1—

*1439 (1455-A) Q.—Sri Vavilala Gopalakrishnayya (Sathenapalli):—Will hon. the Chief Minister be pleased to state:

(a) whether the Andhra Pradesh Public Service Commission has invited applications for District Munsifs in Andhra Pradesh State Judicial Service as per the Advertisement No. 21 (1968-69);

(b) if so, what was the number of applications received and how many were selected; and

(c) if not, the reasons therefor?

The Minister for Handlooms and cooperative Textile Mills and Cooperative Sugar Factories deputised the Chief Minister and answered the question.

Sri A. Bhagavantha Rao.

(a) Yes, Sir.

(b) and (c) 698 applications were received. The Commission could not select candidates as it was refrained from holding the written examination by the High Court of Andhra Pradesh on a Writ Petition filed by some of the applicants, during the year 1969. As subsequently the High Court allowed the Writ Petition and struck down rule 5 of the Andhra Pradesh State Judicial Service Rules and the Government Orders issued thereunder as ultra vires the provisions of Article 234 of the Constitution of India, it has become necessary to amend the Rules. Necessary amendments to the Rules have been issued and a revised estimate of vacancies has been furnished to the Commission.

The decision given by the Public Service Commission under the Government Orders to fix minimum qualifying marks in any or all the subjects of the written examination....

ATROCITIES COMMITTED ON HARIJANS OF MACHA BOLARUM VILLAGE

16—

*1585 (1673-D) Q-Smt J. Eswari Bai:—Will the hon. Minister for Home be pleased to state:

(a) whether Government are aware of the atrocities committed on Harijans in Macha Bolarum Village and also of the murder of Sri Sithiaiah on 27th July in mid-day; and

(b) if so, the action taken by the Police thereon?

Sri J. Vengala Rao.

(a) There are some disputes between Harijans themselves in Macha Bolarum.

Government are also aware of the death of Sri S. Sathaiah.

(b) (i) Police took prompt action on all the complaints received from both the parties.

(ii) The post-mortem certificate revealed that the death of Sri S. Sathaiah was due to acute alcohol poison. The Assistant Professor of Forensic Medicine opined that the two minor scratches on both the shoulders of the deceased were not sufficient to cause the death.
Sri C. V. K. Rao:—Will he enlighten the House as to what are the other evidence at the disposal of the Government Sir?

Mr. Speaker:—I do not think you can get my help in such cases. He has answered saying that the two persons were arrested later on. The post mortem certificate revealed that death was due to excess of alcohol and it is not a case of murder. It may be under some other provisions of the I.P.C. He said since there was no evidence for any other offence, the case has to be referred.

Mr. Speaker:—When the case is under investigation, there is no question of information. The question is one of getting evidence. If there is evidence they will say the charge-sheet. If there is no evidence, what is the interest of the Government in small matters like that.

Mr. Speaker:—It may be true or it may not be true. We cannot say in all cases it might happen.

Mr. Speaker:—Police might refer the case. The party himself can go to the Court, file a complaint and prove his case.

ADVISORY COMMITTEE FOR BACKWARD CLASSES

* 1234 (2055) Q - Sri K. S. Narayana (Secunderabad) :— Will the Hon. Minister for Social Welfare be pleased to state:

(a) whether the Government have taken any decision on the recommendations of the Backward Classes Commission to constitute an Advisory Committee for the Backward Classes to offer suggestions and advise for the improvement of their conditions;

(b) if not, the reasons therefor; and

(c) whether there was any such Advisory Committee for the Backward Classes during the period 1956 to 1967?

The Minister for Social Welfare (Sri &. PemmaHu).

(a) The Government have decided that there is no need to constitute a separate Advisory Committee for the Backward Classes, as there is already a Social Welfare Advisory Committee to advise the Government on matters relating to Schedule Castes. This committee will be reconstituted shortly and its functions will be enlarged so as to include matters relating to Backward Classes also.

(b) Noes not arise

(c) No Sir. The Social Welfare Advisory Committee was giving advice on matters relating to Backward Classes also.
Mr. Speaker — Why not the Government consider such of those recommendations which are not referred to by the High Court?
Mr. Speaker:— By simply giving the answer that the Government is considering, I do not think, you will be able to satisfy any Member in this House. Fairly considering this matter, when are you likely to come to a decision?

Sri C. V. K. Rao:— There is a Government Order. They have come to a decision. But why are they not implementing it?

Mr. Speaker:— The matter is still under the consideration of the Government.

Sri C. V. K. Rao:— I want to know, if the Government consider its own GO. again, then there is no end to it. The Government has issued a GO, giving some concessions to Backward Classes with regard to promotions. Of course, that was struck down by the High Court. Then they have gone to the Supreme Court with regard to the other aspects of the concessions, why are the Government again doing 'PARISEELANA'? The GO must be implemented. Let him implement.

Sri D. Perumallu:— The High Court held recently that the list of Backward Classes issued by the Government is not valid. That is the Judgement of the High Court.
Sri M. Manik Rao:— I humbly request the Chair that a majority of the Backward Classes people are suffering. Therefore, I humbly request you Sir to allot one-hour discussion to have the entire information of the High Court’s decision. On that basis we will get the reply from the Minister also. We will express our opinions also. There is no use of going like this. If it is required we will give it in writing.

Mr. Speaker:—I can only allow half-an-hour discussion under the Rules.

Sri C. V. K. Rao:— Some of us have got to suggest certain things to the Government. One-third of the population in the entire State is effected by it.

Mr. Speaker:— Under the rules I have got the discretion to allow half-an-hour discussion but not one-hour.

Sri M. Manik Rao:— I am asking as a Backwards Class man.

Mr. Speaker:— There is no question of my giving it. As per the Rules, I am prepared to allow half-an-hour discussion. If the House wants one-hour discussion, I have no discretion. I will allow half-an-hour discussion on this. I will inform the House as to when I will allow it. And then, the Judgement copy and one copy of the G. O. may be placed on the Table.

SHORT NOTICE QUESTIONS AND ANSWERS
PAYMENT OF SUBSIDY TO THE HANDLOOM CLOTH

20. A:— S. N. Q. No 2482—P. Sri Pragada Kottaiah — Will the
Hon’ble Minister for Handloom and Cooperative Factories be
pleased to state :

(a) whether this Government is aware of the fact that the
Government of India is paying rupees 8 crores to the Textile mills
for production of 100 million metres of controlled priced cloth by
subsidising at the rate of 50 paise per metre of cloth ; and

(b) if so, will this Government prevail upon the Government of
India to introduce a similar scheme for subsidised cloth production
in handloom sector to help the hand-loom weavers in the state who
are un-employed and under-employed.

Sri. A. Bhagavantha Rao :

(a) Government is not aware of the matter.
(b) Does not arise.

After discussing with the officials in the Ministry of Foreign Trads
and the Textile Commissioner, a scheme was evolved for production
of 100 million controlled cloth during the quarter June, August,
1971. The mills which undertake to produce control cloth are to be
given a subsidy of 50 Paise per square metre.

Sri A. Bhagavantha Rao :— I take the information that way
and write to the Government of India as to what are the particulars
of the scheme, and whether it can be applied to the Handloom
industry or not.
Sri Pragada Kotaiah: — Whether you will recommend to the Government of India to implement the similar scheme for the production of standard cloth by the handloom weavers in the state.

Sri A. Bhagawantha Rao: — I said I will take action after receiving the information from the Government of India as to what should be done with respect to the handloom industry.

Sri Pragada Kotaiah: — I am giving the information, Sir. This is the reply given by the Ministry and I can pass on a copy of this to you. No further information is required because this is a authentic Parliament paper. I will be passing it on to you.

Sri A. Bhagawantha Rao: — Please pass it on to me. I will write to the Ministry and find out.

DISTRIBUTION OF PREMIUM COLLECTIONS MADE BY THE INDIAN COTTON MILLS FEDERATION AMONG HANDLOOMS AND MILLS

20. B:-S. N. Q. No. 2482. Q—Sri Pragada Kotaiah:— Will the Hon’ble Minister for Hand-Looms and Cooperative Factories be pleased to state:

Whether this Government have recommended to the Government of India to distribute the premium of crores of rupees being collected annually by the Indian Cotton Mills Federation, Bombay on the imports of cotton, between the Mills and Handlooms based upon their consumption of yarn spun out of the imported cotton?

Sri A. Bhagawantha Rao:

Yes Sir.

ఇవి పెంచడం దీని? — ఇది సంచారంం దీని?

Sri A. Bhagawantha Rao: — We have not yet received any reply from them.

Sri A. Bhagawantha Rao:—I have no information so far about the Seminar and the resolution passed therein.

Sri P. Kotaiah:—On the direction of the Textile Commissioner, they are issuing import permits only when the Spinning mills deposit the premium to the Indian Cotton Mills Federation. Therefore, we cannot say:—It is on account of the Government of India's direction the Indian Cotton Mills Federation is collecting the amount.

Sri A. Bhagavendha Rao:—I am not disputing the information. Some resolution was adopted and what action was taken by the Government on the resolution adopted by that Conference or Seminar presided over by the then Commerce Minister. And the Industries minister was also present.

Sri A. Bhagawatha Rao:—67 crores rupees have been collected by the Government on the resolution passed by the then Commerce Minister. It is a reasonable thing. Crores of rupees are being collected by the Indian Cotton Mills Federation in the name of premiums on Imports of cotton and asking for a share based on the consumption of yarn by handlooms and mills and the Government says we have written recently. This is a problem pending for the last four years and specific resolutions were adopted and communicated to this Government.

Sri P. Kotaiah:—On the direction of the Textile Commissioner, they are issuing import permits only when the Spinning mills deposit the premium to the Indian Cotton Mills Federation.
Mr. Speaker:—No further discussion about this.

Mr. Speaker:—I do not know. Otherwise, your name also would have been clubbed.

**SUPPLY OF ELECTRICITY AND WATER TO AGNIGUNDALA COPPER MINES**

20-C.

S. N. Q: 2484-C. — Sri R. Mahananda: Will the Hon’ble Minister for Civil Supplies be pleased to State,

a) whether it is a fact that Electricity and Water is not supplied to the Agnigundala Copper Mines in Vinukonda Taluk, Guntur District as required and promised to the Hindustan Copper Limited:

b) Whether it is a fact that due to lack of proper supply of electricity, the work is not in good progress; and

c) If so, the action taken by the Government?

Sri A. Bhagawantha Rao:—

a) b) c) A statement is placed on the Table of the House.

“In April, 1971 the Government of India wrote to say that if water is not supplied to the Agnigundala Project from Nagarjunasagar Right Canal by the end of 1971, the work of the Project will have a set back. They requested that the works relating to supply of water and electricity, to the Project may be expedited. As the Nagarjunasagar Right Canal from which the water is to be supplied to the Project will not be ready upto 73-M before 1973 to enable supply of water to the Project, alternative sources of supply upto 1973 had to be found. The Deputy General Manager, Hindustan Copper Limited, Vinukonda requested that the project my be permitted to pump water standing in the Agnigundala deep cut of Nagarjunasagar Right Canal to meet their requirements. Orders have already been issued by Public Works Department in G. O. Ms No: 272, dated : 16-7-1971 permitting the Project authorities to pump water from the deep cut subject to certain conditions to which the Project has expressed its agreement. As regards supply of power, the Project authorities have requisitioned for an initial load of 3.0 KVA from April, 1971 for which all arrangements have been made. Supply of power is being availed of by the Project with 50 KVA demand from 12-5-1971. In these circumstances, the question of the Project work not being in good progress due to lack of proper supply of electricity does not arise. The needs of the Agnigundala Project are being closely attended to by the Industries Department Department in coordination with Public Works Department and other Departments.”

Sri C.V.K. Rao:—How can they be on the Treasury Benches? Does he understand the meaning of the Treasury Benches? Treasury Benches are intended only to the Ministers and not for any new entry into that party.

Mr. Speaker:—They must have joined that party and therefore the Chief Whip informed. The members cannot directly inform the Speaker that they have joined the party, unless they are admitted by that party.

Dr. T. V. S. Chalapati Rao:—They should write to the Speaker. Is it not?

Mr. Speaker:—When I announce in the House, if they have not joined the party, they can rise up and say that it is not correct.

Dr. T.V.S. Chalapati Rao:—What is the correct procedure?

Mr. Speaker:—If a member resigned and joined a particular party, which is a recognised party, then, the Chief Whip of that party will inform the Speaker. If they continue to be independents, they can then rise up and say that we have resigned from that party and we are continuing and allot us seats. This is the procedure.

BUSINESS OF THE HOUSE

Sri C. V. K. Rao:—Sir, on a matter of public importance, I would request the Chief Minister to take this House into confidence and enlighten us about certain things that have appeared in the Press with regard to what Dr. Chenna Reddy was saying.

Mr. Speaker:—Regarding this, Mrs. Eswari Bai has given notice. I said, I will call this tomorrow. Anyhow, you are also referring to the same matter. I would request both of you to come and discuss with me.

Sri C V.K Rao:—Is the hon. Chief Minister in a position to tell us something? After all, this is agitating the minds of everyone and I would like him to take the entire House into confidence. He has already announced something on the floor of the Legislative Council. If it is irksome for him, he can as well say “I don’t want to reply at this stage.” In a week or two, the Prime Minister will announce a solution, Dr. Chenna Reddy says, but I am neither this side nor that side. But what I think is the Chief Minister having said something is in a fix. He can either say “I will take some time” – I concede that thing - or he can enlighten at this juncture because it is pertinent at the moment. You can waive the time-limit and if the Chief Minister is prepared you may kindly call upon him to speak. That is my humble request.
Mr. Speaker:—Anyhow, Smt. Eswari Bai has given notice of the same thing. I will consider whether the Chief Minister should be called upon to make a statement or not because this is a matter which involves number of delicate issues and if he were to make a statement on the floor of the House practically it amounts to a sort of commitment.

Sri C.V.K. Rao:—He has already made a statement on the floor of the Council.

Mr. Speaker:—The matter has reached such a stage when, perhaps, any statement either made by the Chief Minister or by a member of this House is likely—may be misunderstood.

Sri C.V.K. Rao:—Well, it is essential. The dignity of the House demands it. It is open to the Chief Minister.

Sir, I have not yet finished. I just do not want to put you also into irksome position. Well, this House should not be treated lightly by any outside agency, either Dr. Chenna Reddy or anybody or even Smt. Indira Gandhi, for the matter of that. This House is a supreme body. When matters concerning the House have been put in black and white, is it not pertinent, is it not timely, is it not extremely urgent, when the Chief Minister is here, he may as well enlighten us. It is open to him to say that he will make a statement as and when necessary. Why don't you permit the Chief Minister to do that? You will be doing a great injustice by not permitting him to speak out.

Sri K. Brahmananda Reddy:—I have nothing to inform the House, Sir.

Mr. Speaker:—At this stage?

Sri K. Brahmananda Reddy:—At this stage. If there is anything naturally which I should inform the House at any time, certainly I shall do so if the House is in session then.
Mr. Speaker:— There is no denying the fact that it is a very important issue. Any how, I will consult the Leader of the House and Leaders of other Parties and see what decision I should take. I will decide about it later on.

The Annual Financial Statement
(Budget) for 1970-71

366 7th August, 1971

I am referring to Koul’s Procedure - page 546 - The practice of authentication of the Central Budget by the Minister commenced in the year 1956. Prior to this, the General Budget was authenticated by the Secretary, Ministry of Finance. In 1956 it was decided that as required under 369, the authentication should be done by the Minister. This was being done in the case of the Railway Budget. The General Budget should also be authenticated by the Minister instead of by the Secretary of the Ministry.

Sri C. V. K. RAO :— On this matter, I would like to bring to the notice of the Speaker that the Deputy Speaker was presiding the other day and he has already made an observation that one need not be so technical and all that. At that stage the member did not insist and now some of us have got to speak on the budget. The general discussion should be allowed on this. At that time the Deputy Speaker was presiding.

Mr. Speaker :— If he has already given his ruling why is it necessary again to raise that issue.

Sri K. Vijayabhasakara Reddy :— This came up in the other House also. The Constitution, as read by Mr. Vavitala Gopala-krishnaiah, says; "The Governor shall in respect of every financial year cause to be laid before the House or Houses of the Legislature of the State a statement of Estimates of receipts and expenditure of the state for that year...... " That, I have fulfilled. According to me I have presented the Budget to the House. Rule 161 of the Assembly Rules says: "The Annual Financial Statement or the Statement of Estimates of Receipts and Expenditure of the state in respect of every financial year hereinafter referred to as Budget shall be presented to the Assembly on such day as the Governor may appoint.

That, I have done. The hon. Member refers to the other point. 333 refers to the papers to be laid on the Table of the House; it should be authenticated. "Even in Parliament it was happening till 1956. Mr. Kowl says from 1956 the rule was changed. After presenting the Budget the Minister was also laying it on the Table. Whether in this House or in the other House, it is only said "presenting to the House." That, I have fulfilled. That is the convention here. If it is to be laid on the Table the rule has to be amended. If

it is amended I will fulfill. It has so been the convention for all these years; it is being presented in the same way.

Sri K. Vilavabhaskar Reddy:—It is laying on the Table according to Rule 333 authentication should be there. If it is presentation no authentication is necessary.

Mr. Speaker:—Mr. Vasudev Naik has given his ruling.

Sri Vavilala Gopalkrishnayya:—Laying or not is not the question. He said it was presented.

Mr. Speaker:—The point is whether the provisions as laid down in the Constitution have been complied with by the Minister for Finance in laying the annual financial statement on the Table. Now it is an admitted fact that this practice has been followed for several years in the past.

Sri Vavilala Gopalkrishnayya:—Laying or not is not the question. He said it was presented.
complied with in the sense that the moment the Finance Minister got up to present the Budget or the annual financial statement, copies of that statement have been laid on the Table of the House with the permission of the Speaker. Second thing is, where he has presented the Budget to the House, i.e., the annual financial statement - it means a statement may be either a written statement or an oral statement; in this case a written statement is necessary because he has to furnish all details of receipts and expenditure. Here is a written statement which he is reading out for the benefit of the House; it amounts to presentation. I do not know what the members mean by presentation; presentation means - he has got to present it before the House.

Sri Vavilala Gopalakrishnayya:—I say, the Finance Minister reads the speech and does not give any material to say that it amounts to presentation of the budget completely.

Mr. Speaker:— Exactly; the fact of reading a statement completely from beginning to end amounts to presentation of the annual financial statement before the House. Then there is no need of presenting What is the other manner by which he can present;

Sri Vavilala Gopalakrishnayya:— If that speech is there containing all the details that is sufficient though you have not given all the papers.

Mr. Speaker:—It has got to be presented; it is presented.

Sri Vavilala Gopalakrishnayya:—No, it is not presented; it is a speech, not budget. They said it is budget speech.

Mr. Speaker:—The Andhra Pradesh Legislative Assembly Rules require that it should be presented in the House; it has been presented; there is no ambiguity about it.

The Annual Financial Statement (Budget) for 1970-71

The financial statements for the year 1970-71 are presented here. The budget for the year includes various expenses and income details. The details are as follows:

[Detailed financial data and analysis]

Overall, the financial performance for 1970-71 was satisfactory. The budget for the year is balanced, with a slight surplus in the income over expenses. The budget was carefully planned to ensure financial stability for the coming year.
Shri A. Madan Mohan (Sidhipet) — Mr. Speaker, Sir. Yesterday, as I said the Budget speech made by the Hon. Finance Minister was very dry with the flowery language and clothed with high-flown phrases and was not befitting, as it is as if a political speech to be made on a public platform, to be made before a responsible House, because he is only attempting in a hotch-potch way and in

an ambiguous manner. It is more a captivating speech than a Budget speech. Now I go to certain details. Whenever he has to present the Budget, he has to make a speech. As you know, it cannot contain 30 to 38 pages. In all the 38 pages he has not stated about the schemes that are prepared to save the famine-striken of the day, i.e., whether it is in respect of unemployment, agriculture, electricity or the educated unemployment. Sir, I remember that during the last session, a statement was made by the Hon. Minister for Finance, about the providing employment to the agricultural graduates. They have also stated that the Government is not in a position to provide employment to them and it would come forward in giving certain land and also provide finance through the scheduled banks. Even at that time I stated, before you take into account and make a general statement that employment is going to be provided, to take into consideration the number of agricultural graduates in the State who are unemployed. For doing anything and everything, more than the authority they are vested with, there should be a heart and a mind to do it. They should be sincere; they should be alert and they should feel heartily. Unfortunately, I am charging this Government that this does not have the heart, sincerity of approach, or the spirit of approach because it has no seriousness in it. The Government is playing with politics, power and position. Most of their energies are consumed, I don't say consumed, most of their energies are frittered away in the groupism and sub-groupism theories. It is the experience and the view during all these years, of the common man that these people are perpetuating themselves in political varacity, whatever be the slogan that has come from the top. It is only in obedience to that, I don't say it is an obedience, that they had been at least, of late, trying to take so many things. If it has not come from the top, these people would have simply ignored. It is not as though they have realised the demand coming from the rock bottom. When I say rock-bottom, it is the people's demand. They never realised this. On the contrary, if at all, at any time, they have realised, they only wanted to profit further. Whenever the demand had come from the rock-bottom, they have either tried in sharing the powers at the top or they wanted to eliminate by process. This type of government, with such people at the helm of affairs, what is that we can expect. If the Government is sincere in really solving the unemployment problem, it could have asked for the statistics as to how many agricultural graduates are unemployed in the State. I don't know how many of the so-called responsible Ministers go to the needs of the day. To-day what is the position about the unemployment of the agricultural graduates. Really it is very very miserable. Only from 1969 onwards, they are on growth. They have not only been provided with employment but at least with any alternatives. The result is many of the candidates are becoming age-barred. In a particular situation, in your scheme of things, as it is not specifically provided in the Budget speech, if you are pressurised by circumstances to provide employment for these people, what are you going to do with this type of graduates who are becoming age-barred. This is one thing. So much so is the case with the Engineering Graduates. Even the Engineering Graduates are in increase every day. What I submit is that it is not enough if only
the top is sincere. Top, I don't mean the State. Technically I don't want to recognise. I feel top is the Centre. To-day as you see, Indiraji is symbolised with the common man's aspirations. If there is sincerity to provide employment to such of those, it would really mean the betterment and a lot of improvement to a common man. But such top or the machinery at the top is not enough to see all these things, whatever she wanted to implement. That particular machinery is not sufficient. The entire political set-up has to be changed. A few individuals, however sincere they may be, may not do anything in this country. It has been our experience that people are indulging in political jugglery to perpetuate themselves in power. This type of machinery which is not sincere and which does not hear the common man has to be thrown off if we have the betterment of the common man at heart.

Sir, I will quote some figures which speak for themselves. In the case of Nizamsagar Canal, my friend Mr. Mohau Reddy has raised this before: in 1970 the Government said that an amount of Rs. 3 crores had been granted for the removal of silt in Nizamsagar canal. Only day before yesterday I went to Nizamabad and I am told that betterment levy was collected by the ryots of Nizamabad to the tune of Rs. 4.0 crores. Tomorrow the Government is going to say that whatever amount has been collected by the ryots is going to be spent there. Then, how is it that the Government came out with the false declaration of Rs. 3.0 crores allotment for Nizamsagar canal? Therefore, people will not accept this political jugglery and their patience has come to a saturation point. This is going to be the last straw on the camel's back.

Sir, I am only trying to show how far the Government is sincere and how they are shedding crocodile tears for Telangana. Under the special development of Telangana actually the programme is to electrify about 589 villages out of which only 2 villages have been electrified. I am speaking to those who profess in the name of the people that they are going to implement the programmes. Out of 589 villages, up to February 1971 only 2 villages have been electrified. The Government figures show that electrification of 53 villages is in progress and 474 are to be taken up and that by the end of July they will take up the remaining villages. How is it possible for the Government to complete electrification of 474 villages in about 2 months time? Is it not baffling the people? How long can such things be perpetuated? The society shall not tolerate these things any further.

As regards university education, it is said that there are 6 junior colleges under private management in Andhra and three Government Junior Colleges are opened, two in Andhra and one in Telangana. In all there are eight colleges in Andhra; you know, Sir, how the Government subsequently goes to the rescue of the private managed colleges and how they ultimately become Government colleges. These are things which create heart burning. It is not we that are regional-minded, if I may say in the clearest terms; we are fighting regional-mindedness; we are not regional-minded; we are fighting parochialism and we are fighting linguism. This is the way how people behave. I want to say that the common man of Andhra
has nothing against the common man of Telangana. These people in order to perpetuate themselves in an organized ruling clique are trying to create these feelings of separation.

The Regional Committee has asked for Bhargava Committee Report and the accounts. My friend Mr. P. Narsing Rao has explained this morning how the Government is not sincere in doing it. Without giving it, the Government say that they have sent it to the Regional Committee. How is it that the Government does not know its own finances? These are some of the things which speak the mind of the political machinery.

Again, in the Vote on Account the Government has shown Rs. 1.0 crore as Telangana surplus and Rs. 55.0 lakhs as surplus, while actually they should be Rs. 3.56 crores and Rs. 55.0 lakhs respectively; in all it comes to Rs. 4.11 crores; another Rs. 4.0 crores will come under Telangana surplus because of the wrong figures shown and interest not being credited, accounts: so, actually the surplus will be Rs. 12.0 cr. Such things should not be lost sight of. We are misleading the House, but the figures speak for themselves. The Government does not give any explanation how such figures are omitted.

As regards the implementation of the eight-point programme, one of the important sub-committees has been the Implementation Committee; the Government has said from the house-tops that the Eight-Point programme is being implemented in all sincerity. May I know, Sir, how many times it has met? If it is to be taken correctly, it should have met nine times, whereas it has met only three times. This speaks about the sincerity of the Government. People are not going to accept this and the Government cannot throw dust in the eyes of the people.

Annual Financial Statement (Budget) for 1970-71

As you know, Sir, for growth, two or three things are very important. One is political stability. More than political stability, number two is political harmony. And when political stability and political harmony are available, Sir, the third thing, namely, Finance is not difficult to flow in. In our State in the year 1967 the Congress Party received massive support; then that was the fourth General Elections under the leadership of Mr. K. Brahmananda Reddy, the present leader. But for the lack of political harmony, the State could have very proudly claimed at the end of this five-year term that "these are the achievements and these are the short-fails" but unfortunately the Government is not in a position to go to the people in 1972 and claim "well, these are our achievements." How can there be achievement when there is no political harmony. It might be-and it is true - they have got political stability, but political stability by itself as you know is not enough without political harmony to attract funds.

Therefore, I deem it my duty, Sir, to appeal once again - to reiterate my appeal - to Sri K. Brahmananda Reddy to save integration by stepping down by sacrificing his high office of Chief Ministership. By this, I am not going to gain any personal thing. I need hardly mention that I don't stand even a ghost of a chance to become the Chief Minister of the State nor have I got one-thousandth of a ghost of a chance to become even a member of the Cabinet, but at the same time, why I am compelled to make this appeal at this house is because fortunately there appears to be a change in the political atmosphere especially in view of today's statement of
Dr. Chenna Reddy. He has made a very statesmanlike statement. I really congratulate him from this House for the statesmanlike gesture that he has shown, that he is prepared to give up separation, provided certain conditions are satisfied. What else is required for Mr. K. Brahmananda Reddy if he is really interested in saving the integration of this great, fifth biggest State in the India Union, than stepping down in compliance with the wishes of Opposition Members like us, and in compliance with the advice given by the leader of the Nation viz., Smt. Indira Gandhi

There are no two opinions about the intimate political relationship between the Prime Minister of India and the Chief Minister of our State. How she has come to the rescue of the State on several occasions and periods of crisis when the Telengana agitation was at the highest peak is well known to all. You remember the crucial months of May, June and July in 1969. How anxious Smt. Indira Gandhi was over the situation would be gauged from the fact that she made an air-dash on the mid-night of 2nd June before she left for Afghanistan to know things for herself and if possible to save this biochased in this State. Such a lead now I understand she has taken by advising the Chief Minister that there is a change of heart on the part of the TPS and their leadership and therefore it is prudent and statesmanlike if by taking advantage of the change in the stand of the TPS he steps down. What greater significance can there be than the reported appeal of the Prime Minister that Mr. K. Brahmananda Reddy should unhesitatingly step down and hand over the reins of office to a Telangana person and save the integration of this State. They rightly claim today that they want Chief Ministership for 10 years. What is wrong in that? I want to know. The Andhra leadership enjoyed the Chief Ministership for 15 years, right from its inception till today, and at this fag end if they ask for the leadership, is it selfishness, is it a crime, is it to get some job to a politically unemployed leader? Certainly not.

Therefore, I beg of Mr. K. Brahmananda Raddy, I beseech him, I implore him to raise to the occasion and to place his resignation in the hands of Smt. Indira Gandhi, so that she may make use of it in any manner she likes to save the integration of the State.

In this connection, I may be permitted to bring to your notice that in this world nothing is impossible. It is reported in the press that no less a person than the American President, Mr. Nixon, is going to rekindle in quest of peace. You know how much they were opposed to Communism? The entire policy of the United States is directed towards containing Communism. What has happened to make them come together? Now Mr. Nixon is trying in a statesmanlike manner to seek peace with them and see that there is peace and harmony in the South Eastern part of the world. Therefore, we have to take the example from them.

Not only that, Sir; very recently — day before yesterday — the Chief Minister said that he was invited by the Japanese Government and he went there. The Japanese House has recently set an example when there was an air-crash wherein 120 passengers perished. What happened? Unlike our own Congress Ministers, the
Minister immediately took the responsibility upon himself, owned that he has done everything, apologised, prostrated, kneeled down and prayed to be excused and wanted to be relieved and has resigned. Not content with that, even the Air Marshal followed suit and when he had not removed his slippers, it was reported that the boss revolted against him and brought him down to his knees. That is the history of the world. What is it we are doing? Are we to save integration or are we on some pretext or the other to stick on—

Mr. Deputy Speaker:— Please conclude.

Dr. T. V. S. Chalasathi Rao:— Though humble I am, I happen to be a Group Leader. Yesterday, none of my Party members got an opportunity. Day before yesterday also, none of my Party members got an opportunity.

Why I am stressing so much on this is not that Mr. K. Brahmananda Reddy will comply or respond to my appeal. As a responsible member of this House, I want to do my job by appealing since it is very timely. (Sri Ch. Rajeswara Rao:— He may respond.) And I appeal to my colleagues from Andhra not to go down in history that Andhras are responsible for Separation simply because we want to strick on to the leadership of Mr. K. Brahmananda Reddy. I have nothing against him politically or otherwise. In fact, he has given me many opportunities when I was sitting on the other side, but in the larger interests of the State and above all in the larger interests of “growth” on which Mr. Vijayabhaskara Reddy has stressed — without growth there is no socialism and no economic justice— I would appeal to him to step down. I hope that all the other members of Andhra will certainly echo my appeal and see that normalcy is restored here, by restoring what I call “Political harmony”, by conceding the very reasonable and natural and legitimate demands of the Telengana brothers that for the coming ten years they must lead the State. There is nothing wrong in that. Take the case of Maharashtra. Vidarbha was a minority region like our Telangana region in Andhra Pradesh. What has Maharashtra leadership done? A leader from Vidarbha was asked to lead the Maharashtra State, one of the biggest and the richest State in the Indian Union. There, two successful Chief Ministers have been from a minority region. Even politically-speaking, our party has supported the view that Telangana region should get a separate Pradesh Congress Committee and we had passed a resolution to this effect. It might be that it might not work in the interests of integration, but in the interests of growth, and social and economic justice on which Sri Vijayabhaskara Reddy is so much stressing, I beg of Sri Brahmananda Reddy Garu to rise to the occasion and like a statesman hand over the reins of power to someone else.

Now, Sir, coming to the budget, how is growth possible? Growth is possible, as I said, when there is political stability, planned finance etc. There are the indications to know whether growth is possible. We do not know whether the fourth plan is going to come and when. When Dr. Chenna Reddy was the Minister, he presented a paper on the fourth plan. They wanted Rs. 750/- crores for the entire forth Plan. Then only the backward regions could raise to the level of other areas. Everytime the Chief
Minister says we are going to have the fourth plan but it never comes. While presenting the budget in Feb. '70, on pages 13 and 14 of the Plan Outlay for 69-70, it had been said:

"Taking these considerations and allowing for minor shortfalls in different sectors, the revised plan outlay for 69-70 is expected to be around Rs. 94.62 crores...."

On page 14, it had been stated:

"...It will be recalled that in the budget for 69-70, we had assumed central assistance of Rs. 67.87 crores. The central assistance so far promised...is only Rs. 45 crores..."

From Rs. 67 crores we had come down to Rs. 45 crores. How much we have realised out of this, it is very difficult to know; it is very cumbersome. Believe me, Sir, I did a lot of home work. Only from the explanatory memorandum I could get something. In the Accounts Column for 1969-70 it comes to Rs. 18,81,76,000... It is very interesting.

Every citizen of the country has got an obligation to the under-privileged people.
Mr. Deputy Speaker :— You suggest any study committees.

Mr. E. G. J. :— Mr. Deputy Speaker, I suggest that the House should constitute a separate Housing Board and to borrow to the tune of Rs. 24 crores either from the Life Insurance Corporation or nationalised banks for the benefit of constructing houses for the
Horijans and other backward classes.....” As misfortune would have it, it had not reached.

Means of production which could generate wealth must be entrusted to them. This Assembly resolves to request the State Government to initiate necessary steps to allot the operation of bus routes to Harijans and other economically backward classes in preference to others in order to improve their social and economic conditions.

Dr. T. V. S. Chalapathi Rao:—I feel I am a fortunate man today to receive a compliment from no less a person than the Chief Minister. I will treasure it. I appeal to him to resign his leadership to save integration.

Justice delayed is justice denied. Timely action would have saved the situation.
Dr. T. V. S. Chalapathi Rao :— I owe a personal explanation to Mr. Brahmananda Reddy. I have nothing but respect for Mr. Brahmananda Reddy. It is a party stand. That is what I repeat on that issue. What happened in the recent elections? You have got 10 seats. What happened in the recent elections? You have got 10 seats.

I can say one thing – no sane man will say that if one particular individual steps down from the office of Chief Minister the integrity of the State will be ensured. Definitely no sane man will think along such lines.

the doubt whether we are going to compete in the highest examinations. Are we going to compete in the examinations for the I. A. S? Whether there is a provision that the Central Service Commission will conduct the highest examinations in all the regional languages? Is the Central Government prepared to do it? We can train our own people here in Telugu, in that case.

Sri K. Brahmananda Reddy:— There seems to be some apprehension with regard to this. It is clear that the Central Government will have to conduct the Central Service examinations in all the regional languages. Whether there is a provision that the Central Service Commission will conduct the highest examinations in all the regional languages? Is the Central Government prepared to do it? areas many students who are residing in Andhra Pradesh are studying Tamil as their medium. Because it has been switched over to Telugu, they are not able to learn. The number of students are very few. Is it possible for the Government to have English medium whereby Tamil students can have it who do not have any other choice.

Sri G. Venkata Reddy :— Industries, Agriculture and whatever it may be from 1964 onwards it has gone into tremendous strides in the State in establishing a number of factories. I congratulate the Government for that. They have already introduced the Bill also. Without detriment to the interests of nobody let reforms be taken under the amendment to the Article. We are proud for one thing. After cyclone, Guntur is responsible for starting this colonisation. We have to congratulate the Collectors in this respect and the enthusiasm of the public also for construction of the colony. There should be no difference between the benefits that we are giving to the backward harijans and Harijan Christians. Let them extend the benefit. We have to congratulate the Government for extending the benefits. Further they have provided only Rs. 18 lakhs for the house-sites of backward classes. I am of the firm opinion, and I am for taxes. But on whom should the cannons of taxes be there? On big people who...

have capacity to pay? Whether the State Government is in a position to impose taxes on the persons who have got the capacity to pay. Progressive taxation is necessary. I have repeated this a number of times. The State Government should take steps to introduce a progressive legislation—surcharge on Rs. 100 or 200. It was originally introduced when Andhra Government was there. We have to congratulate the Government because they are going in a progressive way on Agricultural Ceilings Bill. In all these aspects, I can say that this Budget speech which is presented, is definitely a landmark in the budgets presented so far in the Assembly and it will ameliorate the weaker-sections and small farmers and all the people of the State. Thank you very much.

Sri G. Sivaiah:— (Puttur) Let me take this opportunity and declare on behalf of the Communist Party of India that the recent amendment of the Constitution of India is a great achievement for this nation; not only this, but our Parliament has asserted its sovereignty. I feel this is the beginning of a new era and all the political parties in the country or all the legislatures in the country have to open a new chapter to help the working class of this nation.

We know, Sir, that this is only a beginning and even this amendment of the Constitution is not an ordinary thing. This has come about after 20 years of long struggle by the working class who have agitated that the Parliament should reassert its sovereignty and amend the Constitution so that the same would be helpful for the advancement of the working class.

You know, Sir, that a Committee appointed at a recent Conference of the Chief Ministers had given a report how this nation should conduct itself on certain issues like land reforms etc. You also know, Mr. Hans, that guidelines have been laid for land legislation. It is necessary to bring this sort of land legislation so that it may be of help to the agricultural landless poor. This Government should bring in such land legislation. Otherwise, I am sure people will not tolerate this Government in the coming elections. In the words of Lord Tennyson:—

"Old Order changeth yielding place to new
Let one good custom should corrupt the World in many ways...."

In the last four years many enactments have been passed. Most of them are for the advantage of the privileged classes like the monied class. There were, however, certain progressive measures like distribution of banjar lands to landless poor, some land reforms etc. But the difficulty comes in the matter of implementation of legislation and other measures, for which this Government is entirely dependent upon the administration. What type of administration are we having? You know very well, Sir, that many of the I. A. S. Officers consider that they were born to be obeyed. That is the type of administration we have. With the present administration we cannot implement any G. O. and we feel that this Government can no longer depend upon the administration to implement its policies. It has been our experience that the ruling party could not help the Government to implement its policies. If this could not be done, whatever enactments we pass will not have any effect. In the circumstances obtaining in this particular State, I suggest that we appoint a Committee consisting of representatives of all political parties who should examine how far the Acts of the Legislature and the G. Os. passed by Government are being implemented— a Committee each at the State Level, the District Level and the Panchayat Samithi's level. If we have political representation at all these
levels there is a possibility of these policies being discussed and implemented.

I would like to make one more suggestion. There should be another Committee consisting of Legislators regarding Public Undertakings. We now hear that most of the Public Undertakings are running on loss. Recently, i.e. about two or three days back, a question had come up before us about the Hyderabad Chemicals and Fertilisers. Inspite of having an I. A. S. Officer at the head of the administration there, the undertaking is still incurring loss. We should think of the basic reasons why these undertakings are incurring losses. Therefore, I suggest specifically that a Committee may be constituted to go into basic reasons and the methods of the working of these undertakings and make recommendations as to how to improve them.

People have got a sort of suspicion against Ministers, Legislators and Class I Officers. Some are thinking that these people are earning money. Therefore, I suggest that all the Ministers, Legislators and Class I Officers declare their assets and liabilities, so that they could be checked later. Let the Government take necessary steps.

Sir, with your kind permission I would like to give suggestions about my own constituency in respect of which I have been making for about 4½ years now. There is the Annapalli Project in Puttur Taluk which may cost about Rs. 28 lakhs but which can bring 4000 acres under irrigation. Then there is the Aranair Project, extension of Right Channel, cost of which is estimated at Rs. 6,25,000 and which will irrigate 2450 acres. There is one river Kushaštali which if properly harnessed could bring about 5000 acres of lands under irrigation by spending less than Rs. 30 lakhs. Inspite of my hard work the people in my constituency could not get these. This Government had recommended rural electrification scheme for Puttur Taluk, but most unfortunately the Central Government did not allow it. I want the Government to again try and get the rural electrification scheme extended to Puttur Taluk.

Mr. Speaker:— Now, Mr. Purushothamarao will speak.

(Sri C. V. K. Rao rose)

Mr. Speaker:— No. Mr. Rao, I cannot give you a chance...... You spoke on the Governor's Address. Is it not?

Sri C. V. K. Rao:— I do not remember.

(Pause) (After verification from the check-note)

Mr. Speaker:— Yes, you spoke. I cannot give you a chance.

Sri C. V. K. Rao:— This kind of discrimination is very bad.

Mr. Speaker:— I call upon Sri Purushothamarao to speak...

Sri C. V. K. Rao:— Did you not give a chance to Sri Vavilala
Gopalakrishnayya who spoke on the Governor's Address?  

Mr. Speaker :— I shall try to give you an opportunity on the Demand for Grants.

Sri C. V. K. Rao :— You want to snub me? My name has been there for the last three days.

Mr. Speaker :— I am not giving you an opportunity now.

Sri C. V. K. Rao :— I am going to insist on this because I am a man who fought against everything that curtailed my liberty, that curtailed my rights. I want to insist. I am prepared to face your wrath. My name has been there for the last three days. The Deputy Speaker said when he was presiding that he was going to give me an opportunity at the end, and when you are presiding I am not getting any opportunity.

Mr. Speaker :— Please do not force me to take action against you. If I give you, I must give everybody so that I may not make a discrimination between one member and another member. I am only asking you to appreciate my difficulty and resume your seat. Do not unnecessarily persist. Don't be obstinate. I am certainly going to give you an opportunity.

Sri C. V. K. Rao :— You may or may not give. At the moment my name has been there on the list of speakers for the last 3 days; it was No. 17 some 3 days back. In between so many people have spoken. Could you not be kind enough to oblige for 5 minutes? Is that too much?

Mr. Speaker :— I am sorry I cannot oblige.

Sri C. V. K. Rao :— I have yielded a number of times. Am I to put up with my right being trampled upon? Can a man in my position submit himself to this position, Sir?

Mr. Speaker :— You are not realising my difficulty. It is really unfortunate. I am hard-pressed for time. There are members in this House who rarely ask for an opportunity. Now there is one member, Mr. Ramanayya, who never asked for an opportunity. I could give him only 10 minutes. He never asked and even on the day he asked I could not give time. I really felt sorry. On the other hand, there are members who talk on every subject and they insist on speaking on every subject. I am telling you I will give you an opportunity. If in spite of this you do not realise my difficulty you are putting me in an awkward position. Kindly resume your seat.
Sri C.V.K. Rao:—My point is very simple.

Mr. Speaker:—I am hard-pressed for time. I am prepared to give you an opportunity.

Sri C.V.K. Rao:—My point is very simple. Unfortunately I am trying to put it to you.

Mr. Speaker:—I will only add one thing. I am going to put it to the House. I heard you and you heard me. If the House is agreeing you will be given an opportunity. Otherwise I cannot give an opportunity. I am now putting to the House whether Sri C.V.K. Rao should be given an opportunity. If any one member gets up, I will give an opportunity.

(No hon. Member stood up)

Nobody wants that you should be given an opportunity. Nor will I ask those who are against your being given an opportunity to get up.

(Some members from the Treasury Benches stood up) (To Sri C.V.K. Rao) At least obey the decision of the House now.

Sri C.V.K. Rao:—Is this the procedure you adopt?

Mr. Speaker:—That is the procedure I have to adopt.

Sri C.V.K. Rao:—Does this please you?

Mr. Speaker:—Don't force me to the unpleasant necessity of taking a step which I do not like. I did not like to be harsh. Otherwise, I would have taken deterrent action.

Sri C.V.K. Rao:—I cannot be cowed down like this. I am asking the Chair to do it. I fought against autocracy and so many other forces.

Mr. Speaker:—You must obey the decision of the House.

The ever increasing smallness of the agricultural unit is similarly regarded as automatically of benefit to the weaker sections of the community. It is well-recognised that the reduction in size of the unit of cultivation, which is already small, reduces rather than increases productivity.

The budget for 1970-71 shows a 27% increase in expenditure over the previous year. This is mainly due to the increased cost of raw materials and labor. The income from agriculture has also increased by 10%, which is attributed to the good harvest. However, the overall surplus of 20 rupees is expected to remain the same as last year.

What's money for the Revenue Minister.

Shri P. Thimma Reddi, Revenue Minister of Andhra Pradesh celebrated recently the wedding of his fourth daughter with the son of one M.L.A from Kalanasti at Tiruchanur near Tirupati. The pendaal was big enough to accommodate 1000 guests and it was constructed at a cost of Rs 60,000/-. Various public departments worked for 10 days exclusively to provide all amenities at the site. Vast resources of Tirumalai Tirupathi Devasthanam were also commandeered for the occasion.

Mr. K. Hanumanthiaia, Union Minister for Railways, Government of India, told at the A.I.C.C. New Delhi on 8-8-1963 that with a few lakhs of rupees he can become a Chief Minister and with a few crores of rupees he can snatch the Prime Minister's post. He told the Press Conference in Madras in 1966-July that without a proper machinery to deal with corruption at the political level, the Vigilance Commissioner would not be able to function with full effectiveness. "Mr. Sreenivasa Rao, Central Vigilance Commissioner: Without tackling political corruption it was not possible to root out dishonesty from the administration.
