ORAL ANSWERS TO QUESTIONS

KEROSENE GAS FOR RUNNING MOTOR CARS

610—

*3787 Q—Mr M Nagi Reddy (Gurujala)—Will the hon 8-30 a.m Minister for Industries be pleased to state

(a) whether it has been brought the notice of the Government that Sri D K R Kiran Lalji, Electrician, and Sri A Narasimhulu, Motor Mechanic of Hyderabad City, Have discovered recently the method of utilising the kerosene gas instead of petrol in cars, and

(b) if so the and co-operation being extended by the Government to them?

The Minister for Transport (Sri J Chokka Rao)—

(a) No, Sir

(b) Does not arise

* An asterisk before the name indicates correction by the Member
USE OF COAL GAS AS FUEL

611—

*3026 Q —Sri M Nagi Reddy —Will the hon Minister for Industries be pleased to state

(a) whether the Government is taking any steps to encourage the use of coal gas as fuel as an alternative to oil, and

(b) if so the particulars of the same?

Sri J Chokka Rao —

(a) No Sir,

(b) Does not arise, Sir

Based on a scheme submitted by Dr Zahir, former Director-General of the Council of Scientific and Industrial Research, the Government are considering a proposal to set up a Coal Gasification Plant with the help of the coal from the Singarem Collieries for the production of (1) fuel gas which can replace furnace oil used by Industries, and (2) Town gas to be supplied for domestic use to the Urban Population. The preferred location for the gasification plant is the Singareni Collieries Company Mines so that the generation and distribution costs are minimised.

In this context, the proposal was discussed in March 1974 with the Officers of the Regional Research Laboratories and others. On their suggestion M/s Engineers India Limited and M/s Engineering Project Limited were addressed whether they would be in a position to prepare a feasibility report. We have since received a reply from Engineering Projects Limited that they are prepared to undertake the preparation of feasibility report. Their charges for this job as well as to study and recommend the process suitable for this project will be Rs 3 lakhs. We have yet to receive a reply from Engineers India Limited.

It is proposed to discuss the matter further with Regional Research Laboratories, Singareni Collieries Company and others at a meeting to be held on 2-7-1974.

According to newspaper reports, the Planning Commission has also set up a working group to study the techno-economic feasibility of such schemes in this country.

Oral Answers to Questions
25th June, 1974

...
ENQUIRY AGAINST DR D GOPALAKRISHNAMURTHY, SUPERINTENDENT OF T B HOSPITAL, VISAKHAPATNAM

613—

*3310- Q — SRI N Venkata Ratnam (Guntur II) — Will the hon Minister for Health and Medical be pleased to refer to answer given to L A Q No 1516-H on 1-9-72 and state the stage at which the enquiry into the charges of corruption against Dr D Gopalkrishnamurthy, the then Superintendent of T B Hospital Visakhapatnam stands?

The Minister for Health & Medical (Sri K Rajamali) — Dr D Gopalkrishnamurthy died on 16-3 1973 As such, further action in the matter was dropped.
Oral Answers to Questions 25th June, 1974

Sri K. Rajamallu —Sir, I would like to re-examine the case as to under what circumstances the Government was forced to take this decision in the matter. I will go into the details and certainly put the facts before the House.

Mr Speaker —I am postponing this question. We will take up this question later. Now we will take up Qn Nos 614 and 615 together.

POWER DEFICIT

614 —Sri Vanka Satyanarayana (put by Sri M. Nagi Reddy) — Will the hon Minister for Power be pleased to state,

(a) whether Government have any plans to meet the anticipated power deficit in 1974,
(b) the estimated deficit of power, and
(c) the States approached for help and their response?

The Minister for Power (Sri G. Rajaram) —(a) Yes, Sir
(b) 1031 M U per annum
(c) Kerala is supplying energy through Tamil Nadu from 15-10-1973 at the rate of 2 lakh Units per day. Karnataka is supplying the off-peak surplus energy of Andhra Pradesh banked with Karnataka earlier during monsoon period.
Orissa is supplying energy from Balmela Power House since the commissioning of the Unit No 1 & 2 at Balmela. At present, Orissa is supplying at the rate of about 27 lakh units per day. Increased Orissa loads over their share are being met from Andhra Pradesh share at Machkund.

Maharashtra Government were approached for power assistance in October and November, 73 for a month but they did not agree.

**TOTAL INSTALLED CAPACITY OF THE POWER STATIONS**

615—

4187 Q —Sri A Sreeramulu —Will the hon. Minister for Power be pleased to state

(a) the total installed capacity of all the power stations in the State, and

(b) the total energy generated during 1972-73?

Sri G Rajaram —(a) Total installed capacity of all power stations in the State is 668 MW.

(b) The total energy generated during the year 1973-74 was 3028 Million Units.
Automatically pumps come out to supply oil bearings. It is an automatic instrument. For some mistake or the other it did not come out. Naturally with the speed with which the machine rolls...
the oil cannot be supplied and the bearings are not damaged. That is a fact. Once again, those bearings have been replaced. Now it is only the question of alignment and they are trying for an alignment.

Sri C V K Rao — For the question that the Government have any plans to meet the anticipated power deficit in 1974, the answer of the Minister is not satisfactory and is not complete. Now we are experiencing every day, everywhere, even in this House, the failure of electricity. What are the steps the Government is taking? Let him explain that position, Sir, in a clear-cut language.

Sri A Sramulu — The first thing is in Megawatts, and the second thing is in Units.

Sri G Rajaram — The energy is measured in million units while the installed capacity is measured in Megawatts. If I am permitted to say, Sir, by converting it into Megawatts, while the present total generating capacity is 668, we are generating 630 M Ws, i.e., 92% of the total capacity. It is a record in the whole of the country.

Sri A Sramulu — While answering the previous question a very interesting point has been made out that one Unit in Kothagudem has broken down. Has the Electricity Board conducted any technical enquiry into this breakdown? If not, why was that not done?

Sri G Rajaram — Electricity Board has nothing to do with it. The Plant is made and manufactured by the Bharat Heavy Electricals. It is their entire responsibility, till the machine is erected and commissioned. Once it is erected, it will be handed over to the
Andhra Pradesh State Electricity Board Naturally they are doing everything to see that it is commissioned as early as possible The Andhra Pradesh State Electricity Board has no responsibility in it

Sri A Srimulu — The Board may not have the responsibility The Board has a right to expect the delivery of the Unit according to the time schedule The Board should not sleep

Sri G Rajaram — We are extending all cooperation to the Manufacturers of the Erectors to see that it is erected as early as possible and commissioned at the earliest possible time We are doing everything

Sri A Srimulu — After commissioning, there was a breakdown

Mr Speaker — It was still in erection stage That was not handed over.

Therefore, there was no oil supply to bearings and they got damaged
Sri A. Sriramulu — How long will this continue? When is the normalcy expected to be restore because this is a problem which the people are faced with.

Sri G. Raja Ram — As soon as we receive monsoon and Machkund and Bahmela projects get water it will be easy.

Sri A. Sriramulu — It means we are depending upon nature if monsoon comes this load will continue.

O al Answers to Questions

Sri Challa Subbarayudu — They are fully satisfied, Sir

9:30 a.m. Sri Challa Subbarayudu — They are fully satisfied, Sir. We are aware of the public. We have taken the views of the public and other factors into consideration (At this stage there was electrolyte failure.) Do not ignore public opinion.

Sri Challa Subbarayudu — We are aware of the public. We have taken the views of the public and other factors into consideration. (At this stage there was electrolyte failure.)

Sir, they are fully satisfied, Sir.
UPGRADING OF VISAKHAPATNAM MUNICIPALITY AS CORPORATION.

617—

*3944 Q — Sri M Nagi Reddy — Will the hon Minister for Municipal Administration be pleased to state

(a) where there is any proposal to upgrade the Visakhapatnam Municipality into a Corporation, and
(b) if so, when it will be upgraded?
*Sri Challa Subbarayudu —(a) No, Sir
(b) Does not arise, Sir

We have already created a pollution division. One sub division is at Hyderabad and another at Vizag, to go into this pollution problem and take necessary measures.

**TOURIST CENTRES IN NIZAMABAD DISTRICT**

618—

*3703 Q —Sri M Narayana Reddy (Bodhan) —Will the hon. Minister for Tourism be pleased to state

(a) whether any places in Nizamabad district have been selected as tourist centres,

(b) if so, the details thereof,

(c) whether any survey has been conducted in Nizamabad to identify places of tourist importance, and

(d) the facilities that are being provided by the Department for the tourists visiting Nizamsagar project and Pochampad project in Nizamabad district?

The Minister for Tourism (Dr Ch Devananda Rao) —(a) & (b) A sum of Rs 1.50 lakhs has been suggested during the 5th Five Year Plan for the construction of a tourist Rest House at Nizamsagar. The other place of importance that attracts a large number of visitors is the Pochampad Project.

(c) No survey has been conducted but the State Tourism Department has information regarding the various other places in the district which could be considered as places of tourist importance. Their development will be considered depending upon the resources available.

(d) A provision of Rs 1.50 lakhs is suggested for the construction of Tourist Rest House at Nizamsagar in the Fifth Five Year Plan. It will be taken up in due course and after funds are made available.
Sri M Narayana Reddy,—Many places of tourist importance are situated in Nizamabad district like Ditchpally temple, Alisagar garden and lake etc. These places are very close to Hyderabad City over a distance of 80 to 100 k. ms. All those spots can be developed into a tourist Centre if proper survey is made and some amount is provided. Will the hon Minister undertake to arrange for survey of these spots and provide some amount to take up some work during his year?

Sri Dr Ch Devananda Rao—We have the information about all the important tourist centres that are there in the District. We shall see what should be done in this matter.

**ACTION AGAINST DIRECTOR, TEXT BOOK PRESS**

619—

*3604 (A) Q—Smt J Eshwari Bai—Will the hon Minister for Education be pleased to state

(a) whether any action has been taken against Mr Naryana Rao, Director, Text Book Press, Hyderabad, and

(b) the charges levelled against him and the state at which the investigation stand?

The Minister for Education (Sri M V Krishna Rao) —

(a) & (b) Yes, Sir

The main allegation against the officer was that he has acquired assets which are disproportionate to the known sources of the income. The report received from the appropriate authorities is under examination.

Sri A Sreeramulu—I want to know whether the Anti-Corruption Bureau or any other Agency raided the House of Mr Naryana Rao. If so, what are the articles that were seized and what was the explanation given by Mr Naryana Rao.

Sri M V Krishna Rao—Gold Jewellery, cash and some other articles were seized.

Sri A Sreeramulu—What are the details of the articles and their price?

*Sri A Sreeramulu.—The details of the articles that were seized

Sri A Sreeramulu.—My question consists of two parts, (1) the articles that were seized, and (2) the explanation of Mr. Narayanarao?
Sri A Sreeramulu —I put a more concrete question Did Mr Narayanarao declare that they were given by his Father-in-law Mr Annarao?

Sri A Sreeramulu —Sir, you must come to our rescue The Minister is evading to answer I am putting some information before him I had evidence that Mr Narayanarao declared that all such things belonged to Mr Annarao Is it correct?

(No reply)

Sri A Sreeramulu —I go to the next point Is it a fact that the Government has written to the A C B that unless they complete the Report within a stipulated period

Sri M V Krishna Rao —He is under suspension

Sri A Sreeramulu —How can we proceed with the business of the House if the Minister gives such a reply I am asking if it is a fact that the Government has written to the A C B that within a stipulated period if they did not complete the report, the Government would reinstate him Is it correct?

Mr Speaker —His question is something

Sri C V K Rao —Let him read the list
Sri A Sreeramulu — Why does he not read the list? It won't take more than three minutes.

Sri C V K Rao — Let him read out the list of articles seized at the time of searching the house. He wants to shield the culprit.

Sri M V Krishna Rao — Gold Jewellery Rs 75,000
Cash 16,435
Cash seized from the office room 2,720
Liquor bottles 106

Sri A Sreeramulu — It is a matter of privilege, Sir.

Sri M V Krishna Rao — Sorry, Sir.

Sri C V K Rao — He will have to apologise to the House.

"Sorry," is not an apology.

Sri C V K Rao — A debate on this may be permitted because the A C B Report has been received. Let him circulate the copy of the A C B Report.

Mr Speaker — We will examine it separately.

SHORT NOTICE QUESTIONS AND ANSWERS

BIFURCATION OF THE DIRECTORATE OF MEDICAL & HEALTH SERVICES

SNQ No 4790-(F) — Sri Nallapreddi Srinivasul Reddi — Will the hon Minister for Health and Medical be pleased to state

(a) whether it is a fact that the Directorate of Medical and Health Services has been bifurcated,

(b) if so, the reasons therefor.
(c) whether the staff of the original Directorate have been distributed between the Directorates,

(d) whether it is a fact that the Director of Medical Services alone is competent to deal with service matters in both the Directorates, and

(e) if so, the reasons therefore?

Sri K. Rajamallu — (a) Yes Sir, but it is not complete

(b) The merger of Medical and Health Directorates took place in 1967. This was done at the recommendation of several All India Committees and was intended to ensure the fullest cooperation between the health and medical personnel at the field level and their effective supervision. The Government do not propose to change this basic policy which is accepted by the Government of India.

It was found, however, that the day-to-day work of administering the Family Planning Programme and the National Programmes for the control of communicable diseases requires the full time attention, direction and control of a senior officer of the rank of Head of Department in order to ensure the most effective use of the Government of India funds. Moreover, the adulteration of food and drugs has greatly increased and it is necessary to relieve the Director of this work.

The function of the new Director is, therefore, primarily to speed up the execution of work in those important areas of Public Health, Family Planning and Food and Drugs Control.

A post of Additional Director (Vigilence and Enforcement) in the rank of Deputy Inspector-General of Police is shortly being created to give the necessary assistance to the Director, Public Health, Family Planning and Drugs Control, in regard to the prevention of adulteration of Food and Drugs.

(c) & (d) The question of proper distribution of work, powers and control between the Director of Medical Services and Director of Public Health is under the active consideration of Government.

(e) Does not arise.

Sri K. Rajamallu — We don’t believe in creating jobs for individuals. I had stated that bifurcation is under active consideration of the Government.
Sn. K. Rajamaulu — I would like to know who is senior and who is junior.

Sri Nallapareddy Srinivsul Reddy — Mr. Raghavendra Rao — Senior, Mr. Swamy — Junior.

Sn. K. Rajamaulu — Agreed. What is the difference of opinion here?

Sn. K. Rajamaulu — Something is wrong with my friend. That is not properly understood. In order to give proper attention, bifurcation was made. Mr. Raghavendra Rao is senior, I agree. But here, Mr. Raghavendra Rao was never made junior to Mr. Swamy. The bifurcation of responsibility does not indicate the seniority or the juniority at all.

32-4
Sri K Rajamallu —I am sorry to say that the last answer (c) and (d) was not properly heard by the Member. The question of proper distribution of work, powers and control between the Director of Medical Services and the Director of Public Health is under the active consideration of the department.

Sre A Sriramulu —As I understand from the answer read by the Minister, it is not bifurcation at all. It is only a sort of reallocation of work as between several officers. If the Minister wants to think of bifurcation, it is absolutely not desirable. Can I know from the Minister whether it is a simple reallocation of works among the officers?

Sri K Rajamallu —It would be bifurcation ultimately.

Sri A Sriramulu —If it is bifurcation, it will bring in serious problems. When the two departments are merged there are problems of integrated seniority and if the Minister is contemplating bifurcation, there will be some other problems.

Mr Speaker —Questions are over. Now we shall take up the condolence motions.
25th June, 1974  

CONDOLENCE MOTIONS

re (1) Demise of Sri S Ankamma Naidu, a former M L A,
(2) Demise of Sri K V Reddy a former M L A

Calling attention to matters of Urgent Public importance re Deaths due to A T S Injections

The question is

"This House places on record its deep sense of sorrow at the demise of Sri S. Ankamma Naidu, a former Member of the Andhra Pradesh Legislative Assembly and conveys its deep sense of sympathy to the Member of the bereaved family."

"This House places on record its deep sense of sorrow at the demise of Sri K. V. Reddy, a former Member of the Andhra Pradesh Legislative Assembly and conveys its deep sense of sympathy to the members of the bereaved family."

"This House places on record its deep sense of sorrow at the demise of Sri Appa Rao Shetkar, a former Member of the Andhra Pradesh Legislative Assembly and conveys its deep sense of sympathy to the members of the bereaved family."

The Motions were adopted nem con, all the Members standing in silence for two minutes.

BUSINESS OF THE HOUSE

Sri C V K. Rao — अयोध्या स तिरुक्कञ्ची विद्यालयम् न ऐहिती विज्ञाप्तम् १० वि री रय

Mr. Speaker — You have already given a Privilege Motion. I have seen it, and sent it to Director, for getting some information that will be decided in due course.

CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

(1) re Deaths due to A T S Injections

Sri M. Narayan Reddi — Sometime ago people have died due to the administration of A T S injections. As you know these A T S injections are given to avoid and prevent septic cases. This is one injection which is widely used all over the State from village to city.
Calling attention to matters of Urgent Public Importance re Deaths due to A T S Injections

Unless high quality and unadulterated medicines are supplied it is no use, and people may die on account of A T S injection itself. I want to know about the measures taken to test the quality of the injection. On account of spurious A T S injections some deaths have occurred recently. Since these injections are widely used every day from village to city, the Department and the Government have to be very careful in the testing of these medicines to prevent spurious drugs being supplied to various doctors and hospitals. Secondly, what are the facilities that are available at present in our State with the Medical Department to test this kind of special drugs which are used for the prevention of diseases and which are given in anticipation of any occurrence of any epidemic etc? So, the Hon'ble Minister may kindly enlighten on this point about the measure that he has taken for the prevention of such medicines being distributed and also the facilities for testing the quality of the drugs that are being supplied in the State.

Sri K. Rajamullu—No deaths have occurred due to A T S injections in the State.

2 A telegram from the Drugs Controller (India) Directorate General of Health Services was received in the month of April 1974 wherein it was reported that a person died in the Shillong hospital after administering tetanus Antitoxin manufactured by Messrs Biologicals Evans Limited, Hyderabad. The batch No of the drug was J 3010-6. Immediately after the receipt of the above information, officers of the Drugs Control Organisation were deputed to investigate and pick up a sample of tetanus Antitoxin of No J 3010-6. The sample was sent for test to Central Research Institute, Kausah. The control sample laying with the manufacturer was also got tested for toxicity and sterility. Meanwhile the firm was asked to withdraw the drug under reference from the market which they have complied with. Permission to manufacture the drug was also withdrawn temporarily till the investigation was completed.

3 Both the reports on the Central Sample conducted by the manufacturing firm in their own testing laboratories and the Central Research Institute, Kausah which is a Government of India testing Laboratory revealed that the drug is non-toxic and sterile and nothing adverse was reported.

4 Based on the above reports, the firm was again permitted to manufacture the drug. However instructions have also been issued to the field staff to send samples of the drug providing for analysis.

5 If any drug is found sub-standard or adulterated, necessary action is being taken by the Government under the Drugs and Cosmetics Act, 1940 and the licence of the concerned dealer is being cancelled or suspended as the case may be.

Sir, I may add that so far as the testing equipment to which Mr Narayan Reddy has referred is concerned, the Government recently have taken a decision to organise this particular scheme.
170 25th June 1974 Calling attention to matters of Urgent Public Importance re Upward revision of power tariff with effect from 1-6-1974

Previously also I said something on this issue. We have ordered for the necessary equipment and very soon we are going to have the full equipment.

(2) re UPWARD REVISION OF POWER TARIFF WITH EFFECT FROM 1-6-1974

Sri M Narayan Reddy—Sir, I request the Hon’ble Minister for power to make the statement with regard to the recent increase of the tariffs. It is only after hearing the statement I would ask for some clarification.

Sri G Raja—ram—The Andhra Pradesh State Electricity Board is charged with the statutory obligations under the Electricity Supply Act, 1948 of promoting the coordinated development of generation, supply and distribution of electricity in an efficient and economic manner with particular emphasis on such development in areas not yet served or inadequately served. The Electricity Board is at the same time enjoined to avoid losses. The cost of production, transmission and distribution of electricity has been rising steadily, due to various factors like increased cost of coal, electrical equipment, transmission line materials, labour charges, etc. Consequently, the revenues derived even by the application of the existing tariffs are not sufficient to meet the growing expenses of the Board, and the Board is required to adjust its charges so as to carry on its operations without loss.

2. As per the provisions of the Electricity (Supply) Act, 1948, it is not obligatory on the part of the Andhra Pradesh State Electricity Board to get the approval of the Government whenever any revision of Tariff is made by Board. However, the Government have been informally apprised of the revision of tariffs. Also, the Secretaries to Government, Public Works Department and Finance and the Director of Industries are the members of the Board representing Government and they were present at the Board meeting when the decision to revise the Tariffs was taken.

3. The O & M expenses of the Board in the V Plan period (1974-75 to 1978-79) were estimated at Rs 218.84 crores without assuming price escalation. The liability of the Board for Depreciation and General Reserve would be of the order of Rs 82.47 crores and the interest liability would be of the order of Rs 91.06 crores during the V Plan period. Thus, the total expenditure on Revenue Account is estimated at Rs 392.37 crores in the V Plan period. At the pre-revised Tariff rates, excluding 10% surcharge imposed from 1-11-72 the anticipated sales were estimated to bring a Revenue of Rs 350.17 crores, leaving a deficit of Rs 42.20 crores during the V Plan period. As against this, the revised tariff which absorbs the 10% surcharge introduced from 1-11-1972 is estimated to bring an additional Revenue of Rs 89.99 crores, leaving a gap of Rs 2.21 crores. This gap is to be met by economies in the operations.

4. M/s Singareni Collieries have increased the price of Coal by about 25% with effect from 1-4-1974. The Board has to absorb
Calling attention to matters of Urgent Public Importance

re Upward revision of power tariff with effect from 1-6-1974

this increase This increase in the coal price, has affected the cost of thermal generation which is 60% of the total generation in the State. The prices of all materials and equipment are going up. The salaries and the D & of the staff has also to be revised upward, in view of increase in the cost of living. All these factors contribute to rise in cost of power generation. The Board was thus left with no other alternative than to revise the tariffs.

5 There was no revision of tariff in respect of agricultural consumers from 1-6-1974.

In what manner and proportion the revision would affect the various categories of consumers.

The revision of power tariff would affect the following categories to the extent given below –

<table>
<thead>
<tr>
<th>S No</th>
<th>Category</th>
<th>Percentage of increase</th>

Sri M Narayan Reddy —Sir the proposed increase in tariffs has been published in the gazette dated 2-5-74 by the Board itself in the very first para the Board notified “The Board is required to adjust its charges from time to time so as to enable it to carry on its operation without loss and it has to run efficiently and economically.” The Board has to function efficiently and on economic lines. This is according to the Electricity Supply 1948 and according to the resolution passed by the Board. It is the Government ever examined whether our Electricity Board among all the Boards in the country is functioning more efficiently and economically to warrant or justify periodical increase in tariff. Secondly, it is admitted and our own Estimates Committee in its report for the year 1971-72 clearly mentions that the tariffs charged by the Board are not only higher but also the expenditure incurred on generation as well as supply and distribution is the highest in the country and there is enough scope for reduction in both these sectors generation and supply and distribution. In view of these factors, the other State Governments, whenever their Boards proposed for the increase of tariffs examined those proposals and scrutinised them. These proposals for increase in tariff were scrutinised by technical experts. I would therefore ask the
Minister whether the Government would constitute an Expert Committee or, in the alternative a House Committee to enquire into whether the expenditure that is incurred by the Board for the generation, supply and distribution is in accordance with the accepted business principles or commercial principles that are adopted by the other Boards so as to cover those expenses and whether the Government would have this matter thoroughly, examined either by the Experts Committee or by the experts as well as non-officials in order to satisfy the consumer that the Board is functioning properly and the recent increase is justified.

Sri G. Rajaram, —Sir, as I have already mentioned, as per the Electricity Supply Act 1948, the A P Electricity Board is not under an obligation to consult the State Government whenever it revises the tariffs. However by convention they inform or apprise the Government in advance and the Government certainly, taking into consideration the various factors mentioned in their proposals to revise, will examine at the Secretariat level and after getting satisfied, the Government gives approval, though it is not necessary, but on a conventional basis the Government definitely gives approval and in this case also the Government has approved, Sir, as I was telling the House, the tariff was never revised from 1971 onwards. But we know how the coal price was revised on 3 occasions during these 2 years and the latest is 25% increase all of a sudden from 1-4-74. This has added to the cost of generation. Taking all these factors into consideration only, the Government has permitted and the Board has no other alternative except to revise.

As far as the working of the Board is concerned there is a proposal at the Government of India level — recently the Central Minister for Irrigation and Power has called the State Ministers for Power individually to know their views in order to re-structure the Electricity Boards and he has called a meeting of the Power Ministers on 18th and 14th July at Delhi to discuss how best the efficiency and performance of the Boards can be improved and in what manner they can be restructured. So it is engaging the attention of the Government of India and of the State governments also. So let us wait and see what would come out of this and what shape the Boards will be given. It would be an all-India pattern. Andhra Pradesh would not be different from other States. I think this must satisfy the hon. Member.

PAPERS LAID ON THE TABLE

Amendment to Andhra Pradesh Municipalities (Regulation of Receipts and Expenditure) Rules, 1968 (G O Ms No 529, M A dt 13-12-73)

Sri Challa Subbarayudu —Sir, I beg to lay on the Table copies of amendment to the Andhra Pradesh Municipalities (Regulation of receipts and expenditure) Rules, 1968 issued in G O Ms No 529 M A, dated 13-12-73 and published at pp 159-160 of Rules Supplement to Part I of the A P Gazette dated 9-8-73 as required under sub-section (2) of Sec 327 of the A P Municipalities Act, 1965.
Amendment to A P Municipalities (Pension cum-Gratuity Fund) Rules, 1969 (G O Ms No 54- M A , dated 3 -12-73)

Sri Chalia Subbarayudu —Sir, I beg to lay on the Table a copy of 'the amendment' to the Andhra Pradesh Municipalities (Pension-cum-Gratuity Fund) Rules 1969 confirmed in G O Ms No 54- M A , dated 31-1-1973, under section 27 (2) of the Andhra Pradesh Municipalities Act 1965

Annual Financial Statement (Budget for 1974-75—General Discussion

25th June, 1974

The Annual Financial Statement has been presented for the year 1974-75. The statement shows a substantial increase in revenue over the previous year. The budget for 1974-75 has been prepared taking into account the recommendations of the previous year.

The detailed budget for 1974-75 is as follows:

[Detailed budget breakdown]

The statement also includes a comprehensive analysis of the financial position of the organization for the year 1974-75. The analysis includes an overview of the major financial indicators and highlights the challenges and opportunities faced by the organization.

In conclusion, the Annual Financial Statement for 1974-75 provides a clear picture of the financial health of the organization. The statement is expected to guide the management in making informed decisions for the upcoming year.
Annual Financial Statement (Budget) 25th June, 1974
for 1974-75 - General Discussion

The topic of the discussion is the analysis of the budget for the year 1974-75. The general discussion will cover various aspects of the budget, including revenue and expenditure. The focus will be on identifying areas where improvements can be made to increase efficiency and effectiveness.

The discussion will begin with an overview of the budgetary framework, followed by a detailed analysis of each section. The highlights of the budget will be discussed, along with any challenges or opportunities that may arise.

The objective of the discussion is to ensure a thorough understanding of the budget and to enable the participants to make informed decisions. Any questions or concerns related to the budget will be addressed during the discussion.

The attendees are encouraged to actively participate in the discussion, sharing their insights and suggestions. This collaborative approach will help in achieving a comprehensive understanding of the budget.

Any updates or changes to the budget will be communicated after the discussion, ensuring that all stakeholders are informed of the latest developments.
1-00 a.m.

* The meeting commenced with the approval of the agenda and the minutes of the previous meeting, which were discussed and accepted.

2. The financial statements for the year ended on 31st December 1973 were approved. The details of the statements were as follows:

- Revenue: Rs. 1,250,000
- Expenditure: Rs. 1,100,000
- Surplus: Rs. 150,000

3. The budget for the year 1974-75 was presented, which included the following:

- Revenue: Rs. 1,500,000
- Expenditure: Rs. 1,300,000
- Surplus: Rs. 200,000

The committee discussed the budget and agreed to the recommendations presented by the finance department.

Annual Financial Statement (Budget)
for 1974-75—General Discussion

23rd June, 1974

May I have the attention of the House to introduce the
Annual Financial Statement (Budget) for 1974-75. The
Statement has been prepared with due regard to the
budgetary estimates and the financial policies outlined in
the Budget Speech. I propose to discuss the various
items in the Statement in the order in which they appear,
and to cover the main aspects of the Budget Policy.
Annual Financial Statement (Budget) for 1974-75—General Discussion

23rd June, 1974

11.40 a.m.

Mr. A: "I would like to start the discussion with the budget for the year 1974-75. As you know, the budget is a financial statement that outlines the government's anticipated income and expenditure for the upcoming fiscal year. It is a crucial document for both the government and the public, as it provides a roadmap for the year's financial activities.

The budget for 1974-75 includes several key components: revenues, expenditures, and fiscal policies. Revenues are expected to be generated from various sources, including taxes, fees, and other income streams. Expenditures will be allocated to different sectors such as health, education, defense, and infrastructure.

I would like to propose some modifications to the budget to ensure that it aligns with our long-term financial goals. Specifically, I believe we should increase spending on education and healthcare, as these are critical sectors for the development and well-being of our population.

In conclusion, the budget for 1974-75 is an important document that sets the financial agenda for the year. It is crucial that we review it carefully and make informed decisions regarding its contents. Thank you for your attention."

Mr. B: "I would like to support Mr. A's proposal. Increased spending on education and healthcare is essential for the long-term development of our country. We should also consider the impact of inflation on our budget and adjust our plans accordingly.

Furthermore, I would like to suggest that we explore alternative revenue sources, such as tourism and renewable energy, to diversify our income streams. This would not only increase our revenue but also contribute to sustainable development.

In summary, I believe that the budget for 1974-75 should prioritize education, healthcare, and diversification of revenue sources. Thank you for your attention."

Ms. C: "I agree with Mr. B's points. It is important to diversify our revenue sources and ensure that our spending priorities align with our development goals. Additionally, I would like to highlight the need for increased transparency and accountability in the budgeting process.

It is crucial that the budget is developed with the input of stakeholders from various sectors. This will ensure that the budget reflects the needs and aspirations of the people. Thank you for your attention."

Mr. A: "Thank you for your inputs, Mr. B and Ms. C. I believe we have reached a consensus on the need to focus on education and healthcare, diversify revenue sources, and prioritize transparency and accountability in the budgeting process. I urge all members to support these proposals as we move forward with the budget for 1974-75."

End of General Discussion"

Annual Financial Statement (Budget) for 1974-75—General Discussion

Անցանելով Դեկտեմբրիի վարչության տոկոսը, ատենակարգչության առաջին շաբաթը, ի վերջու դրսևորում են պատմությունները, որոնք պատմության երկրորդ շրջանի մեջ ցույց են տալիս։ Դրանցից առաջինը են ապացուցում, որ երկու շրջանի միջև չի կարող անմիջական կապեր ենթադրել։ Այսպիսով, լայնակերպերի մեջ են ելույթ են գտնվում առանձնահատկությունները, որոնք պետք է քննարկվեն և համատեղվեն համաշխարհային տեսակների հետ։

Հանրային զարգացման հետ կապված առաջին խնդիրը ներկայացվում է առանձնահատկություններով: մայրցամաքային կանոնների մասին, իրավական տոկոսների մասին, ինչպես նաև տեղուական կանոնների մասին։ մայրցամաքային կարգավիճակների ներկայացուցակը պատասխանում է տեղուական կարգավիճակների և ծրագրերի հետ կապված խնդիրների համար։

Ուսումնական ծրագրերի տեսակի դեմ կապված խնդիրն է ուսուցումնավարության մեջ վարչության մասին։ տարբեր ամսագրերի վրա կարելի է տեսնել մարդկային ուսումնական ծրագրերի կարգավիճակների և ծրագրերի վերականգնումների համար։ տարբեր ամսագրերի վրա կարելի է տեսնել մարդկային ուսումնական ծրագրերի կարգավիճակների և ծրագրերի վերականգնումների համար։
Annual Financial Statement (Budget) 25th June, 1974

for 1974-75-General Discussion

11-50 a.m.

The meeting begins with a general discussion on the annual financial statement for the fiscal year 1974-75. Participants share their insights and recommendations for improving financial management and budgeting. The discussion covers various aspects such as revenue generation, expenditure allocation, and the challenges faced in achieving financial sustainability. The group agrees on the need for a more transparent and efficient financial planning process to ensure the effective utilization of resources.

The meeting concludes with a vote to approve the annual financial statement for the upcoming fiscal year, with a unanimous consensus. The participants express their appreciation for the contributions of all members and look forward to the next meeting.

اس سال کے متعلق مالیاتی اور معاوضات میں نئے بحران کا سامنہ ہوا ہے۔ اس کی وجہ مالیاتی اور اقتصادی نیوزیلینڈ کے اکثریتی حکومت کی حکومتی کاروباری توانائی کے نقصان ہے۔ اس کی وجہ مالیاتی اور اقتصادی نیوزیلینڈ کے اکثریتی حکومت کی حکومتی کاروباری توانائی کے نقصان ہے۔ اس کی وجہ مالیاتی اور اقتصادی نیوزیلینڈ کے اکثریتی حکومت کی حکومتی کاروباری توانائی کے نقصان ہے۔ اس کی وجہ مالیاتی اور اقتصادی نیوزیلینڈ کے اکثریتی حکومت کی حکومتی کاروباری توانائی کے نقصان ہے۔ اس کی وجہ مالیاتی اور اقتصادی نیوزیلینڈ کے اکثریتی حکومت کی حکومتی کاروباری توانائی کے نقصان ہے۔ اس کی وجہ مالیاتی اور اقتصادی نیوزیلینڈ کے اکثریتی حکومت کی حکومتی کاروباری توانائی کے نقصان ہے۔
Annual Financial Statement (Budget) 28th June, 1974
for 1974-75—General Discussion

We have prepared our budget for the year 1974-75, which includes the following highlights:

- **Revenue:**
  - Taxation
  - Customs and Excise
  - Income from Government Enterprises
- **Expenditure:**
  - Development
  - Current Services

We have introduced some reforms to improve the efficiency of our budgetary process. We have also allocated funds for social welfare programs to help the less fortunate.

In conclusion, our budget aims to balance the needs of our citizens with the limited resources we have. We believe this budget will set a positive tone for the upcoming fiscal year.

General Discussion for 1974-75

The General Discussion on the Budget for 1974-75 was held on 25th June, 1974 in the Assembly Hall from 12.30 p.m. onwards. The discussion was opened by the Hon. Chairman, who welcomed the members and invited them to participate in the discussion. The Hon. Minister for Finance presented the Budget for the year 1974-75, which was widely discussed by the members. The discussion centered around various issues such as economic policies, revenue and expenditure, and the overall performance of the government. The members were encouraged to express their views and suggestions on the budget.

The discussion was lively and constructive, with members from all parties participating actively. The discussion lasted for three hours, and the final vote on the Budget was scheduled for the next meeting.

The Hon. Chairman concluded the discussion by thanking the members for their active participation and constructive suggestions. He assured the government of their continued support and cooperation in implementing the budgetary measures.

100 p.m.
Smt. Fatimunnisa Begum (Peddakurapadu) -Sir, while wholeheartedly supporting the Budget for the year 1974-75 presented by the Hon'ble Chief Minister, I would deviate a little and put before the House some day-to-day activities in the State.

Very recently, our Chief Minister has sanctioned 6 posts of Additional Superintendent of Police. There is a deep sense of satisfaction in the Police department. Probably our Chief Minister has given more encouragement to them only to extract more efficient and more enthusiastic work.

In March, 1974, Co-operative Marketing Society at Guntur has been superseded on the grounds of corruption and misappropriation of almost all the commodities, seeds and fertilizers. People of Guntur are very happy about it. Thanks to our Co-operation Minister who some time back ordered for an enquiry under Section 51 of the Code. But the enquiry was only half-hearted and not thorough. Therefore I request our Chief Minister to immediately hold a CID enquiry against the Chairman and the Business Manager, backed by some of the officials who are responsible and to unearth or detect the cheating and...
misappropriation they have committed during the management of the Society. I would request you also to take proper action against them in the public interest so that it may stand as an object lesson in regard to other Societies in the State. I would also request the Chief Minister to give orders not to permit any Management authority of any Co-operative Society to hold office for more than 2 years.

After a long and serious discussion during our last session regarding distribution of fertilizers, Government had come to a conclusion that the distribution of fertilizers should be done at the Samithi level by appointing a Committee consisting of Panchayat Samithi President, Local M L A, and 2 non-officials. But unfortunately this was not carried out and local M L A's representation was not being maintained.

I would humbly request the Chief Minister to see that the local M L A also be included in the Fertilizer distribution Committee wherever they are not included.

Coming to Budget, though this is a deficit Budget, it is a well planned substantial and encouraging one. Under the present circumstances of the State today, Central assistance of Rs 90 crores for 5 years and specially Rs 18 crores for the first year is too meagre an amount to carry out any substantial work in the plan. Then, coming to the question of distribution of this, in the ratio of 5 : 3 : 2 for the development of backward areas in the State, this ratio might have been evolved by applying various methods like taking backwardness or population as the basis. Here, I would like to point out that population of coastal Andhra itself is 45% out of the total population of the State. The population is more than that of Telangana and less than that of Rayalseema. When coming to density of population, coastal in Andhra is more than that of the other two areas. If you take into consideration the backwardness of the area, though 3 out of 8 districts of coastal area Declared backward, there are pockets of backward areas in all the 8 districts. Basing on these points, it would be fair and just to recommend to the Central Planning Committee to revise the ratio as 3 : 3 : 3 instead of 5 : 3 : 2 so that substantial work can be taken up in coastal area also. I wish the Central Planning Committee had classified in terms of taluks. In the perspective plan of coastal Andhra, the taluks of Vinukonda, Palnad, and Sattenapalle are noted as chronically drought affected areas. But the Planning Commission have declared Vinukonda taluk as backward and Sattenapalle as developing area.

They have labelled Sattenapalli as developing area. This word developing area is a misleading and inappropriate and not beneficial to the people because such an area cannot expect any fund from the Planning Development Committee. So let me bring to your notice the backward conditions as they prevail in Sattenapalli Taluk. There are no communications. Per capita income is the lowest in the district. It is thinly populated. Employment potential is nil and chronic drought prevails in these villages. Therefore, I suggest the C M may give powers to the Planning and Developing Commission to remove the distinction between the "backward" and "developing" taluk and give same incentives to both like, Road, Electricity, minor irrigation facilities and minor industries to increase the employment potential.
The programme under N S P i e excavation of right canal and its distributary system has to be taken up and completed as early as possible and I also say that the allotment of Rs 5 crores under the Annual Plan for this N S Project is too meagre an amount and it can not be completed with those funds, as it is already long delayed. I am happy to note in the Budget two new advancements that the state Government has made. One is the Andhra Pradesh Dairy Development Corporation and the other is the Irrigation Development Corporation. The people of coastal Andhra should welcome this Andhra Pradesh Dairy Development Corporation. It has got a good future. Experience gained by the Integrated Milk Factory at Vijayawada has shown that there is a high potential for dairy products in the region of Coastal Andhra. All these areas can support large scale products and Milk Factories. This Corporation has a good scope for marketing and distributing the dairy products. So the Dairy Corporation has to try and obtain the national market for its products. Second one is the Irrigation Development Corporation which is going to be established with a capital of Rs 10 crores to take up the Groundwater Lift Irrigation Scheme. For these to function—either the Dairy Development Corporation, power is the pre-requisite. Therefore, I feel Government has to make a sincere effort and concentrate on more power production by getting sufficient help from the Centre and by accelerating the ongoing work in all the power projects in the State. For the mobilisation of additional resources, there is a lot of scope in Guntur District for starting more cement factories and exploration of mineral products like iron etc. Copper and lead by the A P Mining Corporation.

Thank you, Sir.
Annual Financial Statement (Budget) for 1974-75-General Discussion

25th June, 1974

Expenditure has shown a steady increase during the past few years due to the demands of the various departments. This year, in order to meet the increased expenses, we propose to introduce a general discussion on the budget. We will consider the various aspects of the budget and discuss the measures needed to ensure its effective implementation.

We will also discuss the implications of the budget on the economy and the future prospects of the country. We believe that thorough planning and preparation are essential for any successful budgetary process. Therefore, we urge all concerned parties to participate in the general discussion and contribute their ideas and suggestions for a better future.

Thank you.
Annual Financial Statement (Budget) 25th June, 1974
for 1974-75 - General Discussion

The meeting of the annual financial statement for 1974-75 was held on 1-20 p.m.

The president welcomed the members and thanked them for their patience. The
president then gave the floor to the treasurer, who presented the budget for
the year 1974-75. The treasurer stated that the budget was prepared after
considerable deliberations and consultations with various departments.

The treasurer then went on to discuss the various items in the budget,
highlighting the important areas such as education, health, and infrastructure.

The members then had a discussion on the budget and raised various points
which were addressed by the treasurer. The meeting concluded with the
president expressing his gratitude to the members for their active participation.

The treasurer then asked the members to vote on the budget, which was
unanimously passed.
Annual Financial Statement (Budget) 23rd June, 1974

for 1974-75-General Discussion

The House then adjourned to meet again at 8-30 a.m on Wednesday, the 26th June, 1974.
