member that the first and second batches of Supplementary Estimates were presented in August and December respectively. The Supplementary Estimates presented then were solely for 'New Service' Schemes. (New Service means a service, expenditure of which is not contemplated in the Budget for the year and for which a Supplementary statement of expenditure should be presented to the Legislature).

The present batch of the Supplementary Estimates relates not only to 'New Service' schemes but also to excesses over grants voted by the Assembly. Details of the Estimates are given in the Explanatory Note, copies of which have been placed on the Table of the House.

These Supplementary Estimates fall under 38 different grants including two wholly ‘Charged’ items. The total of all the Supplementary grants relating to the Revenue Account is Rs. 20.46 lakhs under ‘Charged’ and Rs. 670.86 lakhs under ‘Voted’. The supplementary grant under Capital Account is Rs. 366.68 lakhs while that under Debt Heads amounts to Rs. 4130.76 lakhs under ‘Charged’ and Rs. 678.05 lakhs under ‘Voted’.

But the above items do not all represent net increase over the Budget appropriations. In the case of the expenditure on equipment provided for the Kurnool and Guntur Medical Colleges and the Gandhi Medical College, Hyderabad (item 2 under Demand XVIII Medical), the entire amount of Rs. 15.00 lakhs will be reimbursed by the Government of India. Similarly the sum of Rs. 13.20 lakhs provided for scholarships to the students belonging to Backward Classes (item 1 under Demand XXVI Welfare of Scheduled Tribes, Castes, etc) will be reimbursed by the Government of India.

In certain other cases, supplementary grants have been necessitated by a change in classification e.g. expenditure on Leprosy Central Scheme shown under ‘Demand XIX—Public Health’ has been transferred to ‘Demand XVIII—Medical’. Similarly, expenditure on operation and maintenance charges of the completed works relating to the Machkund Hydro Electric Joint Scheme originally provided for under ‘Demand XLV—
Capital Outlay on Electricity Schemes has been transferred to "Demand XXVIII Electricity." In such cases, there will be corresponding savings under the Demand under which provisions were originally made.

Under the system of 'gross budgeting', the vote of the Legislature has to be taken for the gross items. This has led to the exhibition of a large amount of Rs. 1.14 crores under 'Demand XLV Capital Outlay on Electricity Schemes' even though there is a credit of Rs. 1.13 crores resulting in the net increase of only Rs. 10 lakh.

In certain cases the amounts provided will be ultimately met from Funds such as Famine Relief Fund. Under Grant IX Irrigation the amount of Rs. 28 lakhs provided for carrying out repairs etc., to minor irrigation works with a view to provide labour for the unemployed, and the amount of Rs. 73.91 lakhs provided for restoring the irrigation sources damaged by natural calamities, viz., heavy floods or rains in 1959, will be met from the Famine Relief Fund.

In regard to Plan allocations certain new schemes under the Plan for which there is no budget provision have been introduced during the course of the year and in such cases token provisions of Rs. 100 are included in the Supplementary Estimates wherever the expenditure can be met by re-appropriation of funds within the grant. In other cases the actual amounts that are likely to be spent during the current year are provided.

As regards non-Plan items, instructions were issued as far back as January 1957 to all Heads of Departments to take steps to ensure that the provision is not exceeded under any of the heads under their control. The excesses mentioned above have occurred inspite of the efforts made by the Heads of Department to keep down the expenditure. In fact, these excesses are more or less of the nature of committed expenditure.
BUDGET FOR THE YEAR 1960-61
VOTING OF DEMANDS FOR GRANTS

DEMAND No. XXV - Other Miscellaneous Departments Rs. 1,22,50,900

Mr. Speaker: First, I think it is better that the Hon. Minister for Social Welfare replies. Then the Hon. Minister for Labour and Agriculture can reply.

The Minister for Social Welfare (Smt. Masoma Begum): Mr. Speaker Sir, at the outset I must say that there have been no cut motions tabled as such for the “Women’s Welfare” and I thank the hon. Members for not having done so.

Mr. Speaker: Probably, they did not know that you included the item in the ‘Other Miscellaneous Departments’.

Sri P. Sundarayya (Gannavarm): There is nothing to be cut, sir. There are only Rs. 2 or 3 lakhs provided under this item and that too is for staff and establishment. About Rs. 3000 or so are provided for scholarships and other things. So, what is there to be cut in that?

Smt. Masoma Begum: Several hon. members, sir, have objected to this Demand having been classified under the Miscellaneous Departments and the hon. Speaker also has agreed that “Women’s Welfare” should not have been included in this. This suggestion of yours, Sir, and that of the hon. members will be borne in mind when the demand for 1961-62 is moved.

One of the hon. members Sri Ramulu had mentioned that beggar home should really be a home for beggars. A beggar home as conceived by the Planning Commission for the present is merely intended for the disabled beggars and is therefore more or less a charitable institution with small scale industries like carpentry, leather works, hosiery, cane work, embroidery, navar making, weaving, etc. There are at present two beggar homes run by the Social Welfare Department—one for men and one for women—at Hyderabad and the strength is 100 in each. It is proposed to expand them by taking a few more inmates. The larger problem of eliminating begging which is a social problem is proposed to be tackled very rigourously after the beggar homes which the Corporations of Hyderabad and Secunderabad proposed to be
run with Government aid under the grants-in-aid schemes, begin to function.

An hon. lady member of the House, Sir, had referred to the Women's Welfare Department saying that the manner in which it has been classified in the budget is rather casual and it should be given greater importance. She wanted to have details at least for the future so that the hon. members might offer useful suggestions. The Government, Sir, are fully aware of the importance of this department and that is why it has become a permanent one.

The following are the non-agency plan schemes that are proposed to be taken up in 1960-61 at the cost shown against each. I shall read out the schemes, Sir:

1. In Andhra—continuance of service homes at Hyderabad and Anantapur costing about Rs. 2.90 lakhs.

2. Continuance of four vocational training centres. I had the occasion of visiting one of these vocational training centres where typewriting and secretariat work are being taught to the girls and it is being run in a very nice way. We are thinking of introducing more such centres in other areas also.

3. Then, provision of hostel facilities for the three vocational training centres at Cuddapah, Eluru and Anantapur—Rs. 0.200 lakhs.

4. Expansion of administration in Andhra—Rs. 0.500 lakhs.

5. Rehabilitation programme—Rs. 0.100 lakhs.

6. Improvement of existing women welfare branches—Rs. 0.200 lakhs.

7. Continuance of Arundhati Seva Sadanam, Allagudda in Kurnool district—Rs. 0.160 lakhs.

8. Continuance of service home at Kannapuram, newly opened this year—Rs. 0.430.

This is for the Andhra region. And now, for the Telangana:

1. Expansion of the administration—Rs. 0.870 lakhs.
2. Continuance of Women Welfare Branches and creches—Rs. 0.600 lakhs.

3. Opening of three vocational centres—Rs. 0.560 lakhs.

And the total expenditure will be, Sir, Rs. 6.870 lakhs. The estimate for running the Women Welfare Department is Rs. 4.474 lakhs. The activities of the department were extended to the Telangana area only in 1959-60, by appointing an Assistant Women Welfare Officer for each District and by opening seven welfare branches. All the schemes find a place in the several publications that were brought out by the Planning Department which were circulated to the hon. members.

In 1960-61, three new vocational training centres and two creches are proposed to be opened in Telangana area.

The hon. lady member also referred to the Children’s Protection Act and said that in spite of the Act, the living conditions of the several children have not improved. This is a colossal problem, sir, which is receiving due attention. The fact that there is a department to look after such cases in the twin cities is serving as a deterrent as the number of cases of illtreatment of children is really going down.

The hon. member has also suggested that provision of cycle rickshaws to Mukhyasevikas should be made. This is not covered by this demand. However, I may observe that it does not seem to be a practical suggestion as the cycle-rickshaws can be used only in the dry season in the country-side. She has also suggested that it would be advantageous if the two gram-sevikas working in a block, work in the same area jointly. This is also not covered by this demand. However, the suggestion does not seem to be again practicable as it may result in the waste of man-power. She also had referred to the Scheduled Tribes Finance Development Corporation but as this item also does not come under this Demand, I shall wait till the other Demand is moved.

Budget for the Year 1950-61  
21st March, 1960

Voting of Demands for Grants

The Hon. Mr. Speaker,  

I beg to move that the Estimates for the year 1950-61 be presented to the House. This is the first step in the process of presenting the annual budget for the next financial year. The estimates are based on the projections made in the last year's budget and are in line with the government's objectives of economic growth and social welfare. The Hon. Mr. Speaker, I would like to highlight some of the key areas in the estimates.

Firstly, the government has allocated funds for education, with a focus on improving literacy rates and providing quality education to all children. Secondly, there is a significant increase in the budget for healthcare, with the aim of enhancing public health infrastructure and providing better medical care to the people. Thirdly, the estimates include a substantial amount for rural development, with a focus on improving access to basic amenities and promoting agricultural productivity.

In conclusion, the estimates for 1950-61 reflect the government's commitment to achieving economic development and social welfare. I urge all members of the House to support these estimates and work towards fulfilling the aspirations of the people.

Shops and Establishment Act to integrate

The Shops and Establishment Act is designed to integrate the existing Shops and Establishment Act with the new integrated act. This will extend the provisions of the existing act and provide a more comprehensive Bill.

The main purpose of the Integrated Act is to provide a comprehensive and integrated framework for the regulation of shops and establishments. It will address the issue of overcrowding in residential areas and provide a more comprehensive and integrated approach to the regulation of shops and establishments.

The new integrated act will provide a more comprehensive and integrated approach to the regulation of shops and establishments, addressing the issue of overcrowding in residential areas and providing a more comprehensive framework for the regulation of shops and establishments.

Budget for the Year 1960-61
Voting of Demands for Grants

Sri. C. Veeraraghavulu: And here (Mrs. Menon, Attorney-General) you have introduced an item of non-official bill on "extend defect of Act 1960". This is an extension and amendment of Act 1960. The defects are to be rectified and the Act is to be extended. There have been amendments and amendments of Act 1960. We have a comprehensive bill to which I think the extension and amendment Act should be extended. Am I correct? 

Sri M. S. Dharmadri: Srijaya, Attorney-General, to what extent can this extension and amendment of Act 1960 be carried to the extent of the Act of 1960? New legislation to the extent of 35 or 36 sections is to be added. Am I correct? Can we extend and amend the Act in the manner it is to be extended and amended? 

Sri P. Satyanarayana in the Chair: And this Chair: integration of Act 1960 is disastrous. I think it is integration of Act 1960. 

Sri. T. V. Ramakrishna: And therefore, even in the Act of 1960, I think the purpose of publishing the integrated Act is to be extended. I think the integrated Act is extended. How far is it extended? 

Sri P. Satyanarayana: I think it is the integrated Act and the integrated Act should be extended. 

Sri M. Venkataramudu: Under the purpose of publishing the integrated Act, there is the purpose of publishing the integrated Act in the manner it is to be extended and amended. Shri...

Sri N. Peddanna: I beg to move:
To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled Tribes, Castes etc. by Rs. 100

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled Tribes, Castes etc. by Rs. 100

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled Tribes, Castes etc. by Rs. 100
To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled Tribes, Castes etc. by Rs. 100

(Mr. J.C. Reddy moved the reduction of the amount of Rs. 100 from the allotted amount of Rs. 3,15,97,200 for Welfare of Scheduled Tribes, Castes etc. by Rs. 100. The reduction was approved by the assembly.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of scheduled tribes, castes etc., by Rs. 100

(Mr. R. Venkateswarlu moved the reduction of the amount of Rs. 100 from the allotted amount of Rs. 3,15,97,200 for Welfare of scheduled tribes, castes etc., by Rs. 100. The reduction was approved by the assembly.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(Mr. P. Narayana Reddy moved the reduction of the amount of Rs. 100 from the allotted amount of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100. The reduction was approved by the assembly.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(Mr. T. Rama Rao moved the reduction of the amount of Rs. 100 from the allotted amount of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100. The reduction was approved by the assembly.)

Mr. Speaker: Motions moved.
Sri P. Rajagopal Naidu: Sir, I beg to move:

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For the failure of the Government for not providing sufficient funds to provide house sites for harijans.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For the failure of the Government in not providing adequate sum for the housing of backward communities.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For not giving grants regularly to the hostels in time.)

Mr. Speaker: Motions moved.

Sri S. Vemayya: Sir, I beg to move:

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For the failure of the Government for not providing sufficient funds to provide house sites for harijans.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For the failure of the Government in not providing adequate sum for the housing of backward communities.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For not giving grants regularly to the hostels in time.)

Mr. Speaker: Motion moved.

Sri S. Kasi Reddy: Sir, I beg to move:

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For the failure of the Government for not providing sufficient funds to provide house sites for harijans.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For the failure of the Government in not providing adequate sum for the housing of backward communities.)

To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

(For not giving grants regularly to the hostels in time.)
Mr. Speaker: Motions moved.

Sri B. Dharmabhiksham: Sir, I beg to move:
To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

Mr. Speaker: Motions moved.

Sri J. Ananda Rao: Sir, I beg to move:
To reduce the allotment of Rs. 3,15,97,200 for Welfare of Scheduled tribes, castes etc. by Rs. 100

Mr. Speaker: Motions moved.

Cut motions agreed to.
Irrigation

Irrigation potentialities, water potentialities have envisioned a maximum utilisation of various points of 26 million acre feet and 100 million acre feet. In 1960-61, the balance is 74 million acre feet. The irrigation demand is 140 million acre feet, of which 120 million are required for irrigation. The water potentialities are estimated at 26 million acre feet, of which 140 million are required for irrigation, leaving a balance of 74 million acre feet. The public co-operation targets are based on voluntary participation. The maximum utilisation of water potentialities is envisaged in the master plan for the efficient and systematic development of the rivers.
maximum utilisation

schemes to be carried out during the period 1960-61. This master plan was elaborated in 1960-61. The master plan envisages the maximum utilisation of the resources and the master plan was drawn up. The present scheme is an extension of the master plan. The first phase of the scheme is being carried out under the master plan. The second phase is being carried out under the master plan. The percentage of benefit is being studied. The first phase of the project is being carried out. The second phase is being carried out. The present scheme is an extension of the master plan. The percentage of benefit is being studied.
medium size schemes worth 15.25 lakhs have been completed. The medium size schemes estimated for 1960-61 are: K.C. Canal, Krishna barrage, medium size irrigation projects, and K.C. Canal, Krishna barrage, medium size spill over schemes. Projects are expected to be completed in 1961. New projects include 248.33 lakhs, foreign exchange 208.57 lakhs, and 200 lakhs of medium size spill over schemes. Projects provide maximum benefit and income. Income in foreign exchange is 175.827 lakhs.

Voting of Demands for Grants

Targeting critical study is important in irrigation potentialities and development planning. A serious mistake of development may have been made in latest figures, project-wise at least since 1959-60, and the figures are misleading. P. W. D. revised irrigation figures seem to be 15 mha, which is realistic. Again, based on a study by P. W. D. 649,350 mha was revised after 1959-60. 1960-61 saw a further revision to 5.8 mha as a result of latest figures, which is serious. Target above 650,000 mha, which was revised to 4,38,411 mha when the target was 1.55 mha. Balance 2.1 mha was found. Real cultivation - meaning review is required. Planning has been serious miscalculation. Revised figures of 1959-60 are 55-59 mha, which is too low. Latest figures, however, are underestimated. Real cultivation, hence a mere 143,710 mha was estimated. Again, following a study by P. W. D. and 122,791 mha, which is more realistic. Further, 126,560 mha was found to be close to 123,560 mha. Real cultivation is 55-59 mha, which is too low. Latest figures, however, are underestimated. Planning has been serious miscalculation. Revised figures of 1959-60 are 55-59 mha, which is too low. Latest figures, however, are underestimated. Planning has been serious miscalculation.

We should be very critical and at the same time we should be much appreciative of the service rendered.

 Corruption deserves promotions of different grades! We have to do something about it.

I. A. S. does not feel the difference in the way in which promotions are decided.

Developers and administrators should be appreciative of the work of development activities.

A similar difference should exist in the control of administration.

The ground value, account value, and other values should be appreciated.

In the control of ayacut irrigation, maximum benefit should be achieved. In order to develop the potentiality of the available water resources, the potentiality of the water resources should be localised. Localisation should be done with the help of modern irrigation techniques and scientific methods.

In the context of experimental work, the area to be selected should be free from problem and should be well designed. The area should be free from disease and should be suitable for the experimental work.

The area should be selected after a thorough survey. The area should be free from any kind of disease and should be suitable for the experimental work. The area should be selected after a thorough survey.

... experimental to its implementation. The need of the hour, therefore, is immediate and urgent action.

... the proposal of Dr. P. V. Rajam for a comprehensive drainage and irrigation scheme for the Godavari basin. The scheme, which covers an area of 30,000 square miles, is estimated to cost Rs. 100 crores. The scheme, which is expected to provide irrigation facilities for 50,000 acres, is also expected to increase the area under cultivation by 50 per cent.

... the estimates of the Ministry of Agriculture. The Ministry has estimated the cost of the scheme at Rs. 100 crores. The scheme, which is expected to provide irrigation facilities for 50,000 acres, is also expected to increase the area under cultivation by 50 per cent.

Project Dam carrying capacity and the overall framework of the project's carrying capacity. The existing project dam has a carrying capacity of 1960-61, which is insufficient for the project's requirements. The proposed dam will have a carrying capacity of 21,000 cubic meters, making it a significant improvement. The dam will have a spillway capacity of 1,000 cubic meters, which will be used for flood control and irrigation. The dam's construction is expected to be completed by 1964, and it will provide a significant boost to the local economy.

Regarding breaches, there have been several incidents in the past, including breaches of the dam's sluice gates and breaches of the project's tanks. Breaches of the sluice gates have been repaired with preventive measures, while breaches of the tanks have necessitated the development of new tanks. The preventive measures include the installation of new sluice gates and the construction of new tanks. These measures have been successful in preventing further breaches.

Overall, the project is expected to have a positive impact on the local economy and the environment. The development of the project will provide employment opportunities and improve the local infrastructure.

Voting of Demands for Grants

21st March, 1960 77

The budget is interlinked with the financial year 1960-61, which is relevant for the discussion.

Regarding the budget, there are several factors to consider. For instance, bonds and their management play a crucial role.

For instance, bonds issued by the government are one of the significant financial instruments.

P. W. D. M. considers the bond market and G. O. 4 as important factors in the budget analysis.

*Note: The budget is a comprehensive document that outlines the financial strategies and policies for the upcoming year.

It includes various sections, such as the introduction, which sets the stage for the budget year.

The following are the figures:

- 28
- 7
- 10
- 140
- 200
- 250
- 300

The figures are in rupees. The budget for the year ending March 31, 1960, is as follows:

- Revenue: Rs. 1,77,000,000
- Expenditure: Rs. 1,57,000,000

The budget has a surplus of Rs. 1,50,000.

The government plans to increase the budget by Rs. 10,000 for the next year.

The government has also decided to reduce the tax rates by 10% for the next fiscal year.
