There are some Harijans along with other caste people equally poor living in the District Board site at Rayapeta of Narasapur town since 1952, but they have not been requesting the District Board since then to give them the sites on payment of cost at Re. 1/- per sq. yard. The requests for the sites on payment of cost arose only after they were repeatedly demanded payment of ground rent with penalty in November, 1957, by the District Board.

(b) The District Board, West Godavary, has been requested to get a lay out prepared for the site and take suitable action to accommodate the Harijans and also others to be evicted by collecting a reasonable market value from them.

AGRICULTURE DEPARTMENT

[Enclosure to the Answer relating to Starred Question No. 46.]

Formula for Payment of Bonus (Extra Price) of Sugarcane

The amount to be paid (per maund or kilogram of sugarcane) under sub-clause (1) of clause 3-A by a producer of sugar to the seller of sugarcane shall be computed in accordance with the following formula, namely:

\[
\frac{X \times (P - T - C - S)}{100} = Y
\]

Explanation: — In this formula,

(1) ‘X’ is the percentage cost of sugarcane to the total cost of sugar excluding taxes as determined by the Central Government from time to time on the basis of the recovery and duration of season of the factory for the year;

(2) ‘P’ means the sum of the (per maund or kilogram) average ex-factory price of sugar realised by the producer adjusted to ISS Grade D-29 according to the price differentials fixed by the Central Government, and of the money realised by the producer from the sale of molasses and press-mud in relation to each maund or kilogram of sugar;

(3) ‘T’ means the amount paid in relation to each maund or kilogram of sugar on account of excise duty, cane cess, commission paid to co-operative societies, any sum paid to workmen as bonus or as a result of any award and any other tax, levy or cess, imposed on sugar or sugarcane by the Central or State Government or by any other authority and any sum spent on approved schemes of sugarcane development;
(1) 'C' means the actual cost incurred in relation to each maund or kilogram of sugar on the transport of sugarcane by the producer or in excess of the rebate allowed for the purpose by the Government in the minimum price of sugar cane purchase at centres other than factory gate.

(3) 'S' means the actual amount of commission paid in relation to each maund or kilogram of sugar: provided that no amount shall exceed seventy-five more paisa for every sum of hundred rupees of sugar sold: provided further that no commission shall be taken into account in respect of sugar sold directly by a producer of sugar or in pursuance of any order of the Central Government.

(7) 'M' means the weight in maunds or kilogram of sugarcane required to produce one maund or kilogram of sugar and such weight shall be calculated by dividing the total weight of the sugarcane purchased by the weight of sugar produced therefrom and for this purpose the weight of sugarcane purchased shall be the sum of the total weight of sugarcane crushed plus actual cgiage subject to a ceiling of 1 per cent on the weight of sugarcane purchased at centres other than the factory gate; and

(7) 'Y' means the total sum of the minimum price of sugarcane per maund or kilogram fixed by the Central Government under clause 3 (1) and the premium, if any, paid for any approved variety of sugarcane or under any scheme approved by the Central Government for payment of price for sugarcane on the basis of quality:

Provided that the rebate, if any, allowed in the minimum price aforesaid (excluding a rebate allowed on account of transport charges), shall be deducted from the total sum aforesaid.

By virtue of powers vested in the Central Government under clause x x x to fix the maximum price at which any sugar can be sold or delivered and different prices may be
fixed for different areas, factories or different types or grades of sugar, such prices or the maximum price shall be fixed with due regard to the price at the minimum or the minimum price fixed for sugar cane, manufacturing cost, taxes, reasonable margin of profit for producer and/or trade and any incidental charges where the price or the maximum price has been so fixed. No person shall sell or purchase or agree to sell or purchase any sugar at a price in excess of that fixed as above. The Government of India have issued an order under Section 3 of the Essential Commodities Act making a provision for payment of extra price over and above the minimum price fixed by the Government of India according to the price sinking formula. Please see order xxxxx of Government of India. The formula can now be enforced statutorily and the Central Government have stated that the calculation of the extra price in accordance with the formula would be the responsibility of the factories and the growers concerned. They have also stated that disputes, if any, between the parties would have to be investigated and settled by the State Governments as and when necessary as is now being done in the case of minimum prices. It may be stated in this connection that as the order was issued under S. 3 of the Essential Commodities Act 1955 any contravention of those provisions by any person shall be punishable under Section 7 of the said Act. Action can be taken against any defaulting factory for non-payment of extra price by any public servant as defined under Section 21 of the I. P. C. and Section 7 of the Essential Commodities Act for operation of Section 11 of the said Act as in the case of non-payment of cane price. First Class Magistrates are empowered under Section 12 of the said Act to impose fine exceeding Rs. 1000 on any person for contravening any order made under Section 3 of the said Act. The order now issued by the Government of India came into effect from 1958-59 season onwards. This is all the information I have, Sir.

Sri S. B. P. Pottabhi Rama Rao: Separate question may be put, Sir. I have placed all the information that is at my disposal.
