(a) whether the Government decided to establish a research laboratory and a factory at Hyderabad for the manufacture of vaccine, and

(b) if so, the estimated expenditure thereon and the share of the Central Government?

Sri N. Sanjiv Reddy (a) It is proposed to establish at Hyderabad a Central Public Health Laboratory on the lines of King Institute, Madras, during the Second Five Year Plan period for the manufacture of vaccine and sera.

(b) The estimated expenditure involved in this proposal is Rs. 24.00 lakhs (Rs. 40.00 lakhs recurring and Rs. 14.00 lakhs non-recurring). Government of India have declined to give assistance to this scheme.

Constructions of a Wall in a Gantlakunta Across the Road.

1181—

(a) whether Kundur Gopal Reddy of Rangapur, Jangion taluk, Warangal District, constructed a wall in Gantlakunta across the main country-track running from Rangapur to Posampalli thus obstructing it and forced the traffic to go via a very narrow route in the village; and

(b) whether the Government has taken any action to remove this obstruction?

The Minister for Revenue (Sri K. Venkata Rao) : (a) and (b) It is a fact that Sri K. Gopal Reddy constructed a wall in Gantlakunta across the main country-track running from Rangapur to Posampalli. But this has been done only to facilitate more convenient traffic as the previous cart-track was very narrow and a zig-zag one inconvenient for traffic purposes. Sri Gopal Reddy has also constructed a new wide road in his patta land at his own cost. Hence no action has been taken for the removal of the wall.
