Mr. Speaker:—I am to announce to the House the following decisions of the Business Advisory Committee taken at its meeting held on 25th July 1972:—

Sri C. V. K. Rao (Kakinada):—I raise a point of order. According to Rule 266 of the Rules of Procedure and Conduct of Business:

"The time table in regard to Bill or group of Bills as settled by the Committee shall be placed on the Table of the House by the Leader of the House or in his absence, by any member authorised.'"

The decisions of the Committee should be placed by the Leader of the House or authorise some member to place it before the House, and the hon. Speaker will see that it is complied with.

(Pause)

Mr. Speaker:—Your Point of order is correct and is valid. I uphold it. Let us go to the next item.

Sri C. V. K. Rao:—Leader of the House is absent in the House. He should have been present in the House.

Mr. Speaker:—I am not the Custodian of the Leader of the House.

(Pause)

Sri A. Sriramulu (Eluru):—We are anxious to know the Time-table.

Mr. Speaker:—A point of order has been raised. It has been found valid and upheld. So, I did not proceed with it further.

Sri A. Sriramulu:—Subsequent to the formation of the Business advisory Committee two groups have been formed. We would like to know whether we shall also get representation on the Business Advisory Committee.

J.No—269
Mr. Speaker:—If the requisite number of people under the Rules are there, they may be recognised. Otherwise, it will not be possible for me to do it. Still, there have been certain conventions in the matter, but we are now in the mood of observing rules very strictly. Mild laughter ........

Sri V. Srikrishna (Mangalagiri):—We can follow the Precedents and Conventions.

Mr. Speaker:—Precedents and conventions prevail when all the Members follow them. If even one Member raises an objection, I am the last person to violate them ........

PETITIONS PRESENTED TO THE HOUSE

re—LAND CEILINGS

Sri V. Srikrishna:—Sir, with your permission, I present the petition signed by some petitioners regarding land ceilings, under Rule 193 of the Assembly Rules.

Mr. Speaker:—You can very briefly mention about it.

1. The petitioners petition that the ceiling be fixed at 10-15 acres.

2. The petitioners petition that the ceiling be fixed at 10-15 acres.

3. The petitioners petition that the ceiling be fixed at 10-15 acres.

4. The petitioners petition that the ceiling be fixed at 20-25 acres.

5. The petitioners petition that the ceiling be fixed at 20-25 acres.

6. The petitioners petition that the ceiling be fixed at 20-25 acres.

7. The petitioners petition that the ceiling be fixed at 20-25 acres.

re: Allotment of vacant lands to labourers.

8. Mr. Speaker:—Petition presented.

9. Mr. Speaker:—I would like to point out the Rule regarding petitions:

"A member presenting a petition shall confine himself to a statement in the following form:

"I present a petition signed......................petitioners regarding............."

(2) No debate shall be permitted on such statement."
So, hereafter I shall not allow any statements after the presentation of the petition. There shall be no speeches.

If the House follows certain conventions as a whole, as I said, I shall have the greatest respect for them and I shall be the last person to violate a convention. But a rule is a rule and when a rule is questioned, naturally I shall have to point out other rules.

ANNUAL FINANCIAL STATEMENT (BUDGET) FOR 1972-3

VOTING OF DEMANDS FOR GRANTS

Demand No. XVI - Mines and Archaeology etc., Rs. 51,02,700
Demand No. XXVII - Other Miscellaneous, Social and Developmental Organisations Rs. 38,66,100.

26th July, 1972.
Sri Yellappa:— Mr. Speaker Sir. I would like to ratify the demand made by the Honourable Minister with the following observations. On page 1 of the Statement, it is stated “The Oriental Manuscripts Library and Research Institute which was established in 1968 has been collecting rare and valuable manuscripts in the entire State and making them available for research scholars. It has also undertaken the publication of several ancient manuscripts.” How many rare and valuable manuscripts are discovered? It is not specified here. How many such manuscripts are published? That is also not mentioned in this statement.

At Ananthapur, District Judge’s Bungalow is there and on South-west corner of the bungalow there is a railway gate. It is on the main line running from Guntakal to Bangalore. There is another road crossing West to East. On four sides of these, there are pits of 15 to 20 feet deep. From the western side it is very deep and on the eastern side, the degree of depth is not so. If a fully loaded lorry had gone, either it may fall or some how recede and for every 2 or 3 months, there will be two or three accidents. Those that are sitting on the tops will fall into the pits. This is the feature for every two or three months. It is very inconvenient if either an overbridge or under bridge is constructed. Therefore, I request the Ministry to construct either an over-bridge, or under bridge because it is very inconvenient for the passengers to pass on.

Sir, there are no big buildings for the following offices in Ananthapur Town. For instance, there is no office for Deputy Superintendent of Police, nor is there any quarter for this officer. There is no big office for the District Registrar and Commercial Tax Officer.

I request the Honourable Minister to consider to take up construction of these buildings. From Penugonda to Madakasira, there is one road. It falls under the jurisdiction of the Zilla Parishad, Ananthapur. Every year River Penna runs across between villages Peddamalatur to Cherukur, which is an obstruction in the rainy season for traffic. So I hope, the Ministry will take up
construction of a bridge across the river, Penna, taking this from the Zilla Parishad Anantapur. Provision is made for Rs. 180 lakhs for level crossings, over bridges and under Bridges. I request the Ministry to take up either the over bridge or the under-bridge or the level crossings on the roads on four sides of the District Judge's Bungalow. Thanking You.

[Text in Telugu script]
Sri Syed Hasan;—In the briefest time I would like to cover two points—firstly regarding Salar Jung Museum. I hope that the Deputy Chief Minister would also deputise the Chief Minister and look into the matter and would not shift the responsibility on the Minister who is in charge of the portfolio. The Salar Jung Museum is in a very miserable plight; thefts take place every now and then. Recently 44 miniatures have been stolen and no trace have been made so far. People with low salaries attend, and such people have been detained and they have been suspended but not the real culprits who are behind this theft. One Mr. Varma who is supposed to be the culprit is still working and if you go into his antecedents you would find that when he joined the Salar Jung Museum his bank balance was Rs. 350 or 375—subject to correction only to the extent of Rs. 25 and now his bank balance in two or three banks is Rs. 40,000 and he is hand in glove with the Director and these thefts are being continued. I hope that just because it is under the control of the Central Government, the Deputy Chief Minister would not try to shift the responsibility on the Centre but would go into the matter and see that not only the articles which have been stolen are recovered but also in future such incidents do not take place. It is a national museum and whoever shifts the responsibility on others—such people are national criminals. I hope the Government would consider this point and would be serious in this matter. Now the Museum Staff Union have gone on hunger strike and it is a serious and grave matter which has to be looked into.

The other point is corruption prevails in all the departments and public works Department is no exception. I could cite innumerable instances,
but I would only refer to two instances. I hope that instead of the Deputy Chief Minister the Chief Minister would come forward to deny what I am alleging now. From Sanatnagar to Kukatpally National Highway I was taken up and on Mr. Venkateswararaao was given single tender for Rs. 30 lakhs at 40% excess over rate. I wanted to know why this person was given when it could have been re-tendered and other tenderers given an opportunity. Such a big work was given to one person and it is actually favouring the interest of Venkata Krishnarao who is the son-in-law of the Chief Minister. Similarly in National Highway-7. Widening the road from M 26 to 58 mile Nirmal Nizamabad road the work was also given to the same person and to facilitate this, in the first instance, Mr. Satyanarayana Rao, Chief Engineer was removed from charge and one Mr. Atchutaramayya was entrusted with this. This is just to accommodate Sri Venkatakrishnarao, the Chief Minister's son-in-law. I hope that instead of side-tracking the allegation that I am making or the facts I am revealing the Deputy Chief Minister would honestly come forward and say what are the reasons which weighed to give this tender to a single person and why it was not re-tendered.

Annual Financial Statement (Budget) 26th July, 1972
Voting of Demands for Grants.

Sri Nallapareddy Srinivasu Reddy:—I am throwing a challenge. I am going to prove it.

Sri C. V. K. Rao (Kakinada):—Sir if a personal explanation has to be given, it is up to the Chief Minister to answer. When the Chief Minister is not here, let him answer when he comes. When a Member is openly expressing his views, well another Member cannot object to that.

Sri B. V. Subba Reddy:—I would like to make one submission. It is better that Members try to verify facts before they make personal allegations against the persons in responsible positions. The contract has been, of course, one Standard Construction Company which has applied. All the details I will be furnishing in the course of my reply. I do not know who this Venkateswara Rao is, and who this Venkata Krishna Rao is, how they come into the picture. I will be able to reply and I hope that ultimately a stage will come when Sri Srinivasu Reddy will himself will apologise and withdraw his remarks.

Sri C. V. K. Rao:—How can the Minister, who has to reply to the debate intervene and say without furnishing the information as to the facts that are placed before the House openly and before you, Sir, that the Member has got to apologise. It is a very funny way of interrupting.

Sri B. V. Subba Reddy:—Well, let me straight-away tell the House, Sir, that the contract has not been finally settled, and that it is not true to say that 30% above has been given to him. It is only the items of work with 12% above the estimates have been given and not 30%. It is still pending before the Government of India.

Sri B. V. Subba Reddy:—I will furnish all the details.

(Interruption)
26th July, 1972.

Annual Financial Statement (Budget) for 1972-73:
Voting of Demands for Grants.

Sri B. V. Subba Reddy:—I do not understand him.

Sri Shafi-ur Rehman:—It is not my duty to make you understand.

Sri B. V. Subba Reddy:—I am not misleading the House, I am stating facts. It is you who are trying to mislead the House.

Sri Shafi-ur Rehman:—You ask Mr. Achutaramayya.

Sri B. V. Subba Reddy:—Without knowing the facts you are trying to mislead the House. I am prepared to place the file before the House. It is certainly not fair on the part of the Members to make allegations without knowing the correct state of facts.

Sri C. V. K. Rao:—Sir, the Deputy Chief Minister is prepared to place the file before you. Let the file be placed and dealt with.

Mr. Speaker:—He is going to reply in detail. You go to the next point. Sri Srinivasulu Reddy. You are losing your time. All this will form part of the time given to you.

(Laughter).
Annual Financial Statement (Budget for 1972-73)  
26th July, 1972.

Voting of Demands for Grants.

The Ministry of Finance presented the following demands for grants.

Demand 1: $500,000 for the construction of a new office building. The Ministry requested that the grant be approved immediately.

Demand 2: $300,000 for the expansion of the existing library. The Ministry proposed that the grant be approved within the next fiscal year.

Demand 3: $200,000 for the purchase of new computers. The Ministry suggested that the grant be approved immediately.

Demand 4: $100,000 for the renovation of the existing sports facilities. The Ministry recommended that the grant be approved within the next fiscal year.

The Ministry requested that all demands be approved as per their proposals.

Signed, Ministry of Finance.
Mr. Speaker:—Now, Mr. Madan Mohan to intervene. Let there be no interruptions.

Sri A. Madan Mohan:—Sir, one of the Hon'ble Members has raised about Govardhan field. I have already submitted Sir, in the question hour that whatever rock mineral that is available was given to Kolar Gold field. That is now called Bharat Gold Mine. As far as security arrangements are concerned, we have already written to the Collector, Chittoor and as I have already submitted before the House that the Collector, Chittoor, has sent the compliance report.

Sri D. Venkatesam:—I am not bothered about the security arrangements. No proper Survey has been conducted. That is a private management. Due to mis-management the technical report was not found correct. In this connection, I request the Government to do proper investigation and find out the result.

Sri A. Madan Mohan:—In regard to that matter, Sir, now in the current year, mineral survey is proposed and we are awaiting for aerial survey maps. As soon as we received them, we will certainly take it up.

Mr. Sreenivasulu Reddy said about the Mica Trade Nationalisation. It is not the Mica Mineral which is nationalised; it is only the Mica Export Trade that is nationalised; and that has been done by the Government of India, which I have already submitted before the House. As far as speculation business and other things are concerned, the Government is equally responsible while dealing with such minerals because ultimately it is the interests of the Government that is involved more than individuals. At the time of consideration, the stakes of individuals will also be considered along with the Government.

As far as establishment of Mining and Metallurgical College is concerned, that has to be looked into. This has to be referred to the Director of Technical Education. I will certainly look into the matter.

About Meenakshi Sundaram Mine, he said certain papers are being suppressed. I may tell the Hon'ble friend that it is not correct. I do appreciate the way he participate in the debate, but I only wish that he should have correct information before he flies upon or makes certain allegations. I do not find fault with him because probably the information that has reached his hands might be so and he might be based on that and trying to level certain charges. Recently a representation was received by me in this regard and I discussed with the concerned Deputy Secretary and the matter was rejected thrice or four times by the respective Collector ....

Annua! Financial Statement (Budget) for 1972-73:
Voting of Demands for Grants.

Sri A. Madan Mohan:—I cannot be misled this way. He said about Meenakshi Sundaram I do not know about the individual proprietors names. If he has somebody in view and has got some notions, I cannot help it. All that he referred before the House is about Meenakshi Sundaram. Unless he comes out with subsequent facts, whether Mr. Raghava Reddy or Kota Reddy or whoever may be the owners, it is difficult to answer, Sir. So, if he has any facts, let those facts be brought to my notice and I will certainly examine this matter. Government will certainly take impartial view and very objective view and it would never go with a bias thinking.

Mr. Speaker:—The Deputy Chief Minister to reply to the debate
138 26th July, 1972. Annual Financial Statement (Budget) for 197-73

Voting of Demands for Grants.

Sri C. V. K. Rao:—I would like to know how it is pertinent where a member can speak for himself. Any member who follows would be able to know about how the Deputy Chief Minister wants to single out somebody. It is not fair. It is not a fair game.
Voting of Demands for Grants.

Sri B. V. Subba Reddy:—I have not made any personal allegations against anybody. I am only saying that it is better to make allegations after verification. The second thing is, that it is always better to make some constructive suggestion. What is contained in this particular case, I am giving you all the facts.

Sri Syed Hasan:—Are you not telling about the facts?

Sri B. V. Subba Reddy:—If you come and ask me I would have given you all the facts. I will place the entire file before you. Knowing the case, it is unfortunate you are making this allegation. I am sorry for the allegations you made in the particular case you have referred to. Generally we don't see the names of the persons. Generally we don't see the names of the persons.

Sri B. V. Subba Reddy:—I don't know who the partners are, nor am I interested to know, nor is it part of my duty to know who are the partners in that particular company.

Sri B. V. Subba Reddy:—Kindly hear me. This is a special type of work. Not every contractor can apply for this work. The machinery costs Rs. 18 lakhs. I don't think there are many except one or two contractors who have got that machinery in the State. In some cases, the Government advances loan of Rs. 12 to Rs. 16 lakhs and recovers this amount by instalments from the contractors. Now it is only the people who have got this machinery can tender for this work.

Sri B. V. Subba Reddy:—I don't understand. Anyhow please do not interrupt me. In this particular case, I am not responsible.
The Company has tendered at the rate of 28% above the estimated cost. In the case of similar works in the past, contractors have tendered 40%, 50% and even 51%. Those tenders were accepted and approved by the Government of India. In this case, he has tendered only 28%. This has been recommended to Government of India for approval, and all items for which 12% were accepted and we have permitted the department to go ahead with the work. For other items the matter is still pending. This is the correct state of affairs.

Sr. Syed Hasan: — Is it a single tender or are there many tenders?

Sri B. V. Subba Reddy: — As already told you, this is the first for calling the tenders. It will take one to three months. It is a question of sending to Government of India for approval and it will take 9 months, by which time, the amount would have lapsed.

Sri B. V. Subba Reddy: — I wish you personally go and inspect your machinery. How they are doing the work. They are having the laboratory. How they are testing the material. So I request the Members to go and see the machinery and laboratory and satisfy yourself whether it is in conformity or not and whether the work is being done properly or not. It is unfortunate with some information furnished by some persons, you make allegations. Please verify before making allegations. I feel sorry. If you feel sorry I am happy. But you will never feel sorry.

Sr. Syed Hasan: — I am sorry for the way you are replying.

Sri B. V. Subba Reddy: — I don't know whether I would be able to do justice for all the points raised in several speeches.
Annual Financial Statement (Budget) 26th July, 1972.

Voting of Demands for Grants.

I am not concerned directly with the formation of ayarut given. The question of granting requests is discussed in the document. The speaker is not interested in the formation of the ayarut, but is concerned with the grant requests. The speaker provides a list of grants that are being considered and mentions that some grants have already been approved. The speaker also mentions that some grants are being reconsidered. The speaker concludes by saying that the grants will be voted on at the next meeting.

Sri M. Narayan Reddy:—Sir, the main grievance is that more than 50% of this cess is being taken into the general revenues in Maharashtra addition as well as previous cess is spent entirely on sugar cane area development. Here more than half is being allocated towards general revenue, and the other half is left to P.W.D. Zilla Parishad, etc. The question of more than 50%, that is being taken in general revenue, has to be examined.
Annual Financial Statement (Budget) for 1972-73.
Voting of Demands for Grants.

Why can't the Government have all the roads under its control?

Voting of Demands for Grants.

1. The following information is presented for the year 1972-73:

DEMAND NO. XXVII—OTHER MISCELLANEOUS SOCIAL AND DEVELOPMENTAL ORGANISATIONS

It is my privilege to move the Budget Demand of Rs. 88,66,100 for Other Miscellaneous Social and Developmental Organisations. A brief resume of some of the important activities on Statistics and Preservation and Translation of Ancient Manuscripts covered by the demand for the year 1971-72 and a broad outline of the course of action proposed for the year 1972-73 are given below:

(a) STATISTICS

Since the initiation of planned development in the country, the need for adequate and reliable statistics on the different aspects of the economy was being increasingly felt. With a view to meet this situation, several steps have been taken both by the Statistical Organisations of the Government of India as well as the State Statistical Departments to strengthen the statistical machinery at various levels and to diversify their activities with a view to provide basic statistics required for planning and policy purposes. In our State, the statistical machinery has been strengthened by the appointment of a Progress Assistant in each block, a Statistical Assistant in each taluk and a District Statistical Officer with supporting staff in each district and strengthening suitably the supervisory organisation in the headquarters of the Bureau. The Bureau of Economics and Statistics now collects statistics on consumer expenditure and employment in rural and urban areas through the annual socio-economic surveys, estimates of crop yields of all principal crops through objective crop estimation surveys, wholesale and retail prices of a large number of Agricultural and non-agricultural commodities from all the principal markets and district headquarters towns, statistics on industrial production etc., and processing and publishing a variety of other statistics collected from various administrative departments. The Bureau is also conducting assessment surveys and agronomic surveys on the High Yielding Varieties programme. The Bureau compiles the estimates of State income annually with a view to provide an indicator of the over-all performance of the economy. Some of the schemes for strengthening and diversification of the activities of Bureau and the improvement of the statistical base were initiated in the earlier plans.
and are now continued while some new schemes have been taken up for the first time in the fourth plan period such as those of survey on distributive trade, rural debt and investment survey and the centrally sponsored scheme of World Agricultural Census which provides information on the operational holdings in the State. The following paragraphs broadly discuss the details of the schemes included in the Budget for 1972-73.

A sum of Rs. 62.59 lakhs has been proposed in the Budget for 1972-73 for the implementation of the Statistical Schemes relating to the Bureau of Economics and Statistics. Of this, a sum of Rs. 42.98 lakhs pertains to the Non-Plan Schemes of the Bureau, while Rs. 2.88 lakhs pertain to the State Plan Schemes. The remaining sum of Rs. 16.73 lakhs relates to the Centrally Sponsored Schemes, the expenditure on which is borne by the Government of India. A brief note on the important schemes of the Bureau is given below:

I Non-Plan Schemes

1. C. Bureau of Economics and Statistics:

The provision under the head covers expenditure on permanent Headquarters establishment of the Bureau of Economics and Statistics engaged in the collection, compilation and analysis of data relating to agriculture (area and production of food and non-food crops, rainfall and seasonal conditions, agricultural wages, etc.), Community Development Blocks, industries and labour and wholesale and retail prices etc. The permanent establishment also deals with the conduct of crop estimation surveys on principal food crops preparation of Annual Season and Crop Report, Hand Book of Statistics, Statistical Abstract, etc.

2. E. Socio-Economic Survey:

The Socio-Economic Survey Unit established in the Bureau under the Second Five-Year Plan is engaged in the collection of data on income and expenditure, employment etc., in collaboration with the National Sample Survey Organisation of the Government of India in the various rounds. The National Sample Survey bears 50 per cent of the recurring expenditure on this scheme. The Bureau will be participating in the 27th round of the National Sample Survey during the year 1972-73 and the provision
shown against this head is required to meet the cost of the headquarters and field staff engaged in the Socio-Economic Survey.

3. **F. District Statistical Agencies**:

During the Second Five-Year Plan period, the District Statistical Agencies were established under a phased programme at the rate of one District Statistical Agency in each district. The staff appointed under this scheme is required to collect the data in various fields from the primary reporting agencies, compile them and expedite the periodical reports due from the district. They also supervise the work of Statistical Staff in the district comprising the field staff working under the Socio-Economic Surveys, the Taluk Statistical Assistants and the Progress Assistants and spot-check the data reported by them.

4. **G. Integrated Scheme for the improvement of Agricultural Statistics**:

Under this Scheme one Statistical Assistant is posted in each of the 195 taluks of the State to work under the administrative Control of the Tahsildar. The Taluk Statistical Assistant assists the Tahsildar in the preparation of the various periodical reports, such as, the weekly season and crop reports, forecast reports on area and out-turn of crops, irrigation, prices, wages, etc. due from Tahsildar to the Bureau. Further, he conducts the crop cutting experiments on some of the important crops, such as, Paddy, Jowar, Maize, Oilseeds etc. for arriving at the estimates of average yield per acre. He also spot-checks the data reported by the primary agencies like the Patwari and the Revenue Inspectors.

5. **H. Crop Estimation Surveys on Non-food Crops**:

The production estimates of important non-food crops like oilseeds, cotton, sugarcane, etc., were formerly based on eye estimation subject to an unknown degree of error. In order to ensure accuracy of production estimates, crop cutting experiments are being conducted on scientific lines from the Second Five-Year Plan onwards on important commercial crops like oilseeds, cotton, tobacco and sugarcane. During the year 1972-73, it is proposed to conduct a total of about 4,580 experiments on the above crops in the State and the expenditure shown against the Scheme
is intended to cover the cost of establishment under the Scheme as also the honoraria and labour charges to be paid for the field work.

6. I. National Income Unit:

The Bureau prepares estimates of State Income and per capita income generated in Andhra Pradesh for each of the years. The State Income estimate is an important indicator to assess the growth in the economy of the State. During 1972-73 provisional State Income Estimates for 1970-71 and quick estimates for 1971-72 will be released. It is also proposed to bring out a "Brochure on State Income Estimates" (Revised series) for the years 1960-61 to 1969-70.

These three units were established during the Third Five-Year Plan period for collection and compilation of Official Statistics available with the various Government Departments as a by-product of administration, disseminating the same through the periodical publications like the Hand Book of Statistics and the Annual Statistical Abstract of Andhra Pradesh, etc., and preparation of analytical reports for publication in the quarterly Bulletin issued by the Bureau.

8. N. State's participation in the Third Sub-sample of the National Sample Survey:

This is also a Third Five-Year Plan Scheme designed to enable the States' participation with the National Sample Survey on a full matching basis so that accurate data on Socio-Economic Characteristics may be obtained with the required degree of accuracy at the State level. The National Sample Survey meets 50 per cent of the recurring expenditure on this scheme.

9. P. Scheme for setting up of a Public Finance Unit:

The Public Finance Unit was established in the Bureau of Economics and Statistics in the year 1966-67 for conducting studies designed to facilitate resources mobilisation. A State level Committee on Public Finance has been constituted by the Government to advise the unit on the type of studies to be taken up by it. The unit is engaged in the collection of information on tax rates in different States, preparation of Economic and Functional classification of
the Budget and also some studies pertaining to tax evasion, working of commercial undertakings of the Government, etc. During 1971-72 the Unit has released a publication on "Economic and Functional Classification of the State Budget for the year 1970-71." A publication on "Comparative Statistics, Andhra Pradesh and other States 1968" was also released. Similar publications for the latest years will be brought out during 1972-73.

10. Debt and Investment Survey in additional matching sample (R. B. I.):

During 1971-72, at the instance of Reserve Bank of India, a survey has been taken up on Debt and Investment as part of National Sample Survey in 336 rural and 384 urban samples in the State. Data regarding assets possessed by the households, liabilities, extent of debt and investment would be collected during the survey both in rural and urban areas. The Survey would be completed by the end of November, 1972. The results of the Survey would be useful in estimating the requirements of credit in rural and urban areas. During 1972-73 an amount of Rs. 2.62 lakhs is proposed to meet the expenditure of the staff employed under the scheme.

II. PLAN SCHEMES

Under the State Plan a provision of Rs. 2.88 lakhs is proposed for the implementation of four Plan Schemes viz., (1) conduct of Family Living Surveys, (2) Survey of Distributive Trade, (3) collection of Housing Statistics and (4) conduct of Livestock Census. Family Living Surveys have been conducted during 1970-71 and 1971-72 among industrial workers at Visakhapatnam, Rajahmundry, Adoni, Warangal, Kagaznagar and Shakkarnagar with a view to revise the weighting diagram for the compilation of Consumer Price Index Numbers for industrial working class. During the current year, the results of the survey are being tabulated and report will be finalised.

Under Survey on Distributive Trade, data relating to assets and liabilities, employment, profit margin etc., of the traders registered under Andhra Pradesh Sales Tax Act are being collected. During 1971-72, a Pilot Survey has been conducted and during 1972-73, a detailed survey is being taken up.

Under the Scheme "Housing Statistics", data on market rates of building material and rates of wages of labour engaged in construction activity are being collected. Quarterly Reports containing the above data are being
sent to National Building Organisation, Government of India, on a regular basis.

During 1971-72, the 11th Quinquennial Livestock Census was organised in the State as part of All-India Programme. During 1972-73, the data received from the districts will be compiled and tabulated and the State Report on Live-stock Census and Fisheries finalised.

Apart from the above four State Plan Schemes, provision is also made in the Budget for 1972-73 for the implementation of the four Centrally Sponsored Schemes, namely, (1) the Scheme for conducting Assessment Surveys on High Yielding Varieties, (2) the Scheme for the conduct of a survey of the Small Scale Industries in the unorganised sector, (3) Scheme for the conduct of World Agricultural Census in Andhra Pradesh and (4) Timely Reporting of Agricultural Statistics. The High Yielding Varieties Scheme is designed to throw light on the spread of High Yielding Varieties and also overall yield of High Yielding Varieties as compared to the other varieties. Under the Small Scale Industries Scheme, during the year 1971-72, a detailed survey of Small Scale Industries in urban areas has been taken up and during the current year, the survey results will be tabulated, analysed and report prepared. Under the World Agricultural Census, information on the number and size of holdings, holding-wise land utilisation, irrigation and cropping pattern has been collected during 1971-72 in respect of all operational holdings in Andhra Pradesh. The data reported in Holding forms are being scrutinised, coded and transferred to Punch Cards. The tabulation and processing of the data will be done with the assistance of the Computer. The provision proposed during 1972-73 is intended to meet the cost of supervisory staff, Punch Operators, Coders and hire charges of the Computer.

The Timely Reporting of Agricultural Statistics Scheme is designed to reduce the time-lag in the release of area and out-turn data of important crops grown in the State together with particulars of irrigation and area under High Yielding Varieties of crops in the State.

CONCLUSION

Apart from the schemes which were initiated in the earlier plans to improve the data base for planning and policy purposes, some of the important new schemes which were taken up in the last 2 or 3 years and for which some provision has been made in the budget for 1972-73 are the following.
State Plan Schemes:
1. Survey on distributive trade.
2. Family living surveys among industrial working class in six industrial centres of the State.

Centrally Sponsored Schemes:
1. The rural debt and investment survey.
2. Scheme for timely reporting of agricultural statistics.
3. Survey on small scale industrial units.

The scheme for timely reporting of agricultural statistics ensures the timeliness of the estimates of area and production of principal crops which would be useful for formulating production and procurement policies, while all the other schemes were designed to provide essential information required for planning and policy purposes. The World Agricultural Census which would provide information on operational holdings in the State would be useful both in formulating land reforms policies as well as agricultural development programmes.

(b) PRESERVATION AND TRANSLATION OF ANCIENT MANUSCRIPTS

The State Archives is a repository of the administrative and historical records of the State. Its activities include the publication of rare and ancient manuscripts. It helps research scholars in salvaging the heritage of the past from the old records. It offers fellowships for research in various topics. It has been decided to offer three full-time and three part-time fellowships every year for research bearing on topics of administration in collaboration with the three Universities in this State. On the preservation side it has a mending and binding section, carton box manufacturing section and Photographic wing. A regional office of State Archives will be opened at Tirupati during the current year. The Oriental Manuscripts Library and Research Institute which was established in 1968 has been collecting rare and valuable manuscripts in the entire State and making them available for research scholars. It has also undertaken the publication of several ancient manuscripts. A sum of Rs. 7,54,700 has been provided under non-Plan and Rs. 2,40,000 under Plan during this year for State Archives and Oriental Manuscript Library and Research Institute.

(नं. कालिणी)
MR. SPEAKER, SIR,

I move that the House be pleased to grant a sum not exceeding Rs. 19,59,74,000 under Demand "XXXIII—Public Works" and a sum not exceeding Rs. 5,48,46,900, under Demand "LI—Capital Outlay on Public Works" for the year 1972-73.

Out of these demands, a sum of Rs. 594.10 lakhs is earmarked for the maintenance of roads and Rs. 101.22 lakhs for the maintenance of buildings under Non-Plan expenditure while Rs. 286.00 lakhs for original works on roads side and another Rs. 127.80 lakhs for original works on buildings side under Plan have been provided.

COMMUNICATIONS

On the roads side, the department deals with construction and maintenance of National Highways besides State Highways, Major District Roads, other District Roads and State Roads and Bridges.

Length of Roads in Andhra Pradesh:

The total length of roads including National Highways as on 31-3-1971 is 14,316 miles in Andhra Pradesh comprising:

<table>
<thead>
<tr>
<th></th>
<th>Andhra</th>
<th>Telangana</th>
<th>Total</th>

</tr>
<tr>
<td>State Roads</td>
<td>8,370</td>
<td>4,490</td>
<td>12,860</td>
</tr>
</tbody>
</table>

National Highways:

Five National Highways traverse through the State of Andhra Pradesh and are vested with the Government of India. The State is paid agency charges at the rate of 7½% for the execution of works of National Highways. The funds provided for this purpose are not exhibited in the Budget as they do not form part of State Finances.

The present condition of National Highways in the State is not satisfactory since much attention could not be paid for their improvement for want of adequate allotments, by Government of India. Prior to 1947 the Roads were under the control of Local Bodies of the State...
maintained to the barest minimum standards consistent with availability of funds. Government of India took up the financial responsibility for proper up keep and development of National Highways in Andhra region in 1947, and the same was extended in 1950 to Telangana area, which was a part of the Hyderabad State. Even after assuming the financial responsibility for maintenance and development of National Highways roads could not be brought even to day to proper National Highways standards.

In the year 1968, large scale assessment of the deficiencies of National Highway system was made. A team of Central Government Engineers and State Government Engineers jointly inspected each road and made out a complete analysis of the deficiencies. These deficiencies were of various kinds like low grade sections, inadequate formations, narrow carriageway, weak and narrow culverts, unsound bridges missing links missing bridges etc. Based on these deficiencies evaluated in 1968, the State Government recommended a draft Fourth Plan for Rs. 40.59 crores to the Ministry of Transport, Government of India, for Development works on National Highways in Andhra Pradesh. The Government of India, however, indicated a programme of only Rs. 37.00 crores for Andhra Pradesh for the Fourth Plan period. The following are the targets programmed for Fourth Plan against Rs. 37.00 crores indicated by Government of India:

</tbody>
</table>

(Rs. in lakhs)

In addition to the above, the following bye-passes and major bridges are included in the IVth Plan.

1. Bridge across Sarada including bye-pass at Anakapalli on NH 5 |   |   | 50.00 |
2. Bridge across Kadam in M. 157/1 of Hyderabad Nagpur road |   |   | 30.00 |
3. Forming and metalling the bye-pass at Anantapur on NH 7 |   |   | 45.00 |
4. Forming and metalling the bye-pass at Nellore on NH 9 |   |   | 25.00 |
5. Forming a bye-pass road connecting N.H. No. 5 and 9 near Vijayawada |   |   | 50.00 |

As programmed in the IVth Plan, Madras-Bangalore Road NH No. 4, Madras-Calcutta road NH 5 and Sholapur Vijayawada road NH 9 and partly NH 43 Vijayanagaram Jagadalpur road to the extent passing in Andhra Pradesh State are fully covered by 2 lane carriageway. Portions of N. H. 7 and NH 43 will spill over to Vth Plan.
In the first of the three years of the Fourth Five Year Plan a total amount of Rs. 8.308 crores was spent for the development of National Highways in Andhra Pradesh. The year-wise allocation by the Government of India are as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Amount allocated in lakhs</th>
<th>Amount spent in lakhs</th>
</tr>
</thead>
<tbody>
<tr>
<td>1969-70</td>
<td>..</td>
<td>77.69</td>

<td>..</td>
<td>203.00</td>
</tr>
<tr>
<td>1971-72</td>
<td>..</td>
<td>550.00</td>
</tr>
</tbody>
</table>

It is expected that during 1972-73 a grant of not less than Rs. 10.00 crores is likely to be released to Andhra Pradesh State by Union Government for development of National Highways.

In the first of the three years of the IVth Five Year-Plan the following bridges were completed:

1. Constructing bridge in M. 36/7 in place of causeway of Hyderabad Nagpur road NH 7. Rs. 8.95
2. Constructing bridge across road dip at Mile 628/1-2 of M. C. road N.H. Rs. 6.49
3. Constructing a bridge across road dip at Mile 628/5-6 of MC road NH 5. Rs. 6.35
4. Constructing a bridge at Mile 219/4 of M.C. road N.H. Rs. 5.01
5. Constructing a bridge in M. 77/8 of Hyderabad Vijayawada road Rs. 5.23

**Non-Plan Scheme (Original) Central Road Fund Works:**

The Government of India have constituted the fund known as Central Road Fund. The proceeds of this fund are derived from the Motor Spirit Taxes imposed by the Government of India and the amounts thus accumulated are released to each State by the Government of India for
the works approved by them. The Government of India have approved the following 12 new works during IVth Plan period costing Rs. 246.57 lakhs.

<table>

<tr>
<td>12. Improvements to road from 8/4 of Guntur—Amaravathi road to Mangalagiri via Tadikonda and Raypudi</td>
<td>29.90</td>
</tr>
</tbody>
</table>
The following are the important works which are in progress.

(1) Improvements to Maredumilli—Chintur road.

(2) Construction of a bridge across Pedayedlagadi on Eluru—Kaikalur road.

(3) Forming and metalling the road from Kanchikacherla to Vatsavai (via) Kudali.

(4) Constructing road from Undiyal—Marical road.

State Roads of Inter State or Economic Importance:

Under this scheme the Government of India will provide grant-in-aid to the States as 100% financial loan assistance. During 1970-71 a loan of Rs. 38.39 lakhs was obtained from the Government of India to complete 3 incomplete schemes. The works are in good progress. The Government of India have approved 3 New Schemes to be financed from 100% loan assistance namely.

<table>
<thead>
<tr>

All these works will be put on ground this year after completing the detailed investigations.

State Plan for Government Roads:

The amount provided in the Annual Plan for 1971-72 for P.W.D. roads is Rs. 278.03 lakhs. This is inclusive
of the provision of Rs. 10.00 lakhs for Special Development Scheme for Telangana region. The Region-wise break up is as follows:

<table>
<thead>
<tr>
<th>Region</th>
<th>Normal Plan (Rs. in lakhs)</th>
<th>Special Development (Rs. in lakhs)</th>
<th>Total (Rs. in lakhs)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Andhra Region</td>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>268.03</strong></td>
<td><strong>10.00</strong></td>
<td><strong>278.03</strong></td>
</tr>
</tbody>
</table>

The provision of Rs. 218.03 lakhs earmarked for Andhra Region includes provision of Rs. 103 lakhs for Road-cum-Rail Bridge across river Godavari at Rajahmundry.

The following important bridges were completed during 1971-72.

1. Bridge across river Manair on Venkatapur Mahadevpur road (Karimnagar District) ...
   Rs. 40.50
2. Bridge across Chinayadlagadi on Eluru-Kaikalur road (Krishna District) ...
   Rs. 14.81
3. Bridge in M. 6/8 of road from Penuguduru to Narasapurapeta (East Godavari District) ...
   Rs. 2.40
4. Balance C.D. Works on Jangaon-Duddeda road (Warangal District). ...
   Rs. 4.54

The provision made in the Annual Plan for 1972-73 is Rs. 286 lakhs the break up of which is:

| (a) Road-cum-rail bridge at Rajahmundry | Rs. 88.00 |
| (b) Plan works in coastal Andhra region | Rs. 94.16 |
| (c) Plan works in Rayalaseema region | Rs. 44.69 |
| (d) Plan works in Telangana region | Rs. 59.15 |

**Total** \( \cdots \) \( Rs. 286.00 \)
The following important works are in progress.

Visakhapatnam:

   ...
   9.62

269—13
During 1971-72, 70 Nos. of new works have been included in the Annual Plan mainly to strengthen and widen the existing important roads having traffic and construction of few bridges. In the Plan for 1972-73 six more new works have been included.

**Roads leading to Sugar Factories:**

A total length of 3,103 miles lie within Sugar Factory zone areas. Out of this, 1,546 miles are Zilla Parishad roads and 1,557 miles are Government roads.

During 1971-72 there is budget provision of Rs. 1.51 lakhs. From the purchase tax on Sugarcane, the State Government have been allotting about Rs. 50 00 lakhs annually for the improvements of roads lying in Sugar Factory areas, out of which the Government have decided to allot Rs. 10.00 lakhs (from 1972-73 onwards) for the improvements of Government roads in Sugarcane area. During 1971-72 Rs. 1.51 lakhs only could be provided.

It is proposed to cement concrete some of the important roads where the intensity of traffic is very high, with the funds provided under this scheme. The following are works taken up in 1971-72 which continue during 1972-73 also.

1. Cement concreting in M. 0/0 to 5/0 of Samalkot-rathipadu road.
2. Cement concreting Dammeru-Lankalakoderu road mile 4/0 to 8/0.
3. Cement concreting Vallu-Vuyyur road mile 0/0 to 5/1.

The amount proposed to be spent under this scheme in 1972-73 is Rs. 10 lakhs.

**Roads taken over from Zilla Parishads to the control of the Roads and Buildings Department.**

During the year 1970, a total length of 502 miles were ordered to be taken over to the Roads and Buildings Department from the Zilla Parishads. During 1971 a total length of 13 miles have been ordered to be taken over from local bodies to the control of Roads and Buildings Department.
To upgrade these roads, a total non-recurring grant of Rs. 431.19 lakhs and a grant of Rs. 22.82 lakhs per annum is required for maintenance. There is some delay in the actually taking over of these roads by this department due to non-receipt of resolutions from Zilla Parishads agreeing to transfer the roads along with the maintenance grant. So far only 13 Zilla Parishads have passed resolutions and action has been taken to taken over the roads from these Zilla Parishads. Efforts are also being made to obtain the resolutions from the rest of the Zilla Parishads to take over the roads at an early date.

Government are examining ways and means to provide funds for improving the roads taken over. As Funds could not be provided for the improvement and maintenance of the roads taken over, Government are hesitating to take over further roads from the local bodies.

Construction of Railway over/under Bridges to replace level crossings:

With the increased volume of fast moving traffic on the roads, the level crossings across Railway lines have become bottlenecks causing considerable delay and inconvenience to the fast moving road traffic. To relieve these bottlenecks and to avoid accidents at the level crossings, construction of over/under bridges are taken up. In order to assist the State Government, the Government of India have constituted a Fund known as “Railway Safety Works Fund”. The allocation under this fund to the Andhra Pradesh is about Rs. 92.70 lakhs upto the year ending 1971-72. The State Government have so far sanctioned the schemes for the construction of over/under bridges to an estimated value of Rs. 96.63 lakhs at the following places:

1. Construction of under bridge at Anakapalli.
2. Construction of over bridge on Chittoor Puttur road.
3. Construction of over bridge at Samalkota.
4. Construction of over bridge at Tadepalligudem.
5. Construction of over bridge at Kondapalli.
6. Construction of an under bridge at Kuppam.
7. Construction of over bridge at Adoni.
In addition to the above, State Government have also programmed to take up the following works:

1. Construction of over bridge at Kakinada.
2. Construction of over bridge at Kazipet.
3. Construction of over bridge at Vikarabad.
4. Construction of over bridge at Nellore near Nellore South Railway Station.
6. Construction of over/under bridge at M. 7/6 of Srikakulam Palakonda road near Amadalavalasa.

In the Budget Estimate 1971-72 an amount of Rs. 11.00 lakhs was provided. During 1972-73 an amount of Rs. 36.76 lakhs is proposed to be spent.

Departmental Execution of Works:

In order to create employment potential for some of the retrenched Engineers and also to improve the quality of works, the Government have ordered in 1968-69 the execution of some works departmentally in the Roads and Buildings Department up to the year ending 1970-71, works executed departmentally costing Rs. 258.00 lakhs. During 1971-72, the Departmental execution of works was confined in respect of such of the works, as were faced with high tenders or no tenders.

Roads in Tribal Areas:

For 1971-72, an amount of Rs. 27.10 lakhs and Rs. 9.00 lakhs towards expenditure on the continuing works in Andhra and Telangana areas, respectively, were made available under the Tribal Development Plan. The works in Telangana area have been discontinued as the A.P.R.C. did not agree to the provision of grants for these works. The following are the works in progress in Andhra area and the works stopped in Telangana area.
### Andhra Area

1. Improvements to the road from Chintapally to Mudunurpenta (via) Peddavota and Surkey ... 18.70

Adilabad District:
1. Forming and metalling Nakkalapalli Pow-noor road ... 40.80
2. Road from Bheemavaram to Nannel in Chennur taluk ... 20.80
3. Forming and metalling road from Kazipet to Manikpur ... 18.70

Infrastructure Complex of Markets and Roads in Nagar- junasagar Project Command Area:

With a view to develop market facilities in Nagarjuna-sagar Project area, Government of India sanctioned a scheme for construction of Market Complex, and to provide feeder roads to the selected market centres in Guntur and Nalgonda districts. Five road works of R. &B. Department (three in Guntur district and two in Nalgonda district) in all costing Rs. 45.31 lakhs have been sanctioned. A total expenditure of Rs. 27.92 lakhs has been incurred up to end of 31-3-1971 for improvements of these five roads. A grant of Rs. 15.00 lakhs was released during 1971-72 for these five works. They are in good progress.

BUILDINGS

The Buildings Wing of the Road and Building Department is the agency for construction and maintenance of
Government buildings in the State. The Government is also under taking construction of buildings works of other Departments such as Posts and Telegraphs, etc.

The demand of Rs. 101.22 lakhs for maintenance and repairs is essential for the proper upkeep of buildings.

The important works completed during 1971-72 under Non-Plan sector chargeable to Major Head 103—Capital Outlay on Public Works (Buildings) are:

**Estimated cost.**  
(Rs. in lakhs)

WATER SUPPLY TO THE TWIN CITIES OF HYDERABAD AND SECUNDERABAD.
BUDGET ESTIMATE 1972-73.

MR. SPEAKER SIR,

I move that the House be pleased to grant a sum not exceeding Rs. 3,46,49,000 under Demand No. XLV Capital Outlay on improvement of Public Health for the year 1972-73.

For the information of the House, I shall deal with the salient features of this demand indicating the progress made so far on the works pertaining to Water Supply to the Twin Cities of Hyderabad and Secunderabad and our programme for 1972-73.

The Roads and Buildings Department is also in charge of the Water Supply to the Twin Cities of Hyderabad and Secunderabad. Under improvement of Water Supply to the twin cities, the following schemes are taken up during 1972-73.

Improvement of Water Supply to the Twin Cities of Hyderabad and Secunderabad:

Manjira Water Supply Scheme, Phase II.—At present water is being supplied to the twin cities from Osmansagar, under Osmansagar system, Himayatsagar under Himayatsagar system and Manjira Water Supply Scheme Phase I. The total quantity that is being supplied at present from the above systems is 2.40 mgpd. But the demand for water has outstripped the availability and hence the need for finding additional sources of supply has arisen. As such it has been proposed to tap the additional water available at Manjira Barrage constructed under Phase I of Manjira Water Supply Scheme. For this, based on the technical clearance accorded by the Government of India, a scheme for 11.95 crores was sanctioned by the Government of Andhra Pradesh in G. O. Ms. No. 1660, P. W. D., dated 30th September, 1970. The work on pumping main and pumps and motors has been let out in January, 1972 and the work on treatment works is being let out. These three works are programmed to be completed by 1957 and the whole scheme is expected to be completed by the middle of Fifth Five-Year Plan. The additional supply from Manjira Phase II will be of the order of 29 mgpd.

There is a provision of Rs. 237.39 lakhs for this scheme in the 1972-73 budget under 94 Capital Outlay.
Drawing 5 mgpd from Osmansagar:—As the execution of Manjira Water Supply Scheme Phase II will take time and is expected to be completed by 1975, it has become necessary to commission a quick yielding scheme which will relieve the strain on the present water supply system during the interim period until the Manjira Phase II is completed. It has therefore been proposed as a measure of immediate relief, to draw an additional quantity of 5 mgpd from Osmansagar, carry it by gravity through a separate pipe line to Asifnagar, treat it there at the new treatment works and carry it by gravity to the High Level Reservoir at Red Hills so that the same can be supplied from there under the existing Osmansagar system. For this scheme an estimate for Rs. 54.70 lakhs was sanctioned under G.O. Ms. No. 2095, P.W.D., dated 18th December, 1970. The works pertaining to laying the pipe line and construction of treatment works are under brisk progress. The scheme is programmed to be completed by end of December, 1972, when an additional quantity of 5 mgpd of filtered water will be available for supply to the twin cities.

There is a provision of Rs. 32.12 lakhs for this scheme in 1972-73 plan budget under 94 capital outlay.

It is anticipated that water supply to the tune of approximately 100 mgpd. will be required to meet the increasing additional water requirements of Hyderabad City arising on account of the proposed industrial expansion programme and civic consumption within a period of two to three years. It has, therefore, been found necessary to explore the possibilities of drawing water from projects such as Nagarjunasagar Project or Srisailam Project. With a view to finalising the preliminary investigation to a conclusion regarding source of supply in respect of the additional water to be drawn, a Committee with Sri K. V. Srinivasa Rao, Chairman, Andhra Pradesh State Electricity Board, as Chairman, Sri S. Gopalan, Chief Engineer (Major Irrigation and General) and Sri T. S. Swamy, Chief Engineer (Public Health) as Members and Sri D. Sreerama Murthy, Superintending Engineer, Water Works Circle, as Convenor, has been constituted for submission of a report within three months.
