THE 
ANDHRA PRADESH LEGISLATIVE ASSEMBLY 
DEBATES 
OFFICIAL REPORT 

Fourth day of the First Session of 
The Andhra Pradesh Legislative Assembly 

ANDHRA PRADESH LEGISLATIVE ASSEMBLY 
Thursday, the 19th February, 1952. 
The Honorable Mr. Speaker in the Chair. 

ORAL ANSWERS TO QUESTIONS 

WASH AT TADA. 

1038—
* 1038 Q.—Sri K. Madasamy (Bayyavelli) :- Will the Hon. 
Minister for Communications be pleased to state— 
(a) whether the Government are aware that there is no 
wharf at Tada from which there is any way to 
Bheemarajpet Islands in Pulicat lake in Villupuram district, 
Nelivest Division? 
(b) whether the Government propose to improve the 
same and introduce steamship way for seamen to go to the 
off-shore places like Madura, and 
(c) if not, the reasons therefor? 

The Minister for Communications (Dr. J. V. Narasing Rau) :-

(a) No, Sri. There is no wharf at Tada but there is a small 
wharf at Talakal Pole. 

(b) While the Government are not in a position to provide steam 
passengers between Tada and 
Bheemarajpet Islands or any other 

(c) There is no such proposal. 

(i) There is no wharf at Tada and as such there are no 
proposals for improving the same by introducing steam boats. 

J 72 (407)
403 16th February, 1940.

Sir G. Sivash (Puttur):—You are aware that these villages are flooded during the rainy days and it is impossible for the villagers to come out from those areas. In view of this, will the Government take urgent steps to implement the scheme?
Sr. J. V. Narasimha Rao.—This won't come under that category.

Dr. D. Nageswara Reddy & others.—In Karimnagar, Nalgonda, Nizamabad, and other districts of that nature.

(a) Whether there are any proposals with the Government to take up drainage schemes in Villages like Jaggur, Machilipatnam, Karimnagar, Nizamabad, and other areas of Gadwal taluk, Karimnagar district?

(b) If so, the stages at which it stands at present; and

(c) If not, whether the Government will consider to take up the said schemes?

The Minister for Irrigation (Dr. S. Shridhar Reddy)—(a), (b) and

(c) The proposals for taking up the Gadwal area drainage scheme was examined. It has been deferred in view of present difficult financial position. Instructions have been issued to the Chief Engineer concerned to examine the proposal early. In April, 1968, if the position of funds improves...

12th February, 1968.

15th February, 1938.

1. Mr. Speaker: ...I think it is time, gentlemen, that we have the Report of the Expert Committee on Seed Breeding. The report has been prepared by the Committee, and I believe it is in the hands of the Government at the present time. We have had the preliminary report from the Committee, and I think it is time that we should have the final report. The report will contain information on the following points:

- The current state of seed breeding in the country.
- The existing seed laws and their effectiveness.
- Recommendations for improving seed quality and distribution.
- The role of the government in seed breeding.

2. Mr. Speaker: ...Mention irrigation projects. He referred to the projects that are currently being undertaken. He mentioned the importance of irrigation projects in the development of the country.

3. Mr. Speaker: ...He referred to the projects that are currently being undertaken. He mentioned the importance of irrigation projects in the development of the country.

4. Mr. Speaker: ...He referred to the projects that are currently being undertaken. He mentioned the importance of irrigation projects in the development of the country.

5. Mr. Speaker: ...He referred to the projects that are currently being undertaken. He mentioned the importance of irrigation projects in the development of the country.

6. Mr. Speaker: ...He referred to the projects that are currently being undertaken. He mentioned the importance of irrigation projects in the development of the country.

11. Mr. Speaker: ...He referred to the projects that are currently being undertaken. He mentioned the importance of irrigation projects in the development of the country.

12. Mr. Speaker: ...He referred to the projects that are currently being undertaken. He mentioned the importance of irrigation projects in the development of the country.

Statement: The supply of water from the lake of Chavathi, as stated by the farmers, is very uncertain. The water in the lake is thus difficult to dependable. The farmers have submitted a memorandum regarding the matter. A committee has been set up to look into the matter. The government has decided to appoint a technical expert to advise on the matter. Measures will be taken to provide a dependable water supply to the farmers of the area.

Assistance: The government has decided to provide assistance to the farmers. The necessary steps will be taken to improve the water supply system. The farmers have been advised to take steps to conserve water.

Annexure: A copy of the memorandum submitted by the farmers is enclosed.

1004—

*1962 Q.—Mr P. Srinivasu Reddy (Guntur):—

Will the Government plan to construct an intake across the Chavathi river near Tummipally to bring water to the Villagam area?

(a) If so, what is the cost of the scheme and the time to be taken?

(b) What are the details of the scheme and the estimated cost?

(c) Whether the scheme has been finalized and submitted to the Government?

(d) Whether the scheme has been rejected and the reasons for the rejection are?

(e) Whether the scheme is being considered for financial assistance?

(f) Whether the Government has approved the scheme and the amount of assistance to be given?

The above questions are still pending. The Government has not yet made any decision on the scheme.
15th Feb. 1918

Third Answer in Question.

Mr. R. V. R. L. Rangabolkeda Project S. R. V. Riddi:—(a) An extent Ac. 53.78 of dry land only was sought to be acquired.

Mr. V. Sidda Rangabolkeda Project S. R. V. Riddi:—(a) An extent Ac. 53.78 of dry land only was sought to be acquired.

RAYALASEEMA DEVELOPMENT BOARD

[paragraph]

Will the hon. Miniser for Planning and Law be pleased to state
(a) whether there are proposals to constitute Rayalaseema
Development Board;
and
(b) if so, when is it likely to be constituted?

The Minister for Planning and Law (Sri K. V. Naryan Reddy)—(a) No. (b) Does not

(a) Yes. (b) It is under consideration.

[paragraph]

(a) No. (b) Does not apply.

[paragraph]

(a) No. (b) Does not apply.

[paragraph]

(a) No. (b) Does not apply.
We are trying to improve again and again and only we, but some other types also who are concerned-saying...

that this must form part of the national plan where in some specific amounts must be provided. and in more that production and expenditure must be synchronized. We have in mind the situation in which funds are available and the surrounding circumstances. We have in mind that funds are available and that the situation is being followed. We have in mind the situation in which funds are available and it is being followed.

Sri S. Vemayya (Sarvepalli):— Will the hon. Minister for Planning and Law be pleased to state:

(a) the quantity of frog legs exported to other countries during years 1966-67 and 1967-68;

(b) the quantity of foreign exchange earned by the above; and

(c) whether there are any proposals with the Government to increase the production of frog in the State now, so as to earn foreign exchange?

Sri K. Y. Narayana Reddy:— (a) The quantity of Frogs Legs exported from India during 1966-67 is 7,502,83 Kgs. Report figures for 1967-68 (for the period from April 1967 to July 1968) are 2,30,417 Kgs.

(b) Rs. 88,02,610 for 1966-67 Rs. 26,56,180 for the period from April to July 1967-68.

(c) No, Sir.

Sri S. Vemayya:— Is additional to frog legs, there is great scope for the export of power. We are getting power of very big size at Sub-Project in Nellore District. Has the Government given any steps to exploit them?
Andhra Pradesh has export potential in Europe, America and Australia. We are trying to take steps to increase the fishing of prawns.

Sri G. Venayya—Is any financial aid given?

Hon. K. V. Narasimha Reddy—Private parties are trying to set up hatcheries and Government will certainly help them.

Sri G. Venayya—How many prawn hatcheries are there?

Hon. K. V. Narasimha Reddy—On the 31st day of January 1969, there were 9 prawn hatcheries.

Sri G. Venayya—Is there any financial aid from the central Government?

Hon. K. V. Narasimha Reddy—Yes, there is financial aid from the central Government.

Community Foods for Export

1043—

Sri G. Venayya—Will the hon. Minister of Planning and Law be pleased to state:

(a) whether the Andhra Pradesh Government has decided to constitute commodity boards to give an intensive study of exports and

(b) what are the commodities that have export potential in Andhra Pradesh State?

Hon. K. V. Narasimha Reddy—(a) Yes, Sir. The Government have since issued orders constituting commodity boards for each of the following 13 commodities—

1. Agro & Agro Based Projects
2. Oils & Oils Seeds, Ghee Cake and De-Oiled Cake Rice Bran etc.,
3. Cashew and Cashew Products
5. Tobacco, Cigarettes and Related
8. Oil and Minerals

22. Mica.
24. Mixed Ore.
25. Polished Garnet.
26. Ferro Magnesium.
27. Micaite.
V. Leather and Leather Goods:
29. Footwear and Leather goods.
31. Pleats.
32. Leather.
VI. Chemicals and Pharmaceuticals:
33. Coal and Coke Products.
34. Graphite.
35. Asbestos.
36. Sulfur.
VII. Handicrafts:
37. Wooden Vessels.
38. Papier Mache.
40. Bone Sausages.
VIII. Engineering Goods:
41. Light Engineering Goods.
42. Heavy Engineering Goods.
IX. Miscellaneous Items:
43. Necessities.
44. Stationery.
45. Necessities.
Rs. expenditure involved for the said work is
1. We refer to your letter of 12th February, 1966.

2. We understand that the Government has decided to develop the area that is coming to the Government division. In spite of repeated demands, they are not strong enough to carry out our request. Will the Government take steps to improve the area or will they leave it to the people to take their own actions?

3. We refer to your letter of 12th February, 1966.

4. We refer to your letter of 12th February, 1966.

Oral Answers to Question:

Mr. Speaker: If he wants Government to take serious steps, his agitation must be a very serious one.

Sri. B. R. Reddy:—Yes, Sir.

Mr. Speaker:—IRRIGATION SCHEMES

(b) No, Sir.

(c) Yes, Sir.

Working expenses Rs. 40 lacs.

Letter Foundation Schemes

1962—

1686 (c) Sri Madabhadj Durbar (Vasukun) —

Will the hon. Minister for Irrigation be pleased to state:

(a) the number of applications received by the Government for the sanction of Lift Irrigation Schemes in Relichevar District during 1962-63, and the particulars of the same;

(b) whether any schemes therein have been sanctioned in the budget for 1967-68;

(c) whether the Arasada Pumping Scheme in Bobbili Taluk is properly functioning, and

(d) when the pumping station at Tirupathi, Pedamanava,
salan village in Bobbili taluk will be started?

Mr. S. Subba Naidu:—(a) Two. One from Sri N., Raj

Gopala Rao, M. F. was received in Chief Engineer's Office during 1962-63, for the investigation of seven pumping schemes at J., Kan

mudurupur, Duvvuru, N. Tadumularam, A. Tadumularam, etc., Pumping and repairs from S., Alampalli and repairs from S., Alampalli, M. E. C. in respect of L. I. Schemes at Ramachundrapur.

(b) No, Sir.

(c) See, Sir.

(d) As the Maramadja Pumping Scheme is yet to be investiga
ted, it is premature to think of its starting. The pumping Schemes at Pedamanavala was sanctioned in the first week of August, ’67 and its erection will be started as and when funds are available and provision is made in the Budget.

J. Reddy:—Rs. 56. 5. 72 lakhs lift irrigation by Tadumularam, A. Tadumularam, Duvvuru, Alampalli, etc. Mr. pres added.

J. Reddy:—Rs. 50. 5. 72 lakhs lift irrigation by Tadumularam, A. Tadumularam, Duvvuru, Alampalli, etc. Working expenses in Rs. 3. 5. 72 lakhs.

Working expenses for Rs. 3. 5. 72 lakhs.

Mr. Speaker—Will you please sit down? I request him to kindly resume his seat. I have only 12 to 15 minutes and I have got only 7 minutes. At this rate if I go on giving 5 or 6 minutes for every question, when can I cover the list?

Gopala Venappa Lohana Dam

1966 — 14 (Q.) Q.—Sadasiv P. Cimangay (Pathanpuram) and T. Rama Rao (Chapampally) — Will the hon. Minister for Irrigation
be pleased to state:

(a) whether it is a fact that 500 acres of Paddy crops will be damaged in Gopaul Pathanpur in Pathanpuram Taluk, Prakasam District, due to the non-supply of water from the Gopali Venahalaguda Dam during 1967-68;

(b) whether the Government have taken steps to supply water to Gopali village from Venahalaguda dam;

(c) whether the Government have received any representations from the public requesting for the supply of water; and

(d) if so, the action taken on the said representation?

1st. Sadasiv P. Cimangay — (a) No, Sir.

2nd. Yes, Sir.

3rd. Yes, Sir.

4th. Yes, Sir.

5th. The work of restoring the damaged dam was completed in all respects.
On a point of order.

The Hon. Member states that the Question was put after the Question had been put to that Hon. Member by the Hon. Member's own Question. He states that the Hon. Member had not had an opportunity of answering the Question.

Mr. Speaker: Will the Hon. Member sit down? I request the Hon. Member to kindly resume the point. I have got only 7 minutes. As this is the 11th Question, give 5 or 6 minutes for every question.

Sr. Pragada Kotha: Yes in his seat.

Mr. Speaker:—Will the Hon. Member sit down? I request the Hon. Member to kindly resume the point. I have got only 7 minutes. As this is the 11th Question, give 5 or 6 minutes for every question.

Goppi Vakalala Kedara Dam

1066—Q. Q.—Servo P. Gomathi (Pattapagram) and T. Rama Rao (Kempapalli) — Will the Hon. Minister for Irrigation be pleased to state:

(a) whether it is a fact that 100 acres of Paddy crops will be damaged in Goppi Panchayat in Pattapagram Taluk, Ponnaram District, due to the non-supply of water from the Goppi Vankalala Kedara Dam in Raebareli during 1947-48;

(b) whether the Government have taken steps to supply water to Goppi panchayat from Vankalala Kedara dam;

(c) whether the Government have received any representations from the public requesting for the supply of water; and

(d) if so, the action taken on the said representation?

Mr. Sidda Reddy—(a) No, Sir.

(b) Yes, Sir.

(c) Yes, Sir.

(d) The work of repairing the damaged dam was completed in all respects.

LIFT IRRIGATION SCHEMES

1961—

3710 Q.—Sei P. Ganapathy—Will the hon. Minister for Irrigation be pleased to state:
(a) the number of LIFT Irrigation Schemes sanctioned during the year 1961-62; and
(b) the expenditure thereon?

Sri K. Sidda Reddy—Nil.

2. Mr. Basappa—laid a number of Schemes for LIFT irrigation, the amount of which was Rs. 25 lakhs. Will the Minister state whether these schemes were sanctioned and how much has been spent so far?

(c) No, expenditure has been incurred so far.
Oral Answers to Questions. 15th Feb. 1938. 491

1049—

Q.—Will the hon. Minister for Public Safety and Law be pleased to state—
(i) the opposing authority of Assistant Police Prosecuting
Officer in our State;
(ii) whether the Government propose to empower the High
Court to make appointments to the post in consultation with the
Government; and
(iii) if not, the reasons thereof?

V. V. Narasim Reddy—(a) The Inspector General of Police
Andhra Pradesh-Hyderabad.
(b) No.
(c) As the present position is satisfactory it is not proposed to
empower the High Court to make appointments to the posts.

1050—

1941—Q.—Will the hon. Minister for Planning and Law be pleased to state:
(i) whether there is any proposal to wind up the Munsif Magis-
trate's Court at Ambepali, Vinthkapatnam district, which was
recently started; and
(ii) if so, for what reason?

V. V. Narasim Reddy—(a) No, Sir.
(b) Does not arise.

Mr. Speaker—There is no proposal to abolish the Munsif's
Court.

72—4
1051—

**1957-02-09**

(a) Will the Hon. Minister for Communications be pleased to state:

- Whether there is any proposal before the Government to widen the road between Raplipal and Dakhinapuram in West Godavari District;
- If so, the stage at which it stands at present.

Sel. R. Satyanarayana Rao (Narsampet): Raplipal and Dakhinapuram are in East Godavari District and not in West Godavari District. About 9 miles out of the 12 miles 4 furlongs stretch between these two places have already been widened to the standard width. The widening of the remaining 6 miles road will be taken up in due course.

(b) In view of answer to (a) above, this does not arise.

(c) Y. D. Mohanaditya: The Hon. Minister has already been informed by the West Godavari District Administration that the road between Raplipal and Dakhinapuram is required to be widened.

Reply to Query About at Dakhinapuram

(b) No, Sir.

(d) Does not arise.

(e) The Hon. Minister has already been informed that the road between Raplipal and Dakhinapuram is required to be widened.

(f) The Hon. Minister has already been informed that the road between Raplipal and Dakhinapuram is required to be widened.
1053—

**Q.** (N) O. — S. R. K. Baskaraju. — Will the hon. Minister for Irrigation be pleased to state:

(a) Whether the Government will take immediate steps to release water to the crops under the Pendraiva Pumping Scheme, Kovur Taluk, West Godavari District?

Sir S Srida Reddy. — Yes, Sir; the Pumping Scheme started functioning from 2-7-1967.

(b) Whether the Government will take immediate steps to release water to the crops under the Pasupudava Pumping Scheme, Kovur Taluk, West Godavari District?

Sir S Srida Reddy. — Yes, Sir; the Pumping Scheme started functioning from 2-7-1967.

(c) Whether the Government will take immediate steps to release water to the crops under the Pasupudava Pumping Scheme, Kovur Taluk, West Godavari District?

Sir S Srida Reddy. — Yes, Sir; the Pumping Scheme started functioning from 2-7-1967.

1054—

**Q.** Srida Reddy. — Will the hon. Minister for Irrigation be pleased to state:

(a) Whether investigation has been completed for the Pasupudava Pumping Scheme in Godavari Taluk, Bheemili Division, and

(b) If so, when the work will be taken up?

Sir S Srida Reddy. — (a) Yes, Sir.

(b) As the proposals are still under examination, it is too premature to say when the work will be taken up.

**Completion of the Work on Jamtoda**

1055—

**Q.** Srida Reddy. — Will the hon. Minister for Irrigation be pleased to state:

(a) the reasons for the delay on the part of Government to complete the work of Jamtoda, Moprakeepa Ekn, Salar Taluk, Bheemili District and

(b) when the remaining work will be taken up?

Sir S Srida Reddy. — (a) It is intimated that the work is under progress.

Member desires information regarding the extension of Jamtoda Channel.
1. Tobacco  17.50
2. Oil Cake  5.00
3. Sugar and Milledes.  3.9

**Total**  45.8
* This includes the exports of Chillies from Andhra Pradesh for 1965-66 valued at Rs. 78 lakhs.

(b) Yes, Sir. The Government have already ordered the work of carrying out a comprehensive survey of the export potential of Andhra Pradesh, erstwhile, to the Indian Institute of Foreign Trade. Their final report has also been received and is under examination of the Director of Commerce and Export Promotion.

Sri K. V. Narayan Reddy: 

(a) None, Sir.

(b) Yes.
(c) and (d): The Public Service Commission drew up a panel of 27 names of Officers for appointment by transfer to the posts of District Statistical Officers. Government for approval and the Government approved the first 6 names on the Panel and registered their services. As regards the balance of the Panel the Government in consultation with the Public Service Commission agreed to their inclusion on the next occasion. However, those six officers are continuing to act as District Statistical Officers.

Sri G. G. Gunnavanam:—Sri S. Sidda Reddy.—(a) No, Sir.
(b) No, Sir. But not clear.

Deben of Canals

(a) whether the Government have desired all the canal and the irrigation works in the State; and
(b) if so, what are these canals and the works thereon?

Sri S. Sidda Reddy.—(a) Some of the Irrigation canals maintained by Public Works Department have been desilting during 1948-49 according to necessity under the annual maintenance programme. No irrigation canals have been desilted.
STATEMENT LAID ON THE TABLE OF THE HOUSE

REVIEW OF SALT IN NIZAMAGPUR

- At the time of your visit, the salt in Nizamagpur was
  - (a) what kind of salt was present? 
  - (b) if so, when it will be removed; and whether the level of shutters will be raised, and
  - (c) whether any technical decision has been taken?

Mr. B. B. Reddy, Secretary—(a) and (c): Removal of salt from the Nizamagpur Salt Pan is not an economical proposition and hence proposals and the full Reserve level of Nizamagpur are being formulated.

(b) Not yet, Sir.
Dr. Answers to Questions. 15th February, 1944

Dear Sir,

I am writing to inquire about the status of my application for the position of assistant professor in the department of physics. I understand that the interview will take place on the 22nd of this month at 10:00 AM. Could you please confirm whether my application has been accepted and whether there is any additional documentation required for the interview?

Best regards,

[Signature]

BUSINESS OF THE HOUSE

Mr. Speaker—There is one notice of motion under Rule 43 regarding terms of life by present party etc. It has been postponed under Rule 44 and placed as an adjournment motion. The statement has been referred to the chairman of the committee.

Sir C. V. K. Rao:—Yesterday I brought to your kind notice about the Satyadas Lohia. Here, his wife, his daughter, his son and his daughter-law who desired to see the hon. Chief Minister.

Mr. Speaker:—Please give notice.

Sir C. V. K. Rao:—I have given notice of an Adjournment Motion on the subject.

Mr. Speaker:—The very same evening, whatever notice is received during the course of the day, are brought and taken. The very next day one can expect an order on his notice. So far as this notice is concerned, I have not received it as yet.

Sir C. V. K. Rao:—I have handed it over to the Secretary himself.

Mr. Speaker:—I do not know. I have not received it.

Sir C. V. K. Rao:—These persons were put in jail. Sir, may I request the hon. Chief Minister to set them free?

Mr. Speaker:—I do not know whether it may be a very urgent matter, but please give notice. I will take action immediately.

Sir C. V. K. Rao:—My notice is there, but it has not reached you.

Mr. Speaker:—It has not come to me so far.

Sir C. V. K. Rao:—There are some complaints regarding the left-handedness of M. T. Raja.

Mr. Speaker:—The hon. Minister for Revenue is not here. We will be meeting only on the 15th, and on that day I will ask him to make a statement.

Mr. Speaker:—It is not advisable to prolong the notice of M. L. Asquith, which is the statement of M. L. Asquith. We will not allow it to be altered.
Mr. Speaker.—That is a question put to me.

Mr. Speaker.—No, it is not a question put to me.

Mr. Speaker.—I think it is in the interest of the House it is better that I should not give any opinion. I expect every member to realize his responsibility and see that they do not multiply these quarters to any body else. That is all I can say. A number of complaints are coming to me. I am not taking cognizance of these complaints.

Mr. Speaker.—That is why I do not like to say any thing about that matter on the floor of the House. You come and discuss that matter with me in my chamber. On the floor of the House I am not prepared to say any thing.

Mr. Speaker.—In the name of M. L. As quarter 0.5 signifies the quarter of the month. The quarter 1 signifies the quarter of the year. The quarter 2 signifies the quarter of the year. The quarter 3 signifies the quarter of the year. The quarter 4 signifies the quarter of the year.

Mr. Speaker.—In the name of M. L. As quarter 0.5 signifies the quarter of the month. The quarter 1 signifies the quarter of the year. The quarter 2 signifies the quarter of the year. The quarter 3 signifies the quarter of the year. The quarter 4 signifies the quarter of the year.

Government Resolution:

[Document content not visible in image]
Parliament has agreed to the Bill, which provides for a three-stage objective. The first stage will be followed by a second stage, and the third stage will be achieved by the fourth stage. After the first stage, the objective will be to reach a certain level. In the second stage, the objective will be to achieve a higher level. The third stage will be to ensure that the objective is met. The fourth stage will be to maintain the objective. The Bill has been passed unanimously in the House. The President has signed the Bill, and it will be presented to the Governor for assent. The Governor has agreed to assent to the Bill, and it will become law.
13th February, 1938.

Government Resolution.  

Mr. Speaker in the Chair,  

The Legislature Party desire to record its deepest gratitude to the Government for the statement made by the Secretary. The statement was an exact reproduction of the proceedings of the Working Committee of the member of the Legislature which had been held the previous day. The statement was also circulated to the members of the Legislature.  

Mr. Speaker, I beg to move:  

Resolved: That this Legislature expresses its appreciation to the Government for the statement made by the Secretary.
13th February, 1968.

The following was submitted to the State Assembly on 13th February, 1968, by the Hon. Minister for Education:

"The proposal for the establishment of a State University in the Western region of the state was presented in the Assembly on 13th February, 1968. The objective of establishing a State University is to provide a platform for the advancement of education and research in the state. This will also help in the development of the region by providing educational opportunities to the local population. The university will be set up with the support of the state government and the Ministry of Education. The details of the proposal, including the location and the scope of the university, will be discussed in the upcoming sessions of the Assembly.

The proposal has been met with a positive response from the members of the Assembly, and it is expected that the university will be established within the next fiscal year. The government is committed to providing the necessary resources to ensure the smooth functioning of the university.

The establishment of a State University is a significant step towards the development of the state and its people. It will not only provide educational opportunities but also contribute to the overall economic development of the region. The government is confident that the university will play a vital role in shaping the future of the state.

Government Resolution
15th February, 1955

In view of the representations made by various sections, this is to inform the resolution of
the ChSf

R. K. Rao

We are not prescribing a draft of any legislation. We are only suggesting some points which in our opinion will enable the Central Government and other leaders to find a solution to this language issue. The proposals of the government of India in consultation with the State Government, this House resolves that no proposal should be made in accordance with that formula for the study of a modern Indian language, preferably one of the South Indian languages, from Hindi and English as the Medium of instruction. The writer suggests that Hindi should be taught at an earlier stage and English in the non-Hindi speaking areas, this is in the resolution itself.

Rajendra Shukla

Mr. C. V. R. Rao:—How is it different from the resolution of the Chief Minister?

Rajendra Shukla:—Who said it is different.

(Interjections)

Mr. C. V. R. Rao:—The time is now when some new questions can emerge in some honour. Don’t confine yourself. There are certain provisions of the resolution 1, 2, 3, 4, ——
That section is no good, Sir.

Sir, Shri Bhashyamadda Reddy—I would request you, Sir to accept me from, Inform Member Shri. C. V. R. Rao (Laughter). I am prepared to answer intelligent questions. As to the question of language development and the question of the status of languages. I would respectfully submit that basic education should be delivered in the mother tongue and higher education in the language of the people. I believe the use of the mother tongue in the elementary stage gives an advantage to the students in understanding the language of instruction. No language should suffer from a disadvantage. Linguistic minorities point out a clear case in this regard. The resolution, Sir, in my opinion and in the opinion of this House is the best constructive and helpful for the solution of the problem. Students should be aware of their mother tongue and the language development should be on the same footing. This resolution is in the same spirit. It should be noted that this resolution is supported by all the members. The future generation, the present generation, and the coming generation should be aware of this. The resolution should be adopted, and the people should be guided and an integrated policy should be adopted. The resolution should be adopted.
Government Resolution:

Government Resolution:

"This Assembly requests the Prime Minister of India to convene an All India Conference of all the leading political parties and the Chief Ministers of all States to discuss the ways and means for the successful solution of this national problem."

dated... etc.

Mr. Speaker:—He is only copying that portion of the resolution. He is not going to withdraw.

Sri B. Venkaiah:—What happens at the end of the amendment. Is he prepared to accept the rest of the amendment.

Mr. Speaker:—What are the questions you are putting? He is accepting the particular portion of the amendment. I request the members to take things slowly but not lightly.

Now I will put the resolution as amended to vote.

Hereafter. (Signed) (Aarey)

Mr. Speaker:—The question is:

For item (3) of the resolution substitute the following:

The resolution is hereby amended to the effect that in all the States and Union Territories, the two language norms consisting of English and regional language to be supported. At the same time amendment to the Central and All India Services either by the U.P.S.C. or otherwise, conditions shall be maintained in English and for the State services in regional language in such a way that no language group suffers a disadvantaged. The requirements adopted by Parliament should be amended accordingly.

The amendment was declared negatived.

Sri D. L. Mehta moved for division.

The House then divided:

Ayes: 21; Noes: 197; Neutrals: 11.

The amendment was negatived.

Mr. Speaker:—The question is:

"Delete item (2) of the resolution and remember the remaining item."

"Delete the word 'whereas' in item (2) of the Resolution."

"Delete the last part of the resolution beginning with the words "This Assembly... interest of its people.""
COWASJI J. SHAKADAM Resolution: 15th February, 1961. 467
or: Official Language.

"Add the following at the end of the first paragraph of the Resolution: The Resolution passed along with the Official Languages Amendment Act should be kept in suspense for six months."

"Add the following at the end of item (3) of the Resolution — On the basis of population."

The amendment was negatived. Mr. Speaker — The question is:

Add the following at the end of the Resolution:

"This Assembly recognises the Prime Minister of India to convene an All India Conference of all the Leaders of the political parties and the Chief Ministers of all States to discuss the steps and means for the successful solution of this national problem."

The amendment was adopted.

Sri Ch. Rajagopal Rau—Mr. I beg leave of the House to withdraw my amendment.

The amendment was withdrawn. Mr. Speaker — The question is:

"In line 4 of item (1) of the Resolution after the words 'the mother tongue' insert the words — and regional languages as well."

The amendment was negatived.

Sri Shastri Salkhadia Oswai pressed for division.

The House then divided:

AYE 2 — Noe 551 — Neatvah—Nil

The amendment was negatived.

Mr. Speaker — The question is:

"In line 4 of item (1) of the Resolution after the words 'Hindi' and 'English' substitute the words 'Hindi' or English."

The amendment was declared negatived.

Sri Salkhadia Oswai pressed for division.

The House then divided:

AYE 2 — Noe 551 — Neatvah Nil.

The amendment was negatived.

Mr. Speaker — The question is:

"In item (6) of the Resolution delete the words 'up to the elementary stage'."

The amendment was declared negatived.

Sri Shastri Salkhadia Oswai pressed for division.

The House then divided.
15th February, 1942.

Ayas 3 - Nos. 156 - Neutral I.
The amendment was negatived.

Mr. Speaker — The question is:

"In the 4th item (3) of the Resolution between the words "representative" and "of" insert the words "the percentage of minority"."

The amendment was declared negatived.

Mr. Speaker — The question is:

"In the 6th item (3) of the Resolution between the words "representative" and "of" insert the words "the percentage of minority"."

The amendment was declared negatived.

Mr. Speaker — The question is:

"In line 2 and 8 of the Resolution delete the words "in Associate or additional language as addition to Hindi"."

The amendment was negatived.

Mr. Speaker — The question is:

"In line 15 of the Resolution for the words "the three language formula" substitute the words "two languages including English and State language"."

The amendment was declared negatived.

Mr. Speaker — The question is:

"In lines (1) of the Resolution after the words "While in the Non-Media speaking...shall be taught".

The amendment was declared negatived.

Mr. Speaker — The question is:

"In lines (3) of the Resolution for the words "the above three languages" substitute the words "the languages recognised by the Constitution".

The amendment was negatived.
FOR THE GOVERNMENT RESOLUTION, SUBMIT THE FOLLOWING:

"This Assembly is of the opinion that the present situation of conflict and turmoil in the country over the question of official languages has been brought about because of the policies of the Central Government which has attempted to impose Hindi on non-Hindi people. Taking advantage of the natural urge of the non-Hindi people against the element to impose Hindi, recommendations are raising the demand that English should continue to be also official language. This Assembly demands a democratic solution of the language problem on the following basis:

1. Recognize the equality of all Indian Languages.
2. All the languages listed in the VIII Schedule of the Constitution should be recognized as official languages of India.
3. All Bills, Laws, orders and other publications of the Central Government, should be published in all the languages listed in the VIII Schedule.
4. All offices of the Central Government in different States must transact business with the people in the language or languages of the State."

5. The State Governments should have the right to correspond with the Centre in their own language.

7. Immediate and urgent steps should be taken to ensure that administration and courts in the States are carried on in the language of the State, and that the medium of instruction at the highest level in the language of the State.

8. Muster should have the right to receive instruction in their own mother tongue at the highest elementary stage.

9. Until these steps are completely implemented, English should also be an Official Language. After the resolution project the duration of which should be decided with the consent of the non-Hindi speaking regions.

The amendment was negatived.

Mr. Speaker:—Now I will put the amended Resolution to vote.

Mr. Speaker:—The question is:

"The An॥ek Prakash Legislative Assembly views with concern the situation that has arisen after the passing of the recent Official Language Resolution, 1967, along with the Resolution adopted by Parliament. Will the Government give a complete explanation of the nature of the law? The Government has already announced that the continuance of English as an essential or additional language in addition to Hindi is to be welcomed, the Resolution adopted by Parliament has unfortunately led to serious hardships to the people of non-Hindi speaking States. The Assembly is of the emphatic view that the situation which has thus arisen requires to be remedied by taking immediate steps as the hon. Member suggested here.

1. There shall be a strict conformity in all the States of India with the three-language formula in imparting education. While in the non-Hindi-speaking States, the medium of Hindi and English shall be the languages taught to the young at suitable stages, in the Hindi-speaking States, Hindi, English and any other modern Indian languages prescribed in the VIII Schedule of the Constitution, preferably the Southern States, shall be taught. At the time of recruitment to the Central and All-India Services, either by the I.B.P.C. or otherwise, candidates shall be examined in all the above three languages in such a way that no language grouping suffers a disadvantage. The Resolution adopted by Parliament should be amended accordingly.

2. While there shall be no attempt to impose Hindi on non-Hindi-speaking States, effort shall be made to develop and impart the Hindi language so that it may serve as a medium of expression for all the elements of the composite culture of India as envisaged under the Constitution. In the process of development, all the languages of India enunciated in the Constitution shall have scope to contribute and enrich Hindi."
5. Like-wise efforts shall be made forthwith for the intensive development of all the Regional Languages with adequate financial and other assistance, dictated by the need of the Indian Government, so that they grow rapidly in richness, become effective masses of communicating, evolve knowledge and serve as much of instruction at all levels in education and administration.

6. Linguistic minorities in all the States shall have the right to receive instruction in their own mother-tongue in the elementary stage and the State Governments shall provide the necessary facilities to such minorities.

7. This Assembly takes note of the grave anxiety on the part of the people of many States, including Assam, Pandit, in the matter of representation in Central and All-India Bodies and requires that in the interest of National Integration, there shall be equitable representation to all the States of India in the said bodies.

The Assembly is firmly of the opinion that quick and effective action on the above-all lines can avert all doubts and clarifications, which are a matter of grave concern. However, in the disposal of any language-group in respect to entry into Central and All-India Services and legislation in schools and colleges, the same may be provided for in the interest of the student.

This Assembly expresses the Prime Minister of India to convene an All-India Conference of all the Leaders of the political Parties and the Chief Ministers of all States to discuss the ways and means for the successful solution of this national problem.

The resolution was adopted.

Srl. C. V. K. Rao said:—I second the resolution of the Vice-President, on the non-Hindi speaking people. In protest of this Resolution, I stage a walkout.

Smt. J. Jethmalani said:—It is a point, I am also walking out.

Mr. Speaker:—I do not allow any speech.

Now, the honorable Chief Minister will present the budget.

Sri K. Rajabahadur Reddy rose to his seat.

Sri K. Rajabahadur Reddy rose to his seat.

[Mr. Speaker:—It has a home minister to the office saying that he is going to give the main resolution for division.]

72-4
never gave instructions, and the whole thing is put to vote. After
the result is declared, what is the use of saying 'I am persisting for
division'? What can I do?

PRESENTATION OF THE ANNUAL FINANCIAL STATEMENT
(BUDGET) FOR THE YEAR 1968-69.

Mr. Speaker,

In the Budget for the year 1958-59, the Members of this House
will recall that there was a reduction in the budget estimates for
1968-69. Since then, there has been a steady improvement in the
income of the Government, which has resulted in a surplus of Rs.
60.01 million. The budget now presented to the House is
therefore, a budget of surplus.

The Budget for the year 1968-69 has been prepared with the
object of ensuring that the financial resources of the State are
efficiently utilized. The budget estimates for the year 1968-69
are based on the following assumptions:

1. The external assistance to the State will be Rs. 67.99 million.

2. The internal assistance to the State will be Rs. 86.83 million.

3. The capital expenditure will be Rs. 62.42 million.

4. The current expenditure will be Rs. 100.85 million.

The budget estimates for the year 1968-69 are as follows:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Capital Expenditure</td>
<td>Rs. 62.42 million</td>
</tr>
<tr>
<td>Current Expenditure</td>
<td>Rs. 100.85 million</td>
</tr>
<tr>
<td>Total Expenditure</td>
<td>Rs. 163.27 million</td>
</tr>
<tr>
<td>Revenue</td>
<td>Rs. 186.70 million</td>
</tr>
<tr>
<td>Surplus</td>
<td>Rs. 23.42 million</td>
</tr>
</tbody>
</table>

The budget for the year 1968-69 is therefore, a budget of
surplus.

474 1968.2.16. Presentation of the Annual Financial
Statement (Budget) for 1967-1968.

...

Statement (Budget) 13th February, 1968.

The statement of the budget for the year 1968-69 is submitted to the House for consideration.

The budget for the year 1968-69 is presented as follows:

Revenue

1. Revenue from taxation
   a) Direct taxation
      i) Income Tax
         i) Individuals
         ii) Companies
      b) Sales Tax
   b) Indirect taxation
      a) Sales Tax
      b) Duty on goods

2. Revenue from non-taxation
   a) Services
   b) Property
   c) Fees

3. Other revenue
   a) Charges
   b) Grants
   c) Other sources

Expenditure

1. Revenue expenditure
   a) Current expenditure
      i) Salaries and wages
      ii) Supplies and services
   b) Capital expenditure
      a) Development
      b) Maintenance

2. Capital expenditure
   a) Infrastructure
   b) Education
   c) Health

3. Other expenditure
   a) Grants
   b) Subsidies
   c) Loans

The budget aims to balance revenue and expenditure for the year 1968-69.

The House is requested to consider the budget and provide its views for the betterment of the country.

Thank you.

1967-68 (Annual Financial Statement (Budget) for 1968-69)

1968-69

1967-68

1967-68

1967-68
Presentation of the Annual Financial Statement (Budget) for 1966-67:

1966-67 Budget:

1965-66 Annual Budget and the 172.58 rupees, 1966-67 rupees, 184.68 rupees, and 1986-67 rupees are the same. 1966-67 rupees are 9.4% more than 1965-66 rupees. Annual income is 15.3% more. 1966-67 rupees are 9.4% more than 1965-66 rupees. Income is 15.3% more. 1966-67 rupees are 9.4% more than 1965-66 rupees. Income is 15.3% more. 1966-67 rupees are 9.4% more than 1965-66 rupees. Income is 15.3% more.

1967-68 Budget:

1966-67 Budget is 17.8% more than 1965-66 rupees. 1967-68 rupees are 19.8% more than 1966-67 rupees. 1967-68 rupees are 19.8% more than 1966-67 rupees. Income is 15.3% more. 1967-68 rupees are 19.8% more than 1966-67 rupees. Income is 15.3% more. 1967-68 rupees are 19.8% more than 1966-67 rupees. Income is 15.3% more.

1968-69 Budget:

1967-68 annual budget is 184.68 rupees. 1968-69 rupees are 19.8% more than the annual budget of 1968-69. 1968-69 rupees are 19.8% more than the annual budget of 1968-69. Income is 15.3% more. 1968-69 rupees are 19.8% more than the annual budget of 1968-69. Income is 15.3% more. 1968-69 rupees are 19.8% more than the annual budget of 1968-69. Income is 15.3% more.
Presentation of the Annual Financial Statement (Budget) for 1968-69.

In the year 1967-68, the total revenue was Rs. 51,40,000. This includes:

1. **Tax Revenue**: Rs. 30,00,000
2. **Non-Tax Revenue**: Rs. 20,00,000
3. **Miscellaneous Revenue**: Rs. 11,40,000

The total expenditure for the year 1967-68 was Rs. 53,00,000, including:

1. **Current Expenditure**: Rs. 20,00,000
2. **Capital Expenditure**: Rs. 33,00,000

The surplus for the year 1967-68 was Rs. 2,00,000.

For the year 1968-69, the Budget estimates were as follows:

- **Revenue**: Rs. 56,00,000
- **Expenditure**: Rs. 58,00,000

The deficit for the year 1968-69 was expected to be Rs. 2,00,000.

1968-69 is likely to be a challenging year, with increased costs due to inflation and other factors. However, efforts are being made to control expenditure and increase revenue to meet the budget targets.
15th February, 1968

Presentation of the Annual Financial Statements (Rugby) for 1967-8.

The following table shows the results of the last financial year:

- Sales: £1,500,000
- Costs: £800,000
- Profit: £700,000

The board is pleased with the results and recommends a dividend of 5%.

(9) The directors, A. B. C., D. E., F., G., have agreed to the above.

(1) The shareholders have approved the dividends.

(2) The accounts are now available for inspection.
The House then adjourned till Three of the clock on Monday the 19th February, 1966.
APPENDIX

Sir,

I have the honour to present the Budget of Andhra Pradesh for the year 1968-69.

ECONOMIC REVIEW

Since I presented the last Budget in June, 1967, the economic position which has overtaken the country has not yet changed. A further setback has been that the prospects of a good crop, though frustrated by the failure of rains in September and October, 1967, have receded further due to the unfavourable climate conditions which have been obtained. The spread of the disease has slowed down to the extent of its containment. In fact, in some areas the disease has been brought under control and has begun to decline. With good rainfall and the prospects of a better crop, the situation should further stabilise thus enabling recovery of the jute cultivation.

For a proper perception of the prospects of our economy, it will however, be necessary to review the economic growth which we have been able to achieve since the formation of this State.

A decade has passed since our State was formed. During this period, we have gone through the Second and Third Five-Year Plans. Our production of jute has increased from 77,615 lakhs in 1952-53 to 17,715 lakhs in 1967-68. The increase has been 90.7 per cent. The production of rice was 3,92,94,572 in 1955-56 as against 4,24,57,745 in 1967-68. The increase has been 7.1 per cent.

The production of sugarcane has increased from 4,29,671 in 1956-57 to 4,80,771 in 1967-68. The increase has been 13.0 per cent.

The industrial production too has gone up substantially over the two Plan periods. The increase being 47 per cent in the Second Plan, and 42 per cent in the Third Plan period. The peak-up capital of Joint Stock Companies in the State increased from Rs. 20.72 crores in 1955-56 to Rs. 54.99 crores in 1963-64. The number of workers engaged in joint stock companies have increased from 1,79 lakhs in 1955-56 to 2.56 lakhs in 1964. These increases are not alone impressive. Yet the industrial base of the State remains weak accounting as it does for only about three and a half per cent of the industrial output of the country.

The total output on these two F.Y. Plans was Rs. 541.02 crores. 90 per cent of this was invested in food grains. Roughly one-third of the crop potential of 21 lakhs acres was created. As a result, a new irrigation potential of 23 lakhs acres was created. This, together with the incremental productivity, has increased the yield by 37 per cent. During the last two years, the irrigation potential increased further by 11 lakhs of acres and the power generating capacity by 330 MW. We are thus now in possession of substantial productive assets which would make for rapid economic growth. Our investments, still, for some time, have to be directed more towards utilisation of the assets a ready asset, rather than provision of new ones, so that the general economy of the State as well as the State's revenue may grow.
Appendix.

15th February, 1968.

For ensuring economic growth as envisaged in the Plan, an integrated and co-ordinated administration of the Plan programme is essential, so that an overall approach is adopted in each and every sector and in every State and region. The working of the various implementing agencies and the administration of the various Plan schemes was undertaken by a Committee under the Chairmanship of Smt. M. C. Kaur, the present Chief Secretary to the Government. The more important recommendations of that Committee were that the District Administration should be strengthened with promotion of industrial growth as being its first task. The District Development Boards consisting of the Collector and the Chairman of Zila Parishad should be constituted and the responsibility for ensuring the smooth growth of the District should be assigned to them. The more important recommendations of the basic requirements of Agricultural production viz., cattle and agricultural inputs, the Collector should be held responsible. The recommendations for the furtherance of these recommendations, the District Development Boards have just been constituted and are now engaged in preparing agricultural programmes for the next Kharif season using each region as the unit of operation.

CURRENT PROGRAMME

I now proceed to review the more important programmes which have already been taken up and which require attention.

Agriculture — On the agricultural front, a significant aspect of the new strategy for agricultural production, is the intensification of High Yielding Varieties programme in 1965-66. More than 20,000 farms were under cultivation this programme before the end of 1967-68. This programme is continuously being extended, covering progressively larger areas, not only of rice, but also of wheat, sugarcane and mustard.

The experimental schemes undertaken to grow long staple cotton in our State are yielding encouraging results. The cultivation of soya beans in the East Bengal region under the Sugarcane Project is highly promising. The Punjab Road is another important schemey which is another essential factor in the development of the staple variety spread of cotton in the State during the year.

The cultivation of sugarcane, which has been undertaken in the district of West Bengal, has been successful. This project has been extended to other districts also.

Short duration mustard variety from H. C. 6 variety has been evolved at the Agricultural Research Institute, Rajabhatganj, and a programme for its multiplication has been taken up.

Irrigation: In the irrigation sector also we have continued to make steady progress. The Prime Minister of India inaugurated the laying-in of water from the Meghnadpur Reservoir into the canal on the 4th August, 1967. So far, an extent of 5,000 acres has been brought under irrigation. In addition, an extent of 7,000 acres under full irrigation and 2,500 acres under supplementary irrigation will be supplied with water during the current second season.

Against an actual expenditure of Rs. 16.5 crores in 1966-67, and a proposed expenditure of Rs. 18 crores for 1967-68, the provision
proposed for 1968-69 will be Rs. 8.5 crores only. With this limited allocation, no additional irrigable potential of 20,000 acres under the CCRI scheme is expected in 1968-69. The construction of Nargarjun Sagar dam so the full height, will be completed in 1969-70.

The work on the Ramagundam Project which is already in good progress will be continued. For this purpose a provision of Rs. 100 lakhs is proposed for the year 1968-69, as against Rs. 60 lakhs for 1967-68.

The other important projects, which are in progress are the Tungabhadra Project, High Level Canal and Guntur Channel Scheme. The current provision of Rs. 25.92 lakhs for Tungabhadra Project, High Level Canal is proposed to be increased to Rs. 141 lakhs in 1968-69. For the Guntur Channel Scheme, the provision proposed for 1968-69 is Rs. 25 lakhs.

The projects which are proposed to take up by collection of advancement contribution from the beneficiaries, will be the Udumalpet Barrage, the Yeluru Barrage scheme, and the schemes for improvement in Nimmalakuru. Necessary investigations for the first two schemes for advancement contribution have already been issued in the case of the Udumalpet Barrage and will be issued shortly in respect of the other two schemes.

The most important medium irrigation project for which preparatory notably is being pursued is the Tarnapour Barrage which forms part of the Vadachal Project. The estimate for this scheme is still awaited from the Government of India.

Owing to paucity of funds, the work on some of the irrigation projects had to be slowed down. It is unfortunate that this has resulted in the retrenchment of a large number of engineers, assistants and stenographers employed in the schemes. In order to enable the projects which were to be taken up in the current year, and also to avoid retrenchment, it is proposed to undertake investigations of schemes which are likely to find a place in the Five-Year Plan either in the State or Central sector.

Power — The work on all the major projects is in good progress. An engineering problem of great complexity was encountered in the construction of the outer dam in the Peyta river project. I take this opportunity to congratulate all our engineers who have succeeded in constructing the outer dam under nearly 40 feet depth of water.

Last year, I expressed the hope that the Kedalguda Dam would improve the situation and reduce the burden on the consumer. This hope, by and large, has been fulfilled. That great boon to the community of the area, which was expected in the current year, will be handed over to Rs. 25 crores against Rs. 13 crores that were required in the previous year. The electricity tariff, which was working for Rs. 15.5 crores last year at 64%, this year will be reduced to 64% in 1968-69 and 5% in 1969-70. The capital charges vary from 4.5 to 6.5% per annum. The capital charges were margin last year and 25% this year. The capital
investment is Rs. 30.14 crores in the current year and the proposed investment for 1968-69 is Rs. 30 crores. Substantial provision will be made for strengthening transmission facilities and construction of pumphlets.

The total installed capacity at the end of the Third Plan was 352 MW. Kothagudem contributed 120 MW last year. The Third and Fourth units of Kothagudem which were commissioned in 1967, 1968 and 1969 respectively have added 60 MW each. The first unit of Upper Siron has also been commissioned. The total installed capacity has now increased to 432 MW. With the second unit of Upper Siron which is to be commissioned very shortly, the total capacity will rise to 452 MW. Kothagudem has been linked to Hyderabad via a double-circuit 132 KV link via Warangal. The 132 KV line to Machilipatnam will be completed next year. The sub-station at Ongole will also be commissioned along with it. Nizampet sub-station has been commissioned to Hyderabad by 132 KV giving an alternative link to Hyderabad. A 72 MVA transformer has been installed at Hyderabad to stabilise the supply to the twin cities and also the surrounding districts of Telangana.

With a view to accelerate rural electrification, a scheme has been formulated requiring the installation of 17000 km of 33/11 KV lines and 60MVA sub-stations at a cost of Rs. 60 crores. The scheme is expected to be completed by the end of the Fourth Plan.

On rural electrification in Telangana, an additional provision of Rs. 2.5 crores will be made in 1968-69 out of Telangana resources. This will be in addition to Rs. 1.5 crores which is proposed to be spent in Telangana in other sectors from plan resources.

Industry:—The 90 tonne Cementsal Mixture Unit has recently been commissioned at Vikarabad on 15th December. It is to be inaugurated by the Deputy Prime Minister. With the full commissioning of this plant, the supply position of Portland in our State will be considerably improved.

Of the Central Government undertaking in our State, the Department of Mines and Energy has made rapid progress in setting up its works for the manufacture of steel rolling mills and other equipment for mining. The Government has also approved the proposal for the manufacture of heavy vehicles at Vasai by Faurey.

With the setting up of a plant for steel rolling mills and other industries at Rs. 3.27 crores by the Andhra Pradesh Industries Corporation, the Government is taking steps to ensure the supply of necessary assistance from the Central Government and other agencies for procurements.

The Andhra Pradesh Mining Corporation has undertaken the mining of Adilabad in Cuddapah District. It has also set up a Clay Refractories Plant at Dwaraka Tirmudhi in West Godavari District. This Corporation has so far reported 3.5 lakh tonnes of ore for earning a foreign exchange of Rs. 1.75 crores.
The following are the major investigations either completed or being carried out in the State:

**Copper and Lead**—Detailed assessment of copper and lead deposits in Aguagamesh block, Greater Diyun;

About 14 million tons of lead and copper ores have already been proved in the Khandbari, Mallikanda and Dimboda Blocks, and further drilling is in progress.

**Copper**—Assessment of copper deposits in Chans Kotana bell, Kumaon district:

Further deep drilling is proposed during 1962-63.

**Lead, Zinc**—Assessment of lead and zinc deposits in Chilima, Udaypur, and Zangam-jatapa bell in Cadapah and Kurnool districts:

Further drilling is pursued for a final assessment of deposits.

**Gold**—Drilling and mining explorations for gold in Ramgarh gold field, Andhra Pradesh:

Payable ore-shoots totaling 400 m in length, averaging 1 m. in width and 2 to 6 gms. of gold have been proved on 2nd level in Yeramkod mine. The development of the 3rd level has been taken up.

**Adithuru**—Detailed mapping and drilling for asbestos and copper in the Puvvimiiuthu bell, Cuddapah district:

A preliminary estimate has proved 0.25 million tonnes of asbestos. A final detailed assessment of the deposit has been taken up.

**Copper**—Detailed assessment of copper deposits in Malavathu area, Kurnool district:

About 0.46 million tonnes of copper-ore with 2% copper have been proved in the first phase of drilling. The second phase of deep drilling is in progress.

**AGRO-INDUSTRIES CORPORATION**

An Agro-Industries Corporation with an authorized share capital of Rs. 2 crores is proposed to be set up before the end of March, 1968. 65% of the share capital will be paid by the State Government and 35% by the Government of India. The remaining unsecured share capital is Rs. 60 lakhs of which Rs. 30 lakhs will be by the State Government and Rs. 30 lakhs by the Government of India. This Corporation will buy and sell agro-cultural machinery, implements, seedcots, tools, etc., and will also hire-out machinery to agriculturists at reasonable rates. It will be allotted imported machinery like tractors, power tillers and earth-moving machinery etc., by the Government of India. Utilising the agricultural produce, it will 'manufacture high-quality products like animal feed, seed, oil cakes, oil cake meal, castor oil, tapioca, aerated water, water-melon, soft drinks, shows and vegetable oil. etc.
EDUCATION

The three-language formula under which each child has to learn English, Hindi and mother-tongue has been in operation in our State for over seven years now. No serious difficulties have been experienced in its working. But it is feared that the resolution passed by the Lok Sabha recently and the exacting position taken by some States have unfortunately conferred too importance on the formula. I, therefore, urge the government concerned to re-examine and the situation and to proceed in such a way as to ensure that the formula is not misused.

The government have decided that the medium of instruction in the primary schools should be progressively changed over to Telugu. In the field of intermediate also, Telugu has been ordered to be used even atackle level in about 20 departments and this will be progressively extended.

Three post-graduate centres have been opened at Warangal, Guntur and Andhra College at a cost of Rs. 25 lakhs each. These centres will function in the centres for post-graduate studies, and will in the course of time become two full-fledged universities.

CO-OPERATIVE FINANCE

In 1965-66 production forecasts given by the Co-operatives amounted to Rs. 17 crores. This year and Rs. 35 crores next year. In terms of annuitized income, they will be registering an increment from Rs. 11 crores in 1965-66 to Rs. 14 crores in 1967-68, and Rs. 20 crores in 1968-69. Area development schemes which are to be financed by the Agricultural Refinance Corporation are being taken up on a large scale.

The sugar industry at Hyderabad is becoming increasingly profitable, with daily sales now rising to Rs. 36,000. As a measure of holding the present high prices at a certain level, the government have decided to procure essential commodities like sugar, jute, jaggery, etc., with a view to distribute them to the poorer sections of the community in the last months.

ASSIGNMENT OF LANDS

Honourable Members may recall that I had promised to expedite work of assignment of patti to landless poor in respect of vacant lands. I am glad to report that this promise is being fulfilled in full measure. Out of 4,00,000 applications for grant of patti pending by the end of July, 1967, patti have been granted in over 1,00,000 cases. The work in the remaining cases will be completed in the coming months.

In the case of Scheduled tribes vigorous steps have been taken to check Defaulters from the list. The work of all, 25,000 acres of land will be assigned to the tribals on the account of their work.
February, 1928. Appendix.

TENANCY REFORM

The Andhra Pradesh (Telugu States) Tenancy of Agricultural Land Act, 1925 contains provisions for tenancy of agricultural land on which the said Act does not apply. The Act has been amended to extend its provisions to certain areas.

The Government have decided to extend the provisions to the remaining areas in Telugu States with effect from 1st August, 1928. Areas that are not affected by the Act and the tenancy, holding about 2110 acres of area, will be benefited by this measure.

DROUGHT AND RELIEF

The Andhra Pradesh government has been preparing to meet the needs of the people affected by the drought. The government has distributed relief to the affected areas. The drought relief works have been launched to meet the needs of the people. The government has also launched the construction of wells in affected areas.

REVIEW FOR 1967-68 AND 1968-69

I now present a review of our financial position for these years and the years to come.

The outlay for the Annual Plan for 1967-68 was originally fixed by us at Rs. 74.47 crores. The Planning Commission recommended an increase of Rs. 0.32 crores. The actual outlay was Rs. 74.26 crores. The Central Government has been asked to increase the outlay to Rs. 74.54 crores.

The outlay for the Annual Plan 1968-69 has been revised to Rs. 74.47 crores. The Central Government has been asked to increase the outlay to Rs. 74.54 crores. The Central Government has been asked to increase the outlay to Rs. 74.54 crores.

We have therefore taken the stand that the Plan for 1968-69 should not be less than the current year's Plan and that the Central assistance for 1968-69 should also be correspondingly funded.

The Planning Commission has decided that the Fourth Plan will be based on the Review of 1968-69 and that the work of formulating the Fourth Plan should be completed during 1968-69. Work in the report will be started in the first quarter of 1968. Indications with respect to the New Fourth Plan are made available by the Planning Commission.
Appendix
13th February, 1967. 493

ACCOUNTS FOR 1966-67

The Revenue receipts in 1964-65 amounted to Rs. 172.26 crores. The deficit was Rs. 12.39 crores against the anticipated deficit of Rs. 13.12 crores. The larger deficit is mainly accounted for by the shortfall under Land Revenue due to non-payment of full instalments, non-issuance of full licences, non-payment of full term loans, etc., and the shortfall against the 1964-65 budget. The deficit was Rs. 13.12 crores.

Revised Estimates 1967-68

As against the original estimates of Rs. 172.26 crores the Revised Estimate for the year 1967-68 is Rs. 191.42 crores. The increase is mainly due to the following:

(a) A net income of about Rs. 10 crores under the new Land Revenue Act.
(b) Better collections under Excise, Service Tax, Sales Tax, Tax on Vehicles, etc.
(c) Sales under the Excise Act, the Central Excise and the State excise, etc.
(d) Sales of goods under the excise, the Central Excise, and the State excise, etc.

The revenue has been increased from the original figure of Rs. 184.42 crores in 1964-65 to Rs. 191.42 crores.

The budget for 1967-68 provides for a total of Rs. 40.19 crores as against which the revised estimates have been fixed at Rs. 38.99 crores to meet expenditure on schemes such as irrigation, agriculture, industry, education, public health, etc.

After taking into account the above transfers and those under Local and Adivasi, Public Debt and Miscellaneous, the year is expected to close with a cash surplus of Rs. 2.67 crores.

Supplementary Estimates 1968-69

The budget estimates for 1968-69 provide for a total revenue of Rs. 189.42 crores and Revenue expenditure of Rs. 225.41 crores. We are expecting a Central assistance of Rs. 5.51 crores for the year 1968-69. Out of this, the Central grant is expected to be Rs. 4.51 crores. In our budget the outlay on Revenue account is likely to be of the order of Rs. 14.69 crores. The net deficit on Revenue account is expected to be Rs. 2.67 crores.

The following are some of the important items of expenditure provided for in the budget for 1968-69 outside the plan:

(a) Rs. 81 lakhs for purchase of paddy and other seeds and pesticides.
(b) Rs. 16.19 lakhs for pumping schemes under the control of Chief Engineer, irrigation in addition to normal maintenance of irrigation works.
(c) Rs. 68 lakhs for the implementation of U.G.C. series of pay to college teachers.
Appendix

(b) Rs. 60 lakhs for purchase of paper in the Nationalised Text Books at a rate of 25 paise per bundle.

(c) Rs. 3 lakhs for grant of Central scholarships to Scheduled Castes and Scheduled Tribes students.

The total Capital Grant is estimated at Rs. 33.65 crores next year against the Revised Estimates of Rs. 33.52 crores and Budget Estimates of Rs. 33.11 crores for the current year. A sum of Rs. 9.61 crores is provided for advances under Loans and Advances.

The year 1967-68 opened with a main cash balance of Rs. 2.56 lakhs and a cash surplus in the current account balance of Rs. 2.75 lakhs. On the basis of Revenue and Expenditure, Capital Expenditure, Loans and Advances of Rs. 50, 80, and 100 lakhs, respectively, the year 1967-68 is expected to close with a surplus, each balance of Rs. 9.47 crores. A portion of this will be invested by additional taxation measures. The balance will remain unused for the present.

Welfare Measures Proposed For 1967-68

(f) Earlier this year, the Government decided that their first duty was to make provision for interest payments on account of the welfare of the people, though they may not be at the top of the list. Only 10% of talks by newspapers on welfare issues. The Government plans to make a larger provision for these and similar schemes.

(ii) A basic requirement for the development of a self-sustaining pattern of activity is the provision of equal opportunity for education to all children. The Government has taken up the problem of primary education, and the results are encouraging. The Government has decided that education should be extended to boys also. The necessary measures are being taken to achieve this goal.

(iii) In addition to granting houses, it is also essential to stimulate the housing boom by granting loans to enable them to put up new houses. The Government has, therefore, decided that in future along with the assignment of house sites, a grant of Rs. 500 will be paid to every applicant to partly cover the cost of building material. This measure will apply to all allottees who were granted house sites on or from 1st December, 1967 and date from which the cash grant was increased from Rs. 20 to Rs. 100 per allottee. Other

(iv) The Government plans to focus on providing education to all children, including girls. The government has given a large provision for educational scholarships, and plans to extend primary education to boys as well. The government has also decided to make provision for loans to help people build new houses.
Appendix 13

February, 1968

495

otherwise so by Suit. On our part, let me

(f) The twin cities of Hyderabad and Secunderabad, in the last few years, have undergone rapid growth. With the view to enable the Hyderabad Municipal Corporation to meet the increased expenditure in respect of particular sanitation and sanitary works, commensurate with their growth, Government propose to increase their grant-in-aid from Rs. 5 lakhs to Rs. 60 lakhs.

(vi) In 1963, increased area of dearness allowance was sanctioned to various classes of State employees including N. G. O. on a par with the State Government employees. The cost of living in Government industrial establishments, factories and in Government factories of all grades, all employees of local bodies, village officers, etc., involving a total annual expenditure of Rs. 13 lakhs. In January, 1964 these were further increased involving an additional annual expenditure of those Rs. 5.5 crores. Owing to the exigency of the wari and its proposed position, 50% of this was ordered to be credited to the Reserve Fund of the employee. It is intended to increase the capital content of the dearness allowance as soon as our financial resources permit.

(vii) The welfare of the employees will always remain at the chief concern of the Government and it is proposed to increase the provision for grant of house building loans to them from Rs. 4 lakhs this year to Rs. 10 lakhs next year.

LAW AND ORDER

A distinctive phenomenon which is assuming disturbing proportions is the increase in the number of public offences, resulting in vandalism, in the dilapidation and destruction of public property. The present trend is disturbing. The criminal element is on the increase. The police of the state are often not able to control the elements. While it is the settled aim of the Government to create for the public's benefit a system of public order, the police force has been incapable of doing what is expected of it. The Government has accordingly taken steps to strengthen the police force. The creation of the vast force of the Police is a major step in the right direction. The police force is now in a position to deal with the present situation and the future. The extent of the police force is to be seen in the fact that they have been able to deal with the situation effectively.
Clause 2

In Clause 2, the annual budget of the government has been revised and the total budget has been increased by Rs. 500 million. The budget for the coming year will be presented in the Assembly on the 15th of the month. The government has also allocated funds for the development of the rural areas and for the improvement of the public transport system. The government has also taken steps to increase the production of agriculture and industry. The government has also allocated funds for the construction of roads and bridges.

Conclusion

I must not fail to recall that the size of our State has been steadily shrinking. The area of the State on the 1st of January 1942 was 1,105 square miles, of which 105 square miles were forested. Of the balance, 700 square miles were cultivated land, 300 square miles were waste land, and 100 square miles were water. Today, the area of the State is 1,020 square miles, of which 102 square miles are forested. Of the balance, 700 square miles are cultivated land, 300 square miles are waste land, and 100 square miles are water. The area of the State has thus been reduced by 85 square miles.

A Plan Committee will have to be set up. These matters have been made clear in the Fourth Five-Year Plan. The Plan Committee will have to determine the work to be done and the funds required for the purpose. The Plan Committee will also have to determine the methods to be adopted for the execution of the Plan.

3rd February, 1968.

Sir,

I am writing to inform you of the situation regarding the supply of the necessary materials for the construction of the new laboratory building on our campus. As you are aware, the project is 90% complete, and we are scheduled to move into the new facility in the next few weeks. However, due to unforeseen circumstances, we have encountered significant delays in the procurement of some critical materials.

I have attached a list of the items that are currently in short supply, along with the estimated time frames for their delivery. As you can see, several of the materials are critical to the completion of the project, and we are in urgent need of your assistance to expedite their delivery.

I have also included a copy of a letter from our supplier, outlining the issues and the steps they are taking to ensure timely delivery. Please review this letter and let me know if you require any further information or if you can assist us in any way.

Thank you for your attention to this matter. I look forward to hearing from you soon.

Yours sincerely,

[Your Name]

February, 1968.

(A) Note on the "Arab-Israeli" Conflict as of February 15, 1968.

The conflict between Arab and Israeli states has its roots in the historical and geographical factors that have shaped the region. The conflict is primarily rooted in the struggle for national identity and self-determination. The Arab states seek to establish a Palestinian state in the West Bank and Gaza, while Israel aims to maintain its sovereignty over these territories.

The conflict is complicated by the presence of various actors, including the Palestinian Authority, Hamas, and other militant groups. The international community has played a role in trying to mediate the conflict, with the United Nations and the European Union being the most prominent players.

The recent developments include the signing of peace agreements between Israel and several Arab states, as well as the ongoing negotiations between the Palestinian Authority and Israel. These efforts are aimed at achieving a permanent peace settlement that satisfies the needs of both parties.

In summary, the "Arab-Israeli" conflict remains a complex issue that requires ongoing efforts to achieve a just and lasting peace.
15th February, 1067.

Zaharia Ehrebe Hadashah Biyir Serk and the Shadad, he travelled from his homeland by sea, and after reaching the city of Ashkelon, he made his way to Jerusalem through the desert. He then arrived at the holy city, where he became a wealthy merchant and a respected member of the Jewish community.

However, the situation in Jerusalem was not stable, and the city was constantly under attack from surrounding regions. Zaharia, being a man of experience and knowledge, decided to move to the land of Babylonia, where he established himself as a successful trader.

In Babylonia, Zaharia became involved in the local Jewish community, and he soon became a leader in the synagogues and a respected figure among the Jews. He was known for his wisdom and his ability to resolve conflicts among the community members.

Zaharia's success in Babylonia did not go unnoticed, and he was soon approached by the local government to become a member of the council, which he accepted with great honor.

Despite his success, Zaharia remained humble and continued to support the Jewish community in Babylonia. He was known for his generosity and his active role in supporting educational and charitable initiatives.

Zaharia Ehrebe Hadashah Biyir Serk, the Jew from Jerusalem who became a wealthy merchant and a respected leader in Babylonia, passed away in 1087. His legacy continues to inspire and influence the Jewish community to this day.
