* 126 Q —Sri T. C. Rajan —Will the hon. Minister for Agriculture be pleased to state:

(a) whether ground water survey was made in Chittoor district; and

(b) if so, what is the result?

Sri P. Thimma Reddy — (a) Yes, Sir.

(i) During 1960-61 and 1963-64, 47 villages of Plamaner and Punganur Blocks were surveyed by the Geological Survey of India.

(ii) A reconnaissance traverse of the rocky area lying in between Tirupathi and Madanapalle, was also made by the Exploratory Tubewells Organisation to explore the possibility of undertaking exploratory boring works.

(b) (i) As a result of the survey undertaken by the Geological Survey of India, the villages were advised to improve their water supply either by deepening the existing wells or by sinking new wells in the sites indicated by the Geological Survey of India.

(ii) The traverse revealed that the rocky formations do not hold promise for the construction of moderate to heavy tube wells; except in valleys. The Government therefore, considered it not necessary to entrust the work to the Exploratory Tubewells Organisation due to heavy cost involved and accordingly, the matter was dropped.

(c) The basis or criteria for giving financial assistance

The financial assistance under this scheme is given to the persons who have made contributions in art and letters but are now in indigent circumstances and in certain cases to dependents of writers and artists who leave their families un-provided. Their contribution to art and letters etc. must be of a significant nature. Traditional scholars who have made significant contributions in their fields are also eligible notwithstanding the absence of any published works. The private means of the applicant must not exceed Rs. 150/- per month.

The third phase of the scheme is yet to be introduced in the remaining three districts of Guntur, Chittoor and Cuddapah;

(c) A Special Officer has been appointed

(1) To examine the reorganisation scheme from the point of view of Judicial and Administrative work, taking into consideration the convenience of the litigant public as well as the members of the Bar,

(2) To assess the requirements of Courts from the perspective of the adequacy of Courts and staff and also the territorial, pecuniary and appellate jurisdiction of the Courts, and

(3) To examine the representations made by the various Bar Associations where the reorganisation scheme has been introduced requesting for the creation of new Courts and revision of jurisdiction on the original small cause and appellate sides of the Munsifs Court and Sub Courts

(d) The Special Officer has just submitted his Report. The Report is under consideration of the Government.

Sri T Nageswar Rao—Will the special officer's report be placed on the Table of the House?

Sir, Sir. The report has been submitted. The report is in the possession of the Government.

Sri G. Sivayya — The hon. Minister said that there are certain difficulties due to heavy criminal work in Andhra area regarding Munsif cum Magistrate courts. As the system is good, will the Government consider transferring all these petty criminal cases to the executive Magistrates who can implement the scheme much better in my opinion so that the scheme can be pushed through in the Andhra region also. It might affect the Advocates, but the difficulty is very little. In public interest, will the Government consider transferring all these petty criminal cases to the executive Magistrates who can implement the scheme much better in my opinion so that the scheme can be pushed through in the Andhra region also.

But the Chief Minister has summarily dismissed it. The manner in which he has disposed of the entire problem is not at all encouraging. In a state of helplessness, when we cry, I am sorry 'the cry feels unnoticed; not only unnoticed but we are not even allowed to feel the cry. And 1967-68 is not the year when the socially backward ones are to be saluted. The manner in which he has disposed of the entire problem is not at all encouraging. In a state of helplessness, when we cry, I am sorry 'the cry feels unnoticed; not only unnoticed but we are not even allowed to feel the cry.

I regret that my request—I don’t say demand—that this region may be given priority at least in respect of giving more power and in respect of giving at least more medium and minor irrigation projects was not granted. These are the only life veins for this region. "The region, which is already underserved, cannot be denied further resources. If resources are not further distributed, it will be a major setback for the region."

The economy rate growth is not able to keep up with the population growth. At that rate, we are definitely
behind the population growth and we will not be able to cover this
amount.

Due to this increasing population, we may need more than
expected revenue. The demand for grants has increased by 20%
which is not covered by the existing financial statements. Hence,
we are Increasing the demand for grants.

Electricity Board Chairman on rural electrification extension benefits. Mr. L. A. as member of the Rural Electrification Board has expressed his support for extending the rural electrification program. He has also emphasized the importance of investigating the implementation of the rural electrification scheme. The Chairman stated that rural electrification is crucial for improving the quality of life in rural areas. It will promote economic development and enhance the living standards of the rural population. The Chairman also highlighted the role of the Electricity Board in facilitating the extension of rural electrification to remote areas. He urged all stakeholders to work together to ensure the successful implementation of the program.

Voting of Demands for Grants.

As far as I am aware, there were no significant changes in the financial statement compared to the previous year. The budget was approved with minor adjustments in various departments.

In the voting of demands for grants, the following were approved:

- Education: A sum of Rs. 5,000,000 was allocated for educational purposes.
- Health: Rs. 2,500,000 was allocated to improve health facilities.
- Infrastructure: Rs. 3,000,000 was allocated for the construction of new roads and bridges.

The Finance Committee of the legislature approved the budget with minor suggestions for improvements in some areas.

Voting of Demands for Grants.

Smt. J. Esware Bai: Mr. Speaker, Sir, by the end of March 1967, i.e., one year of the completion of the fourth five-year plan, the installed capacity was 402 M Ws. That is to say, the power capacity at the end of the third plan was 402 M Ws. I am quoting the above figures from the Budget speech of the Chief Minister. How on earth the Government would raise the installed capacity by the end of the fourth five-year plan to 1,227 M Ws which is nothing short of a miracle?

The test of production.
highest in the country. If electricity is to benefit the vast masses of the people in State, its cost should be comparatively reduced. Otherwise, the generation of electricity to the common man is of no value. Streamlining of Electricity Board is very essential, if the cost of production of electricity in the State is to be reduced. Although the Chief Minister says that the Electricity Board is trying to reduce its operation and maintenance costs by effecting various economies, yet we find that the number of officers and subordinate officers is rising day by day. Administrative cost is also rising. The Electricity Board seems to neglect the interests of the vast mass of our consumers. I wish to quote one instance in the city. One person near the Clock Tower electricity sub-station in Secunderabad was saying that in his locality five to six street lamp posts were without bulbs. He phoned up to the sub-station not less than dozen times, but the reply that the person got from the sub-station was that the power station had intended materials for repairs, but the Central Stores of the Electricity Board was not having a stock of these commodities. In this way, there are thousands of lamp posts in these two cities which are without bulbs keeping so many localities in darkness. What is happening to lakhs of rupees being paid by the Corporation of Hyderabad to the Electricity Board?

Another complaint against the Electricity Board is their method of bills accounting. The system of sending bills by post is creating havoc among lakhs of consumers. There is overlapping in the bills and issuance of multiple bills for the same month. Previously, the bill collector was issuing bills on the spot which was a great boon to the consumers. Why this system was changed, nobody knows. There were many consumers whose connections have been disconnected for non-paying duplicate bills even in spite of paying the bills. The accounting system of Electricity Department should be changed.

It is said that out of 27,000 villages in the State, 6,000 have been electrified, but it is not mentioned how many are in the Andhra region or Telangana. In my area, I think 20-25 percent of the villages are not electrified. I hope that in 1967 Telangana will get a new look in the matter of electricity. It would have been better if the Chief Minister had given the figures actually spent in Telangana and Andhra regions in the matter of electricity.
