Mr. Deputy Speaker:—I do not think anything would please the Members because it looks... . . .

Sri Yavilala Gopalakrishnayya:—What happened about the B. D. O., and his irregularity?
Mr. Deputy Speaker:—All that is required is that the Minister should take immediate action:

We will take action against the persons responsible, if necessary.

Mr. Deputy Speaker:—Expedite the matter.

His reply today will be the same thing.

It is not for the first time that it came to the notice of the Government. What happened to the Government all these days. When people gave so much money for the construction of a hospital, you allowed it to be diverted and no action against the persons concerned has not been taken till today. That is the situation, Sir.

Hon. Minister could call for further information within 10 to 12 days.

I will call for information. It would not be possible to get it within a month, Sir,

We are not sleeping over it. We wired to Ongole Collector. He said, 'I have nothing.' We wired to the B.D.O. He said, 'I have nothing.' We wired to the O.C. We will go into the matter fully. I have nothing in this matter personal or anything. I will go into the matter fully and take necessary action and inform the Members.

It is a matter of great shame to the Government—not only to the Government, but to the House. We are not prepared to accept what the hon. Ministe
has said. That explanation is not sufficient. This is a matter of great public importance in the sense that what has been contributed by the villagers for a purpose has been wrongly spent and diverted. When there is dereliction of duty, what is the action they are going to take?

Mr. Deputy Speaker:—He said he would inform the House of the action taken, after going fully into the matter.

Mr. Deputv Speaker:—He said he would inform the House of the action taken, after going fully into the matter.

Mr. Deputv Speaker:—He said he would inform the House of the action taken, after going fully into the matter.

Mr. Deputy Speaker:—This will be taken up again after a week.

Mr. Deputy Speaker:—This will be taken up again after a week.

Sri N. Ramachandra Reddy:—Before going to the next question, I would suggest this question may be taken up again after a week.

Sri T. Ramaswamy:—This may be taken up after 15 days. I will call for the case, examine it and place it before the House.

Sri Pragada Kotiah:—When was the telegram issued to the concerned officer?

Sri T. Ramaswamy:—I do not know. It is not hear

Sri T. Ramaswamy:—I do not know. It is not hear

Sri T. Ramaswamy:—I do not know. It is not hear

Mr. Deputy Speaker:—This question will be taken up again on 10th.

(iv) The Collector will likewise fix miller-wise quotas in the light of the district quota allotted to his district by the CCS.

(v) The quota so released by the CCS for each dist. shall not be exceeded by the Collector.

2. The grant of export permits by the Collectors will be subject to the following conditions:

(1) An administrative surcharge at the rate of Rs. 10 per quintal or Rs. 100 per tonne shall be levied before issue of permits to millers.
The export of damaged rice outside the State shall be by rail and not by road.

The stocks of damaged rice which are finally permitted to be exported shall be exempted from the provisions of the A. P. Rice Procurement (Levy) and Restriction on Sale Order, 1967.

The period during which this export is to be allowed will be only up to 15-11-70 from the date of issue of the permits to the applicants. (The date has been extended from time to time up to 15-1-70).

Only rice milled out of damaged paddy will be allowed to be exported and not any other rice. To ensure this a condition is to be laid down in the permit to be granted that before the rice is exported it should be inspected by the Quality Inspectors of the Food Corporation of India on behalf of the State Government and no rice should be exported unless it is clearly beyond the rejection limits laid down by the Food Corporation of India.

The millers to whom export permits are issued will have to furnish to the Collector information regarding the variety, quantity exported and the names and addresses of the consignees.

The permits for export will be given only to the millers located in the districts which have been cyclone-affected namely Krishna, West Godavari and Guntur.

Mr. Deputy Speaker :—Answers to all questions except questions Nos. 289, 295 and 298 will be placed on the Table of the House.
ALLOTMENTS OF SINDRI AMMONIUM SULPHATE

Q.—Sri R. Mahananda:—Will the hon. Ministe for Agriculture be pleased to state:

(a) what are the allotments of Sindri Ammonium Sulphate supplied by the Union Government to our State through Private Licences in 1967-68 and 1968-69;

(b) who are they and their addresses and the individual quota allotted to them;

(c) whether they imported these quotas; and

(d) whether the State Government recommended to the Union Government for allotment of these quotas to these persons?

Sri K. Venkataraman:—(a) A quantity of 42,022 M. Tonnes of Ammonium Sulphate during 1967-68 and a quantity of 43,410 M. Tonnes of Ammonium Sulphate during 1968-69 was supplied by the Fertiliser Corporation of India, Sindri to the private dealers in Andhra Pradesh State.

(b) Statements indicating districtwise supplies made for the years 1967-68 and 1968-69 and dealerwise supplies made for 1967-68 are placed on the Table of the House. Dealerwise particulars for the supplies made during 1968-69 are not available.

(c) Yes, Sir.

(d) When only 36% of the indigenous production was made available to the private trade from 1-10 60, due to competition among the dealers, the applications of the dealers were forwarded by the Director of Agriculture. But consequent on making available of 50%, 70% and afterwards 100% of the indigenous production to private trade, forwarding of application was stopped by the Director of Agriculture and the dealers are getting their requirements direct from the Fertiliser Corporation of India.

PAPER PLACED ON THE TABLE OF THE HOUSE

Mr. Deputy Speaker:—Next question.

Dr. T. V. S. Chalapathi Rao:—You were pleased to say that you will call me, but without calling me you are passing on to the next question. In this, there is no mention of Krishna district. I want to elicit information.

Mr. Deputy Speaker:—I said I would invite not only you but so many others. But I find from the reply that he has nothing to add so what has been explained by his department.

Dr. T. V. S. Chalapathi Rao:—Our question may cover a new ground.

Sri C. V. K. Rao:—Let us have an opportunity to clear the whole thing about these fertilisers.

Sri P. Subbiah:—Because there is no answer we are forced to put more questions.

Mr. Deputy Speaker:—Let us see whether he has got any further information.

Sri P. Subbiah:—When there is no answer, what is the use of our putting questions? The hon. Minister must be prepared to answer all our questions.

Sri Ch. Rajeswara Rao:—Half-an-hour discussion may be allowed.

Sri C. V. K. Rao:—The whole fertiliser business is a scandalous business. We want the minister to honestly, frankly clearly answer.

Mr. Deputy Speaker:—Mr. Rajeswar Rao has requested for half-an-hour discussion on this.

Dr. T.V.S. Chalapathi Rao:—It is a simple matter. It does not require half-an-hour discussion.

Mr. Deputy Speaker:—If the member do not want half-an-hour discussion.

Dr. T.V.S. Chaladathl Rao:—I never said like that. I want to elicit information about Krishna district.

Sri Kona Prabhakara Rao (Bapatla):—The Public Accounts Committee is already seized of the matter. It is already preparing the report.

Dr. T.V.S. Chalapathi Rao:—Debate or no debate, some more supplementaries must be allowed, Sir.

Mr. Deputy Speaker:—There are two proposals. Do you want some more supplementaries and the question to be covered to-day within 5 minutes? Otherwise you give me in writing. I will accordingly adjust the programme. We will go to the next question.
Oral Answers to Questions.

Sri P. Narasimha Rao:—It is a very very important question. Kindly give us time to put some more supplementaries. Afterwards we will decide.

Dr. T.V.S. Chalapathi Rao:—My request is that some more supplementaries may be allowed.

Mr. Deputy Speaker:—Some members desire half-an-hour discussion, some members want some more supplementaries. Let us fix some 5 minutes because we have got other items to go through.

Sri Vavilala Gopalakrishnaiyah:—What ever the time may be, now and here it must be decided.

Mr. Deputy Speaker:—That is not possible, Mr. Gopala Krishnaiah; there is no time.

Sri Vavilala Gopalakrishnaiyah:—We will forego other things.

Sri M. Manik Rao:—Comparing to other business, this is more serious.

Mr. Deputy Speaker:—That is not possible. There is no time.
Mr Deputy Speaker: — Mr. K. Ramanatham has seen me with request for 2 hours discussion. I think we will have to consider that.

Sri Vavilala Gopalakrishnayya: — We are not going to have 2 hours discussion afterwards. It has to be decided now. Let him say who has signed the orders.

Mr Deputy Speaker: — Will it be possible for the Minister to get all the information?

Sri Vavilala Gopalakrishnayya: — I am not questioning the action of the Speaker to discuss it... First of all, let there be some supplementaries.

Mr Deputy Speaker: — Day after tomorrow it will be the first question after the question hour is over.

Sri Vavilala Gopalakrishnayya: — I can understand your difficulty. The House is requesting to have this priority. That is why this must be posted as the first question.
tomorrow or day after tomorrow. But to attempt it as a first question in the tomorrow's list will be a bad precedent.

Mr. Deputy Speaker :—That has been announced now. Members have their own desires.

Sri G. Venkata Reddy :—We are not objecting for the discussion on this day. That is the first point. But to attempt to have it as a first question day after tomorrow—you fixed it after the question hour.

Mr. Deputy Speaker :—That has already been decided. There is nothing for us to alter.

Sri G. Venkata Reddy :—If that is going to happen, that is a bad precedent.

**WORLD BANK AID TO THE IRRIGATION PROJECTS IN STATE**

295—

* 424 Q.—Sri R. Niranjan Rao (Malleswaram) :—Will the hon. Minister for Irrigation be pleased to state:
(a) whether it is a fact that the World Bank is considering to finance three irrigation projects in our State, namely;
(i) Pochampad;
(ii) Godavari Barrage;
(iii) the improvement of Krishna and Godavari Delta ayacut;
(b) if so, what is the quantum of assistance that the State is going to get for each of the above projects;
(c) whether the assistance is by way of loan or grant;
(d) if it is loan what is the rate of interest; and
(e) the share of the Government of India for the schemes?

The Minister for Medium Irrigation deputised. The Minister for Irrigation and answered the Questions (Sri R. Narapa Reddy):—(a) Yes, Sir.

(b) The quantum and nature of assistance for each of the Projects referred to will be known only after receipt of the report of the World Bank Mission.
(c) (d) & (e) :—Does not arise.

Mr. Deputy Speaker :—The Minister for Irrigation has written to the Speaker and the Speaker has already permitted.

Oral Answers to Questions:

Mr. Deputy Speaker:—You have no information? Will you supply the information and place it on the Table of the House.

Mr. Deputy Speaker: —You have no information? Will you supply the information and place it on the Table of the House.

Mr. Deputy Speaker:—I do not know whether this was replied this morning.

Sri R. Narapa Reddy:—The question of extending the financial assistance for these projects will depend upon the proposal of the World Bank.

Sri G. Sivaiah:—I have got a supplementary question. If you do not allow I do not sit. You can send me out.
Mr. Deputy Speaker:—Mr. G. Sivaiah does not deserve it. He deserves all respect and not sending out. Please sit down.

Sri G. Sivaiah:—I am sitting down and I am again raising Sir.

Sri C. V. K. Rao:—I withdraw. Please permit Mr. G. Sivaiah.

Mr. Deputy Speaker:—All the things given by the Department are incomplete. Ministers have not given the clarifications and the whole House has gone in confusion. That is what exactly you can see now.

Sri A. Madhava Rao:—What is the use of this question hour? We want every question to be answered properly and effectively.

Sri G. Sivaiah:—So many things are going on. What is the use Sir. You can send me out. I am prepared to go out. You must have the patience at least for one supplementary question.

Mr. Deputy Speaker:—I am not allowing because you are insisting too much today. Every time you are patiently hearing. But today I do not know the reason.

Sri N. Ramachandra Reddy:—Let this controversy be ended. Let Sri G. Sivaiah be allowed to put the supplementary.

Mr. Deputy Speaker:—Then Mr. G. Sivaiah will have the last supplementary.

Sri K. C. Srinangaih Setty:—How Sir?

Mr. Deputy Speaker:—That is exactly what I expected.
MARKETING COMMITTEE, CHITYALA

258—

* 692 Q. — Sri N. Raghava Reddy: — Will the hon. Minister for Marketing be pleased to state:

(b) if so, the reasons for the same;

(c) the criteria adopted for nominating the said representatives;
(d) whether steps will be taken to see that the members of the Marketing Committee are elected by the ryots of those areas; and

(e) whether rules will be amended so that at least the members of Legislature belonging to that area are enable to participate in such committees?

The Minister for Marketing (Sri Ramachandra Rao Kalyani):

(a) Government originally nominated four representatives of growers who belong to Ramannapet taluk to serve on the Market Committee, Chityal. It is a fact that Ramannapet taluk does not fall within the jurisdiction of the Market Committee, Chityal.

(b) The nomination of growers from Ramannapet taluk was done by oversight and the same has been rectified duly nominating persons from the notified area of Agricultural Market Committee, Chityal, cancelling the nomination of members of Ramannapet taluk.

(c) As per section 5 (1) (i) of the Andhra Pradesh (Agricultural Produce and Livestock) Markets Act 1966, Government after consultation with the Director of Marketing appoint not less than one half of the members of Agricultural produce, and the owners of livestock, and products of livestock in the notified area to serve on the Agricultural Market Committee.

Oral Answers to Questions.  3rd March, 1970.  45

Specifically a letter has been written to me by the Secretary that according to the High Court decision it is being modified but on the contrary the Minister has passed a number of cases against the High Court decision and against the letter which has been written. Will he be pleased to verify on that point.

Sri N. Ramachandra Reddy:—Then why a letter has been written to me by the Secretary?

Sri Ramachandra Rao Kalyani:—I will see.

Sri V. B. Raju:—When the judiciary of the State decides on a policy matter, on a procedural matter of the Government, that it is irregular, whether it is necessary for every party aggrieved to go to the High Court. This has got to be clarified. If every citizen has got to go to the High Court, it is impossible. This democracy will not function.

Sri N. Ramachandra Reddy:—"The High Court has already objected. Further action is being taken in the light of the Judgment of the High Court." What does this mean? After this, a number of orders have been passed against the spirit of this letter. This is from the Secretary.

Please give me that letter, I will find out.

Sri N. Ramachandra Reddy:—Letter No. 2732, Agriculture dated 16-9-1969. The very policy has been contradicted. It is only restricting the Hyderabad Marketing Committee. Contrary to that in a number of marketing societies about 80 or 60 in Telengana area, where traders have to be elected according to the High Court's decision, the Minister has nominated. That is the fact. I want a clarification whether all these nominations will be withdrawn by the Government Sir? I want the clarification for that.

Sri Ramachandra Rao Kalyani:—It is not possible for me now to withdraw. I will examine it and give you the answer.

Sri V. B. Raju:—It is not only in this case. It is for the functioning of the Government. When High Court has given some observations or decisions particularly about the irregularities of the execu-

tive, then what is the policy of the Government. Should every aggrieved party go to the High Court? Is this the view of the Government? Therefore, the citizen gets justice and fair play only from the court and not from Government.

Mr. Deputy Speaker:—What he means is that if one or two instances are decided by the judiciary, the policy has to be laid down. I think you have to examine that point.

Sri Ramachandra Rao Kalyani:—I will examine that.

Sri N. Ramachandra Reddy:—Where is the question of examining it?

Sri N. Ramachandra Reddy:—Whether is the question of examination Sir? This question also should be taken up along with the other questions.

Sri Ramachandra Rao Kalyani:—What is this? He can as well verify from the Secretariat, when it is given the reference number and also the date. He can as well as his Secretary to get the file.

The traders will be nominated from the panel recommended by the Director of Marketing. That point also has been held by the Secretariat. A part from that, there are 20 other points. Inspite of this the Minister has nominated in a number of committees. Sri N. Ramachandra Reddy:—I will show the concrete cases. This is wrong. I have to take serious objection to this.

Sri M. Manikya Rao:—Now the Minister has said that we have not nominated as per the list. I will prove if the Minister is going to resign on this point, in the Hyderabad district alone. Without the recommendation of the Collector, he has politically nominated. I want to know whether the Minister will accept my challenge and resign. I would like to know in many cases the High Court has stayed the orders of the Government.

Mr. Deputy Speaker:—Now under Rule 74 there is a call attention motion given notice of by Sri P. Narasimha Rao....

Sri N. Ramachandra Reddy:—I am not agreeing to the call attention notice. A Short-notice question was given earlier.
is lying. The earlier short-notice question was also pending. Why that short-notice question was not admitted?

Mr. Deputy Speaker:—What is the convenient date?

Sri P. Thimma Reddy:—After 10th.

Sri N. Ramachandra Reddy:—The information can be sought from the Secretariat.

Mr. Deputy Speaker:—On 10th we shall take it up.

Sir C. V. K. Rao:—You can bear with us and permit the questions to be answered within the same time.

Mr. Deputy Speaker:—I do not think so.

Sir C. V. K. Rao:—You can extend the time.

Sir C. V. K. Rao:—You please give a ruling whether my question will be answered or not.

Mr. Deputy Speaker:—Your question will be answered.
Sri C. V. K. Rao:—Is it the procedure that all questions should be put once and then answered. I want to know by which rule it is prohibited. There is no rule to prohibit it.

Mr. Deputy Speaker:—It is by convention. Nowhere it is prohibited. By convention it is prohibited. By convention also, one or two questions are asked and the Chair goes to the next item.

Sri C. V. K. Rao:—You asked us to put all supplementaries and the Minister will answer, as though it is a debate.

Mr. Deputy Speaker:—For every question, we cannot take an hour.

Sri C. V. K. Rao:—We are prepared to sit for 2 or 3 months. I want to know whether the Minister will answer or not.

Mr. Deputy Speaker:—He will answer. . . . What shall we do? Should all the Members be allowed to put supplementaries?

Sri C. V. K. Rao:—It is your discretion, Sir, to permit us to ask questions. Some kind of literal rule must be admitted. If half a dozen Members assert, you allow; if somebody is gentlemanly you do not permit; I have put a supplementary question. Now, give a ruling whether the Minister will answer or not.

Mr. Deputy Speaker:—He will answer.

Mr. Deputy Speaker:—2 or 3 supplementaries can be admitted.

Sri C. V. K. Rao:—Who is to decide as to how many supplementaries are to be put? We are at a loss to know. You are more liberal than our previous Speaker also. You cannot do any injustice. How many supplementaries are to be put is your discretion. You can be liberal.

Mr. Deputy Speaker:—I thought everybody take this as a very important question and supplementaries are to be answered to questions from both the sides of the House. The Minister has answered the question so exhaustively that I thought there is no necessity for further answers.

Sri C. V. K. Rao:—He is Minister for Labour; he is not an ordinary Minister; he will try to side-track the issue and therefore we are forced to put more supplementaries.

Mr. Deputy Speaker:—You can give notice of it.

Short Notice Questions and Answers.

How they are going to satisfy the Members. After all we are putting the questions to elicit information and they will have to come forward to give all the required information. That is lacking on behalf of the Ministers. That is why trouble has arisen.

Mr. Deputy Speaker:—The Minister has given full information, as far as I could see.

Let them fix the minimum as the minimum wage and see that it is implemented. They will have to come forward with all the information.

Mr. Deputy Speaker:—I wanted to close this subject as Sri N. Raghavendra Reddy said he would give notice under Rule 95.

They should have given answers. But the Minister has not given the information.

Sri G. Sanjiva Reddy:—I am not asking for postponing this question. I want to reply here and now.

Mr. Deputy Speaker:—I request the Chair to postpone the question to tomorrow.

Sri G. Sanjiva Reddy:—I am not asking for postponing this question. I want to reply here and now.

Mr. Deputy Speaker:— Please give it in writing. You can send it to me: I shall see some action is taken against him.

Mr. Deputy Speaker:— How can this Government take action? Do you think the Chief Minister can take action on that?

Sri C. V. K. Rao:— He can take. What is it that the Chief Minister cannot do? There is nothing on earth that he cannot do and particularly when we are discussing many matters and employees’ salaries are not paid, it is a serious matter. Therefore, let the Chief Minister intervene in this, Sir.
Mr. Deputy Speaker :—I do not know. I will have to find out from the office. Whether he has made any endorsement on it, I shall find out and let you know. Has the Chief Minister anything to say on the State Bank employees' indefinite strike?

Sri K. Brahmananda Reddy :—Sir, to meet the State Bank strike, instructions have been issued to all Treasuries and Sub-Treasuries, about 14 in number, to function as non-cashing treasuries and receive and take cash.

We are prepared to break the strike, come what may! Is that the way? There are genuine demands.

Sri K. Brahmananda Reddy :—About the genuineness or otherwise of the demands on the strike etc., we are not directly concerned, Sir, but without inconvenience to the public, this facility has been made. So far as demands and their consideration etc., are concerned, it is a matter for the Central Government.

Sri C. V. K. Rao :—Please recommend to the Central Government to settle it. The Government cannot sit quite and be so indifferent to this.

Mr. Deputy Speaker :—Mr. Manick Rao, regarding the question of privilege raised by you, I am informed that the Speaker will attend to it today. It is being put up to the Speaker. I think if his health permits he will attend to it today; otherwise tomorrow morning. I am to announce to the House the following decisions—

Sri C. V. K. Rao :—Rose—

I want also to place before the House the latest figures of admissions sought in each college. In the afternoon we can have it. I have sent for these figures so that members may know what are the exact requirements, how many colleges were given how many seats have been availed of so far.

Mr. Deputy Speaker :—He will answer in the afternoon.

Sri P. V. Narasimha Rao :—Individual orders have been issued in the case of each institution. We do not have a consolidated order. In each college where there is an Urdu section, an order has been issued.
Mr. Deputy Speaker:—We have yet to fix the date for the call attention motion. We have sent it to the Chief Minister and he will indicate a date and then we will announce it to the House. I do not know whether he will be able to tell it here and now.

ANNUAL FINANCIAL STATEMENT (BUDGET) FOR 1970-71

General Discussion

Coming down to brass takes are coming down to earth from the Utopian plane to determine the direction towards socialism.
Annual Financial Statement (Budget) 3rd March, 1970.

(General Discussion).

There are certain things which are within sight, and many things which are not within reach. They are bound to come. Every thing, good, bad, or indifferent, will take place. Some things may be glimpses of the future, and many things are not. They are bound to come. These are the political units. Politics of the State, economy of the State administration of the Government. If anybody thinks that State is a political unit, he is entirely wrong. District is an administrative unit. Politics of the State, economy of the State, administration of the Government. It is the State. If anybody thinks that State is a political unit, he is entirely wrong.

Annual Financial Statement (Budget) for 1970-71.  

(General Discussion)  

Stability and progress are contradictory in terms. Every young man and even an old man and a man like our Mr. Gowthu Latchanna would like to put on a bush shirt; he wants to appear modern, young, virile and progressive. No human beings walks with two legs. If anybody thinks he is walking with two legs, he is mistaken. He is walking only with one leg; he never walks with two feet. They are exhausted people. It is a quarrel between ignorant people.
It is what is called a social entropy. As the entropy increases, the future becomes mechanical energy. The machine loses its capacity. We have subsistence agriculture. Why should we be a dog-in-the-manger?
Without a contented service we can never give a good administration. Can you ever practice negotiations?

With a contented service we can never give a good administration. Can you ever practice negotiations?

Calamities. Natural and human calamities are inevitable. Where do you place our calamities? Where do you place our calamities?

Dry farming in the country is the taste of our agriculture.
given is not protection against inundation: he has given them a District.

When a poor man asked for a piece of bread, you have given him a bullet. It is not fertilizer; it is water.

We have got a set up political Parviers in this country who are ruining democracy and destroying the administration.

To lift water for one acre of paddy under well irrigation, on an average it cost him Rs. 175. I am prepared to be contradicted and I want a Committee to be set up for this. In fact I am requesting for this. I shall give details.

Annual Financial Statement (Budget) for 1970-71:

(General Discussion).

As I said yesterday, I have got a feeling that theighton of this House by the Executive of the Government about borrowing. We have not fixed the limit and we have not discussed it. Some officers have come, some officers have met, some officers have discussed; they disapproved. How long can we fool? We cannot fool some people for some time and some people for all time, but not all people for all time. The myth is exploding. Some people say, 'Hey! The limit is Rs. 470 crores, Rs. 470 crores.' Some people say, 'Hey! The limit is Rs. 100 crores, Rs. 100 crores.' Some people say, 'Hey! The limit is Rs. 470 crores, Rs. 470 crores.' Some people say, 'Hey! The limit is Rs. 100 crores, Rs. 100 crores.'

We are worse than school boys. How can we be worse? We have got all administrative officers, but I do not think any Secretary is there for more than a few months, for...
six months or nine months. Even the Collectors are not there.

They call it a technocrat society. We are entering a society of technology and electronics. There are three achievements of this century — conquest of space, breaking up of atom, and the breaking of the genetic code. Through biochemistry they have discovered a new cell. They are using new instruments, and they have got a knack to separate the body as though they function independently. The definition of a politician is: 'The politician is one who takes votes from poor, money from the rich, promising both'. This is what a great man has said about a politician. What I mean is, we are trying to solve these man problems and build up new relations with old instruments. We will never succeed. That
is my interpretation. We have to venture and find out new instruments.
My problem is the tight-pant young man. He says: you are Centuries
behind the present situation, you are lost. “You are of no use
are of no use to us. We will draw up our own future and shape our
own destinies” or ‘abdi dehine. I call to mind the old proverb. abdi dehine. I
strongly feel that the old proverb was right. Nevertheless, I
have to venture and find out new instruments. We have to
ventture and find out new instruments.

I have worked under eminent people—Sri B. Ramakrishna Rao Sarjiva Reddy, Mr K. Brahmananda Reddy. I rank him also as an eminent man. But I never fell unhappy. Please examine and put up immediately within 24 hours. Supposing he disagrees with the Secretary. He should not say on that: 'I have disagreed with the Secretary, he has done like that.' Call the Secretary, sit with him discuss. Either the Minister must be convinced or the Secretary must be convinced. There is no difference between the Secretary and the Government. That is the basic rule in administration.

I may say something about how things are being staged and how administration is interfered with. I am conscious of mistakes. You take in that spirit. The are leading to a dangerous situation.

If I do not commit mistakes, I am Tirupathi Venkateswara. He is Stone, he does not commit mistakes. But the difference between a wise man and an unwise man does not repeat mi takes. I may commit new mistakes. I am conscious of mistakes. You take in that spirit. These are leading to a dangerous situation.

Let us make a constructive approach. You strengthen the M.L.A.
and develop him and keep him with you. He is a strength to you.
But if this Government gives a benefit to a particular man to the
extent of ‘X’ the succeeding politician comes and it will be ‘X+1’.
When all of us have become victims of this procedure, then there
is no democracy.

This administration and society have to survive in spite of us. Otherwise this administration is going to collapse.

Can you rely upon your Secretary, can you rely upon the head of the department. If the Minister says: 'This order is wrong.' Supposing that Minister says: 'No, I won't abide your advice'. It is the duty of the Secretary to take it to the Chief Minister. If the Chief Minister and the Secretary should differ, it is in the best interest of the Government to take it to the Cabinet.

I said: 'No. This is development.' Let us make a constructive approach. You strengthen the M.L.A. and develop him and keep him with you. He is a strength to you. But if this Government gives a benefit to a particular man to the extent of ‘X’ the succeeding politician comes and it will be ‘X+1’. When all of us have become victims of this procedure, then there is no democracy.

This administration and society have to survive in spite of us. Otherwise this administration is going to collapse.

For strengthening of basic health facilities at primary health centres, a provision has been made for Rs 1.15 crores.

has your administration that power and drive? Have you made the administration responsible that if they don't spend they would be hanged? 'Hanged' means not physical. Where is your hand? On the police or the administration? It is a record. He sees every day on an average about 200 people. Can he have time? Why should you make people come to you and look to you? Where is your big army of 28 Ministers? What are they doing? Where is your big army of administration? Why not the Secretaries to Government and the Heads of departments give them interview. These are psychophants; these are political pairavikars, boot leggers all waiting at your doors. These are not the people. So, there must be a respectable distance even between a wife and husband also.

Sri V. B. Raju: — I am sorry, Sir. I never said about that. I withdraw if I said. I never meant that. My spirit is not that.

Sri V. B Raju: — What I wanted to make out was that the Chief Minister was overpowered. The Chief Minister has no time. I never meant anything beyond that. I am very sorry if it is understood in some other way by the members.
Annual Financial Statement (Budget) 3rd March, 1970.

for 1970-71:

One is vertical development and the other is horizontal development. Development is two ways: enrolment of primary school children between 6 and 11 years of age.
All India average of enrolment of school-going children between 6 and 11 years of age is 78%. The expected growth rate is 4.5% annually. What factors are likely to influence this rate? How can we ensure that education is accessible to all?

Districtwise disparity is another concern. While some areas may have high enrollment rates, others may struggle. What strategies can we implement to bridge this gap?

I believe that education is a very small matter. It is not only regional disparity.
Ultimately we are going to face a big problem on class disparities. Ultimately we are going to face a big problem on class disparities. Ultimately we are going to face a big problem on class disparities. Ultimately we are going to face a big problem on class disparities.

(b) Copy has already been placed on the Table of the House. Copies have been distributed and the Assembly is likely to debate on some evening as the Leaders may fix some time.

Oral Answers to Questions.

Sri K. Brahmananda Reddy: I have no information about it.

Sri N. Ramachandra Reddy:—Before the debate is taken up, it is better if the correspondence of the Regional Committee with the Prime Minister, the Union Home Minister, etc. is supplied so that it will facilitate discussion.

Sri K. Brahmananda Reddy:—I do not know about the Regional Committee affair. What they said, I do not know.

Sri N. Ramachandra Reddy:—Whether there was any variation in the terms of reference also will be known if the correspondence is placed on the Table of the House.

Sri K. Brahmananda Reddy:—I do not know; I am not aware of the correspondence which the Chairman of the Regional Committee had with the Bhargava Committee.

Sri V.B. Raju:—The hon. Chief Minister said that it was a matter between the Regional Committee and the Government of India; in fact it is not so. I want to know whether the Regional Committee has sent any resolution on this matter through the Government of Andhra Pradesh which resolution included that the terms of reference shall include all decisions, agreements, etc., arrived at between leaders of this region and Andhra area? Is not the Chief Minister aware of it?

Sri K. Brahmananda Reddy:—Some correspondence would have come, but that also was considered by the Bhargava Committee Report.

Sri V.B. Raju:—The hon. Chief Minister said that it was a matter between the Regional Committee and the Government of India; in fact it is not so. Sri K. Brahmananda Reddy:—As I said, I do not know if there was any communication; I cannot just now off-hand answer; but, so far as

Sri G. Siviah:—There are many Corporations coming up all over Andhra Pradesh, Sir. What is the check we have over these financial bodies which are lending money definitely at 36%, per annum. There are many of our friends who are victims of such financial bodies also.

Sri T. Ramaswamy:—I do not know. If the hon. member gives me—

Sri G. Siviah:—In every town Vijayawada, Guntur, Tirupathi, Madanapalli……

Sri T. Ramaswamy:—This applies only to Telengana area.

Sri G. Siviah:—You must be aware of the information supplementary to this. There are many financial corporations which are running in every town of Andhra Pradesh and they are charging exhorbitant interest at 36%. So, what is the action that the Government would like to take against such people.

Sri T. Ramaswamy:—I want separate question.

Sri K. Brahmananda Reddy:—We agree that this private money lending business is an awful story all over the country. Therefore, if we want to be of assistance to ordinary people, necessarily lending by the co-operative must increase and secondly the deposits in the Banks must improve considerably. That is why, there is a Bank expansion programme of all these big nationalised banks by hundreds. Then only, Sir, there will be sufficient money at least to cater to the needs of the small people. In fact, as Mr. Pragada Kotiah said, it is true—I also said at one time—the sooner the private money lending is put an end to the better it is. Now, instead of providing them avenues for credit, it is no use merely stopping. Then, we will be doing a bad thing. Therefore, Sir, it should be the effort of the society and all of us to see that the co-operative institutions give more credit, we attract more sums from the Reserve Bank etc., and also see that all deposits go to these banks.

Sri K. Brahmananda Reddy:—One is dependent upon the other. If a man who takes the assistance does not repay, then troubles will come. I can understand their non-repayment on account of adverse or very hard seasonal conditions like cyclone or drought, but you must so see that the money that is ploughed into the society after utilisation comes back again.

Sri S. Vemayya:—Will the hon. Minister for Revenue be pleased to state:

(a) whether a conference of the District Collectors from Rayalaseema districts was held at Hyderabad on 26th and 27th Sep. 1969; and

(b) if so, what are the decisions taken in the conference?

The Minister for Revenue (Sri P. Thimma Reddy):—(a) A meeting was held at Hyderabad with the Collectors or their representatives of the four districts of Rayalaseema and Nellore district on 28–9–69 and not on 26th and 27th September, 1969.

(b) No specific decisions were taken. The seasonal conditions were generally revived with the Collector or their representatives and the Chairman, Zilla Parishads of the five districts who also attended the meeting.

This kind of answer is a scandorous answer, if you permit me to put it that way.
Dr. Deputy Speaker:—You can say "not satisfactory". Do not say "scandalous".

Sri C. V. K. Rao:—It is a parliamentary word. It is strange that all the Collectors from Rayalaseema should come and discuss about seasonal conditions. It is very strange. Now I think the Minister must tell us when the Collectors meet to discuss administrative matters concerning Rayalaseema and things like that.

LANDLESS POOR IN PALMANER TALUK

267—

* 105 (2386) Q.—Sri S. Vemaya (Put by Sri C. V. K. Rao):—
Will the hon. Minister for Revenue be pleased to state:
(a) the number of landless poor who are cultivating the lands in S. No. 221 in Jallipet village and S. No. 414 in Kurmoi village of Palmaner taluk, Chittoor district;
(b) since how long they are cultivating the said land; and
(c) the steps being taken by the Government to assign the land to these persons?
Oral Answers to Questions.

Sri P. Thimma Reddy: —(a) and (b) In S. No. 21 of Pallipet village, an extent of 21 acres is being cultivated by seven landless poor persons. Of these seven persons, six persons are cultivating the land since 4 years and one person since 16 years. In S. No. 14 of Kurmoi village, an extent of 14 acres is being cultivated by seven landless poor persons since 10 years.

(c) These S. Nos. are classified in accounts as unassessed waste lands. They have to be split up and transferred to ‘Assessed waste’ before taking up assignment. The Collector has reported that special steps are being taken to get the lands split up and transferred to ‘Assessed Waste Dry’ and that the assignment will be finalised thereafter.

Sri P. Thimma Reddy: —(a) and (b) The Sarpanch of Pallipet village has not occupied any Government lands, and consequently the question of launching eviction proceedings etc. against him does not arise. As at present there does not seem to be any issue for eviction of these things.

Sri P. Thimma Reddy: —(a) and (b) The Sarpanch of Pallipet village has not occupied any Government lands, and consequently the question of launching eviction proceedings against him does not arise. As at present there does not seem to be any issue for eviction of these things.

Sri P. Thimma Reddy:—These are all estate problems. They may involve some litigation. As and when a report is received I am ready to place it on the Table of the House. The Collector was reminded to expedite the enquiry.

Sri P. Thimma Reddy:—I cannot make a commitment. I shall call for the report again.

Sri K. Govinda Rao:—Let us know from the Minister as to what time he requires?

Sri P. Thimma Reddy:—I am not conducting the enquiry. There is the Collector to look after these things. We will again ask the Collector to expedite the enquiry. If that report reaches the Government before 20th or so, we would be able to place it on the Table of the House before 28th or even earlier.

That is why we ask the Government to give a date line.

Mr. Deputy Speaker:—The only thing is, when the report could be expected to be received by the Government from the Collector?

Sri P. Thimma Reddy:—If the Collector is not able to go through the enquiry and says ‘I am not able to complete the enquiry’ within that date, then I have to come forward before the House with that sort of reply.

Mr. Deputy Speaker:—The question is, does it require so much time to find out whether these lands belong to him or to others?

Sri P. Thimma Reddy:—These are jagir lands. There are disputes.

Mr. Deputy Speaker:—Anyway, the Minister says, he requires time.

Sri Vavilala Gopalakrishnayya:—Let him take twenty days, Sir. Does the Government require another 2½ years, by which time the next elections would come off? Can they not get this information within 20 days?
Sri P. Thimma Reddy:—I will ask the Collector to expedite the enquiry.

Mr. Deputy Speaker:—Can we have it at the next session?

Sri P. Thimma Reddy:—I may be able to place it on the Table of the House even before 20th, if the enquiry is completed and the report is received. I am only submitting to the House my difficulty in the matter.

Sri Vavilala Gopalakrishnayya:—Can’t the Minister get the reply from the Collector? Is he incapable of doing it?

Mr. Deputy Speaker:—He will get a reply; but what he says is that if the Collector should say ‘I have not completed the enquiry. The matter is still under enquiry’, what should the Minister do? The Minister does not want to come before the House with that sort of information.

Sri K. Govinda Rao:—Is it so difficult to make an enquiry about lands that the Sarpanch occupied?

Sri Vavilala Gopalakrishnayya:—Let the Government say ‘we are not in a position to get the reply from the Collector’. Or let them say, ‘we have got the capacity to get the report from the Collector before 20th’.

Sri K. Govinda Rao:—Let them have the report before 31st.

Sri T. V. Raghavulu:—May I know the nature of the issues involved in the matter and may I also know whether the Collector is required to conduct an enquiry under any statute?

Sri P. Thimma Reddy: The Collector of Nalgonda is making further enquiries in the matter.

Pallepadu is an ex-jagir village. This village was surveyed and sethwar and vasoolbaqi were received by Talsildar from the Survey and Settlement Department in the year 1958 and they were implemented during Zamabandi of 1958-59. As per sethwar and vasoolbaqi, the following were the poromboke lands. Poromboke Mvai zamabandi S. Nos. 330, 336, 334, 333, 332, 331, 334, 701, 343, 237, 314, 562 and 145. Poromboke follow: S. Nos. 888, 601, 613, 312, 573, 641, 578, 52, 647, etc etc. The Zamabandi officer had ordered during Zamabandi 1958-59 that the above S. Nos. should be taken to Register No. 10. But in the pahani for 1959-60, all the above S Nos except S. Nos. 888, 542, 52, 517, 368, 313, 213, 329 and 460 were shown as patta lands of different persons. Verification of cases in faisalpittis for the years 1958-59 and 1959-60 could not reveal that the above mentioned numbers were made patta. It is not known as to what basis these lands were shown as patta in the pahani of 1958-9. The Collector, Nalgonda is making necessary further enquiries in the matter.
The question is this: The extent of Government land in the occupation of the surpanch of Pallepadu village, and whether eviction proceedings have been launched against the surpanch and for the reasons therefor.

I submit to the House that as soon as I receive the report I shall place it before the House.

We can easily understand by his reading the whole statement I submit. I will ask the collector to send the report, before 20th.

**Banjar Land in Lusaraguttapadu**

*219 (930) Q. - Sri S. Vema>ya:—Will the hon. Minister for Revenue be pleased to state:
(a) whether forest banjar land in Lusaraguttapadu of Kallapudi area in Bhimavaram taluk, West Godavari district has been deforested for the purpose of distribution among the poor;
(b) if so, the total extent of forest land in that area; and
(c) the extent of cultivable land therein?

Sri P. Thimma Reddy:—(a) No, Sir. The forest banjar lands in Lusaraguttapadu were handed over to Revenue Department for assignment to political sufferers.
(b) The total extent of forest land in this area is Acs. 5080.00
(c) The extent of cultivable land therein is Acs. 4300.00.

**Government Land at Gotlakonda**

*348 (20 8) Q. - Sri S. Vema>ya:—Will the hon. Minister for Revenue be pleased to state:
(a) whether it is a fact that one Sri Yerracharla Vasantha Rao, a big landlord took possession of the Government land which was under the occupation of 8: Lambadi Families at Gotlakonda, H/O Kalleda village, Warangal taluk and district, recently; and
Oral Answers to Questions.

(b) if so, whether any action has been taken to give protection to the above displaced Lambadi Families?

Sri P. Thimma Reddy:—(a) No, Sir. & (b) Does not arise.

Sri P. Thimma Reddy:—There is nothing for me to keep anything back. Whatever information is available, I am placing it before the House. Since no Government land is occupied by Vasanthara Rao, the question of giving protection to displaced Lambadi families does not arise. It is also reported that there is a dispute between the Lambadi tenants and the landlord. If the tenants approach and represent to the revenue authorities, necessary relief will be given under the Tenancy Act. It does not appear that their lands have been occupied by this man. It looks they are tenants of the father of Vasanthara Rao. If there is any such thing and if it is brought to the notice of the Government, Government will take necessary action.

Sri G. Sivayya:—Is the Government aware that these Lambadis who are poor peasants have represented this matter to the concerned Tahasildar regarding the illegal occupation of the landlord.

Sri P. Thimma Reddy:—There is no such information with me.

Whether it is a fact that one Sri Yerracharla Vasanthara Rao, a big landlord took possession of the Government which was under the occupation of 80 Lambadi families at Gottiakonda, hamlet of Kallada village, Warangal taluk and district, recently; and if so, whether any action has been taken to give protection to the above displaced Lambadi families?

Sri C. V. K. Rao:—Is the land inherited by him or purchased by him. You are saying it is not Government land. How did he get that land.
134  3rd March, 1970.  Orai Answers to Questions

Sri G. Sivaiah:—Under Section 33-E of the Hyderabad Tenancy Act, these lambadis are protected. They are all backward people. You cannot expect these backward people to come and petition the Government.

Sri P. Thimma Reddy:—An enquiry has been conducted into all these things. The Officers have gone to the extent of seeing whether their lands have been encroached and taken possession of.

Sri G. Sivaiah:—It may be the other way. Banjar lands might have been occupied....

Mr. Deputy Speaker:—We shall go to the next question.
(L. A. Q. *274 was postponed to 4th March 1970.)

LOANS TO HOTEL

279—

85 (2152) Q.—Sri R. Mahananda:—Will the hon. Minister for Women Welfare be pleased to state:

(a) whether the Government has given any grant or loans to any Hotels in our State;

(b) if so, the amount given to them from 1966-67 to 1969-70 (till now) in the twin cities and the towns of Visakhapatnam, Vijayawada, Guntur, Kurnool and Cuddalore;

(c) whether all such hotels have been constructed and are running now; and

(d) whether there is any control by the Government on these Hotels?

The Minister for Women Welfare (Smt. Roda: Mistry):—(a) No Sir,

(b) (c) and (d) Does arise—

Smt. Roda Mistry:—Loans are given for Hotels on the recommendation of the State Government by the Andhra Pradesh State Finance Corporation Andhra Pradesh Industrial Development Loan Corporation Hotels Development Fund, Dept. of: Tourism, Government of India, New Delhi, and recognised scheduled banks.
Sri R. Mahananda:—What are the Hotels recommended by the State Government?

Smt. Roda Mistry:—The State Government has recommended Hotel Clifton, Hyderabad; Hotel Nagarjuna, Hyderabad; Vihara Vihar Tourism Home, Vijayawada; Tajasri Hotel, Vijayawada; Modern Hotel and another at Giddapah. We do not recommend the amounts; we only recommend the hotels and the feasibility of the project, and the Team from the Government of India verifies the details and the amounts to be given. One of these, Hotel Nagarjuna, has managed to secure O. K. from the Government of India for 13 lakhs but they are looking into the bonafides of the security etc. None of the projects that we have recommended has yet received even a penny as a loan.

Sri R. Mahananda:—What are the principle laid down for the State Government to recommend?

Smt. Roda Mistry:—There are different principles according to the category of the Hotel — 2-Stars to 5 Stars. A Committee evaluates the proposals and recommends only the projects which are sound.

Sri K. Govinda Rao:—What is the type of loan that has been given to Hotel Apsara at Visakhapatnam. They have been permitted even a bar.

Smt. Roda Mistry:—A separate question may be put. Here the question is whether Government have given any loans.

Sri K. Manik Rao:—What is the criterion to recommend the Hotel or the money to be given to a Hotel?

Smt. Roda Mistry:—There are so many items in the application form — about 40 to 50. Every item is checked by the State Government to see whether the persons seeking the loans fulfill the conditions. Every minor thing is taken into consideration and only under the prescribed conditions the applications are recommended.

Sri R. Mahananda:—May I know how many applications have been received by the State Government.

Sri C. V. K. Rao:—What we wanted to know is about the principles on the basis of which the State Government recommends to the Central Government and also other financial institutions. The Minister had also stated that the hotels are classified into different stars — 2 stars to 5 stars. On what principles are the stars allotted, and what is a star?

Smt. Roda Mistry:—For every star there are certain conditions. It would be extremely to keep them in memory and repeat the conditions. If the hon. members put a separate question I shall furnish the information or he may come to me when I shall give all the information.

Sri Vavilala Gopalakrishnayya:—She could have placed the paper on the table.

Smt. Roda Mistry:—The question is very clear; whether the Government have given any loans or grants to any Hotels. Government have not given any loan. How could I place a paper on the Table when the question is different?
Oral Answers to Questions.

Sri C. V. K. Rao: I appeal to the hon. Members to be chivalrous to the hon. Minister.

Smt. Roda Mistry:—Sri Vavilala Gopala Krishnayya has asked about the conditions under which each Hotel has been recommended. Again that is a very exhaustive question. I am prepared to place all the recommendations and the conditions under which they have been recommended.

Sri P. Subbaiah:—Government have recommended certain applications. What we want to know is not the lengthy recommendations and the conditions under which they have been recommended.

Secondly, as we see the Nagarjuna Hotel is unfinished. How were Rs. 15 lakhs recommended for it?

Smt. Roda Mistry:—I have already said that we have addressed the Government of India conveying our recommendations keeping in view the commitments of the applicants etc. Regarding amounts and terms and conditions I am afraid, I cannot give any satisfactory answer off hand. I shall certainly answer them if separate question is put. As I said, we do not recommend amounts; we recommended the feasibility of the project according to the conditions that are laid down, whether the land belongs to the party or not, whether there is tourist potential, whether the party can fulfill all the demands and whether all the commitments are according to the listed questionnaire supplied by the Government of India.

Sri T. V. Raghavulu:—May I know if any part-payment has been made under the loan sanctioned to Nagarjuna Hotel?

Smt. Roda Mistry:—No, Sir. We have recommended and the Government of India agreed to pay Rs. 15 lakhs, but nothing has been paid so far. They are looking into the bima-fids of the party and the lands and other properties secured.

GOLDMINES IN RAYALASEEMA

280—

* 1364 Q.—Sri B. Niranjan Rao:—Will the hon. Minister for Commerce be pleased to state:

(a) whether any gold mines were discovered in one of the Rayalaseema districts;

(b) if so, what is the quality of gold available in the mines; and

(c) the steps taken by the Government to exploit the gold mines in this area in this financial year?

The Minister for Commerce (Sri P.Ankineedu Prasada Rao):—

(a) Yes, Sir,

(b) The gold occurs in native form of free milling type and in 3 x 5 in grain size. The taquarala mine which forms a section of
the central part of the gold it was developed to deeper levels below 300 feet. The development work so far carried out in this section has indicated the ore-sheet extending to above 500 metre in length with an average value of 7.6 grammes/tonne of rock. Other sections of the loads south of Tappanana mine have given inferior value from core analysis ranging between 0.5 to 3.8 grammes/tonne.

(c) The State Government are in correspondence with Government of India about development of the these mines and the Question of extracting the exploitation of the unit to some Government agency like Kolar Gold Mining undertaking is under consideration of the central Government.

Sri P. Ankineedu Prasada Rao:—As far as this belt is concerned, it is 14 k. m. long and 1.5 k. m. wide. About the depth, we have examined it upto 250 ft. when there are occurrences of gold. At some places the quantity is 3 grammes per ton. We cannot calculate the value of gold that is likely to be obtained.

Sri G. Sivaiah:—Is it a fact that the Government are considering recommending private industrialists for exploring these mines?

G. S. I. investigations have shown 30 000 ounces in 800 tons, which might be of value, but the quantity may not be sufficient to make the value economic. As such there is no report on value in terms of free market. Any recommendation will have to be considered.

Kolar Gold Fields are now shifting to Ramgiri Hills. But they are hesitating to take up.
SHORT NOTICE QUESTIONS AND ANSWERS

APPOINTMENT OF U.D. AUDITORS

290-A—

1444-G Q Sarvasri Salahuddin Owaisi (Charminar), Ahmed Hussain (Sitharampuggh) & Khaja Nizamudin (Yakutpura).—Will the hon. Minister for Finance be pleased to state:

(a) how many candidates were selected for appointment as U.D. Auditors on the results of the Group II-B Services Examination held in 1967;

(b) of them how many were trained and appointed and how many were not trained; and

(c) what are the reasons for not giving training to the remaining candidates when they have come out successful and got selection by the Andhra Pradesh Public Service Commission?

Sri K. Vijayabhaskara Reddy:—(a) 71 candidates belonging to Telangana region and 10 candidates belonging to Andhra region were selected by the Andhra Pradesh Public Service Commission against 37 and 50 clear vacancies.

(b) (i) 35 candidates belonging to Telangana region and 45 candidates belonging to Andhra region were trained and appointed;

(ii) 24 candidates belonging to Telangana region and 37 candidates belonging to Andhra region were not trained for the reasons mentioned in (c) below:

(c) Rule 14 (7) of the Treasuries and Accounts, Subordinate Service rules provides for only 20% of the vacancies in the category of U.D. Auditors being filled in by direct recruitment. Since the actual number required under rules were trained and appointed, there was no need for training for the remaining candidates.

Further in view of the Supreme Court’s Judgement striking down the Mulki Rule no candidate from out of these residuary lists can be appointed.
Short Notice Questions and Answers. 3rd March, 1970.

Why this encroachment in the Finance Department by the A. G. ?

Sri K. Vijayabhaskara Reddy:—There are some people who have come. If the member wants off-hand, how can I give? In some places the audit and accounts cell of the A. G. is there. If it is in the interests of administration they will be taken. What is the basis for it?

Sri K. Vijayabhaskara Reddy:—They were selected by the P. S. C. and allotted to this department.

Sri K. Vijayabhaskara Reddy:—Order of seniority recommended by the Service Commission.

Sri K. Vijayabhaskara Reddy:—As I understood the member: those who are selected all of them are not absorbed. Why is it? As I told you earlier double the number of vacancies have been recruited. Whatever vacancies are there they have been trained and absorbed. Some of those people about 37 from Andhra side have been surrendered because there are no vacancies. On the Telangana side 24 are still to be absorbed. As there are no L. D. Auditors qualified for promotion they are still under consideration of the government.

Sri K. Vijayabaskara Reddy:—I do not have the exact date, Sir. But I made it very clear. Normally when there are vacancies in the department, double the number is asked from the P.S.C. In the same way 100 and 70 on such side have been selected by the P.S.C. We have absorbed 46 according to the vacancies in Andhra and 35 in Telangana. 16 in Andhra and 9 in Telangana did not report to duty. Still there are 37 in Andhra and 24 in Telangana. Out 37 it has been informed to these candidates that there are no vacancies at this juncture. These 24 in Telangana are not surrendered because there are no qualified L.D. auditors for promotion. As and when vacancies arise, from out of these they will be absorbed.

Sri M. Malik Rao:—The Telangana people are already gone 1 1/2 years back. Some of them are still not appointed. Why this discrimination. This is what is asked by Sri Owaisi.

Sri K. Vijayabaskara Reddy:—There is no discrimination. It has to be made very clear that double the number of vacancies are asked by the P.S.C. to be selected. Accordingly they have sent the list out of which 37 of Andhra and 24 on Telangana side are still to be absorbed.

3rd March, 1970. Short Notice Questions and Answers

Sri G. Saiyava:—This person Vasanta died under mysterious circumstances or whatever circumstances it may be. The hon. Minister said that a declaration was recorded from this patient by the doctor in the Hospital. Where is the necessity for the doctor to record a declaration? Usually doctors record dying declaration either voluntarily or by the order of a Magistrate. Where is the necessity for the doctor to record like that? It gives a suspicion. The body buried some months back. Why are they delaying to give the decision to exhume the body and examine?

Mr. Deputy Speaker:—He said that he has set up another enquiry.

Sri G. Saiyava:—The name of the police is some Reddy, and one is some Singh. This is the girl (the hon. Member showed the photo of the girl to the Deputy Speaker.)

Because he is an ordinary clerk in a Railway Office, he may be taken up with special urgency.

Mr. Deputy Speaker:— Let us give some time.

Calling attention to matters of urgent public importance:

re: Employment of handloom weavers.

As we are aware, the employment of handloom weavers has been a matter of great concern in recent times. The demand for handloom products has increased significantly, but the supply has not kept pace with the demand. This has led to a shortage of weavers, which has affected the livelihood of many families. There have been reports of weavers being forced to work for lower wages due to the oversupply of handloom products in the market. The situation is particularly severe in rural areas where the weavers are mainly employed.

It is important that the government takes immediate action to address this issue. A task force should be constituted to study the problem and come up with a comprehensive plan to support the weavers. The government should also provide training to the weavers to help them adapt to the changing market conditions. Additionally, measures should be taken to promote the demand for handloom products by organizing exhibitions and fairs to showcase the unique qualities of handloom products.

re: Employment to handloom weavers.

The Employment of handloom weavers, which is important for the weavers, should be given priority. The government owes a duty to all handloom weavers whether they are in the Co-operatives or outside the Co-operatives.

How you are going to assist and help to release the stocks? That is a duty of the Government. Government owes to them.

Sri Pragada Kotiah:—This is a very serious situation where the Government will have to step in and help the handloom weavers all over the State. You can frustrate the mass weavers or other weavers.

Sri P. Kotaiah:—The Government will have to consider about all the producers. He is going against the very fundamentals.

Sri P. Kotaiah:—The Government will have to come in when there is difficulty. In normal times we won’t approach. It is an irresponsible way of dealing.

Sri A. Bhagavantha Rao:—I take objection to what Mr. Pragada Kotaiah says. I am not irresponsible. The hon. Member, on the other hand is irresponsible making a statement about the Government.

Sri P. Kotaiah:—What about 10 lakhs? The rebate was already repaid. That was given in October. As far as the rebate is concerned, the Government owes 90 lakhs of rupees. Let them say it.

Mr. Vice Chairman:—Have you got anything to say regarding unemployment?

Sri A. Bhagavantha Rao:—Regarding unemployment, there is absolutely no unemployment in the State, so far as handlooms are concerned.

Sri P. Kotaiah:—Let him come to Chirala. I will show how many weavers are unemployed and how many are starving. Let him accompany me.

Sri A. Bhagavantha Rao:—Unemployment with reference to other matters. I know the figures and the state of affairs also.

this Jail Department and the demand also. I want to put some suggestions to the Minister. The Jail Department is in a difficult position. They are running with a 50-60 deficit. Moreover, there is no other way to meet this deficit. This is why I want to put some suggestions to the Minister. It is gratifying to note that despite the financial handicaps and due to low priority, this department has been getting, the Jail Administration with its heavy responsibility of safe custody of offenders, who are dangerous to society....

Highest deaths in Andhra Pradesh occur in Rajahmundry Jail. Why? I request the Minister to note down this fact. Worst quality of rice is supplied from the Food Corporation of India.

Security of State

So far what have you done for the security of the State? How many cases have you taken against P.D. Act? How many cases have you proved so far? None. You have failed in the High Court. Intentionally you are doing something to arrest politically. You want to harness the students and the regional people. That is why you are using the P.D. Act and with that intention, Mr. Venga Rao is applying this...

Most backward and minority people are working in this Police Department. It means Government itself is trying to get something from outside. The Police Constables pay must be increased from 100 to 150... naturally they have to see some other ways.

Crime branch...
law and order. It is in the worst condition. I want my friends from this side and that side to go and see the unhygienic condition. You cannot stand for a moment. You are detaining for 24 hours in the Control room. You arrest us and you are going to arrest us in future. I am therefore suggesting Mr. Vengal Rao to provide good facilities. There is only one room of 10' x 10'. This is the way on which administration is running. They are not leaving these places. Another thing is that in some of the hotels brothel houses are being run. These are run in the Class Hotels in the city. May I know whether the Commissioner of Police and all the Police Officers including the Home Minister are not aware of this. Because, I know some of the important people are interested in these gambling houses in those hotels. I give a challenge even to day, between 10 P. M. to 7 A. M. If you go to Brindavan Hotel, I will show what is going on in the rooms and what business is going on there. At the most I can say Brindavan is run by some of the Ministers. Some of the people have done this. That is why I will give the room number also. I prove it. He is gaining business like that. They are the people of second grade. Some Chenchas are there. They are working under the Ministers and they are getting this benefit. This is going on day and night. Some people are working in this. One thing he mentioned is very nice. The agitation for separate Telangana is started by the students in January 1969 at Khammam.
That is the place of the Home Minister. I am challenging this. At that time he was not the Minister. I am telling that he is the man for starting the Telangana Movement from Khanmam and he spread it over everywhere.

I will show the paper cuttings also even today. He has told. The paper cuttings are with me. We are not bothered. But one thing I am telling the Home Minister. He has to give his support against the Telangana people. We are not going to tolerate this thing. We have lost our buses. We lost some properties. That is the question of Mr. Vengala Rao. If you want only to please your Chief Minister, I have no objection. Mr. Brahmananda Reddy is going to give you a gold medal. It is your matter. It is not our matter. You are not the Home Minister only for Andhra but you are the Home Minister, State. So you cannot speak against the people of Telangana. We have lost some properties. That is the question of Mr. Vengala Rao. What is the value of your son? Because you don't have the value of those lives. You have got only 10 lakhs. What is the life of our boys? What is the value of the person? In democracy there is no value for the human beings?
What in future he is going to do? But one thing, I am telling as a fundamental right we are the citizens of the State and the Country of India. Whatever we are asking under constitution only. I will give in writing. I will challenge and take procession, from Charminar to Raj Bhavan. I will take one lakh procession. Not a single incident happened. Always this Police that provoked from that side. I told Deputy commissioner, Law and Order. Some people also told Mr. Vangalarao said that there should not be one man inside the Jun Park, not even cat or dog. But we entered and achieved it. I am prepared also. I am going to do that. You don't know the sentiments of the people as a Home Minister, if you have a responsibility. These officers are behaving in such a way that they are not allowing M. L. As. in the Gun Park. They are not allowing even press people to stand. They got new Deputy Commissioner of Headquarters, Mr. Krishnakumar. To avoid, that man has come from there. I think they are not following the Ministers. They are doing their own duty?
Voting of Demands for Grants.

This is the pattern everywhere. They are asking for separate Telangana, intensively they are doing so much damage to the public in this democracy. This Government is murdering democracy. There are the charges I am putting.

(Bell)

There is an application also since so many years from the Sub-Inspectors, Circle Inspectors and other officials to get their association also recognised. Actually there is a G.O. Ms. No. 1145, dated 8th August 1962—Services Association—Instructions issued. Why this discrimination? They are asking the Association to have the Club buildings.

You have to change the pattern and provide with building, recognise that Association also. Some of the officers can go to the Cities from other States and even from districts as a hospital system. It is different if some people are getting officers's quarters. Drinking and dancing is different. But others don't have any grievance for it.

They have got many prizes from All India Matches. There is no encouragement for the boys who are working in the Police Department.

The administration of Jails Department is broadly classified into jails, Borstal School, Certified Schools, Probation, After-Care and Preventive Programme.
JAILS

At present there are in all 155 jails in Andhra Pradesh which include 5 Central Jails, 6 District Jails, 2 Open Air Jails, 1 State Jail for Women, and 141 Sub-Jails. The increase in the number of Central Jails is due to upgrading of District Jail, Nizamabad into Central Jail during 1968. The authorised accommodation and the present population in the Central and District Jails is given below:

The total population of Sub-Jails in the State as on 28-1-1969 was about 4,000.

Vocational Training:

There are 4 Central Jails in the State with full-time Superintendents where prisoners with sentences above one year, life termers and prisoners under death sentence are confined. The prisoners in these Central Jails are given vocational training in Carpentry, Weaving, Tailoring, Blacksmithy, Soaps and Phenyle-making, Shoe-making, Carpet-making, Printing and Book binding etc. In each of the Central Jails, Warangal, Hyderabad and Rajahmundry ten power looms have been installed to train prisoners in power spinning and weaving. In Class I District Jails like Secunderabad and Nellore also training facilities in carpentry, weaving, nawai-making, laundry and black-smithy etc., are available. Two Printing Units which were started in the year 1966 at Central Prison, Hyderabad and Rajahmundry in order to engage the educated prisoners have functioning satisfactorily under the supervision of the Printing Department. Despite the major handicap of continuing to run the outmoded Jail Industries, the department could get the income of
Appendix.

Rs. 14,49,000 during 1967-68 and the year it is expected to be of Rs. 15,00,000. Besides training the prisoners in useful industries for their rehabilitation, much care is taken to maintain the quality in manufacture. In addition to the increasing demands from the Government Departments, there is also public demand for which the Department is not in a position to meet, till the existing industries are modernised. It is under the active consideration of Government to introduce small power driven machines in the existing industries and also to introduce new industries keeping in view the rehabilitation aspect and the Government and public demands. The necessity of opening an emporia for furnishing information regarding jail and certain school industries and channelising the orders to achieve greater efficiency in production and distribution, is keenly felt. Construction of an emporia in one of the vacant centrally situated sites of the Departmental land is being taken up with facilities for easy railway siding.

Education in Jails:

Adult literary classes are conducted in all Central Jails. Government have recently sanctioned upgrading of the jail Schools into Middle Schools and High Schools so that those who have an aptitude for higher studies could pursue them within the jails. Convicts are also coached by the school Teachers for higher classes conducted by official and non-official organisations. Prisoners are encouraged to pass the examinations by granting special remissions.

During the year 1969 the following number of prisoners confined in various Central Jails of the State have appeared and their results are shown against each:

Libraries and journals: All Central jails and Open Air jails have been provided with well equipped libraries. Newspapers and Magazines are regularly supplied.

Cultural & Recreational activities:

In all Central Jails and Class I District jails prisoners are allowed recreational and cultural activities like dramas, film shows, debates and competitions in games and sports, etc.

Canteens:

Canteens continue to run in all the Central and District jails for the benefit of prisoners. Although the canteens are run on nominal profits some jail canteens have accumulated sufficient profits and film projectors etc., could be provided out of these profits.
Parole:

The Parole and Premature releases were granted as before and the following comparative figures will show that more prisoners were granted parole during the year.

Gandhi Centenary:

In connection with the celebration of Gandhi Centenary on 2-10-69, Government were pleased to announce special remission is G.O.Ms. No. 1321, Home (Prisons-A) Department, dated 25-9-1969. As a result, 2730 prisoners were released.

Family Planning:

Prisoners in jails are encouraged in Family Planning methods. So far 28 convicts have voluntarily undergone vasectomy operations.

Notable Development in 1969:

Due to continued overcrowding in all Central jails, the District Jail, Nizamabad has been upgraded into Central jail. A whole-time Jail Superintendent has been posted relieving the District Medical Officer who was hitherto placed in charge of it when it was a District jail.

District Jails:

There are 6 District Jails in the State. Two of them i.e. District Jails, Secunderabad and Nellore are having full time Superintendents where as the others are managed by Medical Officers. Undertrial prisoners and those who are sentenced for less than one year are confined in District Jails. Most of the District Jails have agricultural operations and prisoners from rural areas are trained in improved agricultural methods. The toughest problem of correction is handling of short termers. Due to their short stay in the jails, they neither acquire any skill nor can be sufficiently disciplined to prevent them from reverting to Crime. Most recidivists and short termers and an effective programme of correcting them is under contemplation and will be introduced very soon.

OPEN AIR PRISON AND AGRICULTURAL PROJECTS

1. Prisoner Agricultural Colony at Aurangabad:

This colony covers an area of 1,274 acres. Only 700 acres could be brought under plough so far. Though the Mill Products Can Ltd. High level passes through this colony much land could not be cultivated for want of funds. There is a scheme costing about Rs. 6 lakhs per annum to bring out 200 acres into cultivation at a cost of about 5 years, pending consideration of Government. Building more wells and giving electric supply it is possible to achieve good results. Training of prisoners in modern agricultural implements and to make this Colony a research centre is being taken which will form the part of the original project. To increase the strength of prisoners and making available more accommodation material from the defunct Baithole Camp has been diverted. It is expected that this Colony will accommodate ultimately about 500 prisoners with fully equipped agricultural implements. It is also proposed to have sheep breeding, poultry and dairy farms in this Colony during the year. To give training in modern agriculture to speed up the Agricultural operations, one tractor has been provided.

Agricultural Colony, Moulali:

This Colony is nearer to the city and a place of visit by many visitors. The extent of this Colony is about 742 acres of which about 70 acres is brought under plough. Vegetables are chiefly grown to meet the needs of the local prison institutions. It is proposed to expand this Colony to accommodate about 400 prisoners, to relieve overcrowding in jails and to give training in agriculture to prisoners. A dairy will also be opened. Much progress could not be achieved for want of adequate funds.

In all the jail gardens about Rs. 1.57 lakhs worth of agricultural produce was realised which mainly includes vegetables. Recently to provide training in modern methods of agriculture one tractor has been provided.

Sub-Jails:

There are 138 Sub-Jails in the State with an authorised accommodation of 3,459. Out of them, 11 Sub-Jails have been temporarily closed down as some of them require urgent repairs and in others there was no population. The latest lock-up of the Sub-Jails is 3,869. The management of the Sub-Jails continues to be under the Judicial Department subject to the general control of the Inspector General of Prisons. Undertrials prisoners and those who are sentenced to one month and below are confined in the Sub-Jails. For better management and in order to introduce short-term training programme, it is proposed to transfer the control of the Sub-Jails to the Jail Department exclusively when the financial position of the State permits.

As a first step, Government have already upgraded the following sub-jails as Gr. II Sub-Jails which are situated at prominent place in the Districts and the lock-up of which is usually more than that of the other sub-jails.

1. Sub-Jail Grade I, Vijayawada,
2. Sub-Jail Grade II, Chittoor,
3. Sub-Jail Grade II, Guntur.
4. Sub-Jail Grade II, Guntur.
The police guards in these sub-jails have been replaced by the jail guarding force. Department sub-Jail Jailors and Head Warders were also posted in these four Grade II Sub Jails under the general Programme of taking over all the Sub-Jails in phases.

**Borstal School:**

There is one Borstal School at Visakhapatnam with an authorised accommodation of 120. The lock-up on 3-2-63 was 122 whereas the present lock-up is 137 (on 4-1-60). Offenders between the ages of 10-21 years are lodged in the Borstal School, until they attain the age of 23 years. Besides education, they are also trained in Crafts like Carpentry and Tailoring. Well behaved inmates are rewarded by giving short leave to go to their homes. The Visitors Committee appointed by the Government reviews the cases of inmates once in six months and their recommendations for premature release (i.e., release on licence) of inmates are invariably accepted by the Inspector-General of Prisons. After such release, the inmates are helped by the Probation Officers of the Department who secure them employment. The District jail, Nizamabad was upgraded into Central jail and has been functioning as such from 8-12-1960.

**Preventive programme:**

The scheme for Control and Eradication of Juvenile Beggary and Vagrancy which was started in the twin cities in the year 1964 with one training unit at Hyderabad and another at Secunderabad has made remarkable progress in preventing vagrants and part-time beggars from becoming delinquents. Upto 1-11-69 the scheme has handled 14484 cases of vagrants and part-time beggars 8960 out of them have been persuaded to accept Counselling and guidance programme. The remaining 588 boys were admitted in the Two Training Units. By the end of December 1969 1006 boys have been rehabilitated after weaning them away from vagrant habits by securing suitable employment or further training facilities. The total expenditure so far incurred over a period of 5 year has come to about Rs. 3.45 lakhs or Rs. 58.25 per head per year which is very negligible when compared to the maintenance charges of juvenile delinquents in certified Schools, i.e., Rs. 520 per annum. Thus the scheme is not only preventing juvenile delinquency, but is also reducing the expenditure to the Department by way of checking vagrancy which ultimately results in Commital to a Certified School. It is proposed to start similar schemes in other densely populated towns like Vijayawada, during the IV Five-Year Plan.

**CERTIFIED SCHOOLS AND HOMES**

3rd March, 1970

The reception Homes and Auxiliary Homes are intended for lodging under-trial boys and girls until their cases are decided by Court. Children who are between the ages of 7-11 and convicted by Courts are sent to Junior Certified Schools, whereas those who are between 14-16 years are sent to Senior Certified Schools. These children are retained in the Institutions for a minimum period of two years and for a maximum period until they attain the age of 18 years. In all the Certified Schools there are regular education classes where the children are taught according to Government syllabus and also coached for various examinations conducted by Hindi Prachar Sabha, Andhra Saraswat Parishad, Idar-e-Adabeyat Urdu, etc. Selected boys are also permitted to study in outside educational institutions for higher studies. During the current year, nearly 58 boys are attending outside institutions. The results are as follows:

3. Attending regular outside schools... 58 58 100

Besides education, vocational training in diversified crafts, scouting, band, recreational activities and moral instruction are also provided for them.

The pupils of Certified Schools are given short Home leave to visit their parents and are also released on licence prematurely depending upon the progress in their behaviour and outside conditions. After discharge the Probation Officers of the Department follow up their cases for a period of 3 years and help them secure suitable employment.

Sometimes, children of very tender age whose parents are either not traceable or found unfit to take care, are committed to certified schools by the Courts. In such cases, it was found that, what they require is more homely atmosphere than correctional treatment. Arrangements have therefore been made to transfer such tender-aged children of nondelinquent nature and not requiring correctional treatment, to Balanivas run by Children Aid Society and Indira Seva Sadan run by a Philantropic organisation where the needs of tiny tots could be looked after with greater advantage. So far about 72 such children have been provided shelter in these two institutions and maintenance charges are paid to them at the rate of Rs. 3/- per head per month by the Department.

Probation System:

The Probation System is in force in the entire State and is being attended to by 46 Districts Probation Officers. Besides conducting preliminary enquiry in court cases, they are also conducting social investigations in cases of release on parole, premature release, release on licence etc., and also supervising probationers, ex-convicts and expupils of Certified Schools. Their services are also utilised by
the Courts in tracing out the parents of run-away children and in settling matrimonial disputes.

The function of Probation system is mainly to provide an useful and constructive alternative to short-term detention. Instead of sending a first offender to a jail for short period of detention, a court has powers to release him on probation of good conduct. According to Central Probation of Offenders Act which has been brought into force in Madras, Madurai, Tanjore, Coimbatore, Salem, Tirupathur, and Chittoor. The facility can be availed by second and third offenders also. In order to determine a case in which cases the court can safely apply probation, the home enquiries conducted by the probation officers and their recommendations is the basis. Moreover, when a court decides to release an Offender on probation, he is supervised by a probation officer for a specified period during which period he is counselled and guided to adopt socially acceptable behaviour. This method of treatment has many advantages. Firstly the Offender remains in his natural environment and does not lose contact with his family or lose his job or employment. There would be no break in his normal life. Secondly, he would not be a victim of social stigma which he would acquire had he been sent to jail. If he were to be sent to jail for a short period, it may not be possible for him to acquire proficiency in any craft but on the contrary there is risk of his losing fear of jail and get contaminated with criminal culture. Lastly, probation treatment is cheaper than imprisonment. Maintaining a prisoner in a jail costs to Government roughly Rs. 73 per annum whereas the average cost of supervision under Probation works out to Rs. 149 per annum, besides other enquiry work attended to by Probation Services. In view of these advantages, Probation is now largely applied in a number of cases as an alternative to imprisonment. From 1st January, 1969 to 31st December, 1969 the following work has been turned out by the Probation Officers in the State:

As stated earlier the Probation Officers of the State are also entrusted with conducting into cases of parole and premature release of prisoners to help the administration in arriving at correct decisions. This practice which was started as an experiment about four years ago is found very helpful in application of parole and premature release
Processes on more scientific and progressive lines therefore Government have decided to retain this procedure as a permanent feature. To have intensive supervision over the work of District Probation Officers, 3 more posts of Regional Inspector of Probation have been sanctioned by Government during 1970-71 under Plan scheme in addition to the present 3 Regional Inspectors of Probation. The Headquarters of these three posts are as follows.

(1) Hyderabad, (2) Vijayawada, (3) Nellore with the filling up of these posts, the jurisdiction of the existing Regional Inspectors of Probation will be reduced. There by they can bestow more attention to the work in their region.

After-Care Home:

The State After-care Home at Hyderabad is providing temporary shelter to prisoners released from jails, Borstals and Certified Schools until they are secured employment or fixed up in productive work. It has been possible for this Home to rehabilitate a sizeable number of ex-convicts and ex-pupils through the co-operation of agencies like Discharged Prisoners Aid Society and Philanthropists. It is proposed to organise a co-operative workshop for the benefit of ex-inmates of Correctional institutions, where discharged prisoners could be employed and paid wages until they secure better jobs. Two boys of this Home have also been admitted in outside school. This would facilitate their easy rehabilitation in society.

Future Programmes:

The Department has prepared detailed proposals consisting about 39 schemes connected with correctional institutions and services and also 9 programmes connected with building constructions to implement the schemes. These include making available protected water supply to central Jail, Rajahmundry, drainage system in jails industrial expansion with a capital investment of about 50 lakhs with revolving fund of Rs. 50 lakhs per year to develop production to meet not only Government departmental demands but also other consuming public, opening of further Certified Schools, Reception Home, etc.

One of the utmost important schemes before the Department is to construct its own emporia and to make a godown of all manufactured articles attached to the emporia itself so that quick clearance of articles could be made from the Central Office. With the expansion of industries, the necessity for booking by a separate railway siding becomes necessary and such a construction will promote industrial production in the Public Sector. Modernisation of industries and
making use of maximum prison labour is engaging serious consideration of the department as well as Government. Government also agree with the view that open Air Prisons should be increased with agricultural basis, limiting prison population to about 1,000 and introduce mechanised agricultural implements to train prisoners in modern methods and technique of Agriculture. It is the ambition of Government that a prisoner after release from Prison should really find an easy approach for rehabilitating himself with the training imparted while in Prison.

Participation of Jail Department in the National Parades of Republic Day and Independence Day:

For the first time, in the year 1965, the Prison Department was included in the Ceremonial Parades of Republic and Independence Days in order to boost up the morale of the personnel and to bring it on par with other Uniformed Services in the State. The performance of the Prison Staff contingent has been appreciated and adjudged last year as the best contingent for its smart turn out.

General:

It is gratifying to note that despite the financial handicaps and due to low priority this department has been getting, the Jail Administration with its heavy responsibility of safe custody of offenders, who are dangerous to society, has been adopting a progressive policy of correction in line with latest trends in criminology. This Department could achieve an industrial production of about 15 lakhs and agricultural production of 2.36 lakhs this year. It would be possible for the administration to achieve better results, if sizeable investments are made for improving the Jail Industries and Agricultural operations. Government is seriously considering of investing extra funds in the near future for introducing the new schemes and developing the present ones. Though there is ample man-power it is not being fully utilised for the reasons already mentioned. With a new correctional approach in dealing with offenders, the pattern of jail structures, methods of training programmes and treatment of offenders the tendency of crime may decrease ultimately. The importance of study and research in the field of crime and its prevention cannot be overlooked in the programme of social defence. I hope to provide necessary funds for adequate machinery for this purpose. The main difficulty the Jail Department is experiencing has been that of not attracting talented and professionally qualified young men to join the correctional services as the service conditions are not attractive when compared to other services in the State. It is hoped that Government will give proper attention to this problem and when finances permit deal will be given to the Prison Service, at least to bring it on par with other services dealing with control and prevention of Crime and Security.

STATEMENT ON THE DEMAND FOR THE
POLICE DEPARTMENT

Mr. Speaker, Sir,

I rise to move the Demand No. XIII concerning the Police Department.

The Budget Estimates for 1970-71, provide for a gross demand of Rs. 13,62,72,700 as against the estimates of Rs. 12,96,80,400 for 1969-70.

Maintenance of law and order and prevention and detection of crime are the important functions of the Police Department.

The Police Force in the State acquitted themselves creditably in dealing with the various difficult law and order problems with which they were faced during the year 1969. The communal situation in the State remained peaceful except for a couple of minor incidents at Madanapalle, Chittoor district and Hyderabad City.

The C.P.I, which launched banjar land agitation in September, 1969, for occupation of banjar lands by picketing Government offices gained momentum only in a few districts like Krishna, Guntur, Warangal and Adilabad. During the agitation about 2,538 satyagrahis were arrested. The Marxists also tried to organise a banjar land agitation, but it did not gain strength.

The Communist Revolutionaries (extremists) who started violent activities in November, 1968 are continuing to commit murders, dacoities and other heinous offences in Srikakulam, Warangal, Khammam etc. districts.

The activities of the Naxalites in Srikakulam district which was confined to Agency areas only, later spread to the plains and coastal areas. During the year 1969, the Naxalities/Extremists committed 38 murders and 113 dacoities in the State. There were 63 encounters between the Police and the Naxalites in Srikakulam district in which 84 Naxalites and 1 C.R.P. Constable were killed. There were 22 encounters in Warangal district in which 2 Naxalites were killed. There were 14 encounters in Khammam district in which 4 Naxalites were killed. Properties worth about Rs. 6,16,503 were lost and properties worth Rs. 61,605 were recovered and fire arms numbering about 345 were seized from the Naxalites/Extremists.
A high level meeting of State Government officers was held at Parvathipuram in the month of May, 1969, to consider various measures that should be taken immediately to curb their activities. Later, inter-State Conferences were held in August, 1969, and December, 1969, at Visakhapatnam and Bubaneshwar respectively at which, high officials of this Government and the Government of Orissa (and of Madhya Pradesh also at the first meeting) discussed the activities of Naxalites/Extremists and the measures to co-ordinate the efforts of police in three States and to exchange intelligence etc., were decided upon. A large No. of Andhra Pradesh State Police and Central Reserved Police Platoons have been deployed in affected areas and combing operations are conducted regularly. In addition to areas in Srikakulam district, parts of Warangal, Khammam and Karimnagar districts have been declared as “disturbed areas” under Andhra Pradesh Suppression of Disturbances Act, 1948. Two Special Officers of the rank of Commandant, Home Guards have been posted in Srikakulam and Khammam districts for conducting anti-guerilla operations.

The agitation for a separate Telangana which was started by the students in January, 1969 at Khammam soon gathered momentum and plunged the entire Telangana region including Hyderabad City in turmoil. The agitation was attended with violence, destruction of public and private property, hold-up of trains etc., and assumed serious proportions in the first week of June 1969, when curfew had to be imposed in the twin cities. The Police had to open fire on 96 occasions in Hyderabad City and in Telangana districts resulting in 57 deaths and injuries to 217. One Police Constable was killed and more than 350 were injured. Eight persons were killed due to violence on the part of agitators. Public property worth about Rs. 48 lakhs and private property worth about Rs. 19 lakhs were damaged. The Road Transport Corporation Buses were damaged and services badly affected. These violent activities necessitated the detention of important leaders of the Telangana Praja Samithi and also of the students Action Committee under the P. D. Act.

The Telangana agitation sparked off a counter agitation by the students of Andhra but it petered out.

On the labour front there have been only sporadic and shortlived strikes which did not affect industry or production.
Appendix.

The Andhra Pradesh Police Welfare Fund and the Andhra Pradesh Policemen’s Family Welfare Society Fund, are two non-Government Funds aimed at bettering the living conditions of Head Constables and Police Constables and their families, and also of the Ministerial staff of the Police Department.

To augment the income of Policemen, the Andhra Pradesh Police Family Welfare Society has established small scale industries such as Match Factory at Yousufguda Police Lines, Tailoring Centres in Police lines, in the State, etc., where the family members of the police personnel work and earn wages.

The society has also established Police Boys Hostels at Nellore and Guntur besides the one at Amberpet, Hyderabad for the benefit of the sons of Head Constables and Police Constables who die while in service or within five years of their retirement. Three hundred orphans of Policemen are being looked after in these Hostels.

Steps have been taken to give adequate medical facilities to the Police personnel and their families by setting up medical inspection rooms in all the Police Lines in the Twin Cities. Financial aid is given to the Police personnel and their families suffering from T.B. and other prolonged chronic ailments. A separate ward has been constructed in the T.B. Hospital at Nellore for the use of Policemen.
Educational aid is being given to the children of the Police personnel who are studying in technical courses and to those studying non-technical courses of and above P.U.C. towards purchase of books and payment of tuition fees. A sum of Rs. 14,950 has been spent for this purpose during the year under review.

Seven schools and feeding centres where free mid-day meals are being given to the children are being run.

The funds of the Andhra Pradesh Policemen's Family Welfare Society are raised purely through voluntary donations from the public and by conducting benefit shows and performances.

The Police Training College, Anantapur trained three Assistant Superintendents of Police, 100 Sub-Inspectors, 20 Reserve Sub-Inspectors and 338 Police Constable recruits during the year.
