*An asterisk before the name indicates confirmation by the Member.

J. No 74 (201)

Sri Syed Hasan (Charmmar) — The D I Gs were promoted to the cadre of I P S Officers, but the number is more than what was needed for the Police Department Therefore they were sent to other departments. What is the special purpose for recruiting such officers when they are not needed in such numbers for the Police Department?

Sri J Vengal Rao — The question is only regarding S Cs and Sts and not a general question.
Sri Sri Syed Hasan — But is this a question which requires some special information, to be answered?

Mr Speaker — Not that way, the supplementary does not arise out of the main question.

(b) and (c) Do not arise.
to be conveyed has to be decided by the States concerned. All the States concerned must have a say in that and they have to decide the point wherefrom the water has to be conveyed and the method of conveyance of water subject to that condition we have signed that agreement.

We have signed that agreement subject to that condition.
Omi Answers to Questions. 24th March, 1977. 209

...exclusive of evaporation losses we will convey 15 TMC of water to Madras State. This amount of water has to be decided by the two states concerned, it is our concern the States of Andhra Pradesh and Madras The States will sit and decide the method of conveyance and the point wherefrom we will covey the water.

If the Madras State intends to take water through pipes, we have no objection. From whichever point they take the water in our territory, we want the water to be conveyed through canals so that we will have the benefit and we will not take any share from the 15 T.M.C of water.

Discussions on Motion on address by the Governor 24th March, 1977.

Sir Syed Hfan (Charminar) —Sir, as we know the Governor's address should be a 'white paper' giving the deeds and misdeeds of the Government for the year. What they did and what they plan to do and what mistakes they committed and how they proposed to correct it — all these should come into the Governor's address. Governor is not the drum-beater or the trumpet-blower for the Government. He is the person who gives a clear assessment of what has been done, good or bad, it should have been said in the Governor's address but we do not find it. As usual it is blowing of trumpet for the Government.

The Governor started with elections and he has appreciated the electioneering campaign and election process which has been completed now. But it is a matter of sorrow, grief and shame. I am talking about our State and my speech or my references will be to that extent — there were two Ws in vogue for the elections — one is wealth and the other is wine. We all know that in elections wine was in abundance and wealth was flowing and it cannot be denied. The other device adopted by the ruling party was that in certain constituencies they offered money to the candidates to withdraw so that the ruling candidate may be declared unopposed, or they set up a candidate by paying money to divide the votes which they were sure of not getting it to Congress. These two methods were adopted by the ruling party and it cannot be denied. Now the government at Centre has changed, therefore enquiry would only reveal the details of it. The other sensational revelation is that on 25, 27 and 28 February, 60 lakhs duplicate ballot papers were re-printed with even numbers and during this printing process in the Government press, the persons who were involved in that work were paid overtime, goats were cut and biryani was prepared and they were entertained fully in the premises of the printing press. How were these 60 lakh ballot papers utilised? Now as the Government at the Centre is changed, enquiry would reveal all...
these details. Again this is a matter of shame. The officers who had connived with those in power would face the repercussions. The present Government or the head of the present Government also would be facing the consequences.

Now, about the Plan outlay a claim has been made that Rs 366 crores has been provided this year for the plan outlay. Such provision as we all know should be for the betterment of the people and so provide amenities, facilities, jobs and livelihood. This is the purpose and the last drop of blood in our veins has been squeezed to achieve it. But do we find any improvement in the position with regard to providing jobs and livelihood for the people? On the contrary, we find that in other States in the name of weeding out in the entire India minus Andhra Pradesh, 4,500 persons were removed on the ground of completion of 50 years of age or 25 years of service. Here in our State 6,500 have been removed - subject to correction, it may be a few hundreds this side or that side. Out of that almost about 6,000 belong to the minority community and nothing has been done to look into grievances. There are instances where every person who was among those who were weeded out in the weeding out process - the same person was sitting in the weeding out Committee, one of such officers being Mr. Narsimha Raju, former chief Inspector of Factories. I can accept, if the weeded out persons were corrupt or inefficient, they had to be removed. In the name of not knowing Telugu language or some other pretext the minority people were deprived of jobs and prevented from getting into the jobs. The recruitment statistics would reveal the percentage of present recruitment. As the time at my disposal is short, I have to divert your attention to the Urdu edition of "The Blitz" dated 16th of this month - which had given the details of our Hon'ble Chief Minister, his communal approach and what all disasters he had done during this period of emergency.

About education, credit cannot be claimed for opening some colleges and some Post-graduate centres or even Universities. The standard of education and the amenities and facilities provided are the important criteria - which are lacking as we all know. Sir, is it not a matter of shame for us that for the Convocation of the prestigious Osmania University, they did not get any eminent educationist to address the Convocation. Is there so much birth of eminent educationalist the Chief Minister was called to address the Convocation of Osmania University. It is surprising and it become complimentary that as the Vice-Chancellor had called the Chief Minister for addressing the Convocation of the prestigious University and so in return the Chief Minister had to concede to his misdeeds. He had removed Professors, Readers and
Discussions on Motion on address 24th March, 1977.

by the Governor

Lecturers In Government service this sort of thing was done, i.e., weeding out and in the Assembly the Chief Minister had agreed to form Review Committee but the Vice Chancellor has threatened him that no Review Committees over and above his decision should be formed and these teachers who cannot be involved in corruption and who had completed 50 years of age or 25 years of service and who had produced a generation amongst them may be Ministers, I.A.S. and I.P.S. Officers, or even M.L.As their faces were blackened and they were removed from service at this age and at this juncture. Keeping that in view, how could the Government claim about starting more such educational institutions and facilities and amenities and all that?

About the Agriculture University your attention is diverted to the ‘Anti-Corruption Weekly’ which has published in detail the corruption of its present Vice-Chancellor and by the end of this month his term being expired he would go. What could be done after that? The reply from the Government would be ‘Now he has retired and we are helpless to do anything against him’. Muslims were stopped from offering prayers in a mosque in the agricultural University campus and that atrocity has not been rectified yet. The Agriculture Minister who probably is the minister for that University or is connected with that had given a categorical assurance but nothing has been done in that connection also.

Dirty tricks have been played about the schools with Urdu medium. They say that as per rules 10 boys have to come and then only they would start a class with Urdu medium but as we know when boys comes one after another they say that 10 boys have not come and therefore the Urdu medium classes cannot be started and one has to go and see the conditions and the state of affairs in which the schools in Urdu medium are being run.

About power, much has been said that so many M.W. power stations are installed and so many megawatts of electricity is produced and all that. The condition of the old city--if I am limiting my expression about it is horrible. Everyday during religious functions and during other functions and during recent elections most of the time we find the entire city from sunset to late hours was in the dark and even today in front of my house every day we find that sparks come from the pole and all the tube lights in my house and so many other places get burnt out. Once I telephoned to the Electricity Control office where they have to attend to complaints, but the person in charge says, ‘How can I believe you’. This is the kind of reply that the employees in charge of giving light give.

About agricultural land ceilings again much has been boasted that so many acres had been acquired and it would be distributed.
258 24th March, 1977. Discussions on Motion on address by the Governor

I told the late President who had acceded to my request in writing and otherwise when he came to Hyderabad he assured that the Muslims would not be effected.

Sri J Vengal Rao,—I assured Mr Hasan last time also Now we are bringing an amending Bill in this session Now the Muslims and the Christians and Hindus also will get the benefit. The major sons will get a share.

Sri Syed Hassan —Because there was no mention of it in the Governor's Address, I referred to it Now the Chief Minister has cleared that point. About the Corporations for Scheduled Castes, Scheduled Tribes etc there are 4 Corporations formed and the credit must go to the Chief Minister. Since he took over so many Corporations had been provided but what work these corporations are doing is yet to be seen. But the general impression is the formation of corporations is more for the allurement of the party people who get important places in these corporations.

10.40 a.m. Now regarding urban development it is now over an year since the Urban Development Authority had been set up and we are not aware as to what is being done by that authority for the betterment of the twin cities. It was a sore point with me and the Chief Minister. I still repeat that a person who is corrupt and who is involved in selling the lands, belonging to Salarjung Estate and accumulating money is the Chairman of the Huda and investigations only would reveal what is being done to the funds of the said authority. When the investigations are made then only we would know details of it.

Regarding the Municipal Corporation, all sections of people had said that he (the Special Officer) is corrupt and inefficient and he is incapable of running the municipal Corporation affairs. He is known for licking the feet of those who are in power therefore he is being retained and no action is being taken against that Special Officer.

About the minister for municipal Administration, I wish to state that all the ministers give their tour programmes, they are published in the papers and members also get details of the programmes.

Smt Sarojini Pulla Reddy — I am prepared for an enquiry by a Committee consisting of opposition members and I am prepared to resign if the allegations made by the hon, member are proved, otherwise the hon, member has to resign from this House.

Sri Syed Hasan,—Sale of Salar Jung lands also has to be enquired I was speaking about the minister for Municipal Affairs. Their tour programmes of all the ministers are published in the news.

by the Governor

papers and they are sent to us, but from the Municipal Minister we receive no programme, it is not printed and published in the papers also because the only two places he visits are Tirupathi and Anantapur and nowhere else. About Telangana, how many visits since he became the minister has he made to Telangana areas - it is for him to explain.

Now the Government is realising that the Rigs Department had failed considerably because there are no technical personnel and the Civil Engineers are manning the Rigs Department. Therefore they had specifically passed orders that persons on the technical side and mechanical engineers should be asked to man the Rigs Division, the file had gone from the Minister to the Chief Minister and both had agreed, but still the Government machinery is holding back that file and they are not implementing the orders of the Chief Minister or the Minister.

Finally about the law and order, it has been said in the Governor's address that the law and order situation is the best in the State. But I will give two or three instances and close my speech. One is - some months back I had written to the Chief Minister and also to the IGP that some rowdies with 3 Ambassador cars stopped at the house of a retired Excise Superintendent and entered into that house during the day time and at the point of knife and daggers, they took away the daughter of the said Superintendent of Excise. I had written both to the Chief Minister and the IGP but so far no action has been taken. On the contrary the ACP Division had contacted the aggrieved party and presssed them for compromise. He is always a privileged person. Since his appointment as S I, he never left Hyderabad. He telephones the party and says that a compromise should be entered into and there could be no action against those who had taken that girl from the house. This ACP is the most corrupt person and to hide his corruption he managed to buy jack-pots and whitened his black-money. Another instance is - there was a bridegroom from Canada, 2000 persons had attended the marriage. Some one had thrown acid bottle at the bridegroom but luckily he escaped and the person standing close to him was affected. The D.I had telephoned to the Narayanguda CI to take immediate action in the matter, but no action has been taken. On the contrary the C I bluffed to the D I G that the accused was already in his custody. Later I spoke to the IGP about this incident who in turn asked the DCP, obviously he was ignorant of what had happened as no action was taken, there was only bluffing and this is the same CI about whom I had written to the Chief Minister. Last year on 10th day of Moharrum when the procession of Bibi rak-Alam was being taken on Elephant, he deprived thousands of persons who were standing for the whole day, the opportunity to offer their respects. He asked the person (Mahavat) who was driving the elephant not to stop anywhere. The third instance is the same CI is involved in this. The Nawab of Masulipatnam died in the month of August, 1976. He had gifted in writing to his youngest wife some valuable articles. But her step-son on 2-9-76
Discussions on Motion on address by the Governor.

Having trespassed into her premises had broken open the locks and removed those valuable articles, and this drama was played with the connivance of Narayanguda Police Mr Narayana Rao, Home Secretary who was personal friend of the Nawab Saheb knows all the details This CI and Sub-Inspector of the Narayanguda Police Station having sufficient proof and knowledge of this trespass into the premises and that of the theft of valuable articles, to this day no action has been taken Thet DCP and Circle Inspector (not the present DCP) and Sub Inspector— all got shares in the booty They got much out of this booty and no action is taken against any accused.

10-50 am I was holding an impression that the Inspector General of Police was a strict and fearless officer But I am told that at the instance of the Chief Minister he has abandoned the idea to take action against those culprits and they are scotfree even today. This is the law and order about which I have to say

You would recall Sir, that after the President’s departure, the Police Officers who were dead tired, soon after their duty was over rushed into Montgomery Hotel and caught hold of Cabaret Girls and that matter was raised by Smt Eswar Bai The Chief Minister said that enquiry would be held and report would be submitted before the House So far no report has been submitted and within two months of the occurrence of such crime he has been awarded meritorious service medal. Later he became Assistant Commissioner of Police. These are the things yet, I quite appreciate that the Governor who is from the Judiciary is not aware of these facts. Therefore, he had to read out what was prepared by the Govt But this is not the way to ask the Governor to read out things which are contrary to the facts, which give other impression and which hide the facts from the Members of the House. In view of all these circumstances, I request Sir that matters about which I have said are to be enquired into, instead of replying bluntly, the matter could be looked into and remedial action would be taken

Chief Minister accused of giving 2 crores 2 lakhs of black money  

To the Chair: The Hon'ble Governor, Shri R. A. S., addressing the Assembly, referred to 2 crores 2 lakhs of black money which had been seized during the Operation Manit.  

It was denied that the Hon'ble Governor or any other public servant of the Government had any direct or indirect connection with the seizure of the black money.  

Some Members raised objection to the Hon'ble Governor's reference to the black money and demanded that the Assembly should take a note of the matter.  

The Chair adjourned the Assembly for the day and fixed 4th March, 1977, for the resumption of the discussion on the address of the Governor.

Discussions on Motion on Address by the Governor—Contd.

Sri H. Satyanarayana (Adoni) — While thanking the Governor for his Address, I would like to point out one or two things and would like to bring them to the kind consideration of the Government. His Excellency in his Address has referred to various amenities that have been given to the weaker section, Harijans and others. There is also some discontentment among these sections. No doubt the weaker sections like Harijans, Girijans and others have been given free house sites to construct their huts or buildings in places like Adoni and other areas, but the house sites were given, as usual, in the lands which were being cultivated by the agriculturists. The Government very well known that when a particular land which is being cultivated as an agricultural land is there and if people want to build some house, they have to give a conversion fee to the concerned Municipality. After the prescribed conversion fee is given to the Municipality, then only those people who have got pattas can lay roads, construct houses, etc. and then the Municipality comes into picture and extend other amenities that are due to them. For this process, I am bringing to the notice of the Government that a large amount of conversion fees has to be paid and also a large amount of money has to be spent for laying of roads, etc. which the poorer sections cannot afford to incur. I brought this matter to the notice of the Minister for Municipal Administration. He says that it is not possible for the Municipality to give any exemption or to lay roads by itself. So, in this connection, I would like to bring to the notice of the Government that when the Social Welfare Department purchases land and grant these pattas for construction of houses or huts, the Social Welfare Department itself should spend some money for conversion and for laying of roads and then give these sites to the poorer people so that the Municipality can extend other facilities.

The Municipality has to extend the other facilities of light and water, immediately after construction of houses. At some places, after the construction of houses, till now, no water and light connections were given and these things are bringing discontentment among these poorer people, though we have done good to them. So, these points have to be considered and I request the Government to remove these difficulties.

Then, with regard to Land Reforms, the compensation that is given to the landlords is not adequate. They are saying—"Let the Government give compensation just on the lines of Karnataka or Maharashtra or other States." So, if the Government got the figures,
Discussion on Motion on address 24th March, 1977.

by the Governor

of Karnataka and Maharashtra States and give the same amount of compensation there would no be any difficulty. If that is done, the ryots would feel happy. I would also like to bring to the notice of the Government that the previous Case in the year 1972 was brought on the floor of this House that they will consider the proposal fixing up of proper compensation to the ryots. I am sure, your kind notice that people are feeling that the compensation now paid is very low and it should be enhanced. So, I hope that the Government would enhance the compensation to the level of compensation that has been given by the Karnataka State. Thank you, Sir.

The meeting was opened at 11.00 a.m. with the Governor's address delivered on the occasion. The address was followed by a discussion which lasted till 3.00 p.m. The Governor's address was marked by a clear analysis of the political situation in the country and the need for a strong and stable government.

The discussion was divided into two main parts: the first part focused on the economic problems facing the country, while the second part dealt with the political situation.

In the first part, there was a strong emphasis on the need for a coherent economic policy to address the country's economic challenges. The speakers highlighted the importance of reducing corruption and increasing transparency in the government to ensure that resources are used efficiently.

The second part of the discussion centered on the political situation. The speakers called for a united front to ensure stability and development. They also emphasized the need for a strong and effective opposition to hold the government accountable.

The meeting concluded with a vote of confidence in the government, with the Governor expressing confidence in the country's ability to overcome its challenges and move forward.

Discussion on Motion on Address 24th March 1977
by the Governor.

On the occasion of the Address by the Governor, I wish to draw your attention to certain points which I consider to be of importance. The Address is a formal communication from the Governor to the Legislative Assembly, outlining the Government's agenda for the coming year. It is a significant document as it sets the agenda for the legislative session and outlines the Government's priorities.

The Address is a reflection of the Government's commitment to improving the quality of life for the people. It highlights the Government's initiatives and programmes aimed at addressing the economic, social, and cultural needs of the people. I would like to commend the Government on its efforts to address these challenges.

However, I would like to raise certain concerns that I believe need to be addressed. Firstly, there is a need to address the issue of corruption, which is a major problem that affects the functioning of the Government. The Address should include a clear commitment to eradicating corruption and ensuring transparency in governance.

Secondly, I would like to highlight the need for better allocation of resources. The Address should address the issue of ensuring that resources are allocated in a way that maximizes their impact. The Government should prioritize programmes that are likely to have the greatest impact on the lives of the people.

Finally, I would like to urge the Government to pay more attention to the needs of the marginalized sections of society. The Address should include measures that address the specific needs of these groups and ensure that they are not left behind in the development process.

In conclusion, I believe that the Address provides a good opportunity to set the agenda for the legislative session. I urge the Government to take on board the concerns that I have raised and work towards addressing them. The Address should serve as a blueprint for the Government's actions in the coming year, and I hope that it will be a catalyst for positive change in the lives of the people.
Discussion on Motion on Address by the Governor.

The Governor addressed the House on the motion for the Address. He mentioned that the state was facing various challenges and requested the House to support his initiatives. He highlighted the importance of education, infrastructure development, and youth empowerment. The Governor assured the House of his commitment to address these issues and improve the quality of life for the people of the state.

The discussion continued with members of the House expressing their support and suggestions for the Governor's initiatives.

The Governor thanked the members for their support and assured them of his best efforts to implement the recommendations made during the discussion.

Discussion on Motion on Address by the Governor

A motion was moved by the Governor to address the following:

1. To discuss the need for a new constitution for the state.
2. To propose a new fiscal policy.
3. To review the current education system.
4. To consider the implementation of a new healthcare system.

The Governor emphasized the importance of these issues and called for a thorough discussion on each point.

The motion was seconded by several members of the assembly and was discussed at length. The debate was lively and constructive, with many members offering their insights and suggestions.

At the conclusion of the discussion, the motion was passed unanimously with a majority of 30 votes in favor. The Governor expressed his gratitude to all members for their active participation and support.

The Governor stated that these proposals would be implemented immediately and would be reviewed periodically to ensure their effectiveness.

The assembly then adjourned until 12:30 p.m. on the same day, for a meeting to discuss other matters.

The Governor concluded by emphasizing the importance of unity and cooperation in achieving the goals of the state.
