**Privilege Motion re:**— Reply of the Finance Minister to the discussion on the Budget in the Legislative Council.

*Sri Tennti Viswanatham (Madugula):*— Mr. Speaker, Sir, I wish to raise a matter relating to a breach of privilege of this House. The newspapers have reported—and it is a fact—that the hon. Finance Minister gave his reply to the debate on Vote on Account in the Council. 

967—6
It is a serious infringement of the rights of this House and breach of privilege. While the debate is going on in the Assembly he ought not to have made a reply in the Council and wind up the debate there. It is a breach of privilege of this House and I want, Sir, that you should protect our rights.

Mr. Speaker:—The hon. Finance Minister will take note of this. We shall deal with it tomorrow.

BUDGET (VOTE ON ACCOUNT) FOR 1962-63.

A motion may be moved to reduce the amount of a grant under Rule 158 which says:

"(1) The Minister who moves a demand for a grant may make a statement explaining the policy underlying the demand.
(2) Any member may then make a motion to reduce the demand by a specified sum. No motion shall, however, be made which will have the effect of increasing or altering the destination of the demand.
(3) A motion may be moved to reduce the amount of a demand in any of the following ways:
(4) Notice of motions under sub-rule (2) should reach the office of the Assembly not later than 3 p.m. on the third day of the general discussion of the budget.

Rule 164 relating to Vote on account says:

"The rules of procedure regarding the Budget shall generally apply to the grants called votes on accounts, votes of credit and exceptional grants, referred to in Article 206 of the Constitution.

(2) In particular and without prejudice to the generality of the foregoing provision, the following rules shall apply to votes on account:

(i) A motion for a vote on account shall state the total sum required and shall contain a schedule containing the details of expenditure of which that sum is composed and the various amounts needed for each department.

(ii) Discussion of a general character may take place on the motion as a whole.

(iii) Amendments may be moved for the reduction of the whole grant or for the reduction or omission of the items of which it is composed."
I feel that my amendment is in order.

Mr. Speaker:—As I observed in the beginning itself, they cannot be strictly speaking called cut motions under rule 164, which says:

"Amendments may be moved for the reduction of the whole grant, or for the reduction or omission of the items of which it is composed".

Under Rule 158, 3 p.m. has been fixed as the last hour on the third day of the general discussion of the budget for the receipt of cut motions on the general budget presented to us. According to Rule 155, the time allotted for general discussion of the budget is 5 days. But since only 3 days have been allowed for general discussion of the Vote on Account, even going by clause (4) of Rule 158, viz. that notice of motion should reach the office of the Assembly not later than 3 p.m. on the third day of the general discussion, if we compute the time, the hon. Member should have sent the amendment 50 hours before the last hour allotted for general discussion. Since he has given notice only yesterday morning, I am not admitting the amendment as it is not in accordance with the rules.

Sri Vavilala Gopalakrishnayya:—I request you that under the residuary powers exercised by the Speaker the amendment may be allowed.

Mr. Speaker:—Under Rule 263 relating to residuary powers, "all matters not specifically provided in these rules and all questions relating to the detailed working of these rules shall be regulated in such manner as the Speaker may from time to time direct."

According to Rule 164:

"In particular and without prejudice to the generality of the foregoing provision, the following rules shall apply to votes on account:

(i) A motion for a vote on account shall state the total sum required and shall contain a schedule containing the details of expenditure of which that sum is composed and the various amounts needed for each Department.

(ii) Discussion of a general character may take place on the motion as a whole.

(iii) Amendments may be moved for the reduction of the whole grant or for the reduction or omission of the items of which it is composed."

"Discussion of a general character may take place on the motion as a whole". It says 'may take place'; it is not compulsory or mandatory.

Sri Vavilala Gopalakrishnayya:—I know it is general. When a specific matter is there, no general character will come. You have fixed the time as Saturday evening. That is, you have taken the general to the specific. As you have residuary power to allow or disallow a motion, this may be taken into consideration and you may
allow the motion under your residuary or discretionary power. There is no bar.

Mr. Speaker:—But on principle I do not want to allow it.

Mr. Speaker:—I am sorry I cannot consider it. If he had come and taken his seat before all the names were read, certainly I would have allowed.

Mr. Speaker:—I request the Government to please take note of it.
Budget (Vote on Account) for 1962–63. 28th March, 1962.

The concept of national integration is increasingly gaining importance in our country. The Planning Commission has taken several measures to achieve this goal. One of the most significant steps was the establishment of a national integration fund. This fund is designed to support various projects aimed at promoting national unity and integration.

Several grants have been allocated to different regions under this fund. The Revenue Board and the Panchayat Raj Commissioner have been instrumental in implementing these grants. The Planning Secretary and the Panchayat Raj Commissioner have been responsible for coordinating the efforts.

The fund has also been used to support decentralization of power and the strengthening of Panchayat Raj institutions. These efforts are aimed at empowering local communities and enhancing their participation in governance.

In conclusion, the national integration fund has played a crucial role in strengthening national unity and promoting democracy at the local level. The fund will continue to receive support from the government to ensure its effective implementation.

Public Health Engineering Department

The Budget Board has approved the request for an additional amount of Rs. 4,800 for the Public Health Engineering Department. The additional amount is required to purchase 75 H.P. submerge able pump sets, which are essential for the protection of water supply. This will significantly enhance the efficiency of the department in providing safe and clean drinking water to the public.

Budget (Vote on Account) for 1962-63

February 28th, 1962.

The Budget for the year 1962-63 has been presented, having the objective of achieving a prosperous and balanced growth. The Budget aims to combat stagnation and ensure economic prosperity.

The Budget for 1962-63 is estimated to be Rs. 250 crores. The major highlights include:

1. An increase in the income tax rate to 7.15%
2. Reduction in the excise duty
3. Increased expenditure on education and health
4. Expansion of the infrastructure

The Budget is expected to boost the economy and create employment opportunities. The growth rate for the year 1962-63 is estimated to be 4.5%.
Budget (Vote on Account) for 1962-63. 28th March, 1962.

...
It is often said that a confirmed bachelor likes stale and insipid food. Unfortunately, our Vavilala who is a confirmed bachelor was remarking on that the budget is a rather insipid budget. I think if it is really like that, he would have praised it but fortunately it became part of his criticism and I think there is something relishing in it.

Our Finance Minister, though he said at the beginning of the budget speech that they have not formulated any policy, I am sure he showed some sort of determination when he said that they are going to push through all the schemes formulated by the Third Five Year Plan and that the deficit of 10 crores and odd should be made good somehow or other. I would suggest to the Government that before announcing the scheme of new taxation they should see if they can augment the present income by plugging all the leakages in the tax collection and at the same time to see whether they can also reduce the expenditure by observing economy in all the schemes even in big projects. Often it is said by the Sales Tax Department that there are leakages in the collection of sales tax and that if all the leakages are closed, they could augment the sales tax by another 3 crores. I request the Government to find ways and means of closing the leakages and see that the sales tax collections enhanced.

(Sri K. Punniah in the Chair.)

In the plan projects and in other schemes as well as in the implementation of the planned schemes, we see that there is a lot of wastage. Why not the Government see that the expenditure is reduced to a great extent. If these two things are observed, I think the expenditure will be less and our income will be greater.

I would like to suggest one or two methods by which they can increase their income. Nowadays we are having Neera Societies and licenses are given almost for a nominal fee and these Societies as every one of us know, are not really Co-operative Societies. They are Co-operative Societies only on paper but not in practice. Often, one or two individuals who run this show get the lion’s share of the profits of this Society. If the Government thinks of a method by which they can auction these neera shops, I am sure it will add to the coffers of the State. Therefore, I request the Government to study and see if the method of auctioning these neera shops can be introduced and if this were to be introduced, I am sure the State will get 6 to 8 crores every year, and our planned schemes can be pushed through without fresh taxation.

I would like to say a few words about the famine condition in Rayalaseema. For the last 4 years, Rayalaseema has been suffering from drought and famine and every year the Government was using or starting some works by which they can give employment to labourers and also used to open some fair price shops to supply grains at cheap prices. Does it solve the problem of warding off famine for ever? The Government has not given serious thought to this problem. The Government should seriously think and somehow or other devise ways and means to see that the people of Rayalaseema do not depend on vagaries of the monsoon. The first thing they should do is, that as in Rayalaseema where the subsoil water is very good and where not
a small percentage of ryots depend on well irrigation to increase the subsoil water and also help the ryots in increasing the number of wells. The Government is giving subsidies for this. That is good. These subsidies will no doubt help us. Unless the pulling out of water for irrigation purposes is made cheap, I am sure well irrigation is always costly. Therefore, the Government should give the highest priority in supplying electric power for these Districts which often suffer from drought conditions. No doubt, the Government is doing something. Recently we received a note that the Chief Engineer, Electricity Board has abolished two divisions saying that there are no funds to implement or construct new electric lines. If such is the state of affairs, how are you going to help the poor ryot who is habitually suffering from famine and drought conditions. I request the Government and the Finance Minister to allot immediately funds and see that these two divisions at Ananthapur and Cuddapah districts are retained and that some construction works of electricity are taken up.

A word about the backward class scholarships. As at present all the backward classes children in the authorised institutions in Telangana get scholarships but unfortunately in Andhra all of them do not get scholarships. Unfortunately, it is the deserving and very poor backward that do not get but the fairly well to do who rush up to Hyderabad and get things done are getting these scholarships. Actually, the poor and deserving are not getting the scholarships. I therefore request the Finance Minister to allow immediately some money from the Consolidated Fund and see that no one goes without a scholarship. Thank you, Sir.

*Sri J. T. Fernandez (Nomination Anglo-Indian):— Mr. Speaker Sir, I thank you for giving me this opportunity of participating in this general discussion. In a budget which starts with the candid confession that it, does not reflect any fresh policy taxation but only a stereotyped budget there is not much scope for criticism. It is stereotyped but it is a useful budget. It follows the usual lines of progress and for that we should be thankful to the Finance Minister.

I would now like to say a few words on matters relating to my community. In the first instance, Sir, I would thank the Government for the generosity that they have hitherto shown in granting the concession and scholarships which are allowed by the Constitution to the Anglo-Indian children. I am told that these concessions will cease from the next year. I would therefore appeal to the Hon. Finance Minister and through him to the Government that this concession, which affects 400 children and as a Constitutional guarantee to the Anglo-Indian children be continued. The amount involved is very small but the benefit goes far. Similarly, I would like to draw the attention of the Minister for Education of the handicap that the Anglo-Indian children suffer at the High School stage after having passed the High School with a poor class, naturally because they have to cope with Hindi and Telugu and they are not able to secure admission into the colleges and particularly into the professional colleges because of the low marks. A concession has been allowed for the backward and scheduled castes. It would be a great consideration if at least one or two children of the Anglo-Indian community are admitted who are deserving but do not have the high percentage of marks. In my last
speech on the budget last year, I had occasion to draw the attention of Government to the discrimination in the police services against Anglo-Indians. The then Hon Chief Minister who was also the Home Minister gave an assurance that this would be remedied. A year has passed and nothing has happened. The very specific cases to which I referred, have not been looked into. I shall be glad if the present Hon. Chief Minister will give his kind attention to this matter.

I feel happy to be in agreement to-day with the leaders of the opposition on one subject. Both of them have condemned prohibition and they asked for the scrapping of Prohibition Law. I fully endorse that appeal and hope that it will receive the attention of the Government. Whatever the loss to the Government in revenue may be, humanitarian considerations should drive the Government to the fact that the ravages of this illicit pernicious liquor is affecting thousands of poor people and if prohibition is withdrawn, then there will be no scope of illicit manufacture and the harm done to the human race.

I would like also to refer with pleasure to one other matter. I congratulate the Government for having introduced the old age pensions. This is certainly a measure which is highly commendable but to be useful it should be implemented quickly and there should be no difficulty in the way of implementation. I have had practical experience in this matter. It has taken me weeks to get a sample form and thereafter I have not been able to get the necessary verification. There are difficulties in the way.

In the form prescribed, the ages of brothers, son, grandson, etc., should be given but not their names; but yet the Talukdar is asked to verify that from the National Register. As you are aware and as hon. members well know from their own experience, national registers are not reliable. I myself had an occasion to check the block in which some of my community applicants lived. The names are not there; and where they are given their ages are so given as to be detrimental to their interests. When the age is certified by a certain responsible person—say, a member of Parliament, a M. L. A. or M. L. C. or a Gazetted officer, there seems to be no further need to have further verification from an unreliable register. National Register of citizens is unreliable, and earlier efforts must be made to bring it up to date.

In that form, there are other difficulties as well. The Talukdar is asked to find out if the applicant has got sons, grandsons or brothers and to report if he or she was living with them. Does that mean, Sir, that a needy destitute person over 70 years of age will not be given pension because he or she happens to have sons and grandsons who do not help him/her. I would ask the Finance Minister to kindly look into this matter and make it more convenient.

There is another point also, and that is this: it is required that the person should be a destitute. I do not think that for an old age pension it is necessary that the person should be destitute, a beggar or a street mendicant. He or she may be living respectably on the bounty of somebody and a little pension would go a long way to relieve distress. The relevant rule should therefore be amended. There are other matters in those rules which require looking into and if the Finance Minister who is the sanctioning authority for this pension will kindly
look into these rules and re-examine and simplify them he will be doing a great service to the needy. It is a social service and I hope it will be implemented soon.

I have heard the demand being made that Telugu be made the official language soon. I am not objecting to that. Nor am I pleading for the retention of English, as English will remain till such time that the Constitution allows and as long as it is necessary. But bearing in mind the fact that the national language of India after 1965 when English will have gone will be Hindi, I think due attention should be paid to the teaching of Hindi and making of Hindi the official language in the offices. In the budget itself - there is no need at this stage to criticise it - I foresee new taxation. I hope when this taxation is resorted to, it will not be indirect taxation which effects the less well-to-do and poor classes but will be levied on those who can well afford to pay it.

Thank you, Sir.

Mr. Speaker, Sir: I would like to say something about deficit budgeting. Deficit budgets are a common feature in all under developed countries. When we hear the word 'deficit budget' we need not be much worried about it, because it only means loss of revenue receipts and more of expenditure. We spend more money for improvements and on developmental schemes. Therefore, deficit budget is always a welcome feature. How far we can keep this deficit under control is the only question. We must only see that there is no inflation: only then, there is danger. To keep inflation under control, there is a way: we must keep the Reserve Bank under control. Therefore, if my friends talk much about deficit budget, it is always a stereotyped speech just to impress upon others and to find fault with the Government.

We want more amenities: whether one belongs to the ruling party or the Opposition party, we want more amenities to be done for the public, because we have promised that we will get this thing done or that thing done when we approached the people for their votes during the time of elections. But where is the money? Unless we get money we cannot do all these things. Sometimes we say that even a taxpayer who is paying a land revenue of Rs. 10 should be given remission. In our country, nearly 60 per cent of the ryots are paying land revenue of Rs. 10 and if they are given remission, where are we to get money from. Everybody is bound to support the nation to build up its economic position. Therefore whether one is a poor ryot or a rich ryot, he must contribute for the development of our country.

Some hon. Members have spoken about the hereditary system of village officers. It is true they know something about the village, its development etc., and they can effectively collect land revenue. But we must all know that these village officers are responsible for several litigations in villages. Therefore, my suggestion is that whoever is qualified, he must hold the post as village officer. It need not necessarily be a member of a particular family. The post must be given to all classes, so that all classes will have some improvement. One thing about these village officers, I want to say, and it is this: even if the father is removed he is sure, under the hereditary system, that his son will hold the same post, and he can do some mischief. The hereditary system has got certain drawbacks and certain defects.

In the present budget for the year 1962—63, a sum of Rs. 39,05,000 has been allotted for the uplift of scheduled castes. Last
year, it was about Rs. 38,96,000. The difference is only Rs. 9,000. There are many things to be done for the uplift of these scheduled castes. If the amount of grant is not increased, nothing can be done for their economic betterment and for their better living conditions. Out of this amount of Rs. 39,05,000, is given for scholarships. Every Harijan must be guaranteed of being given scholarship. In the Madras Government, what they do is that in the beginning of the year they send a circular to all the institutions that Government undertakes to give scholarships to all Harijan candidates and on the strength of that circular the Harijan candidates could be admitted into the various institutions. But in our Andhra Pradesh, there is no such provision made, and after admission into the institutions these Harijan Students have to go about Government Offices for about three months to find out as to what had happened with reference to their scholarship applications or grants. No assurance is there, as in the Madras State. The Harijan Students find some difficulty in regard to admissions into hostels; in the beginning for three months or so they are asked to pay the mess dues and other charges, which they cannot. These things have to be considered and such provision as exists in this regard in Madras should be made in our Andhra Pradesh State also.

In the Madras Government, we see that when they form roads from one choti to another choti, the entire cost is met by the Government. If it is formed from one caste-Hindu colony to a choti, half the money is to be met by the caste-Hindus. But in our State no such scheme has been undertaken. There, again, in each Taluk, they are given 250 pairs of bullocks (to harijans) free of cost; in addition to it, each ryot is given Rs. 50 for the purchase of agricultural implements. Why not introduce the same system in our State also. Whether he holds agricultural land or whether he cultivates land on lease or otherwise, why can’t we give some subsidy to each ryot for his economic improvement. Such a provision has also to be made. And for all these schemes, we want more money. But this allotment which is only Rs. 39,05,000 for the year 1962-63 is insufficient. This may be considered at least at the time of the revised budget estimates.

Welfare is now under the control of Zilla Parishads. Zilla Parishads meet once in three months or six months. There are standing Committees, and all the schemes have to be approved by those standing committees: until then, they cannot disburse the amounts to hostels or any other management or individuals concerned with the social welfare schemes. I would therefore urge that instead of keeping this Welfare Department under the control of Zilla Parishads which contain politicians, it should be kept under the control of Collectors with an advisory committee to advise the Collector as regards the methods to be adopted for the improvement of their economic conditions, education, welfare, etc. This issue has to be re-considered. I do not know why from the control of the Collector this department was handed over to the Zilla Parishad. If they want to give more powers and portfolios to Zilla Parishads, the Government may do so, but they should not have given control of this to the Parishads. As it is, reclamation and other welfare schemes are kept under the direct control of the Collector, and this department also should be handed over back to the Collector, because the Collector, as father of the district, could do more for them in the matter of assignment, acquisition of house
sites, grant of scholarships etc. In all these and such other matters, the Collector can certainly do them justice.

With these words, I close my speech, and I thank you, Sir.

Budget (Vote on Account) for 1962-63. 28th March, 1962. 229

Corruption - a major concern for 1962-63. Corruption
is a significant issue that needs attention. While
efforts are being made to improve services,
reduce corruption, and increase
Departmental actions, the Anti-corruption Bureau
will continue to combat this issue.

Corruption cases must be detected,
anti-corruption bureau will be
instituted. Moral value in society
must be enhanced.

Dryland development: In 1960, 600 acres were
planted, but only 100 acres survived.

Efforts will be made to improve services,
reduce corruption, and increase the
effort of the Anti-corruption Bureau.

Moral value in society must be
enhanced by detecting corruption cases.

Departmental actions will be
instituted to combat corruption.
