To the Question: How much do we spend on non-renewable energy sources like coal, oil, and gas?

As per the latest reports, the United States spends approximately $550 billion annually on fossil fuel imports, which includes coal, oil, and natural gas. This expenditure contributes significantly to our national debt and has implications on our energy security and environmental policies.

This message is a call to America, a call to stand together and to create a better future. It is a call to be bold, to be innovative, and to be committed. It is a call to make a difference.

End of Message.

Mr. Ch. S. R. Reddy:—Minister for Industry in the State Government, which industries in the field of mining, manufacturing, and other related fields have been organised?

Mr. V. R. Naik:—While the Government has been taking steps to promote industries in the mining sector, the mining industry in the State is currently not self-sufficient. However, the Government is continuing its efforts to encourage the development of industries in the mining sector. The government has also been promoting the establishment of industries in other related fields like manufacturing, engineering, and allied activities.

Mr. B. C. R. Reddy:—Some of the industries in the mining sector are facing financial difficulties. Will the Government take steps to provide financial assistance to these industries?

Mr. V. R. Naik:—The Government is aware of the financial difficulties faced by some industries in the mining sector. However, due to the limited financial resources, the Government is examining the possibility of providing financial assistance to these industries. The Government is also exploring other avenues to support the growth of these industries.

Mr. R. V. R. Reddy:—Are the recommendations of the Committee on Mining Corporation to be adopted?

Mr. V. R. Naik:—The recommendations of the Committee on Mining Corporation are under consideration. The Government is examining the feasibility of implementing these recommendations with the aim of improving the efficiency of the mining sector and ensuring sustainable development.

Mr. B. C. R. Reddy:—What are the main recommendations of the Committee?

Mr. V. R. Naik:—The Committee's recommendations include measures to improve the efficiency of mining operations, fiscal incentives for the mining sector, and the introduction of modern mining techniques. The Committee has also recommended the establishment of a regulatory body to oversee the mining sector, ensuring transparency and accountability.
Mr. Speaker—What is that one recommendation?

Sir K. V. Narsimha Reddy—The main recommendation is this: The Committee recommends that the excess payment of Rs. 100,000 paid on 10th August, 1935, and to the contractor be recovered from the person or persons responsible for the payment.

Mr. Speaker—Does “regular payment” mean the regular payments made under the contract?

Sir K. V. Narsimha Reddy—No, it is not the regular payments made under the contract. It means the excess payment of Rs. 100,000.

Mr. Speaker—is it only after scrutiny of these from the Railways Committee that this recommendation was made?

Sir K. V. Narsimha Reddy—Yes, it is not now. They have come to the conclusion that it is an excess payment and that is why they recommend that the excess payment may be recovered from the person responsible.

Mr. Speaker—Is it not an excess payment? Only incidental item was given.

Sir K. V. Narsimha Reddy—The Railway Committee made a recommendation that the excess payment may be recovered from the concerned contractor.

Sir K. V. Narsimha Reddy—May I explain all these things?

Sir K. V. Narsimha Reddy—From what he has said, the excess payment might have been given for some special purpose, out of which the particular note was matched. So it may not be recovered from the contractor and for some other item, there may be enough of the other item available, so the excess note may be matched. Thus if you take an overall view of the item, there may be loss or profit, but what I mean is that the Ministry Corporation made a profit.
Mr. Speaker—Let us consider the procedure. The Hon. Member of Parliament has informed me that this in the procedure of the Department and that it is the custom of the Department to take action after the Government does not agree with that view. What should be done is that the matter should be referred to the Estimates Committee, and that the Estimates Committee to reconsider the matter.

Mr. Speaker—Is it what is being done?

Mr. Speaker—I do not know. That is the procedure to be followed.

On a point of Order—Mr. Speaker, the House is not entitled to ask the Government to withdraw a question because the question was not asked by the Minister. This is a matter which has come up for discussion in the House and not in the presence of the Minister. I would like to know who is responsible for the omission and who will be responsible for the failure of the Minister to answer the question. In this case, the question was not asked by the Minister and the question was not asked by the Government.

Mr. Speaker—I would like to make a point of order. The question was asked by the Minister and the question was not asked by the Government. The question was not asked by the Minister and the question was not asked by the Government. A copy of the letter addressed to the Government is attached.
Minister : Corporation by one of the tenderers or A. M. Reddy.

Mr. Speaker.—I am not associated with the details of all these things. Please hear me. The Estimate Committee has made certain recommendations after scrutinizing all the relevant records. They said that no excess payment was made to a particular contractor to the tune of Rs. 1 lakhs and odd. You say that does not amount to an excess payment or excess payment. Is that your conclusion?

Mr. Speaker.—It is not a question of excess. It is just possible that some other officers might have made profit. So far as this particular item is concerned...

Mr. Speaker.—If you take, instead of paying 25 p. we have paid 30 paise, it is an excess payment to that extent.

Mr. Speaker.—He says...
Sri K. V. Nandy Reddy: Yes, that is an excess payment.  Mr. Speaker: If that is so, the Estimates Committee may get the amount.
Sri T. Nageswar Reddy: Yes, but not the amount.
Sri K. V. Nandy Reddy: Otherwise, the Estimates Committee may get the amount.
Mr. Speaker: No, but the estimate is not yet finalized.
Sri K. V. Nandy Reddy: It will be finalized.
Mr. Speaker: The Minister for Education (Sri T. V. Raghavendra): As the hon. Member has already pointed out, the Estimates Committee may have some consideration in the subject matter of the Estimates Committee so that they may go into the matter.
Mr. Speaker: It is not clear. If he says that, he must say so clearly. Otherwise, the Estimates Committee may have some consideration in the subject matter of the Estimates Committee so that they may go into the matter.
Sri K. V. Raghavendra Reddy: I have already pointed out that the estimates are being finalized. The Minister for Education may have some consideration in the subject matter of the Estimates Committee so that they may go into the matter.
Mr. Speaker: I have no quarrel.
Sri K. V. Raghavendra Reddy: My intention is this. The Minister for Education may have some consideration in the subject matter of the Estimates Committee so that they may go into the matter.

Oral Answers to Questions.

Mr. Speaker:—The matter is referred back to the Estimates Committee. It will come up before the Estimates Committee for reconsideration.

Sri T. Posthuma Rao:—It happened in 1963-64. 

Mr. Speaker:—According to the report, it happened in 1963-64. (laugh)

Sri T. Posthuma Rao:—Yes, it happened in 1963-64. 

Mr. Speaker:—The Estimates Committee, for their own good reasons, have said "this amount is a recovery payment". Let us not go into the matter. 

Sri Vivaksha Gopalakrishnayya:—I want not go, because the estimate itself has not been passed. 

Mr. Speaker:—Let us not go into the matter.
Dr. K. V. Narayana Reddy:—It is being sent.

Mr. Speaker:—Has it been sent to the Estimates Committee for review?

Dr. K. V. Narayana Reddy:—It is being sent.
Mr. Speaker :—Not a question of "being sent". Has it been sent?

Sri K. V. Narasimha Reddy :—Yes, through the Finance Department.

Mr. Speaker :—Perhaps, after the question was sent.

Sri K. V. Narasimha Reddy :—I do not have that information.

Mr. Speaker :—He can have the date on which it was sent to the Legislature. It is after the question was sent, probably.

Sri K. V. Narasimha Reddy :—He has already made out. It is sent to the Finance Department for onward transmission to the Legislature Department for review by the Estimates Committee.

Mr. Speaker :—That means if the question had not been sent, it might not have been referred to the Estimates Committee at all.

Mr. Speaker :—In which case, why has it been sent to the Estimates Committee? They are sending it back to the Estimates Committee for reviewing the whole thing. It has already been sent to the Estimates Committee.

Mr. Speaker :—Government does not agree with the recommendation of the Estimates Committee for their own reasons. So they are sending it back to the Estimates Committee for reviewing the whole thing.

Confidence Motion:

Mr. Deputy Speaker:—I fully associate myself with the Confidence Motion moved by the hon. Leader of the House. I may not have known Mr. Bentinck intimately, but from what has been said here by every hon. Member, individual and those that have known him very intimately, I feel he was a man of action. Simple living and high thinking has been his objective in the life. We have lost a personality of this stature. Reality is it is a loss not to have the admittance of people's gaze in this democratic age. But we cannot help. When man proposes, God disposes. We have only to pray God to give peace to his soul and restore courage to his family members.

I request the hon. Members to stand for a minute in silence in memory of the deceased soul, and pass the Motion.
The motion was adopted and all members standing in silence for one minute.

They are all simple teachers who are poor.
Mr. Speaker—The matter concerns teachers working in English classes. I hope he has got a copy of the Minutes. We shall hear it to-morrow.

Generally, when notice of adjournment is given by the Member it is on very serious or urgent matters of Public Importance. One hour before this House adjourns, the notice is sent to the Secretary. Naturally he has got to ascertain it and send it to me. Then on that day, the Speaker reads an order either admitting it or disallowing it. Then the notice must go to the House. Then I wait until order. Either I might admit it or disallow it, or the other alternative, namely, to send it to the concerned Minister and then decide whether it should be considered or not.

Sir Yavvula Gopalakrishnayya—As per Rules “Any Member desirous of raising a discussion on a matter of Urgent Public Importance may give notice in writing to the Secretary specifying clearly and precisely the matter to be raised, provided Notice…….”

Mr. Speaker—It is too late in the day for me and the hon. Member to grasp the particulars respecting the adjustment clauses (Laughter) I will see there is no delay at all on my part. The next day generally it will be admitted.

Mr. Speaker—One hour before the commencement of the sitting of the House, the concerned Minister and the Speaker. Within this hour the Member may want me to do it. I don’t know whether I will be able to do it, if it is a case of urgency, it is very easy.

Mr. Speaker—That is why, I shall go through the whole thing myself and decide.
12th February, 1968.

Chairman:

Mr. Speaker — That is alright, Sir.

Mr. Speaker — Whatever you, Members think reasonable, they suggest to me. I am prepared to follow it. According to the rules, you have to give notice one hour before the commencement of the meeting and copies have to be given to the Speaker, concerned minister and the Secretary. On that, what is it you want me to do? You want me to consider the matter straightforward and then decide?

Mr. Speaker — That is so far as the language issue is concerned.

Mr. Speaker — There are other matters also about which they have given notice of adjournment motions.

Mr. Speaker — I have noticed some members of the House for a meeting at 4 p.m. tomorrow under your Presidency in the Committee room. Therefore, they will come and discuss.

Mr. Speaker — That is so far as the language issue is concerned.

Mr. Speaker — I have given notice of an adjournment motion to discuss the language issue. The matter is really so serious in the areas bordering Madras State. The position in Tamil Nadu is a serious one. The students are expecting that the matter will be discussed in the House today and that the Government will make a statement on the issue. Therefore, the matter is...
Mr. Speaker—Let me tell what I feel about the matter. I fully agree that it is a very urgent matter. There is no doubt about it that it can be done at delay. Naturally, some have given notice of an adjournment motion to discuss this language issue which agitates the minds of every responsible person in the State. The issue agitates not only members from the Opposition side but also from the Treasury benches. Since the House is meeting after a very long gap and since this agitation has been going on for more than two or three weeks, I know that a number of members were concerned with adjournment motions. If the motions are not in order, I would like the Chief Minister to consider the matter with the Leaders of the Opposition and then come to some decision. We have formally decided to take up two days for a discussion of this matter, i.e., on the 19th and 20th. Budget will be presented on 15th and the next three days, i.e., 16th, 17th and 18th will be holidays. We have decided to give only three holidays after the presentation of the Budget and we have agreed to take this subject on the 19th and 20th.
Mr. Speaker: He has given notice of an adjournment motion repudiating the language ban proposed by the Chief Minister, and he has moved an amendment to the motion. The amendment is to repudiate the proposal of the Chief Minister, and to repudiate the proposal of the Government. The amendment to the motion is that it is repudiated.

Mr. Speaker: That cannot dispense with my adjournment motion.

Mr. Speaker: What is the point in discussing it in the air? He will express his views whether you agree with him or not.

Mr. C. V. R. Rao: It is inevitable.

Mr. Speaker: When the resolution is before the House, he may agree with it or may not agree with it, and he will have a right to move his own amendment.

Mr. C. V. R. Rao: Are we going to take up, in view of the promised statement or the discussion proposed by the Chief Minister, these adjournment motions and dispose of them?

Mr. Speaker: We shall take up the resolution after the statement of the Chief Minister.

Mr. R. V. R. Rao: This particular statement of the Speaker may be taken as a ruling on the adjournment motion. Shall we take it?

Mr. Speaker: What is it I have suggested? I have made a suggestion that all of you sit together and then come to some kind of an agreement regarding the motion or the resolution to be discussed in this House. That is all I have suggested; I have not expressed any view myself.

Dr. S. T. M. Murthy: I think the Speaker's suggestion is entirely under the discussions and I would request my friends to be a little patient for two or three days. I know this is a burning topic and also a very excitable topic which may lead to complications.

Mr. Speaker: For the tomorrow's meeting, notices will be sent to all Leaders.

Mr. C. V. R. Rao: I have already sent them.

Mr. Speaker: As I said, I am prepared to accept the decision that is arrived at by the Leaders of the Parties in tomorrow's meeting.

Mr. Speaker.—The same matter is going to come up for discussion before the House within a short time. Why does he think that his adjournment motion?

Mr. Speaker.—What I have been explaining to you is that under the Rules, I am in a constituent. Members have submitted an adjournment motion to you. That has to be known to the subject matter may be different.

Mr. Speaker.—I raise the anxiety. His object only is that this House should be adjourned 'as early as possible. Is it so?

Mr. Speaker.—Whose is the question of your moving the adjournment motion while I explain it? If I admit the motion, thin the question of moving it arises.

Mr. Speaker.—You have got a right to give an adjournment motion and I have got a right to reject it.

Mr. Speaker.—Do it, Sir.

Mr. Speaker.—Mr. V. R. Raju saying is not applicable Sir.

Mr. Speaker.—Let us not waste time.

Mr. Speaker.—Under the Rules, the discussion is out of order. There are certain limited changes had, violence that have taken place has come as an adjournment motion. Language issues have come as an adjournment motion. We are discussing on 19th. So the adjournment motion is also in order.

Mr. Speaker.—I understand it. कोप साधारण और नेतृत्व कोप साधारण.

Mr. Speaker.—This agitation has been going on from about two weeks or more. During the period in several Places, students have resorted to strikes and boycotts wherever it may be.
several things have happened during these two weeks. Every incident can form subject matter for an amendment motion if it wants it. We have got a right to...

Sir C. V. R. Rao:—But we are not doing it.

Mr. Speaker:—What I am saying is that all these things are linked up with the language issue. While passing, if any where there are some cases where the public have consented where he can refer to all these. They are all linked up with one another.

Sir C. V. R. Rao:—They are all linked up with the ABAPQ and the language issue ought to be solved and not with the language issue as such.

Mr. Speaker:—Why did the students boycott the College?

I realise the local importance and urgency of it. There are not two opinions about it. Both of us are of the same view. We shall discuss it tomorrow evening and then you please, in consultation with the Leader of the House, in any change. I do not think that this matter should be doubted. After all we are the only policy after so many days. Why not work for 24 hours?

(Prize)

Now I am asking the Leaders in the House to come forward to consult with the Leaders of the House tomorrow and let us move forward.

Sir C. V. R. Rao:—We are moving tomorrow. Hon. Member's suggestion will be considered. We will bear in mind the suggestions tomorrow when we take a decision.

This false step has been taken and I wish Government would reverse its step. However, I am not advocating a general strike, but I am advocating that the Government should realize the gravity of the situation and take appropriate steps to counter it. In the name of the Government, I would like to say that the Government should not implement any such policies that can lead to economic crisis. It is not a time to take such actions. It is a time to think of solutions and not of problems. In the name of the Government, I would like to say that the Government should reverse its policy and take appropriate steps to counter the economic crisis.
