*341 (1374) Q.—Sri P. Sivakumar (Put by Sri Jagannatham)—Will the hon. Minister for Social Welfare be pleased to state

Whether there is any proposal before the Government to relax the conditions with regard to public contribution, for the opening of primary schools and digging of wells in tribal villages?

† Not put and not answered in the House Hence the question and answer are included in the proceedings under written answers to questions.
Oral Answers to Questions

Smt. T.V. Sadalakshmi — No public contribution is being insisted for opening of primary schools or digging of wells under “Agency Rural Water Supply Scheme” of the Social Welfare Department and Local Development Works Programme of Panchayati Raj Department in Tribal villages.

There is a proposal under consideration of Government to extend the above concession in Tribal areas for all other programmes under the control of the Panchayati Raj Department.

Even now the Collectors are competent to waive the people’s contribution in all deserving cases irrespective of the programme from which the works are sanctioned.

Staring Committee recommends — contribution exemption is desirable. Government is requested to recommend Standing Committee to recommend Standing Committee to the concerned Standing Committee.

Mr Speaker - Papers laid on the Table

POINT OF INFORMATION

Re: Presenting a petition of the N. G. G.Os regarding enhancement of Dearness Allowance
Mr Speaker:—No question of giving a ruling. I disallowed the adjournment motion in view of the fact that I read a news item in the Press that the N. G. O's were going in a procession and presenting a petition to the Chief Minister and also the Chairman of the Legislative Council. That is the news item I read and in view of the fact that they were going to present a petition to the Chief Minister himself, I thought there was no point in admitting the adjournment motion.

The second reason is, if I remember correctly, under item 28 of the schedule service grievances cannot be part of an adjournment motion. I felt that this is one of the service grievances.

The third reason which I gave for disallowing the adjournment motion is—there is no question of giving a ruling. Any Address and Members can avail of the opportunity, whether it is 20th and Government will come forward with reply. These are the three reasons if I remember correctly. I do not have the copy of the order as it is These are the reasons which weighed with me in coming to that conclusion.

Mr Speaker:—If the news item in the Press is not correct, it is a different matter.

Sri Pullalamarri Venkateswarlu:—It is not at all correct. I have got a petition in my hand. It is not at all addressed to the Chief Minister.

Mr Speaker:—I am referring to the news item in the Press.

Sri Pullalamarri Venkateswarlu:—It is unfortunate that the Press should publish such a report.

Mr Speaker:—I have not brought the paper. I do not know that you would raise it today.
Mr. Speaker — No question of reconsidering my decision already passed. If he gives me another notice with some more convincing reasons, I will consider it. There is no question of revising my own order.

Sir Tenets Vishanatham — I am not asking you to reverse your decision. I am submitting what I submitted before on several occasions that when you want to disallow, it is only fair to us, to those who move the motion, for you to consider and say: "Have you got to say anything about this?" Write me that it is a correct motion or it is a not a correct motion. Mr. Speaker, you may say you have disallowed it, we cannot question. But you have said I have already disallowed it. We are not able to understand. We have not got information that it was disallowed. How could it be disallowed in the Chambers when we have moved the motion regularly under the rules.

Mr. Speaker — It is only yesterday I passed the order. It will be communicated to you today or tomorrow.

Sir Tenets Vishanatham — When you want to disallow, it is only fair for us that you tell us and ask us whether we have got anything to say about it.

Mr. Speaker — That you must leave to my discretion.

Sir Tenets Vishanatham — That I agree.

Mr. Speaker — As to whether it is necessary to hear a Member before I pass an order, it is for me to consider. Then if I think that it is necessary to hear a Member before I pass an order, I certainly do so.

Sir Tenets Vishanatham — You are perfectly right. Literally read, the words are just as you have said. But the spirit of it is that we must be given at least an opportunity and we must be told that you are disallowing it. We are not even told about it. I do not think it is fair to us. What can we do? If he has not mentioned it here with reference to this petition, we would not have known that it has been disallowed at all.

Mr. Speaker — Just one thing I might tell you. Every day I would get about 40 to 50 notices under Rule 74, or short notice questions or adjournment motions, etc. Do you want me to read my orders on every notice or only with regard to adjournment motions? If it is only with regard to adjournment motions, I have no objection. But if it is a question of reading out my order on every notice, I do not think it would be possible.
30th July, 1945.

Point of Information: Presenting a petition of the N.G.G.'s regarding enhancement of Dearness Allowance.

Sri Tennessi Viswanatham —What you said later is right, and that is what I have also in my mind. It is not with regard to other motions, it is only with regard to adjournment motions, because we feel that there is urgent necessity. Whether you agree or not, it must be made a matter of some discussion between you and us, either in the Chamber or here. It was not done at either place. You did not even call us into your chamber and ask us what have you got to say? I have got some doubt about it, either in the Chamber or here we must be given an opportunity. I am talking only about adjournment motions and it would only be right if you give us an opportunity here to express ourselves before you make up your mind. Regarding what has already happened, we cannot re-open it. But you will be seeing a fair and healthy convention to do so.

Mr Speaker —Then you have to amend the rule also. If you get the rule amended that before every adjournment motion is disallowed the Speaker should give an opportunity to the member who has given notice to say what he has to say and then pass an order, if that is done, certainly we can do so.

Sri Tennessi Viswanatham —Then the question does not arise. When the rule is amended no such question arises. Because the discretion is left with you now, we are making a request to you to build up that convention. Even without amending the rule, I would always try to leave it to you. It is only with regard to adjournment motions we are making this special appeal that before you disallow them you give us an opportunity to express ourselves.

Mr Speaker —As far as possible.

Sri Tennessi Viswanatham —As far as possible. Of course we will not take long time. We say just about 18 seconds. If 4 sentences do not convince you, we are sure even 40 sentences will not convince you.

Mr. Speaker —If it is an urgent matter, I will give you even 40 minutes.

Sri K. Brahmamanda Reddy —My submission is that it will be a very dangerous precedent.

Sri Tennessi Viswanatham —Then we shall argue it out, Sir.

Sri K. Brahmamanda Reddy —The point is that there are two discretions in the Chair. One is to disallow the motion immediately. As soon as he receives notice of adjournment motion or any other thing, he has absolute discretion to disallow it. He has also discretion to bring it here so that members may say a few words and then disallow it. Therefore, if you make it a rule that every adjournment motion should first come here and the members should be heard, I am afraid, there will not be much time left for the House to discuss other matters and the purpose is lost.
Point of Information:

re presenting a petition of the NG G.O's regarding enhancement of Dearness Allowance.

Sri Tenneali Viswanatham — With your permission, the Chief Minister is unnecessarily raising a ghost. I have said, "either you call us into the Chamber and tell us or ask us, or discuss, or if it is a matter of sufficient importance as to be raised here and there is no time in the Chambers, give us an opportunity. All that we want is, we want an opportunity either here or there. No danger will arise to this Government on to this Chief Minister.

Sri P. V. Narasimha Rao — While you may take your own decision, on the suggestion of Sri Viswanatham, I would like to submit that your decision in this regard should not be interfered in any way. You may, in a particular case, if you feel the need, even without calling anybody either in your Chamber or anywhere else. That discretion should always remain with you, and there should be no commitment in this behalf. That is my submission. If you want, you can call them that is again within your discretion.

Mr. Speaker — I hope I have not made any commitment.

Sri P. V. Narasimha Rao — That is what I say.

Sri Tenneali Viswanatham — He is only afraid that you will become broad-minded.

Mr. Speaker — You are raising a point of order against his point of order.

Sri Pillalamarri Venkateswarlu — I raise a point of order.

Mr. Speaker — This is a serious point, Sir, and I do not think serious matter should be discussed here. We have a rule to discuss serious matter to contribute help. He says serious matter is disturb serious. I am not disturb matter of a serious point is considered by all of us.

Sri L Lakshmanadas — This is a serious point, Sir, and if serious matter is to disturb rules of House or not, and if serious matter is to disturb serious.

Point of Information

re presenting a petition of the N.G.O's regarding enhancement of De. mess. Allowance.

that is true, Sir. But.

Mr. Speaker —I would like to give an opportunity to the Members. At least in 4 or 5 cases it was only after hearing the Members I decided the matter. In this case also I would certainly have given an opportunity to all the Members who have given notice to hear them in the house and decided the matter. But in view of the fact that you are going to present a petition to the Speaker, to the Chief Minister and also to the Chairman of the Legislative Council, I thought it was not necessary now that the Member is going to present the petition tomorrow, I will give him opportunity to speak what he wants to speak.

Sri Pbhakatam Venkateswarlu —That is true, Sir. But.

Mr. Speaker —Where is the necessity?

Adjournment motion is presenting of petition is difference. Adjournment motion is to bring to the notice of the Government the seriousness of the prevailing situation.
Point of Information 30th July, 1965

G.O.s regarding enhancement of Dearness Allowance.

Mr Speaker — I am sorry, I do not feel like that. The duty of the Opposition is to focus the attention of the Government on the important problems, whether it be in a demand motion or be it a motion under Rule 74 or a short notice question or some other motion. So, we should take an opportunity. It is immaterial whether you are focusing the attention under Rule 74 or under some other Rule.

Sri K. Chimananda Reddy — I know, the Governor was pleased to mention about it in the Address, and we are beginning the discussion on the Governor’s Address today. Therefore, it is open to hon Members, who may partake in the discussion to express their views, to have their comments on that matter. It is not as if that subject is shut out from the discussion on the Governor’s Address. We are discussing it now. After the proposer and Seconders, Mr Venkateswara Sastry could go similar to that subject, and spend one full hour on that matter. I have no objection.

Sri Tengutti Viswanatham — I am happy, so that that gentleman the hon C of House, will not have any opportunity to speak (Laughter).

Mr Speaker — Several notices have been received. I have disallowed all three notices for the same reasons. Under Rule 74 one notice has been given. Mr Reddy was thus:

“The proposed demonstration by the employees will by itself focus the attention of the Government to that demand. Moreover, I need a day or two that we will, after demonstration, present a petition to the Chief Minister. Hence disallowed.”

Mr Speaker — All are participating in the General Debate.

Sr. V. Shankar—Yet, all are participating in the General debate. The significance of 6th difference is not the importancy of urgency but difference calling attention, adjournment motion presenting of petition. I think there is a difference in the significance of these various motions to be moved in the House.

Mr Speaker — I entirely agree that an adjournment motion stands on an entirely different footing. If I admit an adjournment motion, it means it is a very serious matter.

Point of Information: Presenting a petition of the NG GO's regarding enhancement of Dearness Allowance

Mr Speaker — That is why, usually not only in this House but throughout the country in all the legislatures, the Presiding officers are very reluctant to admit adjournment motions. But if it is a question of giving an opportunity, as Mr Viswanatham puts it, certainly I would be very liberal.

Mr. Vavilala Gopalakrishnaiah — You are heard Sir.

Mr Speaker — In this particular case, there is going to be some demonstration, they are going to present a petition to the Chief Minister, Governor's Address, we are starting today, they are presenting a petition here. In view of all these things, I have disallowed it.
Motion of Thanks to the Governor’s Address. 30th July, 1965.

Mr. Speaker:—You will not have any such apprehensions. So far as this House is concerned, nobody on behalf of the Government at any time in the past tried to influence the Speaker, or are they going to do it.

Mr. Speaker—(Mr. K. Brahmamanda Reddy):—Mr. Speaker, I have to announce that the amendments to the Motion of Thanks to the Governor’s Address will be received by the Secretary to the Legislature up to 5 p.m. on 31st July 1965, i.e., tomorrow.

Now, Dr. T. V. S. Chalapathira will speak on his Motion of Thanks to the Governor for his Address.

Dr. T. V. S. Chalapathira (Vijayawada-South) Mr. Speaker:—I rise to speak in support of the Motion of Thanks to the Governor which you were pleased to admit the other day. As some time had elapsed since moving the motion, may I have your permission for reading the motion again:

“The Members of the Andhra Pradesh Legislative Assembly assembled in this session are deeply grateful to the Governor for the Address which he has been pleased to deliver to both the Houses of the Legislature assembled together on the 30th July 1965.”

Mr. Speaker—(Mr. Chalapathira):—If he has got any information on that he can give it.

Mr. Speaker—I will certainly consider the matter. Please give me notice under some provision of the Rules. I shall certainly consider it.

Mr. Speaker—(Mr. K. Brahmamanda Reddy):—Mr. Speaker, let me see, if he has got any information on that he can give it.

Mr. Speaker—I will certainly consider the matter. Please give me notice under some provision of the Rules. I shall certainly consider it.
It is no doubt true, Sir, that the Governor is a constitutional Governor. That does not mean that his importance is in any less. As we all know we have sworn our oath bearing allegiance to the Constitution and the importance and dignity of the high Office of Governor will increase if the personalities occupying that Office are respected.

(Mr. Deputy Speaker in the Chair)

Though he is fairly ripe in age he is rich in wisdom and applied that practical wisdom to his high Office. It is also fortunate that such a Governor is assisted by a Council of Ministers headed by Sri K. Brahmananda Reddy who is acclaimed by all sections of the House including the opposition.

Mr. Deputy Speaker:—You can have your own discretion.

Dr T V S Chalapathi Rao:—English is one of the languages recognised by the Constitution and I am therefore within my competence to speak in English.

The main objective of the Fourth Five Year Plan was to achieve regional balance by developing different regions of the state. The steel plant was one of the major projects under the Fourth Five Year Plan. The steel plant was expected to contribute significantly to economic development. It was noted that the steel plant would help in overcoming the regional imbalance in the state. The steel plant was expected to create employment opportunities and boost industrial growth. The state government was convinced of the benefits of the steel plant and submitted a proposal for its establishment. The state government was committed to the establishment of the steel plant and would ensure its smooth functioning.

Andhra Pradesh today is the Annapurna according to our Chief Minister. Tomorrow when the Nagarjunasagar scheme is completed, it will become the Burma of India. When once Andhra Pradesh becomes Burma of India what will be the price of rice, imagine. Will there be any agitation? There will be no more room for opposition in rice cultivation when rice is grown in Nalgonda and Palnad districts. Therefore, the Governor has dealt with the most essential points that are facing the State today.

Lift irrigation is a source of irrigation. Major lift irrigation sources are from rivers and lakes. Major lift irrigation schemes are on an operational basis. The minor lift irrigation scheme is an example of this. Water supply to the irrigation scheme is considered under the revenue head. Water supply from the first class source is supplied under the minor irrigation sources. The cost of the irrigation scheme includes betterment tax. The taxable capacity of the irrigation scheme includes the emoluments of staff.

Rural Water Supply

The Rural Water Supply Scheme is a scheme for the supply of water. The Estimates Committee Chief Engineer investigated the scheme.

Motion of Thanks to the Governor's Address. 80th July, 1965.

In the motion, the following points were made:

- Factory
- School
- Water supply

The factory was set up to produce 1000 units. The school had 500 students. The water supply was divided into local contributions and a national contribution. The local contributions were 10 percent of the cost of the factory and school. The national contribution was 10 percent of the total cost. The school also contributed 10 percent of the cost of the water supply. The local and national contributions were used to supply the orders passed. The administration was decentralized. The protected water supply was used to improve the infant mortality rates and the proportion of children attending the schools.

Power is what is called the beautiful work horse of the industry. Per capita consumption per capita consumption 3 lb. of non domestic consumers 15% surcharge.

Cost of production is very small but the consumers cost is very high. The gap is very wide. Per capita consumption of non domestic consumers is 83% is 15% surcharge.

Electicity Board dividend? Why are these industries incurring losses? Why till 1975 we cannot earn profits? What is inherently wrong with that? Including the Electricity Board why are these industries incurring losses? Why till 1975 we cannot earn profits? What is inherently wrong with that?

Regarding the allocation of funds for India’s medical expenditure, the Governor stated that 2% of the revenues were allocated to this purpose. In 1957-58, this amounted to 3 crores, which increased to 14 crores in 1965-66. The Governor expressed his satisfaction with the increased allocation, which he attributed to the efforts of the Medical Department. Despite the increase, the Governor emphasized the need for better utilization of the funds. He highlighted the importance of research and development in the field of medicine. The Governor also discussed the need for improved medical infrastructure and training for the medical workforce. He concluded by expressing his hope that the allocation for medical expenditure would continue to grow, enabling the government to meet the healthcare needs of the people more effectively.
One in every three is living in slums in Vijayawada"
“While we are no doubt busy with the important question of State, may I draw your attention to the matters which are wholly unconnected with each other or in major decisions of the State. While yet I think they are important enough to merit your consideration, you are constantly discussing the problem of slums as to how to remove them. Some little progress is made in the big cities but while this little progress is made, in dealing with old slums, new slums grow.”

The first thing to do is to prevent the formation of new slums, otherwise all our labour is in vain.”

Commission for the Finance Department has submitted its report showing that the position of N.G.Os is better than that of Mysore and Madras. The Chief Minister notes all this. He has a sympathetic heart. We are sympathetic to the cause of the N.G.Os. All including the opposition say that we are fishing in troubled waters. The Chief Minister will rise to the occasion and do the needful.

The Finance Department has prepared a budget for the year 1968-69. The immediate expenses of Mysore expenses and Mysore expenses have been increased. Administrative expenses and administrative expenses have been increased. The Chief Minister has noted all this. He has a sympathetic heart. We are sympathetic to the cause of the N.G.Os.

Motion of Thanks to the Governor's Address 30th July, 1965

The motion was moved by the Governor's Address on 30th July, 1965. It was noted that the deficit finances were a concern, particularly in the context of the threat posed by the recent developments. The motion highlighted the need for vigilance and proactive measures to address the financial challenges. The committee discussed the implications of the current financial situation and the need for a comprehensive plan to ensure stability and growth. The motion was supported by all members, and a resolution was adopted to address the financial concerns and to continue the efforts towards sustainable development.
30th July, 1965  Motion of Thanks to the Governor's Address.

The motion of thanks to the Governor's Address held on 30th July, 1965, was critical as it highlighted the current challenges and the need for immediate action. The Governor's report emphasized the importance of administrative conveniences, staff turnover, and start-up problems. The motion acknowledged the need for a comprehensive review of the steel plant project, emphasizing the importance of maintaining high standards in all operations. The motion also focused on the necessity for a more efficient management system to address the current hurdles. It was clear that the task was daunting, but the concept of a consortium report for the steel plant was a promising solution. The motion concluded with a strong call for action to ensure that the project's objectives were met.

Motion of Thanks to the Governor's Address. 30th July, 1935.

The Education Commission's recommendations are:

Re-organisation of the Directorate: It is not desirable to break up the general education into separate directorates such as collegiate, primary and secondary education. It would be desirable to keep all...
the general education at least as one unified field and to place it under
one Director of Education. The general experience in all the areas
where the two Directorates have been separated is not very happy
and it is particularly found that it adversely affects the standards of
school education. This error of organisation may therefore be advan-
tageously avoided in the future. 

An Evaluation Committee by the Government has been appointed to
a task of evaluation of the directorates of education. The results
may be summarised as follows:

1. The standards of education are affected and
2. The standards of education are affected. 

On the basis of these results, there should be three joint directorates:

The Education Department should not be split up as these three stages
run into each other. Elementary education, secondary education, and
collegiate education should be separate. 

The results are as follows:

1. Elementary education
2. Secondary education
3. Collegiate education

The standards of education are affected.

The motion to the selection body of the Monopoly Food Corporation was moved by Mr. Thanhs to verify the selection body's decision. It was argued that the selection body had chosen a candidate who did not meet the requirements set by the Corporation. The motion was passed, and the selection body was asked to verify the decision. It was noted that the Corporation's decision was based on a single zone registration, and the selection body was asked to consider this factor.

The Monopoly Food Corporation, which is a private body, was asked to consider the issue of education at both the national and state levels. There was discussion about the need to separate zones for the Corporation, and the issue of procurement was also raised. It was suggested that the Corporation should consider a policy for the procurement of food, separate zones, and the need for education at both the national and state levels.

Last February, the food situation has sorely tested the patience of the consumers. Merchants had been given concessions and according to the Minister new dealers entered the foodgrains trade. They took advantage of the concessions and not caring to ease the food situation in the town they exported rice to other States. Motion of Thanks to the Governor's Address.

The Hon. Raja,

Your Excellency,

The motion of thanks to the Governor's Address, proposes various reforms and developments in governance. The motion highlights the need for modernization of the Land Revenue system, which is outdated. It suggests the adoption of a progressive system in the development of grape gardens, with increased production. The motion also emphasizes the importance of state banks and their nationalization. It calls for an approach that is in line with the times.
Motion of Thanks to the Governor's Address.  

Deputy Speaker in the Chair, the House is in order. The Governor's Address, which was presented to the House on 30th July 1965, recommends the nationalisation of banks. The Reserve Bank of India has control over the projects in which banks are engaged. The banks' financial sources are adequate. The Deputy Speaker recommends the following:

1. Banks nationalise sources adequate.

3rd July, 1965  Motion of Thanks to the Governor's Address

The Motion of Thanks to the Governor's Address was moved by Mr. A. R. G. B. S. Rao, M.P., and seconded by Mr. C. R. A. Reddy, M.P. The motion was carried unanimously.

Mr. A. R. G. B. S. Rao, M.P., in moving the motion, said:

"I move that the House expresses its appreciation of the address of His Excellency the Governor, a most comprehensive and illuminating address, which, with its far-reaching implications, has focussed the mind of the people of our region on the need for greater emphasis on the welfare of the common man. The address has also outlined the steps that are to be taken to achieve this objective.

The address has emphasized the need for better education, health, and sanitation facilities, and has urged the people to participate actively in these endeavors. The Governor's address has also highlighted the need for improved agricultural practices and for the development of industries to create employment opportunities for the young people of the region.

In conclusion, I move that the House expresses its appreciation of the Governor's address and endorses the measures outlined therein for the betterment of the people of the region."

Mr. C. R. A. Reddy, M.P., in seconding the motion, said:

"I second the motion and add my voice to the expressions of appreciation of the Governor's address. The address has been most timely and relevant, and has provided a clear roadmap for the development of the region.

The Governor has highlighted the need for better education and health facilities, and has emphasized the importance of participatory democracy. The address has also underscored the need for improved agricultural practices and the development of industries to create employment opportunities.

I believe that the measures outlined in the address will be implemented effectively, and that the people of the region will benefit greatly from these initiatives. In conclusion, I second the motion and urge the House to endorse the Governor's address.

The motion was carried unanimously."

intensive collection of zamindars led to a steady rise in the revenue receipts. The increase in the revenue has been due to the efforts of the Revenue staff who have worked hard to ensure that the revenue is collected on time. The department has also introduced new methods of collection, which have helped to increase the revenue.

The government has been able to increase the revenue by introducing new methods of collection and by working closely with the zamindars and other landowners. The government has also been able to increase the revenue by encouraging the growth of industries and by providing incentives to those who invest in the state.
