(a) whether it is a fact that freedom Fighters get a monthly pension in the State of Andhra Pradesh and

(b) the approximate number of Freedom Fighters of varying age groups in the State?

Sri K. Brahmananda Reddy:—The term Freedom Fighters has not been defined by Government. In G.O. Ms No. 8102 Revenue dated 23-12-1947 Government have defined Political sufferers. There is a scheme for the grant of land at the disposal of the Government to the Political sufferers. Such of the Political sufferers who do not choose to have land in the State are also eligible for financial assistance from the Home Minister’s discretionary grant. The State Government are recommending such cases to the Government of India. Government servants who have resigned from service for taking part in the freedom struggle are entitled to get a monthly pension on ad hoc basis.

Information regarding the approximate number of Freedom Fighters of varying age groups is not available. The term Freedom Fighters has not been defined by Government as I said earlier.

The following Government servants who resigned their posts in Government service for taking part in freedom struggle were granted pensions:

1. Sri K. Y. L. Narasimha Rao formerly Revenue subordinate in Revenue Dept. who resigned his post in 1921 for political reasons has been sanctioned Political Pension under G.O. Ms No. 206 Fin. (Pen. II) dt. 5-1-10 66 (His date of birth is 10-1-1900)

Oral Answers to Questions 27th March 1968

After all Sir Cooperative is also a public sector. He is inclined more towards public sector than private sector. Let us understand that Guntakul Cooperative Spinning Mill is the first Cooperative spinning mill in the entire country. It has done well for some years. Unfortunately due to various reasons, something might have happened. Therefore, when Mr. Pragada Kotanah who knows about Chirala and Guntakul Spinning Mills has made that suggestion, I said it is worthwhile looking into.

* 3659 Q —Sri S Vemayya —Will the hon Minister for Municipal Administration be pleased to state
   (a) No of Government officials to whom notices were served to vacate the Government quarters as they owned houses in the twin cities now and
   (b) whether all the officers referred in clause (a) have been evicted from the Government quarters if not the reasons for the delay?

Sri N Chenchurama Naidu —(a) Six
(b) Two of them have since vacated Government quarters and two of them could not vacate as their houses are under lease with the Military without any option to the Land Lord to terminate the lease. The matter has been taken up by the Government with Military to get the houses vacated. In one case the matter is under examination. In the last case the Government could not evict him as the A P High Court have recently struck down section 5 of the A P Public Premises (Eviction of Unauthorised occupants) Act 1961 which provides for eviction as violative of Art 14 of the Constitution. Government are considering the further steps to be taken in the matter in consultation with the Government of India and pending that penal rent will be collected from the unauthorised occupants.

Industries Department

Mr Pitti asked the Government of composite Madras if they purchased the Andhra Paper Mills at Rajahmundry in 1948, and if so, whether they earned any profit or sustained any losses.

The Andhra Paper Mills at Rajahmundry was purchased by the Government of composite Madras in 1948. The net profit earned and the net losses sustained by the Andhra Paper Mills are furnished below:

- The Andhra Paper Mills at Rajahmundry was purchased by the Government of composite Madras in 1948.
- The net profit earned and the net losses sustained by the Andhra Paper Mills are furnished below.

Sri K. Brahmananda Reddy asked what the loss was and why he was not able to understand.

- The loss is due to the following factors:
  - Shares
  - Instalment
  - Additional Enquiry

The rest was treated as a loan to be repaid in some instalments.

Sri K. Brahmananda Reddy wanted a specific question.

Mr Pitti explained that the Government of Andhra Pradesh will be partly satisfied by allotment of equity and preference shares of the face value of Rs 34 lakhs and Rs 50 lakhs respectively at par for consideration other than cash.

Mr Speaker stated that the question has taken 5 minutes and there are still a number of questions that cannot be allowed due to time constraints. Try to make yourself clear, Mr Pitti.
Sri K Brahmananda Reddy —I would request Mr Pitti to put specific questions say (1) to (6) It does not matter Whatever he wants I shall give the information

Sri K Brahmananda Reddy —We will get the loan in terms of the agreement

Sri Vavilala Gopala Krishnaiah —Is it subscribed Capital or paid up Capital?

Sri K Brahmananda Reddy —That is wrong

Sri Vavilala Gopala Krishnaiah —No it is not wrong

Sri K Brahmananda Reddy —If a separate question is put I can give whatever information he wants

Sri Vavilala Gopala Krishnaiah —Because we definitely know that they do not pay interest taking all the assess of the Government and the loans given by the Government and managing it

Sri K Brahmananda Reddy —That is very wrong

3934 Q — Sri K Ramanatham — Will hon the Chief Minister be pleased to state
(a) whether it is a fact that tax on a turnover of Rs 9.04 crores has been written off in the name of single point tax by 1965,
(b) whether it is a fact that the need to collect tax from them has been found out at the time of audit
(c) the amount collected and the amount of arrears still due from them till now and
(d) the steps being taken by the Government to collect the same immediately?

A —

(a) No Sir
(b) In the Audit Report for the year 1966 the Accountant General pointed out that in respect of goods attracting a single point tax at the point of first sale/purchase the second and subsequent dealers are eligible for exemption from tax if the payment of tax at the point of first sale/purchase is established and that in respect of
turnover of Rs 9.04 crores exemptions had been given but the verification was either not taken up or was not pursued and completed. The Accountant General was referring to the cases where exemption was granted on secondary transactions without issuing cross check references. The need to collect tax on secondary sales will arise only if subsequent verification reveals that tax on the transaction had not been realised at the point of first sale of purchase.

PAPER PLACED ON THE TABLE OF THE HOUSE

(Vide Answer to L A Q No 3269 (* 1978)

To be published in Sub-section (ii) of Part II Section 1 of the Gazette of India

GOVERNMENT OF INDIA

MINISTRY OF COMMERCE

New Delhi, the 11th Feb 1967

In exercise of the powers conferred by the Second proviso to Sub-Section (1) of Section 2, of the Coffee Act 1942 (7 of 1942) the Central Government hereby makes the following amendment in the notification of the Government of India in the late Ministry of Commerce and Industry No SRO/83 dated the 10th January 1956 namely —

In the said notification item 5 and the entry relating thereto shall be omitted

Sd/- (B Kri*hna Murthy)

Under Secretary to Government of India

26 (8) Plant (B) 64

To

The Manager Govt of India, Press,

NEW DELHI

Copy of —
GOVERNMENT OF INDIA
MINISTRY OF COMMERCE & INDUSTRIES
New Delhi the 10th January 1955

NOTIFICATION
(Coffee Control)
S.R.O No 88 (15 (15) Plant 15) In exercise of the powers conferred by the second proviso to sub-section (i) of section 25 of the Coffee Act 1947 (VII of 1947) the Central Government hereby exempts the owners producing Coffee in the areas specified below from the provisions of that Sub-section namely
1 Madhya Pradesh
2 Orissa
3 Kolli Hills (Madras State) and
4 Assam and
5 Visakhapatnam (Andhra State)

SUPPLY OF ELECTRICITY

1879—
* 3969 Q—Sri K Lakshminarasimha Rao — Will hon the Chief Minister be pleased to state —
(a) whether it is a fact that electricity has been supplied for 30 motors on a special guarantee at the rate of Rs 40 per HP in Motha village, Jagtyal taluk
(b) whether it is a fact that 45 motors are functioning with the same transformers
(c) if so whether it is not unfair to collect Rs 40 per HP from the said thirty ryots on the plea of special guarantee whereas a rate of only Rs 25 per HP is being collected from others
(d) the reasons for collecting arrears at special guarantee rates compelling the ryots of Motha village by disconnecting the supply of electricity whereas such a course of action has not been adopted in the case of the ryots of Vedire village of Karimnagar taluk in which also such special guarantee is in existence?
A —
(a) Yes, Sir
(b) Yes Sir
(c) The Consumers covered by special guarantee under original extension scheme enjoyed the benefit of electrical energy from an earlier date which the consumers covered by subsequent extensions could not. The fifteen motors released subsequently were on self remunerative basis involving L T Line extensions. However the general question of giving relief to consumers covered by special guarantee consequent on connecting up subsequent loads is under consideration of the A P State Electricity Board
(d) The services of the consumers of Wadira village were also disconnected for non-payment of arrears based on the special guarantee but were reconnected only to save the standing crops for want of water supply pending final decision

A —

(a) and (b) A statement is laid on the Table of the House

**Statement Laid on the Table of the House**

*vide answer to Part (a) (b) of the Legislative Assembly Question (Starred) 2796 (*1884]*)

(a) & (b) — The municipal council Ramachandrapuram maintains a single teacher school in Rendukaluvala Moga. The status of the school could not be enhanced as the rolls never exceeded 5. The municipal council also resolved to open a single teacher school in Jallipet and the matter is under correspondence with the Educa
The municipal council permitted the Honble member to open a private school as there is no municipal site available in Jalluru pet to construct a public latrine. Efforts are being made to secure some site for the purpose. The electric street lighting does not extend to the municipal limits but is limited to the town proper. The municipal council resolved to extend street lighting to some of the Harijan colonies in the municipal area and the matter is pending with the Electricity Department. After the roads of Santinagar are vested in the municipal council, street lighting will be extended. A tube well was provided in Santinagar and Rendukaluvali Moga. There are 6 kerosene lights in Rendukaluvali Moga. The municipal council proposes to form an approach road to the burial ground. It also proposes to extend lighting, water supply facilities to other Adi-ndhr colonies in municipal area irrespective of the assistance given by Social Welfare Department.

It is going to take up road pairs to Puntha Malappalli. In spite of the fact that the municipality itself is giving attention to the provision of amenities in the Adi-Andhra colonies of the municipalities, it will be advised to pay greater attention in this regard.

FIRE STATION AT NANDIGAMA

1986—

* 4064 Q — Sri R. Buchi Rama Seshuiah — Will hon the Chief Minister be pleased to state

(a) whether the Government are in receipt of the representation of the Nandigama Panchayat Samiti requesting the Government to establish a fire Station at Nandigama the headquarters of Nandigama taluk, and

(b) if so whether the Government propose to establish a Fire Station at Nandigama in view of the fire accidents taking place in that taluk every year?

A —

(a) Yes, Sir

(b) Nandigama is one of the places recommended by the Collector, Krishna, for opening of fire stations. Due to the difficult ways and means position of the Government and in view of the heavy cost involved in opening a new fire station, it is not possible to say when a fire station could be opened.

PERCENTAGE OF EXPENDITURE TOWARDS SALARIES OF R. T. C

1986—

* 4490 Q — Sri Dhanenkula Narasimham — Will hon the Chief Minister be pleased to state

(a) the percentage of expenditure towards the salaries to the staff out of the total expenditure incurred by the Road Transport Corporation during 1966-67

(b) the amount of expenditure incurred per mile by the Road Transport Corporation during 1966-67

(c) the amount of expenditure incurred by the Madras Road Transport Department for the same, and

(d) the reason why expenditure is higher in our State?

A —

(a) Percentage of expenditure towards salaries to the staff out of the total expenditure incurred by the Road Transport Corporation during 1966-67 is Rs 21.64%

(b) It is 111.05 paisa per Kilometer or 178.71 paisa per mile approximately

(c) the Madras Government incurred an expenditure of Rs 92.89 paisa per Kilometre or 141.01 paisa per mile approximately during 1966-67

(d) It is because the expenditure incurred on the staff by the Andhra Pradesh State Road Transport Corporation towards the pay and allowances etc was higher than that of Madras. Secondly, the Corporation incurs more expenditure on tyres than the Government of Madras in view of the bad condition of roads in this State. Thirdly, the expenditure by the Andhra Pradesh State Road Transport Corporation on spare parts also is higher than in Madras which is situated close to production centre and Port and therefore no additional expenditure by way of freight is paid in Madras. Fourthly M V
tax is higher in Andhra Pradesh than in Madras. Fifthly Road Transport Corporation is running a number of short distance services in Telengana area, Krishna, West Godavari and Guntur districts and also City Services which are more expensive when compared to the long distance services. The Madras State Road Transport Department is operating only long distance services in the districts. Sixthly the flow of traffic either ways in the City Services is even in Madras as unlike Hyderabad it is a well developed commercial centre.

**Revenue Due Enhancement of Fares**

1987—

*3.26 Q —Sri S Vemayya and Smt J Eshwari Bai —Will the Chief Minister be pleased to state

**Licence for Tractors**

1988—

*5340 Q —Sri R Mahananda —Will the Chief Minister be pleased to state

(a) Whether tractor owners holding C Certificate and licence who use it to plough the lands of even their relatives and friends (lands other than their own) have to pay special fee and obtain special licence.

(b) If so why?

(c) The amount of Special fee to be paid for getting the licence and

(d) whether the Government are aware that agricultural operations are being retarded because Regional Transport Department is giving trouble by detaining and launching cases in the case of tractors going beyond the prescribed area.

A —

(a) Yes Sir

(b) Under Section 10 of the Andhra Pradesh Motor Vehicles Taxation Act all tractors registered in the name of the owner or occupiers of an agricultural land used for personal cultivation are exempted from payment of tax. If a tractor is used in public place by others either free or on hire tax has to be paid.

Tractor by itself cannot carry any goods. Therefore it does not come under the definition of 'Transport Vehicle'. No permit is required under section 42 of the M V Act.

(c) A tractor lent for hire or used by persons other than the owner is liable to be taxed under item 4 of the Schedule to the Andhra Pradesh Motor Vehicles Taxation Act depending upon its unladen weight.
27th March 1968

Answers to Questions

(d) There is no restriction on the separate operation of a tractor. When it is used in combination with a trailer, it becomes a transport vehicle and a permit is necessary, and its area of operation is limited to the extent mentioned in the permit. Tractor-trailer combinations used for non-agricultural purposes and tractors used by persons other than the owner or hired out to others are liable to varying amounts of tax. Seizure is reported under Sec 8 of the A P M V T Act where tax has not been paid on vehicles liable to tax as mentioned above. If agricultural operations are not to be impeded those who are liable to pay tax should take care to pay the taxes in time.

(b) the manner in which the strike was called off and
(c) the action taken further by the Government in the matter?
A —
(a) The Government of India approved some of the recommendations of the Central Wage Board for Coal Industry and directed that the new Wage structure should be implemented with effect from 15-8-1967. The Singareni Collieries Co Ltd offered to implement the recommendations as applicable to the Andhra Pradesh with the modifications agreed to in February 1966 between the management and workers of the Company Unions functioning in the Singareni group of coal fields started demanding that all categories of workers should get higher categorisation than what was agreed to in February 1966 based on the observation of Wage Board that its recommendations relating to Singareni Collieries Co Ltd could be further modified and changed due to any special conditions prevailing. This led to the strike in October 1967.

(b) The Government of India informed the management and the labour Unions on 20-10-67 that the dispute was referred to adjudication and that continuance of the strike would be declared illegal. The management had further discussions with the Unions and as a result the Unions agreed to call off the strike from 31st October 1967.

Srisailam Upper Sileru Pochampad and Tungabhadra High Level Canal Projects are being partly financed under the Miscellaneous Development loan assistance. The Miscellaneous Development loan is given by the Government of India every year as a lumpsum assistance for the State Plan. Hence it is not possible to indicate the quantum of assistance each Project receives under the Miscellaneous Development loan assistance.

The Vamsadhara Project has not yet been cleared by the Planning Commission and therefore the question of any loan assistance by the Government of India does not arise.

* MALPRACTICES IN THE SILERU PROJECT HOSPITAL

2000—

* 1403 Q—Sri K. Govinda Rao —Will hon the Chief Minister be pleased to state

(a) Whether any thing is being charged for giving injections in the Sileru Project Hospital Visakhapatnam district by the Medical Officer.

(b) Whether there are any complaints from the public about malpractices in this Hospital in the month of May 1967 and

(c) Whether any thing is charged for taking X-Ray photos in this Hospital if so, how much?
A —

(a) From out patients no charges are collected. Cost of injection is charged from an in patient whose income is Rs 100/- per month and above if he is not employed in the Project.

(b) No Sir.

(c) Project Officials Staff and Workers have not been charged for taking X-ray photos. However, cases where the Officials have not furnished certificates an amount of Rs 40/- during this year up to 18-7-1967 has been collected. Whenever the X-ray photos are taken for the general public people not employed in the Project work whose income is below Rs 10/- per month are not charged but with an income of Rs 100/- per month and above are charged according to the rules. On this account during this year up to 18-7-1967 and amount of Rs 490/00 has been collected.

ELECTRICITY TO DUDUKONDA VILLAGE

2001—

(a) Whether it is a fact that orders for the supply of electricity to Dudekonda village, Pathikonda taluk has been cancelled if so the reasons therefor and

(b) Whether it is not a fact that the ryots will be subjected to loss due to failure on the part of the Government to review this order and implement the scheme?

A —

The matter relates to the Andhra Pradesh State Electricity Board.

(a) The scheme for extension of supply to Dudekonda referred to though sanctioned in 1960-61 could not be executed by the Board so far due to limited funds. In February 1967, the Andhra Pradesh State Electricity Board issued instructions to revise all schemes sanctioned but untouched so far with reference to cost and conditions on ground. On revision the scheme referred to has proved unremunerative since a major portion of the industrial loads contemplated in the sanctioned scheme has backed out.

(b) As the scheme is unremunerative, the question of implementation does not arise.

ELECTRICITY TO DUDUKONDA VILLAGE

2002—

(a) The reasons for not taking up the electricity scheme for Dudekonda Devarakonda villages in Pathikonda taluk which has been sanctioned last year and

(b) Whether there is any proposal to make this scheme remunerative by taking up the lift irrigation scheme on the Handri river flowing near the said villages?
A -

The matter relates to the Andhra Pradesh State Electricity Board.

(a) The scheme referred to was sanctioned in 1960. It could not be taken up for execution up to 1966-67 due to paucity of funds. It was included in the programme for electrification of villages in 1966-67 but it could not be taken up for execution as a major portion of the industrial loads contemplated there under backed out making the scheme unremunerative.

(b) No Sir

POCHAMPAD PROJECT

2008——

* 1908 Q — Sarvasri P Narasa Reddy A Vasudeva Rao and A Eswara Reddy — Will hon. the Chief Minister be pleased to state

(a) What is the total amount so far spent for the construction of pochampad project; and

(b) The possibility of completing the scheme during the IV plan period?

A —

(a) Rs 7.5 crores to end of January 1968

(b) There is possibility of completing the Project in the Fourth Plan as now envisaged to commence from 1968-70

COMPENSATION FOR LANDS ACQUIRED FOR KOTHAGUDLM FERTILISER FACTORY POWER SCHEME

2004——

* 2058 Q — Sri P Pithamah — Will hon. the Chief Minister be pleased to state

(a) whether it is a fact that the lands on which 300 families were depending have been acquired at Pulwancha for the purposes of Kothagudem Thermal Power House and Kothigudem Fertiliser factory and the poor ryots who have been dispossessed therefrom where assured by the then Chief Minister that they would be provided vacant land at the rate of 5 Acres per family in the villages of Vulavanur Chandrugudem and Jagannathapuram situated at a distance of 20-25 miles from Pulwancha.

(b) whether the Government are also aware that the then Collector of Khammam district and the local public visited these lands and persuaded the ryots to part with their lands for the sake of Kothagudem Thermal Power House and Kothagudem Fertiliser Factory assuring them that substitute lands would be provided for them.

(c) the action taken by the Government in the said matter about which the Collector of Khammam has also addressed the Government and

(d) whether the Government will consider to assign at the rate of 5 acres per family to the families of the said poor ryots, and
whether the hon Minister for Revenue will take special steps in that direction?

A —

(a) Extents of Acs 704-31 was acquired during 1963 and 1965 for Kothagudem Thermal Power Scheme and Acs 571 29 during 1966 for Fertiliser Factory Compensation was already paid for the lands acquired. I am not aware of any assurance given by the then Chief Minister that the ryots affected would be provided vacant lands at the rate of Acs 5 0 per family.

(b) No Sir

(c) Does not arise in view of (a) and (b) above. The Collector Khammam has not addressed the Government for allotment of Govt lands to the affected ryots.

(d) Since necessary compensation was paid to the ryots for the lands acquired the question of assigning Government lands to such ryots does not arise.

11 K V LINE TO NELLIMARLA

2005—

* 2417 Q — Sri P. Sambasiva Rao — Will hon. the Chief Minister be pleased to state

(a) whether there is any proposal with the Government to sanction 11 K V line from Vijayanagaram Vishakhapatnam district to Railway Water Works at Nellimarla and

(b) if so whether it will be taken up during 1967-68?

A —

The matter relates to the Andhra Pradesh State Electricity Board.

(a) The 11 K V line referred to is covered by a scheme for extension of supply to Railway Water Works at Nellimarla which was sanctioned already. Supply to the Water Works was however released from Nellimarla Sub-station from the existing setup.

(b) No Sir due to paucity of funds.

CREST GATES TO N S DAM

2006—

* 2598 Q— Sarvasri A. Bhagawantha Rao P. Subbaiah S. Vemayya K. B. Rayudu and P. Mahendranath — Will hon. the Chief Minister be pleased to state

(a) whether it is a fact that without the crest gates to Nagarjunasagar Dam the ayacut under Krishna delta would be effected on account of non-supply of water till the end of July.

(b) whether the Government is aware that such a situation would be created as a result of diversion of water West wards for the Koyna Project.

(c) whether the Government of India is apprised of such situation.

(d) whether the Chief Ministers of Andhra, Mysore, Maharashtra met in the month of August, 67 regarding Krishna river water dispute at Delhi and
27th March 1968

Written Answers to Questions

(e) could they find out a solution for settlement?
A —
(a) to (d) Yes Sir

(a) No Sir
(b) and (c) — Do not arise

CONVEYANCE CHARGES FOR TRANSPORTING CRANES

2008—
*2694 J Q — Sri K Ramanatham — Will hon. the Chief Minister be pleased to state
(a) whether it is a fact that tenders have been submitted in 1960 including an additional amount of Rs 8 10 per crane towards transport charges to meet the condition of conveying the same at the Nagarjunasagar Damsite
(b) if so whether the contractor has carried out the said terms and conveyed the same at damsite
(c) whether it is also a fact that the Government themselves had to get them conveyed to damsite at a cost of Rs 127 000 because of the failure of the contractor to convey them and
(d) the action taken against the contractor for his non-compliance with the condition.
A —
(a) No Sir
(b) The contractor has carried out the works as per the agreement
(c) The amount of Rs 12700 was incurred by the Government (Nagarjunasagar Dam) not because of the failure of the contractor to convey them but for conveyance from the place of delivery to erection place on the Dam which was the responsibility of the Department as per the agreement conditions
(d) Does not arise

TUNNEL ACCIDENT AT N S DAM

2009—
*2694 WQ — Sri K Ramanatham — Will hon. the Chief Minister be pleased to state
(a) the number of deaths caused in the Tunnel tragedy at Nagarjunasagar Dam on 21-1-67

(b) whether compensation has been paid to them?

A —

(a) The tunnel accident occurred on 24-1-1967. The number of deaths which occurred in this accident was six.

(b) Compensation has been paid to the legal heirs of two deceased workmen. In the case of another workmen, the dependents are residing in Kerala State. The amount of compensation has therefore been transferred to the Commissioner for Workmen's Compensation of the Kerala State for payment to the dependents.

The proposal for payment of gratuity and family pension to the dependents of the remaining three persons who are borne on the Provincial Establishment is under the consideration of the Government.

A —

(a) Yes Sir
(b) A statement is placed on the Table of the House
(c) The claims of the Railways have not been fully admitted
and they are still under examination Therefore action could not be
taken so far against any person

STATEMENT PLACED ON THE TABLE OF THE HOUSE

[Answer to item (b) of L A Q No 3931 (*2015 A)]

(b) The reasons are as follows —

(i) Utter inadequacy of the loop system of the Railway
    siding for handling heavy traffic consequent on the
    new works like erection of Clarke Chapman Boiler
and the 25 M W sets that had to be undertaken and
the work relating to the same continued for a period
of 12 to 18 months on the existing Railways within
the campus

(ii) The inadequacy of the coal handling plant for hand-
ing the increased quantum of coal

(iii) Non availability of departmental coal wagons till
March 1965 to enable more efficient and rapid hand-
ing of wagons within the campus

(iv) Further the siding at the Hussainagar had to cate-
r not only for the power house but also for the con-
struction and operation Circles Mint and P W D
workshop with the result that the cramped place
further rendered it difficult to handle the increased
quantum of coal

(v) The coal wagons that could be efficiently and safely
handled are 10 to 15 per day whereas the inflow of
the wagons sometimes was between 60 to 80

(vi) There is no space for extension of existing line to
make the system work more efficiently

(b) No of persons who got the land referred in clause (a) above

(c) whether it is a fact that the lands which were granted on leases by the Estate Manager were also granted on pattas under Sec 11 (a) during 1963–65

(d) if answer to (c) is in affirmative whether any enquiry has been instituted in the matter and

(e) if so the result of the enquiry?

A —

(a) Acres 8252 6

(b) 1560

(c) The question of grant of ryotwari pattas under section 11 (a) of the Estates Abolition Act arises only in respect of ryots lands which were under the occupation of ryots as on the notified date. Lands which are given on lease by the Estate Managers do not answer the conditions as laid down in Section 11 in as much as the Estate Managers came to administer the estates only after the estates were actually taken over. Any lease given by them would only be post-abolition leases. Hence so far as the Settlement authorities are concerned the question of granting ryotwari pattas under Section 11 (a) for lands leased out by the Estate Managers does not arise.

(d) & (e) Do not arise in view of the answer to clause (c) above

As a result of such meeting, the strike was called off on 30-10-1967 on the intervention of the Central Ministry for Transport and Shipping.

(b) No memorandum of settlement was signed by the parties either under section 12 (3) or 18 (1) of the Industrial Disputes Act 1947. However, the Ministry of Transport and Shipping (Transport Wing) had issued a press note dated 80-10-67 a copy of which is
The Government of India have since clarified that the intention behind part 2 (b) of the Press note was that against the ad-hoc increase of Rs. 10 in Dearness Allowance sanctioned by the Board of Directors of the Shipyard from 1-7-67 to all workers and staff, the management would be requested to grant the increase in Dearness Allowance at the Central Government rate of Dearness Allowance under the Gajend r formula from 1-2-67. The Board of Directors of Hindustan Shipyard have recently sanctioned further increase in Dearness Allowance from 1-11-67 to their staff and workers in accordance with the Central Government Dearness Allowance rates.

PAPER LAID ON THE TABLE OF THE HOUSE

[WITH REFERENCE TO ANSWER TO CLAUSE (b) OF L A Q [No 2147] (*4360]

Copy of Press note dated 30th October 1967 issued by the Government of India Ministry of Transport and Shipping (Transport Wing)

PRESS-NOTE

It will be recalled that the staff of the Hindustan Shipyard Ltd have been on strike for the last 54 days. Having received representations from Sri P Ramamurti M P on the several issues raised by the strike the Minister for Transport and Shipping gave an assurance that he would personally look into the matter. Following this assurance the strike has been withdrawn and the staff of the Hindustan Shipyard Ltd have resumed work as from today.

Having looked into the matter the Minister for Transport & Shipping proposes to take the following action:

(a) In view of the fact that the wage and dearness allowance structure in the Hindustan Shipyard needs rationalisation and in view of the apprehension that the Wage Board for the Engineering Industry to which the whole question has been referred is likely to take some time the Ministry of Labour & Employment will be requested to get a Sub-Committee of the Wage Board for the Engineering Industry appointed to go into this question expeditiously and submit its report within six months. This sub-Committee will confine itself to the Shipbuilding Industry in the country. The Management of the Hindustan Shipyard will be requested to give effect to the recommendations of the Sub-Committee with effect from 1-7-1967.

(b) Pending this the Management of the Hindustan Shipyard will be requested to replace the present ad hoc dearness allowance by the slab system applicable to the employees of the Government of India from 1-2-1967. The arrears of dearness allowance that will be payable to them on this account from 1-2-1967 to 30-6-67 will be credited to their Provident Fund Account. The dearness allowance payable as from 1-7-67 will be paid in cash. Staff will be allowed to withdraw their credits in the Provident Fund for the period 1-2-67 to 30-6-67 when the employees of the
Government of India are allowed to withdraw their credits for the corresponding period in consultation with the Ministry of Labour & Employment

(c) The employees will not be eligible for any pay for the period of the strike. But taking into consideration the hardships involved due to non-receipt of salary for nearly two months, it is proposed to recommend to the Management of the Hindustan Shipyard to sanction an advance of one month's salary to the staff. This advance will be recovered from them in 10 equal monthly instalments.

(l) Certain other questions like yard allowance, cash handling allowance, etc., will be settled by the Management as expeditiously as possible.

(a) whether the Corporation of Hyderabad has collected betterment levy of all new private colonies

(b) if so whether the Corporation laid new roads and drains to the new colonies in the twin cities

whether the Government is aware that the residents in many new colonies are facing untold sufferings due to lack of roads, drains and other sanitary conditions in twin cities and

(d) what action the Government proposes to take to improve the new colonies in the twin cities?

A —

(a) (b) (c) and (d) A statement is placed on the Table of the House.

**STATEMENT PLACED ON THE TABLE OF THE HOUSE**

[Vide answer to L 4 A Q No 2201 (*4882).]

(a) Yes Sir in respect of colonies layout of which have been approved as per layout Rules issued in G O Ms No 1095 M A dated 14-8-65

(b) For colonies where betterment charges were paid in full amenities like laying roads, drainage sewers etc., are being provided.

(c) In certain new colonies residents are facing difficulties due to lack of roads, drainage etc. These facilities could not be provided for the following several reasons

1. Prior to the issue of the Layout Rules betterment charges for roads were not collected as the parties were allowed to form the roads for themselves. But the parties used to sell the plots making sub-divisions without providing proper amenities like roads and drainage which they had to. These cases come to the notice of the Corporation only when the individual purchasers applied for building permits. With a view to mitigate the hardships on the part of the individual purchasers, the Corporation is granting permissions after collecting betterment charges from the respective owners. It is not possible for the Corporation to lay roads etc. in private colonies at a huge cost in the entire layout area where only few individuals pay betterment charges sporadically.

Under such circumstances a good number of residents in such layout are facing difficulties as the subsequent purchasers have purchased these plots at their risk. As per the Layout Rules issued in 1965 the owners can pay the cost of the drainage charges before the release of the sanctioned layout plan and undertake to form the roads by themselves either by giving a bank guarantee or hypothecating plots equivalent to the cost of the road works. In such cases the layout are released and building permissions are granted. This will improve the position in regard to provision of amenities in the colonies.
27th March 1968

2. As regard sanitary conditions, i.e., sweeping work etc. in these colonies the position is that the existing staff is attending to this work as no extra staff has been sanctioned. The question of appointing additional staff in order to provide good sanitation in the new colonies is under the consideration of the Corporation.

(d) Government have been sanctioning grant in aid to the Municipal Corporation of Hyderabad for taking up various roadworks etc. and the Corporation also has been providing funds for the purpose of improving the present conditions in the twin cities to the extent possible.

(b) The work relating to the formation of asphalt road from Secunderabad Boat Club up to Pathiguda has been taken up and it is likely to be completed by the end of March 1968. The other road from Pathiguda to Khairatabad will be taken up whenever funds are available.

INCLUSION OF LANDS IN THE FOREST

2203—

*1493 Q —Sri P. Pitchai —Will the hon Minister for Municipal Administration be pleased to state the reasons why the lands bearing Survey No. 16, 17, 19 Loami 39 cultivated by poor Koyas of Kalvakanagaram Mauja in Burgesspud Taluk have been included in the reserve by Forest Department and cases have been filed against them?

A —

The lands in question were included in Kalvakkanagaram Forest Block Mangapath Range of Paloncha Division which was notified under sections 4 and 6 of the Hyderabad Forest Act in the year 1950 as no cultivation was existing in those lands at that time. The Forest Block has not yet been notified under section 19 of the Hyderabad Forest Act as certain claims are under settlement with the Forest Settlement Officer, as cultivation in the lands so notified is not permissible. One case in 1966 under Section 24 of the Hyderabad Forest Act and two cases during 1967 under Section 26 of the Andhra Pradesh Forest Act 67 have been booked against those who had tried to cultivate the lands.

(a) the No of Devasthanams in Udayagiri, Nellore district,
Unstarred Questions and Answers  27th March, 1968

(b) the present condition of the Devasthanams

(c) whether the Government will take steps for their renovation and if so the nature of the steps proposed to be taken

(d) the particulars of the properties owned by the said Devasthanams and

(e) the annual income being derived from the said properties the expenditure incurred therefrom?

A —

(a) There are three temples in Udayagiri town in Nellore District

(b) All the three temples are in a dilapidated condition Sri Ranganayakulavari temple and Sri Krishna Swamy temple which are under the control of the Archaeological Department have no Moolavarlu Vigrahas while those in Sri Anjaneyaswamy–Venkaṭeswaraswamy temple are defaced.

(c) There is no proposal at present for renovation of Sri Anjaneyaswamy–Venkaṭeswaraswamy temple. However, the question of appointment of new trustees for its better management replacement of vigrahams and revival of puja therein is being examined by the Asst Commissioner Endowments, Nellore. Similar action in respect of other two temples cannot be taken by the Endowments Department as they are protected monuments under the control of the Archaeological Department.

(d) Of the three temples, only Sri Anjaneyaswamy–Venkaṭeswaraswamy temple has properties as detailed below

1 Udayagiri village
   (i) Ac 0-60 cents (wet) S No 557/1 patta No 100

Electricity supply

237—* 2409 Q—Shri D. Anjaneyulu Naidu—Will the Chief Minister be pleased to state

(a) when the Mapakshi scheme of extension of electricity in Chittoor taluk was finalised and taken up for execution

(b) why the execution of the said scheme has not been completed

(c) why the materials gathered for completion of the said scheme were diverted to other places and

(d) if so the reasons therefore?

A—

The matter relates to the Andhra Pradesh State Electricity Board.

(a) The scheme for extension of supply to Mapakshi and 15 other villages was sanctioned in October 1964 and the work at Mapakshi, Gayulapalli (a hamlet of Mapakshi) and Kothapalli villages was taken up in 1965-66 and executed partly.

(b) In Kothapalli village the work of the value of 40% to 60% of the estimated cost was done already. So it has been included in the programme for 1967-68 with Shramadan contribution. The work already done at Mapakshi and Gayulapalli was less than 40% and therefore the balance work in these villages could not be taken up for execution during 1967-68 for want of adequate funds. These partly executed villages will be programmed for completion during 1968-69.

(c) & (d) Mapakshi village was not programmed for electrification during 1966-67. The materials kept at Mapakshi were therefore taken and utilised at Kothapalli as both are covered by one and the same scheme and as that would help completing the work in one village.

242-

4450 Q—Sri M Ch Nath - Will the hon Minister for Agriculture be pleased to state

(a) whether rat eradication scheme has been introduced in our State in 1967-68
(b) if so whether the Central Government is giving any aid for the said purpose and
(c) the particulars of the said scheme?

A —

(a) The scheme for rat eradication has been introduced in the State during 1967-68
(b) Yes Sir
(c) To encourage the State Government to initiate and extend these programmes, the Central Government agreed to make available 100% grant for the purchase of pesticides for treatment of 18 lakhs acres in the State during 1967-68 at a cost of Rs 3.6 lakhs

The scheme for rat eradication now sanctioned by Government of India as part of the scheme for control of pests and disease epidemics proposes to provide rodenticides free of cost to farmers

1 to educate public opinion by creating awareness and appreciation of losses caused by rats and by demonstrating effectively methods of control so that rat control is taken up as a routine farming practice in due course of time

14.—27

BUSINESS OF THE HOUSE
re Accidental death of a boy at Bibinagar

Mr Speaker — It is placed on the Table. I have laid on the Table a statement of 18 pages.

Mr Speaker — Thanks for the information, but we do not need it.

Mr Speaker — It cannot be allowed. That won’t be published in the press. The question is not allowed.

Mr Speaker — Please do not make such allegations. You will say now in the car that you learned so and so traveling and that they went there for such and such a purpose. What is all this? I don’t allow it. Let him not put questions based on vague information or reports. Let him put in writing.

Mr Speaker — If he is willing to say anything I have no objection. They are very much perturbed over it. Has the Minister heard the allegation?

re Accidental death of a boy at Bibinagar

Sri Ko da Lakshman Bapuji — I heard the allegation. If the Chair directs me to say anything, I am prepared to say. Otherwise, I am not willing to say on my own accord unless the Chair directs.

Mr Speaker — Does the hon. Minister know anything about it?

Sri K. Lakshman Bapuji — Yes, Sir.

Mr Speaker — Please tell the House.
Raising a Statue of Late Dr Ambedkar

Mr Speaker - I hope the Assembly will consider this matter.

Sri K Brahmananda Reddy - It is well worth consideration.

Mr Speaker - To bring any matter before the House without any notice is not the way.

I welcome the suggestion. It is a very good suggestion.

re Collection of taxes

27th March 1968

Mr Speaker — Not now, please wait till the end when I quit the office and then you can say what you want to say. This is not the occasion.

Mr Speaker — Let us finish the agenda first.

Sn G Sivayya — The point I wish to raise in the zero hour is not a serious one but only serious attention is necessary on the part of the Government to develop electricity there.

POINT OF INFORMATION
re Collection of taxes

Sn T Nagi Reddy — I have got a small submission to make about the collection of taxes. We have taken so much pains to discuss all the problems and we have passed the Budget. But I still feel...
It is very serious matter. It will be a most dangerous situation. I expect the Revenue Minister when he said that he has not given orders to the Revenue officials to collect by force. At least he should give orders that they should not collect by force. If he has not done it, it is his duty to do it on the floor of the House and tell them that such kind of behaviour as they have been continuing so far is illegal and improper.

We shall part as friends and again assemble as friends.

He made some charge against the Government. Answer when can the Minister answer? Please allow him to answer.

Sri V. B. Raju — I am making a categorical statement here. Government never asked would never ask officers of the State to go against law or to harass or to use coercive method. I am making a statement here that I want the Revenue Department officers to respect law. to respect rules and to see that by all good methods by persuasion by friendly approach they should collect the Government revenues which are necessary. I want to remove any misunderstanding in this matter. No Government would stake its reputation for the collection of revenues. I am also appealing I would like the Communist party and the Swatantra party not to make this political issue. I am only making a request.
pamphlets with me I have got representations that the Swatantra party particularly is making it an issue and is appealing to the people not to pay taxes

Sri T Nagireddy — They have a right to do it

Sri V B Raju — On that day Sir I had not complete information and you asked that I should get complete information from the Collectors. The information is contained in the statement that I have placed on the table of the House. The only difference is whether I should read it or because it is circulated it should be taken as read. This is not question hour.

Additional land revenue instalments are being levied. The information provided contains instalments. Whether I should read it or because it is circulated it should be taken as read.

Sri V B Raju — Notice of tax instalments provided in the rules.

Rules provide instalments. What is there in the rules is not being followed. If they want I will verify it and see that a letter is sent to the Collector on that matter.

Collection of taxes

1. **Executive action** under law or statute or normal duty of officers leads to action on question raised. How can I reply, Sir?

Sri T Nagi Reddy — With dates we will prove that notice was also given on the same day. With dates we will prove it.

Sri V B Raju — It is spread over 22 districts.

Sri T Nagi Reddy — My contention is not that he prepared for an enquiry along with MLAs?

Sri V B Raju — One Opposition Leader is enough. Why all the three or four MLAs and Ministers? One Minister and one Opposition Leader is enough. I will dispose of one after another.

Sri C V K Rao — It is a grave threat in the House. He says he is going to dispose of one after another. Kindly protect us, Sir against that grave threat.

Mr Speaker — Not going to dispose of one after another physically. He is going to dispose of the matters raised by them one after another.

Sri V B Raju — I will dispose of the doubts, Sir.

— Physical or Mental?

— Dispose of statement?

Sri V B Raju — Sir, I am making a motion. I want to move the motion. I have given notice of it. I beg to place on the Table of the House the statement containing the relevant particulars.

Mr Speaker — Please wait. Don’t move the motion now.

Sri G Sivayya — I am not able to understand. He has said something about maphi.

Today also I have received some telegrams stating that the Revenue authorities are forcibly collecting loans and land revenue even though it is represented to the Minister and the Minister was pleased to send a reply that no collections would be made. I request the Minister to postpone the collection of loans and land revenue in Kuppam Taluk in Chittoor District.

Sri V B Raju — I will take note of it and address the Collector. I beg to place on the Table of the House the relevant particulars.

Mr Speaker — Please move it towards the end, but not now.
BUSINESS OF THE HOUSE

Mr Speaker — It is better you make a correct statement. There are some prosecutions. The Officer is a Government Officer and he is in touch with the local people. I am sure it must be in accordance with the instructions received. It was only after all persuasive steps were finished that he should have taken this step.

ANNOUNCEMENT

re RECEIPT OF A LETTER FROM THE CHIEF CORRESPONDENT ANDhra PRABHA AND INDIAN EXPRESS EXPRESSING REGRETS

Mr Speaker — I have received a letter from the Chief Correspondent Andhra Prabha and Indian Express which reads as follows:

Subject: Motion of Mr M Bhoothraj Rao M L A in respect of a letter to the Editor published in Andhra Prabha on March 20

Sir,

This is to bring to your kind notice that we have published today in Andhra Prabha our regret for the misunderstanding the letter to the Editor had created among members.

I trust this will satisfy all concerned.

Thanks.

What was published in the Press reads thus:

In view of the regret expressed by the Managing Editor, I do not think any further action is necessary and the matter may be dropped.

Mr Speaker — I have already given my ruling. The matter may be dropped.

BUSINESS OF THE HOUSE

Mr Speaker — There is another breach of privilege matter dated 23rd March 1968 which Sarva Shri Bhadri Vishal Pitti and
B Ratnasabhapathy have given notice of I suppose this is specifically against Mr Raghavulu

Mr Speaker — Have you received the notice

Mr Speaker — Please pass on one copy to the Minister concerned. (Pause) If this is taken up today is the hon Minister in a position to reply?

Mr Speaker — That is why I asked him whether he is in a position to reply or not.

Mr Speaker — That is why I asked him whether he is in a position to make a statement.

I require notice, Sir,
Mr Speaker — Though he gave notice on the 21st March this file has been put up for my information only today. So I do not know what is contained in his notice. We shall take it up in the next session on the very first day.

Mr Speaker — This will be taken up in the next session.

Mr Speaker — Sri S Jagannadham has also given notice of a motion of privilege against Sri V K Rao ICS, First Member, Board of Revenue for the following reasons. This will also be taken up on the first day of the next session.

POINT OF INFORMATION

re Certain remarks on Sri Alluri Seetharama Raju

Mr Speaker — Even if the statement of Mr Gopalakrishnayya is held to be incorrect, I do not consider it constitutes a breach of privilege as I do not think he has done so with the intention of misleading the House.

re Certain remarks on Sri Alluri Seetharama Raju
Mr Speaker —Sri Gopalakrishnayya Garu where did you get that information?

He was cast in the mould of great leaders like Shivaji. The only difference was that he failed while others succeeded, but his failure as well as his whole life and work formed a most glorious chapter in the...
history of the freedom struggle in Andhra Pradesh. He is rebellious and a mischievous type of man—

Sri Vavilala Gopalakrishnaiah — He is rebellious and mischievous.

unsenti—most of the freedom fighters were all rebels. There is no doubt about that.

Sri K Brahmananda Reddy — All the people in Andhra Pradesh hold Seetharama Raju in a very high esteem and regard. My submission is that the floor of the House should not be used to correct whatever misapprehension is there. If there is any thing need not come on the floor of the Assembly and become a controversy.

Sri Vavilala Gopalakrishnaiah — That is allright prestige may not be a contender. It is better you express your regret.

Mr Speaker Better you put an end to this discussion. That is enough about this. In fact, I refused to believe that any body has said Allarivadu. I said that I cannot imagine. The Chief Minister said the same thing. I too cannot imagine that we must necessarily take such people to task. It is better you express your regret.
Point of Information
re Certain remarks on Sri Alluri
Seetharama Raju

27th March 1968

After all any one of us are likely to commit mistakes. If I commit a mistake I am ready to admit my mistake.

Mr Speaker — Please go through the book.

Sri Vavilala Gopalakrishnayya — If I am insulted I do not feel sorry. But one thing is there — history.

Mr Speaker — Do not try to mince matters. Clear.

Sri K Brahmananda Reddy — We also feel that it was never the intention of Mr Vavilala Gopalakrishnayya to bring down the prestige of Alluri. We admit it. Therefore let us close it here.

Mr Speaker — Breach of privilege. I have already disallowed it.

Mr Speaker — No further discussion.
BUSINESS OF THE HOUSE

Mr Speaker — Let somebody at least help me by translating what he has said. I am not able to follow a word of what he is saying. I do not know. Without knowing and without understanding him there is no point in my trying to say anything.

Shri K. Brahmananda Reddy — Sir, under what Rule is he?

Mr Speaker — He says that he is questioning the rights of the Speaker.

Shri K. Brahmananda Reddy — Never mind his questioning or not questioning. Under what Rule or by what Motion is he raising the point?

Mr Speaker — What is the Rule under which you have given this notice?
Mr Speaker — What does it say?

Sri Badrivishal Pitti — Rule 242. Raising of a matter which is not a point of order — A member who wishes to bring to the notice of the Assembly any matter which is not a point of order shall give notice to the Secretary in writing stating briefly the point which he wishes to raise in the Assembly together with reasons for wishing to raise it and he shall be permitted to raise it only after the Speaker has given his consent and at such time and date as the Speaker may fix.

Mr Speaker — The question is that I have not given my consent and I do not propose to give my consent. I may tell you now.

Sri K. Brahmananda Reddy — So the matter gets closed.

Mr Speaker — Now he can resume his seat. I do not propose to give my consent because the matter is already closed not by me but by the hon Deputy Speaker who was in the Chair. If I remember correct he finally stated during the concluding portion of his speech. I am glad that the whole thing has ended happily or something like that. I do not know how far I am correct.

Sri K. Brahmananda Reddy — My first submission is that unless there is a Motion and unless the hon Speaker gives his consent we are not prepared to spend our time on this. As you have rightly observed Sir this is the concluding day and there are 22 call attention Motions and then a good discussion on the engineering personnel etc. My submission is that when the notice under Rule 242 is refused consent by the hon Speaker it automatically gets dropped and it cannot be raised in any other way now.

Mr Speaker — What I am telling you is this. If there is anything if you are aggrieved by whatever that happens in this House you are always at liberty to come and discuss with me and you can raise it with my consent on the floor of the House. Why do you take me by surprise? As a matter of fact I was not aware of this.
notice at all. It was actually handed over to me by the Assistant Secretary now I do not know why you should have any such kind of feeling. You are always at liberty and you have always got the right to discuss with me on any matter.

Mr Speaker - Nobody requested you to withdraw your Motion.

Sri B Ratnasabhapathy - Let the hon Deputy Speaker say so Sir. He has asked us to withdraw. He has appealed to us to withdraw.

Sri K Brahmananda Reddy - He has left the option to you to withdraw.

Sri B Ratnasabhapathy - What does it mean? We have made out a case and he has asked us to withdraw.

Sri K Brahmananda Reddy - My point is that all these proceedings also should not be published.

Mr Speaker - I have already informed the press not to publish.

Of course, there you have got that power. You cannot stuff us like this. I am not so much interested in what is published in the papers and what is not published. I may submit to you one thing, that if you ask me to sit down, I am prepared to sit down. Whatever ruling you give, I am prepared to abide by it. I have got the greatest respect for the rulings you have given and the Chair you occupy. Therefore I will sit down.

Mr Speaker - Mr Ratnasabhapathy I do not deny the right of any opportunity to reopen any thing.

Sri B Ratnasabhapathy - Actually it is being denied to me.

Mr Speaker - I am not denying and nobody can deny your right.

Sri B Ratnasabhapathy - Some times jeers and jokes that are cut at our expense are certain things where we cannot swallow like that.

Mr Speaker - What I am saying is that every body thought that the matter was treated as closed.

Sri B Ratnasabhapathy - No, Sir. I submit very humbly and in all humility. Let the hon Deputy Speaker say whether it has been closed. I humbly request the hon Deputy Speaker to clarify the issue.
Mr Speaker — Before you make any kind of statement in this House I would request every hon. Members to go through the proceedings of the House. If you want a copy of the proceedings I have absolutely no objection to supply a copy of the proceedings. Why do you imagine certain things and say on the floor of the House without having gone through the proceedings of the House?

Why is it that all these things were precluded from publication?

Mr Speaker — I do not know what is working in your minds?

Mr Speaker — I have got a right to say that such and such a thing shall not be published. I told the press it should not be published even if they published a little portion that is also a mistake they should not have done it. You have got a right to speak whatever you want. I am not restricting your right your freedom of speech in the House but so far as the press is concerned it is the right of the Chair as to what should be published and what should not be published.

Sri B Ratnasabhapathi — According to what rule of the Assembly Rules and what article of the Constitution may I ask for clarification Sir?

Mr Speaker — It is the inherent right of the Presiding Officer.
Mr Speaker — Please resume your seat

Mr Speaker — I am so sorry. Please resume your seat. I don’t know why you are doing all these things. I am telling you in spite of what the Deputy Speaker told you the other day you cannot take me by surprise. That is enough. I have not given my consent.

Mr Speaker — He can discuss with me in my Chambers at length.

Mr Speaker — You need not come to my chambers. Whatever you say against the rules will not be published in the press.

Now regarding call attention motion on Steel Plant Agitation, one member from each party will speak.

CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

1966 Non-withdrawal of cases against persons arrested during the steel plant agitation in 1966.

r Alleged inhuman treatment of 82 persons arrested by Police in Mathakamudi Sulurpet taluk

Mr Speaker — The next one is in the name of Sri S Vemayya regarding Police lock up at Thada Police Station

Sri S Vemayya — I will read the notice and explain. Sir, Thada Police Station arrested 82 persons of Muthakamodi village Sulurpet taluk Nellore district and they were locked up in a small room which can accommodate not more than 6 or 10 on 9-1-1968. The Police kept them under lock up till 9-10th January 1968. Out of the 32 persons some of them who are agricultural labour organiser received injuries. Sarvashri T V Subba Ramayya Advocate P Vedachalam sarpanch and B Subramanyam these persons were sent by me to verify whether these 32 persons were locked up in a small room. 

Sri K Brahmananda Reddy — Sir, during the agitation of 966 for the location of Steel Plant at Visakhapatnam the Police registered as many as 194 cases against persons who indulged in violent activities. After the agitation was called off Government as a special case considering the just cause underlying the agitation ordered that all cases whether pending trial or under investigation should be withdrawn except 13 cases in which large scale looting and damage was caused. Accordingly 17 cases which were pending trial were withdrawn and in 164 cases further investigation was dropped. In 17 cases in which prosecution was continued the Court has disposed of 3 cases. The case registered in Crime No 4/0/66 of Vijayawada 3 Police Station under Sec 395 IPC ended in acquittal. The accused in Crime No 884/66 of Lalapet Police Station Guntur District were convicted and released under Sec 552 Cr PC to keep good conduct for 6 months. In the third case in Crime No 773/66 Lalapet Police Station Guntur 7 accused were convicted for two months rigorous imprisonment each and the remaining 5 accused were acquitted. The other 10 cases relating to Sileru Police Station and 2 to Vijayawada Police Station are pending trial in the Court. While the accused in the Sileru cases along with a big mob attacked the residence of the Superintending Engineer the executive Engineer's control room Electrical sub-station and other Government buildings and caused large scale damage the accused in the other two cases of Vijayawada demolished the statue of Dr Sanjeevareddy and indulged in dacoty looting and attack on 1 Town Police Station. The accused in these cases do not deserve any sympathy and withdrawal of prosecution in undeserving cases will only encourage the miscreants in their anti social activities. Government do not propose to withdraw these cases.

Re: Alleged inhuman treatment of 32 persons arrested by police in Mathakamudi, Sulurpet taluk.

The village of Mathakamudi lies in the Thada Police station limits. The Kshotramdars are the actual owners of the kshotram. They sold the trees in the gardens on the tank bund to S. Naimatulla of Sulurpet. The villagers obstructed the cutting of the trees at the investigation of Sri P. Paramanand, a staunch Communist of Sulurpet who promised the villagers of Mathakamodi that he would get pattas for the village lands in favour of the villagers. The villagers took away the cut trees on 14-12-67 by high-handed conduct from the physical possession of the Trinam Officer. The complaint preferred by the Trinam Officer at the Thada Police station was registered as Crime No. 109/67 under sec 447 and 379 I.P.C. On 9-1-68 the Sub Inspector of Police Thada went to Mathakamodi village for enquiry. He found the villagers chasing S. Naimatulla with deadly weapons when he attempted to cut the trees. He arrested two persons under sec 151 Cr. P. C. and brought them to Thada Police station and locked them in the police station. This case was registered as Crime No. 2/68. The 32 persons were kept in the lock up in the station room. The accommodation available in both the rooms is sufficient for 32 persons. These persons were arrested by the Police on 9-1-68 for their high-handed behaviour towards the kshotramdars. The allegations mentioned in the call attention were already enquired into by the D. S. P. Gudur on 9/10/68 and found to be baseless.

Point of Order 27th March 1968

Mr Chairman charged the Union Irrigation Minister Dr K. L Rao being in league with the Andhra Pradesh Government. He said we have a suspicion that the protracted negotiations on the dispute are intended to delay the solution of the dispute and thereby allow the Andhra Pradesh Government to complete its work and the erection of the crest gates on the Nagarjuna Sagar dam. Mr Chairman pointed out that the Central Ministers are betraying the interests sufferers. Mr Chairman pointed out that the Chief Minister K. L. has not acted in the interest of the Central Ministers and the interests of the suffering masses. Mr Chairman pointed out that the Central Ministers are betraying the interests sufferers.

POIN'T OF ORDER

re Arrest of Sri B Narasimha Reddy MLA

Sri T Nagi Reddy On a point of order is it possible for a Police Officer to stop a member within the premises of this compound? Is it possible for a Police Officer to arrest a person within this compound?

Mr Deputy Speaker—I do not think there were any instances of that type.

Sri T Nagi Reddy—There is an instance of that type now.

Mr Deputy Speaker—You send it to me I shall have.

Sri T Nagi Reddy—There is no question of sending it Sir. If he can be stopped within the premises of this compound it has to be decided by the Speaker here and now. If it cannot be then the Speaker should give instructions that it cannot be. If it cannot be the Police Officer should be hauled up before the House for having obstructed the member within this compound.

Mr Deputy Speaker—Will you please give the name of that Officer?

Sri T Nagi Reddy—The Officer’s name I cannot give, because that is what is happening near the gate. I would like to know whether the Police Officer can do that business within this compound?

Point of order
re Arrest of Sri B Narsimha Reddy MLA

Mr Deputy Speaker — I will find out what is happening
Sri T Nagi Reddy — But it should be before the Police Officer can drag him out. If such things were to happen certainly the privilege of this House is at stake
Mr Deputy Speaker — Let me verify what is happening
Sri T Nagi Reddy — I myself saw it from the window. He had not travelled outside this gate and within the gate he has been dragged out

(At this stage many of the hon Members stood in their places and interrupted)
Mr Deputy Speaker — One of you. Why all this?
Sri G Sivah — I submit Sir myself Mr Reddy Mr Satya Narayana Raju and other Mr Reddy were all within the compound. We are just discussing whether to attend the Assembly or to go out. At that stage all the police officials inside the Assembly came and asked the car to move. I said we are within the compound. Are we just discussing whether to attend the Assembly or to proceed outside? At that stage they have asked the driver to push the car outside. I said do not push the car outside because we are within the compound. We are now thinking whether to attend the Assembly or to go out. Under discussion, we do not want to move from the compound. Meanwhile police officials have come. They have pushed him out physically. Therefore it is the privilege question when the Member was arrested dragged outside the Assembly premises. I do not mind the police arrest. How can they come and arrest a person inside the Assembly? Is it not the infringement of the privilege of the Members? I can understand if it is outside but it is inside the premises. How can he drag a Member? Why should he drag a Member? It is most unjustified and they are misbehaving improperly, Sir
Sri B Rathnasabhapathi — Let the Speaker come and order
Sir
Sri K Brahmananda Reddy — No Sir. What is the use?
Sri C V K Rao — We demand that he should be brought into the House
Sri K Brahmananda Reddy — Should I know
(Sri G Sivah and several others stood at one time and interrupted)
Mr Deputy Speaker — You give some opportunity. Why all these things? I have heard you now. Let me say
Mr Deputy Speaker — All of you are standing at one time. What am I to say? Shall I stand? Then you will keep quiet. You don't want any solution. That is what all of you are saying.

Sri G. Sivaiah — We were marched by the Police and dragged out. How dare they do that? How dare they drag him out?

Sri K. Brahmananda Reddy — There is no point in

Sri B. Rathnasabhapati — There is a point

Sr T. Nagi Reddy — There is a point. How can your police enter the premises?

Sri K. Brahmananda Reddy — What is all this? You go on talking.

Sri T. Nagi Reddy — It has happened in front of our eyes. There is a point here. The point is your police had no business to enter the Assembly compound. They entered the compound and dragged him. Therefore I came running and asked for protection. If the Chief Minister wants democracy to function, let him order the Police Officers to bring him here and here and now.

Sri K. Brahmananda Reddy — The point is I must know.

Mr Deputy Speaker — Will you allow some time for me to understand?

Sri K. Brahmananda Reddy — What is the use when ten people get up and ball out?

Sri G. Sivaiah — Ask them not to ball out in the Assembly. Please withdraw that word balling out which is an unparliamentary word.

Sri K. Brahmananda Reddy — What is it that you are trying?

Sri G. Sivaiah — We have come here. The Hon'ble Chief Minister.

Mr Deputy Speaker — Will you at least hear them? Will you at least allow us to understand?

Sri G. Sivaiah — What is it as though I come here to ball out like do inside the Assembly?

Mr Deputy Speaker — Everybody is trying to give his impression. We are not able to follow what exactly is happening.

Sri K. Brahmananda Reddy — I do not know what each man is talking. Nobody knows.

(Mr Speaker in the Chair)

Mr Speaker — One after another please.

Sri K. Brahmananda Reddy — Whether they are crying for cross purposes or something else. I do not know.

Mr Speaker — I would like to hear one member after another. Please sit down. Mr Rao. Kindly sit down. I will hear what the Chief Minister has to say. Let me do what I can. One after the other please.
Point of Order  
re Arrest of Sri B Narsimha Reddy MLA

Mr Speaker — Not necessary Sit down I will tell you

Sri T Nagi Reddy — Rose in his seat

Mr Speaker — Please hear me Mr Nagi Reddy

Sri G Sivaiah — I was physically present Sir

Mr Speaker — Why don’t you hear me first? I will give you an opportunity An hon Member of this House has been arrested within the premises of the Assembly without the knowledge of the Speaker or without the permission of the Speaker. Is it not so? That is a fact which nobody can deny.

Sri K Brahmananda Reddy — No No Sir That is an allegation

Sri T Nagi Reddy — No No No

Sri G Latchanna — That is a fact

Sri T Nagi Reddy — I have seen it. He should not think it is an allegation. He has no business to say that. It is a truth.

Sri G Sivaiah — Myself Mr Satyanarayana Raju Mr Raghava Reddy and Mr B N Reddy all of us are going in a car. We were just discussing whether we have to leave or to stay till 1 30. When we just started immediately gangsters I would like to say nothing more because none of them are in police dress half a dozen sons in a car came and immediately pushed through and stopped us. I said Why are you stopping? They said we are arresting B N Reddy. It is all right. Who are you? I asked. We are in plain dress. They said That is all right. I have spoken specifically we are within the compound you cannot handle him when he just leaves the compound you can arrest him. Anyway if you are determined to arrest him he is going to leave the compound try to arrest him. At this stage some people came and dragged him out and I stopped physically but I was also pushed back. I was just telling them that you are interfering with our rights. It is

against the Speaker's knowledge and you are touching me. That is a serious allegation. I told him Sir. He never cared and means while people in Police dress inside the Assembly came to the rescue and later they tried to take him out. We are not obstructing him. But he is trying to catch the Members inside the Assembly. It cannot be done without the Speaker's knowledge or the permission. Then they pushed me and Mr. Nagesh Reddy came to my rescue and he was also pushed back. That was the position. If we had lost little bit patience, I think we would have come to a clash with them. This is the sign of the serious situation. Therefore I can understand a member is being arrested outside informing the Speaker. But they are in handling inside the compound. That only shows how they are atrocious. The Hon'ble Chief Minister may say it cannot be a fact but it is a fact and it remains. He can never convince me. If he says that he is going to hear the Police Officials and say that that means he is disobeying me. But I have seen very clearly and very carefully all over. Because I have already told them specifically that we are still inside the compound they are not touch us. They cared very little about us. I am only sorry, Sir. I do not mind if they do not care for me. But they have no respect for this House. When the Police have no respect in the Hon'ble Speaker. I feel I will have to think upon whether to continue here or to get out of this place. Sir.

Let me be very plain about it. We also wanted to know by the manner in which they have been going round this compound in the multi and to know as to what their behaviour is going to be. We found that there was a taxi. They are obstructing the other cars going. I went then the car went there and stood behind it. The car is actually within the compound within the premises of the House. They can easily go back. I was expecting the car to go back. But immediately certain people rushed there and opened the door. I did not expect them to use force. But as I see that they were using force, I came here running and asked what is the protection that the members would have within this compound. I would like the Chief Minister to answer whether his policemen are being here within this compound as they have been indulging in every other place in the country. Is this the behaviour within the premises of this House and what behaviour in other States of this country? The Chief Minister wants to support his policemen without respect to democratic principles. I would like to ask the Speaker Sir that in all goodness, we want Narsimhareddy in this House, and it is the duty of the Police Officers to produce him before the House and to see that they apologize to the House for whatever they have done within the premises of the House. This type of democracy is not to be maintained. In this case, this democracy which is in the Chief Minister's hands will be in danger.

re Arrest of Sri B Narasimha Reddy MLA

How can anybody say anything else? I would like to say that untruths in the name of dictatorship cannot function. The MLA was not to be seen. He was not justified. Perhaps, if he was arrested, it may be justified for his own good reasons that he was unjustly arrested perhaps by using force. I agree with you.

Mr Speaker — Order, Order, Order please. According to you a Member of this House. I think if I remember correctly, it was Sri Narasimha Reddy. Just when I went out into my chambers, I saw Sri Narasimha Reddy sitting in my chamber. By that time, he had gone. He was not to be seen.

Now, according to you, the Member was arrested within the premises of the House. Mr Nagi Reddy, of course, he feels and perhaps, he may be justified for his own good reasons, that he was unjustly arrested perhaps by using force. I agree with you.

Mr Speaker — Order, Order, Order please. Mr Nagi Reddy wants the Member to be produced in the House and the police should express regrets. Kindly show me the provision under which we can see that he is produced before the House. That is one thing.

Now, secondly, you are saying it amounts to breach of privilege. Then any Member can give notice of breach of privilege and either the House can discuss it or if the House feels it can be referred to the Privileges Committee. That is a different matter altogether.

What I am asking is if you want me to see that the Member is produced before the House, what is the rule or act or provision under which I can demand production in the House?

Mr Speaker —Mr Nagi Reddy you go at a tangent and I cannot help it.

Sri T Nagi Reddy — Sri Vithalbhai Patel at one stage said no one shall enter this premises. He has protected the chambers and the rights of the Members. I want such a thing to happen now.
Point of Order

27th March 1968

Mr Speaker — Court I do not know not even other Courts it is only the High Court by a Writ or something like Mandamus can do it.

Sri P V Narasimha Rao — Habeas Corpus

Mr Speaker — Habeas Corpus they can issue an order.

Mr Speaker — But so far as I am concerned I may only say normally it amounts to a breach of privilege.

Sri T Nagi Reddy — What is the use of breach of privilege when a Member is dragged out when the Assembly is functioning? What is the use of breach of privilege to be discussed after ten days or even now.

Mr Speaker — I am not able to understand. If I have no powers you see if I order certain thing and it is not obeyed what is my position?

Sri T Nagi Reddy — You have the power to say that no Police Officer shall enter this Assembly Hall or compound and if they have done misconduct hurl them up here. Otherwise ask the Chief Minister to resign and get out.

Mr Speaker — Kindly let me know the provision under which I can order the production of the Member here in this House.

Mr Speaker — Mr Litchanna has raised a point saying whether the Speaker has got the power of issuing an arrest warrant against a person who is acting contrary to the rules of the Assembly. As far as I know the Speaker has got power to issue warrant only against persons who have been held to be guilty for breach of privilege by this House not otherwise. If persons are held to be guilty for breach of privilege by this House then the Speaker issues the warrant. There is a technical word and I do not remember for the production of the person before the House.

Sri T Nagi Reddy — I understand Sir.

Mr Speaker — You do not allow me to answer the point raised. The Speaker of course carries out the decision of the House.

Sri T Nagi Reddy — That is why I want to answer. If the House of brute majority says that even if such things were to happen there is no breach of privilege is there no right of the Speaker and the privilege of the House? Is the brute majority going to rule even on the question of breach of privilege?
Point of Order

1018 27th March 1968

Mr Speaker —Please do not get excited. Mr Nagi Reddy, what I am saying is that there is no motion now and the House has not taken a decision now. There is nothing now. What is the use of saying simply the same thing.

Sri G Sivayya —When we are arrested inside the compound you have no powers. Where are the powers to prevent him? If I am given that understanding, if we are not even questioning the constable who is standing there.

(Interuptions)

Mr Speaker —The question is whether the Speaker has got powers to issue the warrant for production of the person if so under what rule either according to convention or...
Sri T. Nasi Reddy — I have raised it
Mr Speaker — You do it first
Sri T. Nasi Reddy — I have raised it. I cannot put it in writing. There is no time. By the time we discuss, things are going to happen and are happening. That is how Sri Brahmananda Reddy's Ministry is functioning. Those policemen have entered the premises of this House and arrested
Sri G. Siviyyi — Why not Sir? With respect, we have now
Sir

(Interruptions)

Mr Speaker — Very good. Mr Siviyyi: I have given you enough opportunity. Kindly resume your seat. Let us follow some order. I have been expecting the Members to speak one after another.

(Interruptions)

Mr Speaker — I am telling you that the Speaker will never go against law or rule. If there is law,
Sri G. Siviyyi — We do not want you to act arbitrarily. We want you to protect the rights. There is no order.

Mr Speaker — If this House holds that a man has committed breach of privilege, I am going to issue an arrest warrant. It is for this House to decide. But not for the Speaker to decide arbitrarily as he pleases.
Sri B. Rithinshu: In the interest of the democracy, please exercise it. It is my humble request to you. The Member has been manhandled.

Mr Speaker — It will help you. You are not able to understand. It is unfortunate that the Members are not in a mood to understand things.
Sri G. Litchann: What order will be there?
Mr Speaker — I am sorry to feel.
Sri K. Brahmananda Reddy — Let us not get excited unnecessarily.
Mr Speaker — Kindly hear me Mr Raja Warna Rao I understand the seriousness of the situation. Please bear it in mind I understand the seriousness of the situation.

Mr Speaker — Now according to you a Member has been man handled and taken away by force. I am following what you say. Now you are saying that the Speaker without any decision taken by the House is the supreme authority and he has got inherent power for issuing the arrest warrant and see that the Member is produced. Now what I am saying is you are not in a position to quote the relevant authority or convention or rule.

Ch Raja Swarao — There is no time.

Mr Speaker — I am giving you the book.

Sri Ch Raja Swarao — Even then there is scope for interpretation. Sir, the Law should not be taken in that vein.

Mr Speaker — Now since you say it is a serious matter or the House can straightaway take it up and discuss the privilege issue. The House can straightaway take it up.
Point of Order 27th March 1978 1021

Mr Speaker — Let me go through the provision at least I would like to know and I am just trying to satisfy myself.

Sri C V K Rao — Mr Speaker Sir do not we have any immunity from being arrested? That is the point Sir whether a Member of this House has got the immunity from being arrested and taken to custody Nobody can hurt us as long as we are here. Now my colleague has been taken unlawfully and illegally under your very nose and arrested. Our request is that you get him before this House and get it clarified.

(Series of interruptions)

Mr Speaker I am trying to get my position clarified. I am trying to know my powers. Let me know the whole thing and I will do it.

Sri C V K Rao — I am telling you that my colleague is being arrested that way.

Mr Speaker — I want to know my powers. If I have got the powers I am prepared to exercise it. I am prepared to exercise that power.

(Sri Badrivishal Pitti rose to his seat)

Mr Speaker Somebody will kindly hear what Sri Badrivishal Pitti is saying and let me know.

Mr Speaker — It may be a fact. Why it is a fact.

Sri C V K Rao — The battle of mahabharata. The battle of mahabharata still goes on.
Mr Speaker — A rule is a rule and I am not questioning those things. Nobody has got a right to arrest a Member here within the premises without the knowledge or consent of the Speaker.

(Applause)

I agree with you there. I perfectly agree with you. Nobody has got a right to arrest him. It clearly amounts to breach of privilege. Now the question is when such things happen whether the Speaker has got full powers to issue a warrant for the production of that man or somebody before he is held guilty for breach of privilege by the House. That is the point.

(Interruptions)

I am trying to know whether I have got the powers. Nobody can question that right. That is a clear proposition of law.

Sri S Jagannatham — Mr Speaker Mr Speaker

Mr Speaker — Kindly allow me to read the whole thing calmly and try to know my position here. Do not unnecessarily try to disturb my calm thinking also. I am not prepared to hear you till I actually come to know my powers. Everywhere throughout I have been saying House, House, House.

Sri Ch Rajeswara Rao — House According to rules it may be so. Rules are rules. Any Member may be held guilty on the Floor of the House. Parliamentary democracy is not a democracy of a few. A Member may be held guilty on the Floor of the House. Mr Speaker must take action, and so the Speaker is entitled to give a warrant. He can give a warrant. Rules contain that point. (Interruption) Mr Speaker says that whenever the Speaker feels it is necessary, he can give a warrant to produce a Member in the Chamber.

Mr Speaker — While I would very much like Speakers to have these absolute powers, it may not be in the interests of democracy to give arbitrary powers to Speakers.

Mr Speaker — Always it is the House that is supreme. It is supreme not only here but everywhere. It is supreme over the Speaker and everybody.

re Arrest of Sri B. Narsimha Reddy MLA

Mr. Speaker That is a very wise suggestion you are making. Certainly I am doing it. I will certainly accept your suggestion. That is the only way of getting out of the situation.

Mr. Speaker - You are a legislator. The law gives you full protection and safety.

Sri C. V. K. Rao - All these things are going on. You cannot project even when a colleague brings to your notice the arrest of a Member.

Mr. Speaker - They have got jurisdiction or not?

Mr. Speaker - Clearly it is stated in such cases that it is the House that decides.

Mr. Speaker - You didn't have the patience to hear him at this time. All is not well in hearing him.

Mr. Speaker - I agree with you. Mr. Rajeswara Rao - The only thing is I am seeing the provision under which I can do it. No
you have shown the way out. I am prepared to take it. Give me some time. Meanwhile I will ask the hon Deputy Speaker to go ahead with the other business.

Mr Speaker — I am not concerned with Mr Narasimha Reddy. I am concerned with the Member of the House. I am only interested in any one of you in trying to protect the rights of the House. The only thing is it has to be done according to rules and law. That is all.

Mr Speaker — I am prepared to do it. I request Mr Vasu deva Krishnaji Naik to kindly occupy the Chair. In the meanwhile...

Mr Speaker—I did not hear—what is it?

Mr Speaker—That will be expunged.

Sri K Brahmananda Reddy—No he must withdraw also Sir.

(Interjections)

Mr Speaker—I am on my legs. All of you please sit down. I am really sorry that a very tense situation has arisen in this House. Hon Members were very much excited and unfortunately perhaps on a count of their excitement they are not able to act themselves in conformity with the rules. I would only request and appeal to them not to get excited. One of the hon Members has suggested a way out. I have accepted that suggestion. Let me find out the truth and actual facts and see as to what should be done. If it is ultimately held that breach of privilege has been committed it is one thing. Regarding the production of the Member before this House it is another matter about which I will contact the concerned authorities and what should be done. But if you members get excited and go on speaking indiscriminately, I am afraid that we will not be able to keep up the traditions of this House. I would only appeal to all of you to maintain those traditions and not give room for any kind of unpleasantness in this House. I am prepared to safeguard the privileges and rights of the members. I will take up the matter with the Leaders of opposition parties as well as the hon Chief Minister in my own chambers and I am confident that the matter will be settled amicably. Meanwhile, there is no use of members getting excited and speaking very harsh and unparliamentary language attributing motives to the other side and saying that they have no sense or some thing like that. This is too much. I would appeal to you once again I will ask the hon Deputy Speaker to come and occupy the Chair and go ahead with the rest of the business and I, the mean while, I will contact the Leaders of the opposition parties and the

CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

re STATEMENT OF THE MINISTER FOR IRRIGATION OF THE MAHARASHTRA STATE IN THE MAHARASHTRA LEGISLATIVE ASSEMBLY ON 21-3-1968

Sri K. Brahmananda Reddy — The reported statement of Sri Chavan as has appeared in the Press charges the Union Minister Dr. K. L. Rao as being in league with Andhra Pradesh Government. We have not got any official version of the statement. If the statement reported in Press is correct the insinuation made is not only baseless and incorrect but unbecoming of a responsible person as the Minister of a State.

In the Federal structure of our administration all the Central Ministers must hail from one State or other and in the course of their duty they deal with controvertial problems concerning various States including the States they hail from. In dealing with such matters the Central Ministers have to keep the interests of the country as a whole in view and it is not correct or proper to attribute motives to the actions of the Central Ministers.

While it is for the Prime Minister to take appropriate action in respect of such misstatement of facts we should depurate this tendency towards such baseless allegations.

I would like to take this opportunity to deny strongly any allegation that the Andhra Pradesh Government have been in league

with Dr. K. L. Rao, the Union Minister of Irrigation and Power in respect of the Krishna-Godavari problem. As the Members are aware, the important decisions on the Krishna-Godavari question were taken long before Dr. K. L. Rao took charge as Union Minister, i.e., in 1951 and 1953 when Sri N. V. Gadgil and late Sri Hasil Mohammad Ibrahim were the Union Ministers in charge of Irrigation. Subsequently the Central Government, in accordance with their general policy have been trying to resolve by discussions the differences between the States on this issue. The Prime Minister of India has been in close touch with the question and has convened Inter-State meetings with the Chief Ministers of the States concerned on 21st August 1967 and the 6th October 1967 in an effort to effect settlement.

I may also mention that until now, all inter-State water disputes in India have been solved by the Union Government by negotiations so as to avoid bitterness between the States and to ensure greatest good to the greatest number. Not a single case of water dispute has so far been referred to the Central Government by a Tribunal under the Inter-State Water Dispute Act. No favour has been shown to the Andhra Pradesh in this respect. On the contrary, the Andhra Pradesh Government have the grievance that the Central Government have failed so far to implement the 1951 agreement, which is a valid agreement binding on all the parties concerned.

re Alleged murder of a person on 25th March 1968 in Secunderabad and also of frequent stabbing cases

...
Sr K Brahmananda Reddy — Sir, at about 10.30 p.m. on 25th March two rowdies Padma and Satyanarayana led a mob of 20 to 30 persons mostly residents of Kavadiguda and went to Ranigunj Centre near Chitrani Talkies in search of one Anjiah a resident of Nall gutta and a push cart vendor with whom they had some enemity. They made enquiries about him with some push cart vendors and
not getting any useful information they damaged a push cart and burnt it. They then attacked a pan shop at Chitrani Tilakies near Ramgunj Centre. At the point of knife they snatched away a transistor a time piece and some cash from the pan shop owner and also damaged the show case. The mob then proceeded towards Ramgunj Cross road and looted another pan shop and Bombay Hotel. Two beat police constables tried to stop them but one of them was beaten. Meanwhile on receipt of telephone information about this trouble the Inspector with a posse of Police party rushed to the spot. The mob fled on seeing the Police party which gave them a hot chase. The mob while running away beat some persons on Kingsway and Zeera. One B Narayana was beaten on Kingsway and received multiple injuries. Another unidentified person was beaten at Zeera and received multiple injuries and was rendered unconscious. The injured were removed to the hospital. On the way to the hospital the unidentified person died but the injured B Narayana and one Baliah were admitted in the hospital for treatment.

Meanwhile Police party rounded up eleven persons who are under interrogation. A case in Crime No. 36/08 under sections 148, 302, 307, 322, 435, 395 and 457 IPC was registered and is under investigation. The identity of the deceased has not yet been established. Vigorous efforts are being made to arrest all the culprits concerned.

As regards the stabbing incidents only three cases have been reported during the year 1968. On 5th February at about 10.30 a.m. two rowdies Padma and Ganeswar beat one A R Narayana and stabbed two persons Lakshminarayana and Narayana residents of Nallagutta near Mahatma Gandhi road due to previous enmity. A case in Crime No. 18/68 was registered u/s 324 IPC at Ram Gopal Police Station.

As a measure of retaliation Lakshminarayana and Narayana attacked Ganeswar at 10.45 p.m. on 10th February with soda bottles and knife and caused him injuries. A case was registered in Crime No. 36/68 u/s 324 IPC at Mahankali Police Station. Padma was arrested in Crime No. 18/68 and the two accused in Crime No. 36/68 were also arrested. All the three were released on bail. The cases will be charge sheeted soon after the medical certificates are received.

The third incident occurred on 23rd March. At about 7.20 a.m. on that day Padma and his four associates attacked one Chittari a moulder of S & T Workshop Mettuguda with knife and hockey sticks near Mettuguda due to previous enmity. A case was registered in Crime No. 31/68 u/s 324 IPC read with 34 IPC at Chikkalguda Police Station. The case is under investigation.

All these incidents were due to enmity between the two groups of goondas. There were no frequent cases of stabbing and generally law and order is well under control. Police took prompt action in all these cases and are also taking security and preventive action to prevent further activities by goondas to disturb peace.

re Assignment of lands to teachers and low paid employees who are landless or haryans

The Collector Nellore has reported that only in respect of two employees viz in the case of Sri Chenchu Krishnamurti of Kondur and in the case of teacher Kalachedu I John The petitions in respect of lands applied for have been refused and there is no case of rejection of petitions of other teachers and low paid servants. It is only two cases where refusal has been made. According to the revised assignment policy lands at the disposal of the Government should be assigned only to landless poor persons who directly engage themselves in cultivation viz cultivation should be by the assignee or the member of his family or with hired labour under the supervision of himself or a member of his family. According to the assignment rules it is for self-cultivation that land is assigned to landless poor. Further applicants should not only be landless but should also be poor so as to be eligible for the grant of the land. It is left to the discretion of assigning authorities to determine whether a person is poor or not. With a view to having a clear-cut principle to determine whether a Government servant is poor or not for the purposes of assignment the Collector fixed on 10-10-1962 a money limit of Rs 80 to Rs 100 per month and issued circular instructions to his subordinates to the effect that anyone who is earning more than the above limit must be considered rich and even if he is landless a landless rich person is not entitled for assignment. The money limit has since been raised to Rs 125 per month through another circular dated 20-10-1967. These instructions are not against the revised assignment rules laid down by the Government. As regards Chittoor and other districts the limits of eligibility are Rs 125 per month and for assignability eligibility is Rs 80 to Rs 100. Why not to Nellore District people?

re: Prevalence of famine conditions scarcity of drinking water and unemployment in certain taluks of Srikakulam district

On 8th March 1968, I brought to the notice of the Government of the extent of the scarcity of drinking water and unemployment prevailing in some taluks of Srikakulam district. In view of the information received from Village Officers and reports onwards, it has become necessary to call for immediate action.

The scarcity of drinking water is severe in certain taluks of the district. The situation is such that the supply of drinking water is insufficient. The situation is likely to worsen if immediate action is not taken.

Immediate action is required to ensure the supply of drinking water to the affected areas. The government should take all necessary steps to ensure the availability of drinking water to the affected population.

The government should also take steps to provide employment opportunities to the unemployed people in the affected areas. The government should also take steps to provide relief to the affected population in the form of food and clothing.

Immediate action is required to prevent the spread of diseases due to the scarcity of drinking water. The government should take all necessary steps to ensure the availability of drinking water to the affected population.

re Alleged destruction of thatched houses of scheduled tribes and other backward communities by the Revenue and Police officials in Vedapalayam Nellore district

Sri S Vemayya —Sir Scheduled Castes Scheduled Tribes denotified tribes and other backward communities have erected 60 thatched houses after spending much material money and labour in S No 78 of Vedayapalem village Nellore taluk S No 78 is classified in the village accounts as tankbed poramboke but it is beyond the MWL of the tank. Formerly its classification was tank poramboke though it is the policy of the Government to look after the welfare of scheduled castes scheduled tribes and other backward communities to provide house-sites and other amenities it is surprising to note that 60 thatched houses belonging to scheduled castes scheduled tribes and other backward communities were completely destroyed by the Revenue officials with the help of the police on 6-11-1967 as a result of which an amount of Rs 3000 was lost by the scheduled castes scheduled tribes and other backward communities and they were rendered homeless for the reasons best known to the Revenue and the Police officials. My representation to the Collector and the Minister is of no avail. With great difficulty they erected as many as 60 thatched houses and all belonging to the communities. I have just now mentioned and I do not understand why they were destroyed.

Alleged eviction of scheduled tribes by the Revenue and Police.

Sri V. B. Raju, S. No 78 of Vedaayaram village in Nellore taluk is classified as tank poramboke. In October 1956, some scheduled tribes people and others occupied a portion of the tank by constructing huts. Their occupation was considered objectionable as they were likely to cause damage to the irrigation source. Hence, eviction proceedings were initiated by the Tahsildar Nellore. The eviction was carried out on 6th, 11th, 6th, and 7th January 1957. The Tahsildar also issued an order under section 144 Cr. P. C. prohibiting the encroachers from entering the tank bed. Sri S. Verayya has given a petition to the Collector Nellore in a letter dated 1968 requesting him to provide alternative housing to the evicted persons and the representation is under consideration of the Collector Nellore.

Sir, the Government is asking the Collector to see the alternative accommodation provided to them and report the action taken by him to the Governor.

Sri V. B. Raju — Why did they evict then?

Thogugudem, Khammam district

Sri V B Raju Sir the Government has asked the Collector to provide alternative accommodation to them the Government is also asking the Collector to do the needful and report the action taken to the Government.

Sri G C Venkanna — I want to give general information to the Minister.

Mr Deputy Speaker — Not necessary.

re: Eviction of Koya ryots from their lands in Thogugudem Khammam district

Sri V B Raju — The Government could not contact the Collector as he was not available. The Personal Assistant to the Collector was contacted and he has given this information.

The Personal Assistant to the Collector of Khammam, who has been contacted on trunk telephone has stated that in the present case several petitions and counter petitions were filed by both parties, i.e., koyas on the one hand and the land holders on the other hand and that the case is at present sub judice in the Revenue courts of the Revenue Divisional Officer and the Tahsildar. The Personal Assistant has also stated that he is trying to obtain from the Revenue Divisional Officer more details and that further information if any will be furnished on its receipt from the Revenue Divisional Officer. He has further stated that since the matter is sub judice in the revenue courts no interference is called for at this stage.

Sir the Government will be actually asking for a report and I will see that any further information is communicated to the hon. Member.
Calling attention to a matter of public importance re Assignment of pattas to the landless under the K B schemes

Sri V B Raju — The hon Member can approach the Government and certainly I will look into the matter. When it is being enquired into any instructions of the Government might go against the statutory provisions. If there is any apprehension that in spite of their 81 years possession they will be evicted and that appropriate authorities would not actually grant stay.

Sri T Purushothama Rao — Rise in his seat

Sri V B Raju — You want restoration of possession how can we issue orders for restoration of possession? Now that you have given me papers, I will look into them.

re Assignment of Pattas to the Landless under the K B Schemes

Sri T Purushothama Rao — Rise in his seat

Sri V B Raju — Orders were issued in G.O Ms 818 Revenue dated 6-5-1961 to the effect that the Government waste lands covered by the Krishna Barrage scheme should be sold in public auction instead of being assigned under the normal rules. Against these orders, there was agitation from the public as also from political organizations. The question of sale of land under the
Krishna Barrage in open auction was again considered by the Government and it was felt that the eviction of sivai jamedars might cause hardship to them. At the same time it was also felt that assignment of the lands at nominal price under the assignment rules for project affected lands would result in loss to the Government. In Memo No. 3519 dated 5-11-1961 a report was submitted for the matter from the Board of Revenue and in the above memo it was directed that till the matter was again examined the sale of lands in open auction as well as assignment of remaining extent of unoccupied area be withheld and that fresh encroachments should not be allowed. After receipt of the report from the Board of Revenue the matter was examined again and orders were issued on 29-10-1961 as follows: the areas which are free from encroachments under Krishna Barrage should be auctioned and the land values recovered according to usual procedure. In respect of lands assigned to sivai jamedars and others for which pattas have not been issued so far they should be assigned to them on the condition that they would pay the value of the land which should be an average worked out on the auctioned amounts fetched in open sale of the lands and the prevailing market value in the respective areas and that the value of the land so fixed shall be collected in ten equal instalments subject however to the condition that the amount does not exceed Rs. 100 per year per acre. In case it exceeds Rs. 100 per year per acre the number of instalments shall be increased accordingly. Thus, under the existing orders the persons who are in sivai jamahandi occupation of the lands under the Krishna Barrage Scheme before 15-11-1961 would be assigned lands on payment of land value as fixed down in the order dated 29-10-1961. But the encroachers who came into occupation subsequently to 15-11-1961 should be evicted and the land be sold in open auction. Recently on a representation made by Sri K. Prabhakar Rao, MLA that the eviction of encroachers who are landless poor and who reclaimed the land spending large amount and labour would cause hardship to them the issue was examined and it was decided that the concession of assignment at market value be extended to sivai jamedars who occupied the land under the Krishna Barrage scheme during the period 15-11-1961 to 30-6-1967 subject to the understanding that the true market value of the lands as obtained from the date of assignment shall be charged and where encroachers are not eligible for assignment they shall be evicted and the land sold in public auction. Orders are being issued accordingly. What the hon. Member wanted has already been done.

Fire accident in Sudiravalasa in chodavaram Taluk, Visakhapatnam district

Sri V B. Raju On 7-3-1968, a fire accident took place at Soodivalasa village in Chodavaram Taluk, Visakhapatnam District. 20 huts were burnt. Loss of property was estimated to be about Rs 52.10. There was no loss of human life or cattle. Most of the victims are agricultural labourers. Maximum relief at the rate of Rs 50 per head of family to 180 affected families was sanctioned by the Collector and 15 families residing in portions of thatched houses were sanctioned Rs 25 per family. The total relief sanctioned by the Collector is Rs 9,350. The Collector has reported that the fire accident is suspected to be a case of arson and the police are investigating into the matter. What the Hon. Member has now asked for namely making provision for seeds and other facilities and requirements, we are addressing the Collector in the matter.

re — Dangerous condition of road bridge on Benda Channel at Amalapuram

The Minister for Communications Sri (J V Narasimha Rao) The bridge on Benda Channel at Mile 69 at Kottipadu Narsapur Ferry Road was one constructed by the Irrigation Department long ago. It is having a span of 29 and the bed consists of R C C slab laid over rolled steel joint girders. The width of the road being 9 the girders were declared as weak for the present day lorry traffic. The condition of the bridge on the Benda Channel is not however dangerous and is fit for buses to ply everyday but normally buses do not cross this bridge. It is estimated that the cost of the new bridge to the present day standard would cost Rs 2.5 lakhs. As there are several other weak and dangerous bridges this bridge was not given priority.

re — Dilapidated condition of the road bridge over Koranj canal on the road between Ramachandrapuram to Draksharama

Sri J V Narasimha Rao — The bridge on Poranki Canal at mile O/1 is on Ramachandrapuram Draksharam road consisting of spans of 34 tresses placed over 2 Nos R S girders. The width of the road is 12. also carried out. There is no immediate danger to the structure or the abutment. The above bridge has been recommended for reconstruction in the fourth plan.

re Non payment of scholarships to the children of political sufferers this year.

Sri V Raghavulu: On account of the acute financial stringency a provision of Rs 2.25 lakhs only could be made in the budget estimate for 1967-68 in an estimated requirement of Rs 6.5 lakhs for the renewal of educational concessions to the children of political sufferers during 1967-68.

Finding the budget provisions of Rs 2.25 lakhs inadequate the Director of Public Instruction has asked for additional amount of Rs 3.30 lakhs for fresh requirements and Rs 1.85 lakhs for the renewal of the above concessions during 1967-68. These concessions include monthly scholarships and annual books.

Against the above demand of the Director of Public Instruction, an additional provision of Rs 1.95 lakhs has been permitted to be reappropriated for the renewal of the above concessions. He has been informed that as it is not possible to provide a supplementary grant he may meet the full requirements on account of renewals by reappropriation only and if this were not possible to sanction the renewals, and sanction the renewal for some of the students in April 1968 from the next year's budget.

The Director of Public Instruction has reported that he has allotted a provision of Rs 1.32 lakhs to Educational Officers to enable them to sanction the renewals for final year classes 12 and 11 and a further provision of Rs 1.1 lakhs for renewal in final year classes of the 3 year degree courses 2 year postgraduate courses and PUC.

It will thus be seen that the provision in 1967-68 amounts to Rs 4.20 lakhs comprising the budget provision of Rs 2.25 lakhs and the reappropriation amount of Rs 1.95 lakhs. It may be noted that out of this amount owing to the stringent finances of the State fresh applications for award of educational concessions to children of political sufferers could not be considered for 1967-68.
ON PAYMENT OF SALARIES TO THE EMPLOYEES OF PRIMARY HEALTH CENTRES UNDER PANCHAYATI RAJ DEPARTMENT

The Minister for Medical & Health (Sri P. Narsimha Rau) —
An amount of Rs 88.22 lakhs was provided during 1967-68 for the Medical Department towards payment of salaries etc to the Primary Health Centres to be maintained by the Medical Department. While sanctioning the said amount the Finance department have not taken into account the amount required for the maintenance of P H Cs which have entered Stage II from Stage I as those P H Cs in Samithis which have completed 5 years from the date of their starting will enter Stage II. Expenditure on these P H Cs is to be borne by the Medical Department.

Apart from this the distinction of States has since been removed and the amount provided was not sufficient to meet the payment of salaries etc to the staff working in the P H Cs. As such the amount of Rs 88.82 lakhs is insufficient to meet the expenditure on P H Cs and out of 408 P H Cs 81 P H Cs funds have to be released.

It was decided not to start new Primary Health Centres without first providing adequate funds for their maintenance. The question of providing additional resources for 1968-69, the current year was examined. The P R Department have provided an amount of Rs 15,59,400 under the plan. Still an amount of Rs 24 lakhs was required by the D M & H S for meeting the expenditure on the maintenance of P H Cs for the year 1967-68 and for payment of salaries to the staff working in P H Cs who have not received their salaries. Decision has been taken to sanction the amount immediately. Amounts are being released and the salaries will be paid.
I O N S OF LIFE OF CATTLE HEADS IN BANDAR, KAikalur AND DIVI TALUK DUE TO MOSQUITO MENACE

Sr. P V Narasimha Rao — In most of the villages in Krishna district cattle were affected with foot and mouth disease in a very severe form which is unprecedented for the last 15 years. Usually the cattle affected with foot and mouth disease refuse to take feed and the vitality of the animals would be lowered very much. Added to this, the farmers who used to cultivate leguminous green fodder like Phillipsara during the second crop season have switched over to extensive paddy cultivation particularly this year resulting not only in terrible mosquito menace which is also unprecedented but also deprived the cattle from getting adequate green fodder. It is estimated that roughly 400 cattle have died for the past two weeks mostly young ones.

There are more records of deaths in the areas of Bunder Kai kalur and Divi taluk of Krishna district where there is wide spread prevalence of severe form of foot and mouth disease and mosquito menace. No cattle will die purely due to mosquito menace. The deaths are due to outbreak of severe form of foot and mouth disease lack of adequate green fodder or constant biting of mosquitos resulting in profuse bleeding cause anaemia all put together resulting in heavy mortality of cattle.

The Deputy Director Intensive Cattle Development Block, Vijayawada the District Veterinary Officers Krishna district Livestock Officers were on constant tours and vigil and extending the following veterinary aid:

1. As there is no specific serum or vaccine to combat the disease, only symptomatic treatment can be done. Necessary medicines were rushed specially to administer to the cattle to prevent further secondary infection.

2. To step up vitality, feeding rice gruel and other feeds supplements are suggested.

3. To combat the mosquito menace humidification with 1) D T or Maletheon externally are suggested.

4. Symptomatic treatment is undertaken for ailing animals.

re Difficulty of Nee ayapalem multi purpos cooperative society Bapatla taluk

At one stage the Minute Book was sent to have been taken away by Gudivada Nilagiri one of the promoters and subsequently returned to the Election Officer. He authorised the Extension Officer on 31-10-67 to start the Society. He fixed the date for starting the Society and convening a General Body meeting on that date. With police assistance he was able to start the society on 23-4-67 and got the board consisting of 7 directors, elected to the director board. The time for which the board was elected was up to 30-9-67.

It is clear that the delay in starting the Society was due to factions amongst the promoters. The newly-elected directors applied to the Co-operative Central Bank for affiliation on 28-6-67 and the Co-operative Central Bank in turn addressed the Deputy Registrar of Co-operative Societies on 11-10-67 to furnish a copy of the starting report along with the copies of the resolution of the Board. The Deputy Registrar of Co-operative Societies sent the starting report on 25-11-67 and the statement of receipts on 13-3-67 and the application of the Society is pending with the Co-operative Central Bank. The question of granting loans to the society by the Co-operative Central Bank will not therefore arise till the society is affiliated to the Central Bank. The promoters of the society deposited a sum of Rs 1,000 on 9-12-68 in the Co-operative Central Bank before the registration of the society as required under the rules. Though the society was started and the Board of Directors were elected on 25-4-67 the application for refund of the amount was made by the President of the Society on 11-6-67 but by the time the reports were received by the Deputy Registrar of Co-operative Societies the two parties claimed that they were elected Directors to the Board at the General Body meeting said to have been held on 18-9-67.

A dispute under Section 61 of the Andhra Pradesh Co-operative Societies Act was filed on 29-11-67 before the Deputy Registrar of Co-operative Societies Bapatla by one Sri Sambaram Lakshminarayana and six others claiming to have been elected as Directors and to declare them as such. This is pending disposal by the Deputy Registrar of Co-operative Societies. As the parties could not file the Counter and as the Deputy Registrar could not give his findings he could not order the refund of the share capital from the Co-operative Central Bank. As the society was not affiliated to the Co-operative Central Bank and as the District Fertilizer Committee did not select the Society for dealing in fertilizer Licence to the Society was not recommended by the District Agricultural Officer.

The scheme was taken up for supplying water to Visakhapatnam town at the rate of 110 lakh gallons per day besides establishing the existing wet ayacut of 13,478 acres which was hitherto being irrigated by open channel taking off from Gostham river. It is proposed to supply water from Tatipudi Reservoir to the existing ayacut of 13,478 acres through the following 7 channels which take off from the river Gostham —

1. Mitta Channel
2. Penta Sreerampuram Channel
3. Gangaram Aluguvelli Channel
4. Vasantha Channel
5. Thandire Vijayangiri Channel
6. Annavaram Channel
7. Gaddirani Kottha Channel

One irrigation sluice with 2 vents at plus 268 and the other at plus 251 is provided for catering to the irrigation requirements. The full levels for the water supply sluice are kept at plus 261 and plus 241. The total capacity of the full reservoir level at plus 297 is 2,475 million cft and live storage is 3,175 million cft. As no restrictions were laid in the project report regarding the drawal of water for irrigation from sluice at plus 211, the irrigation sluice provides for and is in a position of supplying the full irrigation requirements. Further supply of water to the pre-project irrigated
Calling attention to a matter of urgent public importance

Supply of water of Tatipudi Reservoir to Visakhapatnam

Area should not be denied and no new ayacut has been brought under this. The water level in the reservoir on 22nd December was plus 260 feet, with a capacity of 160.7 million cubic feet. As per the project report, water was supplied only for the first crop of 50 acres per cusec. There is no second crop in the scheme, and there is no such contemplation in the project report. The water provided for the irrigation requirements is 27 million cubic feet for feeding an ayacut of 154.1 acres in the first crop period, and an annual water supply was provided as 642.7 million cubic feet, to say 10 lakhs gallons per day to Visakhapatnam.

The water supply for irrigation was started from 28th March 1967. Hence, the question of shortage of water supply to Visakhapatnam on account of water for irrigation during the first crop period does not arise. The actual water supply requirements of Visakhapatnam as per the report of the E.L. Vijayanagar Division vary from 61.1 million cubic feet to 88 million cubic feet per day and hence the average water supply demand may be taken as 75 million cubic feet per day. Since 1st December 1967, the withdrawal is for water supply to Visakhapatnam only. The storage on 1st December 1967 was 411.8 million cubic feet. The storage after meeting drinking water supply, evaporation, etc., and due to some inflow to that is 475.35 million cubic feet on 28th December 1967. This will be sufficient at the present rate of withdrawal for this season till the onset of monsoon during June 1968.

Clarification regarding open head channel

The open head channel is 18.478 meters (60 feet) in height, permit crop plus 200 plus 251 level of storage, and storage in 200 level. The supply water level is plus 251 level of storage. The water is being supplied to Visakhapatnam.

Government's clarification?

The government has clarified that 18.478 meters (60 feet) of the permit crop plus 200 plus 251 level storage is being supplied to Visakhapatnam.

co-operation from the members.

Dr T V S Chalapathi Rao —In this connection may I be
permitted to submit that taking the past experience into considera-
tion unless the Government is pleased to make some rules for the

submission is that if it is the wish of the Hon. Chief Minister that
these consultative committees should effectively function there
must be some guidelines and the Ministers also must see that matters
of the day have to be discussed. Otherwise, what is the point of
state subjects being placed and no meetings at all being convened?

1060 27th March 1968  Discussion on Engineering person

There is a need for a review of the engineering personnel of the Government of Andhra Pradesh. The financial year 1967-68 was declared as a finance year, and discussions were held on the implications of retrenchment of staff. It was agreed that the Government would absorb the retrenched engineers. Specific schemes were planned to absorb the personnel, and the retrenchment would be limited to districts where there was a high demand for engineers. Existing works would be remodelled to reduce wastage of water. High Court stay was continued as the Government absorbed the retrenched engineers. Existing canals and sluices would not be altered. Existing channels would not be remodelled. Wages of water would continue as before. Existing industrial development would not be altered.

10 percent of the personnel engaged in the Engineering Department need to be retrenched. This decision was made to reduce unemployment and to reallocate resources. The Central Government has decided to retrench 10 percent of its personnel and the State Government has decided to retrench 5 percent of its personnel. However, the Engineering Department has decided to retrench 15 percent of its personnel. This decision has been made to reallocate resources and to reduce unemployment. The decision has been taken in consultation with the various stakeholders.

The retrenched personnel will be provided with alternative arrangements. The Government has decided to provide legal assurance to the retrenched personnel. Apart from this, the Prime Minister recently while speaking in Parliament has rightly asserted that if you cannot utilise the services of these Engineers, either
Discussion on Engineering personnel 27th March 1968

Retrenched or unemployed, we will be wasting our national talent because these are the pillars of our economic development. You know our Engineers have constructed several projects which are meant for our economic development. The Engineers are mainly responsible for the economic uplift in the country.

So we must realise that we owe a duty to see that these people are really employed. Otherwise we will be wasting national talent. That is the point mainly we have to consider while dealing with the question of engineers.

Secondly Sir as far as our State is concerned really we have got lot of potential irrigation potential untapped. So we will be requiring several thousands of Engineers if we embark on the programmes of tapping irrigation potential. But we have been telling all the while that we do not have necessary resources. I have been suggesting time and again that it is necessary that we should be in a position to allocate more funds for the irrigation sector so that we will be able to speed up the pace of development on this sector because we know the country is deficient in food and we know we have been earning lot of money on food also. In the State our farmers are mainly depending on irrigation. It is necessary that we should completely harness the untapped irrigation potential for which we need several Engineers. In order to tap the irrigation potential that is still untapped we have to organise it on a very large scale. The investigation work several times in several of the schemes we have investigated. With our experience we know that in many cases our investigations have not been completely exhaustive or comprehensive. So on second thoughts and rethinking we have found that we could have done better. We are in a sort of recession and we do not have finances. So we can think of investigating several of the schemes that are there with great care that is necessary and see that we can effect some economy in the scheme that we prepare. It is necessary that we should organise this investigation on a very large scale not only in case of our Godavari canals and Nagarjunasagar scheme which is still going on but in case of several Minor Irrigation Schemes which are pending in Rayalaseema and Telangana. Without these proper investigations it is quite evident that with all the experience it is obvious that we have been wasting lot of funds. In this connection I appeal to the Government to organise this investigation on a very large scale and see that all the retrenched Engineers if not the people that are coming out of the colleges who are also idle for the last one or two years are employed so that the problem to a certain extent can be mitigated.

My appeal to the Government is we must be able to increase and allocate some more funds for the investigation to be able to employ those Engineers that are retrenched. Further having come across a situation which is paradox almost that we have been planning and we require a lot of Engineers for our future developmental plans. But we have come to this situation where all the people who have planned are found to be surplus. So it is better that we reduce the intake in the Engineering Colleges so that the problem will not arise in future in a much bigger scale. We must be able to employ all these people in another 3 or 4 years otherwise the people who are coming out of the Colleges will multiply themselves more and it will be still more difficult for us to face. With this I appeal once more.
again to the Government to start number of investigation schemes Godavari Krishna delta and also Ravalasaema all the schemes so that we can spend three to four years on these schemes on an extensive scale and prepare estimates on a more rational basis so that we can effect more economy

Discussion on Engineer personnel 27th March 1968

The existence of personnel in the engineering field is questionable. Disorders are prevalent among engineers as evidenced by the following:

- 20% of engineers suffer from stress-related disorders.
- Many engineers report feelings of inadequacy and burnout.
- A notable percentage of engineers experience sleep disturbances.
- Some engineers struggle with mental health issues.

These findings suggest a need for greater mental health support and stress management training within the engineering community.

In conclusion, addressing mental health concerns among engineers is crucial for maintaining a healthy and productive workforce.

When we are producing so many Engineers and diploma holders every year the Government can solve this problem unless we develop industrially and unless we develop some potential irrigation resources. There is some injustice going on. If it is possible
abolish the present system of retirement. It is a
cause of hardship to the service personnel. Some
of them are forced to retire before they are
physically fit. It is not desirable to cut down the
technical personnel. In a factory, the technical

Discussion on Enginering Personnel

1. Implementation of formation of the Andhra Pradesh constructing Corporation as a construction wing of the Government that is Engineer Department just like the pattern of Orissa. Constructing Corporation must be implemented immediately so that all the retrenched personnel can be absorbed by end of 1968.

2. Government must create supernumerary posts even if the stay vacates for the retrenched personnel.

3. Government must press the Chief Engineer to send concrete proposals for taking back the retrenched personnel by April 1st, 1968.

4. We demand the Government to take back all the retrenched personnel by the end of March 1968.

5. The suggestions given by the Joint Council of Engineering Association must be fully considered.

6. Besides the Joint Council of Engineering Association's suggestion after collecting the suggestion of various Centres we here wish to submit the following proposals for consideration of Government:

   - Personal assistants to Supervising Engineers should be the Executive Engineers and for every officer personal Assistant must be the immediate subordinate.

   - To sanction one post of personal assistant of the cadre of Asst Engineer to each Executive Engineer as this will not involve much financial commitment to Government as the difference in pay is negligible.

   - All Sub Divisions may be given one Junior Engineer or Supervisor for the office to assist the Assistant Engineer in the office on technical matters.

   - A Special Grade Executive Engineer of P W D with required technical assistants is to be appointed as an Adviser to the Collector to guide him in matters of District Development on similar lines of Co-operative Agriculture and Industries Departments.

   - All the Government of India works including the Govt of India undertakings in this State should be entrusted to the constructing corporation of Andhra Pradesh for implementation.

12. To tackle this difficulty on a rational basis the component of existing establishment charges on works should not be linked up to the cost of outlay of work.
Discussion on Engineering personnel 27th March 1968

11 The government must issue a GO immediately to the already formed Co-operative Units of the retrenched Engineering personnel and to be formed units relating the existing procedural rules and advancing working capital at 25% of the estimated work.

14 The Public Works Department should be entrusted with the collection of water rents just like in Mysore and similar to Electricity Board.

15 R A should be manned by technical personnel.

16 All the villages and Panchayat developments must be manned through technical personnel only.

17 For the work charged employment technical people must observe minimum pay of Rs. 300 per month.

These are the concrete proposals which are already before the Government. I hope the Government will give thought to this. Last time the Chief Minister promised that 450 Engineers would be taken to work and he did it on 29th. But this appears to be not a really effective measure even if these 450 Engineers are taken there will be still 2,000 Engineers on the retrenchment list. It is a very sad state of affairs for this State if the Government will not effectively deal with it. I hope they will thoroughly consider this as soon as possible. I think on this there are no two opinions in this House.

Thank you Sir.

Special Secretary P W D noted that estimations were made in two channels - Left channel and Right channel. The Left channel estimations were to be detailed investigated. 1000 students were to be retrenched and absorbed. Drinking water schemes were to be undertaken. UNICEF fund was to be used for the estimates. Reorganisations were to be instigated. Student college retrenchments were to be avoided.

The discussion on engineering personnel was held on

The session began with an overview of the current situation in the field of engineering personnel. The importance of having a well-trained and motivated workforce was emphasized. The discussion then turned to the challenges faced by engineering departments in recruiting and retaining qualified personnel. Strategies for addressing these issues were proposed, including improved training programs and better compensation packages. The need for continuous professional development was also highlighted as a key factor in maintaining a competitive edge.

The role of technology in shaping the future of engineering personnel was another topic that was discussed. The impact of emerging technologies on the demands for skills and education was acknowledged. Efforts to adapt training curriculums to these changes were highlighted as crucial.

In conclusion, the discussion emphasized the importance of a collaborative approach between educators, employers, and government agencies to address the challenges and opportunities in the field of engineering personnel.
Samuel’s house was surrounded by the usual confusion of life on the farm. The children were always running around, and the animals were constantly making noise. Samuel was used to the chaos, but he couldn’t help feeling a little overwhelmed sometimes.

One day, while he was working in the garden, Samuel heard a loud noise coming from the barn. He ran over to investigate and found a group of animals in a state of panic. The barn was filled with smoke and flames.

Samuel knew he had to act fast. He grabbed a bucket of water and started splashing it on the flames. The other farmers tried to help, but the fire was too big and too hot.

Just when it seemed like all was lost, a local fire department arrived on the scene. They worked tirelessly to control the fire and save the barn and its contents.

Thankfully, the fire was put out before it could do any more damage. Samuel and the other farmers were relieved and grateful for the help of the local community.

From that day on, Samuel made sure to keep a bucket of water handy in case of emergencies. He also worked to improve the fire prevention measures on the farm, ensuring that they were as safe as possible in the future.

Relaxation rule of the Andhra Pradesh Public Regulation requirement Residential Rules 1950 Quarterly statement for the quarter ended 31 12 197...
Mr Speaker in the Chair

Sir, due to general recession financial stringency and drastic reduction in the Plan size of the State the problem of retrenchment and unemployment of Engineers in this State has become quite acute during the recent few months. The size of the State plan has been steadily shrinking from Rs 105 crores in 1965-66 to Rs 95 crores in 1966-67 and Rs 71 crores in 1967-68. Therefore the problem has arisen not only by way of stoppage of fresh opportunities for employment of Engineers coming out of colleges and polytechnics but also actual retrenchment of the serving Engineers under the Government. During the past few months 415 graduates Engineers and 2525 diploma holders serving under the State Government have been thrown out of employment. Another batch of 359 Engineers would be found surplus with the completion of works in different parts of the State by the end of the current month. To add to the problem as the members are aware every year about 100 degree-holders come out of the Engineering colleges and about 2000 diploma-holders from the polytechnics in the State. With the abolition of various posts under the Government and the general slackness in the industrial field the prospect of employment of these fresh graduates and diploma-holders coming out every year has been very adversely affected.
Discussion on Engineering personnel

27th March 1968

Looked at from one point of view the problem is a human one. Several engineers who have been in service for a number of years have been thrown out of employment. Looked at from another point of view it is national waste if the services of technical personnel cannot be fully utilised for the development of the country. The Government are therefore all to the need for devising measures for tackling this problem and creating opportunities of employment. The problem has been faced in several other States in the country and the Government of India also are considering measures to face the situation.

3. The immediate need as the members will see is the prevention of retrenchment of 359 engineers who would be found surplus by the end of this month. The Government have decided that there should be no further retrenchment and that the staff found surplus must be utilised usefully in other spheres of work. Also in order to provide employment potential for absorbing as many of the already retrenched engineers as possible, proposals have been formulated for usefully utilising their services. The new Fourth Plan is in the offing and it is essential to have thoroughly investigated schemes in respect of various fields of development such as irrigation power roads drinking water supply and drainage. Detailed investigation of schemes will not only facilitate proper execution of schemes but also provide employment at minimum cost. It has, therefore, been felt that detailed investigations should be taken up and completed on the basis of priorities laid down by the Government. According to the schemes drawn up by the various branches of the Government, the total cost of providing employment for about 3,500 engineers on work of investigation will come to about Rs. 490 lakhs. With the reduced plan provision and the financial stringency faced the State Government are not in a position to bear this heavy financial burden. I have therefore written to the Government of India and the Planning Commission requesting for special assistance to the State to the tune of Rs. 490 lakhs to tide over this difficulty and also to take the problem of this State into account in any scheme that the Central Government may evolve.

4. In addition to the measures mentioned above, Government are also exploring the possibilities of greater intake of local personnel in the Central Government undertakings located in the State. Further it has been suggested to the representatives of the Engineering Associations that the engineers could form associations or partnerships and undertake contracts for works under the Government. The Government would be ready to extend several concessions such as waiver of earnest money deposit security deposit entrustment of work on nomination, etc. There will be good scope for employment of engineers if they come forward to take contract works.

5. The problem of employment is a difficult one and it is linked up to a great extent with the general recovery of the economy. The Government are in full sympathy with the plight of the engineers and are eager to find a way out of the difficult situation.

14—39
Sri K Brahmananda Reddy Many of the suggestions made by members are with regard to what has been said. There are some points which in addition members have suggested and they will certainly be looked into Sir.

The following posts are Gazetted Civil Service posts under the Engineering Personnel:

1. Stay in Service. The Engineering Personnel will be absorbed in the Engineering Service on 1st April 196. Notice is hereby given that discharge notices will be issued to 900 members of the Engineering Personnel. The time limit for the submission of notices of appeal to be retained by the Government to be notified later. No retrenchment of that service will be carried out. After the gazettement of absorption the Engineering Personnel will continue to work on the works program. We want to put some money, about 3.7 lakhs of rupees.
