BUSINESS OF THE HOUSE

Chief Minister (Sri N. Sanjeeva Reddy): All right, Sir.

Adinath (the Speaker): Order, Order, Order...
STATEMENT ON THE REPORT OF THE PAY COMMITTEE

Sri N. Sanjeeva Reddy:

Mr. Speaker, Sir, With your permission I beg to make a statement on the Report of the Pay Committee appointed by this Government last May, copies of which will be made available to all the Members of this House and to the Press within a day or two. I would recapitulate that this Committee was appointed to examine the existing structure of pay scales of employees of Government and Local Bodies, the minimum of whose scale of pay is Rs. 250 or less, but excluding employees in the Industrial Undertakings of Government, with a view to rationalise the existing pay scales and to meet to the extent that the finances of the State permit, the increase in the cost of living which has occurred in recent years. I would also recapitulate that the Committee was requested to keep in view the requirements of the Second Five Year Plan on which the future prosperity of the State depends, and to make suggestions for raising additional resources by which the increase in the pay bill of the State could be met.

I am glad to report to this house that the Committee, which included representatives of both the Andhra and Telangana regions as well as the Opposition Party, have made a unanimous report. I would congratulate the Committee on its endeavours and on behalf of the Government, thank them for having rendered their Report so expeditiously.

I shall refer very briefly to the main features of the Report. The Committee has recommended that as regards Class IV servants (who number about 40,000
and whose emoluments prior to 1957 were ranging from Rs. 41-43) the minimum emoluments should be Rs. 56 per month made up of a basic pay of Rs. 26 and Dearness Allowance of Rs. 30. For semi-skilled employees like drivers, the minimum emoluments will be Rs. 71 comprising a basic pay of Rs. 41 with Dearness Allowance of Rs. 30. So also in the case of the lowest grade of the clerical staff, the minimum emoluments will be Rs. 84 comprising a basic pay of Rs. 50 and dearness allowance of Rs. 34. I am sure, all the Members will agree that these scales will give some substantial relief to the low paid sections of Government employees. With these changes the pay scales will compare favourably with most States.

Other features include the following :-

The existing multiplicity of pay scales has been reduced from some hundreds to a bare 33.

Increments will, in all cases, be annual, thus taking account of the increased responsibilities which most of our staff have to incur year after year, instead of biennial as at present in certain cases.

As regards executive and technical posts, substantial increases in pay have been made taking into account the time and expense which trained personnel have to incur in securing technical qualifications, and also retain them within the State Service.

Rates of Dearness Allowance in all cases have been fixed by taking into account present and prospective increases in the cost of living as well as existing allowances like house rent, which the Committee desired to be merged into one all-inclusive item.

The Committee expects and Government agree that almost all employees will opt to come over to the new scales of pay, thus removing the existing differences between the pay scales in the Andhra and Telangana regions which have been a source of discontent to the staff and of embarrassment to Government. All employees will be given a period of three months to exercise their option between the existing and the new scales of pay. Where they opt for the new scales of pay the initial pay will be so fixed that they do not get
less than their total emoluments under all heads at present. The initial pay will be fixed in the new scales at the next higher stage, and in addition, one increment for every five complete years of service, subject to a maximum of two increments.

I would make special mention of the very considerable relief which will accrue on account of these proposals to Teachers, who, as a class, have been poorly paid in the past, particularly in the case of Aided Schools and Local Bodies whose number is about 70,000. In the proposals of Teachers with Higher and Secondary Grades whether in aided or Local body or Government institution will come under the uniform scales i.e. Rs. 30 to 60, Rs. 45 to 120 respectively.

I may also add to mention that the T.A. in the higher category of Services is reduced and some increase in the T.A. of the low paid staff is afforded.

The present recommendations of the Committee do not cover employees of Local Bodies other than Teachers, regarding whom the Committee will report in due course. The Report of the Committee does not also cover Service Rules and Regulations which are separately being examined by it.

The financial effects of these proposals are likely to be heavy, but Government have decided that these extra commitments should be borne so as to secure relief for the weaker sections of their employees. It is anticipated that the burden on the Exchequer based on averages will be about Rs. 4 Crores, though to start with it will be somewhat less. A small portion of this, estimated at about Rs. 50 lakhs, would be available by way of Central Subsidy. This additional commitment of Rs. 4 crores is over and above the various measures of relief given to nongazetted staff, village officers, teachers, etc., from 1-4-1957 onwards, at cost of over Rs. 2.5 crores per annum.

The existing proposals will come into effect from 1-11-1958 which is the second birth day of the State of Andhra Pradesh.

I would next briefly draw attention of this House to the various measures suggested by the committee for raising the additional resources to meet partially the
outlay involved in its recommendations. These will be found in Chapter XII of the Report. These are being examined by Government. I hope that Hon’ble Members will give Government their full support when concrete proposals of taxation are brought before them.

I also hope the Service will appreciate the decisions taken by Government at considerable strain on the finances of the State and respond with greater effort in all their spheres of activity so that we may reach objectives of our Developmental programmes and thereby help to achieve the prosperity in which they, together with all other citizens of the State, will eventually share.

No 34 object 20-9. 

I am not going to allow to reopen the whole supplementary budget and go on criticising it.
We are wasting our time, you are a senior member; you know every thing. Do not waste your time.

Grants merit in the Finance Department are negligible. We have to extend accounting services to the public. The accounts show that there is no need for additional expenditure. Is there any progress?

Appropriation Bill 1958: Public Health (No. 3) Village Housing Project Scheme has been discussed. The 1958 account shows repeat expenditures. The 1959 accounts show an improvement. Aviation accounts show a decrease in expenditure. Is there any miscellaneous expenditure? Does it show any improvement?

The Industries Department supplementary grants are to be discussed. Telco Company's accounts from 1959 to 1960 show a decrease. Analysis of the accounts shows a decrease. Table shows the Public Accounts Committee Report. T. N. Venkata-Subbareddy has tabled the Appropriation Bill 1958.
