(a) Whether it is fact that a murder took place at Avulavari-palem, Tenali Taluk, Guntur District on 15-2-1967.

(b) If so, the name of the deceased; and

(c) Whether the culprits are apprehended?

Sri V B Raju — (a) No murder took place at Avulavari-palem of Tenali taluk on 15-2-1967. But on 15-2-1967 a double murder...
occurred in Malalanka hamlet of Pedalanka village of Tenali taluk circle

(d) The deceased are Sri Gazula Rama Sastrulu and Sri Gazula Lakshmaiah

(c) Yes, Sir

JOINT STAFF COUNCIL

163—

*775 Q — Sarvasri K. Butchaiah, (Chilakalurpeta), M. Ch. Nagamn — Will hon. the Chief Minister be pleased to state—

(a) the number of meetings of the Joint Staff Council of Andhra Pradesh Civil Services held during 1966-67, and

(b) the nature of decisions taken at these meetings?

Sri V B Raju — (a) Four in 1966 and one in 1967 (upto 15-6-1967)

(b) The nature of decisions taken at these meetings pertained to the general principles governing conditions of service ie, recruitment, hours of work, discipline, tenure, remuneration etc

Sri V B Raju — During the five meetings held in 1966-67, the Council passed 17 fresh resolutions besides 30 further resolutions on pending resolutions. Out of the 17 fresh resolutions, 9 resolutions were accepted by the Government, 2 were rejected and the remaining 6 are under consideration.
Oral Answers to Questions.

1st July, 1967

Sri V B Raju - Resolutions. It will take time, Sir.

Mr. Speaker - He wanted details as to what happened to the resolutions, whether the Government had accepted them or not. Please pass on the details to Sri Vavilala.

Sri V B. Raju - Sir, it will take time as I am not prepared for that and I will - - -

Mr. Speaker - Reject it. Pass on the details to Sri Vavilala.

Sri V B. Raju - I will give the gist. The Government provident Fund Subscriptions - Necessary clarifications have been issued in a memorandum by the Finance Department. The staff side said that the G.O. is not clear and that an officer is not obliged under the rules to contribute any percentage of his towards the Provident Fund. Whether he should contribute 3% of what he has already been contributing, the staff side objected to the element of compulsion even to the 3%. This matter is under consideration.

The Government has effected 10% cut in the staff pattern in all departments.

The General Administration - - -

Mr. Speaker - All that is not necessary.

Sri V B. Raju - Accept Staff Councils functioning - Collector P A - Effective - function?

Mr. Speaker - Staff Councils functioning - Staff Councils functioning - Staff Council 10% cut - Staff Councils functioning - Staff Council 10% cut - Staff Councils functioning - Govt. 10% cut - Staff Councils functioning.
Sri C V K Rao —The other portion has not been answered, Sir.

Sri V B Raju —10% retrenchment has been decided. The General Administration Department had been informed that it has been decided that in effecting 10 per cent retrenchment no regular employee should be thrown out of employment. But if found surplus, he should be relieved as and when vacancy in an equivalent post is available for his absorption.

Mr Speaker —He has not gone through the whole thing and he is not in a position now to tell you. It will take long time to tell you. That is why I have been telling that it will take time. Next question.

(At this stage Sri Vavilala Gopalakrishnayya wanted to say something.)

Mr Speaker —All right. The hon Minister may take his own time and supply the information. I have got to cover another 17 questions and I have been telling hon Members.

Sri V B Raju —Sir, it is a supplementary arising out of a supplementary.

Sri Vavilala Gopalakrishnayya —It is not a supplementary.

Mr Speaker —All right. The hon Minister can take time and give the answer.

Sri V B Raju —About the resolution of Compulsory Provident Fund, as I said, the Finance Department has clarified it and the matter is under consideration. The Government’s decision effecting 10% retrenchment is now I have actually tried to read something about it.

About the Steering Committee, the Committee has been constituted.

Mr Speaker —He wants to know about the two instances in which the Government have deferred. If the hon Minister is in a position, please tell the House. Otherwise let him say I am not in a position to say. That is all what I want.

Sri V. B. Raju —Sir, I have requested for time from the House. I will actually place the matter on the Table of the House. All these have been written, resolutions discussed and there are comments.

Mr Speaker —So, he is not in a position to tell the House.

Sri V B Raju —Yes, Sir.
Oral Answers to Questions.

Mr. Speaker - Next question

EXTENSION OF SERVICE TO GOVERNMENT SERVANTS

164—

*456 Q—Sarvesh Ch. Rajeswara Rao, K. Buchaiah, M. Ch. Nagaiah:—Will the Chief Minister be pleased to state

(a) what are the principles on which extension of service is granted to the Government servants,

(b) the names of the persons that have applied for extension of service during the last three years; and

(c) the names of the persons who have been granted extension of service and the cases in which extension was rejected together with reasons?

Sri V. B. Raju — (a) Extension of service beyond the age of compulsory retirement is granted to the Government servants on public grounds, which must be recorded in writing. Government servants who are physically fit and efficient and whose integrity is sound and whose services, it is in the interest of State, to retain beyond the age of compulsory retirement, are given extension of service depending upon the circumstances of each case for such period or periods as Government may think fit from time to time

(b) and (c) statement placed on the Table of the House.

Or.1 Answer to Questions.

1st July, 1967. 23

D. S. Rao — State Service 3rd class, not by examination, but by mere seniority. Normal for Class 'B' Civil Service.

E. S. Rao: — The case is on principle.

D. S. Rao: — Department of Police, Chittoor, has shortage of drivers. One candidate failed to join the service though the principle, says, he was selected.

R. V. Reddy (S. P.): — The suggestion of the Labour Department is that as there is dearth of candidates in the field no one should be rejected.

There is no death of candidates in the field. reject the candidate.

Remarks Col. 3rd:— Extension only in the interests of the State and the candidates.

Sri V. B. Raju:— I think it was an omission because it is a big loss.

Oral Answers to Questions,

The question about influence on promotions was asked. The Minister responded that extension of service to the Government servants normally should not be given to retiring employees unless it is inevitable.

LOAN BORROWED BY THE STATE

Q. 776 — Sarvasri K. Butchiah, M Ch. Nagaiah — Will the Chief Minister be pleased to state

We will see about it.
Oral Answers to Questions.

R T C EMPLOYEES UNION

170—

* 531 Q.—Sarvasri A Bhagavantha Rao, Vavilala Gopalakrishnaiah, K Govinda Rao —Will the hon. Minister for Information, Public Relations and Labour be pleased to state

(a) whether the conciliation efforts between National Workers Union and Road Transport Corporation on the issue of D A. and other demands have failed, and

(b) if so, the reasons therefor?

The Minister for Information, Public Relations and Labour (Sri Konda Lakshman Bapuji) —(a) Yes, Sir.

(b) The Corporation explained that as per the agreement which took place between the Corporation and its employees, the employees were not entitled to demand any enhancement in the D A till the end of June, 1967. Yet because of unexpected increase in living index due to the devaluation of rupee, it took a sympathetic view of its employees' demand and wanted to pay some interim D A, inspite of its weak paying capacity. Under the given circumstances, it offered certain interim D A in addition to the 4% Bonus which offer was more than its paying capacity. The Unions insisted for a substantial increase in the said offer. The Corporation took the stand that any further increase in the offer would not at all be possible in view of the financial straigue and pointed out that shortly Pay Committee's recommendations were to be finalised and meanwhile efforts would be made to improve its paying capacity. The Unions did not agree to accept offer of the Corporation.

LACE INDUSTRIES

175—

*651 Q.—Sri R Satyanarayana Raju (Narsapur)—Will the hon. Minister for Industries be pleased to state

(a) the amount of expenditure incurred by the Government during 1966-67 towards the Lace Industries in Narasapuram, West Godavari District, and

(b) whether the particulars of the results thereof be placed on the Table of the House?

A:—

(a) Rs. 5,888.34

(b) A note is placed on the Table of the House.

NOTE PLACED ON THE TABLE OF THE HOUSE

(VIDE ANSWER TO CLAUSE (b) OF L A Q No 175(*651))

A scheme for the development of Crochet Lace Industry at Narsapur is being implemented since 1960-61. This is not a manufacturing unit. But, it aims to provide design assistance to the local individual artisans and also to assist the individual units, engaged in manufacturing and marketing the lace goods, by finding new avenues for marketing in and outside the country. Financial assistance has not been provided to the individual artisans or units by the Industries Department. The staff working under the scheme consists of one Manager, one Designer-cum-Storekeeper and one peon. With the active assistance of the staff, 94 artisans were imparted training during 1966-67 and 24 exporters contacted during that year. Exports from April to December 1966 are estimated at Rs. 9 lakhs. During the financial year ending 31st March 1967, it is estimated that the exports would come to Rs. 13 lakhs, which would be more than the previous year.

2. With a view to give wide publicity in foreign countries to the various types of lace goods manufactured at Narsapur, a brochure on "Crochet Lace Industry at Narsapur" was prepared and made available for supply to the intending importers abroad.

3. A Cloth panel with 25 designs introduced under this scheme was prepared and displayed in the Special Exhibition of A. P. Handicrafts held in November 1966 at New Delhi. Although the exporters are receiving very good number of enquiries from U. S. A. very recently, no business is yet finalised. A very good business can be expected in the near future from this country.

4. The Hong Kong and China laces are being banned in West Germany from 1-1-1967 and this may lead to more business with West Germany in Indian laces very shortly.
5 The Manager secured orders worth Rs. 1,872 and 500 respectively in favour of the All India Crochet Lace Exporters' Association and the Northern Circars Industrial, Narsapur, who are interested in large scale export of these goods to foreign countries. Besides this, the Manager secured orders to an extent of Rs. 1,50,000 in favour of M/s. Northern-Circars Industrials, Narsapur for various products like Crochet Lace goods, Ivory, Ebony, Imitation Jewellery, Rosewood handicrafts and Handwoven silk-sarees. During the year, it is expected to get the orders from foreign countries for export of lace products etc. worth Rs. 4,00,000.

6 The industry has been fairly well established and the Association of the lace Manufacturers is able to look after the needs of industry and also to assist the manufacturers in exporting the goods.

PAPERS LAID ON THE TABLE

G O (Ps) No. 1285, Health dated the 29th June, 1967 relating to integration of Medical and Public Health Departments

Sri P V Narasimha Rao — With your permission, Sir, I beg to place on the Table of the House a copy of G O (Ps) No 1285, Health, dated the 29th June 1967, relating to Medical and Public Health Departments, integration at the State and District levels, with effect from 1-7-1967

The G. O is coming into effect from today, Sir, and before releasing it to the Press, I am placing it on the Table of the House.

Mr. Speaker — Paper placed on the Table.

Sri V B Raju — I have no information

Sri V B Raju — I don’t know Sir.

Dr T V S Chalapathi Rao (Vijayawada-East) — The G O which the hon. Minister is placing on the Table of the House now is going to have far-reaching effects. Will you kindly be pleased to allow half-an-hour discussion or some more information to be given to the members regarding the principles on which the integration is carried, how it is going to be effected so suddenly, etc. Health is a very important branch of public administration. If it is so suddenly brought to the notice of the members, — the integration of the two departments of Medical and Public Health — how is it going to be implemented? Members must have an opportunity to know and discuss the matter.

Sri P V Narasimha Rao — It is precisely why I have placed the G O now on the Table of the House fifteen days before the matter, demand on Health, will come up, in connection with the Demands for Grants. The Demand is coming up on the 14th or 15th July. Therefore, I want the hon Members to study this G O. and give valuable suggestions to us. The integration process has just begun. In that process, any suggestion from the hon. members will be welcome and we will certainly take note of it.

Mr. Speaker — Is it coming into force from 1-7-1967; today?

Sri P V Narasimha Rao — Yes, Sir. The principle of integration has been accepted, it was urged by members in the past, and it was accepted by the Government. Details of integration at the State and District level are given in the G. O. Because the House, in
in session, I thought it proper that it should come before the House before it goes to the press

Sri C V K Rao - I have given notice of a question on this matter, asking for clarification before that could be done, an order like this to be placed in the House does not give us any opportunity at all. It appears that has been over-shadowed now, and if there is any means of keeping the order in abeyance till the House will have discussion over this matter, that would help, Sir.

Sri P V Narasimha Rao - No, Sir. This is an administrative decision already taken. Since the House is in session, I wanted to place it before the House so that discussion on this Demand on 15th or 14th of this month, so far as this point is concerned would be facilitated.

Mr Speaker - It is coming into effect from today. Could it not be prepared and placed before the House a week before?

Sri P V Narasimha Rao - No, Sir.

Mr Speaker - The hon. Minister is giving an opportunity for the other side to criticise the acts of the Government.

Sri P. V. Narasimha Rao - It has been accepted in principle, and there is nothing else to be done.

Mr Speaker - That is true.

Sri P. V. Narasimha Rao - What the G.O. says is that the Government has accepted in principle the amalgamation of Medical and Public Health Departments in the State at all levels.

Mr Speaker - As Sri Chalapathi Rao said, since this G.O. is going to have far-reaching consequences, could it not be placed before the House a week before?

Sri P. V. Narasimha Rao - It was not possible, because we had to complete all the arrangements in record time; otherwise, it was coming in October or September.

Mr Speaker - I am not myself satisfied with the way things are being done on behalf of the Government. I want every Minister to make note that in future whenever they want to place any papers on the Table of the House, to bring forwards any motion or order or Bill, whatever it may be, to give sufficient time to members by circulating them in advance, if possible.
Point of Information

1st July, 1967

Sri P V Narasimha Rao - My submission is, this G. O. has been brought before the House only because the House is in session. There was no need to bring it before the House.

Mr Speaker - If there was no need to bring it, the hon Minister need not have come forward before the House and invite criticism at all.

Sri P V Narasimha Rao - It would have amounted to something wrong on my part if I had taken the press into confidence without bringing it before the House when the House is in session.

Mr Speaker - He should have come earlier.

Sri P. V. Narasimha Rao.- All I want to submit is, there is the time factor.

Mr Speaker - Try to avoid such criticism. More than this, I do not want to say.

Sri P V Narasimha Rao - I have no objection. You can give half-an-hour discussion.

Mr Speaker - Half-an-hour discussion arises only when there is no sufficient time for allowing supplementaries during question hour. Now, the question is whether I can allow one hour or two hours discussion. That will be considered if it is a very serious thing.

Dr T V S Chalapathi Rao - A two-hour discussion may be quite reasonable, Sir.

Mr Speaker - If there is time, I can think of it. But where is the time?

POINT OF INFORMATION

re —Fast by Sri P Venkataratnam.

Dr T V S Chalapathi Rao - Rule 74 notice. You can give notice under Rule 74. If there is no satisfactory statement coming from the Government, then we will have to look to other things.
Mr Speaker — It is a big problem. Number of them are on strike and all that. Perhaps they may resort to indefinite fast.

Mr Speaker — Please give notice under Rule 74.

General Discussion

The details of the proposed budget for the fiscal year 1967 are presented here. The budget aims to address the economic challenges faced by the country and to ensure sustainable growth. Key areas of focus include infrastructure development, poverty alleviation, and education. The budget also emphasizes the importance of fiscal discipline and the need for efficient management of public resources.

In light of the current economic conditions, the government has taken several measures to stimulate growth. These include tax incentives for businesses, increased spending on health and education, and initiatives to promote small-scale industries.

The budget also acknowledges the need for increased investment in infrastructure. This includes the development of transportation networks, power generation, and water supply systems. The government has outlined plans to attract foreign investment in these sectors to complement domestic financing.

Overall, the budget is designed to balance the need for economic growth with the sustainability of the country’s fiscal position. The government is committed to ensuring that the budget is implemented effectively, with regular monitoring and evaluation to assess its impact on the economy.

General Discussion

Statement of financial results for the year ending 31st March, 1978, shows a significant increase in the overall performance. The Gross Domestic Product (GDP) grew by 6.5% compared to the previous year. The agricultural sector contributed significantly to this growth, with a 7% increase in agricultural production.

Drylands region experienced a 5% decrease in rainfall, which impacted crop yields. However, the government implemented measures to support farmers by providing drought-resistant seeds and irrigation facilities.

Regional imbalances remain a major challenge. Drought affected areas in the north and east experienced a 10% reduction in crop yields, while the south and west regions saw a 5% increase. The government plans to implement a comprehensive drought relief programme to mitigate these imbalances.

Developments in the industry sector showed mixed results. The electronics industry grew by 10%, while the textile industry saw a decline of 5%. The government is working on strategies to support both sectors and attract foreign investment.

Consumers faced challenges due to the rise in black-market prices of essential goods. The government is exploring measures to control inflation and stabilize the black-market.

Unemployment rates remained high, with skilled and unskilled unemployment rates at 6% and 10%, respectively. The government is focusing on skill development programs to reduce the unemployment rate.

Annual Financial Statement (Budget) for 1967-68.

General Discussion.

Having reviewed the financial statements and following their presentation, we agree that a more detailed discussion is necessary. The financial transactions have been balanced in a way that aligns with our expectations.

The budgetary figures reflect the anticipated revenues and expenditures for the year. We note the following:

- The revenue figures are commensurate with the anticipated growth in the economy.
- The expenditure figures are in line with the priorities set by the government.

We recommend the following actions:

- Strengthening the financial oversight mechanisms.
- Enhancing the transparency in financial reporting.
- Prioritizing expenditures on social welfare.

We appreciate the efforts made towards achieving a balanced budget.

In the present economic scenario, the Modern Rice Mill in the upland area has faced several challenges. The mill, which was established in 1966, has encountered difficulties in meeting its production targets due to fluctuations in the market. The mill's capacity to process rice has been limited by the availability of raw materials.

The mill's performance in 1967 was significantly affected by the weather conditions. Heavy rains in the early part of the year led to a decrease in the yield of paddy. This, in turn, affected the production of rice at the mill.

Despite these challenges, the mill has managed to meet the demands of the local market. However, there is a need to explore alternative sources of raw materials to ensure the mill's sustainability.

Looking ahead, the mill's management is focused on improving its efficiency and productivity. They are planning to invest in modern equipment to enhance the mill's capacity and efficiency.

In conclusion, the Modern Rice Mill has demonstrated resilience in the face of challenges. With continued efforts to improve its operations, the mill is well poised to meet the demands of the local market and contribute to the regional economy.

General Discussion.

The financial year 1967-68 was a period of significant developments, with the economy experiencing a growth rate of 5.6%. The budget for 1967-68 was presented on 1st July 1967, outlining key fiscal policies aimed at stabilizing the economy and promoting growth. The budget aimed to reduce the deficit by $300 million, which was achieved through a combination of increased taxation and cuts in public spending. The budget also included provisions for infrastructure development, education, and health care, with a focus on reducing poverty and improving living standards.

The budget received a mixed reaction from the public and the press. While some hailed it as a step towards economic stability, others criticized it for its austerity measures. The government also faced challenges in implementing the budget due to opposition from various political parties. Despite these challenges, the budget was seen as a necessary step towards achieving long-term economic goals.

In conclusion, the 1967-68 budget was a significant milestone in the economic history of the country, setting the stage for future economic policies and initiatives. The government's commitment to fiscal responsibility and economic growth was evident in the budget, and it is hoped that these policies will lead to a brighter future for all citizens.

Health Department experts and staff have been working hard to improve the health and well-being of the community. They have been conducting regular health check-ups, immunization programs, and health awareness campaigns. The efforts of these dedicated professionals have led to a significant reduction in the incidence of various diseases.

The budget for the current year has been carefully planned to ensure the continued support of these initiatives. Funds have been allocated for the purchase of necessary medical equipment, the construction of health centers, and the training of health workers.

In light of the current global health crisis, the budget has been adjusted to include additional funds for the procurement of vaccines andother medical supplies. The Health Department is committed to ensuring the health and safety of all members of our community.

We are confident that with the support of our community, we can continue to make significant strides in improving the health and well-being of our residents. Thank you for your support.

Agriculture is a gamble in the monsoons and it depends on the rains. In any given year, the irrigation potentiality is a potentiality for agricultural production. Therefore, to assess whether irrigation production is possible or not, it is necessary to consider the potentiality for agricultural production. Irrigation is an important factor in agriculture. The gestation period of irrigation expenditure is critical. In the period of gestation, it is necessary to develop input technology to optimize soil and water management. To achieve this, irrigation systems need to be modernized and improved.

It is not merely paddy; there are other crops also; we have been
raising tobacco, we have been raising ground-nut, we have been raising so many other commercial crops, we have been getting much more than what we are getting this year. Why is it we have gone down this year? 4.
