The question was: "Responsible administrative job is also a main consideration. In a particular committee there will be several members including M.L.As. and non-officials. It cannot be otherwise. There is therefore no question of letting down anybody or running down anybody.

To this the Learned professor said, 'It is not necessary to lower the standards of Post holders by taking them below the average. There are several members including M.L.As. and non-officials. It cannot be otherwise. There is therefore no question of letting down anybody or running down anybody.'

FORMATION AND REPAIRS OF ROADS IN KRISHNA DISTRICT

whether there is any proposal with the Government to provide additional financial allotments to the Samithis in Krishna District for formation and repair of roads washed away by the recent floods?

It was seen that in a few districts the amounts required are small while in others the demand is in lakhs. The Government considered that it would be better to sanction the total amount in the case of the former because the Zilla Parishads will spend those amounts.

Mr. Speaker:— That is a separate question.

Dr. M Chennareddy: If you permit me Sir, I can give the information. 58 or 200 lakhs as the case may be.

(c) The Collector has reported that the Panchayat Samithi has resolved to name the Primary Health Centre in the name of Smt. P. Subbayamma but as no proposal has been received by Government no orders have been issued in this regard.
Mr Speaker - Enquiry to be made by whom? Not by the R.D.O again.

Dr. M. Chenna Reddy: I can make it even the Collector to enquire into the matter.

Shri Tenneti Viswanatham: - But why should he put in a petition again. Now a question has been raised here. Can't the Minister take action upon what has been said here.

Mr. Speaker: - A petition was sent. Enquiry has been made by the R.D.O and a report sent. He is not satisfied with the enquiry made by the R.D.O. If he wants a further enquiry to be made into the matter, then the Minister has got to order the Collector to make the enquiry to see whether the enquiry by the R.D.O. was correct or not.

Shri Tenneti Viswanatham: - So far that is all right. Whenever we make a suggestion, can't the Minister take action upon the suggestion made and in the meanwhile the old petition can be lodged altogether.
Dr. M. Chenna Reddy:- No, Sir. I would submit that even if the old petition has to be lodged, I have suggested in all fairness to the hon. Member to give me an opportunity once again to give a fresh application. I have not stated deliberately this fact because the petition is not signed by any particular individual for making any enquiry. This is to avoid all these difficulties. I have suggested to the hon. Member to give a fresh application. The hon. Member from the concerned constituency is in agreement with the suggestion. Shri T. Viswanatham may not agree, but I presume Shri Veerabhadra Rao is agreeable.

Shri Tenne: Viswanatham:- I am very sorry for what the hon. Minister has stated. Any Member can make a suggestion and pursue any question. At any rate when a Member is not satisfied with the answer, he can pursue the question and it is quite parliamentary and it is also good for the Ministers to follow up the suggestion. What I have said is not only with regard to this particular question. A Member has raised a point here and when the Minister is willing to pursue the matter, why insist upon a separate petition? That is what is happening here and that is why I am raising this point. There is nothing personal against the Planning Minister. What I say is this: When we raise a point here, it is good that it is pursued. There was a habit previously in the Secretariat also that when a matter is raised here, the matter would be marked and sent to the concerned Minister for further action. I do not know whether the practice is going on. I would request the hon. Minister to follow up the suggestions made here and at least when he is satisfied that they are correct.

Dr. M. Chenna Reddy:- Sir, I have nothing to comment upon the suggestion by the hon. Member. Broadly it may be correct. But in this case, the original petition was found to be defective and inadequate. In fairness to the hon. Member, I have asked him to give a fresh application so that I could get the enquiry made by the Collector, not that the Government is not going to take further action.
236 26th March, 1964 Oral Answers to Questions

Mr. Speaker:— Was it signed by anybody. It was not even signed by anyone.

Mr. Speaker:— According to what he is saying, the petition is not even signed. What is the harm in the Member sending a Memo to the Minister giving all the details so that he may get the enquiry made by the Collector.

(b) Three,

APPENDIX I

NOTE IN RESPECT OF CLAUSE (d) OF L. A. Q. No. 3553 (UNSTARRED)

The affairs of the Nellore Co-operative Urban Bank Limited, Nellore are not properly managed for some time past. The following serious lapses, shortcomings and irregularities have been noticed in the working of the bank.

The Board of Directors of the Bank is not functioning in a team spirit as responsible representative of the members. It is faction ridden. On 30-5-1963, 40 members of the Bank presented a requisition for calling for a meeting of
the general body of the bank. The Board failed to convene the meeting of the General Body within one month as prescribed in bylaw 31 of the bylaws of the Bank.

2. At the Board meeting held on 12-9-1963, 5 Directors voted for keeping in abeyance the amendments to bylaw 20 (1) registered by the Deputy Registrar, while 4 directors voted for the implementation of the amended bylaw. Again the Board in its meeting held on 16-10-1963, requested the Deputy Registrar to cancel the registration of the said amendment to the bylaw 20 (1). Thus it is evident that the Board by a majority is not prepared to implement the amended bylaw passed by the general body of the Bank and registered by the Deputy Registrar.

3. The Directors of the Bank did not meet as often as possible to transact the business of the Bank. During the period from 1-3-1963 to 31-10-1963, 8 meetings were adjourned for want of quorum.

4. The policy adopted by the Bank in admitting members is not uniform. The Directors did not dispose of the applications for admission as and when they were placed before the Board.

5. As on 30-9-1963 the overdue loans due from members amounted to Rs. 1,78,496. The percentage of overdues to demand ranged from 85 to 93 during the last 1½ years. The Board of management is responsible for the accumulation of heavy overdues on account of defective loan policy and slackness in recovery of dues from members as enumerated below.

(a) Sanctioning loans without proper assessment of repaying capacity of the borrowers.

(b) Issue of fresh loans to same members even though old loans are outstanding.

(c) Failure to conform to the opinion of either the investigating director or the office in sanctioning loans.
280 26th March, 1964 Written Answers to Questions

(d) Over-estimating the values of the properties mortgaged by borrowers and sanctioning over and above the limit of 50% of the market value of the said property against the provisions of bylaw No. 44 (3) of the bylaws of the Bank.

(e) Granting time for repayment of dues at the request of the defaulting members, accepting small remittances from judgment debtors.

(f) Failure to place before the general body of the bank and to report to the Registrar, the cases of extensions given by the Board for repayment of loans by members as required under bylaw 47 of the bylaws of the Bank.

(g) Formation of a Sub-Committee for recovery of dues from members, without provision in the bylaws.

(h) Failure to close the loan account of the borrower, if he defaults but insisting on the issue of three registered notices to the borrowers, for which there is no provision in the bylaws or Regulation.

HAMLETS ANNEXED TO THE REVENUE VILLAGES IN TELANGANA AREA.

300—

3259 Q.—Sri P. Mahendranath:—Will the hon. Minister for Revenue be pleased to state:

(a) the number of hamlets annexed to the revenue villages in Telangana area;

(b) the number of hamlets having a population of 500 or more out of them;

(c) whether the Government propose to recognise the hamlets having sufficient population as revenue villages; and

A:- (a) and (b). Information is not readily available. It will have to be obtained from the village level from all the Districts of Telangana area. The information required has therefore not been obtained and furnished.

(c) There is no such general proposal, Sir, but individual cases may be considered on merits.

(d) Recognition of hamlets as revenue villages as a general principle will lead to alteration of village boundaries and corresponding changes in village and Taluk records etc, with no great advantages. However individual cases can also be treated as exception.

Calling attention to matters of urgent public importance.

re:- Fire accidents in Arepalli and Gollamadas Village of Nirmal Taluk.

Sri P. Narasa Reddy: Sir, about a fortnight back unfortunately two villages were very badly affected by fire accidents in Nirmal Taluk. Arepalli village is a small village but nevertheless, about 16 to 12 houses were burnt in which about 7 houses were pucca houses with tiled roof having good value. Due to these accidents in Arepalli, not only grains and cloth but some money and other ornaments, gold and silver, were burnt and the villagers were put to loss.

Now, in this respect, the local panchayat samithi and the local persons tried their best in giving assistance to the fire victims, but that assistance may not be sufficient. The villagers as well as the sarpanch and the panchayat samithi president have submitted applications to the revenue authorities to the Lahauldar and Collector also for necessary aid.

Similarly, Another village, Gollamadas village, is about 15 miles west of Nirmal headquarters. There also as many as 10 houses were burnt and out of those 10 houses 9 houses belong to Harijana and the estimated value of the loss incurred is about Rs. 10,000/-. Now, Mr. Speaker, Sir, the information that was sent to me discloses that there seems some of the peasants Harijana had said their exam for performing certain marriages in their houses and unfortunately the notes and money also were burnt. Now all these 10 families in Gollamadas village are poor and they are at the mercy of the villagers there. Unfortunately, Gollamadas village is a factional village and there the people do not come forward in giving them necessary assistance.

I would invite the attention of the Government to the fact that in these villages merely giving Rs. 50/- or Rs. 50/- may not be sufficient. This sum of Rs. 50/- or Rs. 50/- is
given in the shape of timber through the Forest Department. The practice has been that the fire victims are to apply to the Tahsildar and the Tahsildar would give instructions to the concerned forest officials who in turn would instruct their foresters and forest guards to mark out certain standing timber which is useful for residential purposes.

(Mr. Deputy Speaker in the Chair)

By the time, the timber is marked and by the time it is given to the victims, it will take not less than five to six months. Apart from the great loss and mental anxiety, these victims are being driven from pillar to post even in getting the paltry amount for constructing their houses. So my submission is that Government should not only give timber worth Rs. 30 to 50 to them but also make available to them zinc sheets for construction of their houses by issuing the necessary permits from the Controller or from the Assistant Director, Commerce and Industries, so that they can put up their own houses.

In these two villages, the loss estimated is about Rs. 20 to 25 thousands. Under the previous circulars, the Collector was empowered, either from the Zilla Parishad fund or from Revenue fund, to give them necessary assistance upto Rs. 500. At least, in this case, adequate amounts may be given. Also, under the social welfare schemes wherever the victims are Harijans the grant-in-aid under housing schemes or loans may be advanced on top-priority basis and the fire victims may not be driven from pillar to post and get the amount after seven or eight months when they are put to greater hardships and greater loss. In this regard, I invite the attention of the Government to give quick and necessary assistance.

The Minister for Revenue (Sri N Ramachandra Reddy): Sir, latest information has been obtained by phone. The particulars of these two fire accidents are noted below:

re: Heavy penalties imposed on cultivation of objectionable portions of poromboke lands in the Famine Taluqs like Madanapalli, Vayalapadu etc.

The Minister For Revenue (Sri N. Ramachandra Reddy):— Sir, Ordinarily penalties will be imposed on any of the unobjectionable cultivable land but it is not known in which of the cases any such penalties were imposed or on what grounds. However, a report has been obtained from the Collector, Chittoor, who has stated that no penalties were levied on the cultivation of unobjectionable portions of poromboke lands and that only in objectionable cases of occupation of poromboke lands, penalties were levied for the Fasli 1372. In Voyalpad Taluk, the Collector has stated that on an extent of 2,637.13 acres of objectionable cultivation with an assessment of Rs. 5,944.50, an amount of Rs. 6,005.78 alone was levied as penalties. Similarly in Madanapalli Taluk on an extent of 3,005 acres of objectionable cultivation carrying an assessment of Rs. 6654.00, penalties levied were Rs. 32,244 out of which an amount of Rs. 1800 was remitted on appeals. This is probably due to the persistent cultivation of highly objectionable lands required for community purposes. The number of encroachers involved in Madanapalle Taluk alone is 9587.

Sri D. Seetharamiah:— For my second point, there is no reply at all.

Sri N. Ramachandra Reddy:— Penalty levied to the extent of 10 times. From 30 times, it has been reduced to 10 per cent.

Sri D. Seetharamiah:— Even that 10 per cent is too high.

Sri N. Ramachandra Reddy: No doubt, it is high. They should apply to Government and obtain permission before encroaching. Persistently, this encroachment is taking place and irregular irrigation is on the increase, with the result that the original ayaacut is suffering. That is why these penalties are levied.

Annual Financial Statement (Budget) 26th March, 1964

Voting of Demands for Grants

The Chief Minister, talking to the newsmen to-day pointed out that while the total withdrawal of the Additional Assessment Act as demanded by the Opposition was out of the question, the Government was anxious to remove the hardships caused to the rights due to the mis-interpretation of the provisions of the Act.
The Government had already appointed a Committee with the First Member of the Board of Revenue and the Chief Engineer, Irrigation to review the categorisation of the various sources of irrigation for purposes of additional assessment.

The report of the Committee was expected shortly. In addition to the report of the Committee the Chief Minister was prepared to sit along with the Opposition leaders in order to consider cases of injustice done to the ryots with a view to eliminate it.

The Chief Minister reiterated that the Government had no intention to retain a single rupee more than Rs. 480 lakhs, being the estimated yield of additional assessment. In case it was proved that the recovery was in excess of the sum, it would be refunded to the peasants.
Denying that the Government had ever made it an issue of prestige, the Chief Minister had claimed "to have made a most reasonable gesture by substantially conceding Opposition demand regarding the banjar lands. The Government had offered to assign pattas to all those landless who were in possession of banjar lands and with or without authorisation.

"The Government had offered to assign pattas to all those landless who were in actual possession of the banjar lands, with or without authorisation."
appointment of local committees with representation for the Opposition for guiding the authorities in the issue of pattas to the actual tillers and who were landless

(Mr. Speaker in the Chair)

The Chief Minister hoped that the Opposition Leaders would head to this and the Satyagrahis withdraw the satyagraha ...

The Government was also willing to assign some of the forest lands to the landless poor, provided that these lands were not under regular afforestation.

Shri P. Antony Reddy: (Anantapur). Mr. Speaker, Sir, I second the Motion of this particular Demand on General
Administration, Heads of State and so on. We know, Sir, that the Government with all good intentions is trying to do what all is possible. Just to counteract rather than improve the administrative efficiency, a few years ago, they appointed the Administrative Reforms Committee to see that administration is run more efficiently and also similarly they tried to even reduce the red tape and see that things move quicker than before. To eradicate corruption the Government have recently instituted Anti-Corruption Department and also they have strengthened the Tribunal for Disciplinary proceedings. I know Sir that the Government is trying to do things in an efficient way, but still we felt sometimes that things are not being done as we would like to have them. I agree with the suggestion of the Leader of the Opposition that the Ministers and the Government should take M.L.A.s into confidence. In the Assembly we draw attention to the various loopholes or defects in the running of the administration, but very often these things are not attended to. I am not here to blame the Ministers. They are over-burdened; there are any number of files to be looked into, any number of visitors to be interviewed. Under pressure of such heavy work, they are likely to forget many things. But the suggestion of the Leader of the Opposition that every Ministry should have a sort of Consultative Body composed of Legislators and also a few officers, is given effect to, I am sure that the Consultative Body would be able to enlighten on the defects of the Administration and also they will be in a position to push through the criticisms and rectify the defects and I am confident that the Chief Minister will consider the suggestion offered by the Leader of the Opposition and at least hereafter constitute a Consultative Body of Legislators and a few Officers so that the defects may be found out and remedied and better reforms are put in effect to make administration more and more efficient.

Secondly, we know, Sir, that the Ministers have been doing very good work. I do not say that the Ministers are
omniscient. They are likely to commit mistakes and added to that are handicapped by finances. Inspite of this particular impediment, lack of finances, they have been doing good work. Even sometimes I dream that our Finance Minister, now the Chief Minister has the power of golden touch of King Midas greek lore and when Midas daughter became gold with his touch, he had to request the fairy to withdraw it. But in the case of our Chief Minister there is no such fear and that is because he has no children.

Next I feel, especially when we go to the Secretariat and meet the officers, that there is something lacking in our officers. Many of the Officers, a good percentage of them are good. I feel that they are the victims of the bureaucratic system in the country. They cannot feel things and that is because of the type of bureaucratic system. We know they do things like a machine. They rarely show sympathy and often they are led by rules and regulations rather than a sense of justice and commonsense. Therefore, I wish that our Officers change their outlook; they should not feel that they are a sort of instrument in this bureaucratic system; they must feel that they are given the position and power in order that they may serve the people better. If the outlook of life is changed, I am sure our officers will be really efficient and things will run much smoother than before. As I just now said, our officers also feel that because of the system of red tape they are not able to do things even if they like quicker. I give a simple case. A paper was despatched from the office of the Director of Public Instruction on 2-1-1964. The officer had signed it and the paper was to be despatched. But when the paper was received in the Secretariat on 5-3 1964, it took more than three months just for despatch only. What is the reason for this? Nobody is able to find out the reason. That is because we are in the grip of this particular system and nobody is able to find out the loopholes and see that things run properly. The paper related to a change in the date of birth in the S.S.L.C register and the
paper was pending with the Department for the last five years. We can understand that if the paper could take just more than two months to travel from the office of the Director of Public Instruction to the Secretariat, how much time it would take to travel from Anantapur, a distance of about 270 miles. I think it will take more than five years. These are things which make one disgusted. Can't we do something about it, completely remove these things from the system of our administration? I am happy to know that the Minister is going to appoint a committee of officials and non-officials to see whether we could do something to reduce this redtapism. Even while answering a question yesterday, the Minister made a statement. Sir, my request to him is that when he appoints the Committee, composed of officials and non-officials, let fifty per cent of the Members be people who know where the fault lies and who can do something about removing this evil and I think some I.C.S. men can be taken on the Committee and they will help in reforming the system. Unless the redapism is removed, things won't move quicker.

Mr. Speaker: All these things will be solved if pairavi is regularised. If pairavi is regularised, all these things will be solved.

Shri Anthony Reddy: I would like to congratulate the Anti-Corruption Department. Only a few cases go up to the Tribunal for Disciplinary Proceedings. Can't we do something about this? The procedure is clumsy, so delaying that things will never move. For instance, if a responsible person sends a petition, the paper will go back to the corrupt official and what will happen? That man will manipulate and see that the petition is proved false. Such things won't help. Therefore, if responsible persons send petitions against corrupt officials, the Government should act immediately and suspend the person and then proceed. Of course, one may say that these things are illegal. But there are cases when
mere suspicion, officials have been suspended. Therefore, we must infuse some sort of fear in the corrupt officials. Otherwise things won't improve. I wish that Heads of Office should not be in office for more than five years in that particular department. During the course of these five years, they develop prejudices, likes and dislikes. Naturally, those officials whom they like, get pulled up and those against whom they have a prejudice, are put down and cause injustice. Therefore, steps must be taken to see that nobody remains for more than five years in a particular department as Head of the Department.

Lastly, I did not like what the Leader of the Opposition mentioned about the Universities. Universities have got their own autonomy and they have their own system of administration. I do not say they are perfect. They have their own defects. But the Universities are custodians of certain sacred duties, that is, of Education, of improving our society. If we go on criticising them from our point of view, it may not be quite correct. Universities require some autonomy and that autonomy should be respected. But if a particular Vice-Chancellor does not behave well, we have got powers to remove him at the end of five years. Therefore, I wish we talk less of Universities, especially criticise them in the Assembly as they are sacred bodies, but we must try to improve them by other methods.
