Then only share certificates are issued. This takes some time. It is now understood from the Managing Director that shares certificates in respect of all subscribers accepted by the Board have been issued.

(d) Investigation into the expenditure incurred by Co-operative Institutions is not taken up unless some fraud and misappropriation is reported or suspected. The accounts of Co-operative Institutions are audited by the Departmental staff every year and audit certificates issued by the Department. No case of misappropriation or fraud is reported in the case of Rajahmundry Cooperative Spinning Mill.

The Mill could not go into production so far for want of block capital. It has so far spent about Rs. 34 lakhs in the construction of buildings and purchase of machinery. It requires about Rs. 30 lakhs more for the purchase of the balance of the machinery, equipment required and for margin money towards working capital.
The Industrial Finance Corporation has approved the application of this mill for grant of a loan of Rs. 30 lakhs subject to State Government 100% guarantee for repayment. It has since been decided to give guarantee for the Mills:

Motion on Address by the Governor. 19th August, 1969. 267

I have no political pull. "I have no political pull" is a well-known saying. It is often used to express the idea that someone is not influential or powerful. In the context of the address, the Governor appears to be acknowledging the limitations of his position and the challenges of governing. The last sentence which I have mentioned is more important.

The address highlights the importance of political independence and the limitations that come with it. It suggests that the Governor is aware of these challenges and is working to address them in the best way possible. The address is a reflection of the Governor's commitment to the people and his desire to serve them effectively.

The address is a powerful demonstration of the Governor's dedication to the principles of democracy and the responsibilities that come with it. It is a reminder that the success of any government depends on the support and cooperation of the people it serves.

Motien on Address by the Governor.  10th August, 1969.

It is not the policy of the Government to cancel local representation and to put the ordinary collectors in charge of the district. If this is done, the high handed nature of the collectors will be confined and the ordinary people will not be able to check this revolt. Therefore, I urge the Government to reconsider this step.

"In every country, some persons, especially the educated, have been of the opinion that America is a land of opportunity where all can be equally prosperous. It is a land where the poor man can rise to fame and fortune. These persons have been encouraged by the success of a few who have become rich and have been led to believe that anyone can achieve success with the proper education and hard work. However, the wealth of America is not equal to the desire of its people. The country is divided into rich and poor, and the gap between the two is widening every day.

In my opinion, America should be a land of opportunity where everyone has a chance to succeed. The government should take steps to ensure that everyone has access to education and healthcare. The wealthy should contribute more to the society, and the poor should be given equal opportunities to succeed. The country should be united, and its people should work together to achieve success."
