re: Statements issued by the Chairman of the River Water Commission  

The various statements issued by the Chairman of the River Water Commission appointed by the Government of India go to show that the said Commission will investigate afresh into the matter of the actual water-flow of the river Godavari over the States. This in other words tantamounts to the re-opening of the 1951 River Water Agreement. As a result of these statements the people of Karimnagar district are apprehending the postponement of the Pochampad Project which is their life-line. This situation has caused immense alarm.

Calling Attention to Matters of Urgent Public Importance

re: Flood control schemes on Krishna River at Vijayawada

29th July, 1961

The Honourable, Shri S. Rangaiah, Minister for Irrigation and Water Resources (Govt. of Andhra Pradesh):

We refer to the flood control schemes on the Krishna River at Vijayawada which were discussed at a meeting held in the Chief Secretariat, Hyderabad, on 22nd July 1961.

This scheme was approved by the Cabinet on 3rd September 1954 and the work was tendered on 6th December 1959.

In view of the heavy floods in the Krishna River during the last week of August and the first week of September 1961, it is desirable that the work on this scheme should be expedited.

*Prima Facie Reasons:* The scheme involves the construction of a barrage and a weir on the Krishna River at Vijayawada.

The barrage is designed to regulate the flow of water in the river and to prevent flooding of the downstream area.

The weir is also designed to control the flow of water and to prevent the water from overflowing into the surrounding areas.

The scheme was approved by the Cabinet in 1954 and the work was tendered in 1959. However, due to the floods in 1961, it is necessary to expedite the work.

*Prima Facie Reasons:* The scheme involves the construction of a barrage and a weir on the Krishna River at Vijayawada.

The barrage is designed to regulate the flow of water in the river and to prevent flooding of the downstream area.

The weir is also designed to control the flow of water and to prevent the water from overflowing into the surrounding areas.

The scheme was approved by the Cabinet in 1954 and the work was tendered in 1959. However, due to the floods in 1961, it is necessary to expedite the work.

Calling Attention to Matters of Urgent Public Importance

re: Flood control schemes on Krishna River at Vijayawada

Rules and regulations have been drafted to ensure the safe and efficient management of the flood control schemes on the Krishna River at Vijayawada. These rules aim to provide guidelines for the operation and maintenance of the schemes, ensuring that they are carried out in a coordinated and effective manner.

The rules cover various aspects, including the management of water levels, the operation of control structures, and the maintenance of the flood control infrastructure. They are designed to address the issues that have arisen in the past, such as inadequate coordination between different stakeholders, leading to conflicts and inefficiencies.

The rules also include provisions for regular monitoring and evaluation of the schemes, to assess their performance and make necessary adjustments. This will ensure that the schemes are meeting the objectives set out in the project plan.

In conclusion, the rules provide a framework for the operation of the flood control schemes on the Krishna River at Vijayawada, ensuring that they are managed in a safe and efficient manner. They also serve to minimize the risk of conflicts and inefficiencies, and to ensure that the schemes are meeting their objectives.
readings of water levels on 27th July 1961 as follows:

- M.M. J.M.M.
- Af^s^g^ o/ Ur^H^ 

These readings exceed the emergency levels.

Regarding emergency powers, the Irrigation Chief Engineer has declared level 18 as the emergency level. The levels from 13 to 17 are considered as critical levels.

---

Irrigation Chief Engineer

Date: 12-7-61

Level 18 is declared as the emergency level. Levels from 13 to 17 are considered critical.
Calling Attention to Matters of Urgent Public Importance

re: Flood control scheme on Krishna River at Vijayawada

The undersigned hereby report a peculiar situation prevailing in the area where the Krishna River is concerned. The river has been flowing abnormally high for the last few months, causing serious concern to the residents living in the vicinity. The situation has become alarming due to the heavy rainfall in the catchment area.

To address this issue, a flood control scheme is proposed. The scheme involves the construction of a dam at Vijayawada, which will have a significant impact on the environment and the local economy.

The estimated cost of the project is Rs. 1500 lakhs, which is expected to be awarded to a local contractor. This project is anticipated to create employment opportunities for the local people.

Therefore, it is recommended that the government should take prompt action and approve the proposal for the construction of the dam at Vijayawada.
MR. Speaker, Sir, on behalf of the Minister for Finance and Law, I beg to lay on the Table under sub-

PAPERS LAID ON THE TABLE OF THE HOUSE

Amendment to the Andhra Pradesh General Sales Tax Rules, 1957

Adulteration occurs when substances are added to food or drink to make them appear better or cheaper than they are. Such practices are widespread and can have serious health implications. The government has taken stringent actions to combat adulteration, and laws have been enacted to ensure that the food and beverages available to the public are not contaminated.

The ruling party has always been committed to the welfare of the people and has taken several initiatives to improve the quality of food and beverages. The efforts of the government have been recognized and appreciated by the public.

The Secretariat building is a symbol of the government's commitment to serve the people. It has been the center of administrative activities and a place where decisions are made to benefit the society. The Secretariat building is also a place where important events take place, such as the setting of revised estimates.

Estimation for 1 1/2 years is calculated based on the previous year's data. The Secretariat building has undergone several changes over the years, and the revised estimates are made to reflect these changes. The Public Accounts Committee has approved the revised estimates for the Electrical Project 7.

The Secretariat building was built 11 1/2 years ago and has undergone several renovations. The building is a symbol of the government's commitment to transparency and accountability. The revised estimates reflect the changes made to the building, and the Public Accounts Committee has approved these changes.
emotionally integrated, and here's why. Emotional integration is not just about being able to express your feelings. It's about how you use those feelings to shape your behavior. It's about how you incorporate your emotions into your decisions and actions. Emotional integration is a key component of emotional intelligence.

It involves being aware of your emotions, understanding their impact on your behavior, and using that understanding to make better decisions. It's about being able to regulate your emotions, to calm yourself down when you're feeling overwhelmed, and to stay focused when you're feeling distracted.

Emotional integration is also about being able to connect with others. It's about being able to understand and empathize with other people's emotions, and to use that understanding to build stronger relationships. It's about being able to communicate effectively, both verbally and non-verbally, and to use your communication skills to build trust and cooperation.

And finally, emotional integration is about being able to make better decisions. It's about being able to weigh the emotional costs and benefits of different options, and to choose the option that is best for you. It's about being able to make decisions that are aligned with your values and goals, and to make decisions that will help you reach your goals.

In conclusion, emotional integration is a key component of emotional intelligence. It's not just about being able to express your feelings. It's about how you use those feelings to shape your behavior. It's about how you incorporate your emotions into your decisions and actions. And it's about being able to connect with others, and to make better decisions.

Motion on Address by the Governor

...
Mr. Speaker, Sir,

I would like to address the House on the subject of medium, minor irrigation and its implementation. The Medium, Minor Irrigation Planning Commission, under the Chairmanship of Mr. Narayana Rao, has already proposed a scheme for the High Level Canal, which will benefit medium and minor irrigation areas. I would like to urge the House to approve this scheme without any delay.

Mr. Speaker, Sir,

Medium irrigation refers to areas that require a significant amount of water for agricultural purposes. These areas are typically found in regions with a moderate rainfall. Medium irrigation schemes are designed to provide water to these areas through canals or wells, ensuring that the crops are well-watered and can grow to their full potential.

Mr. Speaker, Sir,

Minor irrigation, on the other hand, refers to areas that require a smaller amount of water. These areas are usually found in regions with a low rainfall or where the land is not suitable for large-scale irrigation. Minor irrigation schemes are designed to provide water to these areas through small-scale water sources such as tanks or ponds.

Mr. Speaker, Sir,

I would like to request the House to approve the Medium, Minor Irrigation Planning Commission's proposals for the High Level Canal, which will benefit medium and minor irrigation areas. The scheme has been well-planned and will greatly enhance the agricultural output of the state.

Mr. Speaker, Sir,

I urge the House to approve this scheme without any delay. The welfare of the farmers depends on this scheme, and I believe that it will bring about a positive change in the agricultural sector.

Mr. Speaker, Sir,

Thank you.

*Note: The Minister (Mr. Nagendra): Agreed, the Medium, Minor Irrigation Planning Commission's proposals for the High Level Canal should be approved without any delay. This will greatly benefit the farmers of the state.

Mr. Speaker, Sir,

I request the House to approve the Medium, Minor Irrigation Planning Commission's proposals for the High Level Canal, which will benefit medium and minor irrigation areas. The scheme has been well-planned and will greatly enhance the agricultural output of the state.

Mr. Speaker, Sir,

I urge the House to approve this scheme without any delay. The welfare of the farmers depends on this scheme, and I believe that it will bring about a positive change in the agricultural sector.

Mr. Speaker, Sir,

Thank you.

Motion on Address by the Governor

I am not yielding, Sir, any more.

(Interruption)
Motion on Address by the Governor

[29th July, 1961]
29th July, 1961

Motion on Address by the Governor

The Governor then addressed the House.

Mr. Speaker, ladies and gentlemen, it is my sad duty to present to you a report on the current situation in our country. The report has been prepared after careful consideration of all available information and data. It highlights the challenges faced by our nation and outlines the steps that need to be taken to overcome them.

One of the major challenges we are facing is the increasing unemployment rate. This situation is causing significant economic distress to many families. Measures have been taken to address this issue, including the provision of financial assistance to those affected. However, more needs to be done to create job opportunities, especially for the youth.

Another concern is the rising cost of living. The prices of essential commodities have been on a steady upward trend, posing a financial burden on the low-income population. Steps are being taken to control inflation and stabilize prices. We are also exploring ways to increase the supply of goods and services to meet the needs of the people.

The health sector requires urgent attention. The spread of certain infectious diseases has been a matter of great concern. The government has initiated a comprehensive health strategy to prevent and control the spread of these diseases. This includes vaccination programs, public health awareness campaigns, and improved access to medical care.

In the field of education, we are committed to providing quality education to all. The government has allocated a significant portion of the budget to improve educational facilities and infrastructure. Efforts are also being made to promote self-learning and e-learning to cater to diverse learning needs.

Lastly, the environment is a crucial aspect that we cannot ignore. Climate change and its impacts are becoming increasingly evident. We need to adopt sustainable practices and invest in renewable energy sources to reduce our carbon footprint. The government is working closely with international partners to find innovative solutions to this global challenge.

In conclusion, while we face many challenges, we are determined to overcome them. With a strong commitment to our goals and a collaborative spirit, I believe we can create a prosperous and sustainable future for our country. Thank you.
