Mr. Speaker:—Since the Member addressed the Industries Minister in regard to backward areas in his district perhaps, these details might not have been given. However, let the Minister tell about it.

Mr. Speaker:— In regard to the backward areas 1974 5th July. I am concerned. I have addressed the Minister regarding this. Let the Minister tell about it. Naturally, you have to consider all these things. I want the Government to take into consideration the conditions of the people in a smaller area.

Mr. Speaker:— In regard to the backward areas 1974 5th July. I am concerned. I have addressed the Minister regarding this. Let the Minister tell about it. Actually people have no school, people have no water, people have no light, people have no road. Naturally, you have to consider all these things. I want the Government to take into consideration the conditions of the people in a smaller area.

Mr. Speaker:— I want to raise a matter about the Health Department. Some places have no Health Department. I want the Government to take into consideration the conditions of the people in a smaller area.
8.40 a.m.

Sri A. Sreeramulu (Eluru):— There is something wrong in regard to the criteria laid down for selecting the industrially backward areas. In support of this I quote Chintalapudi in West Godavari District. I want to know whether this is more prosperous than Nizamabad which is included. Will the Government reexamine this criteria. What is the amount of investment by way of subsidy that is granted and what is the total amount which has been distributed for starting cottage industries in these areas during 1973-74?

Sri A: Sreeramulu :— Will the Government review?

Sri A. Sreeramulu (Eluru):— Will the Government reexamine the criteria?
Mr. Speaker:—I have allowed supplementaries to the main question and I have scrupulously adopted the policy of allowing one supplementary to each member. Still this one question has taken 15 minutes. How can you ask the Chair to complete? Please allow me to go to the next question.

MANUFACTURE OF PRINTING PRESSES IN ANDHRA PRADESH

* 3448-(L) Q.—Sri Nallapareddi Srinivasulu Reddi:—Will the hon. Minister for Industries be pleased to state:

(a) whether there is any proposal to instal a factory to manufacture printing presses in Andhra Pradesh;

(b) if so, where will it be located and when; and

(c) what will be the cost of the factory?
Sri Ch. Venkat Rao:—(a) The Andhra Pradesh Industry Development Corporation Limited, Hyderabad has a proposal to set up a unit for the manufacture of printing machines.

(b) The unit for the manufacture of printing machines is proposed to be located in Vijayawada. Action will be taken to locate the unit soon after the technical collaboration agreement is finalised.

(c) The capital outlay of the project is estimated to be around Rs. 3.5 crores.

Sri A. Sreeramulu:—Is it proposed to manufacture automatic machines in this Factory, because H M. T. had already started to manufacture automatic machines in India? Till now we are importing printing machines. Do you propose to manufacture automatic printing machines?
Oral Answers to Questions—9th July, 1974. 299

529. Sri Nimmala Ramulu (Chalakurthi):—Will the hon. Minister for Transport be pleased to state:
(a) whether there is any proposal with the State Road Transport Corporation to establish a body building unit at Nagarjunasagar; and
(b) if so, when the same will be established?
The Minister for Transport (Sri J. Chokka Rao):—(a) No, Sir.
There is no such proposal now.
(b) Does not arise.

STARTING OF LEPER COLONIES

3639 Q. Sri C.E. Morris (Nominated):—Will the hon. Minister for Health and Medical be pleased to state:

(a) Whether there are any proposals with the Government to start new leper colonies with attached hospitals or sanatoria near about the twin cities or the other cities like Vijaywada and Visakhapatnam and

(b) Whether it is a fact that the amounts allotted by the Centre to our State for eradication of leprosy in our State were not spent in full; if so what are the reasons?

The Minister for Health and Medical (Sri K. Rajamallu) :—(a) There are no such proposals. I want to say something here. The present arrangements in the colonies (whatever we have in the twin cities and other places) are in a pell-mell condition. The department has taken all steps to see that they are reorganised and kept in a proper way.

(b) No, Sir. Hence does not arise.

Sri C. E. Morris :—Mr. Speaker Sir, I hope that all the hon. Ministers and Legislators here, in this august Assembly will assist me in my endeavours to draw the attention of the hon. Minister for Health and Medical in the vital importance of doing something immediately in the way of eradicating leprosy in our State. Lepers are increasing in number. They could be found on public roads, shopping centres, markets and places of worship and at Laka-di-ka-pool bridge pavements. They can be observed sitting with their outstretched limbs and thereby obstructing the pedestrians. They have open sores deliberately exposed to evoke sympathy. This is not only repulsive to look at but can become contagious. Yet, many Police men Pass and repass without even winking an eye lid. I plead to the hon. Members on humanitarian grounds to come forward now and join me in requesting our hon. Speaker to allow a discussion in the House on this vital important issue for at least half-an-hour.

Mr. Speaker :—That will be considered separately. This is question hour. Please put a supplementary, I will allow the discussion.
Sri A. Sriramulu:— Sir, it is really unfortunate that the Minister should say that there is no proposal in the State. I will read some extracts from the appeal given by the lepers.

Oral Answers to Questions.

Sri C. E Morris:—Mr. Speaker Sir, may I ask the Hon'ble Minister if he has any data of lepers in twin cities back dating to 10 years and the present day figures? Another question is, has it been thought of practising Family Planning in these lepers Colony? If not, why?

Sri K. Rajamallu:—Certainly I agree with the Hon'ble Member. As far as Family Planning is concerned, we will certainly look into it and implement it.

Sri M. Nagi Reddy (Gurajala):—Will the hon. Minister for Health and Medical be pleased to state:

(a) when the Hospital constructed for Girijans in Doranala, Prakasam District was started;

(b) whether it has been brought to notice of the Government that no doctor was posted and medicines and beds provided in the said hospital;

(c) when the said hospital building was constructed; and

(d) whether it is a fact that the said building is in a dilapidated condition?

Sri K. Rajamallu:—(a) The hospital was started in 1961.

(b) Yes, Sir.
(c) The building was constructed in 1958.
(d) Yes, Sir.

HANDING OVER OF RECORDS OF TEMPLES AT VAKADU AND GUDALI TO THE EXECUTIVE OFFICER

735—

* 3449 (O) Q.—Sri Nallapareddy Srinivasul Reddy :—Will the hon. Minister for Endowments be pleased to state:

(a) whether it is a fact that the managing trustees of the temples at Vakadu and Gudali have not so far handed over the records and properties of the temple to the Executive Officers;

(b) if so, the action taken by the Government;

(c) whether any complaints have been received against the managing trustee of Vakadu temples from the M. L. A. Gudur in the year 1973; and

(d) the action taken on the representation?

*The Minister for Endowments (Sri Sagi Suryanarayana Raju):—

(a) Yes, Sir.
(b) The trustee of Vakadu temple has since promised in writing on 3-7-74 to handover charge on 7-7-1974. Action under Section 26 (1) will be taken if the trustee fails to handover charge with regard to GudaH Temples, action is being taken to take possession of the assets and liabilities.

(c) Yes, Sir.

(d) The matter has been referred to the Commissioner for enquiry. Certain irregularities were noticed during the enquiry and the Commissioner is taking suitable action against the persons responsible for the irregularities.

Supply of Electricity to Vijayawada-Madras Electrification Scheme

736—

*3679 Q.—Sri M. Jabibullah (Rayachoti):—Will the hon. Minister for Power be pleased to state:

(a) the tariff rate agreed upon for the supply of electricity to Vijayawada-Madras electrification Project at the time of initial agreement with the Railways by APSSB and whether the subsequent increase in the tariff rate will apply to that project;

(b) whether the project is being taken up as per the schedule, and

(c) if not, the stage at which the matter stands at present?

The Minister for Power (Sri G. Raja Ram):—(a) No agreement has yet been reached between Railways and Andhra Pradesh State Electricity Board regarding tariff rates for supply of electricity for the electrification of Railway line between Vijayawada-Madras. The terms and conditions of the agreement are still being worked out. In view of this, the question of initial tariff rates agreed upon and application of subsequent increase in the tariff rate does not arise.

(b) & (c) The estimate of the project has been prepared and its sanction is under consideration of the Andhra Pradesh State Electricity Board. However, so far as Railways are concerned they have placed contracts for traction, overhead equipments, sub-stations etc.

Detection of Pilferage of Electricity

737—

*3:82 Q.—Sri Vanka Satyanarayana:—Will the hon. Minister for Power be pleased to state:

(a) whether the State Govt. have evolved a scheme to give incentives to the Electricity Board Engineers who detect pilferage of electricity by large Industrial Concerns, Hotels and Cinema Theatre in the State;
Oral Answers to Questions. 9th July, 1974. 313

(b) whether the Govt. will make such changes in the Electricity Act that provide compulsory jail sentence for the culprits in the pilferage of electricity; and

(c) whether the Government instructed the Electricity Board to give representation to the Employees Union which enjoys majority support in the Board?

Sri G. Rajaram —Yes. A proposal to pay incentive award to the Electricity Board Engineers who detect pilferage of energy is under consideration of the Board.

(b) According to Section 39 of the Indian Electricity Act, 1910 whoever dishonestly abstracts, consumes or uses energy shall be deemed to have committed theft within the meaning of Section 371 P.C. and the existence of the artificial means for such abstraction shall be prima facie evidence of such dishonest abstractions have been issued by the Andhra Pradesh state Electricity Board to all the field officers to resort to prosecution in important cases of theft of energy.

(c) No, Sir.

What is the exact number?

Sri G. Raja Ram:—I do not remember exactly the number of cases. But there are many number of cases which are being prosecuted.

*Sri Syed Hasan (Charmma) :—Day before yesterday when the power demand was there two incidents were quoted in the city one is the Coca cola having a cable line privately without the notice of the Electricity Department and they are using it in addition to
the overhead line. Bharath Oil Mills is the second one which is working inspite of disconnection.

Sr. G. Raja Ram — The moment, the Hon’ble Member brought to the notice of the Government, on that day instructions have been issued to investigate and find out what is happening there. The matter is under investigation.

re: Matter under Rule 341 (raised by Sri C.V.K. Rao) relating to remarks of Sri V.P. Raghavachary, MLC. about opposition parties in the Assembly.

9:40 a.m.

Sri Syed Hassan:—The failed candidates of the Osmania Matriculation and Andhra Matriculation or of some other Matriculation, are they also eligible for appearing for the S.S.C. Examination?

ANNOUNCEMENT

I am taking up the point raised by C.V.K. Rao regarding the speech made in the Council by Sri V.P. Raghavachari. As I said in the House, I referred the matter to the Chairman, Legislative Council. And this matter came up again in the Council. On 5th July, 1974 the matter was raised in the Council pointing that the remark made by Sri Raghavachari was objected to and on that Sri Raghavachari stated that he never cast aspersion nor was it his intention. Then the Chairman closed the matter. This is the thing. I think since the Member said he never intended to cast any aspersion, the matter can be closed.

Sri C.V.K. Rao:—It is all-right, Sir, his talking about what his intention was. Whether he said those words or not, he did not say. He should have said that. Whether he said those words or not.

Mr. Speaker:—I am reading it out. Referring to the opposition "..." All these things are there. So, the matter can be closed.

He is a Member of the other House. As far as this House is concerned, I feel he cannot comment about anything.
Announcement:

9th July, 1974.

Mr. Speaker:—I will add to what he has said. About the contradiction also, he said: "..."

Mr. Speaker:—Anyway, I suggest that the matter can be closed at this stage, we have heard their proceedings and this proceedings also I will convey what you have expressed and what the Leader of the Opposition has expressed.

Mr. Speaker:—Anyway, I am closing, Let us have a healthy convention on this matter.
Matters under Rule 341:
re: Promulgation of Ordinance by the Government of India.

Mr. Speaker:- I read the extract from his speech I have got it. Ultimately, he never meant it nor was it his intention, that is what he said.

Mr. Speaker:- I do not have it readily. But I have got that extract also. There was only this thing.

Sri A. Sreeramulu:- Sir, it is a highly unfortunate incident. If we pursue it further, we shall be creating a big controversy between this House and the other House. Both of us have got equal rights and privileges. If one hon. Member has said something and he does not mean or has no intention, as my friend Sri C-V K. Rao suggested, you may call him to your chambers and close this matter. Let us not have a controversy between the two Chambers of the Legislature.

Mr. Speaker:- Anyway, either calling or inviting or having a word with the Chairman, I shall see that things go very smoothly here after. Let us close the matter.

MATTER UNDER RULE 341
re: Promulgation of Ordinances by the Government of India.
Matters under Rule 341:

re: Promulgation of Ordinance by the Government of India.

Mr. Speaker:— It is not that way. Let me treat it in this manner. This has got impact on the State employees and others also. Perhaps the Government is yet to get all the details and therefore; the chief Minister pleads that he cannot say immediately anything. All the same, what you desire is to express your views to facilitate the Government to bear that in mind when they meet the Government of India officials. That is all. I will permit Sri Krishna to raise this.
Sri A. Sreeramulu:—Sir, this Ordinance to impound wages and Dearness Allowance is highly provocative, anti-labour and anti-working class measure. Perhaps, the meanest measure ever contemplated by Government of India. Having surrendered to black-marketeers, monopolists, black-money hoarders, the combination of rich farmers and traders, the Government has resorted perhaps, to this last step. This must be the last step. Some thing, like last straw on the Camel's back. I am only sorry that Academicians and ruling party at Delhi have not been able to correctly diagnose the malady for this country and also people. Let us look at the income pattern in this country. If you take total income in this country, wages and salaries constitute only 83% while nearly 67% is in the other fields like self-employment, business, agriculture, so on and so forth. If you take Britain, wages and salaries have constituted 75%. I can understand some restraint being imposed on wages and salaries if that wage amount contribute a major percentage of the total income of the country. Unfortunately, in this country, it constitutes negligible percentage i.e. only 83%. There is also fantastic understanding about D. A in this country right from Delhi to Hyderabad, including the Chief Minister, I do not know. Dearness Allowance is only a compensation for the loss that a wage earner suffers on account of price rise. Price rise is not in his hands. It is on account of bungling, omission and commission on the part of the people who have been entrusted with the position of responsibility and authority that price rise takes place and a restraint on these things means, it is a reduction in the real earnings of the workers and employees. Even if you take the Reserve Bank of India Bulletin, the real wages of employees and workers have gone down. In the year 1962, money earning was 106 points according to the index and the real earning was 103 points. In the year 1972, though money earnings went to 181 points, real earnings came down to 99 points. These are the figures furnished by Reserve Bank of India. There is no question of anybody exaggerating of the situation. Under these circumstances, Government of India without locating the malady... For example, Rs. 10 crores of black money, Rs. 800 crores of tax evasion and faked currency, I do not know how much is there in this country because various sources are estimating at various figures. Some say it is Rs. 4,000 crores and some say 6,000 crores. Leaving all these things, they have actually resorted to impounding the Dearness Allowance and also wages of the employees and workers. This is going to invite a very stiff protest from the entire working class and nearly 18 million workers and employees will not allow this Government to implement the wage freeze. Even the "INDIAN EXPRESS" which usually does not support the working class; has made an interesting comment. This is sufficient to open the eyes of the rulers in Delhi. It is not a Communist paper and it is not a socialist paper. "While it was too risky socially and politically to confront the rich farmer trader combination, the success achieved in crushing the Railway strike had evidently embolden the Government leadership to press on with the later course," The Government was able to crush the Railway Strike and now you want to crush the Trade Union Movement. It is not going to be possible
and if the State Government should take the cue from the Government of India, there will be unrest in the State. I am giving an advance caution to the Chief Minister that he should not be guided by this meanest, stupid Ordinance promulgated.

Sri C. V. K. Rao:—Mr. Speaker, Sir, on 5th the President promulgated 2 Ordinances impounding further increase in wages and Dearness Allowance and what is called Dividend restrictions also is a grave threat to working class and it is an erosion into the democratic functioning of our country itself. What business has the Union Government to promulgate an Ordinance when there is Parliament already functioning? What business the Union Government has got when this affects the State Governments, which State Governments are already in turmoil with high prices and with discontent among the working class, to impose this senseless Ordinance on the people? I feel every one in this House would agree with me that the workingman and the common man should not be encroached upon or his rights should not be encroached upon. It is the bounden duty of the Chief Minister to advise the Prime Minister that the autonomy of the state cannot be treated in that way. I think that this measure has been brought about in order to please Tatas, Birlas and Zamdars; otherwise there is no room whatsoever for this measure. Whether this measure is brought about in order to tell the working class that the Government is prepared to crush them or this measure is brought about in order to suppress the discontent of the people who are already drowning under heavy burden of rice in price. You know Sir, that the working class by hard sacrifice have been gaining pittance from the ruling power. Should this be a waste? Should this be thrown to winds by a stroke of pen from the Ordinance by the President, I would appeal to the Chief Minister to take up the matter with the Prime Minister that this state of affairs will create a great havoc, when already everywhere the democracy is being challenged. I hope that the working class will not be provoked to battle and let it be known that when once the working class wakesup, no power on earth can stop them. Therefore, this warning, the Government has got to take severely, Sir.

Sri Konda Lakshman Bapuji (Bhongir):—I would like to draw the attention of the Speaker and the Members of this House. To pass expressions against Rashtrapathi or President of India is not proper. We have to maintain the dignity of the President of India and to pass any such remarks and degrade his status and position is inadvisable and it would not add status and dignity to this House even. Therefore, I would like Sir, that the remarks passed by Mr. C. V. K. Rao may be expunged from the records.

Sri C.V.K. Rao:—Under rules I can make a personal explanation because the hon. Member on the other side....

Mr. Speaker:—Let me first understand. Do you say so in the manner Mr. Konda Lakshman Bapuji said now?

Expunged as ordered by the chair.
Matters under Rule 341:

Sri C. V. K. Rao:—Mr. Konda Lakshman Bapuji will say that because he belongs to the ruling party.

Sri V. Srikrishna:—The Parliament is going to meet on the 22nd.

Sri C.V.K. Rao:—We have elected him. He cannot be above us. When people have elected me I am bound by the dictates of the people who have elected me. ***

the advice of the Ministers. Parliament is supreme and the Cabinet as the representative of Parliament is supreme and the President is the man who acts on the advice of the Cabinet.

Mr. Speaker:—Now I shall draw the attention of the House to the rule as such. Sri Vanka Sathyanarayana:—We have not mentioned the name Sir.

Sri C. V. K. Rao:—Because all over the country there is agitation, my whole point is that.

Calling attention to Matters of Urgent Public Importance:

re: Delay in acquisition land for the Steel Plant at Visakhapatnam.

Sri Ch. Venkata Rao:—Sir, the Government have been taking all necessary steps to expedite the work on the Steel Plant at Visakhapatnam. Out of 5704 acres of land required for the plant site, 4155 acres which includes 1602.82 acres of State land, had already been acquired and handed over to the Steel Authorities. The acquisition of the remaining land is in progress. A sum of Rs 127.00 lakhs had already been sanctioned by the Government of India towards cost of land acquisition etc., and this amount has also been disbursed to the landowners concerned. This Government have also recently requested the Government of India to release a further amount of Rs. 41.17 lakhs for land compensation etc., The progress of land acquisition work has been satisfactory and this has not in any way affected the pace of implementation of the project. The preparation and approval of the Detailed Project Report is the responsibility of the Steel Authority of India Limited and the Government of India.

The Chief Minister had already brought to the notice of the Prime Minister and the Union Minister for Steel and Mines the need to expedite the implementation of the Steel Project and to provide adequate funds, This is being pursued with the Government of India.

With a view to ensuring prompt action being taken for the expeditious completion of the Project, a proposal to constitute a high-level review committee under the Chairmanship of the Minister for Industries is under consideration.

re: Atrocities of landlords of Buddharam Village.

*Sri Syed Hasan:—Sir as they say the victims of lightning are the unfortunate muslims. It is a sad affair. I don't think the Government could justify the doings or mis-doings of miscreants and thereby create communal tension all the time. Probably the mover of this Call Attention had forgotten one point which I would like to place it before you. That boy was tied and beaten severely and after sometime he wanted to have some wafer to quench his thirst. His thirst was quenched by these ronges and rowdies by passing urine into his mouth. In this democracy this is the way we are living in such things are happening repeatedly in this State. I hope that unlike the others, the Chief Minister would not justify these dirty and filthy actions of Police officers who had failed to do their duty. These police officers who are responsible not only should be dealt with severely but they should be kept under suspension for their delay and negligence in taking prompt action.

10. 20 : m.

*Sri Syed Hasan:—I am surprised how the Chief Minister could say that all, I have said is not correct. Is it not correct that they have urinated in the mouth of the boy. A band of persons has come and behaved in a communal manner. The Police was all the time quiet till you ordered for action.

(iii) re: Postponement of Secondary Grade Basic Training Examinations.

*Sri Syed Hassan:*—Sir, as I submitted earlier, educational service is not attracting good, educated and talented people; and very few people are coming forward to take up this profession. It is the duty of the Government to encourage people to take up this noble profession, even going out of the way.

But what we exactly find today is that there is an indifference towards educational matters. I am referring to the deliberate and intentional delay in the holding of SGBT (Secondary Grade Basic Training) Examinations. This is a training for Under-Graduates and Matriculates, who opt the educational profession as their career, after passing the SGBT Examination.

This S G.B.T. Examination was first scheduled to start in March, 1974, then it was postponed to April. From April it was postponed to May, and from May to 2nd of July, 1974. Four thousand students have been affected by a chain of postponements. Most of the students who had come from the District on the scheduled dates of examination, incurred huge expenditure on journeys, and had to hear about the sudden postponements only after reaching the examination halls. This is very unfortunate that the people who are coming forward to get themselves qualified are discouraged and frustrated in this way.

In two Writ Petitions, the High Court has passed orders allowing the Institutions, who have trained the students, to send the candidates for examination. But the Government is flouting the Orders of the High Court, by not holding the examination. I hope that some specific step would be taken by the Government to see that remedy is done by holding the examinations at the earliest.
Calling attention to Matters of Urgent Public Importance:  
re: Postponement of Secondary Grade Basic Training Examinations.

9th July, 1974.

Sri M. V. Krishna Rao:— The Secondary Grade Basic Training (Telangana) Examinations are to be conducted during April according to the scheme. There are two another T. S. L. C. examinations viz. Integrated Secondary Grade and Integrated Elementary Grade examinations conducted for failed candidates only and it was proposed to conduct all these examinations in the last week of March. Government in G. O. Ms. No. 1263, Edn. dated 17-12-1973 have permitted certain institutions to run Secondary Grade Basic Training courses for in service untrained teachers during 1973-74 in minority languages. Unfortunately the Anjuman Taraqui Urdu Secondary Grade Training School, Nizamabad, one of the seven private institutions permitted to run Secondary Grade Basic Training courses did not complete the prescribed number of working days. Besides there are discrepancies in regard to admissions. The Commissioner for Government Examinations has therefore postponed the conduct of Secondary Grade Basic Training examinations to May 1974 so that the said institution may put in the required number of days. But those examinations could not be conducted during May, 1974 due to Railway strike, restriction on postal facilities and spot valuation of S. S. C. examination. As tabulation of S. S. C. Public Examination was going on and most of the officers were engaged in this work, the examinations could not be conducted in June 1974 and it was decided to conduct the examinations from 2-7-1974.

The Anjuman Taraqui Urdu Secondary Grade Training School, Nizamabad did not complete the prescribed number of working days and also the discrepancies in respect of the school were not enquired into. As per the T. S. L. C. scheme, supplementary examinations are not conducted. If examinations are conducted for the other six training institutions in July 1974, there will be only one institution leftover for which examination will have to be conducted and this will involve additional expenditure to Government. As such to accommodate the Anjuman Taraqui Secondary Grade Training School, till they complete the prescribed number of working days and also to see the discrepancies are completely enquired into, the Commissioner for Government Examinations has been requested by the Director of Public Instruction to postpone the conduct of the Secondary Grade Basic Training examinations until further orders.

Sri Syed Hasan:— The Government was aware beforehand of the Railway Strike. So was it not the duty of the Government to have informed all the examinees (of SGBT), well in advance, about the postponement of examination, instead of announcing it just at the nick of the moment, or only a day or two before. The sudden announcement of postponement has caused much inconvenience to the student and has resulted in unnecessary expenditure incurred on account of journey.

Secondly, the High Court has ordered that the Institutions who have trained the candidates be permitted to send the students for the examination. Have the Government taken any steps to allow those students?

Voting of Demands for 1974-75

9th July, 1974.

The chairman presided. The following demands were moved for 1974-75:

1. Increase in monthly wages.
2. Improvement in working conditions.
5. Development of housing schemes.

The demands were discussed and voted upon. It was decided to grant the demands as presented.
Sri V. Jagapathi Rao (Jagtial) :—Sir, I would like to offer a few suggestions. The few suggestions which I intend to offer are about the allocation of funds for the various categories. I feel that the budget allocation for the Extension staff is too meagre. In fact, we require at least one Extension Officer for a Village. Due to the change in times, we have to totally change our pattern of our Extension staff. In the present situation, the extension wing of Department should be properly strengthened and at least for four or five Villages, there should be one Extension Officer.

The allocations of the finances for different wings are too meagre. Perhaps agriculture requires a bigger allocation than what is provided for in the present budget. Besides, the adjustments among the individual heads also require drastic change. Instead of wasting money on purchase of materials, the budget reveals that about Rs 2,388 lakhs is provided for materials and supplies for manures and fertilizers. In fact, it is not the agricultural operations. The purchase of commodities is not a technical subject. It is only a commodity purchase entrusted to any service organisation.

There should be some technical economic survey of the resources for the future progress of agriculture and Government should come forward with a broad based future programme for the development of agriculture in the State. The other important factor is the lack of coordination between the different Service organisations in the State. The Department of Agriculture which is the head for so many service institutions is totally acting in isolation and in fact there is not much of cooperation or coordination between the different wings of the Government and different Government and Quasi-Government wings. The Co-operative Banks which provide long-term loans, short-term loans, medium term loans, crop loans and so many other kinds of loans, there is no proper coordination. Similarly, the marketing wing which is one of the most efficient wings. Perhaps in the entire country, the marketing institutions are playing a vital role. But marketing institutions are not being given the proper role. There is no support at all. State Agro-Industries Corporation, the Agriculture University, the State Marketing Federation, the Co-operative Banks; the Animal Husbandry Department, the Planning gud Community Development Organisation—these are some of the supporting wings of the Department of Agriculture, which should work in coordination like a single family unit. But in fact, there is total isolation, total acrimony and animosity and rivalry between all these departments. Some one should coordinate the work of all these wings. Unless this is done, there is no better future for agriculture in the State.

May I bring to your kind notice that some of the operations, the basic important Agricultural operations which are considered to be important even in modern agriculture are either totally neglected or totally forgotten and more and more concentration on the trading of commercial operations.
The Agriculture Infra-Structure Organisation for carrying out various systems agriculture through co-operation and for greater development of agriculture is necessary. The Department of Agriculture besides action as co-ordinator and planner should undertake expansion programme conducting the farm techniques, technological development, agronomic practices etc.

The usage and dosage of fertilizers—I am bringing this thing to the notice because some of the aspects of agriculture are totally forgotten. These are the features which ultimately constitute future progress of agriculture. The introduction of new seeds, the preparation of high-yielding varieties, plant protection, multiple cropping and crop return operations, farm management, the storage and marketing techniques, the control of pests and diseases, soil conservation, soil testing—these are some of the things which are either totally neglected or totally forgotten and more and more emphasis is placed on the purchase of materials. These are some of the things on which you should act.

The total seed farms which are provided in our budget appears to be about 36. In Punjab there are about 500 seed farms. Originally up to the Second Five Year Plan, every Community Block was having a seed farm for 50 acres. After the Second Five Year Plan they have formulated that at least 500 seed farms are required. Today we are in the Fifth Five Year Plan and we have only 36 seed farms throughout our State. The State Agriculture Department was to take up the seed application agency. They want to take the Seed Corporation but the staff provided is one technical staff and four non-technical staff. They say they will provide staff for purchase of seeds. The technical staff that is provided is one technical and four non-technical. With these suggestions, I thank the Chair.

I would like to draw your attention to the following points:

1. The demand for Rs. 30,000 towards the purchase of seeds for the year 1974-75 has already been sanctioned. In addition, the department has been requested to procure 50,000 bags of Hybrid Bajra at a rate of Rs. 45 per bag of 3 kgs, which is only Rs. 25/- per bag of 8 kgs. I request the department to stock seeds well in advance and supply to the farmers.

2. The next thing that I would like to bring to your notice is the Centrally Sponsored schemes for development Fruit Production for export of bananas. It is noted that proposals were sent by the staff working in this to sanction this in the Fifth Plan. I personally know of the people who have gone all the way to Madras, Dharwar, Adoni, Just to purchase a few kilograms of Hybrid Bajra at the rate of Rs. 45 per bag of 3 kgs which is only Rs. 25/- per bag of 8 kgs. So, I request the department to stock seeds well in advance and supply to the farmers.

Voting of Demands for 1974-75,

11.30 a.m.
Sri S. Jaipal Reddy (Kalwakurthi):—Mr. Chairman Sir, for sheer want of time I would like to confine myself to one Demand i.e., Co-operation. As you know sir, the Co-operation Department in Andhra Pradesh is under the President’s Rule as it were. This is the most fundamental and important fact about the Department of Co-operation. Th.s note does not contain any reference to the fact of that operation today. I have read the note of the Minister on cooperation all the Apex Co-operative Institutions and the District Central Co-operative Banks are under the persons in-charge. It is an irony of fate and an intriguing paradox that when the State was under the President’s Rule, the President’s regime took a political decision that these Co-operatives must continue to be under non-officials after our great democrats resumed control of the regime in our State, they clamped President’s Rule under Co-operation Department. This is really a very painful fact. Sir, if you read the last para of the note, it will make a very interesting reading. I will simply read it. “In their very nature, the Co-operatives are voluntary organisations run exclusively by the non officials. The Government Department of Co-operation functions as the friend, philosopher and guide of the non-official co-operators. It is in this context that the Government expect devoted service and whole-hearted support of the non-official co-operators and also of the Hon. Members of this Legislature in making the Co-operative Movement successful.” Sir, this note without making any reference to this fact adds insult to injury to the non-official co-operators by this request sir. The Government agrees to this note that Co-operation without non-official is a sort of Denmark without Hamlet. There is a necessity for the Government to come out with a categorical statement of this issue. The mentality of the Government on this issue can be well likened to the proverbial outlook of a passenger in the unreserved compartment. So long as the passenger does not get into the compartment he haggles for a changing place or standing place to say. When once he gets into it will stop the way for other passengers. When our non-officials are ruling the roost in the State I don’t see any point why this democratic privilege should be denied only to the co-operative societies. I must make clear that I am no friend or a champion or palladium of the
department but so long as I believe in the principal of Co-operation this is not merely wrong but: perverse. The Government when it first took over the societies said they would conduct elections in three months and now the Government says it will take one year. Sir, 'the comparisons are odious' said Shakespeare. In this context without saving anything I would like to say that whenever dictators took over in any part of the world they always said they will introduce democracy very soon. They never did until they were thrown out. I hope this will not be true of the Co-operation department.

Thank you sir.

Sri C. V. K. Rao:—I would like a clarification from the hon. Member. Let me ask for a clarification, Sir. Does he want that the corrupt element to carry on? Does he not want that some intervention is not needed in that thing?

Mr. Chairman:—You are not expected to ask the clarification. It does not need any clarification.

Co-operatives have been organised for Rickshaw Pullers, Taxi, Lorry and Auto Rickshaw Drivers, Barbers, Washermen, Printers and Binders, destitute women and deserted wives.

Mr. Speaker:—I am sorry that I have to interrupt the proceedings of the House, and draw the attention of the House on a matter which has just now happened. Mr. Rajab Ali, while during his speech, perhaps not satisfied with the time, he got up and protested. Not only protested but also started casting aspersion on the Chair by these following words. 

I am deeply pained against such an aspersion, whatever it may be, the entire House knows how I am functioning. Casting an aspersion on the Chair is tantamount to casting an aspersion against the entire House, because, the Chair belongs to the entire House. Therefore without further proceeding I would suggest the Hon. Member to please withdraw these remarks.

Mr. Speaker:—That is right. I shall now put the Motions to vote.
