is the amount misused by the President? What happened to the B. D. O.? How is the President responsible for the misuse of funds?

(Q) Is the amount misused by the President? What happened to the O.? How is the President responsible for the misuse of funds?

(Q) Is the amount misused by the President? What happened to the O.? How is the President responsible for the misuse of funds?

(Q) Is the amount misused by the President? What happened to the O.? How is the President responsible for the misuse of funds?

(Q) Is the amount misused by the President? What happened to the O.? How is the President responsible for the misuse of funds?

(Q) Is the amount misused by the President? What happened to the O.? How is the President responsible for the misuse of funds?

(Q) Is the amount misused by the President? What happened to the O.? How is the President responsible for the misuse of funds?
Mr. Speaker :- The Additional Examiner of Local Fund has been asked to investigate the whole thing and find out whether the B. D. O. is also responsible for any thing and take action against the concerned. It is not sparing the B.D.O. If he has illegally released funds, he will be made responsible and that is why they have asked to take action against him. It is not as though the B.D.O. is being spared for having unauthorisedly incurring expenditure. The only thing is that they have asked the Additional Examiner of Local Fund to examine and take action against all those who are responsible.
Sri Pragada Kotaiah:—After all, he will be submitting the report to the Government and they will not take action.

Here, the fact was already established. The B.D.O. has released funds against the approval of the Standing Committee. Therefore, the Government should have taken action. The B.D.O. has released funds against the approval of the Standing Committee. What action has been taken by the Government?

Sri C. V. K. Rao:—What is that the audit to do with this. Auditing is nothing to do with this. There must be specific resolution...

[Some members rose]

Mr. Speaker:—I am not able to understand this. It is absolutely nothing to be agitated. The Additional Examiner of Local Fund is there examining. Without the sanction of the Standing Committee, the B.D.O., who is a Government official, he should not incur any expenditure. If he does so, that is unauthorised expenditure. In this case, he had incurred unauthorised expenditure. Why was action not taken against him?

Mr. Speaker:—What was the report of the Collector?

Sri Thota Ramaswamy:—It is stated by the Collector that the B.D.O. did not guide the Standing Committee properly and it is he for the Auditors to go into these matters and issue surcharge certificates and fix the responsibility. The Special audit is now in progress. It is for the audit to fix the responsibility. The responsibility may be on the B.D.O. or the Members of the Standing Committee or the President.

Mr. Speaker:—According to the Minister, on the complaint by the Member, the Collector was asked to make a preliminary enquiry and he reported that the B.D.O. seems to be responsible and he misguided the Standing Committee. So, the Collector reported that the whole thing should be gone into by the Audit and the responsibility fixed.

Mr. Speaker:—They have accepted the finding of the Collector. They have taken action and they are taking action. Please see that immediate action is taken and the persons concerned suitably punished.

Fishermen trained in fishing and navigation.
2. Co-operative fishermen societies, provided boats are operated by the trained fishermen themselves.
4. Postgraduate diploma holders in training institutions.
5. Repatriates fishermen from Burma and Ceylon.

Traditionally those who are profession people-from their families are selecting for training purposes?

Sri J. V. Narasinga Rao:—I have submitted a list. About addresses; I will furnish, if you want. But it will not be proper to ask their caste or community, because we are not functioning on that basis in this country.

Mr Speaker:—If you want, he is prepared to give the names of all the 53 persons. Already names have been given. From the names you can form an idea to which community they belong, approximately. If stated as ‘choudari’, he might be kamma; if, as a ‘reddy’, he might be a ‘reddy’ or might belong to some other community which call itself as ‘Reddy’, in the Visakhapatnam and Srikakulam districts. The point is, as pointed out by Mr. Konda Laxman, people whose profession has been traditionally fishing should be given preference. What the Minister says is, they have given pre-
ference not only to such people but also to those who have undergone training and obtained a diploma—no matter, what community they might belong to. Community is not important—he might belong to any community; but if he holds a diploma in fishing, then, of course, his case is being considered. You are trying to make out something when there is nothing.

I am not asking about caste or creed; what I am asking is about the addresses.

Mr. Speaker:—The question is with regard to Visakhapatnam. If you want information with regard to the entire State you may put a separate question.....

Sri B. Niranjana Rao:— The list relates to boats given on hire-purchase system.

Mr. Speaker:— The question relates to the number of mechanised boats available in Visakhapatnam.....

Sri J. V. Narasinga Rao:— They are also functioning from Visakapatnam.

Sri C. V. K. Rao:— The society is registered at Machilipatnam. Are the boats going to Visakapatnam?

Sri J. V. Narasinga Rao:— If the hon. members want any particular information I am prepared to submit. As Mr. Konda Lakshman had suggested, I am also prepared to see that hereditary fishermen are given preference. I am anxious to see that this happens.

Sri J. V. Narasinga Rao:— What ever you may want, kindly send me a letter. I shall obtain all the information and pass it on to you.
Mr. Speaker:— Your point is that even though certain people belonging to some other communities have undergone training and obtain diplomas, they should not be given!

Mr. Speaker:— The only thing that could be done is, according to family tradition if they are fishermen, certainly preference should be given, but is it fair to exclude all other communities?

Sri. Pragada Kotaiah:— There is no case to give all loans to trained men only excluding traditional fishermen.

Mr. Speaker:— In addition to traditional fishermen, they are given to others who are trained also.

Mr. Speaker:— you agree in principle that preference should be given to traditional fishermen?

Sri J. V. Narasinga Rao:— If you point out an underserving person who has been included in this under the Rules, then we shall take action.

Sri D. Venkatesam:— I am asking about the duration of the course.

Mr. Speaker:— He is not in a position to say anything just now.

General Discussion

Sri A. Madan Mohan (Siddipet):— Mr. Speaker, Sir, At the outset, I must say that this budget is the most dull, drab and uninspiring. The Ruling Party is preaching of socialism for solving unemployment problem and provide the common man with a better living. All this, I feel, is nothing but an eye wash.

Let us look into the budget. I am speaking about the interests of the entire State, but coming to Telangana, the partial attitude and prejudices of the Government are apparent even in the budget. I would like to bring to the notice of the House certain glaring instances. On page 96 of the Demands for Grants for further expenditure, details of supplementary estimates, as far as Animal Husbandry is concerned, there is an allotment of Rs. 1,200 for Andhra and Rs. 700 for Telangana. That is against the Law of Officers. Coming to ‘Contingencies’ – this is how this jugglery is being made – there is an allotment of Rs. 60,000 for Andhra and Rs. 12,000 for Telangana. We have still not understood about “contingencies”.

Assuming for a moment that ‘Contingencies’ are essential, I submit that it should be in proportion to the other allotments for Andhra. Is it a reasonable proportion between Rs. 60,000 and Rs. 12,000? I would also bring to your notice that on page 141 – Demands for Grants for further expenditure, detailed supplementary estimates thereof 1971-72, Grant XXVII - Women’s Welfare - the total allotment to Andhra was Rs. 125,000 and Telangana Nil. ‘Well, may I ask you, Sir, whether the Government consider that Women’s Welfare is not essential for Telangana? After all, here also Women’s Welfare is as essential as in Andhra.

This Government of Mr. Brahmananda Reddy has taken the separate Telangana agitation as a personal affront to him. This is not statesmanship – the way he had behaved or the Government or the political party is concerned. Section-wise they are trying to crush the people of Telangana. The students have been crushed taking the agitation as a personal affront. We have time and again been repeatedly saying that this agitation is not against Andhras as such; the common man of Telangana has no grievance against the common man of Andhra. The agitation gained ground and was strengthened because of the maladministration, because of abuse of the power by the Ministry, because of the political nature of the cliques and counter-cliques and political jingoism, because the vested interests of this region and the other region have organised themselves into a ruling clique; when they go to Andhra they say that it is after Telangana that is being exploited and when they come to Telangana they plead for integration. In respect of Khairatabad and Siddipet election and the mid-term poll they are frequently changing their stand. I can understand a politician doing it, but it is most unbecoming of a Statesman. They say that the separatists have polled only about 46%, but they forget that they form about 69% of the votes polled. I would also like to question how Indira Gandhi’s
party got elected; only about 46.3% have been polled by the Ruling Congress. After all you have to understand the aspirations of the people; they are based on a just demand. Who can deny that injustices have been perpetrated in Telangana?

Sometimes it was said that the agitation was due to disgruntled politicians; sometimes it was said that it was started by street urchins. Then came the Khairatabad poll and it was said that one bye-election cannot decide the issue; it was than said let the people give their verdict in the elections. Then came the Siddipet bye-election and the mid-term poll and it was said that after all they got only 46 or 47 per cent votes. Let me state here that the people of Telangana have understood your policies. Indira wave had swept throughout the country but in Telangana the people have fully resisted it with money bags and political power Mr. Brahmananda Reddy wants to crush the Telangana people, but let him know that it cannot be done. People have understood him. When he has majority in the Assembly, still he wants to go to polls one year earlier. Why? Even in Andhra they would ask him 'why? Because it is political jingoism and jugglery. It is going to recoil on him and on his party even in Andhra. There is a method of getting into power, but this is not the way how a particular party or its bosses are supposed to behave. I go further.

One question I put was, how many times the Director of Town Planning had gone to Andhra Area and how many times to Telangana Area. He had not toured Telangana Area at all. He is not interested in the development of Telangana region. That question had been over-ruled saying it was of an administrative nature. This is most unfortunate; As a Member of the Legislature I have a right and a privilege to ask and the right to know how many times the Director of Town Planning had toured Telangana. It is only with a view to impress on the Government that the Director of Town Planning should also visit Telangana that I raised the question. But we have to fight for everything. How long can we go on fighting like this? Whoever is responsible for these bickerings will go down in history as having done only for political power. These people cannot create integration between two Telugu speaking people. It is only for political power that they are trying to create obstructions and bring about disintegration among the two Telugu speaking people. Otherwise, I can assure the people would be more loveable and more affectionate to each other. I have got admiration for Indira, but unfortunately she is unable to look into these things in the proper perspective. She might be able to defend Mr. K. Brahmananda Reddy or his Government. But a stage has come when the people will certainly not tolerate. There is a limit to people’s patience. When agitation was brought to this region, it was criticised that through agitation things cannot be achieved. We have taken it to ballot box. And through democratic means, people also have registered their will. Still it is not respected. I am sorry to say that. It would not be happy for me to say, but I am sorry. In East Pakistan, what is happening to day, we are seeing. One day
we see women march, doctors march, lawyers march. Similar things have taken place in this region two years back during the agitation. Doctors have taken out procession, lawyers, N. G. Os, Teachers, students, women every cross section of the society has shown that we want separate State. And still it is not being looked into in its proper perspective. I do not know why. After all what is the harm? Sometimes it is said about economic viability. I may also say as a proud citizen of this country with full sense of responsibility through this House and tell Indiraji that is not going to be accepted. As Mujibur Rahman was forced to appeal to United Nations under the Charter of Human Rights, the day is not far off when the people of Telangana will get vexed and seek recourse to United Nations. It is not by way of threatening, but it would be unfortunate that it has come to that stage. Political numerology, numerical strength cannot further stop people to get their cherished wishes met. Time has come to respect the wishes of the people, and convince the Central Government for a peaceful separation.

Thank you, Sir.
