of seeds, fertilisers, various pesticides also for payment of wages. Preference is given to owner cultivators possessing 25 acres or more. The farms proposed to be financed should have irrigation facilities, being within a localized area of a major/medium or minor irrigation project or lif irrigation facilities from a well or any other source. A farmer's requirement under this scheme should not normally exceed Rs. 50,000 per crop season. No insurance of crop is needed as present.

At present the intention of the Bank is to finance only those farmers who have no borrowings from Co-operative or other sources. Crop loans should be repaid as soon as the crops financed are harvested. Reasonable time for marketing (30 to 45 days) is allowed. Minimum of 9% interest will be charged.

(ii) Loans for Farm Machinery and equipment: Under this scheme the Bank will grant loans for purchase of farm machinery and equipment such as Tractors, Trailers, power tillers, power sprayers, irrigation pumpsets and similar other minor irrigation equipments and Agricultural Implements.

Eligibility: A 25 acre farm land is considered as a viable unit for economic and profitable use of heavy machinery like Tractor. Preference is given to owner cultivators possessing 25 acres or more.

Limits: Loans for purchase of new machinery and equipment will be considered up to 75% of the cost thereof. The loans should meet 25% cost of the machinery from his own resources.

Security: Loans up to Rs. 7,500 for this purpose may be considered against (i) Hypothecation of machinery and implements proposed to be bought from the Bank finance; and (ii) a third party guarantee acceptable to the Bank. No dues certificate from Co-operative Department is necessary.

(b) Loans: Bank proposes to provide term loans to farmers for sinking of both masonry and tubewells. After the bank gains some experience it may consider extending term loans to farmers for minor irrigation schemes.

tubewells and for installation of mechanical or electrical pumps are entertained by the Bank. In the initial stages, preference is given to owner cultivators possessing 24 acres or more. A portion of the development expenditure should be brought in by the farmer from his own resources. A legal mortgage of his farm property should be created in favour of the Bank wherein the well is proposed to be sunk from the Bank finance. The loans sanctioned under this scheme should be repaid within five to seven years depending on the cropping pattern proposed to be adopted on the farm and the farmer's income from other sources.

Loan disbursement:—Loan amount should be disbursed in phases, subsequent instalments being released after verification of the due and proper utilisation of the instalments earlier released.

(iv) Loans for land reclamation and land development:—Considering the technical and other related aspects, the Bank proposes to provide assistance for land development purposes, for the present, to farmers in Sindheenoor Taluk of Raichur District, Mysore State, where about 80,000 acres localised for lift irrigation (to be irrigated dry crops) under the Tungabhadra Project are yet to be developed. Along with the other Taluks in Raichur District, this area is selected for Intensive Agricultural Development (I. A. D. P.) to be implemented from 1-4-1968. As it gains experience the Bank may consider extending this facility to other places in the command areas of the other new projects. A 25 acres farm is considered as an available unit and, therefore, owner cultivators requiring finance for development of 25 acres and over farm lands are entertained by the Bank. Interest at 4% above the Reserve Bank of India rate with minimum of 9% will be charged. Loan amount should be disbursed in phases, subsequent instalments being released after verification of the due and proper utilisation of the instalments earlier released.

DRAWAL OF MONEY BY THE SECRETARY OF AUDIAH MEMORIAL HIGH SCHOOL FOR SCHOLARSHIPS

25—

* 648 (5899) Q.—Sri K. Ramanaiah (Madugaddu) and Smt. J. Eshwari Bai:—Will the Hon. Minister for Education be pleased to state:

(a) whether it is a fact that Sri K. R. Abbayya, Secretary of Audian Memorial High School at Hyderabad has drawn a sum of Rs. 12,000 from the District Welfare Office for the distribution of scholarships;

(b) if so, whether the said amount has been disbursed to the students;

(c) whether it has been brought to the notice of the Government that he absconded with the said amount: and

(d) if so, the action taken thereon?

Sri P. V. Narasimha Rao:—(a) It is a fact that Sri K. R. Abbaiah, Secretary of the School has drawn a sum of Rs. 11,290 pertaining to the renewal of scholarships sanctioned by the District Social Welfare Officer.

(b) The amount was not disbursed to the students.

(c) Yes, Sir. The fact was reported to Govt. by the Director of Social Welfare.

(d) A complaint against the said Secretary of the School has been lodged with the C. I. D. The Deputy Commissioner, Crime Branch has informed that the case is being charge sheeted in the Court.

Sri P. V. Narasimha Rao:—The records relating to the above case were in the almirah and the key of which was said to be with the accused who was absconding. The almirah was broken up and the...
records seized under panchanama by the end of March. Thereafter

Sri P. V. Narasimha Rao:—No, Sir. I have no information
regarding his arrest. But the police are taking steps in the matter.
The case has been charge-sheeted.

Mr. Speaker:—It is possible, he might have been released
later on bail by the Court.

Sri P. V. Narasimha Rao:—I am sorry Sir, I have got that
information. He was arrested on 23-3-1968 and remanded to the
Judicial custody from where he was released on bail.

Sri P. V. Narasimha Rao:—Sir, this is regarding misappropriation.
What happened to the students, whether they were again
paid or not is not here.

Sri R. Rajagopal Reddy:—It is an important point, Sir.

Mr. Speaker:—He is not able to answer that at this
stage.

Sri P. V. Narasimha Rao:—Apparently the procedure seems
to be that these amounts are disbursed by the institution itself, Sir.
Not by the Government direct.

Sri D. Venkatesam:—I am not able to understand as to why
it has been given to the Secretary because it goes directly to the
Institution, and the head of the institution, the Head Master or the
Principal will be there. How did this amount go to the Secretary
who is a student Secretary of the Association or the Secretary?
Mr Speaker:—It is the School Secretary.

Sri P. V. Narasimha Rao:—Sir, obviously he has been acting on behalf of the Management, and he is the Secretary of the management. Sri S. V. Narasimha Rao, acting on behalf of the Management, and he is the Secretary of the management.

Mr Speaker:—It is just possible that there is a Committee and he happened to be the Secretary of the Committee and the amount was being disbursed. But unfortunately he absconded with it. It is not the Students' Association.

We must also focus on technology, to ensure that our industries are competitive and our people are able to find work.

We must also address the issue of black money. It is a scourge that affects our economy and our society. We must take action to root out this problem, to ensure that our financial system is fair and just.

We must also address the issue of land acquisition rate. It is a sensitive issue, and we must ensure that it is handled fairly and justly.

[Text in Telugu]
Sri P. V. G. Raju (Gajapthihinagaram) : - Sir, I must thank you for having been kind when I was unwell. I am not able to speak loudly. I may be excused. I like to say, after reading this speech of Governor, a few words on the subjects with which I have some experience. About the Medical Services, I feel that we should be more realistic. The money that we have allotted to the Civil Surgeons and Assistant Civil Surgeons is not enough. I think we should take an example of what is happening in Punjab. When Pratap Singh Kairon was Chief Minister they had a service in Punjab of paying the doctors very well. As a matter of fact, the salary of a doctor in Punjab was Rs. 4,000. I feel that we should pay our Surgeons more than we purport to pay them now. Therefore, I would like to suggest that we should have Medical Service of an All India nature and develop it in our State. Now they are recruited in the State and not transferred from one State to another. People talk of integration, but I feel we should take integration basically. Without that, there cannot be any integration and to start with, we may have Medical integration. Therefore we should favour the formation of an All India Medical Service and recruit doctors not only from Andhra but all over the whole country. A doctor from Kashmir should be able to serve the people in Andhra and doctor recruited in Andhra must be able to serve in Gujarat, etc. Therefore, we should have an All India Medical Service.

I would also suggest that we must have a Post-graduate Institute in Andhra in the 4th Plan. In Chandigarh where they looked after me, the hospital was built at a cost of Rs. 7 crores; but Rs. 7 crores for a hospital is not very much. The actual expenditure is nearly Rs. 1 crore on that hospital. Therefore I suggest we support All India Medical Service and also in Andhra Pradesh we must have a Post-graduate Institute of Medicine.

Also I would like to say a few words about Education. I am sorry that Mr. Srinivasa Iyengar is no longer the Vice-Chancellor of the Andhra University. He is a great literary person and he is from the Andhra University. While I have all respect for Mr. Birla who is the educational field.
Motion on Address by the Governor. 26th November, 1988.

I may suggest we should distinguish between educationists and administrative personnel. Administrative personnel may be good in the administration of the Education Department, but I think in the Universities we should give greater priority to educationists who have some interest in science and literature. While we can have administrative people as Vice-Chancellors, I believe the Government should have as little as possible to do in the administration of the Universities. I would like to suggest that we support an All India Educational Service. As a matter of fact, there was a suggestion that there should be an All India Educational Service. I think we should support it because when I went to Guntur to attend a meeting of Post-graduate Institute I was happy to find young men from Kashmir who were teaching something in Post-graduate Institute in Guntur and therefore I feel with All India Educational Service we can have people from Assam, Kashmir and Gujarat, etc. As a matter of fact, a person from Andhra may teach in Madras and in Bengal and therefore there will be integration of Educational Service in India. Also I may suggest that in future, we may also see it that Vice-Chancellors of the Universities are people from outside the State from Gujarat, from Kashmir, etc. I am not suggesting any name, but only making a general suggestion.

Also I feel we should support the formation of All India Science and Technological Service. As a matter of fact Dr. Haridas Khorana who won the Nobel Prize is a Punjabi who went to America and taken American citizenship because he could not get a job in India and therefore we lost a Nobel Prize Winner. People like Dr. Do Khorana and Dr. Chandrasekhar, nephew of Dr. C. V. Raman have gone away to America and Dr. Chandrasekhar is a leading Astrophysicist in America. We must not lose our Indian talent in this manner and we must have an All India Science and Technological Service.

I may also say something about industry. As a matter of fact friends have been talking a lot of big industry and saying “Why should we not have a big industry in Andhra?” Sometime back there was an agitation for integrated Steel Plant in Andhra. While I support having big industries in Andhra I am afraid it is the duty of members of Legislature and also members of the Government to inform the public of what big industry means. Nobody seems to value industry on the basis of the number of people who work in the industry. While the integrated steel plant would cost Rs. 50 crores, only 500 workers will work in the integrated steel plant and that means for one person who will work in the industry we will have to invest Rs. 25 lakhs and therefore 1.25 lakhs is the ratio. As a matter of fact for Rs. 25 lakhs we can have a small scale industry where 500 people can work and therefore the ratio would be 5,000 rupees per worker in the industry. As a matter of fact we should take an example of Punjab and also Japan. Japan is one of the leading industrial countries of the world as you know and in Japan small-scale industry has been so well developed that they are able to compete with the big industry in the world. Pratap Singh Kairon when he was Chief Minister, said that Punjab should have small scale industries and technological industry. In the same way, we should develop small scale industry in Andhra and be clear in our minds that big
industry may sound very fine but for the investment it does not pay for the number of people who work in the industry.

I would also like to say a few words about agriculture and take your leave. As a matter of fact, if you want to develop agriculture we should take an example from Israel; they have very little water because of the desert conditions and yet they developed agriculture very well through sprinkler irrigation. We should develop sprinkler irrigation in Andhra in a big way and therefore I suggest to the Minister of Agriculture that he may kindly look into matters of agriculture in Israel and try to duplicate the same method in Andhra. With this type of irrigation it will be very fine and we can develop our agriculture. I would also like to suggest that we should have All India Agriculture Service. Agriculture is a State subject, but we should distinguish between knowledge and service. While knowledge may be to the whole world, service belongs only to the State. Therefore, while Andhra may have its own service, we can have knowledge as far as agriculture is concerned. Therefore I suggest we should support an All India Agriculture Service to start with and slowly develop it later on.

Sir, I want to thank you for giving me this opportunity to say a few words. I am sorry I cannot make a long speech because of my difficulty in talking loudly but through you I want to thank the members for giving me this opportunity.

Dear Governor,

The arts are not only important for leisure and entertainment, but also for education and economic development. They help to develop critical thinking skills and problem-solving abilities, and they can also contribute to the state's economy by attracting tourists and promoting local businesses.

I urge the governor to consider increasing funding for the arts, which will help to ensure that the arts continue to thrive in our state. I believe that a strong arts community is essential for the well-being of our state.

Thank you for your attention to this important matter.
