(b) is it also a fact that the same issue of bonus for 1960 when requested by the Juteeya Jute Karmika Sangam registered in 1962 for adjudication in 1962 was referred to Industrial Tribunal, Hyderabad by the Government, in its G.O.(Ms.) No. 1330 Home (Labour-I) Department, dated 20th July, 1962; and

(c) if so, the decision thereof?

The Minister for Labour and Transport (Sri B. V. Guruswamy): (a) The Jute Labour Union represented to the Commissioner of Labour on 4-11-1961 for an enquiry into the demand for bonus for 1960. The Commissioner of Labour after enquiry into the accounts of the company found that they had actually incurred loss of about Rs. 35,000 and hence the Commissioner of Labour himself gave a reply to the Union that the demand was untenable.

(b) Yes, Sir.

(c) While the dispute was under adjudication before the Industrial Tribunal the parties viz., Management and the workers entered into a compromise and settled the dispute under which each worker will get one day's wage for every $37\frac{1}{2}$ days of attendance as bonus. CALLING ATTENTION TO A MATTER OF URGENT PUBLIC IMPORTANCE

re: Rise in prices of Food-stuffs

Dear Sir,

I have the honour to bring to your notice a matter of urgent public importance, namely, the rise in prices of food-stuffs which has been observed in recent times. The retail prices of essential commodities such as rice, sugar, and oil have increased significantly. The following are the details:

- Rice: The average retail price has increased from Rs. 37-66 to Rs. 42-66 per quintal. The highest price recorded is Rs. 65 per quintal.
- Sugar: The retail price has increased from Rs. 33-33 to Rs. 38-38 per lb.
- Oil: The retail price has increased from Rs. 38-38 to Rs. 42-42 per lb.

In order to control the price, fair price shops have been established. However, the supply is not sufficient to meet the demand, leading to a shortage of essential commodities.

The slack season and the control rate are factors contributing to the rise in prices. It is necessary to take immediate action to stabilize the prices and ensure adequate supply to the public.

Yours faithfully,

Business of the House

May I know whether the motion moved by Mr. Gangisetty will be sent to the Privileges Committee?

Mr. Speaker: I will just get it examined.

Sri E. Ayyapu Reddy: May I know whether the motion will again come to the House?

Mr. Speaker: He has given notice in writing. I will get it examined.

Sri E. Ayyapu Reddy: I am asking whether it will come again before the House because we also want to speak about the unfair reporting of the proceedings of the House made in that paper.

Mr. Speaker: I will consider about it.
Mr. Speaker: That is regarding the statement made by the Hon. Chief Minister. I remember I have disallowed that privilege motion.

When you said you would consider the decision. Perhaps that procedure may be useful and helpful.

Mr. Speaker: Mr. V. Satyanarayana has also written a letter to the Chief Minister. Immediately after that, the concerned Sub-Collector was transferred to a distant place. I feel in those circumstances it was not necessary to allow the motion. If in future a similar thing happens certainly we will take action. In fact, I was also particular.

Mr. Speaker: In view of Chief Minister's reply later on I passed orders disallowing the motion. It has been communicated to you also. I think that it is not essential.

Mr. Speaker: In fact, if I remember correct Mr. V. Satyanarayana has sent it to me by post.

It was raised in the House.
Mr. Speaker: *So you want the House to know the result.

Sri Vavilala Gopalakrishnaya: Yes.

Add the following at the end:

But regret for the comment of the Government, the "Government is watching the conditions, to take up suitable relief measures in the areas where the Agricultural crops have suffered a heavy and great damage due to either draught, excessive and untimely rains or floods". For, although there are areas where the crops have miserably failed during 1962-62, with hardly anything left for their maintenance, and yet the Government collected full land revenue at the new enhanced rates,
instead of granting necessary full remission of the land revenue as an immediate relief, as mere watching would neither help the Agriculturists in any way nor improve their condition and ameliorate their grievance.

(c) Amending the very Constitution itself by the proposed 17th Amendment, thereby completely doomed the fate of the Agriculturists and making them dependant upon the sweet will and pleasure of the Government or the forced cooperatives.

Add the following at the end:

But regret for the failure of the Government to provide free and compulsory education, within even 13
years of the commencement of the Constitution of India, to all the children in the state until they complete the age of 14 as ordained by the directive principles of state policy.

rains in Divi taluk and Bandar taluk despite the fact that the peasants have been demanding for a long time.

Add the following at the end:

To the Governor of the State of...
Motion on Address by the
Governor

[14th November 1963]

Hon'ble Members:—

I am privileged to move the Address of the Legislative Assembly of the state Asainning a vote of CREDIT for the Administration of Government for the year 1963-64.

I am not going to speak at length and I am glad that my colleagues have already spoken on this subject; but I must thank them for their valuable contributions.

The problems that have faced the Government of the State during the year 1963-64 have been many and varied. The difficulties of the past have led to better thought upon the future and it will be pleasant to think of the progress that has been made in the State.

Let me begin by saying that our financial situation has improved. We have not been able to bring the budget into balance, but the Government has been able to meet the deficit without any increase in taxation.

The Government has been able to provide adequate finance for the development of the State. A large number of projects have been started and many others have been completed.

Agriculture has been a major concern of the Government and a number of schemes have been initiated to encourage farmers. The Government has also been able to help many industries and traders.

Health and education have also been given due attention. A number of hospitals and educational institutions have been established and the existing ones have been improved.

I am sure that the State Assembly will give a very hearty welcome to the Address of the Governor and the State Government will give a very hearty welcome to the Members of the State Assembly.

Thank you.

Yours faithfully,

Mr. Speaker: Amendments moved.
14th November, 1943

Motion on Address by the Governor

(Mr. Deputy Speaker in the Chair.)
Sri E. Ayyapu Reddy: Mr. Speaker, Sir, I support the Motion of Mr. Dass. I do not want to dilate on the various topics, but I want to confine myself to one topic, i.e., the Rajahmundry Paper Mills. Of course, there has been severe criticism about the intended intention of the Government to give up this and give it to the private sector. I read in the paper, Sir, though I did not have the advantage of hearing Mr. Vavilala Gopalakrishnayya, that it indicated the Congress brand of socialism. Similar to this or on the same lines was the criticism of some of the leading Members of the Opposition. But...
the same time, Sir, they have been criticising the administration, and the lapses in the administration, the red tape, the delays in the red tape and all those things. In to-day’s papers we read that Shri Tenneti Viswanatham had stated that one of the teachers received orders of approving his probation after his retirement. The administrative machinery which we have to-day is not our own making. We have inherited this administrative machinery—one from the British Government and the other from the State of Nizam—and this has been a combination of both. We have to mould it to a Welfare State and to a Socialist State. It is not an easy thing to change the system of administration so that the administrative set up can function with a motive, with an object and for a goal. Everybody knows, Sir, that socialism instead of being a boon will be a curse if its implementation is entrusted to lethargic and inefficient administrative machinery. In my humble opinion, greater harm has been done to socialism in India by half-hearted attempts at socialism than by anything else. Even I have been complaining to some of my socialist friends that their raising the slogans in season and out of season and not trying to stick on to that has been harming the cause of Socialism. But today we have not been able to convince the peasant, the labourer and all those people about the sincerity of our object in travelling towards Socialism merely because some of our attempts have proved to be utter failures. So far as Rajahmundry Paper Mills is concerned, we have been seeing in every Budget Report that it has been running at a loss. I congratulate the Government for its honesty in coming forward to admit that this institution has been running at a loss and that they have not been able to tackle it. It is easy to tell the Government that they must stick to their principles or even to challenge the Government that “if you are not going to improve the
administrative machinery, I will improve it." But the methods have not been suggested. It is a question of finding fault with the Government. Nobody has suggested where exactly is the defect and nobody has taken care to go and examine the present set up and find out where lies the mistake and with what particular department and whether it was in the supply of raw material or whether it was with reference to machinery that is now there or whether it was with reference to production and distribution. All those details have not been worked out.

Mr. Speaker, Sir, it is very easy to make high-flown speeches about socialism. But we, instead of sticking on fanatically to isms, care for realism and admit some of the hard truths, it would be better for the State and for the people. I am reminded of the orthodox Hindu Brahmin widow who cares more for the form rather than for the essence of religion. Some of the high slogans of socialism cry hoarse that the State Government is giving up everything away into the hands of private hands and in the same breath begin to criticise the Government for some of the lapses of the administrative machinery in implementing some of the nationalised schemes. For example, Sir, the Government has taken over the nationalisation of transport in Kurnool District and everywhere there has been criticism of the nationalisation. Every ordinary citizen is now out against this nationalisation of bus transport. Similarly this has been the attitude of the ordinary citizen in the Districts where bus transport has been nationalised. Nationalisation is not an easy thing. It requires a very effective and an efficient administration wherein each citizen works conscientiously and he does not indulge in any type of anti-social and anti-state activities. Until we get that civic consciousness we will not be in a posi-
tion to attempt at socialism. So far as the Government is concerned, instead of sticking on to mere slogans or paying mere lip-sympathy to the so-called isms, it is better that it realises the hard realities and prunes its administrative machinery and its resources to what is actually obtained in practice. We know, Sir, we have got so many principles and we have got so many directive principles in our Constitution and we will not be able to implement all of them. It is absolutely fool-hardy to attempt to implement them all of a sudden or even in the near future. We know, Sir, that prohibition as a policy is good, but when it is not possible to implement it, it is better not to attempt it. It will be very difficult to convince people about prohibition being good when it is implemented half-heartedly. The criticism is that the Government has failed to implement the policy. I am not able to understand such a criticism because, is it possible for any Chief Minister or for any other Minister or for a few top secretaries or top officials to go and implement it? If a bus conductor or a bus driver entrusted with the collection of money misuses his position and pilfers from the bus fare collections, will it be possible for any person to go and check? We all know that the greater the number of officials, the greater will be the difficulty in checking up their conduct every day. So far as the Nationalisation is concerned, it is better that the Government takes into consideration the present administrative machinery, its resources and its capacity to implement them and go slow as far as possible. I am not here to advocate the cause of the private sector. I am as much for Socialism as any Member of the opposition. But let us not do harm to the cause of Socialism by half-heartedly implementing it in an inefficient manner. I do not want to devote myself to any other topic.

Thank you, Sir.

Mr. Speaker, Sir, let me at the outset support the motion of thanks moved by Sri L. Lakshmana Das on the Address of the Governor. The Address of the Governor is pregnant with all the aspects relating to economy, planning and other fields. In this respect, I would like to submit to the House the following points.

Regarding panchayat Raj, I would like to say that with the advent of panchayat samithis in the year 1959 Andhra Pradesh gave a lead in the country to the decentralized set-up of administration. Though the set-up was new to the non-officials in particular, I as one associated with the administration of panchayat samithis feel that the institutions have fared very well; and at this infant stage there may be instances of mismanagement here and there, but such instances need not be taken as a grave irregularity. I may also submit that it will not be proper to say that the decentralized set-up has not worked properly.
Regarding decentralized panchayat samithis, I would like to say a few words. The question of redelimitation of the existing samithi-blocks at this juncture is too premature and will greatly affect the very conception of decentralisation, and the efficient care and supervision now being evinced in the administration of panchayat samithis will be greatly affected if the area of the panchayat samithis is enlarged. I would also submit, Sir, that in the interests of efficient administration of panchayat samithis, the idea of delimitation may be deferred and the samithis may be given an opportunity for at least another term of work in the existing set-up.

Another thing I would like to submit is the construction of road-bridge across the river Tungabhadra near Madhavaram in my constituency and it is a great desideratum, and I would like to submit the following points in support of my contention. (i) It will greatly improve trade and commerce between Alur and Adoni taluks of the erstwhile Bellary district and Raichur district, two very big nerve centres; (ii) It will connect the South and the North on the National Highway; (iii) During the time of Krishnadevaraya troops and cavalry, etc., were said to have been crossing Tungabhadra river at Madhavaram. It used to be called in those days as a Mahadwaram to Krishnadevaraya empire; (iv) This will greatly help the traffic by shortening the distance to Hyderabad. Even during the second world war, the railway bridge across Tungabhadra was used for the movement of military trucks.

In this connection, I would like to submit that the Government of Mysore have constructed three bridges within a distance of 15 miles, one at Mannarpet, another at Hampi and the third at Siruguppa. I would urge the
Government in all humility to consider this sympathetically and take up the work before the conclusion of the Third Plan or at least in the Fourth Plan.

Last but not the least, I would like to submit that recently Srimathi M. S. Subbalakshmi, a great exponent of Carnatic music was sent by the Government of India to the Edinborough Festival and everybody knows that she had won the universal appreciation. Our State does not fall short of talent. In our State there are several people of histrionic talents and in the dramatic field. Telugu language is said to be a sweet language and is widely known as Italian of the East. In this regard, I would urge on the Government to send a cultural delegation of dramatic troupe to South Eastern countries to stage dramas like Kurukshetra to promote our culture.

Another thing I would like to submit, Sir, is there are some bottle-necks in the ayacut development in Tungabhadra project area. In this connection, the time that is allowed and at my disposal is too short and it will not be possible for me to explain all the matters to the Government in detail. Anyhow I will submit a memorandum to the hon. Chief Minister for consideration.

Lastly, I would like to submit that the hon. Chief Minister and the hon. Finance Minister will kindly reconsider the issues in respect of N. G. Os and do what best is possible to help their cause. With these few words, Sir, I will take my seat.

Decentralisation during the 1960s reflected the significant shift towards greater autonomy. The role of state-owned enterprises diminished, while private management gained prominence. Incentives were introduced to encourage private management in the state sector. Handover of Allwyn factory to private management was a significant step. Municipalities nationalised state sector management, leading to a shift towards private management. Paper inflation was a concern, and policy was developed to address it. Technical education, including engineering colleges and medical colleges, received increased funding. Road transport was nationalised, and technical education was expanded. The Third Five Year Plan allocated funds for technical education.

Motion on Address by the Governor

[14th November, 1963]

Allotment — This case may have been discussed in the past. However, it is now necessary to consider this matter seriously. The present allotment of lands is not adequate to meet the needs of future generations. The existing allotments are insufficient to accommodate the expanding population. It is imperative that future allotments be increased to meet the demands of the next generations.

I do not think the Planning Commission will object to this proposal. However, if the commission objects, I am prepared to seek its approval. The future generations will be grateful for our efforts to ensure a sustainable future for them.

Mr. Speaker: The question is:

peal the additional land revenue assessment and cess revi­
sion Act of 1962, which became a law last year, in the
teeth of opposition and to the detriment of the Agricultu­
rists concerned being the feeders of the nation.

But regret for the comment of the Government "the
Government is watching the conditions, to take up suit­
able relief measures in the areas where the Agricultural
crops have suffered a heavy and great damage due to
either draught excessive and untimely rains or floods.
For, all though there are areas where the crops have
miserably failed during 1962-63, with hardly anything left
for their maintenance, and yet the Government collected
full Land Revenue at the new enhanced rates, instead of
granting necessary full remission of the Land Revenue as
an immediate relief, as mere watching would neither help
the Agriculturists in any way nor improve their condition
and ameliorate their grievance.
Add the following at the end:

But regret for the failure of the Government to take adequate and necessary steps to assure better market prices to the Agriculturists for their commodities particularly when they have grains with them during the harvesting season.

(b) Taking out the incentive from the Agriculturists to grow and produce more food by forfeiting his rights of beneficial and free enjoyment of the landed property under one or the other pretext;

(c) Amending the very Constitution itself by the proposed 17th Amendment, thereby completely doom ing the fate of the Agriculturists and making them dependant upon the sweet will and pleasure of the Government or the forced co-operatives.

Add the following at the end:

But regret for the failure of the Government to provide free and compulsory education, within even 13 years of the commencement of the Constitution of India, to all the children in the state until they complete the age of 14 as ordained by the directive principles of state policy.

The amendments were negatived.
