GOVERNMENT OF ANDHRA PRADESH

Abstract

SECONDARY EDUCATION—Student indiscipline and lawlessness—Measures for prevention—Instructions—I ssued.

EDUCATION DEPARTMENT

G.O, Ms. No. 1018. Dated 1st April, 1959.

Order:—
The mounting volume of indiscipline and indulgence in acts of lawlessness among high school students in the (9)
State has for some time been a matter of much concern to the Government. Ways and means of solving the problem have been under the consideration of the Government and they have decided that the following measures should be put into effect forthwith—

(1) In every secondary school in the state, an Association of Parents of the students shall be formed, which will work through a Committee consisting of members nominated by the District Educational Officer in consultation with the Revenue Divisional Officer in whose division the school is situated and the Headmaster or Headmistress of the school and in which the District Educational Officer, Revenue Divisional Officer and Headmaster or Headmistress will be ex-officio members. The Parents' Association shall maintain a close liaison with the school authorities and the Department through its committee. The Director of Public Instruction is requested to frame rules for the functioning of these associations.

(2) A model constitution shall be drawn up for Students' Unions, designed to promote healthy and constructive activities. Such Unions shall be organised in all High Schools. They shall provide more opportunities and occasions for games, sports and other extra-curricular activities.

(3) Transfers of teachers should be finalised before the closure of schools for the summer vacation and all concerned should be informed so that teachers may be able to take up their new posts right from the beginning of the next academic year. Headmasters and Headmistresses should be instructed to take up classes where vacancies continue to exist or depute teachers till substitutes join the posts.

The Director of Public Instruction is requested to take necessary steps for the implementation of the above instructions and to submit a compliance report to Government in due course.

2. The Director is also requested to issue a circular impressing on the Managements of all High Schools in the State that the Government will take a serious view of strikes and other exhibitions of indiscipline or lawlessness on the part of students and the Government grants to educational institutions will be cut down or stopped if indiscipline or lawlessness is continuously exhibited by the stu-
dents and that in more serious cases, institutions where lawlessness and indiscipline persist, will be closed down, or their recognition withdrawn by the Government. It may be made clear to them that the Government also discourage and discountenance the approaches by students either to the Department direct or to the Government or to political agencies, and that the students should be encouraged to represent their real grievances to the Head of the Institution or to the Committee of the Parents’ Association referred to in para 1 above.

A copy of the policy statement on the subject which the Government are releasing to the Press is enclosed.

(By Order and in the name of the Governor of Andhra Pradesh)

J. P. L. GWYNN,
Secretary to Government.

PRESS RELEASE

No. 3. Dated 4th April, 1959.

The Government of Andhra Pradesh have been viewing with much concern the mounting volume of indiscipline and indulgence in acts of lawlessness among students especially in High Schools. The public too would have noticed with dismay the growing indiscipline among students. The Government have carefully considered the whole question with a view to bringing about an improvement. They issue the following policy statement for the information of all concerned.

(a) The Government will take a serious view of strikes and other exhibitions of indiscipline or lawlessness on the part of students.

(b) Government grants to educational institutions will be cut down or stopped if indiscipline or lawlessness is continuously exhibited by the students and in more serious cases institutions where lawlessness and indiscipline persist, will be closed down by the Government or their recognition withdrawn.

(c) The Government will severely discourage and discountenance approaches by students either to the Department direct or to the Government or to political agencies.
(d) Students will, however, be encouraged to represent their real grievances to the head of the institution or to the Committees of the Parents’ Association, which are proposed to be formed in every secondary school in the State.

In this connection, the Government wish to appeal with all earnestness, to all political parties and the public not to permit students to approach them to ventilate their grievances but to advise them to represent their grievances to their Headmaster or to the Committee of the Parents. Association of their school. All political parties and the public should also encourage disciplined methods of seeking redress of all grievances and discourage the use of strikes, demonstration and other similar methods which students and school going children should not be allowed to adopt if they are to grow up into disciplined citizens. The Government are sure that the public, and social and political workers are as anxious as the Government to solve school and college problems in a proper way and that they will respond to this appeal fully.

The Government trust that wiser counsels will prevail among students themselves and they will conduct themselves with proper discipline and decorum and raise their standards of conduct so as to give no room for disciplinary action being taken by the Government.

Transfers of teachers should be finalised before the closure of schools for the summer vacation and all concerned should be informed so that teachers may be able to take up their new posts right from the beginning of the next academic year. Head-masters and Head-mistresses should be instructed to take up classes where vacancies continue to exist or depute teachers till substitutes join the posts.

Sri S. B. P. Pattabhi Ramarao: That rule is for general purposes. Of course, there will be instances where transfers have to be made in the middle of the year.
Transfer of teachers should be finalised before the closure of schools for the summer vacation. There is no alternative even for the Minister unless he wants to change the rule.

Sri S. B. P. Pattabhi Rama Rao :- I entirely agree with him so far as the word 'should' is concerned in the clause, but the point as to how it has been done in Jaggarayapat high school I cannot answer here unless he puts a separate question and I am sure he has put such a question which is going to be answered in course of time. As regards the point that transfer of teachers should be finalised before the closure of the school for the summer vacation, that is true, but under certain exceptional circumstances, even rough transfers are finalised, they may not happen. We can't help it, Sir, nature being what it is.

Political leader & approach prohibitory orders pass political leaders approach grievances last resort. Departments & last resort. Ministry do not come under political. That is an admitted thing.

Musi Project Area

721—

1360 Q. Sri B. Srirama Murthy [Put by Sri B. Nara-sinha Reddy] - Will the hon. Minister of Co-operation and Housing be pleased to state:

(a) whether the Government formulated a scheme for providing credit through village Co-operative, linking up with agricultural production in the Musi Project area,

(b) if so, what are the details of the scheme;

(c) whether any such scheme has been implemented in other areas; and

(d) if so, where?

Sri Mekdi Nawaz Jung: (a) and (b): A scheme for providing full productive finance for agriculturists in the Musi Project area as medium and long-term loans has been formulated. It has been proposed to provide finance in respect of 30,000 acres of land yet to be developed, over a period of 3 years. The funds will be provided through the Land Mortgage Banks at the rate of Rs. 25 lakhs for developing 10,000
acres every year. The proposals are under examination in consultation with the Reserve Bank of India.

Loans to Cultivators

723—

*1616 Q. Srimati T. Lakshminikantamma: [Put by Smt. Sita Kumari, Banswada] Will the hon. Minister for Co-operation and Housing be pleased to state:

(a) whether it is a fact that the Government of India has decided to experiment on an All-India basis with the provision of short-term and medium-term loans to cultivators on the basis of actual needs rather than in the terms of the share capital he may own in a primary society;

(b) whether the State Government is aware that the Government of India propose to try this experiment in 200 blocks all over the country; and
(c) if so, how many blocks in Andhra Pradesh would be included in the experiment?

*Sri Mehdi Nawaz Jung:* (a) & (b) Yes.

(c) It is proposed to implement the scheme in 10 villages in each of the 20 Samithi Blocks.

*Sri R. B. Ramakrishna Raju (Vadmalpet):* Will the Government consider the desirability of liberalising the provision of granting loans according to needs and not only according to share capital.

*Sri Mehdi Nawaz Jung:* I have no information on the subject.

*Sri Vavilala Gopalakrishnayya:.* May I have the details, Sir,

*Sri Mehdi Nawaz Jung:* The idea is that there must be a survey in every village regarding the production. To bring out the production that is required, there must be some arrangement for financing. The idea is that in every samiti funds should be raised by increasing the share capital and the Central Land Mortgage Banks should be able to finance if they are not able to finance. The financial position is being examined by the Government and the Department. This is the proposal that is accepted by the Government of India.
