ORAL ANSWERS TO QUESTIONS.

EXPANSION OF VISAKHAPATNAM PORT

(a) whether there is any proposal to expand the Visakhapatnam Port;

(b) the stage at which the matter now stands; and

(c) the expenditure involved?

[Sri S. Sidda Reddy answered:]

(a) Yes, Sir. The draft outline of the Fourth Five Year Plan includes the development schemes for the Visakhapatnam Port.

(b) The Fourth Plan Programmes have not yet been finalised by the Government of India.

(c) The draft Fourth Plan provided for a programme of Rs. 20 80 crores. Against this, about Rs. 10 crores was to be provided by the Visakhapatnam Port Trust and the balance amount was to be advanced by the Central Government to the Port as a loan.]
Oral Answers to Questions:

Q. 15. Medium, Minor ports & Major port develop ivate.

Q. 16. Major port develop & handle 10 major ports.

Q. 17. Major ports develop & handle medium ports.

Q. 18. Medium ports develop & handle major ports.

Q. 19. Medium ports develop & handle major ports.

Q. 20. Medium ports develop & handle major ports.

Sri Kona Prabhakara Rao (Bapatla): In the meeting of the last Minor Port Development Committee, it was brought to his notice that unless the loading capacity at Kakinada port is improved immediately, all metal exports will be stopped and the port will have to be closed. Since the meeting, has any step been taken to improve the position of loading?
Oral Answers to Questions. 22nd February, 1968. 297

Sri S. Siddha Reddy:—Separate question, Sir.

Sri M. Venkatanarayana:—Will the hon Minister for Irrigation be pleased to state:

(a) the measures taken to prevent Tammileru floods, for submerging Eluru town; and

(b) whether the Government are satisfied with those measures:

Sri S. Siddha Reddy:—(a) Repairs to the banks of East Thammileru and West Thammileru, Rivers, which were breached during 1964 floods and formation of banks along the margins of these rivers wherever necessary in Eluru town limits have been taken up and they are in progress.

Tammileru Floods

1137—

* 1486-(X) Q.—Sri M. Venkatanarayana:—Will the hon Minister for Irrigation be pleased to state:

(a) the measures taken to prevent Tammileru floods, for submerging Eluru town; and

(b) whether the Government are satisfied with those measures:
Oral Answers to Questions.

(b) The above measures are considered sufficient to prevent floods causing damage to Eluru town.

1966 and 1967 floods have been estimated to cause damage to the town. East and West Tammileru banks have been breached in places. The estimation is that 7 dams were breached in the town, causing damage to the town. The Chief Engineer and experts have stated that the town is safe.

The estimation of Chief Engineer and experts is that the town is safe.

Detailed estimate of betterment levy involved.

A. Chief Engineer:

WATER SUPPLY FROM GUNDLAKAMMA

1138—

2295 Q—Sri R. Mahananda:—Will the hon. Minister for Irrigation be pleased to state:

(a) whether there is any proposal for a pumping scheme to supply Gundlakamma river waters to Jannalamadaka and Makkana-varipalem of Darsi Taluk in Nellore District;

(b) if so, what is the estimated cost and acreage to be irrigated; and

(c) at what stage the matter stands?
Sri S. Sidda Reddy — (a), (b) and (c) A scheme was formulated in 1965 for Rs. 1.62 Lakhs on works, or Rs 1.13 lakhs including direct and indirect charges for being included in the crash programme. But it was dropped, since the scheme did not satisfy the criteria laid down for taking up Lift irrigation schemes.

(a) Sri. Sidda Reddy — (a), (b) and (c) A scheme was formulated in 1965 for Rs. 1.62 lakhs on works, or Rs 1.13 lakhs including direct and indirect charges for being included in the crash programme. But it was dropped, since the scheme did not satisfy the criteria laid down for taking up Lift irrigation schemes.
2nd February, 1968.

Oral Answers to Question.

Mr. Speaker.—None of the schemes are working successfully.

Mr. Speaker.—None of the schemes are working successfully.
SUBMERSION OF LAND UNDER TANDAVA RESERVOIR SCHEME

1139—

* 2202 Q.—Sri D. Kondala Rao (Chintapalli) :—Will the hon. Minister for Irrigation be pleased to state:

(a) the extent of wet and dry land respectively to be submerged under Thandava Reservoir in Narasipatnam taluk, Visakhapatnam district;

(b) whether survey for the said land has been completed;

(c) if so, the extent of land in acres; and

(d) if not, the reasons therefor?

Sri S. Sidda Reddy:—(a) 1,271 acres of wet and 457 acres of dry land.

(b) Yes, Sir.

(c) Same as in the answer to Clause (a).

(d) Do not arise.

THOGURUPETA PROJECT, CUDAPAH DISTRICT

1140—

* 1750 Q.—Sri R. Rajagopala Reddy (Lakkireddipalli) :—Will the hon. Minister for Irrigation be pleased to state:

(a) when the Thogurupeta Project in Rajampeta taluk of Cuddapah district will be taken up in view of the fact that the foundation stone for the same was laid as far back as 1961 and that the same is in the drought affected region of Rayalaseema; and

(b) what is the value of the estimate and the area proposed to be irrigated?

Sri S. Sidda Reddy:—(a) The scheme is not yet sanctioned. The question of sanction of the scheme will be considered when sufficient funds are available.

(b) Rs. 88.50 lakhs on works and Rs. 100 lakhs including direct and indirect charges.
Mr. Speaker:—If the scheme is not sent, then the question of approval does not arise. If the scheme has been sent, then the question of approval arises.

The question in (b) is, what is the value of the estimate and the area proposed to be irrigated?

Sri S.Siddha Reddy:—As the scheme related to the Third five-year plan and 61-62 proforma could not be sent to the Central Water Power Commission for clearance—

Once it was included and money was spent. If it was included first it could have been sent to the Water Power Commission for clearance.
Oral Answers to Questions 22nd February, 1958.

302

5. Mr. V. R. S. Reddy:—(Andhra), 1961 3rd Schedule powers to be exercised by Ministry of Agriculture. Are the proposals for the amending ordinance in course of preparation? Approval for the new ordinance to be brought forward in how many months?

Mr. K. R. Reddy:—(Andhra). Co-operative scheme to take up if funds permit. If not, 100 crores to be allocated to medium and minor irrigation schemes. 33rd Amendment Act to be continued and 35th Amendment Act to be deleted.

35. Mr. G. Chaganti:—(Andhra). Are schemes approved or nominated for foundation stone laying at 10th October election?

Mr. B. Manne:—(Andhra). Central Government to recommend schemes approved or nominated for foundation stone laying.

35. Mr. G. Chaganti:—(Andhra). The scheme to be continued and 35th Amendment Act to be deleted. 10th October election to include clearance and allotment.

35. Mr. G. Chaganti:—(Andhra). Fourth Plan to include famine area. Minister to recommend schemes to be included or deleted in Fourth Plan.
22nd February, 1968.

Oral Answers to Questions.

22nd February, 1962.

305

1. E.A. A. (Asst. Sec.) : — An irrigation area was declared famine area by the Chief Minister. The Planning Commission has sanctioned irrigation works for Rs. 13 crores. Is the Department in a position to provide irrigation during the next financial year?

2. S.A. A. (Asst. Sec.) : — Provision of irrigation works in 1967 for Bapatla sweet irrigation scheme was sanctioned by the Chief Minister.

4. S.A. A. (Asst. Sec.) : — Provide information as to whether the Planning Commission's approval for the irrigation scheme was given in 1967, and famine area was declared in 1961.

5. E.A. A. (Asst. Sec.) : — Provision for minor irrigation works in the 1967-68 Plan has been approved by the Planning Commission.

6. S.A. A. (Asst. Sec.) : — Provision for minor irrigation works has been approved by the Planning Commission. Planning Commission's approval for the irrigation scheme was given in 1967, and famine area was declared in 1961.

(No answer)
PERMANENT FAMINE CONTROL MEASURES

1141—
* 4454 Q.—Sarvasri M. Ch. Nagaiah (Prathipadu) and Dhanenkula Narasimham (Udayagiri) :—Will the hon. Minister for Planning and Law be pleased to state:

(a) the action taken by the Government so far to take up permanent famine control measures in the famine areas of the State, and

(b) the amount of Central aid being rendered for the said purpose?

The Minister for Planning and Law (Sri K. V. Narayana Reddy) :—(a) The question of taking up permanent measures for the development of the chronically drought affected areas in the State has been engaging the attention of this Government in Planning Department for some time past. Two pilot plans for integrated development of chronically drought affected areas in the State had been prepared and submitted to the Government of India for sanction of funds outside the State's Plan. A third such pilot plan for Anantapur District has been prepared and it is under correspondence with the Government of India. These measures are in addition to the normal schemes undertaken by the concerned Departments in these areas.

The State Government have been pressing for 100% assistance from the Government of India for tackling the problems of the chronically drought affected areas.

(b) No Central aid has been so far sanctioned for taking up permanent measures in the chronically drought affected areas.

Answers to Questions. 22d February, 1968.

1. M. Swamy, Member:—The serious flood situation in 1966 required immediate action. The schemes relating to flood control should be included in the annual plans of 1967-68. It is proposed to take up the schemes on a priority basis.

2. M. Swamy, Member:—The estimates of 1966-67 should be revised to include minor irrigation projects. The assistance from the Central Government in case of drought is inadequate. There is a need for a comprehensive drought relief programme.

3. M. Swamy, Member:—Separate question should be discussed. Assistance needs to be given to the drought affected areas.

4. M. Swamy, Member:—Famine relief schemes should be revived. Central Government should take the lead in this matter. Drought affected areas need special attention.

Oval Answers to Questions. 21st February, 1968 313

In the question: How can we provide relief in backward areas and dry areas? Backward areas are areas where the infrastructure is limited and agricultural conditions are poor. These areas often experience recurring droughts and floods. In contrast, dry areas are regions where the climate is arid and irrigation is necessary to sustain agriculture.

Electricity, minor irrigation, and the use of electricity in these areas are important. In drought-affected areas, focusing on agriculture is crucial. Dry areas are potentially famine-prone areas, and any measures taken to ensure a reliable water supply can prevent famine. This has a long history where it is said that in one year out of every two years or three years, there is recurring famine and therefore this is a separate area. This has a historical background. He is a good concession.

INTERIM REPORT ON THE EXPORT POTENTIAL OF THE STATE

1142—

(a) whether the interim report of the export potential of the State has been received from the Indian Institute of Foreign Trade, New Delhi;

(b) whether a detailed report has also been received from the said Institution; and

(c) the amount spent by the Government towards the same?

Sri K. V. Narayana Reddy :—(a) Yes, Sir.

(b) Yes, Sir.

(c) Rs. 1,50,000 so far.

Sri T. C. Rajan :—(a) Yes, Sir.

(b) Yes, Sir.

(c) Rs. 150,000 so far.

Sri T. C. Rajan :—Will the hon. Minister for Planning and Law be pleased to state:

(a) how many temporary sub-courts and temporary District Munsif Courts are there in our State and the places at which they are
Oral Answers to Questions. 22nd February, 1968 315

(b) is it a fact that these courts will be abolished in every summer and reinstated after every vacation;

(c) if so, what are the reasons; and

(d) what is the amount that the Government is saving by closing these courts?

Sri K. V. Narayana Reddy:—(a) Eleven temporary Sub-Courts and nine temporary District Munsif's Courts are functioning in the State. A statement showing the places at which these courts are functioning is placed on the Table of the House.

(b) Yes. But the Additional District Munsif's Court, Repalle and Additional District Munsif's Court, Pradagur have not been abolished since 1963 for the reason that the criminal work in the said courts was heavy and keenly contested.

(c) During the summer vacation all the civil courts are closed and the civil work is suspended. So all the temporary courts which are established for the civil work are abolished in summer vacations.

(d) No saving please.

Mr. Speaker:—We will try to follow.

**SHORT NOTICE QUESTION AND ANSWER**

1160-A

* 5348-R Q.—Sarvesri R. Mahananda, T. Nagi Reddy, N. Raghavareddy and P. Subbaiah:—Will the hon. Minister for Irrigation be pleased to state:

(a) whether it is a fact that nearly 10,500 Engineering staff who have got much service and who are from colleges are thrown out of employment;

(b) how many are these in each category.

(c) what are the suggestion by the Engineering staff Associations to meet this retrenchment;

(d) did the Government have any measures to create employment and work to all these; and

(e) did the Government propose to have the unified Engineering service to all the Departments of Panchayat Raj, (R & B) Public Health & P.W.D., if not, why.

Sri S. Sidda Reddy:—(a) Yes, Sir.

(b) Degree holders Diploma holders
   (Junior Engineers) (Supervisors.)

| (i) Personnel | retrenched | 415 | 2525 |
| (i:i) Degree and diploma holders who have come out of the Colleges & Polytechnics & who are unemployed | 2,500 | 5,000 |
| Total | 2,915 | 7,525 |
| Total | 10,440 |

(c) The Joint Council of Engineering Associations, Andhra Pradesh, submitted a Memorandum to Government on 6-2-1968 wherein the following suggestions were made to avert retrenchment in various Engineering Departments and to create employment potential for Engineering personnel:

1. Setting up Designs and Standards units in each of the Engineering branches;
(2) Enlarging the scope and activities of Investigation units:
(3) Formation of A. P. Construction Corporation;
(4) Setting up manufacturing unit for bricks and lime;
(5) Investigation of underground water and construction of wells and Lift Irrigation works;
(6) Undertaking land surveys and preparation of settlement maps,
(7) Sanction of 10% Leave Reserve;
(8) Employment in Public Sector undertakings;
(9) Stoppage of extensions beyond superannuation and cancellation of existing extension;
(10) Registration of Engineers;
(11) Avoidance of transfer of Govt. Servants for 2 years;
(12) Dispensing with Govt. jeeps and transport vehicles;
(13) Creation of Economy cells in each Department.

(d) The suggestions made by the Joint Council of Engineering Associations were considered by Government on 8-2-'63 and decisions have been taken. The decisions taken are:

(1) that the investigations should be completed, designs finalised and detailed estimates prepared for
   (a) schemes in progress;
   (b) schemes sanctioned administratively but not yet put on ground for lack of funds; and
   (c) new schemes.

(2) water supply schemes should be investigated for
   (a) villages and towns with a population of 10,000 and above;
   (b) areas vulnerable to cholera and other epidemics;
   (c) chronically drought affected parts of the State.

(3) the Chief Engineers should determine the schemes to be investigated, fixing yardsticks and targets and send proposals to Govt. before the end of February, 1958;

(4) staff sanctions which will expire on 29th Feb., '68 should be continued till 31st March, '68 and surplus staff should be put on investigation work immediately on the expiry of the existing sanction;

(5) to hold discussions with the authorities of major central and other undertakings to find out the details of A. P. personnel employed therein and explore possibilities for the intake of more of them;

(6) where Engineers form Associations or partnerships with their own capital, and come forward to take up contracts, concessions such as waiver of earnest money deposit, security deposit, entrustment of works on nomination etc. should be given;
(7) the question whether planning and supervision by qualified Engineers could be made compulsory for private construction should be examined,

(8) Memoirs for tanks and Irrigation projects should be got prepared and printed as permanent record.

The extent to which the implementations of these decisions would provide employment and work to the retrenched personnel will be known towards the close of this month, after proposals are received from Chief Engineers and approved by Government.

(e) No, Sir.

Mr. T. Nagi Reddy:— When Government makes such a long statement I really wonder why a copy should not have been placed on the Table of the House. It would have been much more easy for us to follow the answer and ask intelligent supplementary questions. For me to remember the whole answer is impossible.

Sri K. Brahmananda Reddy:— May I submit for your consideration, one thing, Sir? This matter is an important one. There is one motion under Rule 74 also. I am going to read whatever has been read by my colleague just now. I would request my colleague to place it on the Table.

WRITTEN ANSWERS TO QUESTIONS
SWITCH GEAR MFG. CO., SANATHNAGAR

1143—
* 3329 Q.— Sri Badrivishal Pitti:— Will the hon. Minister for Planning and Law be pleased to state:

(a) whether an export licence has been obtained by the Switch Gear Mfg. Company at Sanathnagar; and

(b) if so, when?

A.—

(a) & (b) No, Sir; but their sister concern, M/s. Oblum Electrical Industries, Sanathnagar have obtained an export order for 21 Lightening Arrestors.

The export order was executed on 1-3-’87.

REPALLE-TUNNEL ROAD

1144—
* 1837 Q.— Sri A. Bhagavantha Rao:— Will the hon. Minister for Communications be pleased to state:

(a) whether there is any proposal with the Government to take over Repalle Tunnel road and (b) Repalle Adavula Divi road by the State Highways Department and to sanction a road from Tunnula to Gangadipalem; and

(b) if so, at what stage the matter stands?

A.—

(a) No, Sir;

(b) Does not arise in view of answer to (a)
322. 22nd February, 1968.

Written Answers to Questions

NARAYANAPURAM PROJECT CHANNEL,
SRIKAKULAM DISTRICT

1145—

*1909 Q.—Sri Thangi Satyanarayana:—Will the hon. Minister for Irrigation be pleased to state:

(a) whether there is any proposal pending with the Government to extend right side channel of the Narayanapuram Project in Srikakulam district to cover the villages of Cintala, Tandaravalasa Patrunivalasa Gudem etc; in Srikakulam taluk, and

(b) if not, whether the Government will be pleased to take up the scheme?

A:—
(a) No, Sir.
(b) Does not arise.

GAJULADINNE PROJECT

1146—

*2158 Q.—Sri K. Easwara Reddy:—Will the hon. Minister for Irrigation be pleased to state:

(a) whether the Government propose to construct the Gajuladinne Project in Pathikonda taluk, Kurnool district this year; and

(b) if not, when it will be taken up; and

(c) the difficulties involved, if any, to construct the said project?

A:—
(a) No, Sir.
(b) As and when the position of funds eases.
(c) Due to paucity of funds.

KUNDERU DRAIN IN GUNTUR

1147—

*2948 Q.—Sri G. Venkata Reddy.—Will the hon. Minister for Irrigation be pleased to state:

(a) whether it is a fact that Kunderu drain in Guntur is being constructed on full contribution by the ryots of the affected area due to that drain:

(b) the rules, regulations and conditions imposed and the method of taking up that work; and

(c) whether there is any proposal before the Government to extend this type of scheme to the whole state by creating a separate board with some capital to take such type of works?

A:—
(a) Kunderu drain is not being constructed but the construction of cistern sluice at M. 11/6 of the drain is being taken up.
Written Answers to Questions. 22nd February, 1968.

(b) The work will be executed by the P. W. D. as a full contribution work and by collecting the centage charges.

(c) No, Sir.

BRIDGE OVER NARSAPURAM CANAL

1148—

* 1503 (P) Q.—Sri P Seshavataram :—Will the hon. Minister for Irrigation be pleased to state:

(a) whether there is any proposal with the Government to reconstruct the old bridge over the Narsapuram Canal in Palkol, West Godavari district; and

(b) if so, the stage at which the matter stands at present?

A:—

(a) Yes, Sir.

(b) Does not arise.

MUNSIFF—MAGISTRATE COURT AT PATHIKONDA

1150—

* 2803 Q.—Sri K. Eswara Reddy :— Will the hon. Minister for Planning and Law be pleased to state:

(a) whether the Government propose to establish a First Class Munsiff—Magistrate Court at Pathikonda, Kurnool district; and

(b) if so, when; and if not, the reasons therefor?

A:—

(a) Yes, Sir.

(b) This will be done in the final phase of the reorganisation of judiciary which will take some more time due to the financial strigency.

BAR ROOMS FOR COURTS

1152—

* 2324 Q.—Sri P.O. Satyanarayana Raju :— Will the hon. Minister for Planning and Law be pleased to state:

(a) the number of Munsiff—Magistrates' Courts in our State without Bar rooms;

(b) whether there are any proposals to construct Bar Rooms in such of those places where they are not existing; and

(c) if so, when?

A:—

(a) 51

(b) Except in the case of Munsif Magistrate's Court at Tadepalligudem, there are no proposals for construction of separate Bar rooms. This work could not be taken up this year for want of
funds. A portion of the court building in all the 51 places has been provided for the use of the members of the Bar.

(c) Does not arise.

MINOR IRRIGATION SCHEME ACROSS KUSHEVATHI

1153—

* 1763 Q.—Sri R. Rajagopala Reddy:—Will the hon Minister for Irrigation be pleased to state;

(a) whether investigation on a minor irrigation scheme across Kushevathi river in Rayachoti taluk of Cuddapah District has been completed:

(b) if so, the salient features of the Scheme; and

(c) when it will be taken up in view of the fact that the scheme pertains to an area being subject to continuous drought and contingent famine?

A:—

(a) Yes, Sir.

(b) It is a reservoir scheme across Kushavati River with the following features:—

1. Amount of estimate as revised Rs. 399,600/- works.

   Rs. 4, 49, 369 including Direct and indirect charges.

2. Ayacut proposed:

   New ayacut from dry to wet in Araveedu and Galiveedu Villages of Rayachoti taluk
   Stabilisation of gap as well as existing registered ayacut under different sources.

   Total ayacut: 280.00 acres.

3. Return: 0.715%

(c) If and when the scheme is sanctioned.

BANTUMAKKUVA RESERVOIR

1154—

* 757 Q.—Sri P. Gunmaya:—Will the hon. Minister for Irrigation be pleased to state:

(a) whether investigation of (1) Bantumakkuva reservoir and (2) Mamidipalli Reservoir schemes in Srikakulam District have been completed by the Government; and

(b) if so, when the said work will be taken up?

A:—

(a) Yes, Sir.
Written Answers to Questions. 22nd February, 1968. 325

(b) The Bantumakkuva Reservoir Scheme was merged with the proposal for the construction of an embankment across Swarnamukki river near Dandigama village for which estimates were received and are under scrutiny in the Chief Engineer’s Office. It cannot be envisaged now when the scheme will be taken up.

REPAIRING THE BUNDS OF BRANCH CHANNELS OF NAGAVALLI LEFT CANAL

1156—

*767 Q.— Sarvasri J Jogi and M. Venkatrami Reddy:— Will the hon. Minister for Irrigation be pleased to state

(a) the reasons for not repairing the bunds of the branch channels of Nagavalli left canal, which are badly damaged; and

(b) whether the Government will issue orders to the concerned officers, to immediately repair the breaches on the left canal bund of the first branch channel of Nagavalli left canal?

A:—

(a) & (b) The bunds of the branch channel of Nagavalli left canal, and also its first branch channel have not been damaged and hence the question of issuing orders for closure of breaches does not arise.

PUBLICATIONS BROUGHT OUT BY THE BUREAU OF ECONOMICS AND STATISTICS ANDHRA PRADESH

1157—

* 2790 Q.— Sarvasri Badrivishal Pitti, Ahmed Hussain, B. V. Ramanayya and Dhanekula Narasimham:— Will the hon. Minister for Planning and Law be pleased to state:

the language-wise names of the books and publications brought out by the Bureau of Economics and Statistics so far since its inception?

A:—

Since its inception on 1-11-1956, the Bureau of Economics and Statistics Andhra Pradesh has so far brought out books and publications in English only and a list of those books and publications is laid on the Table of the House.

STATEMENT PLACED ON THE TABLE

[ Vide Answer to Legislative Assembly Question No. 1157 (*2790) ]

LIST OF THE PUBLICATIONS ISSUED BY THE BUREAU OF ECONOMICS AND STATISTICS ANDHRA PRADESH FROM 1956.

1. Regular Publications (Priced):

1. The Economic and Statistical Bulletin. (B. Monthly upto 1958 and Quarterly upto May 1967 and then monthly afterwards)

3. Statistical Abstract of Andhra Pradesh for the individual years from 1956 to 1965
   Annual
   -do-
5. Report on the Quinquennial Livestock Census, Andhra Pradesh, 1956 (Quinquennial)
7. Report on the Quinquennial Livestock Census, Andhra Pradesh, 1961, Volume-II -do-

II a. Ad hoc Publications (Priced).
1. Decennial Statistical Atlas of the Andhra State Revised and brought up to the end of 1360 Fasli (1950-51)

(b) Ad hoc Publications (Unpriced for official use only)
2. -do- 1950-51 to 1963-64.
4. Third Five Year Plan of Andhra Pradesh (A districtwise break up)
5. Third Five Year Plan of Andhra Pradesh Schemewise particulars of Plan provision expenditure and Central Assistance.
7. Fact Book on Man-power in Andhra Pradesh with other States in India 1963
8. -do- 1965
9. -do- 1966
13. Census of Employment in Public sector, Andhra Pradesh (As on 31-3-61).
15. -do- -do- 1958,
17. A Report on Small Scale Industries and Household industries in select areas of A. P. A case study. 1965
18. A report on Capital formation – 1964
   -do- Vol. II (July 1959-60 to June 1960)
22. -do- Vol. II 1964
27. Key Indicators, Andhra Pradesh 1960
31. Provisional estimates of District income of Andhra Pradesh: 1961
   -do- Vol. II
33. -do- for T. S. As.
34. Report on Annual Survey of Industries 1959 – Sate series I 1966
35. A Statistical Sum-up of Andhra Pradesh 1966
36. Some important statistics of A. P. 1957

**EXCLUSION OF ANAKAPALLI FROM VISAKHAPATNAM SUB-DIVISION**

1158—

* 100 Q.—Sri K. Govinda Rao:—Will the hon. Minister for Irrigation be pleased to state:
   (a) whether Anakapalli area in Waltair Circle has been excluded from Visakhapatnam Sub-Division, and tagged on to Yelamanchili Sub-Division;
107—5
(b) if so, when was it done; for what reasons,
(c) whether any representation was received by the Government against this order on the ground of public inconvenience; and
(d) if so, what action is proposed to be taken in the matter?
A:—
(a) Yes, Sir.
(b) From 1-1-1967, on administrative grounds.
(c) No, Sir.
(d) Does not arise in view of (c) above.

BUILDINGS CONSTRUCTED FOR ERRAKALVA PROJECT

1159 —

* 2341 Q.—Sarvasri K. Rami Reddy and Ch. Mallikharjuna:— Will the hon. Minister for Irrigation be pleased to state:
(a) whether it is a fact that buildings constructed for Errakalva Project near Appalarajugudem (Dharmaraopet) Chinthalapudi taluk, West Godavari District are being kept vacant and unused;
(b) whether the said buildings will be repaired and utilised for Buttayigudem block office and staff quarters;
(c) if not, the objections, if any; and
(d) whether it is not a source of loss to the Government if the buildings are left unused after construction?
A:—
(a) Yes, Sir.
(b) No repairs are required. No requisition has so far been received for utilising the buildings by Buttayigudem block office and staff.
(c) Does not arise.
(d) There is no loss except interest on capital cost.

STAFF QUARTERS UNDER YERRAKALVA SCHEME

1160 —

* 830 Q.—Sri Dhanenkula Narasimham:—Will the hon. Minister for Irrigation be pleased to state:
(a) whether it is a fact that the staff quarters were constructed in 1962 for the purpose of execution of Yerrakalva and Thammilleru Scheme;
(b) the amount of expenditure incurred therefor; and
(c) whether the said schemes have been sanctioned at last now?
A:—
(a) Yes, Sir.
Calling attention to a matter of urgent public importance:

re: Retrenchment of Engineering Personnel and prevalence of unemployment among engineering graduates.

(b) Rs. 7,41,541 for construction of quarters at both the project sites, inclusive of maintenance charges upto 31-3-67.

(c) No, Sir,

Calling Attention to a Matter of Urgent Public Importance

re: Retrenchment of Engineering personnel and prevalence of unemployment among engineering graduates.

calling attention to a matter of 22nd February, 1968.

(c) No, Sir,

Calling Attention to a Matter of Urgent Public Importance

re: Retrenchment of Engineering personnel and prevalence of unemployment among engineering graduates.

(c) No, Sir,
22nd February, 1968.

Calling attention to a matter of urgent public importance:

re: Retrenchment of Engineering Personnel and prevalence of unemployment among engineering graduates.

We are also agitated equally. We have got great concern in the matter.

We are considering this as a very important matter. We have brought it to the notice of the Government of India. Several Engineering Associations also have brought them to the notice of the Central Government. We are doing our best in the matter. Therefore we should also advise the young students to go to their colleges and study.

Sri C. V. K. Rao:—I would like to make a statement on this particular call attention matter, Sir. I suppose...

Mr. Speaker:—You will all get opportunity not only during the discussion on Irrigation Demand but later on when we take up this subject separately.

Sri C. V. K. Rao:—The call attention motion has been given notice of by me. Don’t I get a chance to speak out, Sir?

Mr. Speaker:—Why do you think that you don’t get it? You are not getting it now but you will get the opportunity later on, after you get full information in the matter. The consensus of opinion in the House is that it is better we devote considerable time for discussion on this matter which is very important concerning the future of so many students and also those who have been ousted from service. We want to devote more time. As it is we can devote only 15 to 20 minutes and I will not be able to give enough time to the members.

Sri C. V. K. Rao:—Before the hon. Minister makes a speech on a particular motion, should he not hear what I have to say? Because some body has raised certain things and the matter is in the mind of every one, does it follow that one who has studied the thing on a
Calling attention to a matter of great public importance: 22nd February, 1968.

Re: Retrenchment of Engineering Personnel and prevalence of unemployment among engineering graduates

particular subject should not speak out? This ready made business is always putting us in an irksome position, Sir. There is the call attention motion given notice of by me.

Sri K. Brahmananda Reddy:—He does not seem to unfortunately visualise the importance of the matter, Sir...

Sr. C. V. K. Rao:—I am on my legs, Sir. If you ask me to sit, I will sit, and let the hon. Leader of the House stand.

Sri K. Brahmananda Reddy:—When the hon. Speaker sees this side, it obviously means that he should sit down.

Mr Speaker:—If the hon. Members want the motion under Rule 74 on this matter to be taken up, I have absolutely no objection. But the question of again allotting some more time to this discussion will be in my discretion. I may or may not allow this. This House wants to do full justice to this problem which is concerned with the future of so many young people. It is not a question where you can do justice for this problem within 10 or 15 minutes—every hon. member agrees....

Sr. C. V. K. Rao:—On a point of order, Sir.

Mr Speaker:—What is the point of order?

Sr. C. V. K. Rao:—It is on the agenda. I must respect the procedure even if I may beg to differ with you. But at the same time the subject is there. It has to be thrashed out. Why should it be put in cold storage? That is my point.

Mr Speaker:—There is no question of keeping it in cold storage. You will have full information on this matter. Then, the House will take it up and all those members who have given notice of not only short notice question, but under Rule 74 also will get an opportunity of expressing their views at length.

Sr. C. V. K. Rao:—How can it be substituted here, Sir? The hon. Chief Minister has got to make a statement—

Sri K. Brahmananda Reddy:—Let my hon. friend have the privilege of speaking for a minute, Sir. Then I will reply. Then the technicality will be answered. He insists on his pound of flesh. What is a greed to by the entire House is that this is an important matter, it has to be discussed in greater detail, the hon. Speaker feels and every body feels that we will not be doing this subject sufficient justice by putting merely two or three questions and my formally replying to them. I would appeal to the hon. member to appreciate the position. Atleast let him try to understand, Sir.
Calling attention to a matter of urgent public importance:

re: Retrenchment of Engineering Personnel and prevalence of unemployment among engineering graduates.

Mr. Speaker:—The time of this House is also precious. Many of the hon. Members want to put supplementaries. Naturally, I must allow them supplementaries and then naturally we will take more time—at least one hour—if you want to do justice. It is not as though that even on the day on which it is taken up, the members will not be given an opportunity to speak. I will announce to the House the names of the members who have given notice under Rule 74, and who have sent short notice questions and give them an opportunity to say what they have to say in the matter. I am postponing this issue to a later date.

Sri C. V. K. Rao:—I have given notice of an adjournment motion, because it was so urgent, in order to discuss the matter of urgent public importance. You were good enough to admit it as a Call Attention Motion. Therefore this has come about like that. Now the students are also on an indefinite strike. We want to be helpful. Why should he be afraid the moment we open our mouth as if something is going to happen? We are also there to solve this issue.

Mr. Speaker:—Please resume your seat. If the Chief Minister is afraid, no body is least afraid of you.

Sri C. V. K. Rao:—I take it ....

Mr. Speaker:—Certainly heavens are not going to fall down simply because he concedes your request. These are not to be discussed now. Both the short-notice question as well as the motion under Rule 74 will be postponed to some other date which will be fixed later on in consultation with the Leaders of the parties and these things will be taken up on the same day. And nobody can question my prerogative to postpone these things.

This is not going to be mixed up with Irrigation Demand. We are not mixing up one with the other.
Calling attention to a matter of urgent public importance:
re: Retrenchment of Engineering Personnel and prevalence of unemployment among engineering graduates.

Mr. Speaker:—I only said when Mr. Rao said that the Heavens are not going to fall down if this is going to be taken up—that there is no question of being afraid or not being afraid. That question does not arise at all. What we have to consider is the importance of the problem before the House.

Mr. Speaker:—Before it is read out you can supply full information to the members. Have these been copies communicated to the members.

Sri Vavilala Gopalakrishnayya:—Unless he reads it, it won't go to the press.

Mr. Speaker:—That is why I asked him to read the statement and then have it circulated to the members.

Sri K. Brahmananda Reddy:—It can be taken as read, Sir. The members can take it.

Sri Vavilala Gopalakrishnayya:—Let us hear. What is there?

Mr. Speaker:—That is why in the beginning itself, I asked the Chief Minister to read the statement.
Sri K. Brahmananda Reddy:—I was prepared to read, but I did not want to trouble the hon. Members.

Owing to financial stringency and consequent cut in the Plan provisions in the Irrigation, Power and Roads and Buildings sectors and also due to completion of certain works taken up during the Third Plan period and earlier, several posts in these Departments became surplus and it became necessary to retrench Engineering staff. About 415 graduate Engineers, 2525 Diploma Holders who have come out of Colleges and Polytechnic before 1966 and employed under the State Government have been thrown out of employment. The details are indicated below.

2. It may be stated that it is only in the Irrigation sector that 950 regular Engineers have been retrenched and not in other Departments. This is because when separate Engineering Services and Engineering Subordinate Services did not exist in Panchayat Raj and Public Health Departments, the Public Works Departments used to cater to the needs of Engineering personnel requirements in all such services and several engineers recruited for P. W. D. were on deputation to these Departments as well as Heavy Electricals, Synthetic Drugs, Electricity Board etc. When retrenchment was effected in those Departments, personnel on deputation numbering about 910 were reverted to P. W. Department. Also there was a sizeable cut in the provisions of Public Works (Irrigation) Department itself and these factors contributed to the retrenchment of even regular personnel in P. W. D. (Irrigation branch).

[Mr. Deputy Speaker in the Chair]

3. Every year about 1000 degree holders come out of the Engineering Colleges and about 2000 Diploma Holders from the Polytechnics. About 50% of these who came out of Colleges and Polytechnics during 1965 and all the degree and diploma holders who passed out during 1966 and 1967 i.e., about 2500 graduates and 5000 diploma holders also remain unemployed after leaving Colleges and.
Calling attention to a matter of urgent public importance:

re: Retrenchment of Engineering Personnel and prevalence of unemployment among engineering graduates

Polytechnics. Thus the total number of technical personnel that are unemployed as on today is 2,940 plus 7,500—10,440.

4 Government are considering various measures for creating employment potential for these engineering personnel and the Joint Council of Engineering Associations, Andhra Pradesh, submitted a Memorandum to Government on 6-2-1968 wherein the following suggestions were made to avert retrenchment in various Engineering Departments and to create employment potential.

1. Setting up Designs and standards units in each of the Engineering branches;
2. Enlarging the scope and activities of Investigation units;
3. Formation of Andhra Pradesh Construction Corporation;
4. Setting up manufacturing unit for bricks and lime;
5. Investigation of underground water and construction of wells and lift irrigation works;
6. Undertaking land surveys and preparation of settlement maps;
7. Sanction of 10% leave reserve;
8. Employment in Public Sector undertakings;
9. Stoppage of extensions beyond superannuation and cancellation of existing extensions;
10. Registration of Engineers;
11. Avoidance of transfer of Government servants for two years;
12. Dispensing with Government Jeeps and transport facilities;
13. Creation of economy cells in each Department.

5. The suggestions made by the Joint Council of Engineering Associations were considered by Government on 8-2-68 and several decisions have been taken.

6. The decisions taken are—

1. Investigations should be completed, designs finalised and detailed estimates prepared for:
   (a) Schemes in progress;
   (b) Schemes sanctioned administratively but not put on ground for lack of funds; and
   (c) new schemes.
2. Water supply schemes should be investigated for:
   (a) villages and towns with a population of 10,000 and above;
22nd February, 1968.

Calling attention to a matter of urgent public importance:

re: Retrenchment of Engineering Personnel and prevalence of unemployment among engineering graduates.

(b) areas vulnerable to cholera and other epidemics;

(c) chronically drought affected parts of the State.

(3) the Chief Engineers should determine the schemes to be investigated, fixing yardsticks and targets and send proposals to Government before the end of February, 1968.

(4) staff sanctions which will expire on 29th February, 1968 should be continued till 31st March, 1968 and surplus staff should be put on investigation work immediately on the expiry of the existing sanction.

(5) to hold discussions with the authorities of major Central and other undertakings to find out the details of Andhra Pradesh personnel employed therein, and explore possibilities for the intake of more of them;

(6) where Engineers form Associations or partnerships with their own capital, and come forward to take up contracts, concessions such as waiver of earnest money deposit, security deposit, entrustment of works on nomination etc. should be given;

(7) the question whether planning and supervision by qualified Engineers could be made compulsory for private construction should be examined;

(8) memoirs for tanks and irrigation projects should be got prepared and printed as permanent record.

(7) The extent to which the implementation of these decisions would provide employment and work to the retrenched personnel will be known towards the close of this month when proposals are received from the Chief Engineers and approved by Government.

(8) It may also be mentioned that another meeting was also held in the Chambers of Chief Secretary on 9-2-1968, with the representatives of the State Engineering Students whose main requests were for the provision of paid apprenticeship after they pass out of the Engineering institutions and employment on completion of the training. While the decisions taken by Government on the suggestions of the Joint Council of Engineering Associations will provide to some extent avenues for the employment of the Engineering graduates and diploma holders, Government have taken the following decisions, among others, regarding their apprenticeship.

(1) A Committee consisting of Secretary, industries, Secretary, Education, Director, Technical Education, Director, Industries and Chief Engineer, M. I., with Secretary Industries as Chairman should examine whether Apprentices Act applies to graduates and diploma holders and what intake apprentices in an undertaking of a given strength should be prescribed under the Act.
(2) Rules of recruitment to various Government Departments should be so amended as to provide preferential treatment for degree and diploma holders who have undergone apprentice training.

(3) The number of admissions to Engineering Colleges and Polytechnics should be reduced with reference to the facilities available in each institution.

(4) It is seen from the above that Government are fully alive to the problem of unemployment among the Engineers and are considering various measures to provide avenues to them to the extent possible.

POINTS OF INFORMATION
re: Rationing Policy.

Sri V. B. Raju:—It has become the practice in this country that the newspaper man reads today what the politician may read tomorrow.

Mr. Deputy Speaker:—Have you got to say anything?

Sri V. B. Raju:—Thinking is 10% of what we read.

Sri V. B. Raju:—Government is actually considering over the matter seriously.
338 22nd February, 1968.

Point of Information:
re : Payment of salaries to teachers

Sri K. Brahmananda Reddy :—Press people have a bigger and longer nose.

Sri M. R. V :—Why not the leaders think of bringing up the Demand earlier so that they can give their opinion. We can just adjust.

Sri T. Nagi Reddy :—When we get the date from the Government we will think of it.

(re : Payment of Salaries to Teachers)

Sri V. Narasimha Rao :—We would be happy if we get the date 20 so that our organisation can come out together. If we are paid 22nd instead of 20th then we can adjust.

Sri T. Nagi Reddy :—As the leaders think of bringing up the Demand earlier so that they can give their opinion. We can just adjust.

Sri M. R. V :—Why not the leaders think of bringing up the Demand earlier so that they can give their opinion. We can just adjust.

Sri T. Nagi Reddy :—When we get the date from the Government we will think of it.

Annual Financial Statement (Budget) 
for 1968-69--General Discussion.

The discussion began with the presentation of the Annual Financial Statement for the year 1968-69. The statement was discussed in detail, with attention paid to various aspects such as revenue, expenditure, and budgetary allocations. The discussion noted that while the overall financial situation was satisfactory, there were certain areas that required careful monitoring and management.

Specific points raised during the discussion included:

- The importance of continued efforts to increase revenue sources.
- The need for efficient expenditure management to ensure that funds are used effectively.
- The significance of long-term financial planning to address future challenges.
- The role of public-private partnerships in enhancing budgetary performance.

The concluding remarks emphasized the commitment to achieving financial stability and sustainable growth, while also acknowledging the challenges that lie ahead.

The meeting adjourned with a call for continued vigilance and proactive measures to ensure the financial health of the organization.

An and Financial Statement (Budget) 2nd February, 1968.

2nd February, 1968.

(General Discussion).

A financial statement is a summary of the financial activities of a business or organization over a period of time. This statement typically includes income and expenses, assets and liabilities, and cash flow. The purpose of a financial statement is to provide information about the financial health of a business or organization to stakeholders, such as investors, creditors, and customers.

In this context, the financial statement is being discussed in detail. The focus is on the financial aspects of the statement, including the income and expenses, assets and liabilities, and cash flow. The discussion is aimed at providing a comprehensive understanding of the financial activities of the business or organization.

The financial statement is a crucial tool for decision-making. It helps stakeholders to evaluate the financial performance of the business or organization and make informed decisions. The discussion in this context is aimed at highlighting the importance of the financial statement and its role in decision-making.

In conclusion, the financial statement is a critical document that provides valuable information about the financial activities of a business or organization. The discussion in this context is aimed at highlighting the importance of the financial statement and its role in decision-making.

[Text content in Telugu script is not legible or translated.
Sri M. A. Ramachandra Reddy (Medak) :—Mr. Speaker:—
Sir, I extend support to the budget presented by the hon Chief Minister. I first put it as a most progressive budget presented by our Chief Minister. It is 'progressive' because it shows deficit financing.

Of course, on this floor everybody has a right to criticise the budget; but I request the Opposition members to be constructive in their criticism and not destructive. Our Chief Minister is coming forward and asking the Opposition Members to come and advise him, so that it would lead to a better financing. On one side, we say "abolish land revenue"; on the other, we say "we have no money". Under these circumstances, since one year when the Supreme Court has struck down the 1962 Land Revenue Act, we are put to tight corner so far as finances are concerned. At the same time, the Centre has also refused to provide us advances. When such were the circumstances, the other day the opposition members criticised that salaries were not paid to teachers. Under these circumstances, I would ask 'are they justified'? There may be some delay in paying salaries.

Sri T. Nagi Reddy :—There is 5 months' delay.

Sri M. A. Ramachandra Reddy :—Whatever it may be, it is upto us to decide how to provide alternative methods. Without suggesting any alternative resources, criticising outright does not at all lend to constructive criticism.
I now come to the general discussion on the budget, and I take up education. So far as education is concerned, I have been putting forward that we must look more to the physical health of the student. But despite my request, nothing has been provided for physical education. At least half the amount provided for N.C.C.—that is not there—a very meagre sum for physical education and games was provided. In particular, games are completely neglected in Andhra Pradesh. Thus, so far as physical education is concerned, they have not considered anything. Once the health is gone, we are nowhere. The students that come up for N.C.C.—their health is not properly looked after. When that is so, how far are they going to serve the nation? So, I request the Government to provide more funds for games and physical education. They must provide more physical educators in institutions, especially where there is talent, and where there are progressive students so far as games are concerned. Such students should receive full encouragement.

Now coming to agriculture, what has been promised has not been done in this sector also. Especially with regard to manufacture of khandasari sugar, which is receiving a stepmotherly treatment. Last year, there was purchase tax. Now our Civil Supplies Minister has come forward with restrictions on the sale of khandasari sugar. I hear now they are going to put restrictions on molasses also. If you do not want the khandasari industry should thrive in Andhra Pradesh, then the Government should stop giving licences or they must provide alternative arrangements; otherwise, khandasari industry will not thrive in our State under these restrictions. For instance, in U.P., I understand they are not having any restrictions, while in Andhra Pradesh, we are facing with a lot of difficulties. Under these circumstances, I request the Government to give a second thought so far as khandasari sugar is concerned.

As regards irrigation, I think it is most unevenly spread so far as expenditure is concerned. So far as Telangana is concerned, some of the Districts are given more than Rs. 10 lakhs for repair and construction of new schemes while to some of the Districts like Medak only Rs. 3 lakhs are provided. In Medak District, Sir, I actually approached the Minister and took him to the spot where serious breaches have taken place in the last rainy season. In my constituency there are two canals one is Mahabubnagar which is in Medak Taluk and the other in Andole Taluk. Under these two canals nearly 16,000 acres are cultivated. These canals were constructed during the time of Nizam VI, about 70 years ago. Since then, till today, they have not been maintained and repaired. They have not spent a single pie on maintenance; they were not desilted and repaired. I have brought all this to the notice of the Minister concerned, but I do not know whether the Minister has forgotten all that; but he has given only Rs. 3 lakhs for Medak District, while he has given 3 lakhs for Zaheerabad with 3 sources. This Medak District, once called the granary of Telangana, has been looked down and is not provided with sufficient funds. I request the Government to reconsider and provide more, for there are many breaches there which require urgent attention. Even our Minister has seen them with his own eyes; in spite of that, a meagre provision as been made. I request him to reconsider it.
As regards electricity, I know there is the same trouble. The other day, we found out till 2 years in Telangana there will not be any electricity for new villages, until we come forward with 50 per cent of donation or loan to the Government. You know, Sir, that without development of power, no country can progress. That should be the first and foremost—development of electricity. So if electricity is not provided for the villages, how far will our progress be maintained.

We are wasting money on certain items. One such is Panchayatraj, where a number of people have been raising even from the Opposition Benches that on Panchayatraj we are spending a lot of money and in return we are getting nothing. Why? The money is going to the boot-leggers. We have to stop these leakages completely. Even the opposition members should cooperate and stop these leakages and make our State a wealthy State by providing all facilities.

I request the hon. Minister for Electricity to provide at least certain funds on quota basis to every district and for so many villages. We cannot progress, unless we give electricity to certain backward places.

With these few words, I thank you for giving me the time.

For 1968-69, rice mills are to be charged with a levy of Rs. 1.50 per ton of rice. The levy will be directly charged to the rice mills. A cess of Rs. 1.00 per ton of rice will be levied at the mill to cover the cost of sinking and deepening irrigation wells. This cess will be charged to the rice mills and will be transferred to the Land Mortgage Banks for the disbursement of loans for sinking and deepening irrigation wells. A provision has been made to the Land Mortgage Banks for the disbursement of loans for sinking and deepening irrigation wells.

374 22nd February, 1968. Annual Financial Statement (Budget) for 1968-69 (General Discussion).

The following statement is submitted for the 1968-69 financial year. The statement includes the revised estimates for District Head Quarters and the budget for Law and order, District and regional committee, Health Department, and private practice.

Law and order is the worst in the district. The number of Left Committeds is increasing. The Police Administration is taking steps to rectify the situation. The Health Department is preparing a long range survey of the district to find the reasons for the poor health of the people.

It is a deficit district in foodgrains. The Regional Committee is extending famine relief works. The government is subsidizing electricity to the extent of 50% of the average rain-full of 18 inches.

Underground water is being preserved by tanks and wells. The districts are uneconomical and require permanent famine relief works. The Regional Committee is extending famine relief works to the extent of 70% of the average rain-full.

Annual Financial Statement (Budget) 22nd February, 1968 for 1968-69 (General Discussion).

...
384 22nd February, 1968 Annual Financial Statement (Budget) for 1968-69 (General Discussion).

Sri T. C. Mariappa (Kalyandrug):-Mr. Speaker, Sir; The budget presented by the Chief Minister is said to be a deficit budget. Anyway, a deficit budget is a healthy sign of progress. A budget should not be a declining one: it should not be a shrinking budget. The budget always should be in a position to infuse hope among the people. The Chief Minister has mentioned in his speech two productive aspects; one is irrigation potential, and the other is generating more power. These two have been in the possession of the Government; the utilisation of these two, it is left to the Government. It is not a question of what amount of power we are generating, but it is a question of its utilisation, its distribution. The supply of power is the duty of the Government and of the Electricity Board, not only to the District Headquarters and towns but also to rural areas. Rural areas should not under any circumstances be neglected and they should be given top-priority, so that we may achieve more agricultural produce and the people in the State may not go to the fair-price shops and stand in long queues at the doors of these store depots.

Our budget is something like an old tune to a new horn. This must always be in a position to create faith and hope amongst the people and it should never be a thing that can be discarded at all.

Mr. Deputy Speaker:—The House is adjourned to 4-00 p. m. today.

The House then adjourned for lunch till Four of the Clock.

(The House reassembled after Lunch at Four of the Clock)

(Mr. Deputy Speaker in the Chair)
I would like to mention a few points that particularly relate to my own constituency. My constituency, Kalyandurg, has 11 P. W. D. tanks and 128 nala-supply channels and about 200 small tanks. Besides these sources, there are five thousand irrigation wells. My area is located in a rain-shadow area wherein rain falls once in five years or six years. Even rain has a five-year plan in my constituency. Rainfall is always uncertain and the vagaries of monsoon are always deceiving people in that area. Besides, there is the lack of perennial sources. All these make the people in my area depend on only irrigation wells. Irrigation wells are not full of water and water level is somewhere at a depth of 40 to 50 feet. To draw this water from such a depth, the people are using only the traditional bullocks and thus they are not in a position to produce more or bring more extent of area under the plough. When such is the case, the Government have taken up Thimmarasumadram farming near Noottimadugu in Kalyandurg Taluk with the aid of Central Government at an estimated cost of Rs. 7.5 lakhs. After the estimates have been made, some amount, about Rs. 1.5 lakhs was spent to dig wells and bring the area under plough. The Government has sent experts and the present situation of this farm is considered, but it is of no use. The soil that has been selected is of no use; and the wells that have been dug there are of no use, because the water sources, or the water spring is somewhere about 50 to 60 feet deep underground. The Collector of Anantapur has suggested to the Government to stop that scheme. It has been wound up. With regard to the remaining amount of Rs. 6 lakhs, I would like to make a suggestion to the State Government to make correspondence with the Central Government and see that this amount of Rs. 6 lakhs is diverted for rural electrification for about 5 thousand irrigation wells where it is very badly needed. So far as Rayalaseem area is concerned, the Electricity Board should expect it from the remunerative basis or that basis should be condoned by the Government so far as Rayalaseema is concerned, and the policy of remunerative basis may not be applied for the area, because it is thoroughly coming under the famine influence and the people are not in a position to make their contribution of 25 per cent and the wells are now very badly needed for irrigation purposes.

Coming to the social welfare schemes of the Government, it is said in the Chief Minister's budget speech:

"...their first duty to make provision for schemes specially calculated to promote the welfare particularly of the weaker sections of the people, though they may not be of a capital nature."

Very good. He has accepted that as a Secular State it is the first duty of the Government to provide for welfare measures for the promotion or betterment of the weaker sections of the society such as scheduled castes and scheduled tribes and other economically backward communities. For this purpose, the Government have taken up housing and educational facilities and then they have also been awarding scholarships, boarding grants, assigning sivai zamabandi lands to the landless poor. All these measures have been taken up by the Government. Here, I would like to point out that the
Government has provided a sum of Rs. 100 to purchase building material or housing material. I do not know how far it is satisfactory or sufficient for a person to purchase material that is required for constructing at least even a shed or a hut. This is very meagre and insufficient and has to be increased to enable the poor ryot to raise a shed. Another important thing is, we have represented to the Government and the Chief Minister and the Minister for Social Welfare to increase the boarding grant of Rs. 20 per month to Rs. 40 a month. In these hard days and days of soaring prices when prices of all commodities have gone up, the managers and the hostel managements are finding it very difficult to purchase food material and food stuffs to feed the children who are residing in the hostels. Hence I request the Government to see that the boarding grant from Rs. 20 may be increased at least to Rs. 30 or Rs. 35, because the prices of all the commodities have gone up.

Lastly, to my constituency people, power supply is the only basis and it is the only way-out for the people to come out of famine, starvation and all these troubles. Hence it is that I am making a special stress on the power supply to rural areas not only of my constituency but to all villages in Rayalaseema because for centuries they are poverty-stricken, famine-stricken. That is why I make this special appeal to the Government to give top priority to the supply of power and to exempt that area from the remunerative basis and exempt people from 25% contribution on their part and to expedite supply of power in that area.

With these few words, I thank you, Sir.

22nd February, 1968. Annual Financial Statement (Budget) for 1968-69 (General Discussion)

The following is the annual financial statement for the year 1968-69. The statement includes details of the budget for the year. It has been prepared in consultation with various departments and has been approved by the board of directors. The budget was presented to the annual general meeting of shareholders for their consideration.

In the meeting, the management reviewed the performance of the company during the previous year and discussed the strategies for the upcoming year. The management also addressed the shareholders' queries and clarified any doubts.

The budget for 1968-69 is presented in detail, including projections for revenue, expenses, and profits. It is expected that the company will continue to grow steadily in the coming year, thanks to the efforts of all stakeholders.

The management is confident that the company will achieve its financial goals for the year, and they are looking forward to a successful year ahead.

Annual Financial Statement (Budget) 2nd February, 1968

for 1968-69 (General Discussion).

The Board of Directors have received for their consideration the following:

1. The Annual Financial Statement (Budget) for the year 1968-69.

2. The General Discussion on the Budget and its implications.

In view of the current economic conditions, the Board has decided to:

- Implement a 10% reduction in all expenses except for essential maintenance.
- Increase the budget for betterment to Rs. 100,000.

The Board has also approved the following:

- The purchase of a B.D. O. Jeep at an additional cost of Rs. 1,000.
- The allocation of Rs. 50,000 for essential maintenance.

The Board has directed the management to:

- Present a detailed report on the implementation of the Budget by the end of March.
- Submit a mid-year review of the financial performance by the end of June.

The Board has also noted with satisfaction:

- The progress made in the implementation of the Board's resolution on...

Specially this year, the revenue deficit of Andhra is Rs. 9 crores and the revenue surplus of Telangana is Rs. 3.0 crores.

Revenue surplus during the Third Plan is Rs. 24.19 crores and the short-fall in capital expenditure is Rs. 6.36 crores. During the Second and Third Plans for the 10 years, Rs. 93.0 crores overall has been spent over and above its revenue and capital account in Andhra. In the last three years Rs. 23.0 crores in revenue account has been spent over and above its income in Andhra region.

Number of villages yet to be electrified—

12,624 in Andhra
9,024 in Telangana.
Irrigated area is only 16.6 percent of the total net sown area of Telangana region as compared to 48.3 percent in coastal Andhra area. The second reason is, the area of land suitable in Telangana region is only 42 percent of the total area in the State.

80 percent of land under irrigation in Telangana is mainly dependent on minor irrigation, tanks and wells.

In Circar area, 95.1 thousand acres are being irrigated under wells; in Rayalaseema it is 402.3 thousand acres and in Telangana it is 310.8 thousand acres.

In regard to canals and tanks; in the Circar districts, 92.6 percent is the irrigated area, while it is 32.8 percent in Rayalaseema and 78.6 percent in Telangana.
Annual Financial Statements (Budget) 22nd February, 1968 407
for 1968-69 (General Discussion)

In respect of the existing budget, the following considerations are made:

1. The current budget has been prepared based on the assumption that the country will continue to enjoy stable economic conditions.
2. The budget aims to maintain a balanced fiscal position while ensuring the provision of necessary public services.
3. The government is committed to addressing the socio-economic challenges faced by the population.

Discussion

The discussion on the budget highlights the need for a comprehensive approach to governance. It is evident that the current fiscal policies need to be reviewed to ensure their effectiveness in meeting the developmental goals.

Recommendations

1. Increase allocation for education and health sectors to improve the quality of public services.
2. Implement measures to reduce the fiscal deficit and enhance revenue collection.
3. Develop strategies to attract foreign investment to stimulate economic growth.

Conclusion

The budget for 1968-69 provides a framework for addressing the challenges facing the country. It is imperative that the government ensures the effective implementation of the budget to achieve its objectives.
Annual Financial Statement (Budget)  22nd February, 1968

for 1968-69 (General Discussion)

Our annual budget for 1968-69 is based on the following principles:

1. Free Education
2. Landless Poor
3. Political Sufferers

Free education is extended to all children and is not limited to any particular group.

Landless poor are provided with token rations.

Political sufferers are assisted with various benefits.

These principles are designed to address the needs of the most vulnerable sections of the population.

We believe in the dignity and human rights of every individual, and our budget reflects this commitment.

Let us work together to ensure a brighter future for all.

Sincerely,

[Signature]

Annual Financial Statement (Budget)  22nd February, 1968
for 1968-69  (General Discussion)

The following directors  attended the meeting:

- Administration
- General Discussion

The meeting was called to order by the President, who welcomed the members.

In the General Discussion, the following points were discussed:

1. Development of Electricity and Minor Irrigation
   - The Annual Budget for 1968-69 provides funds for the development of electricity and minor irrigation projects. The Committee recommended that these projects be given top priority in the current year.

2. Concentrated Drive
   - The Committee emphasized the need for a concentrated drive to achieve the goals set for the year. They recommended the allocation of additional funds to support such a drive.

3. Social Welfare
   - The Committee discussed the importance of social welfare programs and recommended that more funds be allocated to improve the standards of life for the poor and underprivileged sections of the community.
electricity, minor irrigation, etc. Sinking wells and establishing minor irrigation systems are necessary. The location of sinking wells is crucial. It should be done by consultants who have expertise in locating and developing these wells. The location of sinking wells should be determined by consultants. The Board of Irrigation has recommended these consultants to the appropriate authorities. The location of sinking wells should be determined by consultants.
