Mr. Speaker:—It is placed on the Table of the House.

PRIVILEGE MOTION re:

Refusal by the 2nd class Judicial Magistrate Sottenapalli to allow Sri Vavilala Gopalakrishniah to visit the Sub-Jail.
Privilege Motion re: Refusal by the 2nd class Judicial Magistrate Sattenapalli to allow Sri Vavilala Gopalar Krishnayya to visit the Sub-Jail.

Accordingly I was visiting the Sub-jail, Sattenapalli, since 1956, but today the 2nd class Judicial Magistrate who is the ex-officio Superintendent of the Sub-Jail, Sattenapalli, refused to allow me to visit the sub-jail stating that the M.L.As are ipso-facto not allowed to visit the sub-jails and we have no right to visit them as members of the Legislative Assembly.

As such the Judicial Magistrate of Sattenapalli has infringed my privilege and right in discharging my duties and I request you to do the needful and protect my right and privilege.

It is a bona fide mistake and does not come under privileges. But the matter will be enquired into by the Hon. Minister and proper instructions will be given to the Magistrate. Therefore, no privilege exists.

Alleged Speech of the hon. Chief
Minister at Mandal Congress Political
Conference at Bonakallu Village,
Khammam District against the Communists.

Mr. Speaker: Sri P. Sundarayya has given notice of
the following adjournment motion:

"That the House Stands adjourned to discuss a matter
of urgent public importance, viz, the Chief Minister of
Andhra Pradesh in his speech at Mandal Congress Political
Conference at Bonakallu Village, Khammam District, inci­
ted his audience to beat, kill and destroy Communists
wherever they are found, which means that the Chief
Minister was asking his audience to take law into their
own hands and telling men that killing of Communists was
legitimate and thus trying to bring a state of anarchy in
the country and to violate our Constitution. I am enclosing
a cutting of his speech—the portion, underlined/*

Discussing animal husbandry, the Minister said that in the past, the amount allocated for animal husbandry was not sufficient. In the new budget, 10 million rupees have been allocated for animal husbandry. This is an increase of 40% over the previous year. The increased allocation will help to improve the animal husbandry sector. In addition to this, the government has also allocated 12 million rupees for miscellaneous purposes.

In the past, the animal husbandry sector has faced challenges due to various factors. However, with the increased allocation and efforts to improve the sector, it is expected that the situation will improve. The government is also taking steps to encourage private sector involvement in animal husbandry.

In conclusion, the increased allocation for animal husbandry is a positive step towards improving the sector. With proper planning and execution, the government can achieve significant results in this area.

Primary stage in the treatment of diseases like smallpox is critical for effective management. The smallpox is a highly contagious disease that can be prevented through vaccination. The vaccination process during the primary stage is crucial to prevent the spread of the disease. The treatment involves isolation of the infected individual and administration of antiviral medications. The Draft Resolution emphasizes the importance of early detection and rapid response to control the spread of smallpox. The draft highlights the need for comprehensive public health measures and coordination among various stakeholders to ensure the safety and well-being of the population.

facts in it are not to be taken lightly. As far as the budget is concerned, the Indian Express Paper in its editorial says that the budget is a more or less routine affair. The paper goes on to say that the budget is a mere collection of facts.

15 The paper further says that facts are not to be taken lightly, and that the budget is merely a collection of facts.

Communist party Secretariat has also commented on the budget, saying that the budget is merely a collection of facts.

Industrial Development Corporation and Small Scale Industries

The budget for the year 1960-61 has considerably increased the excise duties on sugar distribution. The sugar duties on cane sugar, export, and sugar distribution have been raised. This will definitely bring down the supply of sugar and increase its price. The sugar distribution will be done through the Industrial Development Corporation and Small Scale Industries. The excise duties will be collected by the Industrial Finance Corporation and the industrial development corporation. The increase in the excise duties will also help in reducing the cost of sugar. General Discussion on the  
Budget for the year 1960-61.

Soavengers are keen to see any change in the way the Municipality is run. Systems and methods that have been in existence for a long time are now being replaced by modern methods. The Elementary Schools, also, are getting a more modern approach. Although it is true that the Municipal institution is the main body in the administration of the town, it is important to note that the Elementary Schools are also playing a vital role in the development of the community. The Municipal income from taxes is increasing, and there is a need to increase the tax on income from other sources.

The tax, sanitary conditions, and other expenses are being increased in order to meet the demands of the town. The loan float is being used to meet these expenses. Local boards and other loan measures are being taken to meet the demands of the town. Revised scales have been introduced in the town, and these are being followed. The total amount of loan required by the town is Rs. 20 instalments. The amounts are being met by the loan float, and the amounts are being met by the local boards. Iron, steel and other metals play an important role in the
economic development of any country. Iron and steel are
essential raw materials for the growth of industries. Iron,
steel and other metals are used in various sectors such as
construction, transportation, and machinery. The demand for
these metals is increasing day by day due to the rapid
industrialization and urbanization of the country.

Therefore, the government has taken several measures
to increase the supply of iron and steel. One of the
important measures is the establishment of new steel
plants. The government has been encouraging private
enterprises to set up steel plants in the country. These
plants will not only meet the domestic demand for iron
and steel but also export surplus production.

In addition to the establishment of new steel plants,
the government has also been promoting research and
development in the steel industry. The government has
provided financial assistance to steel companies for
research and development activities. This has led to the
development of new technologies and processes in the
steel industry.

The government has also been focusing on improving
the quality of iron and steel. The government has
established quality control laboratories to ensure that the
iron and steel produced in the country meet the
international standards.

Overall, the measures taken by the government have
been helping to increase the supply of iron and steel in the
country. This will help in the economic development of the
country and the growth of industries.

Inflation was one of the main issues during the discussion. The need for increased tax revenue was emphasized to meet the demands of the people. The central government set the tax rate at a certain percentage, but the people found it unbearable. The collection of tax was challenging due to the unpopularity of the tax. The government proposed new rules for land transfers, but the license holders were not in favor of it. The stamp fee was doubled to 100, which was met with resistance. The non-agricultural lands were also affected by these new rules.

General Discussion on the Budget for the year 1960-61

Mr. V. N. V. S. V. D. R. Raman

Regarding the Budget for the year 1960-61, I would like to make a few points. The Budget is well balanced and it provides for increased spending on various sectors. The Budget also includes measures to combat inflation. The government has announced a package of measures to control inflation. It is hoped that these measures will bring down inflation and stabilize the economy. The Budget has also allocated funds for development projects. The government has set a target to achieve a 5% growth rate in the economy. The Budget is expected to provide a fillip to the economic growth of the country.

I would like to draw your attention to the issue of land reforms. The government has announced a package of measures to promote land reforms. The objective is to provide land to the landless and to ensure fair and equitable distribution of land. The government has also announced measures to provide financial assistance to the farmers. The Budget has allocated funds for the implementation of these measures. It is hoped that these measures will help to reduce the burden of debt on the farmers.

I would also like to draw your attention to the issue of education. The government has announced a package of measures to improve the quality of education. The Budget has allocated funds for the construction of new schools and for the improvement of existing schools. The government has also announced measures to provide financial assistance to the students. It is hoped that these measures will help to improve the quality of education in the country.

In conclusion, I would like to congratulate the government on the Budget for the year 1960-61. The Budget is well balanced and it provides for increased spending on various sectors. The government has set a target to achieve a 5% growth rate in the economy. The Budget is expected to provide a fillip to the economic growth of the country.

Thank you.

contractors also desire to avoid the necessity of a continuing scheme for new beneficiaries in the existing scheme. To do this, it is necessary to change the law, by amending the Act, which provides for the conversion of old beneficiaries to new beneficiaries.

The Estate Abolition and Conversion Act, 1959, deals with the conversion of old beneficiaries to new beneficiaries. The Act provides for the conversion of old beneficiaries to new beneficiaries by amending the law. The Act also provides for the conversion of old beneficiaries to new beneficiaries by amending the law.
