Oral Answers to Questions. 10th September, 1969.

Sri P. Thimma Reddy:—I will take the Suggestion, Sir.

I. Sri A. V. Satyanarayana (Vizianagaram):—Sri N. V. Reddy, Minister for Agriculture, agriculturists are eagerly waiting to purchase the land allotted to them. As such, it is necessary that there should be proper regulation of the allotment. For example, those who have not purchased the designated lands for a long time, there should be a proper regulation so that they should not be purchased by others. The land should be sold at a fixed price.

We cannot expect any pucca work in any place.

II. Sri C. C. Reddy (Visakhapatnam):—According to me the pucca work has been taken up in different places. We have given the whole work of these places to the contractors. Therefore, we cannot expect any pucca work in any place.

MISAPPROPRIATION OF FUNDS IN PALWANCHA PANCHAYAT

*189 (2474) Q.—Sri D. Venkaiah (Madhira) :—Will the hon. Minister for Panchayati Raj be pleased to state:

Whether it is a fact that the Sarpanches of Palwancha Panchayat, Kothagadem Panchayat Samithi, Khammam district, have misappropriated thousands of rupees; if so, the action so far taken by the Government in this matter?

The Minister for Panchayati Raj (Sri T. Ramaswamy) :—It is reported that the accounts of the Grampanchayat, Palwancha for the years 1963-64 to 67-68 have been audited, but due to non-production
of certain records like vouchers and receipts, the Assistant Examiner of Local Fund and Panchayati Raj Accounts, Khammam is unable to say whether or not there is misappropriation of Panchayat funds. The Collector, Khammam is pursuing action in this matter.

Mr Speaker:—Accounts Books are missing. That is what he says.

Sri P. Subbaiah:—That is why, I am saying, that it is a clear case of misappropriation.

Mr Speaker:—Presumption is that he must have misappropriated once. All the same, till actually the accounts books are produced, it is not possible to say whether he has misappropriated. If he fails to produce the accounts books, naturally, they will take action and proceed.

Sri T. Ramaswamy:—I will direct to give one month’s time and finish the enquiry.
Mr. Speaker:—In the meantime, he will give a complaint that the book have been stolen by somebody.

re: Facilities to the students of the Physical Training College.

Strong resentment was expressed by several members of the Hyderabad Municipal Corporation over action of the State Government in giving exemption from the rules to Mr. N. Sanjiva Reddy and some other influential people in regard to construction of houses in the city.

The Town Planner said that a building was constructed at Kavadiguda without permission. When the Corporation started demolishing it, the Government stayed it, he said. He said that in regard to the construction of house by Mr. Sanjiva Reddy, the Government had given permission.

Mr. Speaker — Please put a short-notice question. I will ask him to collect full information and inform the House.

re: Facilities to the students of the physical Training College.

Sir P. V. Narasimha Rao:—There is no need for a notice, Sir. This has been brought to my notice yesterday. I have already taken action. I have asked the Director of Public Instruction to see that the lock of the hostel is broken open, if necessary and accommodation given to the students. I am going to find out.

Sri D. Venkatesham:—Regarding mess, I am speaking.

Sri G. Sivayya:—Students have come. Hostel accommodation is there. Mess was closed a long time back and the warden who is in charge of the mess has abandoned his post and is not to be seen anywhere in the area. Now about a number of students have come and staying in the hostel, because of a notice served by the Principal requiring them to attend classes from 8th. If the hostel is opened and food is served, they will stay on; otherwise, they have to go away. The Minister has to take action immediately in regard to opening of the mess and see that food is served to the students immediately. Otherwise, students will have to go away and the Government will not be helpful to them in any way.

Sri P. V. Narasimha Rao:—About holding classes, as you know, the position is a little fluid. But so far as accommodating students and giving them mess etc., are concerned, we are taking action. Classes also, we hope, will start very soon.

I will ask the Minister concerned to make a statement tomorrow itself. You are bringing these things to the notice of the Minister now itself.

re: Exclusion of 800 acres of land from irrigation through localisation under Rajupalem major and Marturu minor canals.

Mr. Speaker:—I will certainly ask him to enquire into the matter again and if there is any truth in it, I will ask him to take action against the persons responsible.

Mr. Speaker:—Now, let us take up call-attention motions. Call-attention No 3 will be taken up on 22nd. Mr. Ramanadham has left the place on account of some unforeseen circumstances. I will take up this motion on 22nd.

CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

re:—Exclusion of 800 acres of land from irrigation through localisation under Rajupalem major and Marturu minor canals.

Sri S. Sidda Reddy:—The Government of India, Ministry of Irrigation and power emphasized in July 1962, that in the interest of maintaining the export trade, it was essential to ensure that irrigation was not provided to the areas where tobacco was being grown as an un-irrigated crop. The tobacco Export Promotion Council also suggested that areas producing low quality tobacco might be excluded within the ayacut, leaving out those lands which produced good quality tobacco. The above recommendations were considered by the Development Committee of Nagarjunasagar Project and the Nagarjunasagar Control Board. Based on the recommendations of the Nagarjunasagar Control Board, orders were issued in G. O. Ms. No. 8, Public Works Department, Projects Wing, dated 6-1-1964 eliminating an extent of 3,76,752 acres in Blocks 10, 11 and 22 under Nagarjunasagar Right Canal from the scope of irrigation. As per these orders, Marturu and Rajupalem villages in Block 11 were excluded from the scope of irrigation under Nagarjunasagar Right Canal. However, as the lands under Rajupalem Major had been localised prior to the issue of the above G. O., the Government would consider the question of inclusion of the lands of Rajupalem and Martur villages in Block 11 under the ayacut of the Nagarjunasagar Right Canal in view of the special circumstances.

Re: Forcible eviction of Harijan in Punakala, Vanaparti taluk.

Minister for Social Welfare (Sri D. Perumal):—Sir, an area of 2 acres 32 guntas was proposed for acquisition from the land in S-No. 654 in Ponnakal village of Wanaparthy Taluk of Mahboobnagar District for providing house-sites to Harijans. Draft Notification
Calling attention to a matter of urgent public importance:

re: Forcible eviction of Harijans in Ponnaka’s, Wanaparthi taluk.

under Section and Draft Declaration under Section 6 of the Land Acquisition Act were approved by the Government and published in Andhra Pradesh Gazette on 13-2-66 and 9-4-64 respectively.

After Acquisition Proceedings were started and even before possession of land was taken, the Harijans entered upon a portion of land and constructed houses on about 1 acre 20 guntas. It was subsequently reported by the Land Acquisition Officer, Gadwal that one Mr. Ayyapa Reddy, the owner of land in S. No. 656 of Ponnakal Village which was proposed for acquisition filed an objection petition stating that he was a poor cultivator and that he should get a small extent of land as his holding on division of property among his family members and that notice under Section 4 of the Land Acquisition Act was not published in a conspicuous place of the locality as contemplated under the provisions of the Land Acquisition Act and that such proceedings were null and void.

In that connection, the Collector, Mahboobnagar consulted the Board of Revenue for advice. The Board of Revenue after consulting the Assistant Government Pleader intimated the Collector that since possession of the land was not taken, the Government could denotify the land under Land Acquisition Act in this case. Thereupon, the Revenue Divisional Officer, Gadwal, after conducting joint inspection of the land along with the District Social Welfare Officer, Mahboobnagar, and the President, Panchayat Samithi, Wanaparthy, suggested that only 1 acre 20 guntas out of the extent of 2 a. res 32 guntas in S. No. 656 might be acquired since there were huts existing on the spot and suggested that the land in another S. No. 656 could be acquired as it was suitable for houses. Thereupon, Government in consultation with the Board of Revenue and Government Pleader, High Court, decided on the withdrawal of notification to cover the entire extent of land in S. No. 656. Accordingly, in G.O. No. 1796 Adm. dated 14-12-66, the Government approved Draft Withdrawal Notification under Section 48 of the Land Acquisition Act. The Collector Mahboobnagar, was also instructed to send up land acquisition proposals in respect of land in S. No. 656 measuring 1 acre 20 guntas in S. No. 657 measuring 2 acres 20 guntas of Ponnakal village for providing alternative sites to Harijans. Subsequently, the Harijans in their petition dated 17-9-66 represented that in the meanwhile the owner of S. No. 656 filed a suit in the Munsiff Court, Wanaparthy for recovery of possession which the Court had decreed. Thereupon the Harijans filed an appeal in the District Court, Mahboobnagar, and this was dismissed. The Collector had also reported that the Harijans filed a second appeal in the High Court. However, with a view to expedite matters, the Collector submitted D. N. and D. D. proposals in respect of S. No. 656 covering an extent of 1 acre 20 guntas. The Collector’s proposals are under active consideration of Government.

Smt. B. Jayaprada (Vinnukonda):—Mr. Speaker, Sir. In our State, I think, Industrial Demand occupies an equally important place along with Agriculture next to Education and Health. To voice that tone only, Government had circulated a rosy picture of this Demand showing that they are persuading the Central Government to start as many as 8 major key industries in our State. But, when we go deep into it, we face a sorry picture of state of affairs. They say on their own admission, the facts reveal that between 1966-68, 19 large and medium industrial units were set up with an investment of Rs. 119 crores for creating employment for 5500 people. I think this is a very disheartening situation in the country where most of the labour is an agricultural labour who face underemployment and seasonal unemployment. If we invest this Rs. 119 crores on rural industries, we can create employment for 50,000 people, with more number of industries and less investment even. Next, we can think of the state of the Government managed companies which is rather bewildering to many students of industrial economics and their functioning suggests a luxury item of an expenditure on this imprished State.

The Singareni Collieries Co., Ltd., having the benefit of improved coal price, increased sales turnover shows an explosive figures of losses just because the prize of explosive material increased and they had to implement Wage Board award. Further they say insufficient wagon supply is impeding their sales turn over, though South Central Railway was carved out especially to eliminate such state of affairs,

Next, the Azam Zahi Mills Ltd., Warangal presents another staggering tale. If the Government advances Rs. 27 lakhs cash loan to prevent slackness in working results, this amount seems to have gone down the drain and this advance is converted into an equal amount of loss.

In page 9 of the Demand, it is stated the Kumar Chemicals Private Ltd., is making an import substitution to the State to an extent of Rs. 80 lakhs. Such a laudable performance details are not made clear to the House.

Referring to page 13, the training facilities given to the Tribal population in various arts and crafts should be extended to all areas the tribals inhabit and the existing facilities are quite inadequate.
Referring to page 9, the 'Rural Industries Projects' which are obviously financed cent per cent by the Central Government, are a cent per cent failure. Their performance is too discouraging, for, an anticipated expenditure of Rs. 24 lakhs, a return of Rs. 6.95 lakhs is expected which shows a clear loss of Rs. 17.05 lakhs. Why not the Government think of handing over these projects back to the Planning Commission and ask them to run so that they can be run more efficiently.

No mention of starting any ancillary industry near the Agnungdala Copper projects is made. Even the fate of this Agnungdala Copper Project is not made known. There appears to be no end for the step-motherly treatment meted out to our State by Centre. I believe and I understand that we are importing Rs. 80 crores worth of copper annually. When such being the state, the Central Government Budget speaks of only 10 lakhs token allotment for this project. Why not this State Government persuade the Central Government to take more active steps. If not that, at least why not this Government constitute a Mineral Resources Development Board and initiate steps to exploit the various mineral resources in the Godavari and Cuddapah belts.

Moreover, the District Officers of Industries should be qualified engineers or technologists and there should be more liaison between the various chambers of Commerce and Industry and this Department.

All the Government commercial and industrial undertakings that are regularly running on loss including those in the co-operative sector should be listed out and methods to improve their performance must be examined. A work study, cost account study and productivity assessment must be systematically conducted. An expert committee should be formed to implement this study. If necessary taking the example of the State Trading Corporation, which is at present headed by a seasoned executive from the private enterprise and is sharing improved working results, our Government without any inhibition, seek the co-operation of personnel from private enterprise to improve the working results of State managed companies.

The reported study made by the National Council of Applied Economic Research on the industrial programmes for Andhra Pradesh during the Fourth Plan speaks for itself. It clearly suggests of the incompetence and inefficiency executed by the State Industries Department between 1966 to 1966, in profitably exploiting the natural resources of your state.

Finally I request this Government through you, Sir, and this House should seriously consider of suggesting to the Central Government to draft a separate Industrial Development Plan for the chronically backward states, spread over at least 15 years. This plan should help remove the regional and intraregional imbalances to the maximum extent possible. This plan should be outside the purview of the regular Five-year Plans. I think such an approach will stall for ever all evil consequences that arise out of the economic ills that have arisen in this country due to 25 years of faulty planning. Thank you.

80 per cent should be recruited from the State Governments. But it does not apply to the service personnel.

Gold is available in plenty. But no investigation has been conducted in this regard. They are encouraging it. Why should we adopt that procedure? Why should not the old get the incentives? I request the Government to kindly see that these incentives are given to them. In my place, we are preparing textiles and quilts. We are exporting granite stone to foreign countries. We are getting much foreign exchange. But no incentive from the Department side. I request you to kindly consider these aspects and see that justice is done.
In the Information Department, the S. E. Os. are made as D A. P. R. Os. It was started on 10th of January 1970.

In regard to the promotion list, a G. O. was issued when Mr. Gurumurthy was the Information Minister in 1961. It has been completely ignored by the department. Another thing is that so many appeal petitions were filed by the department people. They were rejected without any remarks. This Government has no sympathy at all at least to pass any remarks, stating under what circumstances the applications were rejected. In this connection, I request the Information Minister to kindly look into the bottlenecks and the injustices done to the officials who are working in the Department by recruiting the people from the outside the Dept. and renders justice to the employees of Information Department.

Thank you, Sir.

In the past few years, the Government has been granting funds to various industries. However, there is a lot of scrap in some of these areas. Can the Government assure us that they can sell the products at cheaper rates than those sold by private entrepreneurs? We should choose such fields where private entrepreneurs cannot enter. What is the Government's relationship with this industry? Is the industry in the hands of Birlas or the Government? We are in an anomalous position. We give a lot of loans and subsequently change them into Government shares. The Government should make the position clear, whether the industry is in the hands of the Government or in the hands of Birlas.

We should consider a policy where industries are kept in government control. This will ensure a more stable and predictable environment for businesses.

10. The vote on the [industry name] resolution was passed unanimously.

In conclusion, it is important to have a clear understanding of the Government's role in these industries, especially when it comes to the financial aspect. The Government should be transparent and provide clear guidelines for all stakeholders.
I want to know from Government what is the social objective that they are going to achieve by having these industries in the co-operative sector. They have become fields of corruption and demoralisation. If that is their objective let them have satisfaction. If there are no other objectives let them tell us.

Mr. Speaker,—You require half-an-hour or 45 minutes? Please try to adjust it in the shortest possible time.

There is one I.A.S. Officer holding three jobs—Director of Commerce, & Export Promotion and Managing Director of Small Scale Industries Development Corporation, and Mining Corporation. There is one I.A.S. Officer who is managing three jobs—Director of Commerce, & Export Promotion and Managing Director of Small Scale Industries Development Corporation, and Mining Corporation. "The one factor which was neglected in this colossal effort for industrial and technical development was the managerial dimension"

Why is it that these industries are now promoted? Why is it that these industries are now promoted?

There is a conflict; there is no question of link between the two. At this rate of this chaotic system of development of industries are we preparing industries or economic development or are we creating chaos here?

Half-hour discussion
re: Release of convicts during
the andhi Centenary year.

1st September, 1969.

(Transcript of discussion)

Mr. President, Members of the Committee,

I am pleased to have the opportunity to
make a few observations on the subject of
the release of convicts during the andhi
Centenary year.

The release of convicts is a matter of
considerable importance, not only for the
benefit of the convicts themselves, but
also for the welfare of society at large.

The andhi Centenary year is a
period of national celebration and
exemplification of the values of freedom
and democracy. It is fitting that we
consider the release of convicts within
this context.

Convicts who have served their
sentences or who have shown a desire
and capability to reform should be
released on parole or granted early
release, in the interests of rehabilitation
and the restoration of their place in
society.

The Committee should consider the
need for a more comprehensive
approach to the rehabilitation of
convicts, including provision for
education, vocational training, and
counselling services.

I hope that the Committee will
take these issues into serious
consideration and work towards a
compromise that meets the needs
of both society and the convicts.

Thank you.

re: Release of convicts during the Gandhi Centenary year.

Sri G. Sivali:—Mr. Speaker, I do not recommend to the Government to release all the prisoners who are now undergoing imprisonment in the various categories. But however I would like to advise the Government to release all except the prisoners who have been convicted under various charges like corruption, smuggling, black-marketing, tampering of records, cheating, espionage, etc. Other than these, all others may be released. Prisoners who might have been undergoing imprisonment for hurt cases or theft, etc.—it is a different line of thinking in these cases. One might have committed theft because of hunger or one might have murdered some other person because of certain ill-feelings; that is only in between two persons whereas this affects the entire State and the entire public. Therefore the people may not be released, Sir.

One more point is—the Minister should take bold steps to release all the Naxalite Communists because they have fought against certain corrupt methods in the State. We must have sympathy; they have now taken up certain revolution with the outlook of rectifying certain defects in society. The idea seems to be very good. The ideals are good; I may not agree with the methods of the Naxalite Communists. They shall be released under the present circumstances, Sir. That is all what I can urge. Thank you.

re: Release of convicts during the Gandhi Centenary year.

1. D. S. S. —convicts who are not repeat criminals should be released during the Gandhi Centenary year. It is unfair to keep them incarcerated for prolonged periods. The practice of releasing 100 prisoners every half hour is a step in the right direction.

2. D. S. S. —convicts who have served their time should be released immediately. Releasing them every half hour is not efficient. Once a criminal is a criminal always.

3. D. S. S. —the government should consider releasing all convicts as a general amnesty in the Gandhi Centenary year.

4. D. S. S. —convicts who are repeat offenders should not be released. Once a criminal is a criminal always.

re: Release of convicts during the Gandhi Centenary year.

I request the Chief Minister to bear all these views expressed by the members in mind and take a very liberal attitude. More than that I cannot say; as all of you said, it is very rarely that we get an opportunity like this. I request the Chief Minister to consider this and take a decision. The House is now adjourned to 8.30 tomorrow morning.

The House then adjourned till Half-past-Eight of the clock on Saturday the 20th September 1939.
