The
Andhra Pradesh Legislative Assembly Debates

OFFICIAL REPORT

Fifty-Ninth day of the Fourth Session of the
Andhra Pradesh Legislative Assembly.

ANDHRA PRADESH LEGISLATIVE ASSEMBLY

Monday, the 29th March, 1965

The House met at Half past Eight of the Clock.

[Mr. Speaker in the Chair]

Oral Answers to Questions

PAY COMMITTEE REPORT

1695—

* Q. 3: Sri. B. Srivama Murthy (Vijayanagaram):—Will the Hon. the Chief Minister be pleased to state:

(a) whether the Part II of the Pay Committee Report relating to the Service Conditions and rules etc. of all employees including teachers under all managements, has been finalised and published;

(b) if not, at what stage the matter stands; and

(c) if finalised, whether a copy of the same be placed on the Table of the House?

The Chief Minister (Sri K Brahmaandna Reddy):—

(a) Part II of the Pay Committee Report has been finalised and published, but it deals only with the recommendations regarding the pay scales of the employees of Local
Bodies, the minimum of whose scales of Pay is Rs. 250 or less.

There are no recommendations, however, with regard to the service conditions and rules of all employees. Presumably, the Pay Committee could not devote its time to this aspect.

(b) As the Pay Committee is now defunct, no further action is possible in the matter.

(c) This does not arise in view of the answer to (b) above.

Sri K. Brahmamanda Reddy:— Here I have said there are no recommendations with regard to service conditions and rules of all the employees. It is not possible.

Sri V. (Mr. Reddy):— It is true that there is no recommendation with regard to all the employees, but the recommendation regarding the employees of one-body is Rs. 250 or less. In this case, it is not possible. It is for the discretion of the Government to take a decision. It is for the discretion of the Government to take a decision.

Q. 10. Mr. Parvath Reddy:—The Minister for Finance had stated on the Floor of the House during the meeting of the last Budget that he would reconstitute the Board of Directors. Will the hon. Minister for Finance state why the Board of Directors has not been reconstituted?

Q. 10. Mr. Parvath Reddy:—Can a company whose share capital has been reduced from Rs. 10,00,000 to Rs. 5,00,000 by amending the memorandum of association, and whose Directors are holding office under the provisions of the erstwhile Companies Act, 1956, be allowed to mobilise short term funds without the sanction of the Board of Directors?

Q. 10. Mr. Parvath Reddy:—Will the hon. Minister for Finance be pleased to state:

(a) the reasons for not starting the construction of a Castor Oil Mill in Deverakonda Taluq, Nalgonda District in spite of the fact that the hon. Minister had stated on the Floor of the House during the meeting of the last Budget.
Session that the Government had accepted the proposal for the establishment of the same;

(b) whether estimates for the said mill have been prepared;

(c) if so, the estimated amount of expenditure therefor and

(d) whether the work of the said mill be taken up during 1963-'64?

Dr. M. Chenna Reddy:—The scheme prepared could not be implemented as the Government of India have not yet provided additional funds for the schemes proposed for developing chronic drought affected areas.

(b) Yes, Sir.

(c) About Rs. 27 lakhs.

(d) No, Sir.
29th March, 1965

Oral Answers to Question

Chief Minister—AGGUJU, Chandra Mohan Prasad, responded to the question on export of castor oil from the mills. Castor oil mills are significant for the state. Chronic drought affected areas have a high priority. Castor oil mills can adjust to the demand of the markets influenced by drought affected areas. The Government, however, is facing difficulties in adjusting the mills. The House discussed the importance of 25 crores programme of drought affected areas. Large scale industries need to be remunerative. A non-remunerative lucrative industry is not viable. The government is looking forward to Big Industries. The Third Session 1968 has been adjourned.

Senate including nominations from these categories by the Chancellor should be deleted.

The conference recommended that in the Sri Venkateswara University Act, provision for nomination by the Chancellor of seven members to represent languages and by Vice-Chancellor of six persons from teachers of the University should be deleted.

Sri P. Sundarayya expressed the view that representation to Municipalities and Panchayats should not be deleted but they should be one unit for each University area and the representatives should be elected by proportional representation. Sri Sundarayya suggested that the election from Senate and Academic Council to the Syndicate also should be by proportional representation.

(ii) Appointment of Vice-Chancellors:— The conference recommended that the appointment of Vice-Chancellors should be made by the Chancellor for a term of five years and that no person should be continued as Vice-Chancellor for more than two terms.

Sri Sundarayya suggested that the tenure of office of the Vice-Chancellor should be of three years and that Vice-Chancellor can continue for 2 or three terms. Dr. D.S. Reddi was also of the same opinion.

(iii) The conference also recommended that a Business Advisory Committee should be set up for each Senate to draw up programme of Senate meetings.

Sri Sundarayya did not agreed to the proposal to constitute a Business Advisory Committee.

(iv) Post-Graduate Centres:— The conference recommended that some Post-graduate centres should be started outside University campuses and that they should fulfil the criteria laid down by the Universities.

(v) Shift system to increase facilities for Science Courses and Admission to Evening Colleges:— The confe-
The conference recommended that full use should be made of the existing accommodation, laboratory and teaching facilities in the existing colleges and enrolment should be increased wherever there is demand by staging working hours if necessary. The existing rule of admission to evening colleges should be liberalised to enable all eligible students seeking admission to secure admission.

(vi) **Telugu as Medium of Instruction:**— (a) The conference is of the view that the All India policy with regard to the method of recruitment to the All India Services should be ascertained. In order to ensure adequate representation to candidates from States who switch over to adoption of regional languages as medium of instruction, for collegiate education either (1) there should be reservation of quota in the All India Service on population basis and (2) use of regional languages for answer papers in All India Competitive Examinations should be permitted.

(b) The conference recommended that preparatory steps should be taken towards introduction of regional languages as medium of instruction such as (1) production of standard books for use at collegiate level, (2) Publication of journals in regional languages covering subjects in all fields of knowledge, (3) extension lectures in regional languages and (4) training of teachers in the use of regional languages as medium of instruction.

(c) The conference recommended that teaching of English and Hindi at the school and college level should be strengthened to enable students to carry on advanced studies in science and technology in English and Hindi.

(vii) The conference recommended that in order to attract better type of science teachers incentives should be provided like higher rate of stipends during training and better scales of pay for first or second class science graduates as science teachers.
(viii) The conference recommended that the Universities should provide liberal provisions for migration of students from one University to another during the middle of the course.

(ix) The conference recommended that degrees and diplomas awarded by a University within the State should be recognised as equivalent degrees and diplomas by other Universities within the State.

(x) Common Rules of Admission to Professional Colleges Including Common Entrance Examination:— The conference generally agreed that for admission to professional colleges, entrance examination should be conducted by a Joint Board consisting of the representatives of the four Universities and the concerned heads of departments. The details will be worked out by this Board. This should be tried on an experimental basis for a period of two years.

(xi) The Vice-Chancellors agreed that to ascertain the correct position about the complaints of over liberal marking 100 scripts from each of the four Universities (50 physical sciences and 50 Biological sciences) of top students may be sent for revaluation to some examiners outside the State. The Director of Public Instruction may take suitable action in consultation with the Universities and to submit his findings to Government and the Universities.

(xii) Uniformity in the matter of Syllabus for Matriculation, P. U. C. and the Three-Year Degree Course and future set up of Secondary Education:— The conference recommended that the pattern of education up to first degree in the State should be elementary education of seven years, secondary education of three years, Higher Secondary education of two years and degree course of three years. The terminal stages should be at the end of VII, X, and XII Classes. The standard of a pass in X class must be more or less equivalent to a pass in (the present XI class. The standard of a Pass in) XII Class must be more or less equivalent to the standard of old Intermediate. There should be a public exa-
mination at the end of Class X. At the end of Class XI, there should be a common examination conducted by a committee consisting of representatives of the University and Education Department. The XI and XII classes, which constitute the Higher Secondary stage, may be conducted either in evening or in a morning pattern.

(xiii) The conference recommended that it should be made possible for children to branch out to technical schools and vocational or semi-vocational schools and also to attempt to educate themselves for higher education (general or technical) through evening courses or part-time courses. For this purpose, provision should be made for evening and part-time courses in all types of schools up to the end of Secondary Education stage.

xiv) Syllabus—The conference agreed that the syllabus of secondary education must include the following languages as at present and the following other subjects:

Mathematics ( inclusive of Algebra, Geometry, etc.)
Science (Physical and Biological)
Social Studies.

(7) Workshops must be attached to each high school with provision for woodworking, emiwy, wiring, home science, laundry, etc.

(3) Syllabus for Social Studies should be re-examined by an expert committee to strengthen the teaching in history and geography.

(4) In the curriculum for XI and XII classes, the following should be included:

(i) Compulsory—English and regional language or mother tongue.

(ii) Optional subjects—Any three subjects under sciences or humanities.
(5) The syllabus of the multipurpose schools must be fitted into the proposed pattern by providing for Engineering, Agriculture or Commercial practice groups in place of optional subjects.

(6) The recommendations of the UNESCO commission should be kept in view in framing the syllabus for Mathematics and Science.

(7) The Higher Elementary Grade Training Course should be abolished.

(8) The Headmaster of a school with provision up to VII class should be a trained graduate.

(xv) The conference recommended that the Universities and Education Department should discuss between themselves and decide upon uniform workload and qualifications for teaching staff working in University, Government and other affiliated colleges.

The conference further recommended that the workload and qualifications and scales of pay for the teaching staff for Class XI and Class XII or Secondary Education should be the same as in the P. U. C. as at present.

(xvi) The conference agreed that an expert committee to be appointed by the Government should evolve further details in respect of Secondary Education in the light of the recommendations of the conference regarding the set up and syllabus, etc.

(xvii) University Act:— The conference recommended that immediate steps should be taken by Government to amend the University Acts in the light of the recommendations made by the conference.

(xviii) The conference recommended that recommendations for holding of an entrance examination for admission to professional colleges should be implemented for admission to the academic year 1965-66.

Oral Answers to Questions 29th March, 1965

(a) the probable number of teachers to be retrenched due to the implementation of the integrated syllabus;

(b) how they are going to be absorbed; and

(c) whether the expenditure being incurred on Secondary Education will be reduced as a result of the introduction of the integrated syllabus; if so how much?

Sri K. Brahmananda Reddy:—(a) The integrated syllabus had been introduced in the 6th class during 1964-65. There is no retrenchment of teachers at present. However in the VIII Class during 1966-67 there will be slight retrenchment which would be adjusted against the then existing vacancies.

(b) Has been answered in (a) above.

(c) There is going to be a slight increase in expenditure. It is difficult to calculate the amount at this stage.

Sri K. Brahmananda Reddy:—The Eighth Class will become a high school course during 1966-67. The school assistants of B.A., B.Ed. qualification will have to handle 8th class which was formerly handled by secondary grade teachers as 8th class was a part of middle-class form, i.e., high school 8th standard.

Mr. Speaker:—Answers to all other questions will be placed in the table of the House.

S.N. 4283-U. Q.—Sri Kirti Chandrasekhar:—Will the Hon. Minister for Health and Medical be pleased to state:

(a) what are the latest Birth Control Devices that have been invented for choice contraception;

(b) to what extent are they reliable; and

(c) what are the steps taken by the Government of Andhra Pradesh to introduce them in our State?

Sri Y. Sivarama Prasad.—(a) The latest Birth Control devices that are being extensively used in the advanced countries are Intra Uterine Devices and Oral contraceptives (Ethinyl) (Hormones), progestational preparations.

(b) The reported failure rate of Intra Uterine Device is only 1 to 1%. The Oral contraceptives are expensive and their side effects are many. Hence, it requires medical supervision. I is 100% effective, if the person who uses the tablets regularly, is able to tolerate it. The long term effects are still under study.

(c) A pilot study is being conducted by the Indian Council of Medical Research in the Government Maternity Hospital by the Superintendent. The Intra Uterine devices have not yet been made available in the Andhra Pradesh State on a large scale, for use in the Maternity Hospitals at present. Instructions are awaited in this regard from Govt. of India.

Mr. Speaker: Hon. Member Sri Sarma wanted to present a petition.

(Sri T. K. R. Sarma rose to speak)

Mr. Speaker: There is no question of making a statement. Hon. Member may hand over the statement to the Secretary. I will refer it to the Petitions Committee.

[Sri T. K. R. Sarma then handed a petition to the Secretary]

Mr. Speaker:—The hon. Member may send a copy of the Press report and I will also get a copy the Assembly proceedings and verify whether it is properly reported or not.
necessary I shall verify from the tape record. If they are not properly reported, I will take necessary action.

Mr. Speaker:—Whenever notices under Rule 74 are given, the very same day in the evening the office sends the notices to me and I pass orders one way or the other; either I disallow it or admit it and the Members are informed of the result of the Speaker's orders. If the hon. Member has given notice on the 18th, I do not know why the office has not given intimation to you.

Mr. Speaker:—I fix up a particular day and ask the office to include it on the agenda on that day and inform the Minister as well as the concerned Members. If it has been admitted, definitely it will come up before 31st, you can take it from me.

Sri Ramachandra Rao Deshpande:—(Narayankhed) Sir, I have given notice of two matters under Rule 74; one was regarding Andhra Pradesh Paddy and rice Declaration and Requisitioning of Stocks Order, 1964 and the other relates to Andhra Pradesh Coarse Grains Export Control Order of 1965; of these, one under the Coarse Grains Export Control Order was allowed while the other one was disallowed on the ground that it was a similar matter. On this, I have submitted to you, Sir, that it was also an important matter and therefore I should be given an opportunity to speak on that also, and you were pleased to say that I may speak on that also. I would like to know, Sir, whether I would be permitted to speak on that also because that is also an important matter, and the two are different matters.

Mr. Speaker:—I have already said that the hon. Member can speak; he can certainly speak, and there is no need for him again to ask for my permission.

re: Prohibition of Transport of Coarse Grains and outside the border area of the State

Sri Ramachandra Rao Deshpande:— Sir, I have given notices of two important matters. One is the Andhra Pradesh Coarse Grains (Exhibition) Order, 1965 and the other is the Andhra Pradesh Paddy and Rice (Requisitioning of Stocks) Order, 1964.

I will first confine myself to the Andhra Pradesh Coarse Grains (Exhibition) Order, 1965. Under this Order there is a prohibition for the export of coarse grains within a prescribed area. Those commodities are Jowar, Jawar, Soja and Ganta, Korra, Rag', Moza, Anika, Chana and Vanga. Under Clause 3, "no person shall export or attempt to export or abet the export of coarse grains except under an in accordance with a permit issued by the Central Government or the State Government." It is also stated that restrictions are also imposed upon the transport of coarse grains to an area out of the border areas. And funny enough, 'border area' is defined as 'the area inside the state of Andhra Pradesh falling within a five-mile belt all along the border of that State adjoining the States of Madras, Mysore, Maharashtra, Madhya Pradesh and Orissa'. So, the result of this
Calling attention to matters of public importance: prohibition of the transport of coarse grains in and outside the border area of the State.

29th March, 1965

Order has been that even within the State of Andhra Pradesh, not even a genuine cultivator can get the grains harvested from his fields to his own house; and when usually people are short of grains — there is the custom, they get grains from some of their friends or relatives, and after the harvest they return it back. Even that is not possible except under a permit. Naturally, as a result of these restrictions imposed under this Order, it is becoming difficult for the producers to get their produce from the fields to their houses or rather exchange their own grains with those of friends or even take from one village to another even within the State of Andhra Pradesh. This is creating great harassment and the Enforcement Officers in charge of enforcement and experts of these commodities are implementing these Orders and the harassment is only leading to corruption.

Then, Sir, the Andhra Pradesh Paddy and Rice (Declaration and Requisitioning of Stocks) Order, 1964, is another important Order. It is very pertinent to note here, that this Control Order requires that every person who is in possession of 40 quintals of paddy or 25 quintals or more of rice should make a declaration of his stocks to the Government. And pursuant to the declaration of the stocks made by the declarant, the Government has taken power to requisition the declared stocks from the declarant and require the declarant to convert the paddy into rice. But the Order is silent in two aspects. It is not clear as to what quantity of paddy or rice will be left to the declarant.

Sri A. Balaram Reddi:— Sir, he has given notice only in respect of coarse grain.

Sri Ramchandra Rao Deshpande:— It is correct. Only a few minutes back, I have made a request to the Hon'ble Speaker and he was good enough to say that I can also speak on the two matters.
Calling attention to matters of urgent Public Importance re: prohibition of the transport of coarse grains in and outside the border area of the State.

Sri A. Balarami Reddi:— He can speak, I have no objection. But I cannot off-hand give a suitable reply to the points the hon. Member is raising here.

Sri Ramachandra Rao Deshpande:— Sir, it is not as though these points are made off-hand. During the debate on Food and Agriculture, this matter was particularly raised on the floor of this House and the Hon. Minister was good enough to answer certain points, and in that same connection these two matters are now raised under Rule 74 and the Hon'ble Speaker was good enough to allow me to speak on this also. And I would like the Hon. Minister to give his observation on all these points, because they are important and the people are put to great harassment.

So, under these orders, what is happening is, even indiscriminate orders of requisitioning are being given by the enforcement officers with the result that the producer is not left the necessary quantities of paddy or rice even for his personal consumption or for his agricultural requirements, grains necessary for the cultivation charges like weeding etc. It is well known that in the rural areas, generally the people do not pay in money, but pay in kind; and even for that, no margin is left whatsoever.

Sir, there are certain other things in this Requisitioning Order. I may just bring to the notice of the Hon. Minister one or two things. The rate is not specified in the Requisitioning Order. They only say that the grains will be purchased at the controlled rates. But the fact is, the rates are not paid as they are specified and also because there is 20 per cent deduction saying that after the confirmation from the State Analyst that 20 per cent will be made good. But, I do not understand why it should be sent to the State Analyst, because there are not cases lacking where stocks were taken to the Sanathnagar godown and rejected on the ground that the Analyst rejected it
Calling attention to matters of urgent Public Importance

re: prohibition of the transport of coarse grains within and outside the border area of the State.

and the grain is not up to the mark. Naturally, the question arises as to who should bear the transport charges. One other important aspect is that it is required under the Order that new gunny bags should be purchased, the commodity filled in, etc. Sir, it is not possible for ordinary cultivators to do all this; it is only possible for the businessman and we cannot accept that every declarant should be a businessman, and it is not practicable also. The only thing that is mentioned in the Requisitioning Order is that they should deliver the particular commodity to a farthest point, but there is no mention regarding the payment of transport charges. Because of these things, a lot of harassment and a lot of inconvenience are being caused, with the result there is scope for corruption and this should be checked immediately. What I personally feel is that there should be a margin of 50 to 60 percent left for the personal consumption of the producer and for his other agricultural needs and only the balance should be requisitioned. I would therefore request that suitable amendments may be made in the Andhra Pradesh Coarse Grains (Export Control) order, 1965 as also the Andhra Pradesh Paddy and Rice (Declaration and Requisitioning of Stocks) Order, 1964.

Sri A. Balarani Reddy: Sir, we have promulgated this order on 1-1-1965. It is a fact that there is restriction on movement from our State to any place outside the State on the following commodities, viz: Cholam, Cambu, Korra, Ragi, Maize, Arike, Varige, Chama. But, as the hon. Member has pointed out, there is no restriction for movement of coarse grain within the same village. The agriculturist can freely bring his produce from his field to his house, and he is also at liberty to take the grain from his residence to any traditional market. There is no restriction on the agriculturist, in the first place to bring the grain from the field to his house and from his house to the usual market. But, if he wants to transport it from his village to another village for either sale

or anything, then he will have to obtain permission. That is the restriction, and I hope it will not cause any hardship to the agriculturist. But the hon. Member has pointed certain other difficulties with regard to Rice Control Order. I do not think that all the particulars are now with me and I will look into all these things.

**Sri Ramachandra Rao Deshpande**: On a point of clarification, Sir. The hon. Minister was pleased to say that there is no restriction for bringing the coarse grain from the field to the house or the market. I would like to draw the attention of the hon. Minister to Clause 4 read with Clause 2 (a) of that order, wherein it has been stated like this:

"(4) No person shall transport, attempt to transport or assist the transport of coarse grain—(a) to any place in the border area from any other place in that area;.. .." And 'border area' is defined in Clause 2 (a) as the area inside the State of Andhra Pradesh falling within a five-mile belt along the border of the State adjoining the State of Madras, Mysore, Maharashtra, Madhya Pradesh and Orissa. So what does this mean? If it is more than five miles, the agriculturist cannot take the produce from the field to the house or even to the market.

**Sri A. Balaram Reddy**: In the same Order, it is stated that there are no restrictions with regard to transport or movement of coarse grains in the following cases:

(a) within the same town or village in the border area; or falling with the five-mile belt along the border of the State adjoining the other States;

(b) from a village in the border area to the nearest grain market (mandi) in the State, whether such market is within or outside the border area.

So there are no restrictions.
Temporary Chairman: I request the hon. Chief Minister Sri K. Brahmananda Reddy to lay papers on the Table of the House.

PAPER TO BE LAID ON THE TABLE

Annual Report of the Praga Tools Ltd, for the year 1963-64 together with the Audit Report.

Sri A. Balarama Reddi:-(Minister for Agriculture):-Sir, on behalf of the Chief Minister, I beg to lay on the Table under Section 619 (4) (?I) of the Companies Act...

Sri Ramachandra Rao Deshpande.—Point of order, Sir.

Sri A. Balarama Reddi:—1956, a copy of the Annual Report of the Praga Tools Ltd...

Sri Ramachandra Rao Deshpande.—Point of Order, Mr. Speaker.

Because the Chief Minister is there in the House, I cannot understand as to why things should be allowed to be laid on behalf of the Chief Minister.

Sri K. Brahmananda Reddy.—After the Minister for Agriculture began reading out, I came in. Naturally he will have to continue. After all, it is just laying a paper on the Table of the House.

Sri Rama Chandra Rao Deshpande.—Whatever it is, when the Chief Minister is in the House, it is for him to present it.

When he comes, the Agriculture Minister ceases; so he must present. Sir, let the Chief Minister present it.
Temporary Chairman.—I request the Chief Minister to lay the paper.

I command this idea of road-cum-rail bridge and I wish to see that in future whenever we plan a rail bridge, a roadway must also be included in it to meet the needs of the local people. A small fee by way of toll should be levied if necessary on the vehicles using the bridge, to meet the cost of construction.

I extend my best wishes for the success of the new railway line and look forward to the day when it is completed and operational.

The foundation has to face certain difficulties in spite of the difficulties we will proceed to the bridge in progress. The foundation has not insurmountable difficulties. Despite of the mention it is certain that the foundation is working. The foundation has given up in progress. The foundation has not insurmountable difficulties. It is not possible to give up in progress. The foundation has not given up in progress. The foundation has not given up in progress.

Voting of Demands for Grants

Sri C. Mudhavi Reddy (Boath)— Madam Chairman.
While supporting the demand moved by the hon. Chief Minister, I congratulate him for the general feeling of appreciation of the people for the stand he has taken with regard to the official language controversy and other connected matters. I am happy that hon. Sri leenueti Viswanadam has also mentioned about it. He has undoubtedly earned the admiration and support of all sections of the people for his courageous and forceful pleading with the Central Government for the removal of regional imbalance in the economic development.

Yet, we all know for a long time our State has been the victim of this regional imbalance and every one of us had been feeling that Centre is not being fair to us in the matter of various allocations. In the past, we did bring to the notice of the Central Government, but we got no results. It is a matter of great joy to us that in recent times under the able guidance of the hon. Chief Minister, a very serious and concentrated effort has been made to convince the leaders of the Central Government to set right this regional imbalance and the House is aware of the regular and consistent work being done by our officers day in and day out and by our hon. Ministers to attract the attention of the Central Government on the problems affecting our State and the injustice being done to us in various fields. It is gratifying to note that the Prime Minister and other leaders of the Central Government are now convinced and we can hope that in future we will get justice. I can say that we are now entering into a new phase and the Central and Stase relations are better; better days are going to come to us.

Before I go to certain points which hon. Sri Viswanadamji has mentioned just now, I would like to say something about the services. The important suggestion made by our hon. Chief Minister in the Chief Ministers' Conference and he had been making this suggestion very forcefully these days and it is gaining lot of strength — and that is about
the equitable share in the recruitment to all India service. This matter, Sir, was engaging the attention of our Government for some time and for a long time we had been feeling that our State is not getting a fair deal. While the intellectual calibre of our young men all over the country is almost the same, it is surprising that the results from our State and some other States had been hopelessly poor and our state candidates coming from certain States had been getting favourable results. Now, Sir, in this connection the suggestion that we should get an equitable share in this recruitment is now being accepted by every thinking person in this country and the Central leaders are also thinking very deeply about it. The Prime Minister, while making a statement after the Chief Ministers Conference on the floor of the Lok Sabha, has clearly said, Sir, to be precise I would like to quote his statement:—

A study will be made in cooperation with the Union Public Service Commission on all aspects relating to ensuring an equitable share to all States in the All-India Services and decision will be taken afterwards.” even though he has not indicated what type of study would be undertaken and what is the agency to take up this study, but we expect that something would be done in future because this is more important in view of the expansion of the field of All-India Services. Sir, only the other day our Chief Minister was making a statement on the floor of the House while replying to the debate on the demand for Education, that the Centre is going to have now All India Services in various other fields; we are going to have an All India education service, All India Forest Service, All India Engineering Service and Medical Service and so on. If this happens naturally the present imbalance or the present inequality in services from various States would increase; unless we have some sort of a basis and principle on the basis of population and unless on the needs of the State some equitable distri-
tion is made, I am afraid the situation will become worse and we would be having a large number of All India Service personnel in the State who will be from outside the State. The figures about the recruitment to all India services during the last decade and since 1949 when the Service was instituted will indicate a very alarming situation. During a period of 8 years from 1956 to 1963, about 704 people have been recruited for I.A.S. and I.F.S.; out of that from our State only 25 people have been taken from our State and prior to 1956, that is since the inception of the service in 1949 to 1956 only 5 candidates have been taken from Andhra Pradesh. The year-wise figures of all States and some of our neighbouring states are quite revealing.

Now, Sir, if you study these figures a very interesting revelation will come out. This inequality in the recruitment of services seems to be closely corresponding to the inequalities in the per capita incomes of the States. I will not dwell much on this point but I would like to say something about
the suggestion which was discussed in the Official Language Commission Report also because I feel that the same arguments would be raised now against this suggestion. Now we have got to make a very deep study of this subject and prepare a very strong report in favour of this suggestion because it is likely that this suggestion in course of time may be opposed or it may die down. The Official Language Commission Report while dealing with this subject in 1956 said that the quota system which it was then called - would break the character of all-India services and would lead to fragmentation of all-India competition and determent of the quality recruits and that the chief consideration should be the quality and the merit and not the appropriate share in the volume of employment. This view was endorsed by the Committee of Parliament which discussed this report on the Official Language Commission and there also - even though some of the members - veterans like Purneshthamdas Trivedi and late Dr. Raghuvira all supported it very strongly, ultimately it was dropped. So the same arguments are likely to be raised because I have seen one or two statements; the I.A.S. Association is likely to take this view and they are also telling that it is against the provisions of Article 16 of the Constitution. Article 16 of the Constitution lays down that every citizen in the country should have equal opportunities of employment and appointment. We have got to study all these points and prepare a very strong report and submit to the authorities in Delhi whoever is dealing with the subject; if it is examined in the Union Public Service Commission, then it should be submitted to the U.P.S.C. or if it is going to be examined by another conference of Chief Ministers it should be thoroughly discussed there.

Another matter about the all-India Services is - we have been opposing the extension of all-India services; but
in spite of our opposition Government of India seems to be going ahead with the formation of new all - India services. Recently, madam, Chief Minister had told us that the Andhra Pradesh had opposed the formation of all - India Educational Service while making a statement on the floor of the L k Sabha, Sri Chagla said that except Madras and Punjab all the States accepted; that is because we have supported this conditionally. We said that if we get our share we have no objection. Now in this connection I submit that there is no question of any conditional support to any sort of extension of all - India Service because if we say conditional support, then they would take it as our full support. While the decision on the question of equitable share may take 3 or 4 years or it may be dropped in the meantime the Government is going ahead. I would submit that Government must take a very strong attitude and oppose any move to extend the all India services. Thank you.

Mr. Speaker:—The function which was arranged was purely an informal function and it was intended for the Prime Minister. He was addressing the members of both the Houses. It was not a regular formal function. At the same time, we have got to observe some common functions. We have observed all these functions. The Speaker or the Chairman of the Council, we extend welcome. Then the Prime Minister replies. The Chief Minister, sometimes is allowed to participate in it. It is purely formal.

Sri V. Ramachandrarao:—I am only just mentioning the way in which our Chief Minister was addressing the Prime
Minister who was a guest to us. One of the guests who was a guest to us was a guest to us.

Mr. Speaker: People are entitled to draw their own inferences.

Sri V. Ramachandran: What I feel I am just expressing was that people are entitled to draw their own inferences. It is a matter for the House to consider and discuss in detail.

Non-officials are not to approve any non-debts which are check suspicious circumstances. Chairman, Board or Manager should not allow the grant to be Enquiry reconstituted. Reconstitute any and any government Private club 204.1.4 lakh which was approved. Another non-officially stated, a few months before, 30th January 1965. He should not be allowed to hold any office. Enquiry is necessary. Reconstitute. Reconstitute. I will not take much time regarding Housing Board. Thats quite evident. You did not follow the rules of procedure. That is quite evident. Why should we have such people as Deputy Secretaries in the Key-posts? Why don't you change them or dismiss them from service? If you don't do, I won't allow you. I will not take much time regarding Housing Board. I will not take much time regarding Housing Board. Enquiry is necessary. Reconstitute. You did not follow the rules of procedure. That is quite evident. Why should we have such people as Deputy Secretaries in the Key-posts? Why don't you change them or dismiss them from service?
Voting of Demands for Grants

(Mr. Deputy Speaker in the Chair)

Sri Mir Ahmad Ali Khan: Mr. Speaker, Sir: I am thankful to the hon. Members for giving some suggestion in connection with the improvement of police affairs. At present, I will limit myself to some of the suggestions given by the hon. Members and to the subject matter of some of the cut motions moved.

Sir, inspite of the fact that this year was a strenuous year for the police due to various factors—such as long time, land revenue levy satyagraha; then food satyagraha; then panchayat elections and all sorts of things—the police have done their duty to the best of their capacity. To say that

...
police used force in excess of the ultimate requirements is not correct. With great restraint, the police in doing duty, and had no the necessary force been used, the situation would have
gone far worse, and there would have been great loss of life.

It is said that the crime branch, C. I. D. is not functioning well. As one of our hons. Members has said, it is one of the
best in India, and the people have much confidence in the
C. I. D. So the criticism based on one of the subject-matters
of the cut-motion, namely, that due to inefficiency of the
C. I. D. and the Crime Branch, the police has to be censured
is not correct.

It is said that some partialiy is being done to the hari-
jan, to the harijan sarpanchas and some of the harijan citizens
of our State. No specific cases have been given. But so far
as the policy of the Government is concerned and the Constitution is concerned, as you know, Sir, every step is being taken
to remedy complaints, if any, made in that connection.

About Srikakulam, Srikakulam is the head-quarters for
the District. But the office of the Superintendent of Police
and the quarters of the Reserved Police are located in Vizia-
 nagara. The demand is that they should be shifted to Srikak-
ulam. The matter has been decided by the Government that
as soon as possible the headquarters of the Police Superintendent and Armed Reserve should be shifted to Srikakulam from
Vizianagaram and matters are being taken seriously. A new
building is being constructed for the Collector's office in Srikak-
ulam. It as been sanctioned. As soon as the Collector's
office is constructed, police headquarters also will be shifted
there, and arrangements are being made in a phased manner.

About the increase in the pay and allowances of police
constables and head constables, as I have already said in
connection with a question in the beginning of this session, the
matter is under the consideration of the Government. We
have asked for the pay scales obtaining in the other State;
and all the States have replied excepting one or two. As soon as the material is gathered, this matter will be considered. Increase of allowances to the police personnel also is under the consideration of the Government.

It was said that the people did not take prompt action in Vijawavada arson cases. That is not correct, Sir. With great tact and promptness, the matter was dealt with; and the police played a very good part; and the Home Guards also took great interest and did good work in that connection. Cases were also brought before the court and action was taken.

Voting of Demands for Grants

674  29th March, 1965

The Hon'ble Speaker:— I request you not to bring me in. There are only two occasions in the House when the Members in the House can refer to the performance of the Speaker, and personally I feel that during discussion in the House it is not proper for anybody to refer to the performance of the Speaker. What I personally feel is that the most helpless person is the
Speaker. Members have the liberty to speak what they feel like because they have freedom of speech and they can say what they honestly feel. But so far as the Speaker is concerned, according to traditions and conventions he is expected not to speak. Even if some reflections are made about the Speaker he is in a helpless position to justify himself whatever; outside I cannot go and issue a press statement nor can I do anything justifying my own view.

Now, the other day Sri Vavila Gopalakrishnayya made a comment on a ruling given by me and said here that truth is being massacred whereas our motto is 'Satyameva Jayathe.' Well, I feel if truth is being massacred as a result of my ruling I do not think I get a place here at all. If I feel that at any time I encouraged or am encouraging people who are making incorrect statements and if I cannot acquit myself with distinction, dignity and honour, at the same time having the confidence of the House— not only the majority section but even of a few people from the minority party— of course, nobody need tell me about what I should do. I am myself prepared to quit this Office the moment I feel I cannot discharge my duties with fairness and impartiality. As long as I feel I am discharging my duties honestly I will continue. The very moment that a few people come and tell me that I am not discharging my duties properly I shall quit. Even the moment Sri Gopalakrishnayya feels that by my continuing here in Office, truth is going to be massacred I shall not be here the next minute. I am one of those who have regard for truth and justice. I may be very free and social outside, but as long as I occupy this Chair I shall try to conduct myself in a very dignified way and free from passion and prejudice.

The very moment that a few people come and tell me that I am not discharging my duties properly I shall quit. I am one of those who have regard for truth and justice. I may be very free and social outside, but as long as I occupy this Chair I shall try to conduct myself in a very dignified way and free from passion and prejudice.
I owe a personal explanation, Sir. It wounded my feelings; I apologise for it, but I cannot enter into discussion once again with you and it is not proper for me. The only thing is, you are at liberty to express your views, but what about the feeling we are creating in the minds of the general public. Now, if you can show me one instance anywhere in a democracy where an incorrect statement has been considered as a breach of privilege I am prepared to consider it.

**Mr. Speaker:**—Mr. Gopalakrishna, I cannot enter into discussion once again with you and it is not proper for me. **Mr. Speaker:**—There, the Minister made a mistake or an incorrect statement and the Prime Minister sent him out. If any member of the House has made any incorrect statement it is for the general public......
Voting of Demands for Grants

Mr. Speaker: I am very thankful to you Mr. Gopala-krishna. Whatever it may be it is an unfortunate incident..........

Sri Vavilala Gopalakrishnayya:— If I wounded your feelings, I unconditionally apologise.

Mr. Speaker:—I was only feeling that after that unfortunate incident which took place the other day, whether still I acquit myself with impiety. All the same you take it from me, if I am very severe with you so far as my own orders are concerned, I decide with an open mind and perhaps I am more liberal when I am severe with you.

Sri Vavilala Gopalakrishnayya:— We accept it, Sir. There is no question, there is no second idea.

Mr. Speaker:—So, let us now drop it.

Mr. Speaker:—Mr. Venkateswarlu, may I tell you one thing? The credit is not due to me but to all members and to all leaders of the opposition parties. I may tell you once
again that if you had not extended all this cooperation and if you take it into your mind to defy this Chair or any body, I do not think I can acquit myself in a dignified way. The credit goes to you, not to the Speaker.

Mr. Speaker:— I had long ago forgotten Mr. Venkateswarlu. You take it from me that I do not have in my mind any thing; I can assure you.

So far as hon. Sri Viswanatham is concerned, as hon. Chief Minister himself was observing, one gentleman with so much of experience, wisdom and all that — whenever he feels that Ministers are going wrong, that the opposition party leaders are going wrong — whatever he says, if he says one thing it must carry some weight. That is what I am saying. I once again request Mr. Viswanatham before he makes an observation, to think twice because we give all the regard and weight for whatever that comes from his mouth.

Sri Tenneti Viswanatham:— Therefore, I say that there was not in the mind of any body in the opposition that you are not impartial. We always held that you are impartial.
If at all there is any doubt the doubt of accuracy or correctness of things is totally different from the question of parity. Not one here has ever doubted your impartiality. Let me say it, Sir.

Mr. Speaker:— Thank you very much Mr. Viswanatham. Unfortunately we have taken much time over this.

Sri K. Brahmananda Reddy:— Does not matter, Sir. What 'Speaker' means in a dictionary is different from what 'Speaker' is in the House of Commons or in an Assembly or in the Lok Sabha. Unfortunately a Speaker in a democracy is one who does not speak and has not many occasions to speak. Whatever, it be, Sir, that is the Speaker's

Mr. Speaker:— Unfortunate position, privileged position.

Sri K. Brahmananda Reddy:— Some times unfortunate position; some times privileged position, Sir.

Sri Vavilala Gopalakrishnaya:— Except some times, always privileged.

Mr. Viswanatham:— Any way I am trying to exercise my freedom of speech when I was speaking. I maintain decorum maintain discipline maintain with the cooperation of all concerned including the Members of opposition, including our own Member—we are three-fourths of this House—Ruling party, Speaker.
The Speaker who is the guardian of the liberties of this House, who is the guardian of the rights and privileges of the members of this House, should have the full freedom, should have the unfettered discretion to use his discretion in the best manner possible, (Applause) and to promote the very healthy conventions of parliamentary democracy observed throughout the World.

S. K. Brahmanna Reddy:—That is true, Sir. You have said that it is done in the usual way. It is correct, Sir. I am saying that the demands for grants should be verified by the Dairy Board before the Minister for Agriculture. That is what I am saying, Sir.

Armed Forces Statement

Dear Sir,

We have been concerned with the large number of meetings and discussions that have been taking place in various parts of the country. These meetings are being organised by the National Congress and its affiliated organisations, and are aimed at increasing public confidence in the Government and the police. We have been informed that the Government has taken steps to prevent the meetings and discussions from taking place.

We believe that the Government has taken these steps in the best interests of the country. We support the Government's efforts to maintain law and order and to ensure the smooth functioning of democracy.

Yours sincerely,

[Signature]

—from a representative of the Indian National Congress to the police

We want to take this opportunity to assure the police that we will do our best to maintain law and order and to ensure the smooth functioning of democracy.

We have been informed that the Government has taken steps to prevent the meetings and discussions from taking place. We believe that the Government has taken these steps in the best interests of the country.
