(b) if so, the action taken thereon,
The Minister for Co-operation (Sri K. Vijayabhaskara Reddy) -

(a) Yes, Sir

(b) Government have forwarded the representation to the Registrar of Co-operative Societies for remarks. The Registrar of Co-operative Societies obtained the report from the Regional Joint Registrar, Kakinada. The facts of the case are that the Deputy Registrar, Anakapalle, ordered an enquiry under section 51 of the Andhra Pradesh Co-operative Societies Act VII of 1964 in his proceedings No. 21880/63-A dated 23-1-1967, into the working and financial position of the Thummapala Large-Sized Co-operative Society audit was completed.

The enquiry into alleged defaults of directors of the society conducted by the Co-operative Sub-Registrar (Non-credit) revealed that 8 out of 14 directors of Thummapala Large-Sized Co-operative Society acquired disqualification to continue in the Board of Directors if the society for defaults committed by them or for defaults committed by other loans to whom they stood surety and that the cooperation of one of the other directors would not be valid in law. The Deputy Registrar of Co-operative Societies, Anakapalle issued show cause notice to them to declare them as disqualified and received a reply from them. Further action is being pursued.

VIDE ANSWERS TO L A Q No 3438 (STARED) (*1772)

(a) (i) The accounts of Sri Veera Venkata Satyanarayanaswamy Devasthanam, Annavaram are being maintained Fiscal wise. The administrative expenditure of the Devasthanam is usually covered by a budget sanctioned for each year by the Commissioner Endowments Dept who is the competent authority. The budgets for the years 1963-65 have been sanctioned by the Commissioner. The Management incurred excess expenditure over budget sanction as follows:

<table>
<thead>
<tr>
<th>Fiscal Year</th>
<th>Expenditure</th>
</tr>
</thead>
<tbody>
<tr>
<td>1963-64</td>
<td>Rs 1,94,012 00</td>

<td>Rs 4,36,929 96</td>
</tr>
<tr>
<td>1965-66</td>
<td>Rs 5,38,969 66</td>
</tr>
</tbody>
</table>

Under section 10 (6) of the new Endowments Act 17 of 1966, any excess expenditure over budget sanction will have to be ratified by the Government. The executive authorities of the Temple have been instructed by the Commissioner to furnish the details of excess expenditure in the prescribed proforma and they are awaited. After receipt of the particulars regarding excess expenditure, the question of ratification will be considered.

(ii) A total sum of Rs 29,078 was spent as detailed below towards expenditure for taking photographs on various occasion such as Kalanamams, visits of distinguished guests. All India Temples Exhibition and for religious propaganda etc.

(m) The Mahanvedana and Prasadam are separate accounts. Sale of Prasadam is a remunerative enterprise. The following were the amounts spent under each head of account in 1964,

Mahanvedana
Rs 26,280.38

Prasadam
Rs 1,19,265.27

While the expenditure on Mahanvedana was invitable, there was a good income by the sale of Prasadam and there was no loss.

(iv) Only an amount of Rs 399.38 relates to the expenditure incurred in connection with the marriage of his brother of the hereditary trustee.

(v) About 12 works were executed by the Devasthanam. Out of these 12 works, 2 works i.e. cottage and stage on uphill were executed departmentally and the remaining ten works were executed after calling for tenders according to rules and entrusting the work to the lowest tender. No work was entrusted on nomination basis. Sufficient deposits were also obtained before receiving tenders.

(b) Necessary action is being taken by the Deputy Commissioner Endowments Department, Kakinada against the Officer responsible for the irregularities committed by him during his tenure. Allegations made against the hereditary trustee for mismanagement of the temple are also under enquiry by the Deputy Commissioner, Endowments Department, Kakinada.

(2) VI Ps are already gazetted. Additional Rs 870 has already been spent on the temple. Rs 870 has already been spent on the temple.

(e) The Asst Commissioner, Nellore had enquired into the allegations made in the petitions mentioned above and also into the claim made by the Managing Trustee in regard to an extent of 6.31 acres of temple lands in Nellore town and submitted proposals to the Deputy Commissioner, Kurnool, for settlement of a scheme and for appointment of a fit person under section 58 of the repealed Endowment Act of 1951 as the Integrated Endowments Act has since come into force and as it does not provide for formulation of a scheme in respect of any institution. The Asst Commissioner, Nellore approached the Commissioner Endowments Department for appointment of an executive officer to set right the affairs of the temple and to take action against the Managing Trustee for the losses caused by him to the institution. Thereupon, the Commissioner has appointed the Executive Officer of Sri Telugu Ranganathaswamy temple, Nellore as Executive Officer of the subject temple and directed him to take charge of records, etc. Further action is being pursued by the Commissioner, Endowments Department.

Will the hon. Minister for Agriculture please state—
(a) Whether it is a fact that there are godowns in each taluk of the Telangana area constructed at the time of the erstwhile Hyderabad State Government,
(b) If so, how many such godowns are in good condition and how many of them are old and cannot be used for godown purposes,
(c) Whether the Government propose to hand over them to Co-operative Societies, and,
(d) If not, what are the reasons therefor?
Sr P Thimma Reddy  
(a) 177 godowns were constructed in the District Headquarters and taluks in Telangana Region by the former Hyderabad Government under the Godown Trust fund. Of these 49 godowns have been transferred permanently to the Agriculture Department and 24 sold to Cooperative Institutions from time to time.

(b) Of the remaining 104 godowns, none are reported to be not useful for godown purposes, though some are in need of repairs.

(c) Yes Sir, The Government have decided to sell these godowns to the Cooperative Marketing Societies and other intending purchasers.

(d) Does not arise.

Sr T Ramaswamy — (a) The Road was formed but the land was not acquired by the Ex District Board, Krishna.

(b) Yes Sir.

(c) Since the land acquisition proceedings were not initiated by the Ex District Board, Krishna.

RECOMMENDATIONS OF WORKING GROUP RELATING TO TECHNICAL EDUCATION

1787—
*2786 Q —Satwasri Badrivishal Pittu, K. Buchirayudu (Kovur) and Ch. Rajeshwara Rao —Will the hon. Minister for Education be pleased to state whether the recommendations of the Working Group relating to the Technical Education which met on 7th and 8th of November, 1966, will be placed on the Table of the House?

Smt. T. V. Raghavulu —A list of the recommendations of the Working Group relating to Technical Education Plan for 1967-68 is placed on the Table of the House.

PAPER PLACED ON THE TABLE OF THE HOUSE

L A Q No. 2786 (*1787)

LIST OF THE RECOMMENDATIONS OF THE WORKING GROUP ON TECHNICAL EDUCATION for the year 1967-68

1. While the State Government had proposed for an outlay of Rs 913 crores for programmes of Technical Education for the IV Five Year Plan and a provision of Rs 12 crores for the year 1967-68, the Government of India had allotted only Rs 5.35 crores for the entire Plan and Rs 1.50 crores for the year 1967-68.

2. The Working Group had stressed that as the Government of India have appointed a Committee under the Chairmanship of Dr V. K. R. V. Rao to reassess the requirements of Technical manpower in the country during the V and VI Plans, it has been decided that till the findings of the Rao Committee become available, no expansion should be made or new institutions should be started either at Degree or Diploma level.

The Government of India have also suggested that as the patterns of the Junior Technical Schools are being reviewed by them, no new Junior Technical Schools should be started till a final decision is taken by them. However, provision could be made for the institutions which have already been committed in the past.

4. The Working Group felt that with regard to starting of part-time Degree Courses, the State Government should pay particular attention for starting such courses at places where there is sufficient number of persons who could take advantage of such courses. It was also suggested that the State Government should consider transfer of the Centre of part-time Degree course in Engineering from Kaknada to Waltair which has a comparatively better location.

5. The Working Group reiterated in unequivocal terms that no new institutions either Engineering courses or Polytechnics should be started until the recommendations of the Rao Committee are known. It was strongly recommended that the State Government should consider the starting of Sandwich courses in collaboration with Industry for the reason that a number of big industries are coming up in Hyderabad and such courses would be very useful.
Oral Answers to Questions

6 It was also impressed that the 3 year Degree courses in Engineering for B Sc students should not be started in the conventional branches of Engineering viz. Civil, Electrical and Mechanical and even Special courses should only be started only after the recommendations of the Rao Committee are made available.

Sri T V Raghavulu - We have been anxiously awaiting the report of Mr Rao, Sir, on this matter.

Sri T V Raghavulu - The Working group recommended that deficiencies in various institutions should be made up as quickly as possible so that all the programmes taken on hand are implemented without delay.

Of the total allotment of Rs 53.25 lakhs, a sum of Rs 29.52 lakhs was earmarked for spill-over schemes for making up of deficiencies of equipment and buildings. Of this Rs 8.71 lakhs was for Telangana region and Rs 20.82 lakhs for the Andhra region.

KODANDARAMESWARA SWAMY TEMPLE, RAMAKUPPAM

1788—

(a) Whether there is any landed property in the name of Sri Kodandarameswara Swamy Temple of Ramakuppam village in Palamaneru taluk, Chittoor district and if so, what is the extent of land both under wet and dry,

(b) When was the land registered in the name of the temple, and when was it taken over by the Endowments Department;

(c) Who is cultivating the land and on what basis, and

(d) The income derived by the temple for the years 1964-65 and 1965-66?
Sri R Rama Raja —

(a) Presumably, the hon Member is referring to Sri Kodanda
ramaswamy temple of Ramakuppam village in Pulivamar taluk,
Chittoor district, as there is no temple by name Sri Kodandarameswara
Swamy temple at that place. The temple owns 142 acres and 72
cents of land comprising of 25 acres and 19 cents of wet land and 117
acres and 53 cents of dry land.

(b) The lands were endowed to the temple on 22-11-1903.
They have not been taken over by the Endowments Department.

(c) One Sri G Sreenivas Reddy is cultivating acres 123-68
cents of land on lease basis. An extent of 15 acres and 54 cents has
been given to Paricharikas, Archakas and Bhajnymes for service.

(d) An income of Rs 1,750/- was derived during each of the
years 1964-65 and 1965-66.

Sri D Venkatesam — Will the hon Minister for
Endowments be pleased to state

(a) whether any lands given by the donors are registered in
the name of the Trustee of Sri Kodandarameswara Swamy Temple in
Kuppam of Chittoor district, and

(b) whether the lands have been taken over by the endow-
ments Department if not under whose possession the lands are at
present?

LANDS OF KODANDARAMESWARA SWAMY TEMPLE

1789 — 2893 Q — Sri D Venkatesam — Will the hon Minister for
Endowments be pleased to state

(a) whether any lands given by the donors are registered in
the name of the Trustee of Sri Kodandarameswara Swamy Temple in
Kuppam of Chittoor district, and

(b) whether the lands have been taken over by the endow-
ments Department if not under whose possession the lands are at
present?
Sri R Ramalinga Raju — (a) Presumably the hon Member is referring to Sri Kodandaramaswamy Temple in Kuppad town, Chittoor district, as there is no temple by the name of Sri Koodandaramasha Ramswamy temple in Kuppad town. Lands endowed to this temple have not been registered in the name of the trustee. They are in the name of the temple only.

(b) The lands are in the management of the hereditary trustee of the temple.

Sn J Dhanenkula Narasimham — Will the hon Minister for Agriculture be pleased to state:

(a) the No of Jeeps under the control of District Agricultural Officers during 1967-68,
(b) whether there is any maximum limit for the expenditure on petrol, repairs, etc., and if so how much,
(c) whether the Government propose to enhance the said maximum limits, and
(d) if so, the reasons therefor?

Sn P Thimma Reddy — (a) 36 jeeps

(b), (c) and (d) The Government have fixed a maximum limit of Rs. 2500 pa for incurring expenditure towards propulsion charges.
repaired and renewed for the jeeps under the control of the District Agricultural Officer whose jurisdiction is less than one district (Bifurcated Districts) and Rs 3,000 per annum for incurring similar expenditure by the District Agricultural Officers whose jurisdiction extends to the entire District. APPLIED NUTRITION PROGRAMME

1791—

* 9603 Q — Sri Pragada Kotiah — Will the hon Minister for Panchayat Ray be pleased to state

(a) the amount released to Nadendla, Emani and Santhamagulur Panchayat Samithis in Guntur district for the years, 1964-65, 1965-66, and 1966-67 under Applied Nutrition Programme and the details of expenditure in each year, and

(b) what is the basis for selection of certain blocks only for implementation of the Applied Nutrition Programme?

Sri T. Ramaswamy — (a) The Applied Nutrition Programme was not in operation in Nadendla, Emani and Santhamagulur Panchayat Samithis during 1964 to 1967 and the question of releasing funds to these blocks and incurring expenditure under the Applied Nutrition Programme does not arise.

(b) The Government of India, Ministry of Food, Agriculture, Community Development and Co-operation, prescribed the criteria for the selection of the Applied Nutrition Programme Blocks in their letter No 21(1)(15)/66 PRG dated 9-2-1966, a copy of which is placed on the Table of the House.

STATEMENT LAID ON THE TABLE OF THE HOUSE

WITH REFERENCE TO CLAUSE (b) OF L A Q No 3603 (STARRED) (*1791)

Copy of Govt of India's letter No 21(1)(15)/66 PRG d/9-2-1966 addressed to the Development Commissioner, Government of Andhra Pradesh, Hyderabad.

Sri,

Sub—Applied Nutrition Programme-Criteria for Selection of additional blocks

I am directed to invite reference to letter No 21(1)(34)/65 P2G dated the 3rd Nov 1965 of the Ministry of Community Development and Co-operation on indicating tentative allotment of additional blocks under the ANP during the year 1966-67. It would be recalled that the matter was subsequently discussed in detail during the annual plan discussions when it was agreed that new blocks would be taken up in your state in 1966-67 for implementing the ANP. It was also agreed that the outlay to be earmarked under the ent.
Oral answers to Questions, 23rd March, 1968

heads in the agricultural sector for all the ANP blocks, old as well as new, would be pooled together and shown, along with the Central assistance and matching State contribution for the addl blocks as an aggregate outlay under a composite head 'applied nutrition' while formulating the State budget. I hope this has been done, as also stressed in my D.O.L No. 21(1)(34)/63—PRG dated the 8th February, 1966

2. The criteria to be followed in taking up new blocks have already been discussed with the representatives of the State Govts at the annual conference of July, 64, the inter-State Conference on ANP held in May, 65 and the Srinagar Annual Conference held in July, 65. The last two conferences had also taken into account the suggestions made in the evaluation studies conducted by some of the States and the programme Evaluation Organisation of the Planning Commission. Based on these deliberations, the criteria for selecting new blocks under the programme are set out below.

3. Proximity of the blocks to training and academic institutions is basic. It has, besides giving a field orientation to the nutritional training imparted at these institutions, provided needed institutional support to the programme.

A number of institutions, particularly Social Education Organisers Training Centres and Gramasevika Training Centres are still to be utilised for the purpose. Optimum utilisation of training and other concerned institutions, including Orientation and Study Centres, Social Education Organiser Training Centres. Mukhyasevika Training Centres and Gramasevika Training Centres should be ensured while taking up new blocks during the Fourth Plan period.

4. In view of the very objective of the ANP, all due priority has to be given to economically and nutritionally backward areas. Tribal Development blocks readily suggest themselves. Even in the case of other blocks, the relative merits in terms of greater economic and nutritional requirements should be carefully assessed before making the selections.

5. The availability of the full complement of Extension staff, particularly the Mukhyasevika and the Gramasevika, is necessary to secure adequate mobilisation of associate organisations like the Mahila Mandals, whose involvement in the distributive and educational aspects of the programme is vital. Shortage of Mukhyasevika and Gramasevika is common in most States. While measures to strengthen their cadres are essential in themselves, it would be imperative, in any case to ensure that the existing available staff and the staff recruited in view of the expanding programme is deployed to the full extent, as stipulated under the subsidiary plan operations, in the old ANP blocks as well as the new ones to be taken up in 1966-67. This is all the more necessary because the training of Mukhyasevika and Gramasevika along with other functionaries has to be arranged in advance of the implementation of the actual programme in the new blocks.

6. Availability of the required physical resources and local institutional support is likewise, of crucial importance for making the programme self-sustaining. The main bottlenecks generally encountered in the field have been lack of adequate land irrigation facilities for school
223 23rd March, 1968  

Oral Answers to Questions

gardens, inadequate arrangements for balanced poultry feed and veterinary facilities for birds, and insufficient number of tanks with the gram panchayats for pisciculture and lack of supply of fingerlings from nearby block nurseries. It would obviously be necessary to ensure that these physical resources are duly available and the local institutions in a position to provide the necessary support in blocks to be taken up under the programme.

7. The responsiveness of the village panchayats and the associate organisations viz. Yuvak and Mahila Mandalas, is a key factor as much in the successful promotion of production activities, such as vegetable and fruit cultivation and poultry keeping and fish culture, as in the organisation of supplementary feeding of vulnerable groups. This aspect should be kept fully in view while selecting the additional blocks, the blocks to be taken up should such as would be assured of the keen and energetic interest of these institutions, it would be of advantage in fact, to involve the Panchayati Raj institutions concerned even in the process of selection.

8. The importance of properly manned primary health centres in the programme blocks, again, needs no emphasis. Their role in the feeding of vulnerable groups and the spread of nutrition education is evident. It has to be ensured that the primary health centres are kept fully staffed in the additional blocks now proposed to be taken up as well as in the existing programme blocks.

9. While conforming to the above criteria, it would be useful to bear in mind the desirability of taking up the new blocks in as close proximity as possible to the existing programme blocks. That would facilitate supervision and deployment of available supplies. To the extent the existing blocks are already attached to training institutions, the new blocks in the proximity would have that added advantage.

10. Finally, two other considerations need mention. A programme of providing mid-day meals in schools is already in operation in certain areas. While expanding the school mid-day meal programme and taking up additional blocks under the ANP, it would be desirable to secure maximum coordination for the benefit of both the programmes. Similarly, the Central Social Welfare Board are anxious that the work on Family & Child Welfare Projects, which aims at providing integrated services to pre-school children in fields like health, education, nutrition etc and also training to young mothers in homemaking, childcare & nutrition is fully coordinated with the ANP. The desirability of this approach need hardly be stressed in view of the similarity in the objectives of the two programmes.

11. As considerable advance action, particularly in respect of training is to be taken to prepare the ground for launching the programme in the new blocks, it is requested that the blocks proposed to be selected together with full particulars in regard to each in relation to the criteria mentioned above, may be intimated to this Ministry at the earliest.

12. The receipt of this communication may kindly be acknowledged.
Oral Answers to Questions

23rd March, 1968.

(a) Yes, Sir

(b) Yes, Sir, some managements have not volunteered to hand over their schools to Government

(c) It has been the determined policy of Government not to give back the institution once taken over by it. The reason for adopting this policy was the mismanagement of the institution resulting in not only mal-administration but also neglect of proper admission of the children.

(d) No such condition was laid down at the time of taking over schools.
23rd March 1968

Ques: 1. Whether it has come to the notice of the Government that the Government Girls High School, Matwada, Warangal, is ill-staffed, ill-equipped and ill-furnished?

Ques: 2. Whether the Government are also aware that there are teachers working in this institution since its inception, who have formed themselves into fighting groups thus resulting in the loss of standards of education and the loss of discipline, and

Ques: 3. Whether the Government will furnish the number of passes and failures in the H S C class for the last five years from this school?

Ans: (a) It is not correct to say that the Government Girls High School, Matwada, Warangal is ill-staffed, ill-equipped as there is adequate staff and equipment. There is however need for additional furniture and the District Educational Officer, Warangal has taken necessary steps to transfer surplus furniture from other institutions.

(b) It is reported that there is indiscipline and groupism among the members of the staff of the institution which has affected the

Ramalingeswara Swamy Temple

1775 Q. — Sri D Venkatesam — Will the hon Minister for Endowments be pleased to state
(a) whether the Government is aware that there is one Ramalingeswara Swamy temple at Kuppam,
(b) whether any lands pertaining to the temple are registered in the name of Sri Radhakrishna Chetry as 'Dharmakartha'. If so, the details of the property, and
(c) the details of lands registered in the name of 'Kurumberi Swamy' as 'Dharmkartha'?

Sri R Ramalinga Raju — (a) There is no temple as such by name Sri Ramalingeswara Swamy temple for worship at Kuppam. A temple was, however, constructed at Kuppam by one Sri Kurumberi Swamy, with donations collected from the public. The installation ceremony has not yet taken place.
(b) A statement showing the properties registered in the names of Dharmakarthas of the proposed temple is placed on the Table of the House.
(c) No lands are registered in the name of Sri Kurumberi Swamy.

Taking over of temples by Endowments Department in Vizag District

1793—

* 2125 Q — Sri G Suryanarayana (Payakaraopet) — Will the hon. Minister for Endowments be pleased to state
(a) the number and names of temples in Visakhapatnam District taken over by the religious Endowments Board and the income of each of the said temples in the year 1966-67, and
(b) whether the said temples have been repaired?

Sri R. Ramalinga Raju —

(a) 250 temples including one math. A statement showing the required particulars is placed on the table of the House.
(b) Repairs were executed to some of the temples as indicated in the statement placed on the table of the House in answer to clause (a) above. Due to lack of finances and poor income of the temples, repairs have not been executed in most of the temples.

STATE WAREHOUSING CORPORATION

1890—

* 3161 Q — Sarva Suri Ram Reddy, G Subba Naidu and R Mahananda. — Will the hon Minister for Agriculture be pleased to state

(a) when the State Warehousing Corporation of Andhra Pradesh has been constituted and what was the amount invested,

(b) whether accounts for the years 1960–61 and 1961–62 have been submitted to the Income Tax Department, and

(c) if not, the action taken against the Officers responsible for the loss if any sustained there by?

A.—

(a) The Andhra Pradesh State Warehousing Corporation was constituted in September 1958. The State Government and the Central Warehousing Corporation which are the only two shareholding partners have invested up to March 1967, each Rs 15.85 lakhs.

(b) The accounts for the years 1960–61 and 1961–62 were sent to the Income Tax Department in July 1963 and September 1968 respectively.

(c) The returns were accepted and an order of assessment was passed by the Income Tax Department for the accounts of the year 1961–62 permitting to carry forward the losses. Regarding the accounts for 1960–61, even though the returns were filed the Income Tax Officer did not pass the assessment order because of which the losses for the year could not be carried forward. The writ petition filed in the High Court was dismissed on the grounds that the Income Tax Officer was not compelled to pass an order of assessment and in the absence of such an order the Income Tax Department could not be directed to set off the losses against profit in subsequent year.

The question of taking action does not arise since the returns were duly filed.

1964—

*1964 Q — Sri V. Palavelli — Will the hon. Minister for Co-operation be pleased to state

(a) whether the Government will consider to conduct the elections to the Board of Directors of Rolugunta Large Scale Co-operative Society, Rolugunta, Narasapetam taluk, Vizag, district,
(b) if so, when, and
(c) if not, the reasons therefor?

A —

(a) (b) & (c) — It was proposed to conduct the elections before 16-10-67 (i.e.) the date of expiry of the term of the person-in-charge of Rolugunta Large Size Co-operative Society. But the elections fixed on 14-10-67 could not be proceeded with on account of an injunction order issued by the District Munsiff, Narsipatam.

re Frequent failure of electricity in Secunderabad

(c) As per the policy of the Govt of India to set up Super Bazars in the towns having a population of more than 1.50 lakhs, it is decided to set up such bazars at Sec'bad, Vijayawada Warangal, Guntur, Rajahmundry and Kurnool during the current year, with a view to hold the price and make available to the members of general public articles of daily necessity at fair and reasonable prices.

(d) and (e) About 5,000 varieties of articles are sold at the Super Bazar, Hyderabad and the prices are kept lower than those in the market. However, the prices of a few commodities sold in the Super Bazar are more, due to fluctuations in the price levels. But the general policy of the Super Bazar is to sell quality goods at fair prices which are lower than those in the market.

re Frequent Failure of Electricity in Secunderabad

Sri K. Brahmananda Reddy — A large number of services are being released every day. Further to improve the voltage condition and providing better service, improvement works costing approximately Rs 3 lakhs are under execution. These works and the release of services necessarily involve shutting off supply to a very small area for a short period. The power supply is restored immediately after the work is completed or the new service is released. Similarly in certain areas extension to street lights are also being executed. The interruptions are mostly of a few minutes duration and are avoidable. On 17-3-68 a shut down for about one hour had to be availed of at the Super Bazar Pump House sub-station to carry out emergent repairs on the high tension system. It is understood that the following areas are directly fed from the outgoing pipe line of the water works — i.e., Gandhi hospital, Mosheerabad jail, Nallakunta, Hyderabad. Except these the rest are fed by overhead reservoir and did not have any interruption in the water supply due to the above repairs. The repairs undertaken by the Board were carried out most expeditiously. I am also informing the Electricity Board that when they undertake repairs of water works etc they should not be done in the mornings.

Mr Speaker — The second one is that in which Sri Poolla Subbaiah and others have given notice regarding scarcity of kerosene in the twin cities as well as in the rural area. During the course of reply on this Demand, i.e., Civil Supplies Demand, the Minister was

telling us that some ships are on the way carrying kerosene and the position might improve in a few days or something like that. We are getting consignment from Russia. Meanwhile, what is the shortage? It is 4 or 5 days since the demand is over. Let us find out from the Minister whether the ships have arrived and the position has improved.

Sir V. B. Raju — The city requirement daily is about 65 to 70 kilo litres per day, but in peak days, i.e., when there are no rains and when the cultivators come and draw kerosene here for running their engines, i.e., pump sets, water lifting sets, they draw more—the maximum is 80 to 85 kilo litres per day in the last three days.

Mr. Speaker — I only want to know whether the position has improved.

Sir V. B. Raju — In the last three days the administration has taken sufficient care and pumped into the market 127 kilo litres three days ago, 75 kilo litres the next day and 137 kilo litres yesterday—almost double the quantity that is required normally. It has pumped in 700 tons of oil—which is already on the way. There is practically no scarcity. We have put all the ration staff in the city to check whether any hoarding is being made and the administration is vigilant. I want to assure the House that in the last three days more than double the normal quantity is pumped.

(Interruption)

We got reports from Mahboobnagar, Nalgonda and Karimnagar. The shortage is there and particularly in Karimnagar also. I have alerted the administration, the Collectors have been alerted. We have been making all efforts to see that the kerosene is actually supplied.

Sir K. Govinda Rao — What about other areas?

Mr. Speaker — He has not received reports from other District Collectors-only from Mahboobnagar and Karimnagar, he has received. We will ask him to improve the position.

Mr. Speaker — The Minister has said that there is scarcity of kerosene in the rural areas as well as in the city and that the Government are taking steps to improve the position. At no time was the position better anywhere in the State, he also gave reasons for scarcity during the course of his speech.

re: Illegal attachment and arrests in Damsa village, Tekkali Taluk.

Mr Speaker — I can allow only one member from your party, not so many members.

Sri G Sivayya — Certain facts have not been brought out by the members who have spoken, Sir.

Sri V B Raju — I have already stated that due to the difficulties in the Russian ports, the arrivals have not been as many as we expected. Against our requirement of 19,320 kilo litres, we are being allotted 15,030 kilo litres due to difficulties at the Russian ports. The situation has improved now, Sir. In February, they gave us 15,21 thousand tons. In March, they are giving 15,97 thousand tons. The situation is improving as I have already stated, the city is being taken care of where there is pressure and the position is being improved and there is no p.icky condition as there used to be. In fact, I may submit that the State Government is not in a position to meet the requirements because it does not purchase. It has to depend on the Government of India and the Government of India on the imports available. Now and then certain difficulties occur, we have to take them in a very patient way. I am sure the Government and the administration will take sufficient care to see that there is no hoarding and we have already alerted the Collectors. I would request the hon Members to patiently wait for improvement in the situation.

re Illegal attachment and arrests in Danta village Tekkali Taluk

Sri V B Raju —Sir, the following message has been received from the Collector on telephone on the Government asking the Collector to send immediate report on the incident.

On 18th March, 1968 the Revenue Inspector and Special Deputy Tahsildar went to Danta village for collection of Land Revenue. They contacted Sri Velamala Suranna and requested him to pay the Land Revenue. The notice in Form I under Sec 7 (ii) of the Land Revenue Enhancement Act of 1967 was served on this individual on 19th January, 1968. And these people went on 18th March. The party did not prefer any objection. Later a notice in Form 6, i.e., adjustment of the previous year's enhancement was also served on him. As the Land revenue of the individual was thus finalised a formal approach was made to him to pay the amount. The individual refused payment and questioned the authority of the officers to collect the Land Revenue when Writ petitions were pending before the High Court about the validity of the Act. Probably, the particular party must have been under the impression that the Writ petitions would be decided in favour of the party or the individual and he must not have desired. It is a presumption. The Deputy

Tahsildar tried to explain the position clearly to the individual. But he adopted an adamant and defiant attitude. Thereupon a pair of buffaloes belonging to the individual out of the two pairs possessed by him were drstimated and handed over to the Village Munsiff for custody. One Sri Yellappa and other ryots of the village surrounded the officers and began to question the right to collect land revenue. After heated argument, he (Yellappa) threatened to take away the buffaloes defying drstimation. The Deputy Tahsildar explained that the buffaloes would be released immediately on payment of the land revenue. However, this had no effect and Sri Yellappa made forceful attempts to free the buffaloes from drstimation. When a village servant tried to obstruct Sri Yellappa he (Yellappa) beat the village servant in the presence of all assembled. A report was immediately made to the Police and they have taken up investigation. No arrests are reported to have been made. Later it is reported that Surayya, the owner of the land paid the land Revenue dues and the buffaloes were released from drstimation.

This is actually the Collector's message on Telephone and still I have asked the Collector Sir, to send in writing everything after he enquires.

Mr Deputy Speaker — So, the information he has given is correct.

Sri V B Raju — I have heard the member say and made the statement. I have got the message from the Collector and that is what I can submit as the statement before the House.

Mr Deputy Speaker — He will call for further information in the light of what you have said.

Sri V B Raju — As a Revenue Minister I can only enquire into any action of my officers of the department whether they have transgressed certain limits or gone against law. That is what I could do.

re — Need to put the approach roads to both sides of cause-way constructed on the Boggeru river in Nellore District

Sr T Ramaswamy — Sir, the Boggeru river crosses Atmakur Somasila road at miles 3-1 to 4-3 It is a metalled road which is classified as Zilla Parishad and other district roads This is situated in Atmakur block There is an existing bed level causeway which was damaged due to floods in 1962-63 As it is a bed-level causeway without vents, it was decided to construct a new vented causeway on a site which was selected at 8,302' upstream of the existing damaged bed-level causeway Due to paucity of funds, the work was taken up in stages Out of the total length 1,376' of cause-way, only a length of 476' was taken up during 1964-65 with an estimated cost of Rs 61,000 The work to that extent was completed Afterwards a comprehensive estimate for Rs 1 72 lakhs was prepared for the entire scheme including the work already done and the work yet to be done It is under the scrutiny of the Superintending Engineer, Panchayatraj Cuddapah Unless the balance portion of 900' of the causeway is completed, forming of approaches could not help in any way The estimate of Rs 1 72 lakhs provided for the approach roads and the land acquisition charges also

Mr. President, I have the honour to lay before the House the Annual Financial Statement (Budget) for 1968-69. The statement is as follows:

For the year 1968-69, the total grant to Municipalities is estimated at Rs. 10,000,000. The grant to the Municipalities is made under the Municipal Grant Act, 1957, and is conditioned on the Municipalities following certain legal and financial procedure. The Municipalities are required to ensure that the funds are utilised for the purposes specified in the Act.

In addition to the grants, the Municipalities are also provided with loans from the State Government. The loans are provided under the Municipal Loans Act, 1960, and are repaid in equal annual instalments over a period of 15 years.

The Municipalities are also required to provide certain amenities to the public. The amenities provided include water supply, sanitation, and drainage. The Municipalities are required to ensure that the amenities are maintained in a good state of repair.

The statement also includes a schedule of the grants and loans provided to the Municipalities, the amenities provided, and the financial condition of the Municipalities.

I hope that the statement will be considered favourable by the House.

Yours faithfully,

The Committee also feels that the amount of 'drainage cess' so collected should not be pooled in the general revenues of the State, but should be kept separately for the purpose for which it is collected.

In one place, the Committee opened

"The suggestion, in the opinion of the Committee is commendable" Later, the Committee said as follows

"The Committee, further, is of the opinion that for operating the contribution amounts and for implementing the schemes on sound basis for which contributions are paid by the ryots, a Board should be constituted, if necessary, by means of a legislation consisting of the Secretary to Government, PWD Chief Engineer, General and Chief Engineer, Minor Irrigation"

A kind of rethinking on the policy of prohibition is necessary, I cannot say what exactly is that rethinking, but definitely we are likely to see that it is verified.
in the course of a few months or a year, and whatever that a craze by scrapping of prohibition, I here and now say, must be diverted to the agricultural sector so that our programme in the irrigation sector can be accelerated and the pace of development in this field can be definitely speeded up. Whatever revenues that are over and above the estimated, must be diverted to irrigation sector.

My heart bleeds when I see the regional imbalance. What the Chief Minister has said is absolutely correct. We have to accelerate this sector. We are likely to increase the revenues during the year, whatever revenues that are over and above the estimated, must be diverted to irrigation sector.

Agriculture production for home and also production for the surplus State are sources of revenue. The main source is Agriculture production for home and also production for the surplus State. The surplus State also provides a grant for the maintenance of irrigation schemes. The major and medium irrigation schemes produce 123 million tons of rice. The share of the State in the production of rice is negligible. The major and medium irrigation projects also include maintenance, repairs, and maintenance of irrigation canals, reservoirs, and other irrigation structures. The State provides a grant of 10 million to the maintenance of major and medium irrigation projects. The grants are used to maintain the irrigation projects and to ensure their efficient operation. The grants are also used to maintain the irrigation canals and reservoirs. The major and medium irrigation projects produce 80 million tons of rice. The grants provided by the State are used to maintain the irrigation projects and to ensure their efficient operation.

Minimum Wages Act

I can only say one thing, Mr Speaker. If the Government is going to neglect to solve the problem of this landless village rural proletarian classes, the agricultural labourers, I think the day will come when they will dictate terms to us. We cannot neglect the poor suffering masses. There is no use of simply satisfying the upper middle classes. We have to think in deep terms to help the people who are sweating on the soil and who are helping in building up the nation. Therefore, I submit, Mr Speaker, Sir, the Minister for Labour should come forward to reform the minimum wages as Rs 3/- per male member and Rs 2-50 P per female member as demanded by the Andhra Pradesh Agriculture Labour Union and bring out legislation and implement it through proper Government machinery. Sir, if this is not done we will not only be doing great injustice to the suffering masses but we will be doing injustice to ourselves which will hinder agriculture production. Therefore the Labour Minister should take immediate steps on these things. Thank you.

Annual Financial Statement (Budget 1968-69)

The Honourable Governor has presented the Annual Financial Statement for the year ending March 31, 1968, which is laid on the table of the Assembly.

The Budget, which is submitted every year, is prepared to reflect the financial position of the state and to outline the financial resources available for the coming year. It includes estimates of revenue and expenditure, and is presented to the state legislature for approval.

The Budget includes provisions for various departments and services, such as education, health, irrigation, and rural development. It also provides funding for infrastructure projects, such as road construction and water supply schemes.

The Budget is prepared in consultation with various stakeholders, including government departments, public agencies, and private organizations. It is reviewed and debated in the state legislature, with amendments made as necessary. Once approved, the Budget becomes the legal framework for the financial management of the state for the upcoming year.

The Budget is a crucial document for planning and budgeting, and it plays a key role in ensuring the effective delivery of services to the public. It is also an important tool for evaluating the performance of government departments and public agencies.

The Budget for 1968-69 is a significant milestone in the financial management of the state. It reflects the government's commitment to improving the quality of life for the people of the state, and it provides a roadmap for achieving this goal.

The Budget includes provisions for various initiatives, such as the expansion of education and health care facilities, the development of rural areas, and the promotion of economic growth. It also includes provisions for infrastructure development, such as roads and water supply schemes.

The Budget is a reflection of the government's priorities and its commitment to fulfilling the needs of the people of the state. It is a document that is critically important to the future of the state, and it will be closely watched and debated in the state legislature.

They have fallen on evil days. Some interested people want to bury these institutions unawares, unseapled and unhonoured. A few of them are such as the cooperative societies. The demand of the cooperative societies is supported by the farmers, who believe that the cooperative societies are the only source of inputs like pesticides, sprayers, spare parts and repair services. This is a welcome feature of their demands. It shows that the farmers have confidence in the institutions.

For the year 1968-69, the demand for grants was presented for Block Development officer (s) at the meeting. The meeting was attended by representatives from various panchayats.

The demand for grants was presented for various purposes, including:

- Block Development of various blocks
- Panchayat extension and execution
- Cheque drawing power for Executive Officers
- Transfers of funds for various purposes

Panchayats have become the weakest links in the Panchayat Raj institutions. Strengthening the Panchayats is necessary to improve the functioning of the Panchayat Raj institutions. 

Transfers from funds to various purposes were discussed at the meeting. The representatives from the panchayats explained the need for transfers to various purposes.

Voting of Demands for Grants

At the beginning of the financial year 1968-69, the budget was prepared with the following considerations:

1. The paramount consideration was the allocation of funds for irrigation purposes. This was followed by the maintenance and repair of existing channels.
2. Other priorities included the replacement and repair of old Ayacuts, with emphasis on top priority maintenance and repair of channels necessary for irrigation purposes.

In accordance with Govt rules, the budget was allocated as follows:

- Old Ayacuts: 10
- New Ayacuts: 5
- Additional maintenance: 15

As per the budget, the channels were remodelled, and the unauthorised ayacut maintenance of channels and the drainage works were attended to.

Annual Financial Statement (Budget) for 1968-69

1. Presentation of the Budget

The presentation of the budget is a crucial step in the financial planning of the year. The budget is a detailed document that outlines the financial goals and strategies of the organization for the upcoming fiscal year. It serves as a roadmap for the financial decisions that will be made throughout the year.

2. Overview of the Financial Statement

The financial statement is a comprehensive report that provides a snapshot of the organization's financial health. It includes key financial metrics such as revenue, expenses, and profit. The statement is essential for stakeholders, including investors and creditors, to understand the organization's financial position.

3. Demand for Grants

The demand for grants is an important aspect of the budget process. Grants are external funding sources that can help organizations achieve their goals. The demand for grants is typically evaluated based on several criteria, such as the organization's mission, the impact of the proposed project, and the availability of funding.

4. Conclusion

In conclusion, the presentation of the budget, the financial statement, and the demand for grants are all integral components of the budget process. They provide a clear picture of the organization's financial status and future plans, enabling stakeholders to make informed decisions.

Mr Speaker,

The note on Demands pertaining to Heads of State etc by the Chief Minister does not enthuse any one in this House when one goes through of Andhra Pradesh Official Language Act 1966 compared to our neighbouring States of Madras and Maharashtra we are far beyond in according Telugu Language its rightful place.

STATE LEGISLATURE

Adverting to the Demand about the State Legislature let me state that despite general pressure to separate the Legislature Secretariat no steps have been contemplated to usher in this much needed reform. May I hope that at least by next year Government would implement this reform to enable the Speaker of this August House representing four million Andhras to have greater and full control.

Since several Members have already touched on the Social Welfare Department and Harijan uplift programmes I would like to say a few words and offer my suggestion at the end.

MUNICIPAL ADMINISTRATION

Now coming to the Demand for Municipal Administration my first plead to the Minister for Local Administration would be to super...
Voting of Demands for Grants

The City has become a City of darkness with its 16 lakh stable population and about 4 lakh floating population. There are more than 20,000 street lights in the twin cities. The Corporation is paying nearly 20% of the total tax as General lighting Tax and yet bulbs are not fixed even for 6 months at a stretch. The Corporation pays nearly 20 to 30 lakhs to the Electricity Department as its lighting charges every year, though there are no lightings in the streets.

Municipal Funds allotment is done Ward Wise. Councillors 8 feet roads 3000 feet wide Concrete Road instances. 80 feet wide Concrete Road instance. Councilors & Ward Wise allot 3 miles wide 80 feet wide Concrete Road instance. 80 feet wide Concrete Road instance. L.L.B. instance, Public Prosecutor instance. 3 miles wide Ring Road instance. 500 feet wide 5000 feet wide Dr. instance. Municipal Corporation Act is recast. Present Act is outmoded and out-dated.

Irrigation - From the perusal of several previous Budgets and other concerned documents it can be said that the amount of food produced compared to the amount invested in very low in this State. For instance take the case of Nagarjunasagar Project. Till now the Govt. have spent about 115 crores and we require about 24 crores more to complete it. Only last year some water was let out for Irrigation purpose. In terms of money the amount of foodgrains is almost zero. Even from long range point of view the life of the Dam is
considerably reduced. What is the use of constructing such huge dams over so many years when it is no use to the farmers the State and the nation? We have been demanding of the Central Government to nationalise the Project so that it may be completed in the shortest possible time and become useful to the nation in producing more food and saving foreign exchange on the import of food. On a rough estimate we would have produced 4 million tonnes of extra foodgrains which means saving for the nation about 700 crores of rupees had the project been completed 5 to 6 years earlier but also we have been begging for money even to this day for the completion of the project. It would have easily given up its one years investment on a steel project and completed the Nagarjuna Sagar Project about 6 years ago that means the 4 million tonnes of food grains at a cost of about 700 crores which we are importing from America would have been saved for the country and with that amount saved we would have constructed several Nagarjunasagar and Damodra Valley Projects but our Government at the Centre is blinded by its planning main and Western Oriented social slogans.

The Central Government should be impeached for not making the Nagarjunasagar Project as a national project and increasing the food production in the country. The need of the hour is medium irrigation projects which can yield quick results with less investment and can be completed without importing foreign made machinery.

Now coming to the Nizam Sagar Project it is already showing symptoms of decay and the project is getting silted. Due to the Nizam Sagar Project the Sugar town of Bodhan has come into existence and the Nizam Sugar Factory is the biggest in East Asia. Due to the siltage in the Nizam Sagar Lake water is not being let out the second crop on account of the water level going down. Already the Second Sugar factory in Bodhan is almost on closing and thousands of workers and their families will be thrown into the streets and begging for a morsel of food. Who is responsible for this siltage? Why the Government is blind in not taking action in removing the accumulating silt year by year? Due to the Nizam Sagar Project the whole district of Nizamabad had become the rice granary of erstwhile Hyderabad State. Why have they not imported the dredgers for removing the silt from the Nizam Sagar Lake does the Government of Andhra Pradesh want Nizamabad District to become the starving region of Telangana instead of a rice granary of Telangana? There is no meaning in awaiting or wasting time in electing the Betterment Levy in advance to undertake this important work. Let the Government provide funds without any hesitation. People of Nizamabad District cannot tolerate any apathy on the part of the Government in this behalf.

Information Department — A well known Journalist from Delhi while in Hyderabad did not like the present name of the Information and Public Relations Department christened as the Jana Sambanda Sakha, and is understood to have told the Minister to revert to the old name to similarly the name Shramika Sakha instead of the Karuna Sakha created confusion like the Revenue Department using the word Rajaswam for Sheets or Paniw.

The note presented by the Minister contains nothing new for the members of this House to comment except what has already been said about the Department and its reorganisation during last session.

There is no mention in the note of the Relations between the Government and the Press the facility being provided better accreditati system of journalists formation of Press Advisory Board etc. Instead one finds a passing remark about yellow journalism and Communal writings. Communal writings are a danger to the Society, state and the country and the Minister has not mentioned or detailed as to what action was taken to cure this tendency or the policy to be adopted in future.

Where is the defect for these things? I suggest one thing to the Government. For the people those who are responsible for collapse of projects and bridges let there be a Vigilance Commission or let us have one Vigilance Officer to enquire into that matter and punish the concerned officer or contractor. Unless we introduce this system we are not going to solve this problem.

Thank you.

Voting of Demands for Grants

For 1968-69

For the 1968-69 financial year, the Director of Medical Services proposed to vote certain demands for grants in various sectors. The demands were related to medical services, medical aid to the poor, medical education, and other medical-related expenses. The text discusses the allocation of grants to different areas, including medical and health care services, land mortgage banks, sanitation, and drainage systems. The text also mentions the survey of survey areas in certain regions and the allocation of grants to specific schemes.
