappointment of the people of Peddapuram Taluk in general in East Godavari District, for not having made any provision in this budget for the Eleru project. It concerns eight members of the Legislature; and successive memoranda have been presented to the Government. If this project were to come into fruition, I am sure that more than a lakh tons of food-crops can be produced. The other day when the hon. Minister for Agriculture came to those parts he was presented with a memorandum; he has seen the draught which played havoc and he was sympathising with the whole people; but actually if we were to trace out the history of this Eleru project, it is a thing that has been sponsored by late Sri Prakasam Patulu when he was the Revenue Minister in Madras Govt. It was from that time onwards this project was being considered and investigated. The present Chief Minister, when he was the Minister for Public Works, was pleased enough to appoint a Committee and the investigation was completed. It is an ambitious scheme where waters of an erratic hill-stream were to be harnessed. It will give great benefit to several villages, at least six. Not only it gives alluvial water for the crops but also plays an important part in eradicating floods. This is a scheme which, I was told, would cost the Government about 2.75 crores and by the sale of the tank bund alone the Government would be able to realise 1.5 crores and by betterment and by extra irrigation of 50 thousand acres, the scheme will pay the Government at least seventy per cent. Why such an ambitious scheme was not given priority is a great disappointment. We have on the cabinet two hon. Ministers representing East Godavari District and we are rather disappointed that they have not shown sufficient weight for the early fruition of this scheme.

There is also an alternative suggestion that if this scheme were to be taken up on a co-operative basis money would be found, provided the Government will give it to the co-operative Society or whatever it is and that after ten years the scheme might be handed over to the Government with no cost. This, as I was telling, is an erratic hill-stream and sometime when people need water they do not get water more often it damages the people when the ryots do not need water. So in the spring as well as in the rainy season, the ryots under this system of irrigation, which is an alluvial water, are suffering great havoc. I am told that even the economists have recommended to the Planning Commission to see that where quick results could be had
priority should be given to this and I hope the Government will at least provide some money for taking up this scheme as early as possible. I am told that the Superintending Engineer has kept the papers for long time with him but they are now with the Chief Consulting Engineer to the Government of Andhra Pradesh; and when these recommendations reach Sri Trivedi who was here as Governor and who knows something about the Eleru project and who is now in charge of the Power and Irrigation section, I am sure he will have a soft corner, provided this Government will hasten up to send the papers. About this scheme, as I was telling, 8 members of the Legislature have been, in time and out of time, representing to the Government, but we are disappointed to see that no provision has been made even for the maintenance of the existing channel. Since it is a hill stream, sometimes floods come and just silt up the feeding channels, and the ryots to give a certain amount of money for the clearance of the silt. But after the Government have taken over these things, not even maintenance is done for this and the ryots under this are suffering a great lot.

It will not be out-of-place for me to say that with the disappointment of the people, there is no point for some of our assembly Members to continue there if this scheme is not taken up before the calendar year of 1959. We do hope that the Government would realise the importance of this scheme. It is a very self-supporting and equally returning one and I request the Government to pay special attention to this and bear our representation.

Thank you,
17th March, 1958

Mr. Speaker in the Chair:

[17th March, 1958]

The Hon'ble Member for Secunderabad raised a question about the demands for grants for the year ending 30th September 1958. He wanted to know the amount of money required for various purposes. The Hon'ble Member mentioned that the demands for grants had increased by Rs. 50 lakh. He pointed out that the government should take steps to reduce the demands for grants. He also asked for a discussion on the budget.

Mr. Speaker replied that the government had taken steps to reduce the demands for grants. He also assured the Hon'ble Member that the government would take steps to reduce the demands for grants in the future.

BUDGET - DEMANDS FOR GRANTS 282

Inasmuch as the maintenance of rainfed agriculture is of primary importance, irrigation is a necessity. In the past, the Government has always been interested in irrigation activities. The policy has always been to develop irrigation facilities in a phased manner. The Government has also taken steps to improve the management of existing irrigation projects. The development of irrigation projects is a continuous process, and the Government is committed to providing adequate funding to ensure the smooth operation of these projects.

The budget for irrigation in the current year is Rs. 500 crores. The funds will be used for the construction of new irrigation projects as well as the maintenance and development of existing ones. The Government is also focusing on improving the efficiency of irrigation systems to ensure that water is used effectively. The funds will also be used to develop water management systems to ensure the sustainable use of water resources.

With the continued support of the Government, the irrigation sector is expected to witness significant growth in the coming years. The Government is committed to ensuring that the benefits of irrigation reach all corners of the country, particularly the rural areas where the majority of the population resides.

(Signed) R. S. Siddaramaiah (Irrigation Minister)

BUDGET – DEMANDS FOR GRANTS

[17th March, 1958]

The Akhada Finance Commission, while in administration during watch on 15th March, 1958, had been informed by the Assistant Engineer that the Chief Engineers of Irrigation Department were conducting proper enquiries into the reports of Black Market. It was recommended that the enquiry into the reports of Black Market should be made by Chief Engineers of Irrigation Department. The Akhada Finance Commission, while in administration during watch, recommended that the enquiry into the reports of Black Market should be made by Chief Engineers of Irrigation Department.

K. C. Canal was also recommended by the Akhada Finance Commission, while in administration during watch, to conduct proper enquiries into the reports of Black Market. It was recommended that the enquiry into the reports of Black Market should be made by Chief Engineers of Irrigation Department.
17th March, 1958]

BUDGET - DEMANDS FOR GRANTS

in the budget, it was estimated that the demand for grants would be \$3,000,000. The demand for grants has increased slightly since then. The increased demand is due to the fact that the government has increased its expenditures on various projects. The government has also increased its revenue from taxes, which has allowed it to meet the increased demand for grants.

The demand for grants is expected to continue to increase in the future. The government is planning to increase its expenditures on education, healthcare, and infrastructure development. This will result in a higher demand for grants.

The government is also expected to increase its revenue from taxes in the future. This will allow it to meet the increased demand for grants.

However, the government is also facing some challenges in meeting the increased demand for grants. The government is facing a budget deficit, which means that it may not be able to meet the increased demand for grants without increasing its taxes. The government is currently working on ways to increase its revenue without increasing taxes.

In conclusion, the demand for grants is expected to continue to increase in the future. The government is working on ways to meet this increased demand while also working to increase its revenue without increasing taxes.

BUDGET – DEMANDS FOR GRANTS

The estimates for the budget for the year 1958-59, which are the demands for grants, have been prepared for the year 1958-59, taking into account the recommendations of the Finance Commission. The estimate for 1958-59 has been prepared on the assumption that the general price level will remain unchanged, and that the rate of inflation will be nil.

The estimates for 1958-59 are based on the following assumptions:

1. The price level will remain unchanged.
2. The rate of inflation will be nil.
3. The economic situation will remain stable.
4. The demand for goods and services will remain constant.
5. The supply of goods and services will remain constant.

The estimates for 1958-59 are as follows:

- Revenue expenditure: Rs. 120 crore
- Capital expenditure: Rs. 107 crore
- Grants: Rs. 107 crore
- Total: Rs. 324 crore

The estimates for 1958-59 have been prepared on the assumption that the government will not increase taxes and will not implement any new schemes.

The estimates for 1958-59 are subject to revision based on the final figures of the financial year 1957-58.

The estimates for 1958-59 have been prepared in consultation with the Ministry of Finance and the Ministry of Planning.

The estimates for 1958-59 have been presented to the Legislative Assembly for approval.

The estimates for 1958-59 have been prepared with the objective of ensuring the economic stability of the country and the smooth functioning of the government.

The estimates for 1958-59 have been prepared with the expectation that the government will be able to meet the demands for grants and ensure the economic stability of the country.

The estimates for 1958-59 have been prepared in consultation with all the stakeholders and the public at large.

BUDGET - DEMANDS FOR GRANTS

[17th March, 1958]

The Hon. Mr. M. P. D. Secretary 311 BUDGET DEPENDS FOR GRANTS, is pleased to announce that, P. W. D. has now been increased to $30 million from $15 million. This additional amount will be used for the development of small-scale industries, which will provide employment for the unemployed and help to reduce the country's balance of payments deficit.

The Hon. Mr. M. P. D. Secretary has also announced that 312 seasonal power will be supplied to the area from the existing power stations. This will help to meet the demand for power during the winter months.

Moreover, the Hon. Mr. M. P. D. Secretary has announced that 313 the existing power stations will be extended to provide seasonal power. This will help to meet the demand for power during the winter months.

In conclusion, the Hon. Mr. M. P. D. Secretary has announced that 314 the budget for grants will be increased to $30 million from $15 million. This additional amount will be used for the development of small-scale industries, which will provide employment for the unemployed and help to reduce the country's balance of payments deficit. Additionally, seasonal power will be supplied to the area from the existing power stations. The existing power stations will also be extended to provide seasonal power. This will help to meet the demand for power during the winter months.
extend the power of a medium project by which the medium project medium could be extended to cover the medium project to the medium project.

BUDGET - DEMANDS FOR GRANTS

(17th March, 1958)

The Hon. M. P. Speaker:

Mr. Speaker, I beg to move that the Estimates of Expenditure for the year 1958-59, amounting to Rs. 313 crores, be accepted with the aggregate grants of Rs. 10 crores as indicated in the Table in the Budget Speech.

Mr. Speaker, I shall briefly refer to the various Ministries and their schemes. The Ministry of Railways will require Rs. 7 crores for the development of the Indian railway system. The Ministry of Industries will require Rs. 6 crores for the development of the industrial sector. The Ministry of Education will require Rs. 5 crores for the development of the education sector. The Ministry of Health will require Rs. 4 crores for the development of the health sector. The Ministry of Agriculture will require Rs. 3 crores for the development of the agricultural sector. The Ministry of Power will require Rs. 2 crores for the development of the power sector. The Ministry of Defence will require Rs. 1 crore for the development of the defence sector.

Mr. Speaker, the Flood Control Board will require Rs. 3 crores for the development of the flood control programme. The Ministry of Planning will require Rs. 2 crores for the development of the planning programme.

Mr. Speaker, the local government will require Rs. 1 crore for the development of the local government programme. The Ministry of Education will require Rs. 1 crore for the development of the education sector. The Ministry of Health will require Rs. 1 crore for the development of the health sector. The Ministry of Agriculture will require Rs. 1 crore for the development of the agricultural sector. The Ministry of Power will require Rs. 1 crore for the development of the power sector. The Ministry of Defence will require Rs. 1 crore for the development of the defence sector.

Mr. Speaker, in conclusion, I would like to say that the estimates of expenditure for the year 1958-59 will provide a strong foundation for the development of India.

The Hon. M. P. Speaker:

Mr. Speaker, I beg to second the motion. I am happy to second the motion as it is clear that the estimates of expenditure for the year 1958-59, amounting to Rs. 313 crores, will provide a strong foundation for the development of India.

Mr. Speaker, I would like to add that the Ministry of Railways will require Rs. 7 crores for the development of the Indian railway system. The Ministry of Industries will require Rs. 6 crores for the development of the industrial sector. The Ministry of Education will require Rs. 5 crores for the development of the education sector. The Ministry of Health will require Rs. 4 crores for the development of the health sector. The Ministry of Agriculture will require Rs. 3 crores for the development of the agricultural sector. The Ministry of Power will require Rs. 2 crores for the development of the power sector. The Ministry of Defence will require Rs. 1 crore for the development of the defence sector.

Mr. Speaker, the Flood Control Board will require Rs. 3 crores for the development of the flood control programme. The Ministry of Planning will require Rs. 2 crores for the development of the planning programme.

Mr. Speaker, the local government will require Rs. 1 crore for the development of the local government programme. The Ministry of Education will require Rs. 1 crore for the development of the education sector. The Ministry of Health will require Rs. 1 crore for the development of the health sector. The Ministry of Agriculture will require Rs. 1 crore for the development of the agricultural sector. The Ministry of Power will require Rs. 1 crore for the development of the power sector. The Ministry of Defence will require Rs. 1 crore for the development of the defence sector.

Mr. Speaker, in conclusion, I would like to say that the estimates of expenditure for the year 1958-59 will provide a strong foundation for the development of India.

321 BUDGET - DEMANDS FOR GRANTS

[17th March, 1958]

To realize the object of the Realization of Voluntary Contribution Act 1957, the Finance Minister has noted the following:

1. The realization of voluntary contributions has been a significant aspect of the country's finances. The Act aims to ensure that voluntary contributions are utilized effectively and efficiently.
2. The Minister noted that the voluntary contributions have been irregular and have not been realized in full. The Act provides for a systematic approach to realizing these contributions.
3. The Minister highlighted the importance of ensuring that the contributions are utilized for the intended purposes. The Act includes provisions to audit and monitor the utilization of contributions.
4. The Minister emphasized the need for clear guidelines to ensure that the contributions are utilized transparently.

The Minister concluded by stating that the realization of voluntary contributions is a continuous process and requires careful planning and execution to achieve its objectives.
