[Text in Telugu]

The standard had been revised, and the new rates had been implemented from the beginning of the year. 1960-61 is a very significant year. The height, breadth, and depth of the demands have increased by leaps and bounds. In 1960-61, as compared to the previous year, there has been a substantial increase in the demands for various purposes. The National Council for Women has also been increased significantly. 'National Council for Women' is an important body that represents the interests of women. It is the apex body that deals with various issues affecting women. In 1960-61, the demands for the National Council for Women have been increased. The demands for separate subjects have also been increased. In 1960-61, the demands for stage have been significantly increased.

Technical Education is a stage to divert students towards technical education, which is an important aspect of modern education. The Southern Regional Technical Education Council approves technical education institutions. 3rd form to 8th standard technical courses are provided in technical education institutions. Technical courses are attended by students after their 10th standard exams. Technical institutions offer various courses such as Fitters, mechanics, etc., to cater to the needs of the industrial sector. The government is promoting technical education to ensure a skilled workforce for the future.

extra-curricular activities of students, emphasis on sports, and an annual competition for the best club which has brought laurels to the school. The principal asks the members to support the extra-curricular activities of students more actively. He mentions that the school has been successful in popularising the intervention in the south of the school. The teacher encourages students to participate in the intervention and to support the economically backward students. The school provides free education to economically backward students. The principal stresses the importance of merit. He mentions that the school is focusing on economically backward students.

Mr. Speaker: You want to keep up the standard of Hindi or Hindusthani here.

Sri S. B. P. Pattabhirama Rao: Yes, Sir. Now, I will speak for some time in English, Sir, so that Hon. Sri Fernandez may understand it. Hon. Mr. Fernandez has congratulated the Government for having given one-fifth of the State's revenue for Education. I am very grateful to him for that felicitation. He also wanted certain rights to be preserved for the Anglo-Indian children for their Education. Yes, sir, we shall certainly do our very best to preserve their rights. But there is one thing, sir. He said that the minority primary schools should not be touched simply because they are being manned by minorities and missionaries. The hon. Leader of the Opposition has very ably and correctly replied to that, sir, and I entirely agree with what the hon. Leader of the Opposition has said. We should not distinguish between one teacher and another whether he belongs to this community or that community, this religion or that religion. A bad teacher is a bad teacher wherever he be. A good teacher is a good teacher. A bad management is a bad management and a good management is always a good management whether it is managed by a Muslim Association or a Christian Association or Hindu Mahasabha. The point is this, sir. We do not want to encourage bad managements. We are not touching any school managed well. If the management is bad, whether it is under Christian Association or otherwise, it has got to be taken over by the authority which can run it better. But actually today, all the elementary schools are run by the Samithies and Municipalities and you know very well, Sir, that non-official organizations are bound to look after them very carefully and do well. We cannot distinguish between one association and another association. Surely, our policy is not to encourage any school run by bad management. What we do is: we do not want to say anything about it, except that we do not contribute a pie to such management. We do not want to spend the money of our people or ill-spend it by giving it to a school which is not run well. So the policy of this Government is not to encourage schools under bad management. So, Mr. Fernandez should not feel that these are run by Christians or Missions. It is a bad
argument. I think it does not convince any body and so I am sorry I cannot agree with that argument of his. And I am not prepared to appoint any ad-hoc committee in this connection, Sir. It is not necessary. Actually taking over of the schools is almost complete in every district in Andhra area, and if there are a few schools which are not handed over, they run a great risk. I cannot help it. The Government won't pay to bad schools and they have to run themselves and they won't be recognized either. Bad schools shall not exist, because by running bad schools we will be doing a great injustice to all the children in that locality for they get no attention and so we cannot encourage them, Sir. I say with all the emphasis at my command that we shall not be a party to this sort of management.

Special Schools & Schools close?

Special schools in 1960-61 insist that schools close. In 1960-61, some schools closed. This is pertinent point in discussing the fact that middle schools standards are not up to VI and VII standards. Middle schools have middle standards. To reduce the allotment of Rs. 15,40,16,000 for Education by Rs. 100.

Mr. Speaker: The question is:

To reduce the allotment of Rs. 15,40,16,000 for Education by Rs. 100

(Focussing attention and criticising the Government for their policy and orders relating to minority schools and need for amending Act XXVI of 1956)

The motion was negatived.

Highways

The Hon. Finance Minister moved and the Hon. Solicitor General seconded the following demand:

To raise a sum of Rs. 100 crores for the construction and maintenance of highways.

The Finance Minister stated that the demand was necessary due to the increasing traffic on the roads and the need for better infrastructure. He highlighted the importance of highways in connecting different parts of the country and facilitating trade and commerce.

The Solicitor General supported the demand, emphasizing the need for investment in infrastructure to support economic growth.

The House passed the demand unanimously.

Next, the question of voting for the demand was put to the House.

The vote was taken and the demand was approved by a large majority.

The Finance Minister thanked the House for the overwhelming support and assured the House of the government’s commitment to the development of highways.

The Solicitor General congratulated the Finance Minister on presenting a well-researched and comprehensive budget.

The meeting adjourned until 3 PM.

Public Works

The Minister for Public Works said:

Mr. President, the Public Works Department, which is the custodian of the Public Works, has since the year 1960-61 been working under the able and able leadership of the Minister for Public Works. The Department has been able to carry out its work efficiently and effectively.

The Department has been able to complete the following works:

1. The construction of a new hospital building in the city of Hyderabad.
2. The repair and maintenance of roads and bridges.
3. The construction of a new water treatment plant.
4. The construction of a new power station.
5. The repair and maintenance of irrigation canals.

Budget for the Year 1960-61
Voting of Demands for Grants

18th March, 1960

Chief Engineer, Mr. P. W. D. has submitted the following recommendations for the Chief Engineer's Vote:

1. The Chief Engineer recommends that the Vote for the Chief Engineer's Office be increased by Rs. 15,000. This is due to the increased work load and the need for more staff.

2. The Vote for the Chief Engineer's Research Grant should be increased by Rs. 10,000. This is to enable the Chief Engineer to undertake more research projects.

3. The Vote for the Chief Engineer's Travel Grants should be increased by Rs. 5,000. This will help the Chief Engineer to attend more conferences and seminars.

4. The Vote for the Chief Engineer's Equipment Grants should be increased by Rs. 2,500. This will enable the Chief Engineer to purchase more equipment.

5. The Vote for the Chief Engineer's Scholarship Grants should be increased by Rs. 1,250. This will enable the Chief Engineer to provide more scholarships.

These recommendations are based on the Chief Engineer's assessment of the needs of the department and the importance of these grants.

*Note: The details of the above recommendations are as follows:

1. Chief Engineer's Office: Rs. 15,000
2. Research Grant: Rs. 10,000
3. Travel Grants: Rs. 5,000
4. Equipment Grants: Rs. 2,500
5. Scholarship Grants: Rs. 1,250
