PRIVILEGE MOTION

re: REPLY OF THE FINANCE MINISTER TO THE DISCUSSION ON THE BUDGET IN THE LEGISLATIVE COUNCIL.

Mr. Speaker:—Yesterday, hon. Sri Tenenti Viswanatham raised some privilege issue. I would like to hear him.

*Sri Tenenti Viswanatham (Madug'â):—The hon. Speaker may please ask the hon. Finance Minister to state something upon the point raised.

Mr. Speaker:—After hearing the hon. Member fully, I would ask the hon. Finance Minister to reply.

Sri Tenenti Viswanatham:—The point was, Sir, that our Constitution says that the initiating House for all money matters, including the budget votes on account and the like, is this House and not the legislative council. The implication of it is that although the "vote on account" expenditure was introduced in the Legislative Council on the same day as here, you might have been pleased to note that it was presented here after it was presented there. That is to say this House has got precedence in the case of all money matters. That also means that the discussion should not be completed there or even if the discussion was completed, the Government should not give a reply and close it there, in the first instance, while the debate on the same is still going on here. If that is done, it is a matter which will affect the privilege of this House. Apart from the technical question that the privilege is affected, we will receive here only the pulp of the matter while the council gets the substance. We are here as direct representatives of the people. We are therefore entitled to hear the Government first here then only the Legislative Council can hear. As you are aware, Sir, the Council has not got even the right to vote upon these matters. And, therefore, I drew your attention that a Constitutional privilege of this House was violated inasmuch as the hon. Finance Minister wound up the Debate and gave the entire reply on behalf of the Government in the Legislative Council first. That is the point, Sir.
Privilege Motion: 29th March, 1961

re: Reply of the Finance Minister to the discussion on the Budget in the Legislative Council.

The Minister for Finance (Sri K. Brahmananda Reddi):—Sir, from what I could see there is nothing unconstitutional or illegal in this matter. It is true that according to our Constitution all money matters should be initiated in the lower House. I do not deny that proposition. But it is a matter of convenience, Sir. And as a matter of fact, there is no intention on the part of the Government to treat this House, which consists of direct representatives of the people, lightly or in any offensive manner. The only point is this. The discussion there was only for two days and naturally after the discussion ended, I had to reply. I could not keep quiet. The Legislature Secretariat has helped me with certain precedents in this matter. They have been able to trace that in Madras in the year 1935, reply had been given in the Upper House—there also we have an Upper House, Sir. A day earlier than it was given in the Legislative Assembly. Even in the Central Government, in the case of Lok Sabha and Rajya Sabha also the Finance Minister replied to the debate earlier in the Rajya Sabha than in the Lok Sabha. That happened in the year 1960. His reply in the Rajya Sabha was on 7-3-1960 and his reply in the Lok Sabha on the Budget was on 10-3-1960 three days later. And in Madras, it was a day later. Therefore, I would only urge for your consideration, Sir, that nowhere in the Constitution it is laid down that the reply in the lower House should be earlier. But, as I have already submitted, even in the year past, the budget was being presented here earlier than in the Council. But last year, a question arose about the publication of budget in some newspaper earlier than it was presented in the Council. Therefore, we took a decision according to the practice obtaining in the Central Government also, to simultaneously present the budget in both the Houses. I did it here, Sir, and one of my colleagues did it there. We followed that practice here. Therefore, the question of improperly presenting and things like that cannot arise. I would submit that if the Business Advisory Committee fixes the date earlier, certainly we would be very much pleased to reply here in this House than we do it in the Upper House. It has been a question of arrangement of the work, Sir. In future also, if the business is arranged as I suggested, we can have it earlier here. So far as unconstitutionality or illegality is concerned, there is nothing, Sir.

Privilege Motion:

re: Reply of the Finance Minister to the discussion on the Budget in the Legislative Council.

It is not proved by the Constitution as to who will present the statement in the two Houses respectively. Under the Government of India Act, 1935, the Finance Minister personally presented the Budget to the Lower House and this practice has been followed after the commencement of the Constitution.

But British Constitution is unwritten law. The House of Lords, House of Commons, the Political Parties, the Prime Minister, the Cabinet, and the Cabinet Ministers are all elders. They are elders, we are youngsters. The order of precedence is such that the elders uphold, maintain, and maintain the prestige, privilege and dignity of the House of Commons and House of Lords respectively.

Mr. Speaker:—There are no two opinions that, in all financial matters...
specific provision in the Constitution dealing with the procedure, it is not illegal for the Government to give a reply either in the Legislative Council or in the Rajya Sabha even before they reply in the Assembly or in the Lok Sabha as the case may be. Whatever the practice in the past might have been either in the Rajya Sabha or in the Madras Legislative Council, I consider it not desirable that in all financial matters Government should give a reply enunciating policies or give any kind of preference or precedence in all financial matters to the Council.

However, I would direct the Government to make note of the views expressed by the hon'ble Leader of the Opposition and other hon'ble Members of this House and see that in future such things do not recur. I do not, therefore, consider that it involves any breach of privilege.

Shri Tenaveti Viswanatham:—Thank you, Sir.

Supplementary Estimates of Expenditure for 1961-62, and Demands for Grants for Excess Expenditure for the years 1956-57 and 1957-58

8 o'clock. Mr. Speaker, the Minister of Finance drew attention to a number of points which had been raised by the Opposition in the course of the budget discussion. He pointed out that there were many important matters which had been raised, and that the Government was happy to consider any suggestions which had been put forward. He added that the Government was also willing to consider any proposals which had been made in the course of the debate.

The Minister of Finance then proceeded to go through the list of estimates, and to explain the reasons why certain items had been included, and certain others had been excluded.

He pointed out that the Government was anxious to see that the country was provided with adequate facilities for the maintenance of public order, and that the police force was to be increased to meet this end.

The Minister also said that the Government was aware of the difficulties which were being experienced by farmers, and that it was determined to do all in its power to help them.

He then went on to discuss the matter of education, and said that the Government was planning to increase the number of schools, and to provide better facilities for the teaching of the children.

Finally, the Minister of Finance concluded by saying that the Government was determined to see that the country was provided with all the necessary facilities, and that it would do all in its power to ensure that this should be the case.

The debate then continued, and several Members of Parliament made speeches on various matters, and expressed their views on the Estimates.

The Prime Minister, Shri G. V. Krishna Menon, addressed the House, as follows:

Madam Chairperson,

I have the honour to submit Supplementary Estimates of Expenditure for 1961-62 and Demands for Grants for Excess Expenditure for the years 1956-57 and 1957-58. The details of these Supplementary Estimates are contained in a supplementary schedule accompanying these Estimates.

I do not propose to make any general observations on the Estimates at this stage, but would be pleased to answer any questions that may be put to me by the House on these Estimates.

I beg to move.

This statement has been prepared in accordance with the provisions of the Appropriation Acts of 1961-62 and 1957-58.

Sri K. Punnayya in the Chair.

*322 29th March, 1962.*

For the year 1961-62, various demands have been made for various purposes. The Supplementary Estimates provide details of these demands.

The administration has moved funds to meet the demands and has also included provisions for future expenditures.

The estimated expenditure for the year 1961-62 is as follows:

- **Defence**:
  - Military expenditure: Rs. 10,000
  - Civil expenditure: Rs. 5,000

- **Education**:
  - Primary education: Rs. 1,000
  - Secondary education: Rs. 2,000

- **Agriculture**:
  - Crop loans: Rs. 5,000
  - Rural development: Rs. 3,000

- **Health**:
  - Medical facilities: Rs. 1,500
  - Sanitation: Rs. 2,500

The estimated expenditure for the year 1961-62 is Rs. 20,000. The administration has moved funds to meet this expenditure and has also included provisions for future expenditures.

The administration has also included provisions for future expenditures in the Supplementary Estimates for the years 1956-57 and 1957-58.

The estimated expenditure for the year 1956-57 is Rs. 15,000.

The estimated expenditure for the year 1957-58 is Rs. 20,000.

The administration has also included provisions for future expenditures in the Supplementary Estimates for the years 1956-57 and 1957-58.

The estimated expenditure for the year 1956-57 is Rs. 18,000.

The estimated expenditure for the year 1957-58 is Rs. 22,000.

The administration has also included provisions for future expenditures in the Supplementary Estimates for the years 1956-57 and 1957-58.

The estimated expenditure for the year 1956-57 is Rs. 16,000.

The estimated expenditure for the year 1957-58 is Rs. 24,000.

The Central Bank loans are given as follows:

- **1956-57:** Rs 100,000
- **1957-58:** Rs 150,000
- **1958-59:** Rs 200,000

* (S. V. Sundarayya:—  Enquiry, do you mean that all the works should be stopped?

The Minister assented.  The Member was informed that the shift in cultivation was not the main works under the shifted cultivation scheme. After the works have been taken over, the contractor would be asked to work, and all the works would be completed.

The Minister stated that the free licences for the Scheduled Tribes Co-operative Development Corporation and the Forest Labour Societies would be exempted.

Forest Contractor: I am not aware whether any change has been made in the interest.

Forest Labour Societies: I am aware that the interest has been changed. It is now 10/- and 10/-.

Scheduled Tribes Co-operative Development Corporation: I am not aware what has been done. It is now 10/-.

The Minister stated that the works would be carried out under the shift in cultivation scheme.

Sir, I would like to inform you that the works have been completed in this month.

Mr. Speaker, Sir, may I bring the following for favourable consideration of the Government. The Government is kind enough to give grants under several heads; while giving such grants it is better that the Government takes into consideration the actual needs and geographical conditions of the area concerned. The backwardness of the area also needs consideration. The important thing that needs the Government's attention in our area is the inter-communication facilities. Most of the villages in my constituency do not have roads connecting one village with the other and even the existing roads are in a chaotic condition as many rivulets and streams flow across the roads and thereby the vehicular traffic is very much affected. The grants that are given to Kosigi Panchayat Samithi for the maintenance of the roads is hardly sufficient. Some of the rivulets badly require causeways to enable vehicular traffic without any impediment. Mr. Speaker, Sir, I would request the Government to allot more grants to Kosigi Panchayat Samithi for improving the inter-communication roads.

Mr. Speaker, Sir, T. Viswanadham had termed the Chairmen of Zilla Parishads and Presidents of Panchayat Samithis as feudal lords and Zamindars. It is really very unfortunate. Our beloved Prime Minister has great appreciation for Andhra Pradesh for pioneering the implementation of Balwant Rai Mehta's Report. Mr. Speaker, Sir, as a President of the Panchayat Samithi I have got the opportunity to have intimate knowledge of the working of Samithis and Zilla Parishads. No doubt, there may be some lapses here and there in the new scheme. Broadly speaking, the State of Andhra Pradesh is really enjoying the fruits of democracy under decentralized administration.

As another thing is, there is a long-charished wish of the commercial community besides the general public of Adoni taluk to have a road-bridge across the river Tungabhadra. This will enable the public to have commercial link with Raichur and other important commercial centres and a memorandum was also submitted to the Governor in December, 1958 regarding this. Mr. Speaker, Sir, I would request the Government to consider this and take up the matter with the Mysore Government and take early steps for the construction of the road bridge on Tungabhadra near Madhavaram.

Regarding rural electrification I would like to request the Government that some more funds need to be allotted for rural electrification. Most of the villages in my constituency do not have electricity and thereby the villages which are economically backward are deprived of using electricity for minor irrigation and industrial purposes. The Government was kind enough to sanction supply of electricity to villages like Rampuram, Belagal, Madhavaram etc. in my constituency but so far action has not been taken to implement it. Therefore request the Government to take up the matter immediately and extend
electricity to some more bigger villages in my constituency, viz., Nadichagi, Peddanakaduburu, Rowdur, Sajjalagudem and such other big villages which are in dire need of electricity. This will greatly help the ryots to bring a large extent of their barren land under cultivation and this will not only enable augmenting food production but also keep them economically in a better position. Mr. Speaker, Sir, I would once again request the Finance Minister to allot some more funds on this head.

Regarding minor irrigation, I would like to bring to the notice of the Government that the water in several rivulets in my constituency is simply wasted. If small anicuts are constructed across such rivulets it will be of great help to the farmers to bring their land under cultivation at least for the first crop.

The Governor in his address was kind enough to mention the speedy progress of Rajolibanda diversion scheme. If this project is completey quickly it will cater to the needs of not only the villages of my constituency but also the neighbouring villages of the other constituencies. I would also request the Honorable Chief Minister to use his good offices to take over the head-works of Rajolibanda project to our State. I would once again request the Government to allot necessary funds for the speedy execution of the scheme.

I thank you, Mr. Speaker, Sir, for having given me this opportunity to speak on the floor of the House.

The expenditure for the year 1956-57 was Rs. 12,000,000, whereas the estimated expenditure was Rs. 10,500,000. The demand for grants was Rs. 500,000.

The expenditure for the year 1957-58 was Rs. 15,000,000, whereas the estimated expenditure was Rs. 13,500,000. The demand for grants was Rs. 500,000.

The demands for grants for the years 1956-57 and 1957-58 were approved by the House.

The House has been asked to consider the demands for grants for excess expenditure for the years 1956-57 and 1957-58.

(Mr. Speaker in the Chair)

Mr. Speaker, I beg to move that the estimates for Co-operative Societies and Demands for Grants be approved. On this occasion, I wish to say a few words on the subject of Co-operative Societies. Co-operative Societies are not only important in their own right, but they also play a vital role in the development of rural areas. They provide a means for rural people to pool their resources and work together for their common benefit.

Mr. Speaker, I would like to take this opportunity to express my appreciation for the support given to the Co-operative Societies. The government has always been mindful of the needs of these societies and has taken steps to provide them with the necessary assistance. I would also like to commend the societies themselves for their hard work and dedication.

In conclusion, I believe that the Co-operative Societies are an integral part of the development of rural areas. They provide a means for rural people to improve their standards of living and contribute to the overall economic growth of the country.

Mr. Speaker, I beg to move.

(Mr. Speaker in the Chair)

Mr. Speaker, I beg to move that the estimates for Co-operative Societies be approved.

Concerning the role of Co-operative Societies in rural development, I believe that they are a crucial aspect of promoting economic stability and growth. These societies provide a platform for rural people to work together and achieve their common goals. They are also instrumental in the development of agribusiness and the processing of agricultural products.

In conclusion, I would like to emphasize the importance of supporting Co-operative Societies. Their contributions to rural development cannot be overstated. I urge all members to support the approval of these estimates.

Mr. Speaker, I beg to move.

(Mr. Speaker in the Chair)

Mr. Speaker, I beg to move that the estimates for Co-operative Societies be approved.

Remunerative projects are those projects aimed at increasing the productivity of land in upland areas. These projects include activities such as terracing, the construction of farm roads, and the provision of water for irrigation. The aim is to improve the economic condition of the farmers and to increase the yield from their land. The projects are designed to be self-sustaining and to provide a steady return on investment.

Progressive decentralisation is a general policy to decentralise power, responsibility, and decision-making. This involves dividing national responsibilities among local authorities. It is a strategy to improve governance by making it more responsive and accountable to the people. It is believed that this approach can lead to more efficient and effective service delivery.

The government has also taken steps to ensure that the rights of Scheduled Castes, Scheduled Tribes, and other backward classes are protected. In exercise of the powers conferred by the Scheduled Castes and Scheduled Tribes (Remedial Measures) Act, 1950, the government has taken several measures. These include:

1. Grant of land free of cost for housesites;
2. Grant of scholarships or educational facilities;
3. Grant of financial assistance;
4. Scheduled Castes, Scheduled Tribes and Other Backward Classes Court fees.

In exercise of the powers conferred, the Government of Andhra Pradesh hereby remits in the whole of Andhra Pradesh the fee chargeable under the said Act in respect of an application or petition made to the Government, the Board of Revenue or any Public Officer by persons belonging to Scheduled Castes, Scheduled Tribes and other backward classes, including Vimukthi jatis or by associations belonging to the aforesaid classes in respect of the following matters viz:-

1. Grant of land free of cost for housesites;
2. Grant of scholarships or educational facilities;
3. Grant of financial assistance;

4. grant of subsidies to private hostels; and

Rural electrification is to be accelerated during the Third Plan. Rural electrification is to be continued at the same pace as in the Second Five Year Plan and the tempo to be kept up as in the Second Five Year Plan. The Regional Committee, on completion of the Upper Pennar Project, has recommended the extension of the Project to the border region. The Upper Pennar Project is an important project for border development. The Project is to be extended to the border region. The betterment tax has been assessed and assessed. The Revenue Department has assessed the betterment tax and assessed the lands distribution.

Minor irrigation and neglect: A minor irrigation is neglected if it is not maintained. All round satisfaction is required. Rare minor irrigation is neglected in the initial stages. Some minor irrigation works are affected by famine. Famine is a problem. Minor irrigation works are subsidised. The major project is to develop minor irrigation works. Tank bed areas and minor irrigation are developed. Rainfall is a factor. One is not to the exclusion of the other. Government of India is responsible for the minor irrigation works. Tank bed areas are developed. Electric supply is also important. Concentration of power is important. Council is responsible. Honest opinion is important. Local authorities are responsible.

29th March, 1962. 369

The situation regarding land reforms is as follows: In 1958, a committee was appointed to examine the Land Reforms Act and to examine the Land Reforms Committee report. The committee's report was divided opinion and the recommendation was not accepted. Head of the

Regional commissioners, the secretary of the Revenue Board, and the entire work of the Secretariat were divided opinion. The recommendation was not accepted. Head of the

Department merge major decision. A dissenting note.

The Accountant-General has therefore intimated that this Government will have to repay Rs. 1, 450.90 lakhs as against the budget provision of Rs. 1, 395.47 lakhs. Hence an additional sum of Rs. 1, 455.43 lakhs is included in the supplementary statement.
The excess expenditure is due to larger payment of allowances to Village Officers consequent on large collections of Kist. The Village Officers in the Telangana area are paid remuneration in the form of commission which is worked out on a percentage basis on the land revenue collections for the village. The remuneration due to the village officers is first deducted from the land revenue collections and the balance only credited to “VII-Land Revenue”. As such the actual expenditure will be fluctuating and proportionate to the land revenue collections. As the land revenue collections during the year 1956-57 were higher, larger remuneration was paid to the village officers. Hence the excess.

Sri E. Ayyapu Reddy:—The Panchayats do not have the power to acquire patta lands. In most cases, these latrines have to be situated only on patta lands. Will Government take care to see that these
Panchayats are empowered to take land acquisition proceedings for the acquisition of patta lands for the situation of latrines?

Drinking water supply, toilet arrangement, personal hygiene, and health education are essential components of the rural sanitation scheme. Drinking water supply in the village is important for hygiene and health. The preliminary investigation of drinking water supply in the village is necessary. The result of the investigation is significant for the provision of drinking water. The tests are conducted to ensure the quality of water. The rural sanitation scheme is a significant effort to improve the health and hygiene of rural areas.

Mr. Speaker: Hon. Sri Sundarayy’s point is that on a representation made by him and others, the then Chief Minister and also the Finance Minister gave an assurance.

Sri K. Brahmananda Reddy:—No, Sir. I was never a party to any such thing.
